

September 2017 Minutes

Our goals for 2017-2018 were the following:

Continue to create additional content for the website - Teachers have created web pages which will be accessible from the website.

Optimal use of the Lobby Display behind the desk, which Vanessa Rojano has facilitated - Sean, do you know who will take over?

Creation of a newsletter - This will be taken care of by Patrick Aiello. What would we like to contribute as a committee?

Communication with parents will be facilitated by the contact information gathered this evening at Back-to-School night.

Be sure to share any ideas that could be addressed by our committee! Anything to add to the website so the community is informed on school events, etc?
