Dear Parent/Guardian,

Each year, Clovis Unified School District receives Title VI Indian Education Funds of the: Every Student Succeeds Act of 2015. This school year, CUSD currently serves 475 Native American Students. The funds are designed to meet and support the special educational and culturally related academic needs of American Indians and Alaska Natives, so that students can achieve at the same challenging State performance standards expected by all students. The purpose of this survey is to assess the effectiveness of the Title VI program activities and to determine what action needs to be taken, if any, to increase parental participation. This year, our grant has allowed us to fund an additional 13 instructional aides to serve K-12 students at 44 different school sites. This information, combined with staff information, achievement scores, and other data, will be used as a basis for planning the District Title VI Indian Education Program. Please return your completed parent survey by February 23, 2024, to your school site. If you have any questions, please call 327-0670. Thank you for your time and input. This information is used by the district and the CUSD Indian Education Parent Advisory Committee for program evaluation and planning.

**Please complete on (1) survey for each child.**
