This week, our school community will focus on the character strength of **Curiosity**. Curiosity means you like exploration and discovery. You ask lots of questions because you want to learn more about anything and everything. People with strong curiosity are more likely to ask questions and try new things. Curiosity is a form of courage because asking questions shows we don't know something, and trying new activities risks failure. However, it's through questions and exploration that we learn and grow.

To practice and encourage curiosity at home, please visit the mobile-friendly [P2 for Families](#).
