ATA Garden 101

Who?

EVERYONE!

ATA Garden 101

What?

Safety Tips

Tip #1

Gardeners always WALK.

Gardeners never run. Students may walk on straw or mulch only. We avoid walking in soil as it compacts the soil which makes it difficult for plants to thrive. Only step into the soil if weeding is needed.

What?

Safety Tips

Tip #2

The head of a tool should always be placed below your knee and never-ever above your head or on your shoulder.

Safety Tips

Tip #3

Be aware of your surroundings. Keep an eye on the ground for active anthills. Spread yourselves out when working with tools and never walk up directly behind someone who is using a tool.

Safety Tips

Tip #4

Wear gloves as much as possible.
Some weeds and plants have thorns hiding under their leaves.

Safety Tips

Tip #5

Stay hydrated, but water bottles only.
Colored or sugary drinks encourage unwanted insects.
