- This week is College & Career Week here at Harris Road. The purpose of this week is to encourage students to start thinking about careers and colleges and to begin to see themselves as future college students and leaders within their potential career field. We are also challenging students to think about how exploring colleges and careers connect to our P2 traits. We will have a daily connection to P2 traits. We challenge students to identify the P2 trait found in the morning announcements. Today students and staff are Recognizing their Roots and wearing their elementary colors and gear. As we recognize our roots, we show GRATITUDE for all those who have helped us become who we are today.

- College & Career Week Fun Fact: Today's College & Career Week Fun Fact: Did you know that there are over 100 colleges and universities just in North Carolina? North Carolina has 4 year universities, 2 year colleges, trade schools, and HBCUs or also known as Historically Black Colleges and Universities. Several colleges & universities are within 15-50 miles from Concord. If you would like to know where Harris Road staff members went to college--check out the college posters outside their classroom or office doors. Tomorrow is "Standing Firmly in the Present." Wear Harris road gear or colors.
