

Claymation Project

Names Of Group Members:

Project Procedures:

- Introduction to the project
- You will be divided into 5 groups of 4
- Watch part of the movie *Frog and Toad* and discuss.
- Each group must create 2 characters with a maximum height of 6". Detailed sketches must be completed by _____so students may start working on the skeletons.
- Your group will create a 30-second short story, commercial or other approved theme with appropriate language and content, including opening credits, music and closing credits.
- You may work with other groups using the characters that they created for filming and story purposes.
- Your animation sequence must include dialog (may not be a silent film).
- Groups must have an approved written script and story boards before filming begins
- All props and sets must be completed before filming begins.
- The final production is 30 seconds for a total length of 30 frames per second. This equals 900 still images that will be needed for this production.
- We will be using digital cameras, digital video cameras, PhotoShop and Adobe Premiere to complete the production.
- At the end of production, a final copy will be made available in DVD format, bring in media of your own and we will duplicate it for you.
