

Fugman Elementary welcomes

Destination Imagination

**Equip your child with skills
that will last a lifetime.**

If your child is a STEAM-enthusiast, budding artist, storyteller, passionate community activist, or they just love to learn and explore new ideas, DI can nurture that curiosity and use it to build lifelong skills for success.

WHAT IS DESTINATION IMAGINATION?

Destination Imagination is an educational nonprofit that prepares students for a future that is rapidly evolving. DI does this through a fun, project-based learning experience that applies the creative process across different challenge types – technical, scientific, engineering, fine arts, improvisational, and community service– allowing students of all ages to acquire and practice the skills needed to thrive in school, future careers and beyond.

DI Kids Learn

**Self-
confidence**

**Creative &
Critical Thinking**

**Team
Building**

Perseverance

**Problem
Solving**

**Risk
Taking**

**Project
Management**

At Destination Imagination (DI), we understand that it can be challenging to engage children in their education– to show them that learning doesn't have to be boring or take place only in the classroom or online. We believe that when an educational experience is fun and hands-on, your child is empowered to take his or her learning to the next level and is excited to do so. That's why Destination Imagination is committed to providing a supportive environment where student participants develop skills that will enrich their lives far into the future.
