

HALL OF ACHIEVEMENT

1998/1999
Journal

Dr. James J. Lee

Class of 1976

Dr. Lee realizes how critically important his high school teachers were in preparing him for life. He graduated as Valedictorian from SUNY at Stony Brook, going on to receive a Ph.D. in molecular biology at the California Institute of Technology. He trained as a post-doctoral fellow at Columbia University's College of Physicians and Surgeons joining the staff of the Mayo Clinic as an Associate Professor of Molecular Biology and Biochemistry doing basic research into the causes of asthma and other allergic diseases. He married his high school biology lab partner.

"Life will not be about what you are, but who you are."
