

PURCHASING

The Board of Education views purchasing as serving the educational program by providing necessary supplies, equipment, and related services. Purchasing will be centralized in the business office under the general supervision of the Purchasing Agent designated by the Board.

It is the goal of the Board to purchase competitively, without prejudice or favoritism, and to seek the maximum educational value for every dollar expended. Competitive bids or quotations shall be solicited in connection with purchases pursuant to law. The General Municipal Law requires that purchase contracts for materials, equipment, and supplies involving an estimated annual expenditure exceeding \$20,000 and public work contracts for services, labor, or construction involving an expenditure of more than \$35,000 will be awarded only after responsible bids have been received in response to a public advertisement soliciting formal bids. Purchases of the same commodity cannot be artificially divided for the purpose of avoiding the threshold. Similar procurements to be made in a fiscal year will be grouped together for the purpose of determining whether a particular item must be bid.

The District's purchasing activity will strive to meet the following objectives:

1. to effectively supply all administrative units in the school system with needed materials, supplies, and contracted services;
2. to obtain materials, supplies, and contracted services at the lowest prices possible consistent with the quality and standards needed as determined by the Purchasing Agent in conformance with state law and regulation and in cooperation with the requisitioning authority. The educational and physical welfare of the students is the foremost consideration in making any purchase;
3. to ensure that all purchases fall within the framework of budgetary limitations and that they are consistent with the educational goals and programs of the district;
4. to maintain an appropriate and comprehensive accounting and reporting system to record and document all purchasing transactions; and
5. to ensure, through the use of proper internal controls, that loss and/or diversion of district property is prevented.
6. to utilize the GreenNY purchasing specifications set by New York State whenever feasible.

Opportunities shall be provided to all responsible suppliers to do business with the School District. Suppliers whose place of business is situated within the District may be given preferential consideration only when bids or quotations on an item or service are identical to price, quality, and other factors.

Where permitted by law, purchases may be made through available cooperative BOCES bids, or by "piggybacking" onto contracts of the United States or agencies thereof or the federal General Services Administration (GSA), the New York State Office of General Services (OGS), departments or agencies of New York State, any New York State county, or any state or any county or political subdivision or district therein, whenever such purchases are in the best interests of the district or will result in cost savings to the District. In addition, the District will make purchases from correctional institutions, qualified veterans' workshops, and severely

disabled persons through charitable or non-profit-making agencies, as provided by the State Finance Law.

It is the District's responsibility to review each "piggybacking" contract corresponding to a proposed purchase, upon the advice of counsel as necessary, to determine whether the original contract does not conflict with state law or regulation, and meets the following requirements:

1. The contract must have been let by the United States, or any agency thereof, any state, or any other political subdivision or district therein;
2. The contract must have been made available for use by other governmental entities; including New York State local governments;
3. The contract must have been let to the lowest responsible bidder or on the basis of best value, in a manner consistent with General Municipal Law §103. Those main elements are: (a) public solicitation of bids or offers; (b) secure or confidential bids or offers; (c) use of a common standard for bidders or offers to compete fairly; and (d) awarded to the lowest responsible bidder, or responsible offeror of best value, which optimizes quality, cost, and efficiency.

In accordance with the law, the District will give a preference in the purchase of instructional materials to vendors who agree to provide materials in usable alternative formats. The term "alternative format" shall mean any medium or format for the presentation of instructional materials, other than a traditional print textbook, that is needed as an accommodation for a disabled student enrolled in the district (or program of a BOCES), including but not limited to Braille, large print, open and closed captioned, audio, or an electronic file in a format compatible with alternative format conversion software that is appropriate to meet the needs of the individual student.

The Board is aware of the need to reduce the exposure of students and staff to potentially harmful chemicals and substances used in cleaning and maintenance. In accordance with law, regulation and guidelines set forth by the Office of General Services (OGS), the District will purchase and utilize environmentally sensitive cleaning and maintenance products in its facilities whenever feasible. Cleansers purchased must, first and foremost, be effective so that the District may continue to purchase non-green products as necessary. Environmentally sensitive cleaning and maintenance products will be procured in accordance with standard purchasing procedures as outlined in this policy and regulation.

Where the District is procuring a commodity, service, or technology, whether by competitive bid or other type of procurement, that is the subject of a GreenNY procurement specification that has received final approval of the NYS GreenNY Council pursuant to Executive Order No. 22 (2022), the Purchasing Agent will follow the GreenNY procurement specification to the maximum extent practicable, as long as the cost is reasonably competitive, as defined in General Municipal Law §104-a. GreenNY-approved procurement specifications can be found online at <https://ogs.ny.gov/greeny/approved-greeny-specifications>.

However, the District will not follow the GreenNY specifications if the Purchasing Agent determines that:

- a. the commodity, service, or technology will not meet the District's requirements for form, function, or utility; or

- b. there is a compelling public health or safety reason not to purchase such commodity, service, or technology.

In order to ensure that the District avails itself of advantageous purchasing opportunities, the Board authorizes the Purchasing Agent to represent the District in applying for federal programs designed to discount prices for goods and services. Specifically, the Purchasing Agent will abide by the rules and regulations associated with applying for telecommunications service discounts through the Universal Service Fund (E-Rate), in addition to complying with the local purchasing policies set forth by the Board. As with all purchasing activity, appropriate documentation of the application and purchase through any federal program will be maintained by the business office.

The District may give a preference to suppliers of American rock salt or sodium chloride, pursuant to the requirements of General Municipal Law §104-d

Contracts which implicate federal funds shall be procured in accordance with Federal law and as detailed in Exhibit A to the District's purchasing regulation #6700-R.

Competitive Bidding

Purchase contracts and public works contracts subject to competitive bidding will be awarded to the lowest responsible bidder; however, the Board authorizes that purchase contracts may be awarded on the basis of best value, as defined in State Finance Law §163. Other exceptions to competitive bidding are outlined below.

In addition, the Board authorizes the receipt of sealed bids for purchase contracts in electronic format, pursuant to the provisions of General Municipal Law §103(1) which addresses proper documentation, authentication, security, and confidentiality of electronic bids.

The District shall comply with the requirements of General Municipal Law §103-g, which prohibits, with few exceptions, competitive bidding contracts with entities that invest significantly in the Iranian energy sector, as outlined in the accompanying regulation.

Exceptions to Competitive Bidding

Competitive bidding, even if the dollar value of the purchase meets the threshold established above, is not required in the following circumstances:

1. emergencies where time is a crucial factor;
2. procurements for which there is no possibility of competition (sole source items);
3. professional services that require special skill, training and expertise, use of professional judgment or discretion, and/or a high degree of creativity (see policy 6741 for guidance on purchasing professional services);
4. purchases such as surplus or second-hand items from governmental entities, certain food and milk items, or goods and services from municipal hospitals; or
5. where the District is purchasing through (or is "piggybacking" onto) the contract of another governmental entity, where the original contract complies with the requirements of New York State law for competitive bidding.

6. very small procurements when solicitations of competition would not be cost-effective.

Purchasing when Competitive Bidding Not Required

Goods and services which are not required by law to be procured by the District through competitive bidding will be procured in a manner so as to ensure the prudent and economical use of public monies, in the best interests of the taxpayers, to facilitate the acquisition of goods and services of maximum quality at the lowest possible cost under the circumstances, and to guard against favoritism, improvidence, extravagance, fraud, and corruption.

Alternative proposals or quotations will be secured by requests for proposals, written or verbal quotations, or any other appropriate method of procurement, except as permitted by state law for procurements:

1. under a county contract;
2. under a state contract;
3. under a federal contract;
4. under a contract of another political subdivision;
5. of articles manufactured in state correctional institutions; or
6. from agencies for the blind and severely disabled.

“Piggybacking” onto the contract of other governmental agencies is permitted where the original contract is in conformance with the goals of this section.

The District will provide justification and documentation of any contract awarded to an offeror other than the lowest responsible dollar offeror, setting forth the reasons why such award is in the best interests of the District and otherwise furthers the purposes of section 104-b of the General Municipal Law.

General Purchasing Provisions

The Superintendent of Schools, with the assistance of the Purchasing Agent, shall be responsible for the establishment and implementation of the procedures and standard forms for use in all purchasing and related activities in the district. Such procedures shall comply with all applicable laws and regulations of the state and the Commissioner of Education.

No Board member, officer, or employee of the school district shall have an interest in any contract entered into by the Board or the district, as provided in Article 18 of the General Municipal Law.

Comments will be solicited from those administrators involved in the procurement process before the enactment of the District’s policies regarding purchasing and from time to time thereafter. The policies must then be adopted by Board resolution. All district policies regarding the procurement processes will be reviewed by the Board at least annually.

The unintentional failure to fully comply with the provisions of section 104-b of the General Municipal Law or the District’s policies regarding procurement will not be grounds to void action taken nor give rise to a cause of action against the district or any officer or employee of the District.
