

Collettsville School

Title 1 PAC

Information

2023-2024

What is **Title One**

Title One is the largest federally funded educational program.

A **Title One** school is a school receiving federal funds for **Title One** students.

The basic principle of **Title One** is that schools with large concentrations of low-income students will receive supplemental funds to assist in meeting students' educational goals.

How do we use these funds at Collettsville?

The background is a dark blue gradient with a pattern of thin, light blue lines that create a sense of depth and movement, resembling a stylized galaxy or starfield. In the upper right quadrant, there is a white line-art illustration of a planet with a ring system and several small circles on its surface. Below it, a white line-art rocket is shown with flames at its base. Scattered throughout the scene are several white five-pointed stars of varying sizes.

How can you Help?

Attend events offered at the school. We want to continue to grow strong school to home bonds. Please join us in as many events as possible! Also, find ways to get involved in parent organizations.
