Far too often this year, our flag has flown at half mast, mourning the death of a world leader or the senseless slaughter of innocent people to gain attention for a cause. Each of these deaths affect us and we cannot ignore them. By the time you read this, many more people will be dead and many of the deaths we mourn will have been forgotten, buried under more acts of terrorism. Those who ignore these acts of violence ignore their responsibility to society. No one claims to have THE ANSWER. Yet we, as future leaders, can at least TRY to find THE ANSWER.
