JOURNAL

PHILIP GUERRA

Class of 1973

Philip Guerra's "Copiague" spirit continues to grow each time he looks into the eyes of a young person and sees that look of pride and accomplishment after completing what was first thought to be a challenging task. Phil has been a member of Boy Scout Troop 284 since 1967 and served as the Scout Master for seventeen years. He recently was recognized by the Town of Babylon for his dedication to the young men of the Copiague community. His community spirit has been an inspiration to those who have been fortunate enough to know him. He also was awarded the Copiague Middle School PTA Founders Day Award, honoring him as a contributor to the youth of Copiague. He is a past president of a local fraternal organization and a member of the Copiague Kiwanis Club. Phil continues to let his spirit shine through his many community activities.

Upon graduating from Copiague High School in 1973, Phil attended SUNY at Farmingdale as a Criminal Justice major. He then worked for a private security firm as a Polygraph Examiner and went on to becoming the Manager of Operations for the Uniformed Security Guard Division. Currently, he is employed with New Horizon's Computer Learning, the world's largest computer training company, as a Senior Account Executive. He contributes his success to following the Boy Scout Code of caring for others before oneself. Phil assists individuals and corporations in achieving their full potential just as he has the many young men of Troop 284.

Phil and his wife, Carol, and daughter, Lauren, live in North Massapequa, New York.
