Dear Parents & Students in Math 7A,

This letter is to inform you of the criteria to move on to Algebra in 8th grade. If the criteria is not met at the end of 7th grade, you will move on to Math 8. Math 8 is an introduction to Algebra and will lead you into Algebra freshman year of high school. See below the path options for each grade level.

Math Progression in Middle School Leading to High School

Key

---→ Not Typical Progression

Criteria Needed to Earn Placement in 8th Grade Algebra

You will need to earn at least 10 points total from the criteria listed below.
