

Responsibilities & Expectations

Susan E. Wiley Elementary School

Introduction:

A safe and orderly environment at Susan E. Wiley Elementary School is a joint effort shared by the students, parents, staff, teachers, administrators, and the Board of Education. The district standards of conduct are based on the attitude of pride and respect that the students should have for themselves and their school. The goals of the Susan E. Wiley Elementary School are to develop behavior in the students and establish a sound educational environment where everyone can focus on learning. To promote these goals, the Board of Education has adopted this code of conduct. At Susan E. Wiley Elementary School we believe that certain rules support these goals.
