RETROSPECT VOL. III 1974-1975

Published by the student body of Thomas Jefferson Junior High

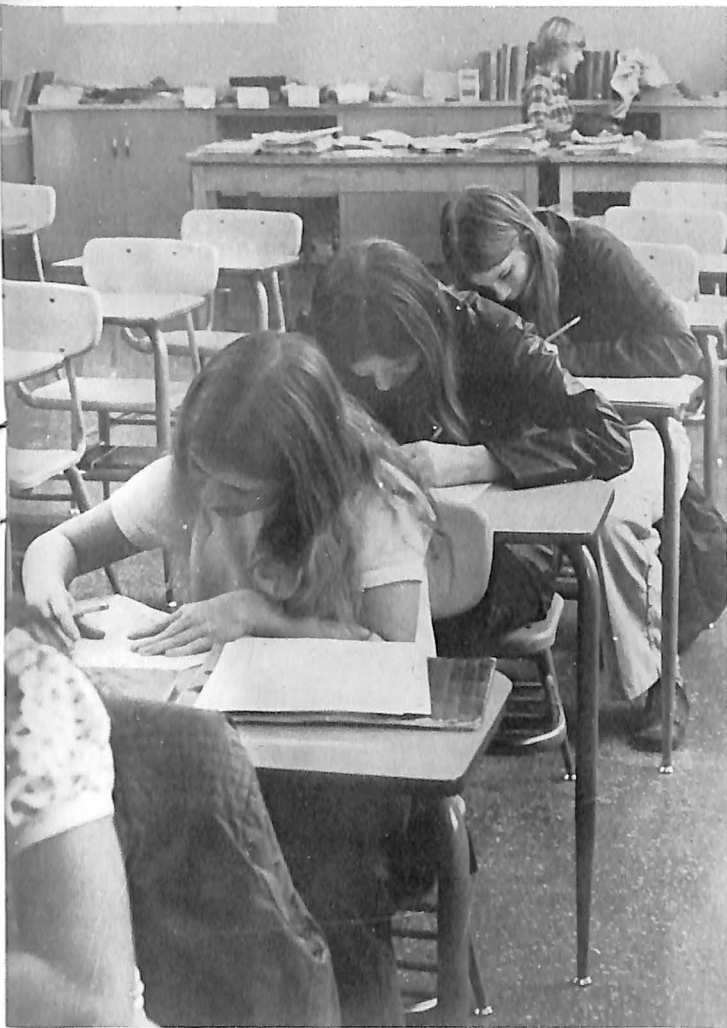

**For a spider called Sammy,
The first day of junior high
Is a real adventure.
The once quiet, still halls
Become a jumble of noises—
Friends shouting “hello”, lockers
Opening and closing, bells ringing.
Sammy, anxious to begin a new year,
Hurries to his first class.**

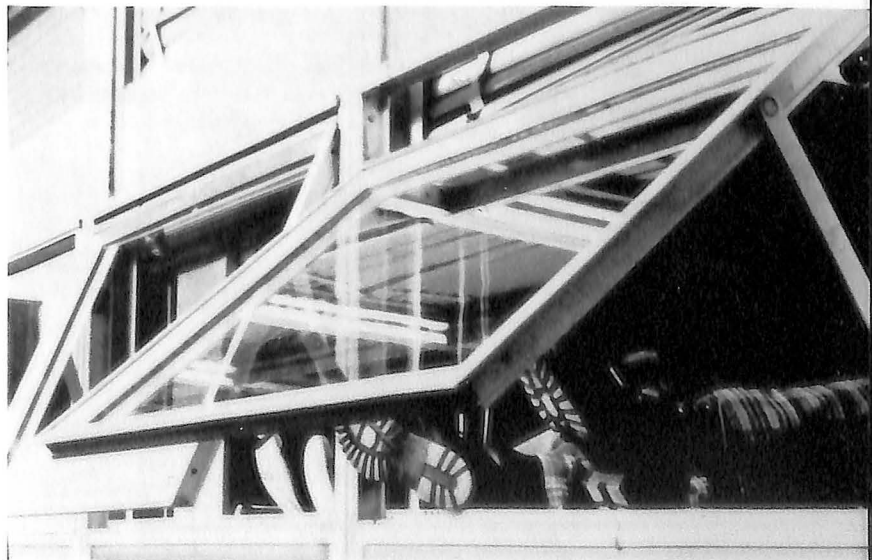

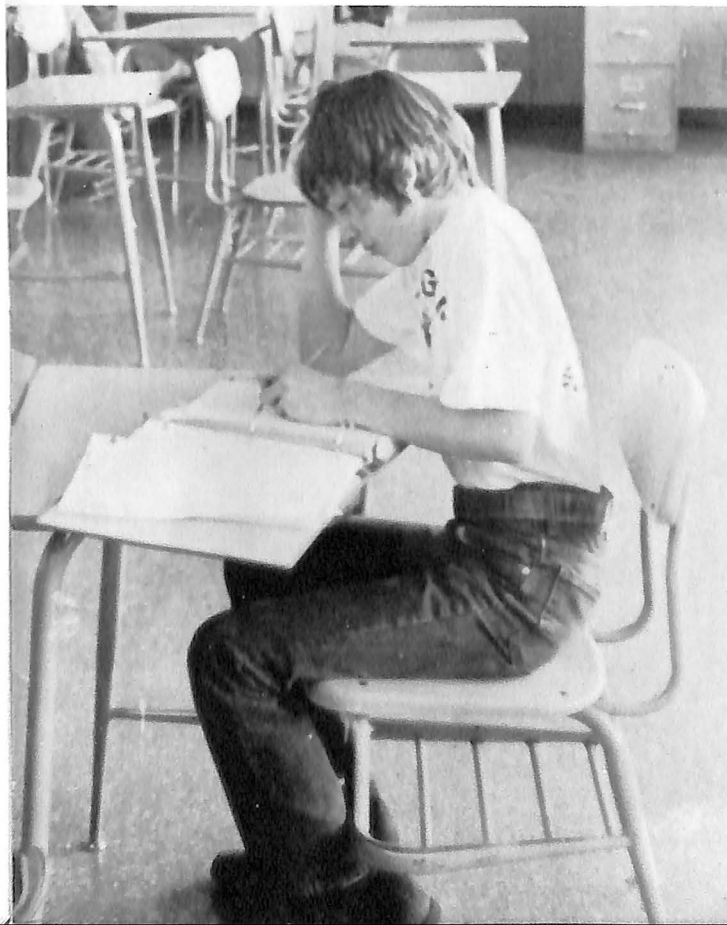

PE

**CON
ROL**

Even Sammy, at times
Finds his work to be a struggle,
And then, a strange mood
Creeps up on him and
Instantly, he's drifted into
Another personality.
His actions are even surprising to him.
But then, as if a great gust of wind
Had swept him away
Reality overtakes him again.

**To Sammy,
The classroom is a time of concentration,
A time of hard work and study,
But also a time for meeting
New and wonderful friends.
Friends like Sally Spider who sometimes
Makes studying a little harder, but
School a lot more fun.**

**For Sammy,
Exercise is a necessity,
For spinning a web is no easy chore.
Water fountain knee-bends aren't enough
To strengthen Sammy's legs,
So he takes to badminton,
Skiing and basketball.
To Sammy, competition
Doesn't really matter;
It's the fun that counts.**

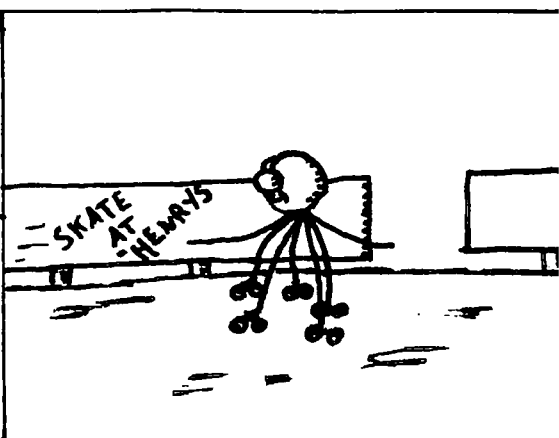

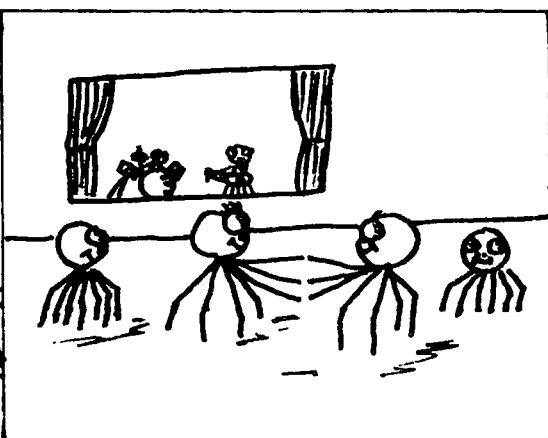

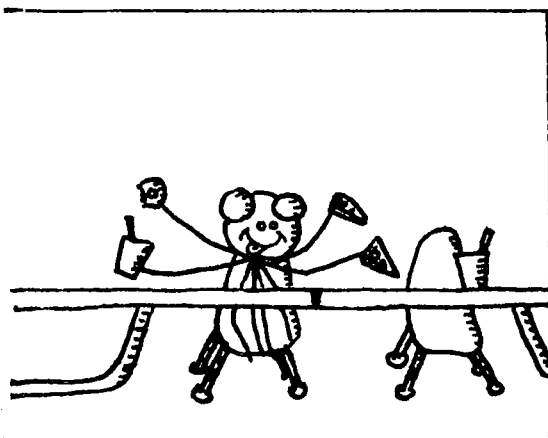

For Sammy Spider
Junior High is only the beginning
Of a great 'web' of life
For he will reach many goals and
Cunningly spin his way
Through many hardships,
Onward to a bright
And successful future.
Junior High is the first of many stages
On to a new way of life.

**While students leave school, seeking the summer sun,
Sammy Spider searches for a cool, dark corner in the building,
Looking for a place to rest from the long school year.
He soon misses his friends — the halls are empty and quiet —
But he knows that before long, the next year will start.
Then there will be more students and more friends.**
