

Did you know there has been an increase in food allergies?  
Did you know food allergies can be LIFE Threatening?  
Food allergies include more than just PEANUT/NUT allergies....other common foods include EGGS, SOY, MILK, some FRUITS and VEGETABLES, and many more!

In order to increase awareness and promote a safe environment for our students, we need everyone's help and cooperation. We are requesting that you please explain to your child that our school rules include not sharing or trading foods while at school.

They should also be discouraged from sharing eating utensils and drinks. Please remind your child to wash their hands after eating and upon entering the classroom and before participating in any afterschool programs.

By working together and communicating clearly, we hope to create an environment that allows all children to grow, learn, and be safe while at school.

We appreciate your assistance in keeping all of our students safe. Please call **559 -327-7700** and ask for the Pinedale Health office if you have any further questions or concerns.

**THIS IS A NUT AND PEANUT AWARE ZONE/CLASSROOM**
