

INTERNATIONAL BACCALAUREATE: DIPLOMA PROGRAM TRACK

WHAT IS THE DP TRACK ALL ABOUT?

The IB: Diploma Program (DP) track is a rigorous college-prep pathway that focuses on building critical thinking skills, fostering independence, and encouraging empathy to move students toward making their world a better place.

Students start their high school IB journey in the Middle Years Program (9th and 10th) where they develop the skills necessary to be successful in their DP coursework in 11th & 12th grades. DP courses offer the opportunity for students to earn college credit while enjoying a traditional high school setting.

Graduates of the CHS Diploma Program are well-prepared for higher education and many continue into graduate school programs. Students can earn an international diploma and network with IB alumni around the globe.

THE IB:DP TRACK IS GREAT FOR STUDENTS WHO ARE...

- Open-minded
- Willing to learn from other perspectives
- Caring & action-oriented
- Future-focused
- Curious and want to pursue personal interests through their classes
- Engaged with the community through service, athletics, and/or the arts
