

Family Access User Guide

Introduction & Account Information

- Skyward Family Access is an online portal which allows parents/guardians electronic access to school related information.
- The Family Access portal allows you to view information on multiple children from a single parent/guardian account.
- Using Family Access, you can view multiple areas of student information including grades, attendance, school calendar and emergency contact information.
- The Family Access system login link is located in the Parents section of the Resources menu at www.kahoks.org.
- It can also be accessed by clicking on the Skyward link in the website header.

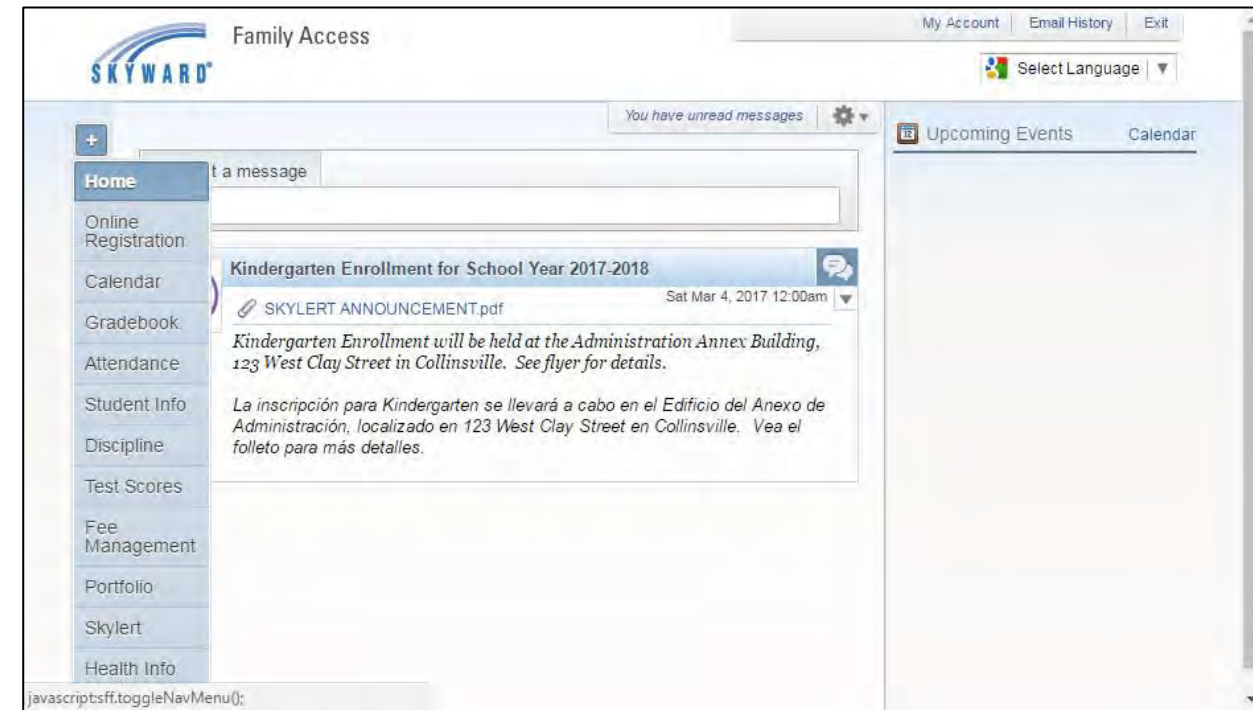

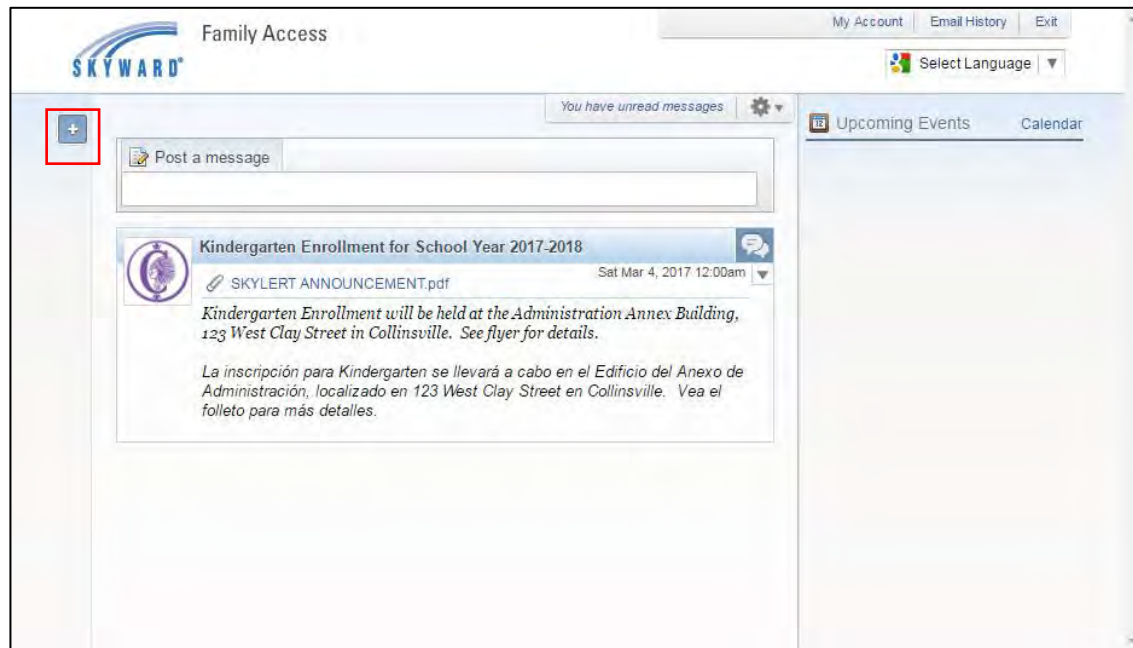

- To enter Family Access from this login screen, you will need your district-provided username and password. This is the same username and password that you used to register your child online at the beginning of the year.
- If this is the first time you have logged into the system, you will be prompted to reset your password. Your new password must be at least 8 characters long and contain at least 2 numbers.
- If you have forgotten your username or password, you can use the “[Forgot your Login/Password?](#)” link just below the Sign In button.

*Please Note: Parent/Guardian usernames use the format **firstname.lastname** (using the first and last name of the parent/guardian, not the student.)*

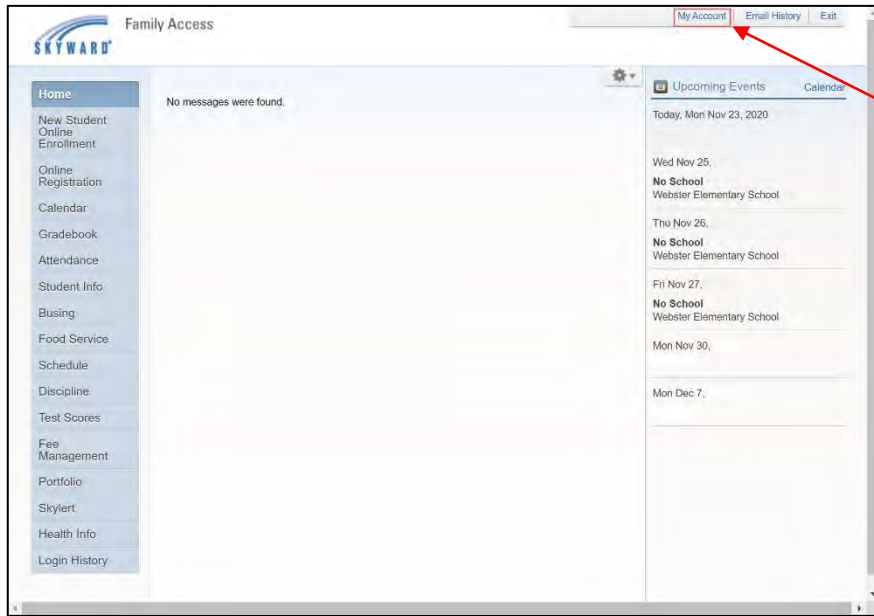

Navigation

- This the Family Access home screen. From this screen you can navigate to any area of the system.
- In the center of the home screen is the Message Center. This is where messages from your child's teacher or school will be displayed.
- Upcoming events will be displayed on the right.

- The Family Access System is designed to automatically adjust its display options for the screen size upon which it's being viewed. As a result, you may not see the full navigation menu when first opening the home screen. If you only see a plus button,  clicking it, will expand the full menu and allow you to navigate to any area of the system.

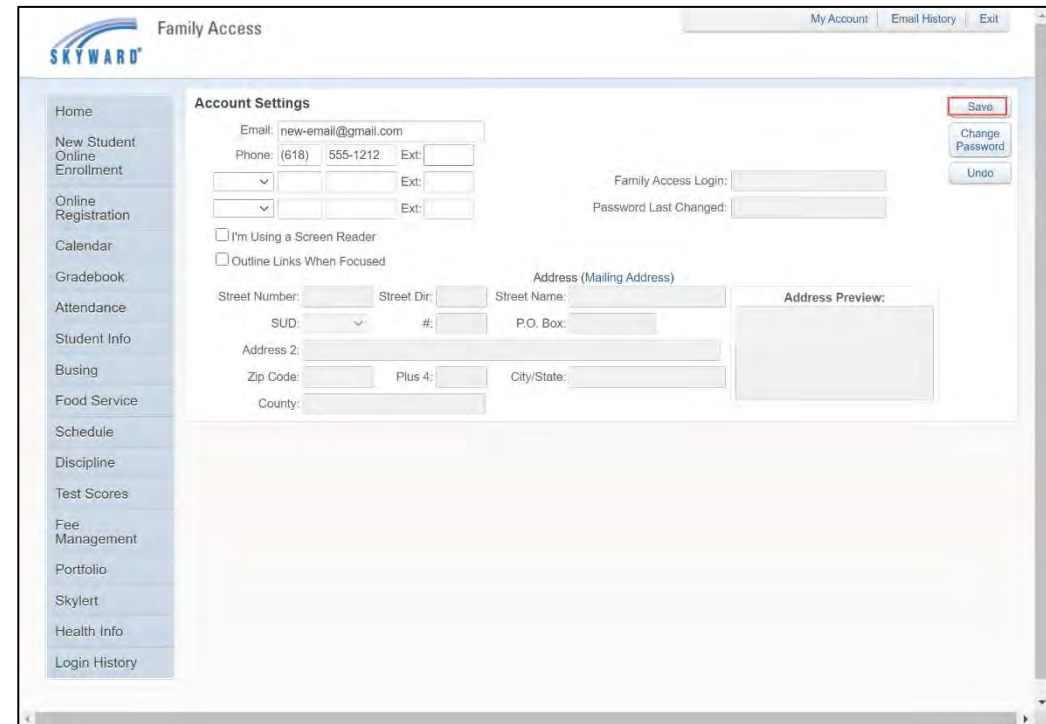

Updating your Phone Number and/or Email Address

You can update your phone number and email address by clicking the **My Account** link in the top right corner.

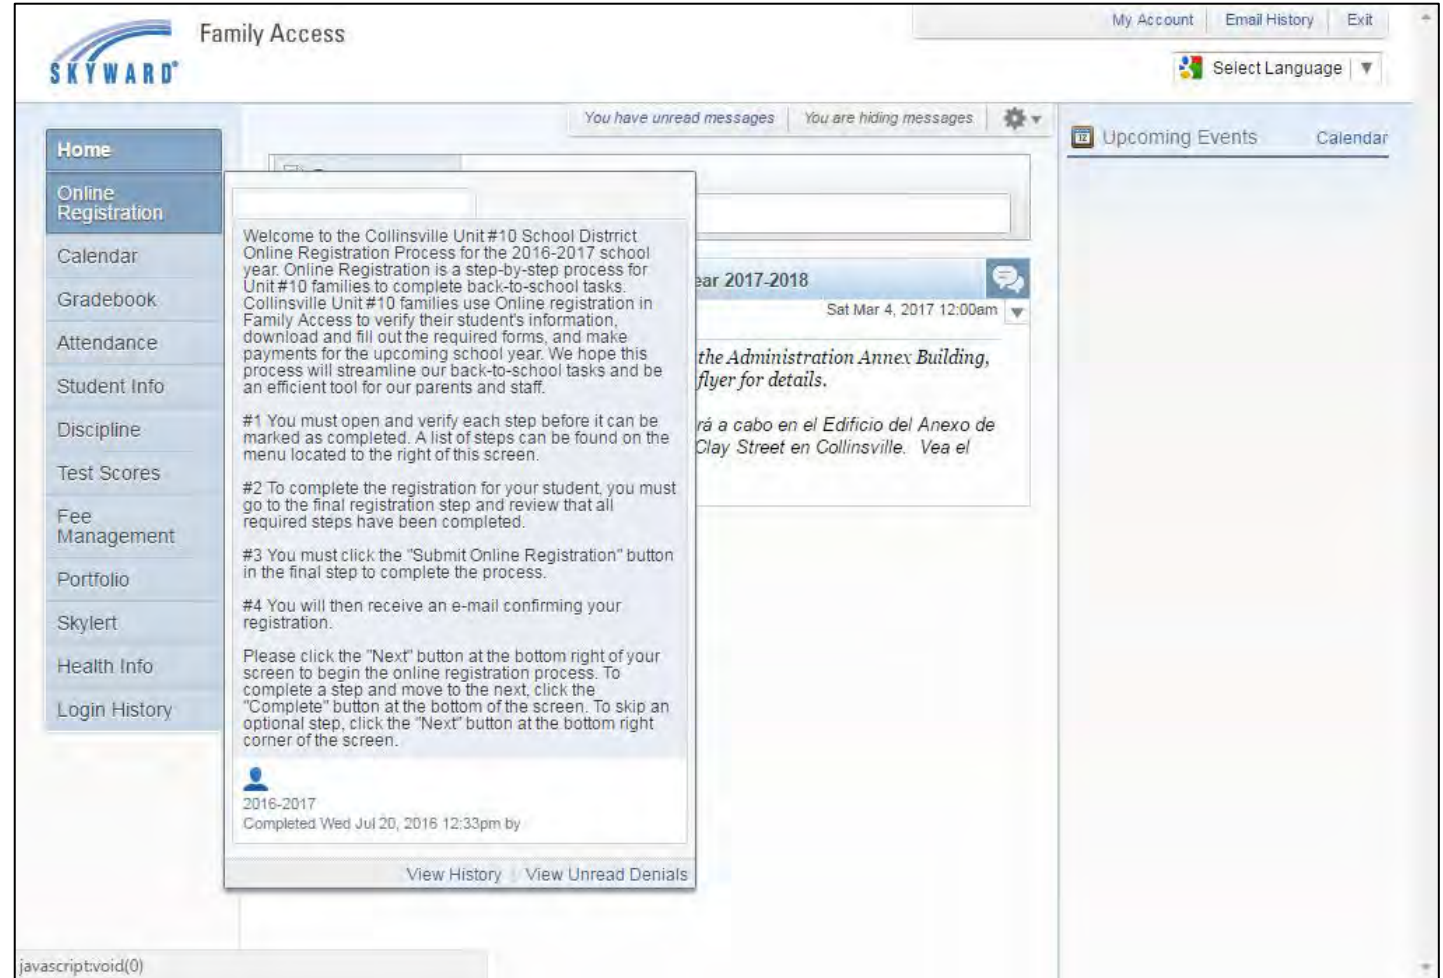

From this screen you can change your email address and primary phone number or add additional numbers. Click **Save** when finished.

- School Holidays and events will be listed here.
- If your child has any attendance events such as absences or tardies within the month they will be displayed here as well.
