

GRADES  
6-8MIDDLE  
SCHOOL2023  
CATALOG

Hi there,

Did you spot all of Pitsco's newest must-haves in our latest digitally formatted [catalog for middle schools](#)? Keep your eye out for **NEW!** as you browse, watch videos without leaving the page, and look for + signs to click and see more information.

**DON'T MISS ANY OF OUR **NEW!** PROJECTS:**

**LUMA**

This friendly bot makes coding approachable and fun! She shines a spotlight on computer science connections and careers.

**Drone Maker Kit**

Jump-start your engineering design process AND fly your own custom drone with this kit.

**DroneBlocks**

If your students learned coding basics and are ready for the next level, they can now apply those skills to drone flight. Integrate this simulation software with physical drones.

**Hour of Engineering**

Inspire middle schoolers' interest in engineering with Siemens' **FREE** web-based lessons. Get going in just one hour.

**ETron Circuit Labs**

Both basics and digital theory labs are a full **SOLDERLESS** circuitry lab – student-facing curriculum, materials, and all.

BROWSE THEM ALL

Don't forget to use code **AEPACTE** when shopping at [Pitsco.com](#) for your exclusive 2% discount! Valid through May 2026.
