

Building & Grounds Committee Meeting

July 30, 2018

5:30 – 6:15pm

Central Office Conference Room

Those in attendance: Cari Buehler, Shane Baumgardner, Mary Lou Rinaldo and Keith Mora

Mr. Baumgardner gave an update on the progress of the West Campus development. The remaining paving, light poles, fencing, track surfacing and turf installation will be completed on or before Aug. 31st.

Plans were viewed for the Cafeteria remodel and update. Additional items to be completed by Aug. 15th include installation of video display boards, plumbing and electrical repairs, and additions to surveillance. Cafeteria tables have a delivery date near the end of the 1st 9 weeks.

Time was spend viewing the “future projects” list. Some discussion involved what that looks like presently and also what other needs might need to be addressed and when. It was mutually agreed that we all take an in-depth look at the list and be ready to make recommendations at the October meeting.
