Open Enrollment Requests Superintendent recommended open enrollment requests for Joshua Duede from Waukee to ADM and for Adam and Bridget Doll from Van Meter to ADM, all for 1995-96. It was moved by Hemphill, seconded by Heefner, to approve open enrollment requests as presented. Motion carried unanimously.

Open Enrollment Transportation Request Superintendent recommended approval of a request by Karl Doll to transport his children, who are open enrolled from Van Meter, by district school bus since they live so close to the district boundary and our bus is already in the area. Van Meter has already approved this request. It was moved by Hemphill, seconded by Heefner, to approve the open enrollment transportation request as presented. Motion carried unanimously.

Bus Driver Drug Testing Policy Superintendent recommended Board policy 403.7 "Drug and Alcohol Testing Program" for first reading approval. It was moved by Heefner, seconded by Flater, to approve the first reading of Board policy 403.7 as presented. Motion carried unanimously.

Administrative Reports In response to a letter from the LeMars CSD, the Board asked the Superintendent to send a supportive letter to the district's legislative representatives.

During financial reports, payments to sports officials was discussed. Board consensus favored a process allowing payment between meetings with approval of the Board President, followed by Board approval at the next regular meeting as outlined in current Board policy.

Superintendent reported on the process for cancelling school due to inclement weather and relayed feedback from the marketing class project for the first semester.

Adjournment

It was moved and seconded to adjourn. Motion carried unanimously and the meeting was adjourned by President Hill at 9:50 p.m.

Minutes approved as <u>Presented</u>

### DRUG AND ALCOHOL TESTING PROGRAM

Employees who operate school vehicles are subject to drug and alcohol testing if a commercial driver's license is required to operate the school vehicle and the school vehicle transports sixteen or more persons including the driver or the school vehicle weighs twenty-six thousand one pounds or more. For purposes of the drug and alcohol testing program, the term "employees" includes applicants who have been offered a position to operate a school vehicle.

The employees operating a school vehicle as described above are subject to pre-employment drug testing and random, reasonable suspicion, post-accident, return-to-duty and follow-up drug and alcohol testing.

Employees operating school vehicles shall not perform a safety-sensitive function within four hours of using alcohol. Employees governed by this policy shall be subject to the drug and alcohol testing program beginning the first day they operate or are offered a position to operate school vehicles and continue to be subject to the drug and alcohol testing program as long as they may be required to perform a safety-sensitive function as it is defined in the administrative regulations. Employees with questions about the drug and alcohol testing program may contact the school district contact person, (superintendent/transportation director/other) at

Employees who violate the terms of this policy may be subject to discipline up to and including termination. Employees who violate this policy may be required to successfully participate in a substance abuse evaluation and, if recommended, a substance abuse treatment program. Employees required to participate in and who fail to or refuse to successfully participate in a substance abuse evaluation or recommended substance abuse treatment program may be subject to discipline up to and including termination.

It is the responsibility of the superintendent to develop administrative regulations to implement this policy. The superintendent shall also inform applicants of the requirement for drug and alcohol testing in notices or advertisements for employment, in the application form and personally at the first interview with the applicant.

The superintendent shall also be responsible for publication and dissemination of this policy and its supporting administrative regulations to employees operating school vehicles. The superintendent shall also oversee a substance-free awareness program to educate employees about the dangers of substance abuse and notify them of available substance abuse treatment resources and programs.

NOTE: It is important for the school district to read the accompanying administrative regulations and notes very carefully. This policy assumes the school district employs its drivers and owns the school vehicles rather than contracts with a private service provider with its own drug and alcohol testing program. School districts contracting with a private service provider must ensure the provider has a drug and alcohol testing program complying with the federal regulations.

Iowa law does not allow a school district to discipline and/or terminate a driver for their first positive test result on a drug or alcohol test if the driver undergoes a substance abuse evaluation and if the driver successfully completes the treatment, if any, recommended by the substance abuse professional. Drivers who fail to undergo the evaluation or fail to successfully complete the treatment, if any, recommended by the substance abuse professional may be disciplined up to and including termination.

The policy as written provides a significant amount of leeway to the board and the administration to keep a driver who tests positive for alcohol or drugs or otherwise violates the policy even after the second violation. The following revised paragraph three of the policy should be considered by those school districts wishing to terminate a driver upon the a second positive drug test or alcohol test result of 0.04 breath alcohol concentration or greater.

Employees who violate the terms of this policy may be subject to discipline up to and including termination. Employees who violate this policy may be required to successfully participate in a substance abuse evaluation and, if recommended, a substance abuse treatment program. Employees required to participate in and who fail to or refuse to successfully participate in a substance evaluation

or a recommended substance abuse treatment program may be subject to discipline up to and including termination. A second violation of this policy will result in termination.

This policy and the accompanying administrative regulations require the school district to designate a school district contact person for the drug and alcohol testing program. The title of the person designated should be entered in paragraph two. This person will answer questions from employees and others about the program, receive the test results and receive the identification numbers of the drivers who were selected for random testing and notify those drivers. If different persons will be doing these jobs, the policy and accompanying regulations must clearly explain which person handles which part of the drug and alcohol testing program.

Iowa law also requires the school district to provide substance abuse evaluation and treatment if recommended by the substance abuse professional with the costs apportioned according to the employee benefit plan. If there is no employee benefit plan, then the school district must pay the costs of the evaluation and treatment, if any.

The use of leave for the time the driver is off duty for evaluation by a substance abuse professional may be governed by the collective bargaining agreement language and/or past practice of the school district. It is recommended school districts consult with their school attorney prior to making a decision regarding questions they may have about the collective bargaining agreement.

Under Iowa law, the school district must inform applicants/drivers of the requirement for drug and alcohol testing in any notice or advertisement soliciting applicants/drivers for employment, in the application form and personally at the first interview with the applicant/driver.
