

ABCMouse®

ABCMouse Early Learning Academy's award-winning curriculum is aligned to widely recognized standards of education and development for young learners in preschool, pre-k, kindergarten, 1st grade, and 2nd grade. It encompasses all key academic subject areas, including reading and language arts, math, science, health, social studies, art, and music. ABCmouse has been designed in all aspects to engage children, and it includes more than 11,000 Learning Activities—each individually crafted to appeal to children and simultaneously address essential learning outcomes.

Research-Validated

Age of Learning partners with independent researchers and early education experts who have completed several large-scale research studies with more than 20,000 children globally.

Significant Improvements

Regular ABCmouse usage in pre-k and kindergarten has been proven to increase outcomes in literacy and numeracy skills.

Educational Excellence

Our comprehensive standards-based curriculum is designed in close collaboration with experienced educators and other early learning experts.

ABCmouse is the leading and most comprehensive online learning resource for children ages 2–8+. Developed by Age of Learning and available on computers, tablets, and smartphones, ABCmouse is helping children everywhere build a strong foundation for academic success.

ADVENTURE ACADEMY™

Adventure Academy is an educational **massively multiplayer online** game (MMO) for elementary and middle school students. It features thousands of enjoyable learning activities that are discovered on quests through an interactive virtual world. Expertly designed to create a highly engaging and educational environment, Adventure Academy focuses on building critical knowledge and skills in language arts, math, social studies, science, and more.

Age of Learning, the company behind the industry-leading ABCmouse® online learning program, developed Adventure Academy with a substantial investment over the course of three years. In Adventure Academy, the more you explore, the more you learn.

Audience: Elementary and middle school students

Gameplay: In Adventure Academy, learners

- Create and customize their Avatar's features, clothing and backpack.
- Complete quests and learning challenges to level up, unlock new zones, and earn rewards in an ever-expanding virtual world.
- Interact with other learners, chat, and create or join clubs in a safe, COPPA-compliant environment.
- Play the entire game across multiple platforms, including computers, smartphones, and tablets.

Curriculum

Age of Learning has brought the same curriculum-first approach to Adventure Academy that it successfully employed in ABCmouse, which has helped educate more than 20 million children to date.

- Adventure Academy features thousands of educational learning activities, such as videos, reading experiences, games, quizzes, and many other interactive elements—all within the frameworks of U.S. (and international) curriculum standards.
- It is crafted by a curriculum team of expert educators who are on staff.

ReadingIQ®

A Digital Library and Literacy Platform

Developed by leading education technology innovator Age of Learning, ReadingIQ is designed by reading experts to improve literacy skills and match children 12 and under to books that are just right for their reading abilities and grade levels. From beautifully illustrated picture books, popular series, and comic books, to chapter books, graphic novels, and books on every academic subject, ReadingIQ is the personal learning library that helps children grow as readers.
