

## BST BULLETIN

SEPTEMBER 2024

## SEPTEMBER 2024 | BST BULLETIN

---

Hello BST and happy September! This month is jam-packed with holidays and events at both BST and Chino High School with the Milkcan game this month. We can get into some school spirit against Don Lugo, our long time rival for more than 50 years. Let's get straight into this month and start the semester with strong grades!

The Biomedical Science and Technology Academy is Chino Valley Unified School District's distinguished magnet program. Through cutting-edge curriculum and resources, hands-on experiences, and a culture of i3, innovation, investigation, and invention, we foster lifelong learners who embrace scientific inquiry and technological advancement. As a member of the BST community, you are critical in supporting this vision.

## IMPORTANT DATES

---

**September 2** | No School - Labor day

**September 17** | Milkcan Blood Drive

**September 20** | Milkcan Game

**September 30** | Homecoming Spirit Week

## Q & A FOR BST

---

### ***Q.1 What are the BST branches of study?***

**A.1** The Biomedical Science and Cyber Security branches of study prepare BST scholars to become leaders in their chosen fields. These branches and their respective Core Specialty Courses are designed to provide students with leading-edge knowledge in emerging careers with a focus on innovation, investigation, and invention.

BST scholars will be exposed to both branches of study during the Summer Bridge program and their first-year coursework. At the end of their first year, BST scholars will select either the Biomedical Science or the Cyber Security branch.

### **Q2. What are the advantages of attending BST?**

**A2.** The BST provides students with a unique high school experience complete with cutting edge, specialized courses of study and hands-on experience and exposure to different professions through internships with industry partners. BST graduates will be primed for post-secondary success, either as highly competitive college applicants or as industry leaders in high demand technical professions.

## CONTACT INFO

---

Have any questions or concerns about BST Academy, BST Talks, or the BST Bulletin Newsletter? We would love to hear about it! You can get a hold of us at the following:
