

## MICKEY COX

### I.D.A.C. MEETING NOTES

4-11-24

1. Welcome Mrs. Floth welcomed parents to the meeting and shared the agenda.
2. Brain Breaks Mr. Dirks went through the concepts of brain breaks and discussed their importance within the classroom. He reviewed with parents how students need to rest and reset their minds after engaging in academic curriculum, and how this can relate to how this can be applied at home as well. Mr. Dirks discussed how often these breaks are recommended to be utilized, and modeled examples of each. The group discussed and compared the need for breaks with how this relates to students versus adults. Mr. Dirks wrapped up the presentation by discussing the six key takeaways from the presentation which parents can take home with them for continued learning.
3. Functional Life Skills Mrs. Floth walked parents through the Mickey Cox Functional Life Skills classes. They were able to see the intervention put into place for all of our students. Students were working on communication skills and shapes. Parents watched students communicate through their devices to participate in class conversations.
4. Upcoming School Events Mrs. Floth reviewed the upcoming activities for Mickey Cox.
  - a. 4/12 Spring Sports Awards at 2 pm.
