### 3. Student Achievement Data

#### a. iReady Diagnostic Data

Mrs. Dodson reviewed iReady Diagnostic 1 data. She explained that there are a lot of students scoring in the “yellow,” indicating one year below grade level because this diagnostic was taken within the first two weeks of school. Mrs. Dodson explained that students are currently in the process of taking Diagnostic 2 in class so we can measure students’ growth. Students who will meet half of their “stretch growth” will earn a pizza party.

#### b. BOY DRA Data

Mrs. Dodson reviewed the beginning of the year DRA data and explained how students are assessed and how reading intervention groups are created based on DRA data.

### 4. Upcoming Clovis South Boundary Meetings
