

The Bulldog Bulletin

September 2021

Principal: Dr. Richard Wells, Assistant Principal of Instruction: Mr. Michael Baaden

Hello Beverly Hills STEM Elementary School Families, and welcome to a new school year!

Our shared vision at BHES is to provide optimized learning experiences through collaboration with students, families, and the community to ensure all students believe in themselves and their ability to learn. As a school we are continuing to move in the right direction and we are committed to giving students and families our best. Thank you for your partnership in making our vision a reality!

We certainly started this year on a high note! Earlier this month, Mrs. Charlton, Mr. Baaden, and I, along with several of our District leaders, went before the NC State Board of Education to accept our designation as a Model NC STEM School of Distinction. This recognition, which is the highest award of its type, was the culmination of a three-year goal our staff members set to be the best STEM school we could be.

Part of being a great school is making sure we are placing student safety as a priority. In our current context, that is ensuring students are able to remain at school by following our guidelines and cleaning protocols to prevent the spread of Covid. We are thankful for Nurse Pam and the many ways she works with our staff members and families to make sure BHES remains a safe place for learning. I will continue to send our weekly Covid updates.

We appreciate your support, and we are excited for all the great things this school year will bring!

Sincerely,

Dr. Wells

Dear Bulldog Parents/Guardians,

This month in character education, your child participated in “getting to know your school counselor.” Mrs. Carey was able to help your student identify the role of the school counselor, and how a school counselor can help your student be successful in school.

September will focus on identifying respect. We will discuss what respect is, and how we can show our peers, teachers, adults, and items respect. We will talk about how we can reform our words and behaviors to be respectful when talking to and interacting with others.

Feel free to reach out to me, Mrs. Carey with any questions.
