LEARN MORE AT INVENT.ORG/CAMP

A fourth grader finds fun in physics with her magnetic penguin pal.

An Instructor empowers a third grader to build creative problem-solving skills while designing her own claw machine.

A second grader gains confidence as he wires his transmitter and sends Morse code messages.

A TYPICAL DAY AT THE ALL-NEW 2025 CAMP INVENTION®

Give your child a summer experience that builds confidence, creativity and imagination! Campers team up with friends to explore open-ended STEM challenges led by qualified educators and guaranteed to be full of hands-on FUN!

A.M. BASE CAMP: Drop off your camper with qualified local educators who start each day with games that ignite creativity.

CLAW ARCADE™
Campers unleash nature-inspired creativity to make their own claw machines with unique prizes, then give a confidence-boosting pitch to hook investors!

PENGUIN LAUNCH™
Campers team up for an eco-expedition as they investigate Antarctica with a robotic assistant, then design launchers to propel plush penguins across snowy landscapes!

GAMES & LUNCH: Half the campers head outside to play action-packed games while the others eat lunch — and then they switch.

IN CONTROL™
Campers take the driver's seat on the ultimate road trip as they design a custom control panel and navigate their journey with help from GPS and AI tools!

ILLUSION WORKSHOP™
When they explore the science behind special effects, campers uncover optical illusions in movies, art and animation before building their own moving props!

P.M. BASE CAMP: The day wraps up as campers wind down with problem-solving games.
