PARENT POWER!

The Caldwell County School System provides opportunities for parents to be involved in their student's education starting as early as pre-kindergarten and continuing through graduation. Even though this school year has been intensified due to the worldwide pandemic, educators and parents have joined together in providing the best learning options and experiences available for students. Schools are safely moving ahead in educating students and in keeping close contact with parents.

The connectivity between school and home is essential during this time and communication is a critical component to a student's success. Each year the school district provides this guide to help parents make responsible and informed decisions about their child's education. Parents are also encouraged to contact their student's school if they need additional information or have questions. Working together, we will create a successful school year!

Student Records: Family Educational Rights and Privacy Act (FERPA)

The Family Educational Rights and Privacy Act (“FERPA”), a federal law, gives parents and students over eighteen (18) years of age (“eligible students”) certain rights with respect to the student’s education records. These rights are:

- A parent or eligible student may access the student's education records upon proper request. The principal or designee shall schedule an appointment as soon as possible but no later than 14 calendar days after the request by the parent or eligible student. The parent or eligible student may formally review the student's complete education records only in the presence of the principal or a designee competent to explain the records.
- A parent or eligible student has the right to challenge an item in the student education record believed to be inaccurate, misleading, or otherwise in violation of the student's privacy rights. Subsequent steps, if necessary, will follow the student grievance procedures as provided in School Board policy 1740/4010: Student and Parent Grievance Procedure. If the final decision is that the information in the record is not inaccurate, misleading, or otherwise in violation of the privacy rights of the student, the principal shall inform the parent or eligible student of the right to place a statement in the record commenting on the contested information in the record or stating why he or she disagrees with the decision of the school system.
- FERPA requires that schools obtain a parent or eligible student's written consent prior to the disclosure of personally identifiable information contained in a student's education record with certain exceptions.
- Permission of the parent or eligible student is not required for the release of directory information (see chart below) ; however a parent or eligible student may opt out by notifying the school (Board policy 1310/4002).

Student's Name	Date and Place of Birth
Photograph or Digital Image	Still or video images of a student engaged in ordinary school activities
Participation in officially recognized activities and sports	Weight and height of members of athletic teams
Grade level	Most recent educational agency or institution attended
Dates of attendance	Diplomas (endorsements earned), credentials/certifications, and awards

- The primary purpose of directory information is to allow the school to include this type of information in certain school publications. Examples include:
 - The annual yearbook;
 - Honor roll or other recognition lists;
 - Graduation programs;
 - or sports activity sheets, showing weight and height of team members.
- In addition, under federal law, the school district is required to provide military recruiters and institutions of higher education, upon their request, with the names, addresses and telephone numbers of high school students, unless the student or parent has advised the school that they do not want such information disclosed without their prior written consent.
- If you do not want the school to disclose some or all of the directory information described above from your child's education records to all or certain recipients without your prior written consent, the student's school must be notified in writing within fourteen (14) days of this notice.
