

Assumptions

- :: Findings and conclusions of 2005 Master Plan are relevant today
- :: BHS 100 Building, Blakely Elementary, Ordway Elementary and Commodore Options are currently in need of significant facility repair/improvements. The extent of repair/improvement is currently under evaluation. Findings will play a critical role in determining the extent of improvement at each school
- :: The 2005 Master Plan identified Blakely as the next elementary school in need of replacement
- :: The Bainbridge Island School District is committed to maintaining a north, south and central elementary school
- :: The BHS 100 Building, Ordway Elementary and Commodore Options are interrelated physically on the main campus. A comprehensive review of educational trends, community partnerships and program analysis should be undertaken prior to any significant future facility modernization or replacement
