

# CLARK INTERMEDIATE

## Digital Citizenship

This school year, the Clark staff conducted lessons on Digital Citizenship in the Academic Block, Math, Science, and PE classes. In addition, students and faculty reviewed the CUSD Technology User Agreement which outlines expectations for student behavior when it comes to technology use. At recent IDAC meetings, we shared with parents online safety tips. We also encourage you to review the CUSD Technology User Agreement with your student and consider what type of family media agreement best fits your family.
