

# Dual Credit Allowances for Career & College Promise Effective 2016, Updated 2020

To support high school students who are earning college credit while in high school through Career and College Promise, NCDPI has determined dual credit allowances for courses included in the Universal General Education Transfer Component (UGETC) of the Comprehensive Articulation Agreement (CAA). UGETC courses will transfer for equivalency credit from NC Community Colleges to UNC Institutions. Students who enroll in and pass these college courses will also receive high school course credit based on the chart below. Eligible high school students may enroll in these courses year-round through CCP.

Two versions of Dual Credit Allowances information are below. One chart is from the perspective of the UGETC courses; the next chart is from the perspective of high school graduation requirements.

For purposes of calculating student Grade Point Averages on the high school transcript, courses included on this chart are weighted in accordance with SBE policy GRAD-009.

**Note:** The State Board of Education revised state policy titled Course for Credit (CCRE-001) on September 7, 2017, to be implemented during the 2018-19 academic school year. The revised Course for Credit policy states that college and university courses of one and two credit hours will no longer receive high school dual credit but will continue to receive college credit. In certain circumstances, semester hour credit from community college courses with the same course prefix may be combined to meet the minimum three semester credit hours to be awarded high school credit.

Courses of three and four credit hours will continue to receive one high school dual credit. This change will only impact the high school transcript. The college transcript will continue to be the official record for the college.

**Note:** As local community colleges develop placement policies and practices, be reminded that the NCDPI Dual Credit Allowances Chart indicates the courses that students must ENROLL in and experience to receive the corresponding high school credit towards graduation requirements. Students must complete all college courses for the corresponding high school course as indicated on the chart. Even if a community college has awarded credit based on a prior learning policy for college purposes, those local college policies do not transfer back to the high school for credit.
