

?

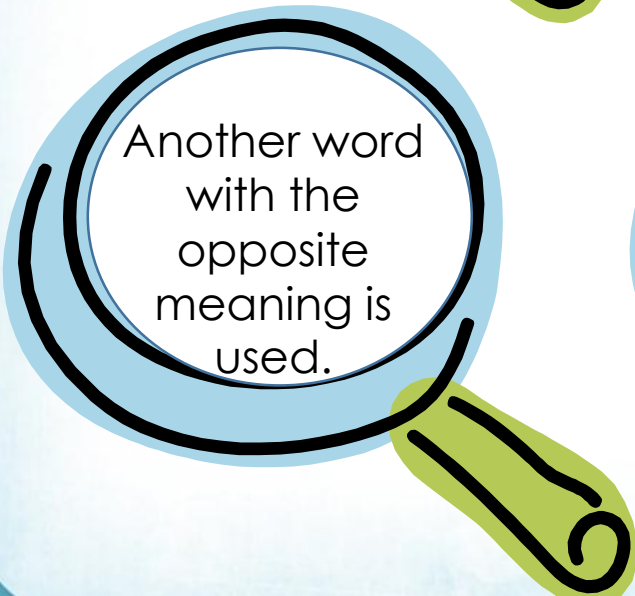

The word's meaning is explained in the sentence.

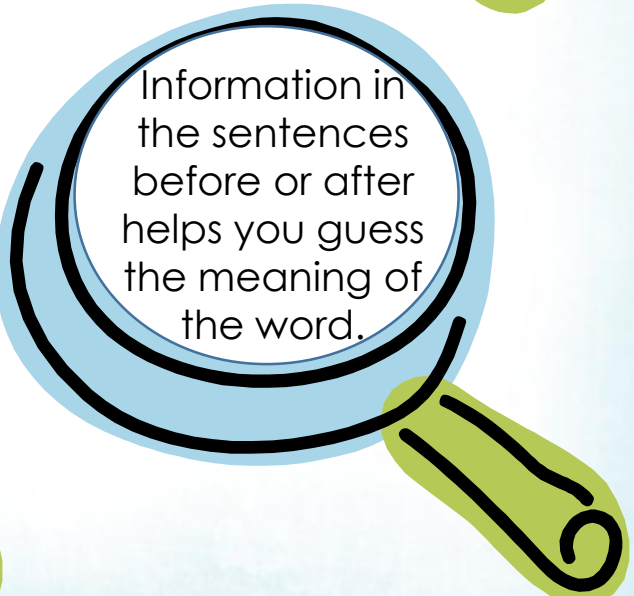

An example of the word is given.

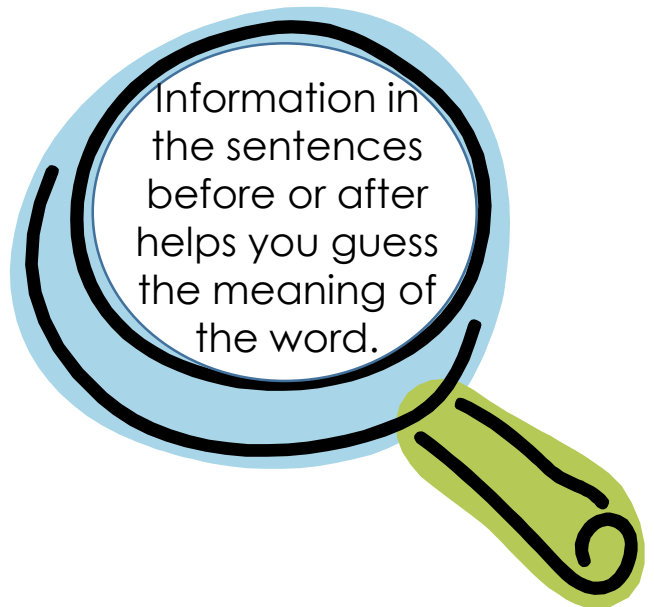

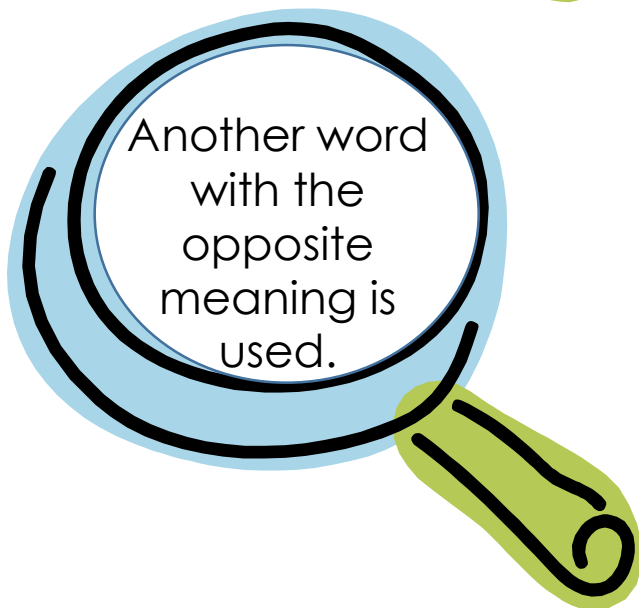

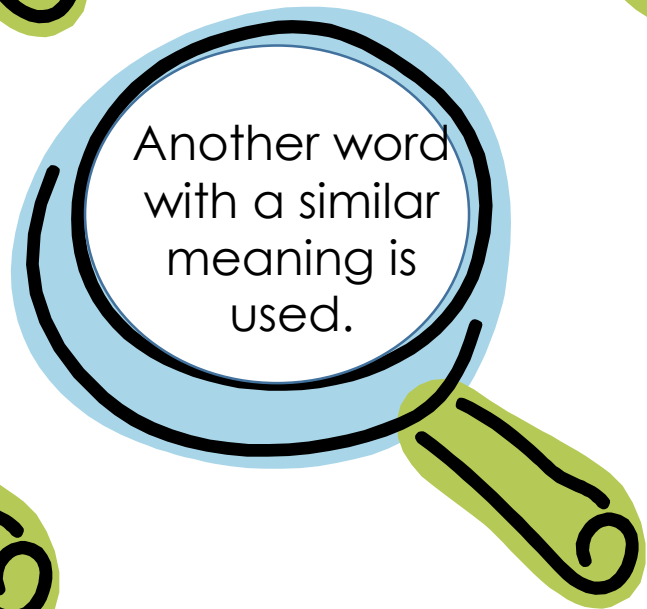

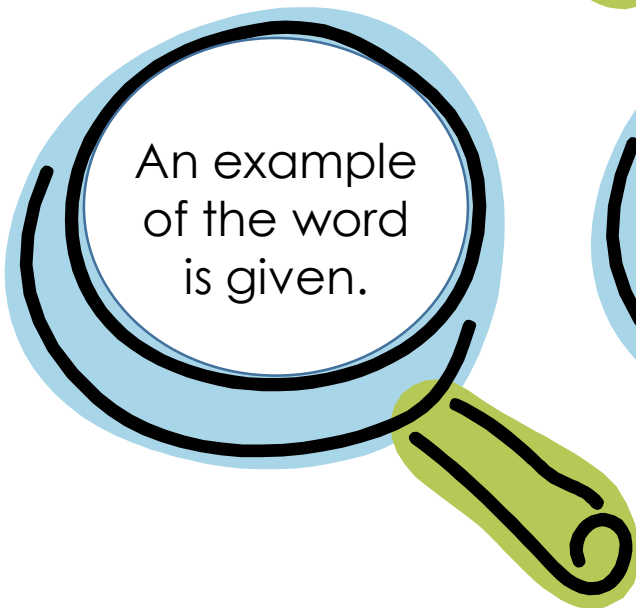

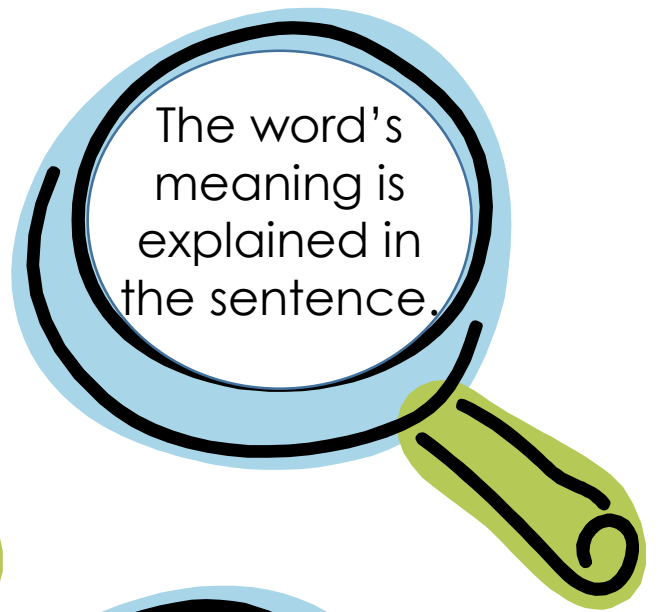

Another word with a similar meaning is used.

Another word with the opposite meaning is used.

Information in the sentences before or after helps you guess the meaning of the word.

Don't worry if Joe seems unfriendly when you meet him. He's just a taciturn person.

Joe is taciturn most of the time, but his sister is very talkative.

Joe is taciturn, but we are used to how quiet he is.

Joe is taciturn. Yesterday at lunch he hardly said anything.

If you are taciturn, you don't talk very much.

Information in the sentences before or after helps you guess the meaning of the word.

# Directions

Use this packet to introduce basic context clues! I have tried to offer a variety of possibilities.

- Simply present the clues with the chart and examples.
- Fill in the chart with your own examples.
- Cut out the clues and the examples for a matching activity.
- Cut out the clues and examples to create a poster-sized anchor chart.
- Cut out the blank shapes to write your own clues and examples for an anchor chart or matching activity.
