## Smart Snacks Reference Sheet - Foods

The Smart Snacks in School standards require all foods sold on “school campus” during the “school day” to meet standards for fat, saturated fat, trans fat, sugar, and sodium while promoting products that have whole grains, low fat dairy, fruits, vegetables or protein foods as their main ingredient.

Follow the steps to determine if a food item meets the Smart Snacks standards.

### Step 1: Does the item meet one of the following exemptions?

- **Fresh fruits and vegetables** (with no added ingredients except water)
- **Canned and frozen fruit** (with no added ingredients except water or are packed in 100% juice , extra light or light syrup)
- **Canned vegetables** (with no added ingredients except water)
- **NSLP/SBP entrée items\* sold ala carte on day of OR day after service in NSLP/SBP**  
\*Entrée item= a combination meat/meat alternate and whole grain-rich food; a combination fruit/vegetable and meat/meat alternate food; a meat/meat alternate food alone (with the exception of yogurt, cheese, seeds and nuts, or meat snacks); a whole grain rich food alone when served as a breakfast entrée.

Yes 

Item meets Smart Snack standards – **no need to evaluate further**

No 

**Proceed to Step 2**

## Step 2: Does the item meet ONE of the General Standards?

Standard	Notes
<ul style="list-style-type: none"><li>• Whole grain rich grain product</li></ul>	Must be 50% or more whole grains by weight or first ingredient must be a whole grain (OK if water is listed first)
<ul style="list-style-type: none"><li>• First ingredient is a fruit / vegetable / dairy product or protein food</li></ul>	Dried/dehydrated fruits or vegetables meets the general standards Exception: dehydrated or concentrated juice or puree is considered added sugar and does not meet the general standard
<ul style="list-style-type: none"><li>• Combination food that contains at least ¼ cup of fruit and/or vegetable</li></ul>	Combination food: Food that contains two or more components representing two or more of the food groups: fruit, vegetable, dairy, protein or grains Two items packaged together can be considered a combination food
<ul style="list-style-type: none"><li>• Contains ≥ 10% of the Daily Value for calcium, potassium, vitamin D, or dietary fiber (either naturally occurring or added)</li></ul>	This criterion becomes obsolete effective July 1, 2016

Yes  Proceed to Step 3

No  Item does **not** meet Smart Snack standards

### Step 3: Does the item meet ALL of the Nutrient Standards?

		Exemptions
