

Welcome to Myakka River Elementary, Home of the Mighty Manatees!

I am honored to be returning to serve the students, staff, and families of our community.

I have lived in the Englewood community since 1997, raised my family here and served at both the elementary and middle school level as a classroom teacher, reading coach, and school leader for the last 27 years. The past six years I served in the School District of Lee County as a School Turn-Around Principal and Principal Lead. Although I loved my time there, I am incredibly excited to return to Charlotte County and more specifically, Myakka River. I was a classroom teacher here for ten years as well as Assistant Principal for two years. Both of my own children went to school here and recently graduated from LBHS.

My office is always open and I encourage you to come visit us. You can ask to speak with me directly any time you have questions or concerns. I welcome you to come get involved in your child's educational experience.

I look forward to getting to know all of our Manatees and working together to make Myakka an even better place for students and staff to learn, lead, and succeed!
