

IO Assessment
CAASPP Dashboard and Matched Case or Cohort

In the CAASPP Dashboard are two additional reports under More CAASPP Reports.

- Distance from Met (DFM) by Grade - **Matched Case**: This report compares scores from the same group of students over two years. For example, last year's 7th grade scores versus scores from those same students when they took the test this year as 8th graders.
- Distance from Met (DFM) by Grade - **Cohort**: This report compares scores from different groups of students (cohorts) over two years. For example, last year's 4th graders and this year's 4th graders.

Step 1 - Click on the CAASPP Dashboard.

Step 2 - Select your student group.

A screenshot of a web form titled "Student Group" in blue text. The form has two tabs: "Regular" (selected) and "Custom Classrooms". Below the tabs are five dropdown menus, each with a blue icon to its right. The fields are: "Enrollment:" with "Current" selected; "Site:" with "VILLEGAS MS" selected; "Grade:" with "6" selected; "Teacher:" with "All" selected; and "Subgroup:" with "All" selected.

Step 3 - Select the test that you want to look at.
