

## If 90s tech had remained the norm...

# 1990s

## ...then you can't combat Zoom Bombing

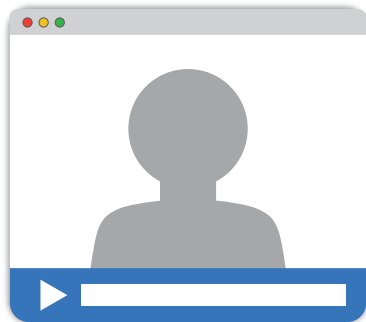

The internet has changed a lot since the 90s. Your web filter hasn't.

## Deledao is different

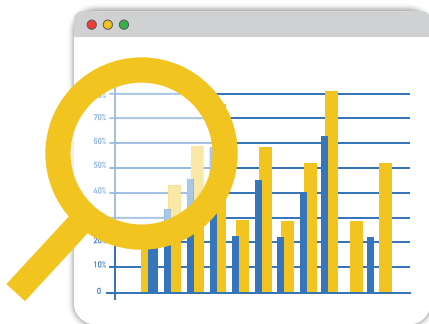

## Perfect for distance learning

Filter off campus to stay CIPA-compliant.

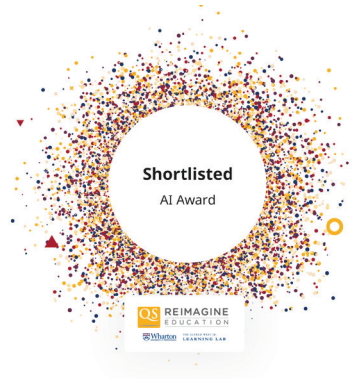

Classroom management for online classes

Measure student engagement

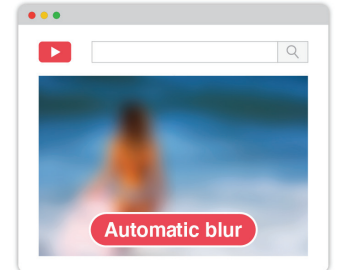

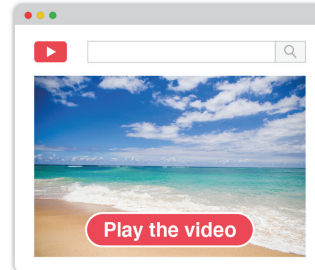

## The only real-time AI web filter

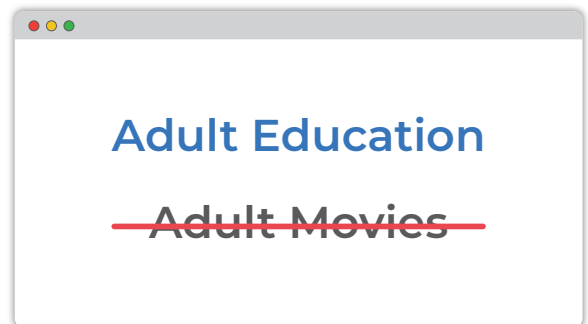

Reimagine Education AI Category

AI solution

Real-time image and video analysis

AI that reads like you do

“

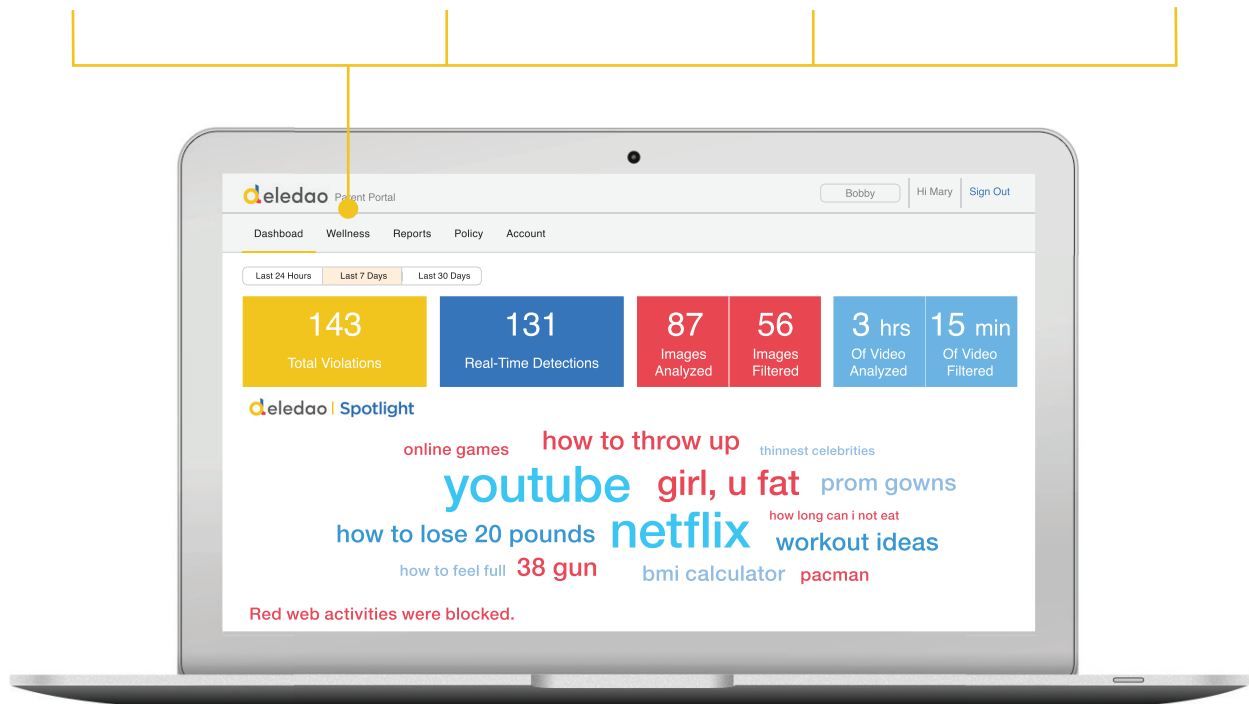

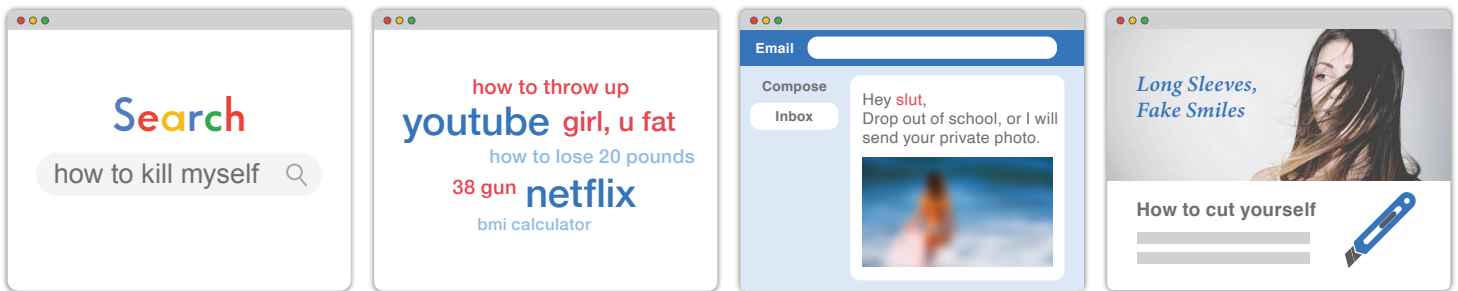

We are charged with the well-being of students so we decided to use Deledao to monitor their mental well-being. The reporting is very good and lets us know when children are considering self-harm or if there is cyberbullying activity. Now we can get them the help they need. Our school principal is very happy with the product.

## Monitor mental well-being

Deledao's AI can pick up on the warning signs so you can get them the help they need.

“

As a district with over 11,000 students, we wanted a few things. One, a content filter that finally works on our Windows devices, not just on Chromebooks. Second, a solution that works off campus for distance learning. Deledao delivered on all its promises and more. It's probably the best thing we bought this entire year.
