“Project Interceptors” is a program which seeks to provide direct intervention to students exhibiting an attendance problem through home visits during the evening hours when working parents are more readily available. The goal of the program is to alleviate the problem by involving the parents, the counselors, the students and outside referral sources, where necessary, in the solution. In 2020, over 400 home visits were made by project staff. Our ability to maintain student attendance, as well as continuing our lowered drop-out rate, is testimony to the effectiveness of our total efforts in attendance improvement activities in general and this program in particular.

This year’s program is expected to run from September 27, 2021 through the end of June 2022 with each team working approximately twice a week for approximately 30 weeks under the supervision of Mr. James McCabe, Assistant Superintendent for Student Services.

Superintendent's Report:

Dr. Bannon reported that it has been a unique opening of school with 2 days the first week, 2 days the second week and now this week 4 days. Busing has been a concern. There is a shortage of bus drivers. Our routes are covered but many of the bus drivers are new and routes are taking longer. Also, taking the bus is new to many of our students. We are monitoring the dismissal procedures at the buildings. The bus company is working very closely with us and things have gotten better but not where it needs to be.

Dr. Bannon also mentioned that 366 kindergarten students have registered. This is larger than usual. There are still students registering, but it seems to have slowed down.
