

## **Single Plan for Student Achievement Annual Evaluation 2020-2021**

Pursuant to California *Education Code* Section 64001, the School Site Council (SSC) must evaluate at least annually the effectiveness of planned activities. In the cycle of continuous improvement of student performance, evaluation of the results of goals will provide data to inform and guide subsequent plans.

Annual evaluation by the SSC and local educational agency (LEA) is a critical part of the continuous cycle of improvement for a school. Furthermore, it is an integral component of the Compensatory Education (CE) Federal Program Monitoring (FPM) review process for Single Plan for Student Achievements (SPSAs). During an FPM review, the SSC and LEA must be able to provide evidence of the evaluation process to determine if the needs of students are being met by the strategies described in the SPSA.

The SPSA annual evaluation may be a summary description of the school's progress toward implementation of the strategies and actions in the SPSA. The report may also include a data analysis of the school's progress towards its student achievement goals based on local, state, or national assessment data.

During the evaluation process, it is important for the SSC and LEA to exercise caution about jumping to conclusions about the effectiveness or non-effectiveness of specific activities and programs without examining the underlying causes. The SSC and LEA should consider all relevant factors when evaluating the plan, such as the degree of implementation, student enrollment changes, and health and safety issues.

Please complete the annual SPSA evaluation using the following questions to guide the process and assist in developing the site SPSA for the next year. The completed SPSA Annual Evaluation document should be submitted with the SSC meeting packet.

  - What actions were undertaken to mitigate those barriers or adjust the plan to overcome them?
  
  - What impact did the lack of full or timely implementation of these strategies have on student outcomes? What data did you use to come to this conclusion?

- Identify those strategies or activities that were particularly effective in improving student achievement. What evidence do you have of the direct or indirect impact of the strategies or activities on student achievement?
  
- Identify those strategies or activities that were ineffective or minimally effective in improving student achievement.
  - o Based on an analysis of the impact of the strategies/activities, what appears to be the reason they were ineffective in improving student achievement?
