

FRQ Terms (UNITS REFER TO THE CHAPTERS IN MYERS' PSYCHOLOGY FOR AP 1E)

These are all of the terms, concepts, and topics that have appeared on the AP Psych FRQ's in the past 9 years. The number you see after some terms refers to how frequently they have appeared. I have taken out the units (Social Psychology and Clinical Psychology) that will not be tested on this year due to the abbreviated test. Some terms have been used more than once. For example: Operational Definition has shown up on one of the FRQ's 6 times in the last 9 years. You can also practice the terms on [Quizlet](#).

NOTE: This year the AP Psychology exam will consist of the FRQ portion only. The more exposure you have to essential concepts and vocabulary, the better! Familiarize yourself with the format and structure of [past FRQ's](#) and stay tuned for more information regarding the test.

Unit 1 Perspectives and Research Methods	Unit 2 The Brain- Biological Bases of Behavior	Unit 3 Sensation & Perception	Unit 4 Learning
Operational Definition (6) Experiment (6) Correlation (6) Dependent Variable (5) Statistical Significance (4) Random Assignment (3) Double-blind Study (2) Independent Variable APA Ethical Guidelines for Hypothesis Illusory Correlation Mean Median Descriptive Statistics Inferential Statistics Single-blind Study Random Selection Survey Case Study Naturalistic Observation	Prefrontal Cortex (3) Sympathetic Nervous System (2) Adrenal Glands (2) Dopamine & the Reward Center Somatosensory Cortex (Sensory Cortex) Motor Neuron Serotonin Motor Cortex Broca's Area Myelin Sheath Occipital Lobe Evolutionary Psychology Cerebellum Acetylcholine (ACh) Long Term Potentiation Circadian Rhythm (2) REM Sleep	Retinal Disparity (2) Difference Threshold (2) Selective Attention Sensory Adaptation Color Blindness Absolute Threshold Basilar Membrane Inattentional Blindness Rods Proximity Fovea Feature Detectors Closure (Gestalt) Cocktail Party Effect Figure Ground	Modeling (2) Schedules of Reinforcement (2) Positive Reinforcement (2) Negative Reinforcement Observational Learning Conditioned Response Pavlov Secondary Reinforcer Operant Conditioning Reinforcement
