The team competes annually in local and area competitions. Students are trained to prepare criminal or civil case materials, serving in the roles of both attorney and witnesses. The trial competition is based upon actual rules of procedure and resembles an authentic trial, complete with opening and closing statements, witness examinations, and procedural objections. Mock Trial serves to help improve public speaking and enhance critical thinking skills. In addition, students will learn to build trust and unity with their peers as well as meet and work with alumni from past Mock Trial Teams.
