

# INVENTION PLAN FORM

DUE FEB. 26 TO MRS. CHILDRESS

Exhibit Title: \_\_\_\_\_

Ask: (What are the issues with the current product or system? How do you want to make the world a better place?)

---

---

Imagine: (What are some solutions to the problem? Where will you find more information about your topic? i.e., library, online, expert)

---

---

Plan: (Choose a way to solve your problem. Draw a diagram. Make a list of steps you will take.)

---

---

---

---

---

Create & Improve: (This most likely will be done over the next couple of weeks. Follow your plan. Test your design. Be sure to learn from your mistakes through this process then make your design even better!)

Presentation: (How will you share the design process of your invention?)

---

---

Key Vocabulary (List words students will learn from listening to your participation.)

---

---

---

Write two or more sentences explaining how your invention is related to science, technology, engineering, and/or math.

---

---

---

\*\*\*\*\*TO BE COMPLETED AFTER MARCH 26. DUE BY MARCH 30.\*\*\*\*\*

### REFLECTION

Write a paragraph describing your experience with this STEM Fair project.

- \*Explain what you learned from doing the research & planning.
- \*Describe your interaction with visitors at your exhibit.
- \*What did you enjoy most from this experience and why.
