

## E-Learning Plan

### What is an E-Learning Day?

E-Learning Days are designed to serve as official attendance days of school when the students and teachers stay at home due to emergency situations, yet learning continues as students remotely leverage digital tools and engage in teacher-prepared lessons. The Collinsville School District E-Learning Plan also includes teachers available remotely to assist students by email with their assignments during the hours of the E-Learning school day.

### Issuing an E-Learning Day:

In the event conditions are such that school must be cancelled, administration will do its best to make that determination by 6:00am. Sometimes this is not possible, as conditions can change rather quickly in Southern Illinois, but the goal will be to make the determination by 6:00 am. Once the decision is made, students, staff, and parents will be notified:

- through our District call system
- through our website, Facebook, Twitter and Instagram
- through local tv and radio stations, as well as newspaper websites

If an E-Learning Day is implemented, everyone will be notified in the same manner as when school is cancelled. Students will be expected to utilize the day to meet with their teachers virtually and work on their required assignments/activities as described below in the Student Assignments/Activities section.

### Teacher Availability:

Teachers are expected to be available to students/parents from 8:00 am to 1:00pm by email. For many teachers, other systems may work better than email (Telephone, ClassDojo, Google Classroom, etc.) and staff are encouraged to utilize these other communication tools as the situation dictates. However, all teachers will check their email at least once per hour and provide feedback and guidance to students/parents on an as needed basis. The District understands that many teachers have their own responsibilities that may arise with these days (supervising their own children, shoveling snow, etc.). The District also understands that there will be time spent in follow up activities after the E-Learning Day (reviewing completed assignments, providing support for students without internet access, encouraging students to

complete assignments, etc.). Staff will respond to all communication requests in a timely manner (within 24 hours) during scheduled hours. Teachers may communicate outside of office hours as needed.

**Live Video Conferencing Sessions:**

Google Meet will be one of the primary video conferencing tools used to host live class sessions in communication with students during E-Learning Days for online learners. If your child is unable to attend a live session, the classroom teachers may provide either notes or a recorded version of the session. Elementary teachers with students in grade PreK-6 will include in their morning announcement the times students are to log in for live instruction. At grade levels 7-12, staff will use the abbreviated class times when scheduling synchronous (live) sessions.

CMS and CHS

1st hour	8:00-8:30
2nd hour	8:40-9:10
3rd hour	9:20-9:50
4th hour	10:00-10:30
5th hour	10:40-11:10
6th hour	11:20-11:50
7th hour	12:00-12:30

**Student Assignments/Activities:**

Expectations for student assignments/activities are going to vary greatly based on grade levels and subject matter. Learning materials will be designed for engagement time per day as follows:

<b>Grade</b>	<b>Minimum</b>	<b>Maximum</b>	<b>Recommended Length of Sustained Attention</b>
Pre K	20 mins / day	60 mins / day	3-5 mins

K	30 mins / day	90 mins / day	3-5 mins
1-2	45 mins / day	90 mins / day	5-10 mins
3-5	60 mins / day	120 mins / day	10-15 mins
6-8	Class: 15 mins / day Total: 90 mins / day	Class: 30 mins / day Total: 180 mins / day	1 subject area or class

However, it is important to remember that activities, especially at the primary grade levels where students are not issued a Chromebook to take home, should be about reinforcement and review of already learned material. In the event of a long-term closure, materials will build upon already learned material and introduce new concepts. Learning materials will be offered in a variety of ways either to be returned to the teacher or materials to be signed off by a parent, guardian or caregiver (digital assignments, projects, print material, sign-off Choice Boards of activities, etc.). It is also important to realize that many students may have other responsibilities (shoveling snow, watching siblings, etc.) or be in a different environment (at a grandparent’s house, in daycare, at work with a parent, etc.). For those students with multiple classes, remember that they will have work from each teacher.

- PreK – K : Teachers will provide students with a “choice board” that will be sent home and/or electronically available to students/parents as soon as possible. It is important that the choice board not be solely dependent on the use of technology, as many grade school students may not have access to a device/internet during an E-Learning Day. Depending on student access to technology, it may be possible to add a “choice” to the choice board involving teacher communicated assignment. Teachers will provide students with an announcement on Google Classroom or other class communication programs announcing their assignment(s) by 8:00 am on the morning the E-Learning Day is initiated.
- 1st – 12th Grade: Teachers will provide students with a Google Classroom announcement announcing their assignment(s) by 8:00am on the morning the E-Learning Day is initiated. For students who may not have access to the internet, it is recommended that teachers have “alternative” assignments/activities that students may work on that are not dependent on technology. These alternative assignments/activities should be communicated to students/parents prior to the possibility of an E-Learning Day...for example, sending a packet home with the student(s) that is kept at home and ready to be completed if an E-Learning Day is initiated. The district will make every attempt to provide learning materials prior to an E-Learning Day, but may use a variety of delivery methods if E-Learning Days are issued in an emergency situation.
- Special Education and Related Services: Special education personnel will be available to students through electronic sources as applicable, based on student need and IEP goals. Modifications and adaptations will also be included in all assignments, based on the needs of

the student and IEP goals. Individual goals and objectives will be addressed through assignments and activities provided by case managers.

- Most teachers will be utilizing Classdojo and/or Google Classroom as their online Learning Management System.

### **Student Attendance**

During E- Learning, attendance will be taken. The preferred method of collecting attendance is always a one-to-one daily connection between the teacher and the student. However, we recognize that this method is not available or practical for all student scenarios under an E-Learning situation. We encourage and suggest several ideas for how classroom teachers can collect and count a student as present during an E-Learning Day.

- Video conference “check-ins.”
- Wellness checks coupled with a question on student engagement/participation in lessons.
- Phone calls coupled with a question on student engagement/participation in lessons.
- Text messages or email communications coupled with a question on student engagement/participation in lessons.
- Packet collections by school personnel.

### **Grading**

Students will be accountable for completing the assigned tasks either online or by printed materials in the same manner as any other school day. Students will only receive a “present” for attendance once work is completed. Incomplete work will be considered incomplete. Teachers are encouraged to hold students accountable for completing work as they would with any missing assignments. Completed work can either be turned in online or on an upcoming school day.

### **Student/Parent Technical Support:**

In the event of an issue with a student's District assigned device, please call or email the technology support person at your child's school. A list is posted on the district website under Chromebooks & Technology
