Dear Parents/Guardians,

The Clovis Unified School District has developed a comprehensive literature curriculum reflecting the contributions of many religious, ethnic, racial, and cultural groups in our society. Our teachers work diligently to select materials that reflect both the maturity and ability levels of our students. Lessons are designed to enhance factual knowledge as well as an appreciation of literature.

We encourage our parents to review the literature that will be used for instructional purposes in our classrooms. To help you review the selections to be used in your child's class a brief synopsis has been included.

If you have any questions regarding any of the books on the supplemental reading list, please contact your child's teacher to discuss your concerns. If a selection is in conflict with your parental values, an alternate assignment will be provided. Parents are encouraged to read the entire piece of literature to ensure an informed decision can be made.

Please sign below giving permission for your child to participate in lessons using the literature selections listed for your child's classroom.

Sincerely,

Aaron Cook  
Principal

---

I have read the supplemental literature list for my child's classroom and give permission for my child, \_\_\_\_\_ to participate in lessons using these selections.
