SECTION I GENERAL CONSIDERATIONS AND PLANNING GUIDELINES

PURPOSE

Emergencies in schools are defined as undesirable events that occur and have the potential to cause injury or illness to members of our school community or disrupt the orderly educational process. They range from acts of bullying or harassment to catastrophic natural or man-made events. Emergency management is the discipline of dealing with and avoiding risks. It is a discipline that involves preparing for an emergency situation or disaster before it occurs as well as supporting and rebuilding from the emergency after natural or human-made disasters have occurred.

Emergency management in our schools is the continuous process by which our staff, students, administrators, parents, school groups, emergency responders and our community manages hazards in an effort to avoid or mitigate the impact of disasters resulting from hazards. Preventive measures and good planning will reduce the likelihood that emergencies will occur and allow us to address those that do in an expeditious and effective manner.

Districts are required to develop district-wide school safety and emergency management plans designed to prevent and effectively manage such events to minimize the effects of serious incidents and emergencies. These plans also facilitate the coordination of the District with local and county plans and resources when incidents and emergencies occur.

The district-wide plan is responsive to the needs of all schools in the District and is consistent with the more detailed building-level emergency plans. Districts are vulnerable to a wide variety of acts of violence; and natural and manmade disasters. To address these threats, the State of New York has enacted the Safe Schools Against Violence in Education (S.A.V.E.) law. Project S.A.V.E. is a comprehensive planning effort that addresses prevention, response, and recovery with respect to a variety of emergencies in schools.

The Amityville Union Free School District supports the S.A.V.E. legislation. As such, the Superintendent of Schools, Board of Education, and the entire District staff encourages and advocates on-going district-wide cooperation in support of Project S.A.V.E.

4. Ensuring the completion and yearly update of building-level emergency response plans for each school building¹³ The CEO will require each building principal to maintain a Building-level Emergency Response Plan in compliance with Commissioner of Education Regulation 155.17(2). Each plan should be updated annually with the assistance of the Building Emergency Response Team (BERT). The plan shall provide for lockdown, lockout, sheltering, evacuation, early dismissal, fire and other emergency planning and notification (when necessary) to students and staff, annual drills and exercises, and coordination with local and county emergency preparedness administrators. These plans shall be submitted to the District's Safety Team for annual approval and incorporation into the overall District-wide Safety and Emergency Management Plan.

PREVENTION AND INTERVENTION STRATEGIES²⁵

The District utilizes a variety of intervention strategies to reduce risk and prevent critical incidents.

1. The District utilizes trained multidisciplinary Threat Assessment Teams (*a.k.a. Behavioral Assessment Teams*) at each building to evaluate threats and implement the appropriate mitigation strategies. The District provides support and record keeping for the activities of each team.
2. The District has established a District multidisciplinary Behavioral Assessment Team which assesses whether certain exhibited behaviors or actions need intervention or other support. The Behavioral Assessment Team convenes annually to conduct staff training sessions on the safety and emergency procedures of such team²⁶
3. The District utilizes a multidisciplinary Behavioral Threat Assessment Team provided by the District that assesses whether certain exhibited behaviors or actions need intervention or other support. The Behavioral Threat Assessment Team is available to the District whenever a threat is identified and requires evaluation.
4. The District Safety Team engages in table top exercises to discuss their roles during an emergency and their responses to a sample emergency situation.²⁷
5. Any utilized school safety officers and other security personnel are trained annually with the assistance of one or more of the following collaborative relationships:
 - Emergency Responders
 - Regional BOCES
 - District Consultants
6. Training for school staff working in an incident control capacity may include:
 - a. Individual and group de-escalation techniques
 - b. Non-violent conflict resolution skills and
 - c. Peer mediation

²⁵ 155.17(c)(1)(iii) appropriate prevention and intervention strategies, such as:(a) collaborative arrangements with State and local law enforcement officials, designed to ensure that school safety officers and other security personnel are adequately trained, including being trained to de-escalate potentially violent situations, and are effectively and fairly recruited;(b) nonviolent conflict resolution training programs;(c) peer mediation programs and youth courts; and(d) extended day and other school safety programs

²⁶155.7(4)(1)(iii)(b) the establishment or participation of school or district staff in a multidisciplinary behavioral assessment team to assess whether certain exhibited behaviors or actions need intervention or other support, including a school or district level behavioral assessment team or, if available, a county or regional threat assessment team. Where utilized, the district-wide school safety plan shall provide a description of the school, district, or county team and its purpose. Annual staff training on safety and emergency procedures shall include information regarding the purpose and procedures of such team.

²⁷155.15(4)(1)(xiv)(2) Tabletop exercises may be utilized by school and district safety teams as a training resource and may include a discussion-based activity for staff in an informal classroom or meeting-type setting to discuss their roles during an emergency and their responses to a sample emergency situation.

7. The District may provide de-escalation techniques and nonviolent conflict resolution training to other staff annually. Each building has some staff trained in nonviolent conflict resolution.
8. Training may be available during staff development sessions, on conference days and via on-demand web-based training modules.
9. Procedures relating to building security including utilization of staff and security equipment are as follows:²⁸
 1. All authorized staff members are expected to carry their classroom/office keys/swipe cards at all times.
 2. All staff members are expected to wear District-issued photo identification badges.
 3. After the designated start time of the school day, each school will be appropriately secured.
 4. All visitors must report to each building's designated single point of entry and sign in before proceeding further into the building.
 5. All contractors assigned to work in any building must first be authorized by the Facilities Department to receive an identification badge, which must be visible at all times when workers are on school property. All deliverables and delivery personnel must first be authorized by the Facilities Department, prior to delivery. An exception for regular food service deliveries may be made after the vendor has been authorized for the school year.
 6. Extended day and other school safety programs - The District's school buildings and facilities provide a valuable resource to our students and community after the conclusion of the school day. The following strategies are utilized during after-school hours:
 1. To the degree possible, access to areas of the school building is limited to only those needed for activities.
 2. Some buildings may use a modified point of entry.

The District continually investigates other security measures and conducts staff development training to ensure schools are as safe as possible. Security measures include:

- a. Security personnel
- b. Surveillance cameras
- c. Door-lock (buzzer) entry systems
- d. Portable Radios
- e. Alarm Systems
- f. Keypad or swipe entry systems
- g. Single or limited points of entry
- h. Electronic interior door control system in progress

²⁸ 155.17(b)(1)(xi) policies and procedures relating to school building security, including, where appropriate, the use of school safety officers and/or security devices or procedures;

IMPROVING COMMUNICATION WITH STUDENTS

Each of the schools within the District provides a wealth of school safety-related initiatives aimed at improving communication among students, between students and staff, and between administration and parents or persons in parental relation.²⁹ These programs may include the establishment of youth-run programs, creating a forum or designating a mentor for student peer mediation, bullying prevention, conflict resolution, social skills development, managing emotions and components of character education. Students are involved in a wide variety of safety activities through both their classes as well as through work with school counselors, social workers, and school psychologists. By October 1st of each school year, the superintendent and chief school administrator have provided written information to all students and staff about emergency procedures.³⁰

District is currently researching an anonymous reporting system for school violence and harassment.
31

The school district's Code of Conduct is accessible to parents and students and reviewed with all students in the beginning of the school year. During the review with students, bullying, discrimination, harassment and violations of the Code of Conduct, along with consequences are discussed.

All staff members are trained in recognizing and effectively dealing with these behaviors, as outlined in the Code of Conduct.

In addition, each school has a wide range of programs and supports that impact school safety. These may include offering a variety of clubs, classroom lessons, small group lessons and/or individual counseling sessions, school-wide meetings, morning meetings in classrooms, assemblies, mindfulness rooms, yoga and movement breaks, and a variety of wellness opportunities. In 2022 the District adopted a social emotional learning program from Yale University, RULER.

REPORTING THREATS OR ACTS OF VIOLENCE

Students, staff, parents and others are informed annually about the importance of reporting threats or acts of violence and the procedures of reporting.

The District has developed a system for reporting threats and actual acts of violence. The procedure for reporting is as follows:

- Students are instructed to report threats and acts of violence to staff members.

²⁹155.17(4)(3)(xvi) strategies for improving communication among students, [and] between students and staff and between administration and parents or persons in parental relation regarding reporting of potentially violent incidents, such as the establishment of youth-run programs, peer mediation, conflict resolution, creating a forum or designating a mentor for students concerned with bullying or violence and establishing anonymous reporting mechanisms for school violence;

³⁰ 155.17(g) By October 1 of each school year, the superintendent and chief school administrator have provided written information to all students and staff about emergency procedures.

³¹ 155.17(c)(1)(xvi) strategies for improving communication among students and between students and staff and reporting of potentially violent incidents, such as the establishment of youth-run programs, peer mediation, conflict resolution, creating a forum or designating a mentor for students concerned with bullying or violence and establishing anonymous reporting mechanisms for school violence;

- Staff members are required to report all student referrals to the administration for investigation.
- Staff training programs meet S.A.V.E. requirements. Instruction on issues of school safety is provided to all employees each year.

TRAINING, DRILLS AND EXERCISES

Drills and Exercises:³²

Drills conducted during the school day with students present shall be conducted in a trauma-informed³³, developmentally, and age-appropriate manner and shall not include props, actors, simulations, or other tactics intended to mimic a school shooting or other act of violence or emergency.³⁴ The New York State Fire Code requires that the fire alarm be used in an evacuation drill, and it is not considered a prop.

At the time that drills are conducted, students and staff shall be informed that the activities being conducted are a drill. Drill dates must be conducted on different dates as well as days of the week and times of the day.³⁵

The District will conduct emergency management drills and exercises annually including, but not limited to:

EVACUATION AND LOCKDOWN DRILLS.³⁶ Evacuation and lockdown drills will be conducted during school days in each school within the District with staff and students twelve (12) times annually (September – June). The first six (6) drills are conducted prior to December 31st of each school year. Six (6) of all such drills shall be evacuation drills. Four (4) of all such required drills shall be lockdown drills with two (2) of these drills being held between September 1st and December 31st each year. Prior to the first annual drill, staff shall review emergency response procedures and drill requirements with students during class time. Students are also provided the opportunity to ask questions on any procedure that they are not clear on. The appropriate Fire Department may, upon mutual agreement with the District, participate in some or all of the drills and offer feedback regarding effective building evacuation in the event of a fire. Four of the required drills must be through use of the fire escapes on buildings *where*

Drills may inadvertently prompt a negative emotional or psychological response in staff or students because of previous exposure(s) to trauma.

³⁴ 155.17(4)(xiv)(1) Drills conducted during the school day with students present shall be conducted in a trauma-informed, developmentally, and age-appropriate manner and shall not include props, actors, simulations, or other tactics intended to mimic a school shooting or other act of violence or emergency.

Drills shall be conducted on different dates as well as days of the week and times of day with at least one of the eight required evacuation drills occurring during a mass gathering event such as lunch or assemblies. Instruction in drill procedures, including during lunch periods and assemblies, is conducted annually by staff.³⁸ At least two additional drills must be held during summer school in buildings where summer school is conducted, one must be held during the first week of summer school.³⁹ Unplanned evacuations or false alarms do not count as a required drill. Evacuations made necessary by the unplanned activation of the fire alarm system or by any other emergency shall not be substituted for a required evacuation drill.⁴⁰

Prior to the commencement of each school year, the Building-Level Emergency Response Planning Team shall conduct an inventory of any special needs students. Appropriate accommodations for the school year will be incorporated into each Building-Level Emergency Response Plan.

Lockdown Drills: Notice to parents and those in parental relations regarding drills must be made within one week prior to each drill.

Evacuation Drills: Evacuation drills need not be announced in advance. However, the New York State Fire Code requires that the fire alarm be used in an evacuation drill, and is not considered a prop.

In addition to post-drill debriefings conducted by each building-level emergency response planning team, each building will complete a drill evaluation form that will be submitted to the district-wide safety team for periodic review, which includes observations from the drill as well as any additional feedback

The District will provide advanced training for each Building-level Emergency Response Planning Team (BERT) and District-wide Safety Team annually. The training will include practices and procedures to educate, evaluate, update and review all Emergency management protocols and procedures the teams perform including, but not limited to Lockdown, Lockout, Evacuation, Shelter-In-Place, Hold-in-Place and Early Dismissal. The District may involve local emergency responders to participate in this training.

Additional training may include but is not limited to:

2. All schools have greeters or office staff members just inside the entrance to each school in the District. These individuals ensure visitor sign-in procedures and help supervise building traffic flow. The building principals are responsible for supervision of the greeters and other staff.
3. Staff members are required to wear visible identification badges.
4. Visitors are required to sign in and wear visitor identification.
5. Visitor access is limited to specific areas of the school building.

VITAL EDUCATIONAL INFORMATION⁵⁰

Information on each building's student and staff, transportation needs, and the telephone numbers of key officials are outlined in each Building-level Emergency Response Plan. The purpose of including such information in the Building-level plan is to ensure coordination or coverage in the event of a serious incident.

⁵⁰ 155.17(h)(i) Except in a school district in a city having a population of more than one million inhabitants, the chief executive officer of each educational agency located within a public school district shall provide to the superintendent of schools information about school population, number of staff, transportation needs and the business and home telephone numbers of key officials of such educational agencies.

EARLY DETECTION OF POTENTIALLY DANGEROUS BEHAVIOR⁵¹

This section contains the District policy and procedure for disseminating information regarding early detection of potentially dangerous behavior.

1. A “plain language” summary of the District’s Code of Conduct is provided to all students in the District at the start of every school year to ensure that all students understand acceptable behavior in the school setting. The Code of Conduct delineates, among other behavior, lack of tolerance for harassment, discrimination, bullying and violence.
2. A “plain language” summary of the District’s Code of Conduct is mailed or available on the Parent Portal for all parents/guardians of students in the District at the start of each school year, and is disseminated at the time of registration thereafter.
3. All new employees will be provided with a copy of the Code of Conduct at the time of hire. The Code of Conduct is available on the website for annual review by teachers and other staff members.
4. Efforts are made on the building level in each of the District’s schools to identify, prevent, and resolve potentially dangerous behavior at the earliest possible stage. Teams meet regularly in each building in order to work with classroom staff in identifying and preventing potentially dangerous behavior. School counselors, school psychologists, school social workers, nurses, outside agencies (when appropriate), administrators, teachers, bus drivers and monitors, parents/guardians and students may be involved in this process.
5. District students at all grade levels participate in instruction guided by evidence-based violence prevention/intervention programs. Elements of these programs support students in identifying potentially violent or problematic situations with peers and in developing strategies to address these such as reporting to an adult.
6. Secondary health curricula incorporate information regarding emotional health, the impact of drugs and alcohol on an individual’s behavior, and on responsible decision-making.
7. Each of the District’s school psychologists/social workers may facilitate counseling groups for identified students around issues related to poor social skills development, managing emotions, and good decision-making.

⁵¹ 155.17(c)(1)(xii) policies and procedures for the dissemination of informative materials regarding the early detection of potentially violent behaviors, including but not limited to the identification of family, community, and environmental factors to teachers, administrators, school personnel including bus drivers and monitors, parents [and] or other persons in parental relation to students of the school district or board, students and other persons deemed appropriate to receive such information;

8. Certified and noncertified staff members working with students who have been identified by the Committee on Special Education as being at-risk for engaging in violent behaviors receive annual training in crisis prevention and intervention.
9. The District may work in collaboration with building-level and District-wide APTC to offer parents/guardians information regarding early-warning signs of potentially dangerous and/or violent behavior, as well as a forum to discuss specific parental concerns.

SECTION III RESPONSE

NOTIFICATION AND ACTIVATION - INTERNAL AND EXTERNAL COMMUNICATIONS

INTERNAL

After receiving the information from the Incident Commander at the scene, an email will be sent from the Superintendent's office to all administrators and administrative offices alerting them to the nature and status of any incident in the District. The mass communication system may be used to provide information as deemed appropriate by the Incident Commander. Portable radios will also be used when possible.

EXTERNAL

Anyone with knowledge of an emergency event is encouraged to immediately call 911.

The District's mass communication system will be used to provide information to parents/guardians and emergency contacts. The District website may also be used to provide updated information throughout an incident as deemed appropriate by the Incident Commander. Schools may also use their websites, groups, and hotlines for announcements or updates as directed by the Incident Commander.

When an emergency requires notification of parents and students, the Superintendent or his/her designee will provide updated information to parents and students through the emergency notification system. Additional information may also be found on the District's website: <http://www.amityvilleschools.org/>

During an emergency, all contact with the media will be handled either by the Superintendent or their designee. The media and public will be informed and updated as soon as practicable on all developments in statements released by the Superintendent or their designee. Students, staff and parents should refer all questions and requests for information to the Superintendent in order to assure the release of factual and current information. The Superintendent may refer such requests to the District's Public Relations firm for response.

By definition, emergency events are unforeseen and unpredictable. The safety of students and staff is the primary focus of all activities surrounding an emergency event. Every effort will be made to contact parents and the general public once the situation has stabilized.

SITUATIONAL RESPONSES

MULTI-HAZARD RESPONSE

In the event of an emergency, a Command Center will be set up at a safe location in collaboration with emergency responders. Each building has specific plans for dealing with a wide range of hazards. Specific response procedures are sensitive in nature and therefore are contained within each confidential building-level emergency response plan.

In each emergency, the building's administrator will contact the District office for assistance. The District office will provide support as appropriate and deemed necessary by the Incident Commander on the scene (i.e. sending additional mental health resources). The Superintendent or their designee will be the sole contact person for releasing information to the media and for communicating the status of the emergency with other District schools, out-of-district schools, private schools, and outside agencies.⁵³

The Principal will have the discretion to report minor incidents to the Superintendent verbally and/or in memorandum form after the situation has been resolved.
5. The buildings have the availability of a Threat Assessment Team. This is a multi-disciplinary team that uses a nationally recognized evidence-based model to evaluate threats and implement the necessary mitigation steps to help prevent a threat from escalation to an act of violence.

The Principal or their designee will determine whether to contact law enforcement personnel. **Threats or actions placing students, staff and others in imminent danger require an immediate LOCKDOWN protocol followed by a call to the police and the District Superintendent (if safe to do so).** Violent offenses defined in the S.A.V.E. regulations will also require the involvement of the police.
2. The Principal, and/or their designee then determine the appropriateness of directing the Building-level Emergency Response Team to be activated.
3. The Building-level Emergency Response Planning Team consisting of trained staff and school personnel may assist with an Evacuation, Lockout, Shelter-in-Place, Hold-in-Place, or Early Dismissal and will follow the appropriate protocol (see appendices for further information). The Incident Command System (ICS) under the National Incident Management System (NIMS) should be followed as closely as possible to ensure good coordination between the building-level teams, District leadership, and responding agencies.
4. If the threat of violence or danger is imminent, a Lockdown may be utilized. A Lockdown is time sensitive and therefore may be requested by any school staff member based on the incident and timely need for the Lockdown. During the Lockdown, all school staff, students, and visitors (including all BERT members) are required to Lockdown in the nearest lockable space and await further instruction, or in some situations, evacuate the campus.
5. Procedures for contacting parents, guardians and persons in parental relation to students in the event of a violent incident or early dismissal are detailed in each building-level emergency plan. The use of the District's mass communication system is typically utilized.
6. Aggressively dangerous and violent students, teachers, other school personnel, bus drivers and monitors, or visitors shall be managed as outlined by the procedures detailed in the district Code of Conduct.
7. The building administrator will investigate reported threats of violence and will make the determination of disciplinary measure consistent with the District's Code of Conduct.
8. School administrators must keep records of serious threats and acts of violence and report them annually to the State.
9. Prompt contact with appropriate law enforcement officials is essential in the event of a violent incident. These relationships have been established by participation of local response officials on Building-Level Emergency Response Planning Teams. These individuals and appropriate means of

10. The District has a zero-tolerance policy for acts of school violence in accordance with Federal and State Laws.

PROTOCOLS FOR A STATE DISASTER EMERGENCY INVOLVING A COMMUNICABLE DISEASE

The following procedures provide a general overview of the District's response to a State Disaster Emergency and may require modification during an actual event based on a number of factors. The District will follow current guidance from the County Department of Health, State Department of Health and the State Education Department related to masking, distancing, quarantines, and other health-related requirements.

BACKGROUND

In September 2020, Governor Cuomo signed legislation that requires all New York State public employers to adopt a plan for operations in the event of a declared State disaster emergency involving a communicable disease. The new legislation will constitute New York State Labor Law [Section 27-c](#), and serve as a response to the effects of the sudden onset of the COVID-19 pandemic in the Spring of 2020. In addition to 27-C, the following section was added to [2801-a of the Education Law](#) that required additions to the District Plan.

Education Law - 2801-a (m) - protocols for responding to a declared State disaster emergency involving a communicable disease that are substantially consistent with the provisions of section twenty-seven-c of the labor law.

IDENTIFICATION OF DISTRICT RESOURCES WHICH MAY BE AVAILABLE FOR USE DURING AN EMERGENCY⁵⁸

District resources are available in each building and stored in a central location. Each building will designate a Command Post. The list, which is not meant to be inclusive, requires the following items:

COORDINATION AND SCHOOL DISTRICT RESOURCES AND MANPOWER DURING EMERGENCIES⁵⁹

The District will, as appropriate, utilize all available manpower during an emergency. Within each building, schools may use the Staff All Call response protocol, that quickly summons all available staff members to a staging area for assignments. Coordination of available employees is typically performed by the Principal or their designee. Specific job duties will be assigned based on the type of emergency and in compliance with the appropriate District and building emergency response procedure. Additional District resources may be requested by any building administrator or designee as needed. The Superintendent or their designee will call in all available maintenance and custodial staff to provide support during an emergency as needed. Assistance from outside government agencies may also be requested. A specific list of available resources may be found in Appendix 4 of this plan.

PARTICIPATING IN UNIFIED COMMAND UNDER ICS PRINCIPLES

ASSIGNMENT OF RESPONSIBILITIES

A chain of command consistent with the National Interagency Incident Management System (NIMS)/Incident Command System (ICS) will be used in response to an emergency. Members of the School, Emergency Response Team, will be part of this system. In the event of an emergency, the response team will adopt NIMS/ICS principles based on the size, scope, and character of the emergency.

1. All administrators and Building-level Emergency Response Planning Teams members shall complete the incident command training level one.
2. All District Emergency Response Team members shall complete incident command training level one and level two.

EMERGENCY REMOTE INSTRUCTION

Alternative Model

In the event a class must be quarantined or a school building closed, the District will shift to a remote learning model.

- Instruction will be implemented through the use of Google Classroom and other approved District software.
- Students will follow a modified version of their daily schedule for the duration of the closure.
- Depending on the nature of the closing instruction will be delivered via live streaming and or prerecorded video.

OVERVIEW

The District may offer remote instruction days to students in the event-of-an-emergency condition, including, but not limited to, extraordinary adverse weather conditions, impairment of heating facilities, insufficiency of water supply, shortage of fuel, destruction of a school building, or a communicable disease outbreak.

When making decisions about remote instruction, the District consulted with students, parents, teachers, administrators, community members, and other stakeholders in designing the District's reopening plan. When implementing remote instruction, the District will ensure that it is complying with applicable teaching and learning requirements.

DEFINITIONS

- A. "Asynchronous instruction" means instruction where students engage in learning without the direct presence (remote or in-person) of a teacher.
- B. "Non-digital and/or audio-based instruction" means instruction accessed synchronously and/or asynchronously through paper-based materials where the student to teacher interaction occurs via telephone or other audio platforms.
- C. "Remote instruction" means instruction provided by an appropriately certified teacher who is not in the same in-person physical location as the student(s) receiving the instruction, where there is regular and substantive daily interaction between the student and teacher.
 1. Remote instruction will encompass synchronous instruction provided through digital video- based technology and may also include asynchronous instruction intended to complement synchronous instruction. Digital video-based technology includes online technology and videoconferencing technology.
 2. Remote instruction may encompass non-digital and audio-based asynchronous and/or synchronous instruction where this instruction is more appropriate for a student's educational needs.
- D. "Synchronous instruction" means instruction where students engage in learning in the direct presence (remote or in-person) of a teacher in real time.

FORMATS AND METHODS OF REMOTE INSTRUCTION

Remote instruction may be delivered through a variety of formats and methods. Determinations about how to best deliver remote instruction will take into account a variety of factors including, but not limited to, the number of students involved, the subject matter, the students' grade levels, and technological resources of both the District and students. Consideration will also be given to whether accommodations need to be made for students with disabilities or English language learners. Each school's Building-level Emergency Response Plan will contain this confidential information in the Continuity of Instruction Plan (COIP) section.

INSTRUCTIONAL OPTIONS

The District may engage students in synchronous and asynchronous learning on days of remote instruction under emergency conditions with an expectation that asynchronous instruction is supplementary to synchronous instruction. When remote instruction by digital technology is unavailable, appropriate special accommodations for students will be made to aid their learning.

COMPUTER AND CONNECTIVITY ACCESS FOR STUDENTS

The District will ensure that students have the necessary equipment at home to participate in remote instruction.⁶⁰ No later than June 30th of each school year, the Superintendent will report to the Commissioner of Education the results of the survey on student access to computing devices and access to Internet connectivity on a form and format prescribed by the Commissioner.⁶¹ The information received from the survey will aid in the development/updates to the detailed Continuity of Instruction Plan in each school's Building-level Emergency Response Plan.

MINIMUM INSTRUCTIONAL HOURS

Remote instruction provided on days when the District would have otherwise closed due to an emergency condition may be counted toward the annual hourly requirement for the purpose of State aid. The Superintendent will certify to the New York State Education Department, on a form prescribed by the Commissioner, that an emergency condition existed on a previously scheduled school day and that the District was in session and provided remote instruction on that day and indicate how many instructional hours were provided on that day and certify that remote instruction was provided in accordance with the District's emergency remote instruction plan.

⁶⁰ 155.17(xxi)(a) ensure computing devices will be made available to students

⁶¹ 155.17(f)(2) Beginning in the 2022-2023 school year, each chief executive officer shall report to the Commissioner, no later than June 30 of each school year, on a form and format prescribed by the Commissioner, the results of the survey on student access to computing devices and access to internet connectivity

REMOTE INSTRUCTION SUPPORT

As necessary, the District will provide instruction on using remote instruction technology and IT support for students, teachers, and families. The District will also work to ensure that teachers and administrators are provided with professional development opportunities related to designing an effective remote instruction experience.

COMPLIANCE WITH DISTRICT POLICIES, PROCEDURES, AND THE CODE OF CONDUCT

Teachers and students are required to comply with any and all applicable District policies, procedures, and other related documents as they normally would for in-person instruction. Examples include, but are not limited to, the District's policies and procedures on non-discrimination and anti-harassment, acceptable use, and copyright. Students will also be required to abide by the rules contained within the *Code of Conduct* at all times while engaged in remote instruction. Violations of the *Code of Conduct* and/or engaging in prohibited conduct may result in disciplinary action as warranted.

PRIVACY AND SECURITY OF STUDENT AND TEACHER DATA

The District will take measures to protect the personally identifiable information of students and teachers from unauthorized disclosure or access when using remote instruction technologies in compliance with law, regulation, and District policy. Examples of these measures include, but are not limited to, minimizing the amount of data shared to only that which is necessary, de-identifying data, and using encryption or an equivalent technical control that renders personally identifiable information unusable, unreadable, or indecipherable to unauthorized persons when transmitted electronically.

SECTION IV COMMUNICATION WITH OTHERS

Parental notification procedures for a student involved in disciplinary situations shall be consistent with the Code of Conduct and New York State law, and shall be presented clearly and concisely to staff and students each year.

Note: The local public Library online resources are available remotely and can be accessed by students who have a library card.

DISTRICT SUPPORT FOR BUILDINGS

When the Chief Emergency Officer is notified that an emergency exists, he/she will respond accordingly.

Members of the District Safety Team will assist as needed either at their respective Building Command Posts or by responding where directed by the Incident Commander(s). The District Safety Team will assign such other personnel as deemed necessary to meet the needs of the situation.

The District Safety Team members will remain at their assigned posts until the Incident Commander(s) has determined that the emergency is over, or it is unsafe, or no longer necessary to remain, or need to relocate.

Should the incident involve a single building, at the discretion of the District Safety Team leader in consultation with that building's administrators and Building Emergency Response Team (BERT), other school buildings may be called to support the Building Emergency Response Team in that building.

Should the incident involve multiple buildings, at the discretion of the District Safety Team leader, in consultation with building administrators, additional mental health support from the County Crisis Team and local area hospitals may be solicited to support the Emergency Response Teams in the affected building(s).

In any case, a “debriefing”, or post-incident analysis, will be facilitated by the District Safety Team. This process will include a review of the actual incident, the Team’s response to the incident, and post-traumatic incident debriefing.

District clinicians (or, mental health professionals from outside agencies if they have been involved) will provide ongoing as-needed support to the Team members, and will monitor post-traumatic stress symptoms in team members. As appropriate, team members may be provided with a referral to EAP and/or with information regarding private mental health providers in the area.

Principal(s) are expected to consult with the District Public Information Officer in composing letters to parents following any emergency. The District’s Public Information Officer will assist in sending mass communication messages to affected groups. The District’s Liaison Officer will communicate with outside agencies, such as the County Health Department, to provide necessary services following any emergency.
