Boscobel Area Schools

Inclement Weather

In the event of inclement weather, the District will operate on one of three schedules: a) School Closing, b) Two (2) Hour Delay, or c) Early Dismissal. School day modifications will be announced over the following radio and television stations:

- KDTH - Dubuque - FM 92.9
- KIYX- Dubuque- FM 106.1
- WDMP- Dodgeville - FM 99.3
- WGLR - Lancaster FM 97.7
- WIZM - La Crosse - FM 93.3
- WPRE - Prairie du Chien - FM 94.3
- WPVL- Platteville - FM 107.1
- WRCO - Richland Center - FM 100.9
- WVRQ - Viroqua - FM 102.3
- WKOW TV27
- WISC TV3
- WKBT TV8
- NBC TV15
- WXOW TV19
- Skylert
- Facebook

Signing Day!!

Gretta Grassel signed her National Letter of Intent to play softball for the Mississippi State Bulldogs. Gretta has been dominant in her WIAA softball career. Gretta is just the second player in Mississippi State program history from the state of Wisconsin! The Boscobel Bulldogs are looking forward to a great season.

Congratulations Gretta!!

Fall Donation

Boscobel Middle School and High School Student Councils sold Fall leaves to students and staff to raise money for the SWCAP Northern Grant County Food Pantry. The total amount raised was \$160.

Pictured with the check are students and Chris Moll from the Food Pantry.

Art Club Mural

The Art Club recently finished a mural designed by Genesis Burtsfield on a panel provided by Nate Copsey last year. Although Genesis graduated before its completion, the Art club continued this fall with her theme using acrylics, tempera, and markers.

Pictured from left to right are some of the participants: Wes Brown, Echo Johnston, Genesis Burtsfield, and Ben Johnston

DHS Launches Wisconsin Wayfinder: Children's Resource Network

“Connecting Wisconsin families with special health care needs to essential support and resources”

Last week the Wisconsin DHS launched a new service that will transform the support structure for families of children with delays, disabilities, special health care needs, or mental health conditions. Wisconsin Wayfinder: Children's Resource Network includes a user-friendly website and toll-free helpline that lets families easily connect with real people (dedicated children's resource guides) who will help navigate through the essential services and supports that will enable their children to thrive.

“This service is a critical step toward improving the way families with special health care needs access and connect with the vital resources they need, especially during crucial moments like after an initial diagnosis,” said DHS Deputy Secretary Deb Standridge. “Our children's resource guides are people committed to personally assisting families on this journey. Wisconsin Wayfinder embodies our commitment to inclusivity, support, and accessibility for our state's children and their families.” [View the entire news release.](#)

A statewide user-friendly website and toll-free number, 877-WiscWay (877-947-2929), provide families with convenient, direct access to compassionate and knowledgeable children's resource guides. **Please share the toll free number (877-WiscWay) and this [Link to Wisconsin Wayfinder webpage](#) with families in your schools, districts, and communities.**

Apple Cider Muffins

On a cool fall day, nothing hits the spot more than Mrs. French's apple cider muffins.

Bulldogs, Meet Laramie!

She is the adopted calf of Mrs. Lenz's fourth grade class.

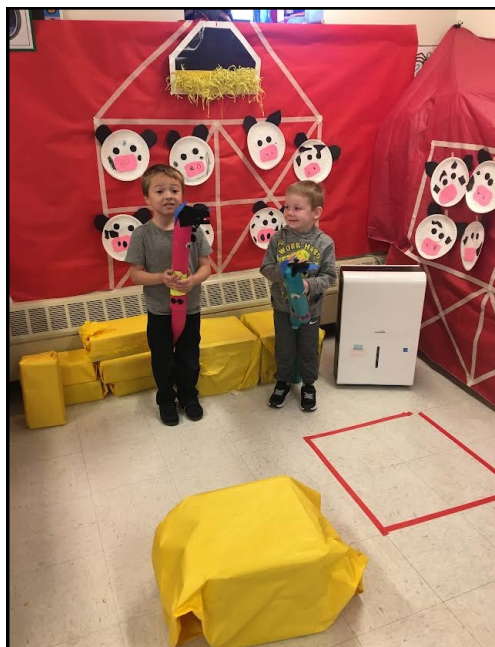

Laramie is a jersey calf, born in September on Orthridge Jersey Farm near Lancaster. Throughout the year the class will receive updates on Laramie's growth. Students will also learn about the process of raising dairy cows and about the dairy industry in Wisconsin!

🎵 "Old MacDonald Had a '4K' Farm!" 🎵

Our 4K class is having a blast as they dive into their farm unit!

Dairy Unit

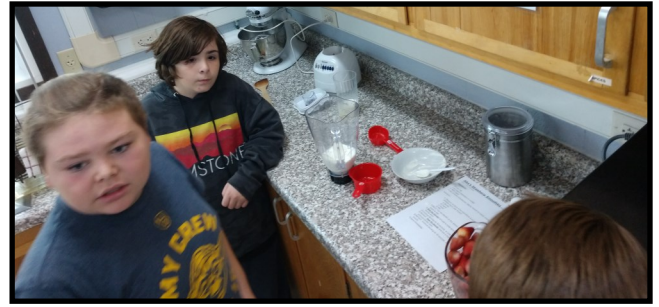

As part of their dairy unit, students made from scratch Macaroni and Cheese.

Looks Delicious!

Middle School Smoothies

Ms. French's exploratory classes made smoothies.

There is no
substitute for a
 great **substitute**
 teacher!

#BOSCOBELPRIDE

Substitute Teacher Training at CESA #3

Discover your potential as a certified substitute teacher in Wisconsin! Join our Substitute Teacher Training on **December 6, 2023**, where you'll gain the essential knowledge and skills, from applying for the license to mastering classroom management techniques, enabling you to make a positive impact on student's education and embark on a fulfilling teaching journey.

Elementary Veterans Day Program Pictures

Leo Club Roadside Cleanup

Twenty Boscobel High School Leos and advisor Miss Salzgeber recently completed highway cleanup, collecting fifteen bags of garbage along Hwy 61 south of Boscobel!

Upcoming events:

Madrigal Dinner: December 9th

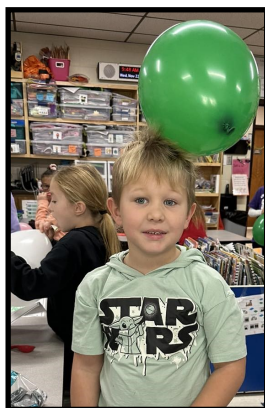

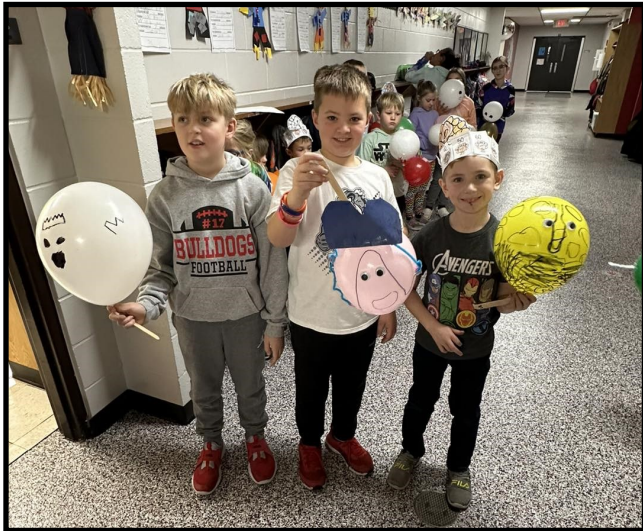

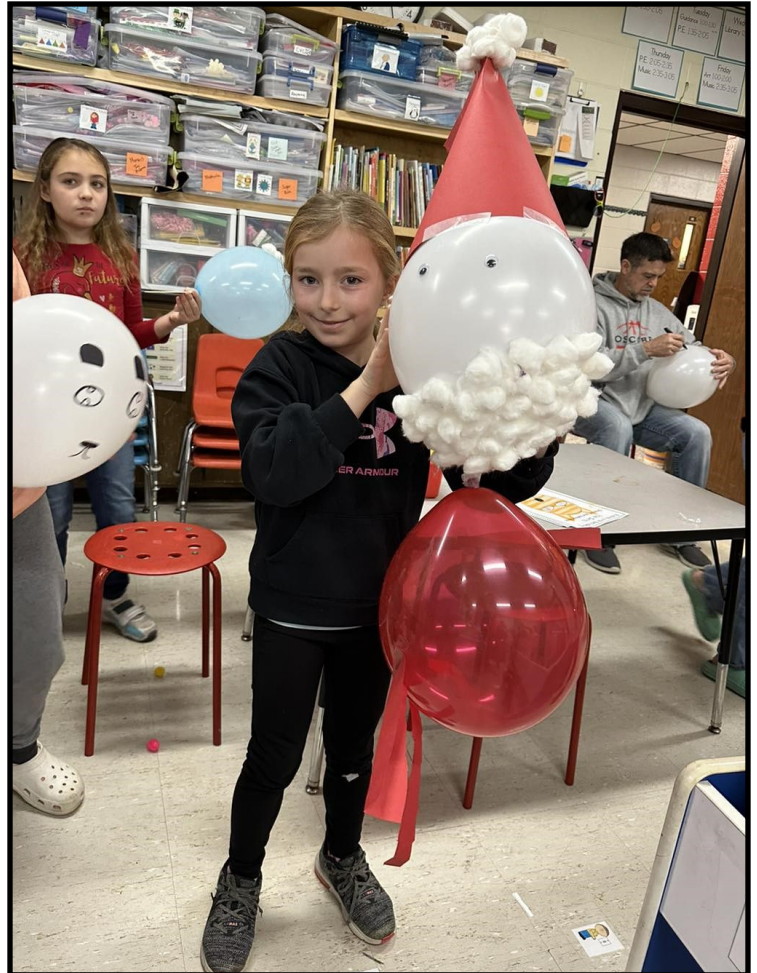

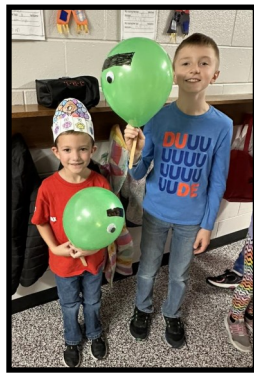

Middle School Band and Choir Winter Concert: December 11th @ 6:00pm

High School Band and Choir Winter Concert: December 11th @ 7:15pm

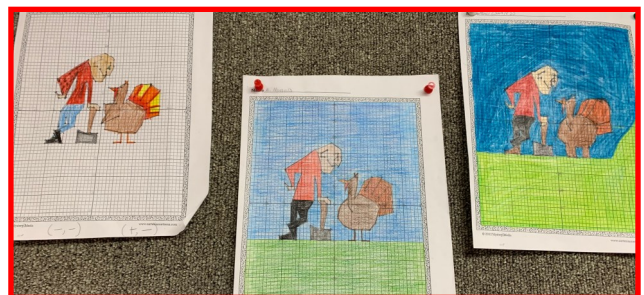

Thanksgiving Buddy Activity

Mr. Kinney's 4th graders and Miss Bender's 1st graders joined together to learn about the Macy's Thanksgiving Parade floats. They read the book *Balloons Over Broadway* and watched a video on how the balloons are made for the parade. After that, they designed and made their own balloons.

Thanksgiving Math

The seventh grade math students in Mrs. Beck's class practiced their coordinating graphing and order of operation skills this week. To practice these skills, they made some fun Thanksgiving art to decorate in the hallway.

Gingerbread House Making Family Fun Night Pictures

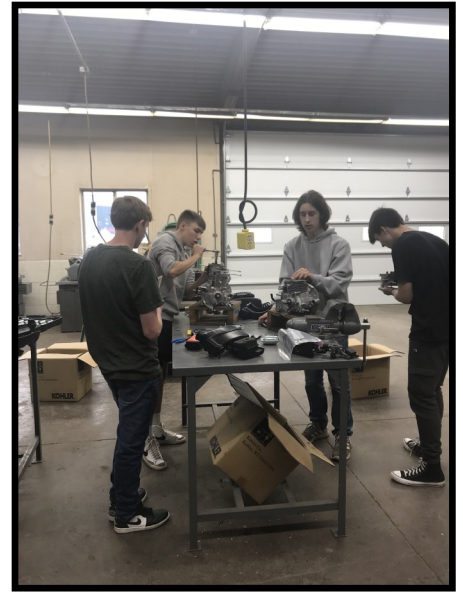

Pictures from the MS/HS Veterans Day Program

Thank you to our special guest speaker Mr. John Armbuster who authored the book "Tailspin" about a local war hero, Mr. Eugene Moran.

Automotive Class

Students in the automotive class are busy learning about small engines. They are learning all the systems in an automobile, changing oil and rebuilding carburetors. Students completely disassembled their engine and correctly reassembled it. Students were able to start their engine once it was correctly reassembled.

December Newsletter Notes from the Nurse

COVID VACCINE: If you are seeking COVID vaccine, contact your primary care provider or clinic, pharmacy, or your health insurance provider.

- CDC recommends the 2023–2024 updated COVID-19 vaccines: Pfizer-BioNTech, Moderna, or Novavax, to protect against serious illness from COVID-19.
- Everyone aged 5 years and older should get 1 dose of an updated COVID-19 vaccine to protect against serious illness from COVID-19.
- Children aged 6 months–4 years need multiple doses of COVID-19 vaccines to be up to date, including at least 1 dose of updated COVID-19 vaccine.
 - People who are moderately or severely immunocompromised may get additional doses of updated COVID-19 vaccine.

Please refer to the following links for more information about COVID vaccination for children:

<https://www.cdc.gov/coronavirus/2019-ncov/vaccines/stay-up-to-date.html>

<https://www.cdc.gov/vaccines/covid-19/planning/children/6-things-to-know.html>

“FLU” (INFLUENZA): Grant County Health Dept. provided flu vaccinations to many students and staff on October 10th. Flu shots were given to students who returned a signed permission form and who were present at school or came in for the vaccination on that day. If you would still like to have your child vaccinated, contact Grant County Health Dept. (723-6416) or your child’s health care provider. Please be vigilant and keep your child home from school when they are ill. Students should not return to school after illness until they are fever-free (without the use of fever-reducing medications) for at least 24 hours. A fever is considered to be 100-100.4°F or higher.

REFERRAL REMINDER: Vision and hearing referrals were sent by mail in November. If you have received a referral, winter break might be an excellent opportunity to schedule a follow-up appointment for your child. Please contact me at the elementary school if you have any questions. Adequate hearing and vision are important for children to learn!

CPR/AED TRAINING FOR MIDDLE/HIGH SCHOOL STUDENTS: CPR with AED training is required in health classes for students in grades 7-12. Mrs. Brinkman will provide this training to the 8th grade health class.

SCOLIOSIS LETTERS: Parents of 8th grade boys and girls and parents of 6th grade girls will receive a scoliosis screening letter in the mail. Scoliosis is a lateral (sideways) curvature of the spine. It is a spinal disorder that usually appears during the early teen years. After parents have completed the home test for scoliosis, it can be returned to school. If you have any questions about the results of your screening, contact your child's doctor/health care provider, or call me at 375-4165.

BED BUGS

You have probably heard the saying “Sleep tight, don’t let the bed bugs bite.”

Unfortunately, bed bugs have made a comeback in the U.S. The name comes from a tendency to live between mattresses and feed on occupants at night. Bed bugs do not fly, jump, or travel well outside...but they can move quickly over floors, walls, ceilings, and furniture. Bed bugs are wingless, approximately ¼ inch in length with a flattened oval shape and rusty, brown color. Newly-hatched nymphs are much smaller and a little lighter in color. A bed bug can survive several months to a year without a blood meal. Bed bugs can be found in apartments, hotels, homes, shelters, dorms, and nursing homes. They are active travelers and can be transported in luggage, boxes, clothing, furniture, and sometimes hair. Infestations are not necessarily tied to sanitary conditions. When looking for bed bugs, check on the seams, tufts, or folds of mattresses, bed frames, and headboards. They may also be behind baseboards, pictures, frames, windows, door casings, loosened wallpaper, curtains, in cracks on walls, or behind electrical wall plates. The first sign of a bed bug infestation is the appearance of small rusty spots (droppings or blood spots) on your mattress or bed linens. Bed bugs feed on bare skin while sleeping. Red, itchy welts are an indication of an infestation. It may take as long as 14 days for a welt to appear from a bed bug bite. Bed bugs are not known to transmit any diseases to humans. Thus, they are not considered a public health hazard and cases are not required to be reported to public health authorities as a communicable disease. However, precautions may need to be taken at school for known cases to prevent transfer of an infestation into the building. Complete elimination of a bed bug infestation may be difficult without using a pest-management company. Do-it-yourself measures sometimes cause problems because of misuse of pesticides or scattering of bugs. If using products yourself, make sure the product is for bed bugs and read the label completely. Other ways you can help are:

- Reduce clutter in your home.
- Vacuum areas where bed bugs are seen (including mattress and box springs) and dispose of contents in sealed bag.
- Cover mattress and box spring with zippered encasements and seal openings with tape.
- Wash bedding and clothing in hot water (120 degrees F) and dry on high temperature. Store items in sealed bags.
- Inspect furniture brought into your home. Inspect hotel rooms for signs of bed bugs before unpacking.

Information adapted from: <http://www.co.grant.wi.gov> (Health Department/Information/Bed Bug Brochure)

MENINGITIS - PROTECT YOUR CHILD: Public health authorities recommend that teenagers and college-bound students be immunized against a potentially fatal bacterial infection called meningococcal disease, a type of meningitis. Meningococcal disease refers to any illness caused by bacteria called *Neisseria meningitidis*, also known as meningococcus [muh-ning-goh-KOK-us]. These illnesses are often severe and can be deadly. They include infections of the lining of the brain and spinal cord (meningitis) and bloodstream infections (bacteremia or septicemia). These bacteria spread through the exchange of respiratory and throat secretions like spit (e.g., by living in close quarters, kissing). Doctors treat meningococcal disease with antibiotics, but quick medical attention is extremely important. Keeping up-to-date with recommended immunizations is the best defense against meningococcal disease.

There are several vaccines that protect against the different types of *N. meningitidis* bacteria. Three vaccines protect against four of the five types (A, C, Y, and W-135). The Advisory Committee on Immunization Practices (ACIP) recommends children get their first dose of meningococcal vaccine when they are between 11 and 12 years and get a booster dose when they are 16 years of age. Two vaccines protect against the fifth type of *N. meningitidis* bacteria, strain B. The ACIP recommends this vaccine be given to people aged 16-23 years. The ideal age to vaccinate is between 16 and 18 years, to provide protection when individuals are at greatest risk of getting meningococcal disease. If a teenager missed getting the vaccine altogether, they should ask their healthcare provider about getting it before graduation, especially if they are about to move into a college dorm or military barracks.

About Meningococcal Disease

There are multiple serogroups of *Neisseria meningitidis*. Serogroups B, C, and Y cause the majority of disease in the United States. Serogroup W and nongroupable strains cause a small portion of disease. Meningococcal disease is often misdiagnosed as something less serious because early symptoms are similar to common viral illnesses. Symptoms of meningococcal disease may include high fever, severe headache, stiff neck, nausea, vomiting, sensitivity to light, confusion, exhaustion and/or a rash. The disease can progress rapidly and can cause death or permanent disability within 48 hours of initial symptoms.

Rates of meningococcal disease have been declining in the United States since the late 1990s. In 2017, there were about 350 total cases of meningococcal disease reported (incidence rate of 0.11 cases per 100,000 persons). Anyone can get meningococcal disease, but rates of disease are highest in children younger than 1 year old, with a second peak in adolescence. Among adolescents and young adults, those 16 through 23 years old have the highest rates of meningococcal disease.

Meningococcal disease is spread through direct contact with respiratory and/or oral secretions from infected persons (for example, kissing or sharing drinking containers). It can develop and spread quickly throughout the body, so early diagnosis and treatment are very important. Even with immediate treatment, the disease can kill an otherwise healthy young person within hours of first symptoms. Of those who survive, up to 20 percent may endure permanent disabilities, including brain damage, deafness and limb amputations.

Lifestyle factors common among teenagers, college students and military personnel are believed to put them at increased risk of contracting meningococcal disease. These lifestyle factors include crowded living situations (for example, dormitories, sleep-away camps), active or passive smoking and irregular sleeping habits. Teens should avoid sharing eating utensils and drinking out of the same container, since infections may spread through this type of close contact.

For more information about meningococcal disease and immunization, please feel free to contact Grant County Health Department (608-723-6416) or visit the following websites to learn more about meningococcal disease, vaccine information, and public health resources.

Food Drive

The Middle School Student Council organized a food drive for a Thanksgiving service project. The middle school students and staff brought in 201 food items. Mrs. Miller's class won the prize of rootbeer floats from contributing the most items to the food drive. The student council members voted to use some of their treasury dollars to add to the items collected. They added 5 turkeys and over 50 more side dish items, such as pies, stuffing, cranberries, potatoes, and gravy to help make a complete Thanksgiving dinner.

Senior/Baby Picture Information

Senior & Baby pictures need to be turned into Mr. Marc Chiefari by **Monday, January 8th**. They will be in color. The senior picture will be used for The Boscobel Dial, as well as the yearbook with the baby picture.

Pictures need to be in a vertical pose.

You may choose to send a digital image instead of an actual picture. (A digital image is **preferred**.) Digital images should be in JPEG or TIF format with a minimum resolution of 300 dpi. Pictures should be sent to chiemarc@boscobel.k12.wi.us Mr. Chiefari will send a response if/when he receives any pictures that are emailed to him so that you know he received it/them. If you do not receive an email confirmation, please call him as your email might never have reached him due to being caught in the District email filter.

Boscobel Multimedia Class is offering parents/guardians of seniors the opportunity to place a baby picture/message in the yearbook for your graduate. There is **no charge** for this service; we are hoping to get the participation of all parents/guardians. In these messages you may show your love and support by sending a baby picture and a message of approximately **50 words or less** to your child. Any baby pictures and information received will be kept a “secret” from the graduate. If interested, send your baby picture and information to Mr. Marc Chiefari at the high school. A digital image or a printed picture may be sent along with the message. ***Please put the name of the “baby” on back of the picture if you send an actual picture.***

Due to space limitations, we are asking that each senior’s family send only one baby picture and one message. Individual circumstances will be taken into consideration.

If you send a printed baby picture, it will not leave Boscobel High School; Mr. Chiefari can scan the image in and make it digital. Pictures will be kept safe until they are returned to you or your graduate. The goal is to return baby pictures the same day as they are received.

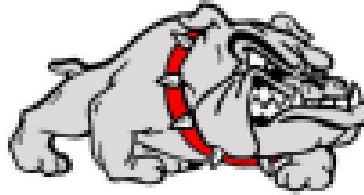

If you would like to purchase a yearbook for your graduate, the cost is \$42.00, or \$47.00 (if after certain date). Yearbooks may be purchased from Mr. Chiefari. Checks are to be made payable to Boscobel High School. Yearbooks will be delivered in the fall of the 2024-2025 school year.

If you have any questions, please call Mr. Marc Chiefari at 375-4161, Ext. 2320, or email him at chiemarc@boscobel.k12.wi.us

BOSCOBEL AREA SCHOOLS

JOB POSTING NOTICE

Application Deadline: Until Filled

POSITION TITLE:

HEAD GIRLS SOFTBALL COACH

DESCRIPTION:

The successful candidate will be a positive, goal oriented individual who is committed to leading an educational based athletic program.

QUALIFICATIONS:

Successful coaching experience with a proven record of compliance and comprehension of coaching as well as knowledgeable about, and committed to, WIAA rules and regulations; coaching certifications.

Any questions about this position, please contact Edwin Boneske, Activities Director at:
boneedwi@boscobel.k12.wi.us or 608-375-4161, ext 2315

If you are qualified and are interested in the job opening above, please submit
a letter of interest and application to:

Boscobel Area Schools
ATTN: Shannan Aspenson
1110 Park Street
Boscobel, WI 53805
Phone: 608-375-4164
FAX: 608-375-2378
Email: aspeshan@boscobel.k12.wi.us

Applications available online at www.boscobel.k12.wi.us or at the District Office.
