The Budget at a Glance

Operating Budget

The proposed 2009-10 budget was developed in the face of unprecedented uncertainty and a global economic crisis. Even with community support of our local option levy and funding from the American Recovery and Reinvestment Act (ARRA), this budget reflects the deepest cuts made by the district in recent history.

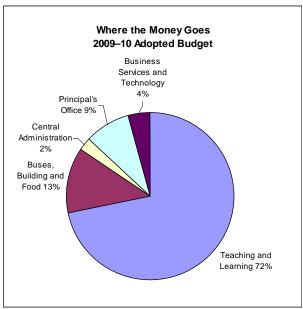

Overall, the proposed budget totals \$290.4 million, down \$29.3 million or 9.2% from the 2008–09 adopted budget. This represents significant declines in budgets for the general fund, capital projects fund, fleet and equipment fund, and district retirement fund. Offsetting the decreases are increases in the federal, state, and local programs fund due to ARRA funding.

General Fund

The general fund operating budget of \$143.8 million (excluding contingency and ending fund balance) has decreased by \$11.7 million—or by 7.6%. Budget reduction strategies include reducing the central office and administration budgets by \$3.8 million, reducing transfers to other funds by \$1.9 million, and revising compensation agreements and reducing staffing to save a combined \$6 million.

Based on a state funding level of \$5.6 billion for K-12 education, general fund revenues have dropped by 10.3% to \$134.8 million. This \$15.5 million decrease from the 2008–09 budget reflects lower revenue in all categories except federal funds which increased due to the reinstatement of federal forest fees. The majority of the decrease is the reduction in state revenues, \$15.3 million.

General fund reserves including contingency funds have decreased \$8.3 million from last year's adopted budget as the district draws down reserves to fund services and plan for additional sustainable reductions.

Revenue Outlook

In April 2009, Governor Kulongoski and State Education Superintendent Castillo advised school districts to prepare budgets based on a state funding level ranging from \$5.4 billion to \$5.9 billion. The revenue variance for District 4J is approximately \$7 million. This is substantially below the \$6.55 billion Essential Budget Level projected for the 2009-11 biennium and also lower than legislatively approved funding of \$6.245 billion in 2007-09.

The primary sources of state funding are the state general fund and lottery proceeds. In this

economic crisis, it is assumed that all available resources are being accessed to meet even the lowest funding levels being discussed by the state legislature. These include State Fiscal Stabilization Fund dollars distributed through the American Recovery and Reinvestment Act as well as state reserves in the Education Stability Fund and Rainy Day Fund. Until the legislature adopts a 2009-11 biennial budget, however, the level of funding the district will receive over the next two years remains uncertain.

Capital Budget

The 2009-10 capital operating budget of \$12.0 million reflects construction activity in the eighth year of the district's capital improvement program (CIP). To date, all major construction projects are on schedule. These include the opening of the new César Chávez and Bertha Holt elementary schools in the fall of 2004, the new Madison Middle School in the fall of 2005, and the new Cal Young Middle School in the fall of 2006. Other projects include improvements to restrooms, classrooms, and cafeterias, as well as upgrades to heating controls and electrical and security systems. Two new synthetic turf athletic fields were constructed at Spencer Butte Middle School and Arts & Technology Academy in partnership with the City of Eugene.

Projects budgeted for 2009-10 include improving emergency egress and security site lighting, electrical system upgrades, fire alarm systems, heating and ventilation systems, and driveway/traffic improvements. These projects represent the final "spend-down" of the remaining 2002 bond proceeds.

ADOPTED BUDGET - UPDATE TO PROPOSED BUDGET MESSAGE

On June 17, 2009, the Board adopted Lane County School District 4J's budget for fiscal year 2009–10. The adopted budget consists of the budget I proposed to the budget committee on May 18, 2009 which was approved at that meeting.

Given the economic uncertainty that surrounded the development of this budget, the budget committee met several times prior to the presentation of the proposed budget. The district's budget was built assuming a \$5.6 billion state K-12 funding level. At the time the 2009-10 budget was approved and adopted, the state of Oregon legislature had not approved the K-12 budget for the 2009-11 biennium and was discussing a K-12 \$5.6 billion base biennium budget plus an additional \$400 million from reserves should certain economic conditions occur. At the May 18th budget committee meeting, the committee recommended that should state K-12 funding exceed the \$5.6 billion upon which our budget was based, funds in excess of this assumption would first be used to restore district reserves to the 5% board policy level, return contingency to the 2% board target, and reinstate the \$1 million transfer to the PERS reserve in anticipation of significantly higher rates in 2011-13.

On June 25, 2009 the legislature overrode Governor Kulongoski's veto and passed a \$5.8 billion K-12 base budget with an additional \$200 million automatically appropriated from reserves with no legislative action required if the economy performs as anticipated by June 2010. The Governor favored the initial proposal that included a higher level of funding contingent upon economic conditions. The statewide biennial budget relies on over \$700 million in new tax revenue. As in the past, the new taxes passed by the legislature may be referred to voters and repealed. If the taxes are referred to voters, the election will be scheduled in late January 2010. The way the state budget is structured, districts will receive 49% of the entire \$6.0 billion in the first year of the biennium. Should needed revenues not materialize or state reserves drop below required levels, however, funding would be reduced in the second year of the biennium.

At the June 17th meeting, in addition to using excess 2009-10 revenues to restore reserves as recommended by the budget committee, the board authorized spending up to \$500,000 to restore licensed FTE which will minimize layoffs and scheduling issues that would have resulted from the approved budget reductions. The balance of the excess revenue will be placed in reserve to make sure the district's financial position is as stable as possible through the second year of the biennium. These budget changes will be made in a supplemental budget next fall.

I would like to express my appreciation to the budget committee for their direction and involvement throughout this extraordinary budget process. They asked hard questions and made harder decisions, and the children of our community will benefit from their efforts.

Sincerely,

George Russell Superintendent

Members of School District 4J Budget Committee:

The proposed 2009-10 budget was developed in the face of unprecedented uncertainty and a global economic crisis. Governmental revenues have plummeted in just a few months. Even with the community's support of our local option levy and funding from the federal American Recovery and Reinvestment Act (ARRA), the budget proposed reflects the deepest cuts made by the district in recent history.

In December 2008, the Governor recommended a 2009-11 K-12 budget of \$6.39 billion which was \$155 million below essential budget level. As of this writing not only is the state K-12 funding level unknown, in April 2009 Governor Kulongoski and State Superintendent Castillo recommended that district budgets be prepared using a range for K-12 funding of \$5.4 to \$5.9 billion. The revenue variance between those amounts for 4J is approximately \$7 million, and the \$5.9 billion funding level represents an almost 6% reduction from the legislatively approved 2007-09 budget. In conjunction with state revenue reductions, declining interest rates and real market values have reduced district projections for local option levy and interest revenues by over \$2 million from earlier projections.

Given the uncertainty of state revenues, the district is proposing a budget which is balanced to meet the requirements of Oregon's Local Budget Law, but is very likely to change once the state education budget is adopted. One thing is certain. At any level of K-12 funding currently being proposed, we will have to make significant cuts to the district's current service level.

At the February 2009 budget committee work session, you provided me with direction to propose a budget that:

- Is guided by the district's mission, core values, board goals and key results,
- Retains sufficient reserves to meet cash flow needs, retains the district's bond rating, provides cushion for potential further economic downturn, and achieves board targets for contingency and reserves.

- Addresses the projected shortfall by making service or cost reductions, using the following criteria:
 - Focus on the instructional core, keeping board goals and key results at the forefront of decisions:
 - Retain sufficient funds to manage the required human resource, financial, information technology, leadership and facility maintenance activities of the district;
 - o Minimize layoffs to the extent possible;
 - Be mindful of the long-term, avoiding short-term solutions that may have harmful long-term consequences.
- Sets aside funding to offset anticipated future PERS rate increases,
- Takes into consideration service priorities expressed by the Budget Committee, and
- Includes a prioritized list of service changes should the final state budget and/or a federal economic stimulus package cause the district's financial outlook to change significantly.

Since February, the revenue outlook has worsened and the budget I am proposing does not meet all these criteria. It is, however, guided by the district's mission, core values, board goals and key results and is focused on the instructional core. Funding directed to schools with higher needs students remains in place, albeit at lower levels. Targeted ARRA funding will provide further support in this area.

We are basing the district's proposed 2009-10 general fund budget on a \$5.6 billion state funding level for K-12 education. To address the resulting \$20 million shortfall we project at this level of funding, difficult decisions had to be made. District services have been pared repeatedly given many consecutive years of declining enrollment and several biennia of reduced state revenues. Over 2,500 staff, parents and community members responded to a budget survey designed to get input on budget reduction strategies. The overwhelming response is a testament to how important K-12 education is to our community. Attachment D to this budget message provides a summary of the responses to the surveys. This information helped guide my decisions when preparing for the largest shortfall in district history. While my goal was to keep cuts as far from the

classroom as possible, the magnitude of the deficit and the fact that almost 78% of district general fund operating expenditures go directly to classroom and classroom support, made it impossible to avoid cuts to those services. I am pleased that collaborative discussions with employee groups resulted in agreements that reduced contract costs by \$2.9 million. This effort alone allowed the district to reduce cuts to the classroom by half. In addition, the following reductions were made to diminish the direct effect on the classrooms:

2008-09

Reduce planned expenditures, \$4.3 million – This bolstered 2009-10 beginning working capital.

2009-10

- Draw down reserves, \$12.4 million General fund, Capital fund, Fleet and Equipment fund and District Retirement fund reserves and transfers to these funds were reduced by a total of \$11.9 million. Proposed Contingency funds are \$700,000 below board policy, and the ending fund balance, including underspending, is \$1.3 million below board policy.
- Reduce Central Office and Administration budgets, \$3.8 million —
 Department budgets which include supplies, services and staffing
 were reduced by \$2.7 million. Additionally, the Central Services and
 Instruction administrations were reorganized resulting in savings of
 \$650,000. Further reductions to supplies and services totaled
 \$400,000.
- Compensation Agreements, \$2.9 million All employee groups agreed to changes that reduced wage and benefit costs by at least 3%. Only one instructional day was cut to achieve the savings.

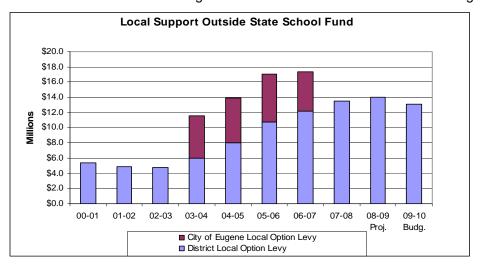

After the above strategies were employed which resulted in savings in excess of \$23 million, a deficit of \$2.6 million remained and the following school reductions were made:

 School-based licensed staffing, \$2.46 million – Licensed staffing was reduced 33 FTE by increasing the student to teacher ratio by 1.0 FTE, reducing physical education requirements at the elementary and middle school levels, and reducing staffing used to assist schools with student interventions and the effects of declining enrollment. Reduce athletic programs, \$140,000 – Budgeted savings of \$140,000 were obtained by reducing transportation and substitute costs and increasing revenues.

Several of the foregoing strategies employ the use of one-time or two-year reductions. They do not provide the sustainable cuts that are required to bring our service level down to match our reduced revenue stream. These strategies are also not without risks. Reserve levels are being drawn down to below the board policy target and are at a minimal level should economic conditions worsen. The considerable deficit with which we are now faced, however, has materialized in a few short months. I am hopeful that the use of these short term strategies will allow the district additional time to make thoughtful service and program adjustments which align with board goals and will position the district to meet key results so that we may continue to increase student achievement.

Importance of Local Support

Since 2001, local support financially has helped the district deliver service to students in the face of unstable state revenue and declining enrollment. The chart below shows the history of local tax support for operations. In November 2008, the community again strongly supported the district's local option levy by renewing it for an additional five years. This funding source is now secured through 2014-15 and will be critical in sustaining

classroom services given the state's and the district's tenuous financial outlook.

The significant increases in revenue from the district's local option levy since 2002–03 are due to an unusually strong real estate market generating large increases in real market value. As the gap between assessed value and real market value has grown, the district has been able to collect more of the \$1.50 per \$1,000 assessed value rate. Given the recent decline in real market values, levy revenues are expected to drop for the next few years.

CURRENT FINANCIAL STATUS

State Economic and Revenue Forecast

The district's general fund relies heavily on state income taxes, and it is important to consider the state's economic and revenue forecast as a backdrop to the district's annual budget.

The March 2009 forecast prepared by the Office of Economic Analysis (OEA) estimated that state general fund revenue for the 2009–11 biennium will be approximately \$13 billion, which is \$1.7 billion lower than the December forecast. For the current 2007-09 biennium, projected revenues have decreased \$1 billion from the close of the legislative session in 2007. These extraordinary reductions are mirrored in states across the nation. Oregon's tax structure and the strong reliance on income tax revenues, however, position the state differently in its ability to weather recessions.

Oregon's recovery from recessions typically lags the nation since consumer confidence and spending which generates sales tax revenue, is generally restored prior to increases in employment. In March 2009, Oregon's seasonally adjusted unemployment rate rose to 12.1%, well above the United States average of 8.5% and the highest since 1947 when the employment department first started publishing the rates. Oregon's unemployment is second only to Michigan which has sustained massive employment reductions in the auto industry. Most sectors have been affected. Manufacturing and construction continued to lose jobs at a high rate and heavy losses were seen in the retail and wholesale trades, transportation and utility services, professional and services sectors, and tourism industries.

OEA analysts project that Oregon's housing market, while hit hard through the downturn, is still relatively better off compared to many states. While Oregon's housing appreciation has seen several years of strong increases, the housing correction has less to adjust to than other areas. The "housing bubble" is not likely to further erode the Oregon housing market. It will be a deepening recession that causes further home price declines and increased foreclosures.

On the positive side, Oregon will receive over \$1.6 billion in American Recovery and Reinvestment Act funding over the next two years. The funding spans several areas including health, transportation, environmental infrastructure and energy, housing, job training, child care and public safety. Funding provided specifically for education exceeds \$700 million and will provide enhanced services for disadvantaged and special education students, as well as support district-wide services. Over \$115 million of these funds have already been earmarked by the state legislature to stabilize school funding in the 2007-09 biennium.

OEA's assessment of Oregon's economic future is that economic recovery will begin the summer of 2009, but growth will remain below potential through early 2010. Specifically, projections are:

- Housing market slide will continue through mid-2009.
- Tight credit markets will constrain spending by households, businesses and governments.
- Job losses will continue in 2009; growth is positive but very weak in 2010.

Forecast risks are concentrated on the downside. The forecast cites the nation's financial system and freezing up of credit markets as one of the main factors in determining the depth and length of the downturn. Other potential risks noted for Oregon include prolonged housing market instability, the effectiveness of the nearly-global government stimulus, the extent of the global downturn, appreciation of the U.S. dollar slowing exports, geopolitical disruptions, and ballot measures that have adverse economic impact.

Revenue from the State

Historically, the primary sources of state funding for K-12 schools have been the state general fund in combination with designated lottery proceeds. In this economic crisis, it is assumed that all available resources are being accessed to meet even the lowest funding levels being discussed by the state legislature right now. These include State Fiscal Stabilization Fund dollars distributed through ARRA as well as state reserves in the Education Stability Fund and Rainy Day Fund. Until the legislature adopts its 2009-11 biennial budget, however, the level of funding we can anticipate over the next two years remains uncertain.

The majority of funding provided by the state to the district is based on the district's average daily membership of students. The chart below shows the volatility of per pupil funding (including School Improvement Fund grant amounts) over the last several years. The 2009-10 amount is based on a state funding level of \$5.6 billion. Should the funding level drop to \$5.4 billion, per pupil funding is projected to be \$5,781, and at the \$5.9 billion level, \$6,136.

	Changes in State Per Pupil Funding						
02-03	03–04	04–05	05–06	06–07	07–08	08–09	09-10
\$4,702	\$5,296	\$5,006	\$5,437	\$5,788	\$6,340	\$6,278	\$5,923
(7.3%)	12.6%	(5.5%)	8.6%	6.5%	9.5%	(1.0%)	(5.7%)

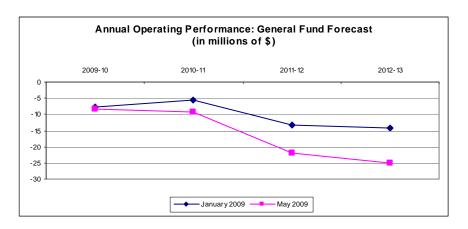

General Fund Financial Forecast

Each year the district analyzes its revenue and expenditures for the next several years and produces a financial forecast. This forecast, initially presented in December or January, is a planning tool that provides the basis for the upcoming year's budget as well as longer-term resource allocation strategies.

Since January we have updated our forecast and balanced the proposed 2009–10 budget to reflect changing conditions. The chart below compares the January and May 2009 projected annual operating performance,

before any use of reserves. Due to the deterioration of economic conditions during that time, the May deficits are higher than January.

The forecast projects annual operating deficits in all years which will require further service reductions.

Major changes in forecast assumptions between January and May are summarized below:

Resources

- Beginning working capital increased \$2.6 million in 2009-10 due to additional 2008-09 budget reduction strategies.
- Weighted average daily membership (ADMw) decreased by 49.
- Per pupil funding decreased to reflect the lower \$5.6 billion level of state funding:
 - o \$6,536 to \$5,923 in 2009-10
 - o \$6.804 to \$6.165 in 2010-11
 - o \$6,967 to \$6,301 in 2011-12
 - o \$7,141 to \$6,446 in 2012-13
- State high cost disability funds increased \$370,000, based on 2008-09 funding level.
- Lower property tax revenues of \$400,000 for the operating levy (included in the State School Fund formula) and \$350,000 local option levy due to the softening real estate market, reduced collection rate and increased compression losses.

• Other revenues such as interest earnings, tuition, fees and building rental income were down a combined \$900,000.

Requirements

- Salaries and related fixed and fringe costs down \$7.6 million as a result of revised employee compensation agreements and staffing reductions. (Staffing costs in the January Forecast included \$2 million in targeted funding, which is budgeted as purchase services.)
- District retirement benefits were reduced \$800,000 by using district retirement fund reserves to cover a portion of these expenditures.
- Non-compensation expenditures increased \$800,000 due to targeted funding provided to schools. A significant portion of this funding will be used for staffing.
- Transfers were reduced \$2.1 million with the elimination of capital and district-wide critical equipment and textbook transfers.

Contingencies and Unappropriated Ending Fund Balance (UEFB)

- General contingency decreased \$700,000 to 1.5%, and the \$500,000 Special Education contingency was eliminated as a budget reduction strategy.
- The projected ending fund balance (including projected underspending) for 2009–10 decreased from 5.0% to 4.1%, which is below the board policy of 5%.

SUMMARY OF PROPOSED BUDGET

Overall, the proposed budget totals \$290.4 million, a decrease of \$29.3 million or 9.2% from the 2008–09 adopted budget. This represents decreases in the general fund, fleet and equipment fund, capital projects fund and district retirement fund. Offsetting the decreases are the federal, state and local programs fund due to the federal ARRA funding and debt service and insurance reserve fund increases.

The general fund operating budget of \$143.8 million (excluding contingency and UEFB) has decreased by \$11.7 million—or by 7.6%. Budget reduction strategies included reducing central office and administration budgets by \$3.8 million, reducing transfers out by \$1.9

million, and revising compensation agreements and reducing staffing which lowered the budget by a combined \$6 million.

General fund revenues have decreased by 10.3%, to \$134.8 million. This \$15.5 million decrease from the 2008–09 budget reflects lower revenue in all categories except federal funds which increased due to the reinstatement of federal forest fees. The majority of the decrease is the reduction in state revenues, \$15.3 million.

General fund reserves including contingency funds have decreased \$8.3 million from last year's adopted budget as the district draws down reserves to fund services and plan for additional sustainable reductions.

General Fund Operating Budget—Key Assumptions

The key resources and requirements assumptions are presented below.

Beginning Working Capital

We believe that we will end 2008–09 with \$13.8 million in working capital—\$1.2 million above the 8.5% board target for the 2007–09 biennium. Working capital has been bolstered by 2008-09 budget reduction strategies in an effort to diminish 2009-10 cuts and allow for further planning to develop sustainable strategies.

Revenue

Per Pupil Funding: \$5,923 per ADMw, based on a \$5.6 billion K-12 state funding level. This includes federal funding under the American Recovery and Reinvestment Act (ARRA) as well as additional state funding from the Education Stability Fund and Rainy Day Fund.

Local Option Levy Revenue: \$13.2 million, reflecting a 3.0% increase in assessed value, a 10% decrease in real market value, and increasing compression losses as a result of the softening real estate market and deteriorating economy. Since the amount actually levied depends on the relationship between each property's assessed and real market values, it is difficult to predict the amount the district will receive from this source.

Local Property Tax Collection Rate: 93.0%, down from the 94.5% budgeted in 2008–09.

Interest Earnings: \$750,000, \$1.25 million below 2008-09, as projected average interest rates and reserve levels drop.

Expenditures

Wages and benefits: Contractual increases, including 3.25% cost of living adjustments for licensed staff offset by seven fewer work days (six planning/professional development days and one instructional day) and 3.0% for classified staff offset by three fewer work days for most unit members, and higher district contributions for health insurance. Composite PERS rate budgeted at 12.6%, down 3.7 percentage points from 2008-09.

Materials and Services: Assumes a 5% reduction for schools and \$1.4 million for departments, offset by an additional \$326,000 for increases in uncontrollable costs such as utility and technology maintenance costs.

Service Level Changes: Costs associated with reduced general fund services are detailed in Attachment B, page 17.

Transfers: \$499,576 to the fleet and equipment fund for school equipment needs; \$568,000 to the insurance reserve fund, with \$375,000 to support risk and benefits program management and \$193,000 to employee group reserves from projected social security savings related to the use of IRS Section 125 tax sheltered health and dependent care costs; \$250,000 to the nutrition services fund to support operations.

Contingency: \$2.1 million, at 1.5% of operating expenditures, not including transfers to other funds; below the board target of 2%.

Other Operating Funds

Other operating funds range from those that are quite stable to ones that rely on reserves to cover costs. Major operating funds are discussed below.

Federal, State and Local Programs Fund

This fund accounts for revenues and expenditures from federal, state, local and private grant programs. The largest grants budgeted for 2009–10 are discussed below.

Elementary and Secondary Education Act (Title I–V)

The district receives federal No Child Left Behind grant allocations to support education programs. For 2009-10 we are anticipating the base allocation will decrease. ARRA Title I-A funding will increase these grants to above 2008-09 levels.

Regional Programs for Students with Disabilities

Lane Education Service District contracts with District 4J to provide certain Lane regional special education services, such as services to students with severe orthopedic impairment; students with vision impairment; students with hearing impairment; and students who are deaf and blind. State and federal resources fund the contract. We have not received information about the funding level for 2009–10, but we are anticipating allocations will either remain flat or be reduced from the 2008-09 \$1.7 million allocation. Once we know the amount of the contract, we will adjust services accordingly.

Individuals with Disabilities Education Act (IDEA) Grant

The proposed base IDEA grant budget for special education assumes a 2009-10 budget of \$3.1 million, which is similar to the amount allocated in 2008-09. ARRA IDEA funding will provide an additional \$1.8 million. While the total of these grants is not sufficient to cover services currently supported by the grant, it brings us significantly closer to the 40% funding level that Congress recommended when the law was passed. I will discuss the issues related to special education later in this message

Eugene Education Fund

The district receives quarterly distributions from the Eugene Education Fund, a non-profit organization established in 1993 to support district schools and programs. For 2009–10, a budget of \$879,000 is proposed.

Twenty-first Century Community Learning Centers

This federally funded program's objective is to create community learning centers that complement regular academic programs and is intended to enrich academic opportunities for students which enable them to meet core academic standards. The program

operates in several of the district's higher need elementary and middle schools.

Fleet and Equipment Fund

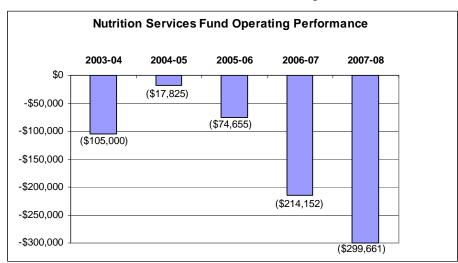

This fund accounts for expenditures for the district's fleet and for textbooks and equipment. The funding strategy is to:

- Set an annual budget target of \$2 million per year for equipment and textbooks.
- Budget a \$1.65 million general fund transfer to the equipment fund, with the intent of using "excess ending working capital" (actual vs. budgeted) to increase the transfer by up to \$350,000.

For 2009–10 a transfer of \$500,000 is proposed. The proposed budget for equipment, textbook and fleet expenditures is \$12.2 million which draws on reserves to fund most purchases.

Nutrition Services Fund

The Nutrition Services Fund accounts for the revenue and expenditures of the district's meal programs. Principal sources of revenue are sales of food and subsidies under the National School Lunch Act. It has been the district's goal that program revenues cover operating expenses. Since 2000–01, the fund has not been able to meet this goal.

The chart above shows the fund's operating performance for the last five years, not including any general fund transfers or funds from management companies. As the chart shows, the program made significant progress toward self-sufficiency in 2003–04 and 2004–05, however the deficit began rising in 2005–06, despite increased sales. A la carte revenue has dropped over \$400,000 in this same time period. For 2008-09, we are projecting a shortfall of approximately \$246,000. For 2009–10 a transfer of \$250,000 is proposed.

Nutrition Services management and staff are working hard to achieve the goal of a self-sustaining program. As a result of many program changes, participation is up significantly, particularly at the middle school level and even in the face of declining enrollment. However, factors outside the program's control make it more difficult to achieve a cost neutral program. These factors include federal reimbursement rate increases that do not match program cost increases, declining enrollment, small schools, and open campus at the high schools. In addition, the district's Wellness Policy and new state laws contain provisions that have resulted in reduced a la carte revenues and increased food costs. State legislation effective July 1, 2009 places further restrictions on serving sizes and calories. While these items improve the quality of what is served to students, program revenue and costs have been adversely affected.

Insurance Reserve Fund

The Insurance Reserve Fund accounts for the majority of the district's insurance functions, including employee benefit plans and property and liability insurance. It is segregated into five "subfunds": an insurance reserve fund for each employee association, a Wellness Clinic fund and a risk management fund which accounts for workers' compensation and unemployment payments and district administration. The licensed and classified employee reserve funds and the Wellness Clinic fund have been able to cover current expenses with current revenue and even increase reserves over the last several years.

The administrator insurance reserve fund and the risk management fund are not as stable; that is, revenues are not projected to cover expenses.

Page 10

Performance for 2004-05, 2005-06 and 2006-07 does not include revenue reductions of \$50,000, \$95,245 and \$77,665 respectively to address changes in accounting for inventory as recommended by the district's auditors.

The risk management fund is losing about \$500,000 per year; within a few years, reserves are projected to be depleted. Staff will analyze the fund and propose stabilization alternatives for the 2011-12 fiscal year.

District Retirement Fund

The District Retirement Fund accounts for supplemental retirement benefits for employees who retire before age 65 and for the PERS Reserve created in 2003–04.

The supplemental retirement benefit applies to administrators hired prior to 1996 and teachers hired prior to 1998. At the time the plan was discontinued, employees were given the option to convert to a plan that offered increased district-paid tax sheltered annuities. There are currently 399 active employees eligible for supplemental retirement benefits and 471 receiving benefits. In 2008-09 the district offered a one-time retirement incentive of \$10,000 to licensed staff. Twenty-seven employees accepted the offer which will reduce the number of employees affected by lay-offs in 2009-10. To cover the annual cost of retirement benefits, the district budgets a percent of salary costs. For 2009-10, we are budgeting 3.2% of salaries to help cover those costs and drawing down fund reserves.

The PERS Reserve was created in 2003–04 to hold savings from a rate reduction in the 2003–05 biennium. These savings were to be returned to the general fund to offset expected rate increases in the 2005–07 biennium. That rate increase did occur and transfers were made.

The original reserve was set up to cover a higher rate increase than occurred in the 2005–07 biennium, so there is a balance of \$2.5 million in the PERS Reserve. I had hoped to increase this reserve in 2009-10 to offset projected rate increases in 2011-13. At the \$5.6 billion state funding level we are unable to do that; however, I am recommending that this reserve be kept and if funding levels increase, to reinstate the transfer to the PERS reserve.

Impact of Operating Budget Changes on Programs and Services Direct Classroom Services

The proposed budget reflects an increased student to teacher ratio of 1.0 FTE which results in teacher reductions of 24.4 FTE. Reducing physical

education requirements for elementary and middle school students back to the 2007-08 level resulted in additional reductions of 4.4 FTE. Staffing specifically available to mitigate the effect of declining enrollment and assist schools with student intervention strategies was reduced from 13.6 to 9.6 FTE; however, approximately 23 FTE continue to be allocated for school-based student supports.

Central Department and Administration Budgets

The proposed budget results in \$3.8 million reduction to these services. Cuts to central departments and administration have been deep since the passage of Measure 5 in 1991. With the adoption of these reductions, central departments will have cut general fund staff by one-third since 1990-91. An additional reduction of this magnitude carries with it some risks in terms of meeting legal and student safety requirements, providing adequate support to schools, the board and our community and simply administering an organization of this size.

General fund reductions represent 16 FTE and \$1.9 million in services and supply budgets. Specific reductions are presented in Attachment B. In general, the work of the eliminated positions will be evaluated to determine what tasks can be dropped and what must be reallocated to other staff. Remaining staff positions will have to be analyzed to determine what services will no longer be provided.

Capital Budget

The proposed 2009–10 capital budget of \$17.2 million reflects the final year of the capital improvement program (CIP) approved by the voters in May 2002. This program continues to fund major repairs and the replacement of capital systems and security and safety improvements. Remaining projects focus on district-wide upgrades of building systems and infrastructure in the areas of highest need. Projects budgeted for 2009–10 include improving emergency egress and security site lighting; upgrades to electrical, fire alarm and heating and ventilation systems; and improvements to school entrances.

The budget also includes an allowance for building improvements that may be required as a result of enrollment shifts and/or the relocation of alternative schools.

The current CIP represents the first phase of a 24-year Long Range Facilities Plan that the Board adopted in February 2002. This plan called for the proactive disposition of surplus district property and four bond elections spaced approximately six years apart to address capital repair and replacement needs. After the success of the first bond election, the Board considered consultants' recommendations regarding the disposition of surplus property. To date, three residential lots and the Laurel Hill, Whiteaker, Westmoreland, Willakenzie and Santa Clara elementary school sites have been sold. By board policy, revenue from the sales of these properties has been "placed in a district capital improvement fund and used to acquire and develop land and/or upgrade and improve District facilities." I am proposing that \$500,000 of these funds be transferred to the general fund to support operations.

In addition to appropriations for bond projects, the proposed capital budget allocates funds for projects that cannot be bonded, and uses revenue from the sale of surplus property to fund the fifth year of a fiveyear preventive maintenance program.

The proposed sources and uses of capital funds are shown below:

2009-10 Proposed Capital Budget (in millions)				
Sources		Uses		
Interest Earnings	\$0.1	Bond Projects	\$6.3	
Other	0.2	Other Capital Projects	4.7	
Beginning Fund Balance	16.9	Prev. Maint./Interior Painting	0.4	
		Technology Upgrades	0.1	
		Transfer to General Fund	0.5	
		Ending Fund Balance	5.2	
TOTAL	\$17.2	TOTAL	\$17.2	

BUDGET AND ACCOUNTING CHANGES

This proposed budget reflects some differences from the adopted 2008-09 budget in how FTE are shown. Each year schools receive a staffing

allocation and a "discretionary budget" for materials and services. Part of that discretionary budget is a "targeted funding" allocation that schools can use for either staff or materials and services. Targeted funding totals \$2.6 million, much of which is used to fund teachers and instructional assistants. The 2008-09 adopted budget included 33.5 FTE for targeted funding, 10.9 FTE licensed staff and 22.6 FTE classified staff. Staff intends to reconcile staffing plans in time to identify FTE supported by the targeted funding prior to board adoption of the 2009-10 budget, thereby increasing FTE, but not appropriation amounts.

FUTURE BUDGET ISSUES

A number of issues may impact the budget in 2009–10 or in the next few years. Some of those issues are discussed below.

Employee Benefits Costs

PERS Rates

The future of PERS rates will depend mainly on the investment portfolio performance—of PERS as a whole and of the district's "lump sum" account with PERS (created when the district sold pension bonds). Currently PERS rates are set once every biennium based on actuarial projections and fund performance 18 months prior to the rate change effective date. For the 2009-11 biennium, rates were set based on a December 2007 valuation. At that time, investment earnings were strong and rates were lowered by approximately three percentage points. The benefit of the district's "lump sum" account increased to 5.49%.

Under that rate setting process, rates will be set for the 2011-13 based on a December 2009 valuation. When the 2009-11 rates were set, the PERS fund had a healthy 112% funded status. Funded status at the end of 2008 was estimated to be below 80%. Unless 2009 rates of return are sufficiently high to offset major losses in 2008, the increase in pool rates would be six percentage points. The value of the side account rate is likely to be reduced by at least half. A PERS rate increase of eight percentage points would result in increased expenditures of approximately \$6 million.

Health Insurance

Health insurance costs are continuing to rise nationwide at rates much greater than the rate of inflation. This trend is clearly not sustainable in the long-term. In the short-term, it is creating enormous pressure on the compensation system. Recent state legislation created a statewide health insurance pool for all school district employees which began operations for the 2008-09 school year. At this time, the pool's insurance packages and costs are not determined for 2009-10; however, the hope is that such a pool will temper the rate increases.

Local Option Levy Revenue

The district's current levy, which expires in June 2010, is projected to provide approximately 10% of the district's general fund revenues and is equivalent to about 150 classroom teachers. The levy was renewed in November 2008 securing this revenue source through 2014-15.

Local option revenue is dependent on real market value (RMV) in excess of assessed value (AV). When RMV increases at a greater rate than AV, revenue increases. When it decreases at a greater rate, revenue decreases. Given the downward trend in property values, local option levy proceeds are expected to decline. A longer, deeper slide in values will further erode this revenue base.

Federal Forest Fees

For a number of years, under the Secure Rural Schools and Community Self-Determination Act, the federal government made payments to counties hurt by cutbacks in federal logging. These "timber payments" provided \$60 million in revenue to the State School Fund and substantial support for county services throughout Oregon. The Act expired in 2006 and a one-year extension was approved for 2007-08. Included in the 2008 federal bail out was a provision to reinstate federal timber payments for four years, phasing out throughout the four years. While the temporary reinstatement helps cover budgets in the short term, replacing this dwindling revenue source will be necessary to avoid further loss of public services.

Federal No Child Left Behind Act

The federal No Child Left Behind Act requires that students achieve at certain levels in reading and math. By 2014 the law requires that all

students reach the "proficient" level of achievement. The district's last assessment data indicates that four middle schools and three high schools did not make "Adequate Yearly Progress." Students with disabilities and those qualifying for English Language Learner services fell behind their peers in these tests.

In order to meet the stringent requirements of the law, increased funding will be needed for staff training and for additional assistance to students who need more help. This budget includes some targeted funding in these areas, but more may be required over the next few years.

Special Education

At present, the State School Fund formula limits additional payments for students with special needs to 11% of the district population (ADMr). If a district's percentage exceeds 11%, some additional funding is available, but at a much lower rate per student. Our district's percentage is currently about 15% and includes an increasing number of high-cost students.

In a district with a declining population, the additional payment cap is lowered each year, even if the number of students on Individual Education Plans (IEP's) remains the same or is rising.

In addition, the number of students with intense needs has been increasing. The 2003–05 legislature recognized the issue of high-cost students and earmarked \$18 million annually for grants to districts to help offset per student costs which exceed \$25,000. The 2005–07 legislature raised the threshold to \$30,000.

The chart below shows the number of students in those categories since 2003–04. The marked increase in 2006-07 is the result of Lane Education Service District's Life Skills program costs exceeding \$30,000 for the first time.

	>\$25,000	>\$30,000
2003-04	109	49
2004-05	148	46
2005-06	148	66
2006-07	154	139
2007-08	171	160

The 2009-10 budget includes \$1.1 million in state revenue to partially reimburse the district for the cost of educating these students.

Federal funding for special education falls far short of covering 40% of costs as envisioned when the national special education law was passed in 1975. This commitment was based on the acknowledgement that federal special education mandates have increased state and local costs. If 40% of the district's special education costs were funded by the federal government, we would receive about \$5.1 million more in 2008-09.

In the meantime, federal mandates related to the provision of special education require the district to expand services and provide maximum access to the general education curriculum for all students. These mandates have not been fully funded.

American Recovery and Reinvestment Act (ARRA) Funds

In an effort to slow the economic free fall, congress passed the ARRA which provided total appropriations of \$288 billion and an historic \$100 billion education investment. Four principles guide the distribution and use of the funds: 1) Spend funds quickly to save and create jobs, 2) Ensure transparency, reporting and accountability, 3) Invest these one-time funds thoughtfully to minimize the "funding cliff," and 4) Improve student achievement through school improvement and reform.

Oregon's share of the total appropriations is \$2.6 billion with additional funding available via competitive grants. Funding specifically for education amounts to \$739 million. These funds must be obligated by September 30, 2011. Even using the funds for one-time investments will require that staffing be a large part of the investment given the labor intensive nature of the district's services. If the economy does not adequately recover to restore lost state revenues by the time ARRA funding is exhausted, layoffs will certainly occur

Declining Enrollment and Changing Student Needs

Based on December 2008 enrollment projections, the district has lost over 900 students (ADMr¹) in its regular district programs (excluding alternative

¹ ADMr stands for Average Daily Membership (resident) which represents the annual average of daily student enrollment. ADMr is slightly less than the enrollment figure used for projections, which represents enrollment as of a certain date.

education placements and charter schools) since 2001–02 and is projected to lose an additional 463 students (ADMr) between 2008–09 and 2013–14. The decline is expected to be particularly steep at the high school level.

A decline in enrollment reduces the district's funding from the State School Fund since it is allocated on a per pupil basis. Even with teacher reductions to track enrollment decline, the district will lose more funds than it can cut and maintain a stable student/teacher ratio. For example, if the district loses 100 ADMw, it will receive \$610,600 less from the State School Fund, based on the current 2008–09 per pupil estimate of \$6,106.² If that 100 ADMw translates into 85 students and the student/teacher ratio is 25:1, the district would cut 3.4 FTE teachers in order to keep the student/teacher ratio constant. The savings would be approximately \$300,000. Additional reductions of \$310,600 in services to students would be needed in order to make up the loss of state revenue.³

CONCLUSION

What a difference a few months make. A year ago, I was cautiously optimistic that Oregon would not fare as poorly as the rest of the nation or as in the prior recession. Now Oregon is poised to be one of the hardest hit states in a recession that is expected to last far longer and go much deeper than anyone could have imagined last year.

Prudent and timely financial planning, reserves above board target, and collaboration with our employee groups have placed our district in a far better position to weather this storm than many districts in Oregon. Our foresight to begin planning for a further economic downturn provided more time to process our options. We have, however, used several short-term strategies to balance the 2009-10 budget which result in a significant projected deficit in 2010-11. Difficult discussions about further program cuts and school consolidations will need to begin shortly to develop sustainable cuts that bring our service level in line with our revenue stream. I am confident that we will continue to be one of the strongest

² State per pupil funding is distributed based on ADMw—Average Daily Membership, weighted. Weighting is based on enrollment in special education, English language learner, and other programs.

³ These include classroom support, building support and central support services.

districts in Oregon and will come through this adversity stronger and more focused on our goal – increased achievement for all students.

I want to thank district staff, students, parents, the Budget Committee, Board and the community for sharing their time, energy and insightful comments throughout this difficult budget process. I also want to express my appreciation to all the staff involved in the preparation of this budget, with special thanks to the Financial Services staff who have persevered beyond the call of duty.

Sincerely,

George Russell Superintendent

SUPERINTENDENT'S BUDGET MESSAGE

ATTACHMENT A: PRIORITIZED LIST OF ADDITIONAL BUDGET CHANGES

Should state funding change from the \$5.6 billion level assumed in the proposed budget, the following strategies will be employed. A \$5.9 billion funding level is projected to provide additional revenues of \$4.2 million. Due to continuing, significant deficits over the forecast period, I am recommending that our priorities be to restore reserves in an effort to reduce future cuts. A \$5.4 billion funding level would reduce revenues by \$2.8 million.

Increased Funding Priorities

<u>Priority</u>	<u>Amount</u>	Cumulative Total
Restore ending fund balance to Board Policy of 5% revenue Restore transfer to PERS reserve	\$1,400,000 1,000,000	\$1,400,000 2,400,000
Restore contingency to Board Policy of 2%	700,000	3,100,000
Increase ending fund balance to 5.8%	1,100,000	4,200,000

Reduced Funding Strategies

Strategy

Additional employee compensation strategies, program or service reductions.

Amount

\$2,800,000

ATTACHMENT C: DISTRICT MISSION AND BOARD GOALS

District Mission

Do what's best for all 4J students.

Continue to learn and grow.

Respect and care about each other.

Board of Directors Guiding Beliefs and Values

In order to meet the district's mission statement above, the board has adopted the following guiding beliefs and values:

Children

- We believe that all children can learn.
- We believe that our students' education and welfare are our most important commitments.
- We believe that a student's success in school should be independent of factors such as race, ethnicity, gender, socio-economic status, disability, native language, religion, and sexual orientation.
- We believe that public schools should foster development beyond academics such as character, creativity, resourcefulness, citizenship, an understanding of workplace expectations, respect for diverse cultures, and a lifelong love of learning.

Staff

- We value highly qualified and caring staff and believe they are the key to meeting our goals for students.
- We believe collaborating with staff in deciding what is best for our schools and our students, recognizing that not everyone may agree.
- We believe that it is essential for staff and Board members to hold high expectations of all students and that these expectations are critical to student success.
- We believe that high quality instruction is integral to student success and best achieved by providing professional development that includes staff teams working together to improve instruction.

Community

- We believe that the Board and staff make a difference in learning for our children by developing relationships and effectively engaging our families, community and local, state and federal governments on social, political and economic challenges and inequities.
- We value public support for our schools and believe that the Board plays a critical role in generating and sustaining our community's ongoing financial and other support.

Leadership

- We believe it is critical for the Board and staff to plan and direct resources consistent with our beliefs and values.
- We value continual learning for all—Board, staff and students—and believe that it is essential to student success in school.

BOARD OF DIRECTORS Eugene School District 4J

- Do what's best for all 4J students
- Continue to learn and grow
- Respect and care about each other

2008-09 BOARD GOALS & ANNUAL AGENDA

Excellence, equity and choice are the core values that have shaped the board's direction and actions over the last ten years. These core values, described in more detail during the Shaping 4J's Future process of 2006-08, drive board goals and the outcomes that the district strives to attain.

In School District 4J, we believe that every student in every school can excel and that it is our responsibility as a board to ensure that all students have that opportunity. While our district has many strengths and successes to build on, we also must improve in a number of areas to make this vision a reality. In our current system inequalities exist among schools in terms of their ability to address students' educational needs. These inequalities affect student performance and contribute to an achievement gap.

The agenda for the Eugene School District 4J Board of Directors is established in accordance with district policy as a statement of those issues that the board believes are the highest priority for action in the coming year and beyond. It is also a statement of the outcomes and results against which the board will evaluate the district's and the board's success, and reflects the expectations consistent with state and federal requirements. The agenda will be reviewed, and as appropriate, modified at the beginning of each school year. We recognize that implementing the agenda and achieving the board goals will be affected by the availability of district financial and staff resources.

KEY RESULTS are the specific changes in behavior, knowledge, skills, status and level of functioning that will be observable and measurable and should allow us to answer the question: "How will we know we were successful?" Our outcome goals should be attainable within 1 to 4 years, while longer-term goals should be achievable within a 4 to 7 year timeframe.

These outcome goals and key results are about helping us focus our efforts where improvement is most needed. It does not describe everything we are dedicated to doing. Though not all programs and services are specifically addressed in these goals and key results, we are committed to providing a comprehensive education that meets the needs of each student. In order to reach this ultimate goal, we need to set incremental key results and hold ourselves accountable for achieving them.

These Board Goals and Key Results and the subsequent superintendent's outcome goals will allow us to focus our attention on a few key priorities to ensure that we can succeed; that we continue to work within our means; and that we can measure our progress along the way. Upon the board's adoption of these goals and key results, the superintendent will develop district, department, and school-level outcome goals that will help achieve the key results.

I. STUDENT ACHIEVEMENT

Goal: Increase achievement for all students and close the achievement gap.

The board is committed to providing equal opportunities for all students to succeed. Every school must focus on improving teaching and learning to increase achievement for all students. All students should have the support needed to reach their full potential. And, all students should graduate from high school prepared to succeed in postsecondary education and chosen careers, and to participate actively as citizens in a democratic society. Some schools, may require additional resources to achieve district and state academic goals and close the achievement gap.

Key Results

- 1. By 2011-12, the district will implement state-adopted content and performance standards, and outline the knowledge and essential skills that students will demonstrate at the critical transition stages of elementary and middle school, in order to achieve the Oregon diploma.
- 2. By 2012-13, the district will provide targeted resources for elementary and middle school students who are not on track to demonstrate the knowledge and essential skills needed upon entry to high school, and for high school students needing additional support to meet the new graduation requirements.
- 3. By 2012-13, the district's overall percentage of 4J students who meet the Oregon Assessment of Knowledge and Skills (OAKS) benchmarks in reading and math will increase to 90% and 85% (currently 80% and 76% respectively), and the gaps for racial/ethnic subgroups African American, Hispanic, and Native American will be cut in half (currently 10-20%).
- 4. By 2013-14, the overall graduation rate for 4J students will improve by 50%, based on the formula used for calculating high school graduation rate for the 2008-09 school year, with

the rates for African American, Hispanic, and Native Americans increasing at an accelerated rate to narrow the gaps for racial/ethnic subgroups.

II. STEWARDSHIP OF DISTRICT RESOURCES

Goal: Provide prudent stewardship of district resources to best support student success, educational equity and choice.

The board will direct district resources to support the instructional core and to provide educational equity and choice while maximizing administrative and operational efficiency. The district must also respond to declining enrollment, regional enrollment patterns, and a student population with more diverse needs.

Key Results

- By 2009-10, the district will develop updated technology, facilities, and other plans to improve central services support to schools and the instructional core, and will implement the accepted recommendations of the OSBA/Chalkboard business audit to improve administrative, financial and operational efficiencies.
- 2. By 2009-10, the district will complete the district's workforce diversity plan and by 2012-13, will increase the representation of minority teachers to 10% of licensed staff (currently about 6%), to make progress toward meeting the goals of the Oregon Minority Teacher Act.
- By 2010-2011, the district will fully implement the adopted recommendations and board direction from Shaping 4J's Future, including the recommendations related to differentiated staffing and limiting transfers for middle and high schools by 2009-10.

III. STAKEHOLDER ENGAGEMENT

Goal: Engage the community, staff, families, students, elected officials and other stakeholders in supporting our schools and improving educational outcomes for all 4J students.

In order for the board to provide effective leadership, it must communicate with and establish working relationships with the community, other governmental agencies, staff, families, and students, and engage these stakeholders in supporting our students and schools.

Key Results

- 1. The district will renew the local option levy to maintain local support of district programs and services through 2014-15, with at least a 65% YES vote in the November 2008 election.
- 2. In the 2009-11 biennium, the board will work with other local school districts, the Lane County legislative delegation, the Superintendent of Public Instruction, other elected officials, OSBA and other groups to secure adequate and stable state school funding for the 2009-11 biennium and to advocate for legislation in support of increased student achievement and the local control of schools.
- The board and staff will work with community stakeholders and organizations to increase the opportunities for all 4J students to receive the public education and related services that they need to succeed in school.

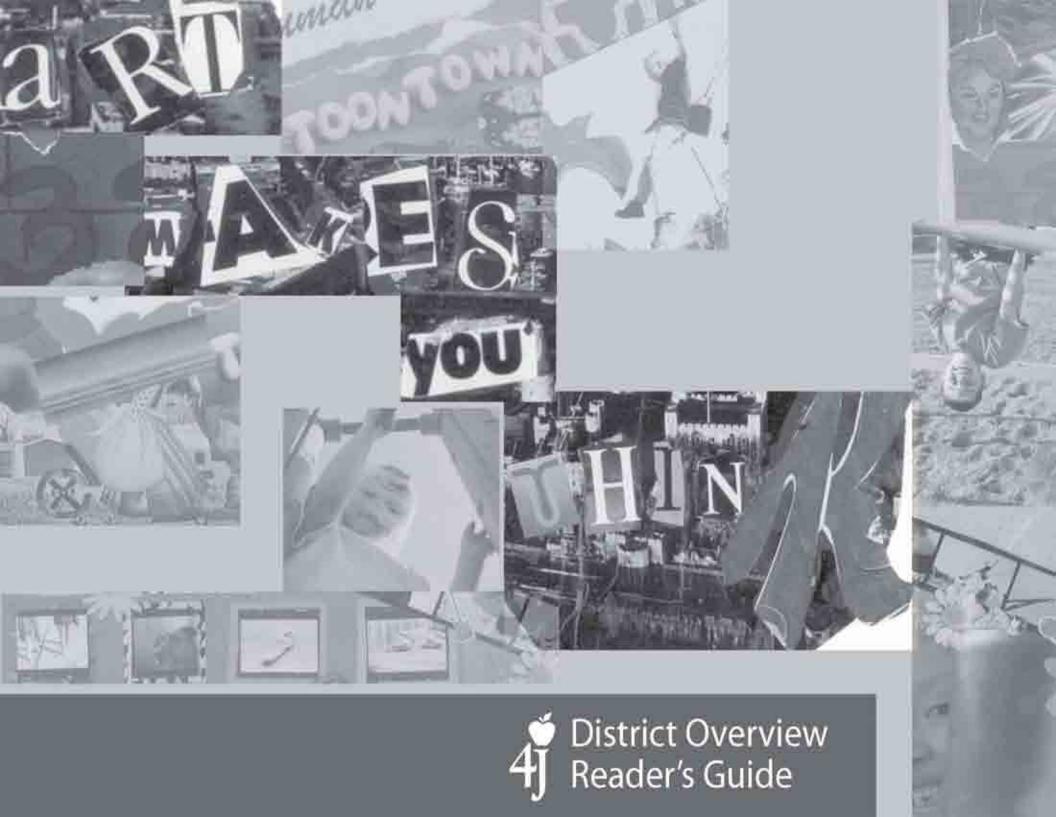

ATTACHMENT D: 2009-10 BUDGET REDUCTION STRATEGIES SURVEY SUMMARY

In January 2009, over 2,500 staff, parents and community members responded to a budget survey designed to get input on 2009-10 budget reduction strategies. The following information provides a summary of the responses.

Ranking based on first or second priority

	Budget Committee	Staff	Parents and Community	Ranking Average
Reduction Strategy	<u></u>	<u> </u>	<u> </u>	<u> </u>
<u>\$100,000 or less</u>				
Athletics/Extracurricular	1	1	1	1.00

BUDGET FORMAT AND PROCESS

Welcome!

Bienvenidos! Para asistencia en español por favor llame al número (541) 687-3123.

This section explains how the district's budget is organized and developed. The goal of the budget is to present a meaningful financial plan that can be readily understood by all members of our community and create a sound basis for decision-making.

All Budget Committee meetings are open to the public. Community members are invited to speak in favor of or opposition to the budget or requested revisions. The budget process and calendar are described below.

BUDGET FORMAT

The budget document is organized into eight major sections:

- Superintendent's Budget Message
- District Overview/Reader's Guide
- Financial Summaries and Performance Indicators
- General Fund
- Other Funds
- Capital Improvement Program
- Program Budget Detail All Funds
- Appendices

For quick and easy reference, summary information is provided on the first few pages of the budget document. Inside the front cover is a list of **Budget Committee** members. This page includes the names and terms of the seven

elected School Board members and seven appointed Budget Committee members. They are jointly responsible for overseeing the development and approval of the district's budget.

The Budget at a Glance describes the highlights of this year's budget and major changes from the previous year. It focuses on the general fund operating budget and the capital budget, where the greatest portions of the district's resources and requirements are budgeted.

The **Staffing History** summarizes FTE supporting district operations over a four-year period.

A **Table of Contents** for the entire budget document follows. Individual tables of contents are included on the back of each divider page.

The **Superintendent's Budget Message** presents a comprehensive, narrative overview of the budget and explains the major influences affecting the school district's financial condition. It presents the budget in the context of the district's financial forecast. It also identifies changes in the budget for each fund.

The **District Overview/Reader's Guide** includes a description of the district and its programs, a district-wide organizational chart, enrollment history and projections, staffing history, explanation of the impacts of significant state and local measures and levies and the district's guiding financial management goals and policies.

Financial Summaries & Performance Indicators contains summaries for all funds, tax levy computations and key performance indicators, organized by program area.

The General Fund, Other Funds and Capital Improvement Program sections contain resource and requirement information for each of the district's nine funds:

General Fund. The general fund is the district's major operating fund and accounts for most of the district's financial resources. Revenues come from two main sources, state funding and local property taxes. All of the state revenue and most of the local property taxes are included in the State School Fund formula, which determines 87% of general fund operating revenue. Additional income, outside the funding formula, includes a voter-approved local option tax levy, interest earnings, and income from tuition and fees. Resources also include transfers of reserves from other funds.

General fund expenditures represent costs incurred to operate the school system: salary and benefits costs for teachers, administration and support staff; textbooks and supplies; building maintenance and utilities; and other expenses. Expenditures are presented in five major program areas: Direct Classroom Services, Classroom Support Services, Building Support Services, Central Support Services, and Other Accounts. Each area is divided into

Page 27

¹ In 2009-10, State School Fund formula revenue includes Federal State Fiscal Stabilization Fund dollars.

functional categories which contain purpose statements, budget goals, financial highlights and changes, organizational charts and expenditure summaries.

Other Funds include the following:

- **Fleet and Equipment** This fund was established in 1990 to support the replacement of school buses, vehicles, equipment, and other long-lived assets. Primary sources of funding include transfers from the general fund and state reimbursement of certain qualifying transportation costs.
- Federal, State and Local Programs This fund accounts for money received from federal, state, local, and private grants. Services funded with targeted American Recovery and Reinvestment Act funds are accounted for in this fund. It also includes donations from the Eugene Education fund, a local, non-profit foundation established to support instruction programs. Educational programs benefit from funding received for disadvantaged and disabled students, drug and alcohol prevention, professional development of school staff members, and special projects.
- Student Body This fund accounts for the money schools receive from students and parent groups for purposes such as special school projects, field trips, and various student activities.
- Debt Service This fund accounts for the district's repayment of general obligation bonds and pension obligation bonds. The fund also accounts for the refinancing of outstanding bonded debt. Issuance of construction bonds is accounted for in the capital projects fund,

although the repayment of those general obligation bonds occurs through this fund. Voter approval of general obligation bonds allows the district to finance new capital projects, such as the construction or remodel of schools and facilities.

- Nutrition Services This fund accounts for the activities of the district's nutrition services program. Services include lunch programs in all schools, breakfast and snack programs in many schools, and catering services provided upon request. Resources reflect federal subsidies from the U.S. Department of Agriculture, which provides partial reimbursement to the district for each meal served; student sales; the value of federal commodities; and a matching grant from the state.
- Insurance Reserve This fund accounts for the risk management activities and employee benefits programs provided by the district. It covers insurance premium payments, insurance reserves and efforts to manage the district's exposure to potential loss.
- District Retirement This fund accounts for the district's obligations to provide supplemental retirement benefits.

Capital Improvement Program – The Capital Projects Fund accounts for revenue and expenditures for capital improvements. Primary resources include general obligation bonds, transfers from the general fund and the sale of surplus property.

The **Program Budget Detail–All Funds** contains line item information on revenues and expenditures for each fund, presented in the

state accounting format. Information is presented by fund, function (type of activity), and object (service or commodity obtained as a result of the expenditure).

The final section, **Appendices**, provides information on full-time equivalent positions and salary schedules by employee group. It also contains a glossary of terminology used throughout the budget document.

BUDGETING AND ACCOUNTING

The budget was developed to reflect Generally Accepted Accounting Principles (GAAP), a uniform minimum standard for financial accounting and reporting. As governmental funds, revenues and expenditures are budgeted and accounted for using the modified accrual basis of accounting. Under this basis, revenues are recognized when they become both measurable and available. "Available" is defined as collectible within the current period or soon enough thereafter to pay liabilities of the current period. Revenues subject to accrual include property taxes, interest revenue and charges for services. Property taxes are considered to be available if they are collected within 60 days after year-end.

Expenditures are recorded when the related fund liability is incurred. Principal and interest on long-term debt are recorded as fund liabilities when due.

The accrual basis of accounting is used by proprietary fund types; the district uses one such fund—the insurance reserve fund. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred.

THE BUDGET PROCESS

The budget is a financial plan that estimates the cost to operate district schools and programs for the next fiscal year. The district prepares its annual budget in accordance with provisions of Oregon Local Budget Law (ORS 294), which provides standard procedures for the preparation, presentation, administration and appraisal of budgets. The law mandates public involvement in budget preparation and public exposure of proposed programs. The law also requires that the budget be balanced, that is, projected resources must equal projected requirements in each fund.

Budget preparation takes several months and involves both building-based and central staff. A flowchart identifying the steps involved in the budget process is provided on the following page. Once a proposed budget is developed, the superintendent presents it and the budget message to the Budget Committee, which then reviews the proposed budget and receives public comment. The Budget Committee recommends revisions to the budget if needed and approves a budget for School Board adoption.

The Budget Committee meets in early December or January to receive enrollment and financial projections and to give direction to staff on the development of the proposed budget. The first Budget Committee meeting to review the proposed budget is generally held in late April or May, unless earlier work session are required to address special circumstances. Notice of a meeting is published twice in the local newspaper, five to 30 days before each meeting date, with notices separated by at least five days.

Once a document is given to the Budget Committee, citizens may access the information on the district's webpage at www.4J.lane.edu.

HOW THE BUDGET IS ADOPTED

At the Budget Committee meeting in May, the superintendent presents the budget message, which explains the proposed budget and identifies significant changes in district programs or financial condition. At this meeting or a subsequent meeting, the Budget Committee receives public comment, makes revisions, and approves the budget. The Budget Committee can meet as many times as needed to revise and complete the budget.

After the Budget Committee approves a budget, the budget is forwarded to the School Board for further public testimony and review. A summary of the approved budget and notice of budget hearing is published once in the local newspaper, five to 30 days in advance of the hearing. The notice indicates where the complete budget document is available for inspection.

The School Board may make changes in the approved budget before or after it is adopted, but no later than June 30, the last day of the old fiscal year. There are two limitations which cannot be exceeded without publishing a revised summary of the budget and holding another budget hearing on the revisions: First, taxes needed to balance the budget may not be increased beyond the level approved by the Budget Committee. Also, expenditures in any one fund may not be increased by more than ten percent. After the budget hearing and consideration of public testimony, the Board adopts the budget in the latter part of June.

SUPPLEMENTAL BUDGETS

If the school district receives unanticipated revenues or a change in financial planning is required, a supplemental budget may be adopted to authorize a change in the budget within a fiscal year. A supplemental budget cannot be used to authorize a tax levy.

The School Board may adopt a supplemental budget at a regular public meeting if expenditures in the supplemental budget are less than 10 percent of the annual budget of the fund being adjusted. If the expenditures exceed this level, the school board must first publish the supplemental budget and hold a special hearing.

THE DISTRICT

"Investing in Students, Creating the Future"

District Profile – Eugene School District 4J is committed to helping each student succeed. The district's board of directors and staff strive to ensure that students acquire the knowledge and skills necessary to meet the challenges of life, work and citizenship in the 21st century. The district is governed by these core values:

- Do what's best for students.
- Continue to learn and grow.
- Respect and care about each other.

Students consistently surpass state averages and district schools receive positive ratings based on Oregon's state education standards. Students score well above the national and state averages on the SAT test. The high school dropout rate continues to be lower than the state average. The success of the district's educational program reflects the cooperation and involvement of parents, students, district staff and the community.

The largest school district in Lane County and the fifth largest district in the state, Eugene School District provides diverse educational experiences for over 16,800 students from kindergarten through grade 12. The district operates over 50 different schools and programs. Although students are guaranteed a place in their neighborhood school, an open enrollment policy presently allows any student to attend any school in the district as long as space is available. Site councils made up of parents, teachers, support staff, administrators

and students collaborate to chart each school's direction.

Eighteen neighborhood schools, a K-8 school, five alternative programs and two district-sponsored charter schools comprise the district's elementary program. Each school reflects the uniqueness of its students, staff, and community. The alternative programs, K-8 school and charter schools reflect particular visions and educational philosophies and have such emphases as language and culture immersion, arts and technology.

The secondary program (grades 6–12) consists of seven neighborhood middle schools, a middle school alternative program, and three language immersion programs. In addition, there are four regional high schools, three alternative high schools, an international high school program that offers classes on three high school campuses and is accredited by the International Baccalaureate program, and an environmental science program. One regional high school houses three small schools with distinctive academic offerings.

One elementary alternative program is expanding into the middle level beginning with the 6th grade in 2009-10. The K-8 school and two charter schools that serve elementary students also provide middle school education. A third charter school serves grades 7–12.

School and business partnerships exchange school facilities and services for career training or other educational benefits and support.

The district is governed by a seven-member, elected board of directors that is responsible for setting policy, approving expenditures and contracts, appointing the superintendent, and hiring, terminating and approving resignations of all certified and administrative staff. The board and seven appointed citizen members make up the Budget Committee.

Formed in 1854, the district covers about 155 square miles in western Oregon at the southern end of the Willamette Valley. It lies within the Eugene-Springfield metropolitan area and includes the town of Coburg. The district is primarily located in Lane County, with a small portion extending north into Linn County. Most of the assessed value of the City of Eugene lies within district boundaries. The district's official name, Lane County School District No. 4J, indicates that it was the fourth district to form in Lane County; the "J" stands for "joint" district because its area extends across two counties.

Community – With a population of over 149,000, Eugene is the second largest city in Oregon and the seat of Lane County government. The City of Eugene together with the City of Springfield form a metropolitan area that serves as the regional center for industry, service and trade, as well as for cultural, academic and recreational activities.

DISTRCT OVERVIEW/READER'S GUIDE

Eugene is the home of the University of Oregon, the state's liberal arts institution, Lane Community College and Northwest Christian College.

In the past ten years, the district's and City of Eugene's populations have grown 11.1% and 11.5%, respectively. Despite this trend, the district's enrollment in regular programs is expected to continue a slow decline over the next several years, mainly due to demographic changes in the community.

Economy – Over the past few decades, the economy of the Eugene-Springfield metropolitan area has shifted from an earlier reliance on the wood products industry to non-lumber manufacturing and non-manufacturing industries such as retail trade, services and government. Eighty-one percent of total employment in the metropolitan area is based in three major sectors: services (44.6%), government (19.4%) and wholesale and retail trade (16.6%). Government employment is the largest single sector.

As of March 2009, the seasonally adjusted unemployment rate for Lane County reached

13.1 percent, exceeding unemployment levels for both the State of Oregon at 12.1 percent and the nation at 8.5 percent. The unemployment rate was 1.9 percent higher than reported in February 2009 and 7.7 percentage points higher than the 5.4 percent recorded in March 2008. The unadjusted rate of 14.1 percent is the highest rate since February 1983 when it reached 14.3 percent. Lane County's March 2009 unemployment rate was the forth highest year-over-year increase in the country. The lowest point the unemployment rate has reached was 4.5 percent in December 1999.

Local Support – As is evidenced by local election results reported in the Performance Indicators, the district has received strong support from its local community. Since 1992, district voters have approved four general obligation bond levy and three local option levy elections with substantial margins.

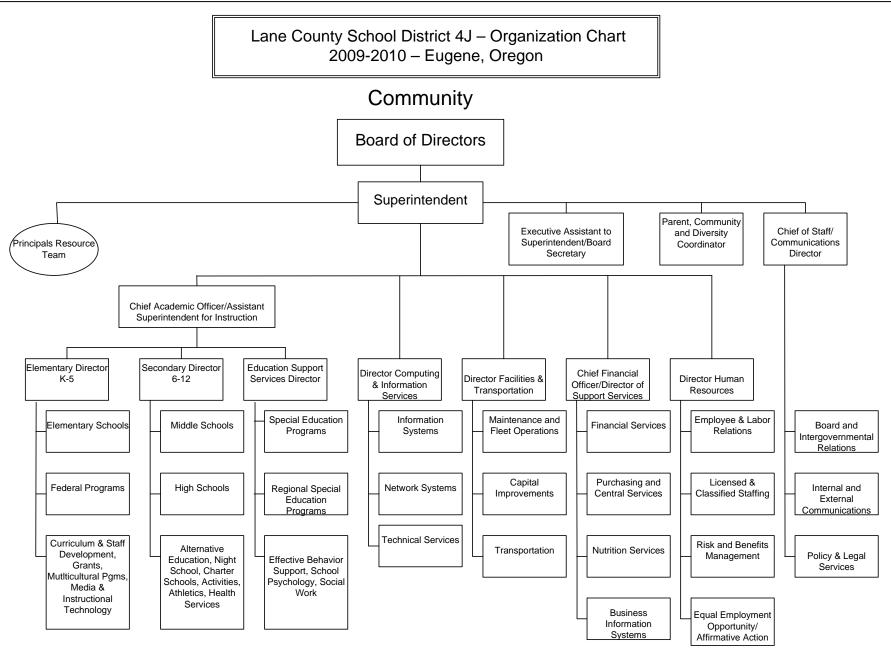

In May 2000, with a 63.7% "yes" vote, voters approved a five-year local option levy to support operations. The levy was renewed for an additional five years in November 2004, passing with an overwhelming 72% "yes" vote. In November 2008, the five-year levy was renewed

once again with 63.7% approval. The renewal levy will be imposed beginning in 2010-11 and extending through 2014-15.

In May 2002, voters approved a \$116 million general obligation bond with a 67.4% "yes" vote. In addition to funding a broad range of capital improvements, bond proceeds were used to build two new elementary and two new middle schools. Four elementary schools were consolidated into the two new elementary schools. New middle schools replaced older buildings on the same sites. This bond measure enabled the district to fully address capital requirements for 30% of its facilities.

In addition, in November 2002, City of Eugene voters passed a local option levy to support school-based youth services for four years. The district received approximately \$6 million per year for elementary music and physical education; counseling, media specialists and nurses at all levels; and secondary activities and athletics. This levy expired in 2006-07.

DISTRICT ORGANIZATION

STUDENT ENROLLMENT

ENROLLMENT (ADMr) HISTORY & PROJECTIONS 2004-05 TO 2009-10

FISCAL YEAR ^{1,2}	2004–05	2005–06	2006–07	2007–08	2008–09	2009-10

MEASURES AND LEVIES

MEASURE 5

In November 1990, Oregon voters approved Measure 5, a citizen's initiative limiting total taxes on each property in the state to 1.5 percent of the property's real market value and shifting responsibility for funding public education to the state from the local level.

Measure 5, a constitutional amendment, phased in the tax limit for schools over a five-year period, beginning with a limit of \$15 per \$1,000 of property value in 1991–92 and decreasing to a permanent limit of \$5 per \$1,000 of value in the 1995–96 fiscal year. Tax limitations do not apply to bonded debt for capital construction.

In response to the requirement that the state replace school tax revenue lost under Measure 5, the legislature created the State School Fund (SSF) and established an equalization formula to allocate revenue to schools on a weighted per-student basis.

MEASURE 50

In 1997, Oregon voters approved Measure 50, an initiative referred by the legislature to implement the provisions of Measure 47. The purpose of Measure 50 was to clarify legal ambiguities in the original measure and change the property tax system from a tax base system (where a dollar amount is levied) to a tax rate system (where a permanent rate is levied). As a result, in 1997–98 assessed values were rolled back to 1995–96 values minus 10% and future assessed value increases were capped at 3% per year plus exceptions such as the value of new construction. The district's permanent rate was set at \$4.75 per \$1,000 of assessed value.

Other provisions of the measure limited the use of bonded debt and required a 50% voter turnout for property tax elections except at general elections (November of even-numbered years). This limitation was reversed by voter approval of Measure 56 in the November 2008 general election.

MEASURE 56

In November 2008, voters amended the Oregon constitution to require that all local property tax measures on May and November elections be decided by majority vote. This effectively overturned the "double majority" requirement of Measure 50, passed in 1997.

LOCAL OPTION LEVY

Since 1999, school districts have been allowed to request voter approval for local property tax levies to support operations and/or capital needs. This represents the only opportunity for district voters to increase revenue for district operations since Measure 5 passed in 1990. Local option capacity represents the "tax gap" between the Measure 5 tax rate limit based on real market value and the Measure 50 tax rate based on assessed value.

As revised by the 2007 Legislature, the amount a district can receive under a local option levy is restricted to the least of:

- Measure 5 limit: revenue received by the district from local option taxes imposed; or
- Dollars per student: \$1,000 per average daily membership, weighted (ADMw),

growing by 3% per year beginning 2008-09; or

 Percent of state resources: 20% of the combined total of the state general purpose grant, transportation grant, facility grant and high cost disability grant.

Operating levies cannot exceed five years. Capital levies cannot exceed the lesser of ten years or the expected useful life of the capital project(s).

Local option levies for more than a year may be filed as either a fixed dollar amount per year or a tax rate. Revenue raised through local option levies is excluded from the state funding formula.

GENERAL OBLIGATION BONDS

Districts may levy taxes for the repayment of bonded debt upon voter approval. Tax levies for bonded debt fall outside the limits of Measure 5.

Measure 50 limits the use of bonded debt to funding capital construction and improvements and prohibits using bonds to finance the purchase of equipment or maintenance and routine repairs. Additional detail on the district's bonded debt can be found beginning on page 140.

FINANCIAL MANAGEMENT GOALS AND POLICIES

SCHOOL BOARD POLICY, SECTION D: FISCAL MANAGEMENT

DA. FINANCIAL MANAGEMENT GOALS AND POLICIES

School District 4J's Financial Management Goals and Policies provide the framework for financial planning and decision making by the School Board, Budget Committee, and district staff. They are designed to help ensure the financial integrity of the district which, along with prudent management of its financial resources, is necessary if the district is to provide the educational services, support services and facilities that address the needs and desires of our students, their parents, and the community.

The following goals and policies for the school district are intended to guide the district in its financial matters. The goals are broad statements of board philosophy for financial management of the district. The policies provide more specific direction for consistent financial management decisions.

Financial Management Goals

- 1. The district will establish a financial base sufficient to support high quality and innovative educational programs which meet community needs.
- **2.** The district will follow prudent and professional financial management practices in order to achieve and maintain long-term financial stability.

- **3.** The district will demonstrate to the taxpayers of the district and the financial community that its schools are well managed.
- **4.** The district will provide cost effective services to citizens by cooperating with other educational, government, and non-profit agencies.
- **5.** The district will have an adequate capital improvement program that maintains existing district assets, provides for student and employee safety, maintains a quality instructional environment, and allows for enhancements that are necessary to meet changes in enrollment.
- **6.** The district will continually review and improve its formal budget document and other financial information so that it clearly and openly communicates its resources, expenditures, and financial position.
- **7.** The district will communicate, as permitted by law, with its employees and the community so that they understand the district's program requirements and financial status.

DI. FINANCIAL MANAGEMENT POLICIES

Resource Planning and Allocation Policies

1. The district estimates revenues, operating and capital expenditures, and debt service each year for the following five years. Annually, the superintendent will propose a financial forecast that is reviewed and potentially modified by the budget committee

or board. This forecast serves as the basis for budget instructions to the superintendent for the following year and for other financial planning activities.

- 2. The superintendent's proposed annual budget will reflect the official five-year forecast approved by the board, incorporate operating and capital budgets, and respond to current district goals and policies and other longrange plans and needs of the district.
- **3.** The operating and capital budgets will be proposed by the superintendent and approved by the budget committee consistent with the following criteria:
 - a) The physical safety of students and employees:
 - **b)** Instructional services that meet the needs of all students:
 - c) Support services to efficiently manage the human, financial, capital, facility and information resources of the district;
 - d) Development of new capital assets to meet enrollment changes or otherwise improve the safety, efficiency or quality of district instructional services.

It is the responsibility of the superintendent, budget committee and board to balance these criteria during the development, review, and adoption of the annual budget.

- **4.** The district's education program must be responsive to the changing needs of the community and its students. To respond to these changes, a portion of the operating budget may be reserved each year for research and development purposes.
- **5.** The district will gradually fund reserve and replacement accounts for its future liabilities, claims and fixed assets. Each reserve account will include explicit standards for setting the amount of the reserve.

Accounting and Financial Practices Policies

- 1. The district will maintain an accounting and financial reporting system that conforms to both Generally Accepted Accounting Principles (GAAP) adopted by the Government Accounting and Standards Board (GASB) and Oregon local budget law, and will issue a Comprehensive Annual Financial Report (CAFR).
- 2. The board will establish funds as needed to support effective and efficient service delivery. The budget committee and the board will review each fund annually as the budget is prepared and reviewed. If certain funds are not found to enhance the district's services or financial goals, they will be restructured or eliminated.
- 3. Each fund will maintain an appropriate contingency account to meet unanticipated requirements that may occur during the budget year. Cash reserves and fund balances will be consistent with generally accepted accounting practices and local budget law. The targeted contingency for the general fund is two percent of the operating

budget. The district will review other funds for contingency and cash reserve requirements to ensure that each fund has sufficient reserves and a positive balance at year end, as required by local budget law.

4. The district will maintain an ending fund balance in the general fund, in order to provide stable services and employment to offset cyclical variations in revenues and expenditures.

The targeted floor for the ending fund balance will be at five percent of annual operating revenues. The annual financial forecast will project operating revenues and ending fund balance for the next five years. The board will allocate an appropriate portion of the projected ending fund balance to the unappropriated ending fund balance (UEFB) in the annual budget, taking into consideration revenue and expenditure volatility and other district needs. The UEFB may not be spent or appropriated during the fiscal year in which it is budgeted.

Once the targeted five percent for the ending fund balance has been achieved, the superintendent will advise the board if at any time the ending fund balance falls below or is projected to fall below that amount. The superintendent will update the board on the financial condition of the district and present financial options for board consideration.

5. If district revenues are less than anticipated, operating, capital and ending fund balance allocations will be reviewed by the board for possible reductions. The board may decide to use a portion of the projected ending

fund balance to stabilize services. When such a determination is made, the board will adopt a plan to rebuild reserves to the five percent targeted level within five years.

- **6.** Excess one-time funds may be available for capital, equipment, library books, automation or other one-time projects that improve the district's productivity and efficiency, but only if the ending fund balance is sufficient.
- **7.** Each fund will maintain adequate cash reserves in order to meet operating cash flow needs or borrow internally from another fund, or as a last resort, borrow externally to provide for cash requirements.
- **8.** When feasible, and where legally permissible, the district may evaluate support services to determine if creating a user-fee, internal service fund, or enterprise will increase efficiency of service delivery or recover the cost of providing the service from the users.
- **9.** The district may recover the indirect costs associated with the operation of programs from such non-general fund sources as federal and state grants, intergovernmental services agreements, and other operating internal service or enterprise funds.

Revenue Policies

- 1. The district will strive to establish a stable revenue base for the operating budget for program needs through cooperation with its associations, legislators, and other districts. The district will make capital funding requests periodically to assure adequate safety and preservation of school buildings, district equipment, and other capital assets.
- 2. The district may charge the service fees intended to recover the partial or full cost of non-district sponsored use of its facilities, services or equipment, if permitted by law. In approving new uses of district services or facilities, the criteria for setting fees will include:
 - a) The cost of the use to the district:
 - **b)** The ability of the user to pay for the service or activity;
 - c) The degree to which the activity supports or detracts from the educational mission of the district;
 - **d)** Whether the use is by a private organization or individual or by another public entity; and
 - **e)** The comparable fees charged by other public or private organizations.

Periodically the administration will review and adjust service fees to ensure that rates are equitable and recover the cost of operation. The district reserves the right to deny any use of its facilities or services to prevent possible conflicts with its educational purpose.

Capital Improvements Policies

- 1. Facilities are essential to the support of the district's instructional programs. The annual operating and capital budget will reflect the need to maintain and repair facilities to preserve the public's investment in district facilities and to minimize future costs of major renovation and/or replacement.
- **2.** Construction, acquisition, or improvements of capital assets may be financed with resources outside of the district's normal operating and maintenance budget (e.g., bond issues or other methods of financing).
- **3.** The district will maintain a current inventory of its capital assets, their condition, and replacement and maintenance costs.
- **4.** The district will operate an ongoing preventive maintenance program to inspect facilities, inventory needs, and perform required repairs and maintenance.
- **5.** The district will plan for capital improvements over a multi-year period. The capital improvements program (CIP) will reflect longrange plans and policies, adopted land-use requirements, and growth projections. The staff and public will be involved in developing the capital improvements plan. The plan document will include estimates of known major capital needs extending beyond five years.
- **6.** CIP will estimate the changes in operating costs resulting from the improvements in facilities.

Intergovernmental Revenue Policies

1. The district will use non-recurring grant revenue for one-time services such as capital projects, equipment requirements, services that can be terminated without significant disruption to students and the community, and the development of innovative programs which the district is considering for future adoption. If grant resources do not provide predictable operating income for district programs, a plan will be available for replacement of the income from another source or phase out of the program. This plan will be a part of the district's financial forecast.

Debt and Investment Management Policies

- **1.** The district will seek to maintain an Aa Moody's bond rating or equivalent to preserve its access to credit and to minimize the cost of borrowing.
- **2.** The district will use general obligation bonds or other financing instruments permitted by law to finance essential fixed assets, equipment and capital improvements to support its instructional mission.
- **3.** The district will periodically review debt capacity as part of long range capital planning to ensure that debt levels are prudent and affordable. Retirement of bonded debt shall not exceed the useful life of the capital improvements that have been financed.
- **4.** The district will comply with debt issuance laws and regulations established by federal and state government and with board policies.

DISTRICT OVERVIEW/READER'S GUIDE

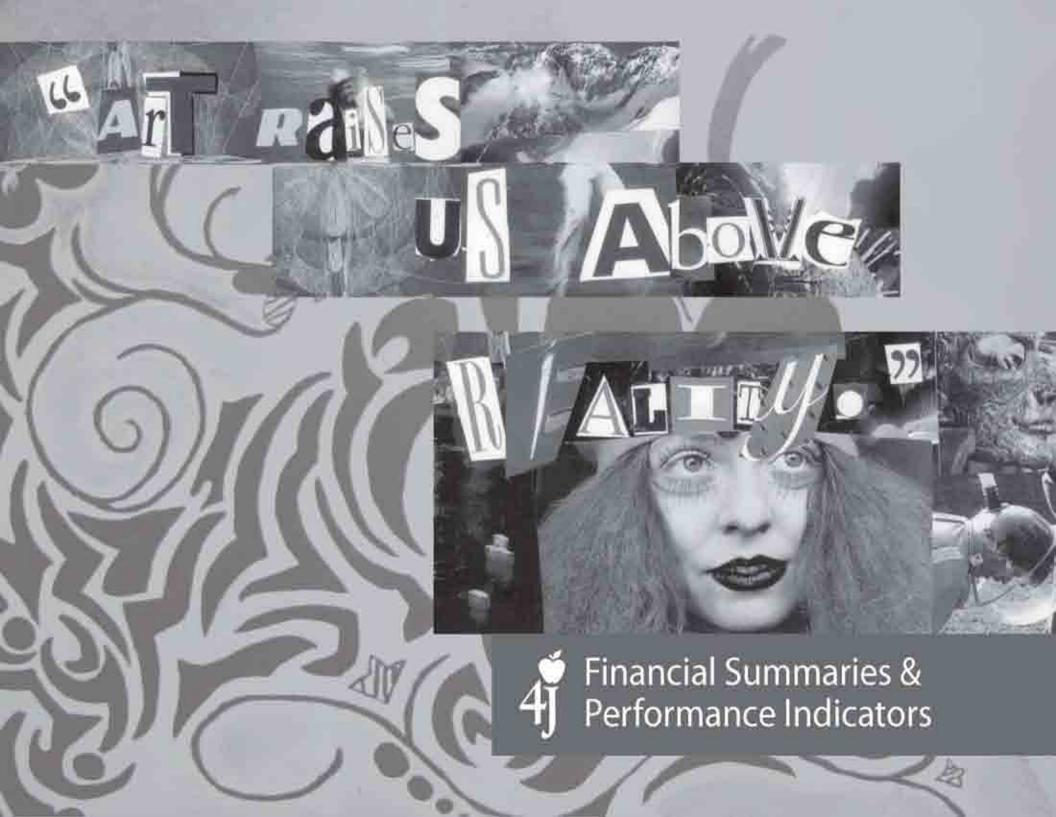

- **5.** The district will follow state law and local investment guidelines and abide by the following prioritized criteria when making investments:
 - **a)** Preserve capital through prudent financial investments:
 - **b)** Maintain sufficient liquidity so that funds are available when needed; and
 - **c)** Achieve the best available rate of return on investments.

Organizational Policies

- 1. The superintendent will review the district's organizational structure and operating programs periodically to assure that it is responsive to current needs and avoids service duplication or inefficiencies.
- **2.** The district will maintain a plan for balancing the cost of services with available revenues in order to minimize uncertainty about employment and services. The plan will be consistent with the adopted forecast.
- **3.** The compensation of employees will be competitive with that of comparable public and private sector employers in the relevant recruiting or market area. The criteria for reviewing employee wages and benefits will also include internal comparability for similar jobs, ability to pay and relevant federal or state requirements.

- **4.** The district will, within available resources, maintain the productivity of staff through a supportive working environment which includes appropriate equipment, supplies, materials, and professional staff development.
- **5.** The district will routinely evaluate its support services and determine whether the services are being provided at a competitive market cost. The district will develop corrective plans for any services that are not efficient or effective.
- **6.** The district will use intergovernmental service contracts to minimize the duplication of services and to ensure the most effective and efficient delivery of services to the taxpayers.

Ending Fund Balance is defined as the difference between a fund's resources and requirements at year-end. In the General Fund, balances are maintained to provide stable services and employment to offset cyclical variations in revenue and expenditures.

Fund balance projections indicate the estimated financial condition of the district at year end. School board policy sets the targeted minimum fund balance for the General Fund at 5% of operating revenues.

The 2009-10 budget projects the General Fund ending fund balance at \$5.45 million, or 4.0% of operating revenues. Total General Fund revenues include \$969,000 in transfers from other funds.

Balances in the Capital Projects Fund and Debt Service Fund reflect the issuance of bonds approved by voters on the May 2002 ballot.

Each year the board allocates a portion of the projected ending fund balance to the unappropriated ending fund balance (UEFB) in the annual budget. The UEFB may not be spent or appropriated during the fiscal year in which it is budgeted.

¹ Underspending is projected to be 80% of the budgeted contingency plus 0.75% underspending in all other accounts. Transfers to other funds, including capital, equipment and food service, are excluded.

² Underspending is projected to be 66% of budgeted contingency plus 50% of all other accounts.

³ Underspending is projected to be 97% of the budgeted contingency plus 0.75% of all other accounts.

⁴ Ending Fund Balance is available for debt service payments due July 1, 2010.

⁵ Underspending is expected to be 5% of budgeted expenditures.

⁶ No anticipated underspending.

⁷ Underspending is projected to be 66% of the budgeted contingency plus 3% of all other accounts. Transfers are excluded from underspending calculations.

⁸ Underspending is projected to be 97% of the budgeted contingency, 100% of the PERS Reserve, and 0.75% of all other accounts.

PERFORMANCE INDICATORS

District Mission: Do what's best for students. Continue to learn and grow. Respect and care about each other.

Board Goals for 2009–10

- Increase achievement for all students and close the achievement gap.
- Provide prudent stewardship of district resources to best support student success, educational equality and choice.
- Engage the community, staff, families, students, elected officials and other stakeholders in supporting our schools and improving educational outcomes for all 4J students.

INTRODUCTION

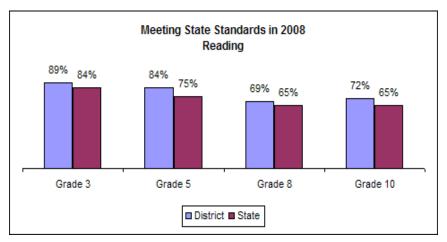

Eugene School District 4J strives for excellence in all areas of its operations, driven by its mission to do what's best for 4J students. In this section are key indicators of how well the district is carrying out this mission. These indicators provide some specific measures of student success, as well as of the efficiency and effectiveness of operations. The indicators are organized in three areas: 1) Direct Classroom and Classroom Support Services; 2) Building Support Services; and 3) Central Support Services.

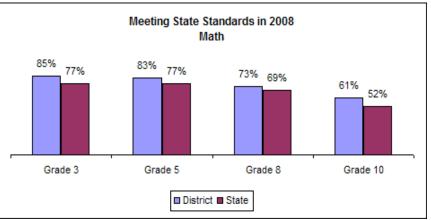

DIRECT CLASSROOM/CLASSROOM SUPPORT SERVICES

Student Achievement

The district has a strong record of fostering student achievement. The 2008 State School Report Card rated 75% of district schools as Exceptional or Strong, and 25% as Satisfactory. Moreover, results of the 2008 Oregon Assessment of Knowledge & Skills were consistently better than the statewide averages, as shown on the charts on this page.

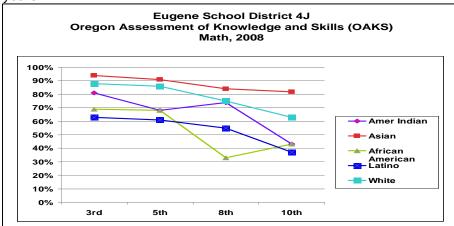

While these overall results are impressive, there is an achievement gap present when the data are broken down by ethnicity, poverty and disability. As seen in the line charts on the following page, American Indian, African-American and Latino students scored lower than their Asian and White peers on the reading and math assessments, particularly as students move from the elementary to secondary levels.

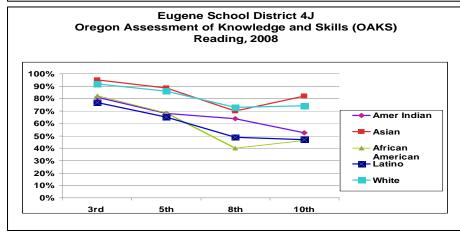

DIRECT CLASSROOM & CLASSROOM SUPPORT SERVICES Progress on the Achievement Gap

Over the past several years, closing the achievement gap has been a primary goal of the School Board. The district has allocated additional funds to achieve this goal and continues to maintain this focus. For 2007-08, some progress was made for the district's Latino students; however, the district's American Indian and African American students scored lower in several categories, primarily at the secondary levels. District staff in conjunction with the district's Equity Committee continues to research options which will address this issue more expeditiously. The tables to the right show elementary, middle, and high school Reading and Math scores on the Oregon Assessment of Knowledge & Skills for the last two years.

Reading Performance by Ethnicity – Elementary (Grades 3-5)

DIRECT CLASSROOM & CLASSROOM SUPPORT SERVICES State Report Card Results—2006–2008

The Oregon Department of Education is responsible for issuing a report card to all schools and districts in the State. These report cards provide information to educators, parents, and community members about certain accountability measures regarding each of Oregon's schools.

The rating that a school receives is based largely on student participation and performance on the Oregon Assessment of Knowledge & Skills. Student attendance for elementary and middle schools, and dropout rates for high schools, also factor into a school's overall rating. The current rating system and formulas used to calculate ratings are scheduled to change after this year.

Performa	nce:			
L=Low	Sa=Satisfactory	St=Strong	E=Exceptional	

Schools must be in operation for a minimum of 3 years before receiving report card ratings.

As seen in the following tables, the overall district performance on the Oregon Assessment of Knowledge & Skills is above the state average across all domains at each grade level. The dropout rate for our high schools is lower than the state average dropout rate. SAT scores surpass both state and national averages.

BUILDING AND CENTRAL SUPPORT SERVICES

BUILDING SUPPORT SERVICES

One industry measure for tracking building operating costs is to compare building maintenance costs (excluding custodial and utility costs) per square foot of building space over time. The facilities maintenance budget for 2009–10 includes \$4.8 million to maintain over three million square feet. The budget per square foot is lower in 2009–10 than in 2008–09 due to budget reductions. Over the past 5-6 years a portion of the total square footage has been replaced by new construction; however, the total square footage of building space has remained about the same. New systems and a variety of technologies have been added to new and existing facilities. These new systems, coupled with the high percentage of aged facilities, have resulted in an increase in the overall demand for ongoing maintenance and repair. This trend is evidenced by a steady and fairly dramatic increase in work order requests over the past 5 years.

Student Transportation

	2003-04	<u>2004–05</u>	<u>2005-06</u>	<u>2006–07</u>	2007-08

CENTRAL SUPPORT SERVICES

Bond Rating

In August 2008, Moody's Investors Service assigned an **Aa3** rating to all of the district's general obligation bonded debt. According to Moody's, one of the top bond rating agencies in the country, the rating reflects the district's sizable tax base, well diversified local economy, and expectation that the district will continue to maintain a satisfactory reserve given prudent, multi-year financial planning and history of strong community support. The district's moderate debt position with manageable future borrowing plans was also factored into the rating. **Aa** indicates that bonds, from an investor's perspective, are judged to be high quality by all standards. The highest rating that Moody's assigns is Aaa. State of Oregon bonds are rated Aa2.

Audit Opinions

The district has received unqualified audit opinions for more than 20 consecutive years, including the fiscal year ended June 30, 2008.

An unqualified opinion indicates that the auditor has determined that financial statements 1) fairly present the financial position, results of operations and changes in financial position of an entity in accordance with generally accepted accounting principles applied on a consistent basis and 2) include appropriate informative disclosures.

Budget and Financial Reporting

The district has received the *Certificate of Achievement for Excellence in Financial Reporting* from the Government Finance Officers Association (GFOA) every year since June 30, 1987.

This certificate is presented to governments whose comprehensive annual financial reports achieve the highest standards in government accounting and financial reporting.

The district has received the GFOA *Distinguished Budget Presentation Award* every year since 1992–93.

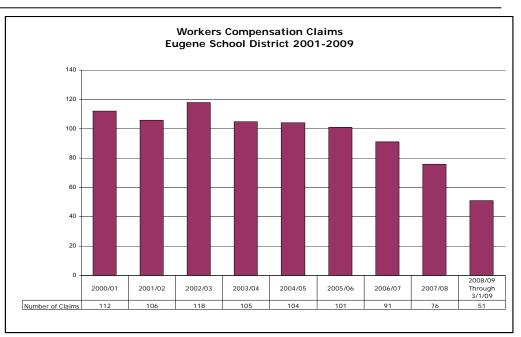

This states that the district has published a budget document that meets program criteria as a policy document, operations guide, financial plan and communications device.

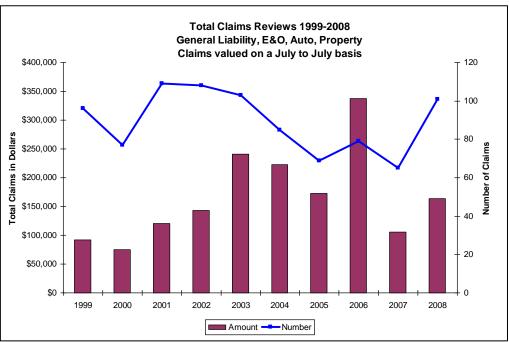

WORKERS' COMPENSATION

This graph outlines the number of worker's compensation claims for all district employees between July 1, 2000 and March 1, 2009. Worker's compensation provides medical and/ or time loss payments to 4J employees and volunteers for work place injuries. As indicated by the graph, there has been a consistent decline in the number of claims filed since 2002–03. The total amounts of claims paid have also held steady or decreased. The current year promises to follow this positive trend.

This graph provides information on the district's history for all insured and self-insured property and liability losses from July 1, 1999 through July 1, 2008. The total number and cost of all property and liability claims are illustrated for each fiscal year. The claims and costs indicated include losses in the following areas: General liability, property, error and omissions, and auto (including school buses). The increase in 2006 claims costs is due to approximately \$250,000 of fire damage at a closed school.

Grant Funds Received

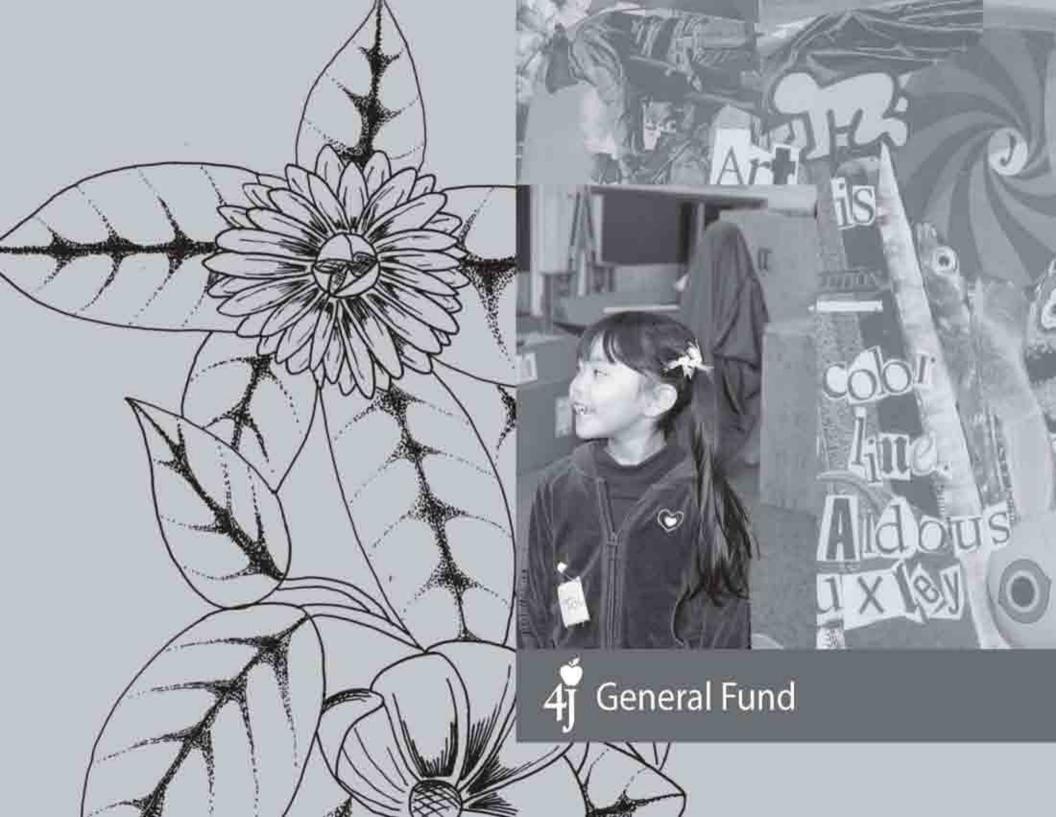

District success generating grant funding for new and innovative instructional programs contributes to its ability to support student success. These funds are restricted to specific purposes and are time-limited. (Amounts do not include Eugene Education Funds (EEF) and City Levy Fund grants.)

¹ Voters authorized a Local Option Levy of \$1.50 per \$1,000 of assessed value, to be levied for five years beginning in 2000-01. The amount requested represents estimated revenue over the five-year period, as stated in the ballot summary.

² Voters authorized a Local Option Levy of \$1.50 per \$1,000 of assessed value, to be levied for five years beginning in 2005-06. The amount requested represents estimated revenue over the five-year period, as stated in the ballot summary.

³ Voters authorized a Local Option Levy of \$1.50 per \$1,000 of assessed value, to be levied for five years beginning in 2010-11. The amount requested represents estimated revenue over the five-year period, as stated in the ballot summary.

RESOURCES

Resources supporting district general fund operations primarily reflect local and state revenues, with additional income representing federal, county, and other sources. The largest segment, which includes state funding and local property taxes, is determined by the State School Fund formula. Since Measure 5 property tax limitations were approved in 1990, school district funding has been largely defined by the state; previously, it was primarily determined locally and supported by local property taxes.

State School Fund

In 1991, the State School Fund was created by the Oregon Legislature to distribute state aid to school districts. A formula was developed with the goal of providing equal funding to all school districts, with funds allocated on a weighted, per-student basis. Extra weighting is provided for special education, English Language Learners, poverty, and teen parents. To determine a district's general purpose grant, the weighted student count is multiplied by a statewide target grant amount (approximately \$4,500), which is adjusted to reflect average teacher experience and available state resources. The general purpose grant plus a transportation grant determines total formula revenue. Local property taxes and other specified revenues are deducted from formula revenue to determine the State School Fund grant to be paid to a district. Total payments may also include a high cost disabilities grant and a facilities grant, depending on qualifying district costs.

The state legislature sets appropriations for K–12 education each biennium based on projections of corporate and personal income taxes as well as local property taxes. This cycle requires that, every other year, the school district develops its proposed budget while the biennial legislative session is still in process. Until deliberations are concluded and a statewide budget is adopted, the level of state funding is uncertain. This biennium, legislative discussions are taking place in a time of unprecedented fiscal uncertainty and global economic crisis.

Proposed funding levels for K-12 education range from \$5.4 billion to \$5.9 billion for the 2009-11 biennium. These compare to a \$6.245 billion funding level adopted by the state in 2007-09, a \$6.39 billion budget for 2009-11 recommended by the Governor in December, and a \$6.55 billion Essential Budget Level (EBL) for 2009-11 estimated by the Legislative Revenue Office

In the March 2009 state economic forecast. state general fund revenues were predicted to be approximately \$13 billion, \$1.7 billion lower than projected in December 2008. It is believed that revenues will drop even farther in the May and September forecasts. To reach the proposed funding level, it is assumed that the state legislature is using all available resources the American under Recovery Reinvestment Act of 2009 (ARRA) as well as balances in the state Education Stability Fund and Rainy Day Fund. Oregon has been approved for approximately \$382 million from the Oregon Education Stabilization portion of the ARRA, \$115.4 million of which was designated by the Governor and state legislature to support K-12 school districts in the current 2007-09 biennium. In addition, the Oregon Rainy Day Fund and Education Stability Fund are projected to reach a total of \$732.1 million by the end of June 2009.

The 2009-10 budget includes \$62.3 million from the state: \$61.2 million in formula revenue and \$1.1 million in High Cost Disability grants. Formula revenue assumes \$5,923 per pupil, down 5.7% from 2008-09, and adjusted downward for lower average teacher experience in relation to the state average. Revenue growth is further impacted by decreasing student enrollment.

Current Property Taxes

Under Measure 50, district property taxes are based on a permanent tax rate of \$4.75 per \$1,000 of assessed value, applied to the value of real and personal property located within district boundaries. In 1997–98, assessed values were rolled back to 1995–96 values

less 10%, reducing the district's tax base by about 13%. Future increases in assessed value are limited to 3% per year plus exceptions such as the value of new construction.

Tax revenues budgeted for 2009–10 assume an overall 3.0% increase in assessed values and a collection rate of 93.0%. As a result of the current economic downturn, tax collections are expected to be lower than the 94.5% rate used to develop the 2008-09 budget. Property taxes are included in State School Fund formula revenue.

Prior Years' Property Taxes

Most taxes not collected in the year in which they were levied are collected in subsequent years. It is estimated that approximately 30% of the outstanding balance of uncollected taxes will be received during the 2009–10 fiscal year. Other property tax-related revenues include interest earnings from delinquent taxes. Prior years' taxes are included in State School Fund formula revenue.

Other State Funding Formula Revenues

The following revenues are also included in State School Fund formula revenue:

• Federal Forest Fees

Under the Secure Rural Schools and Community Self-Determination Act, the federal government made payments to counties hurt by cutbacks in federal logging. The Act expired in 2006, and a one-year extension was approved for 2007-08. A federal Bailout Bill approved in late 2008 reinstated this funding at 90%

of the 2006 funding level and provided for a gradual phase-out over the subsequent three years. The 2009-10 budget includes \$2.1 million from this source.

Common School Fund

Oregon holds the income from lands granted by the federal government at statehood—rangelands. forests and waterways and their mineral and timber resources—in trust for the benefit of public schools. Lands are managed by the state Land Board and income is invested by the state Treasurer, one of three members of the Land Board, and the Oregon Investment Council. The fund has a balance of over \$1 billion. Investment earnings are distributed to schools each year using a sliding scale policy based on the annual change in the value of the fund. Amounts are allocated to districts on a per pupil basis.

Annual amounts received by the district vary, fluctuating between \$400,000 and \$1.8 million over the past ten years. Revenues of \$596,000 are budgeted for 2009-10 based on state estimates.

• County School Fund

Twenty-five percent of revenues received by counties from the sale of timber cut on federal forest land and other miscellaneous sources are provided to local school districts. Funds are distributed to school districts on a per student basis.

The district's annual revenues have ranged from \$90,000 in 2000-01 to \$264,000 in 2006-07. The district has

budgeted \$125,000 from the County School Fund in 2009-10.

Local Option Tax Levy

Since 1999, school districts have been allowed to request voter approval of additional property taxes to support operations and/or capital needs. This levy is limited to \$1,000 (plus 3% per year beginning 2008-09) per student, 20% of state resources, or the difference in taxes under Measure 5 and Measure 50, whichever is smallest. Proceeds are excluded from the state funding formula.

In November 2004, district voters approved renewal of a five-year, local option tax of \$1.50 per \$1,000 of assessed value. This levy, first approved in May 2000, has contributed an average of \$8.9 million per year to maintain current school programs and staffing levels. The levy is expected to generate \$13.0 million in 2009–10. Revenues are projected to be lower than in recent years in anticipation of a 10% drop real market property values and 3% growth in assessed values.

In November 2008, district voters approved renewal of the current local option levy, which expires in June 2010. This levy will become effective in the fall of 2010 and expire in 2015.

Other Sources of Revenue

The district receives money from a variety of sources outside its State School Fund grant. These include tuition payments, interest earnings on investments, local option tax revenues (discussed above), and funds for services.

In 2008-09, these sources are projected to total approximately \$4.4 million. A reduction in

GENERAL FUND — RESOURCES

investment earnings resulting from the current economic downturn is the major factor behind a drop in these revenues to an estimated \$3.6 million in 2009-10.

Interfund Transfers

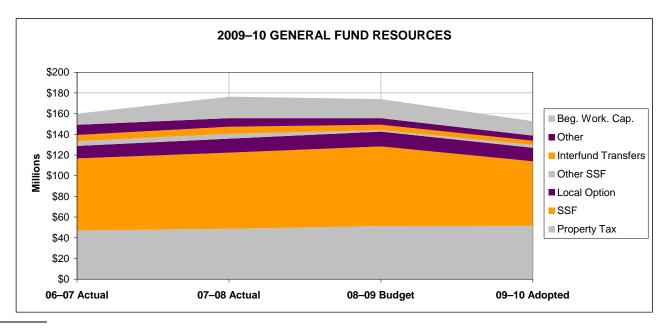

The 2008–09 budget includes transfers from other funds, including \$118,000 from the Classified Employees Reserve in the Insurance Reserve Fund to support compensation costs and \$500,000 from the Capital Projects Fund to support district operations.

Beginning Fund Balance

Other general fund resources include unexpended resources and the unappropriated ending fund balance carried over from the previous year. These resources are also excluded from the State School Fund formula.

The beginning fund balance for 2009-10 is budgeted at \$13,836,000. The budget assumes that \$8.4 million in reserves will be used in 2009-10 to support district operations and fund one-time investments in strategies to close the achievement gap.

REQUIREMENTS — MAJOR PROGRAM AREAS

DESCRIPTION

The general fund's five major program areas are further divided into programs and functions (or activities). This document includes purpose statements, descriptions of budget goals, financial highlights and program changes, major functions, organization charts and budget tables for each program.

SUMMARY OF GENERAL FUND PROGRAM AREAS

	2009–10 Budget
DIRECT CLASSROOM SERVICES	\$82,545,134
CLASSROOM SUPPORT SERVICES	29,319,099
BUILDING SUPPORT SERVICES	23,774,700
CENTRAL SUPPORT SERVICES	6,862,573
TRANSFERS/OTHER	1,318,576
CONTINGENCY	2,138,000
UEFB	2,672,918
TOTAL	\$148,631,000

DIRECT CLASSROOM SERVICES

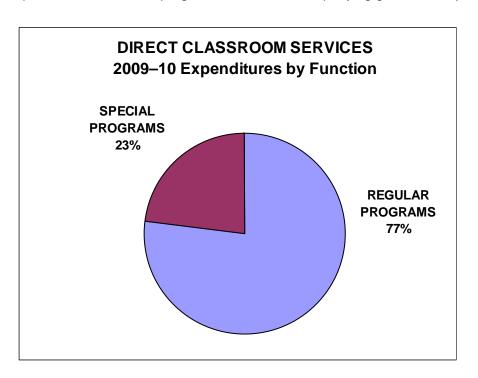

The direct classroom services portion of the budget is dedicated to school district activities that are involved in direct instructional services to students. Since the primary mission of the district is instruction, the goals for the direct classroom services budget are exactly the same as the instructional goals of the school district. Our overall goal is to increase student achievement for all students and close the achievement gap.

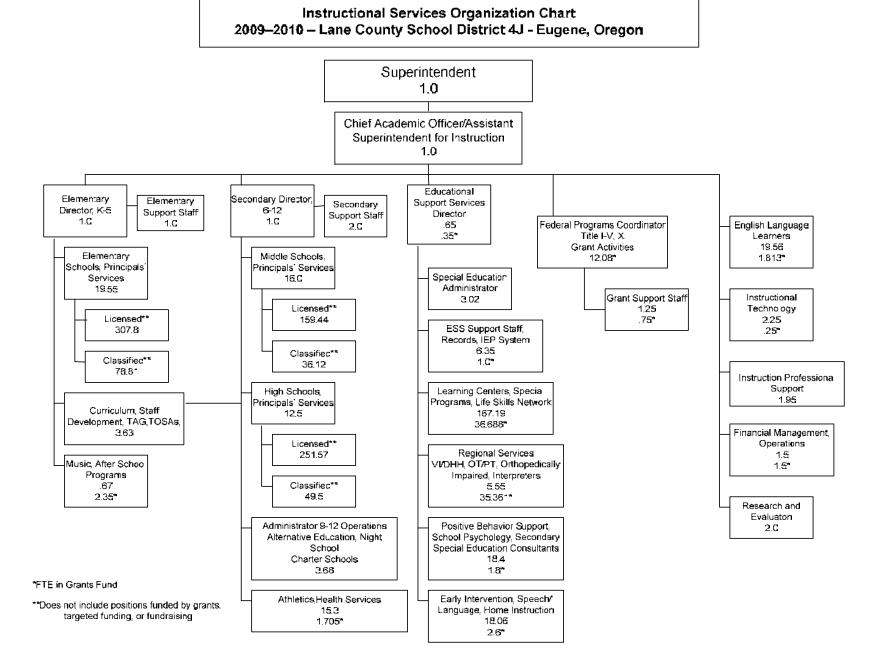

The fundamental purpose of the school district is to provide the very best education we can for every student, from kindergarten through high school graduation, in a safe environment which is demanding but nurturing, rigorous but compassionate, fosters both independence and collaboration, and respectfully demands accountability as well as excellence from students and staff.

Each of the direct classroom services programs has established a program of work and a set of goals and objectives that it intends to accomplish during the 2009–10 school year. The documents that follow contain a brief description of each of these programs and their accompanying goals and objectives.

MAJOR FUNCTIONS

	2009-10 Budget
REGULAR PROGRAMS	\$63,589,992
SPECIAL PROGRAMS	18,955,142
TOTAL	 \$82,545,134

REGULAR PROGRAMS

SERVICE DESCRIPTION

Kindergarten through grade twelve instruction programs are designed to prepare students to be successful citizens. These programs provide learning experiences to develop the knowledge, skills, appreciation, attitudes, and behavioral characteristics needed by all students. They also include special learning experiences designed to meet physical, mental, social and emotional disabilities or gifts. Instructional areas include language arts (reading, speaking, listening, writing); mathematics; science; fine arts (including the visual arts, and general music); physical and health education, social sciences, technology and media, second language, and career development.

Key Board Goal for this service:

Increase achievement for all students and close the achievement gap.

Goal 1. Use data to identify where performance gaps exist and implement district-wide and school-based strategies to close the achievement gap.

A focus will be on data analysis to ensure that the needs of all students are being met and that they are given opportunities to achieve the standards and benchmarks established and recently updated by the Oregon State Board of Education. At the district level, staff development will be provided to help students, staff, and parents understand the standards and develop alternative learning options for students who need additional services. Data will be disaggregated to determine needs for special populations. A major emphasis will be placed on math and reading instruction to ensure that all students can read and compute proficiently at all grade levels.

BUDGET GOALS FOR 2009-10

Goal 2. Ensure that each school has developed a literacy and school improvement plan based on best practices to improve achievement for all students.

The district has completed a report at the elementary and secondary levels outlining best instructional practices for literacy. In partnership with the University of Oregon, the district also designed a comprehensive reading assessment for all students in grades K–10. Each school has developed a literacy plan, and the Instruction Department is providing building-based staff development to assist schools in implementing their plans.

Goal 3. Ensure that all students receive and are engaged in a rigorous curriculum.

Programs and professional development will emphasize and support a belief system that all students can learn and meet high standards. A focus will be on the development of interventions at all grade levels to enable students behind grade level to meet standards and benchmarks.

Goal 4. Schools will develop an environment that promotes learning, respect, and an appreciation for diversity.

Training and assistance will be provided to schools to promote positive behavior and cultural competency. Staff will be informed about policies and practices to prevent bullying, harassment, and intimidation.

FINANCIAL HIGHLIGHTS AND PROGRAM CHANGES

Adjustments related to enrollment

• 3.57 licensed FTE related to the projected decline in enrollment.

Reductions

- 32.79 licensed FTE reduced due to increased student to teacher ratio and other budget reduction strategies
- 5% decrease in materials and services

Additions/Reallocations

- 8.1 classified FTE reallocated to sitebased technology (Function 2665) to more accurately reflect support for increased technology needs in the schools.
- 1.9 licensed FTE athletic trainers/directors reallocated to extra-curricular activities (Function 1132) to more appropriately reflect duties.
- 0.6 classified FTE reallocated to childcare (Function 3510) to more accurately reflect duties assigned.

MAJOR FUNCTIONS

1111 Elementary Primary Programs

This program of instruction for children in grades kindergarten through three provides learning experiences focused on knowledge, concepts, appreciation, attitudes, and behavioral characteristics needed by all pupils. The include learning areas common (reading, writing, language arts listening), mathematics, speaking, science, music, physical and health education, and social studies. Instruction is delivered in wavs which encourage students to make connections between subject areas and to apply skills and knowledge in their lives.

1112 Elementary Intermediate Programs

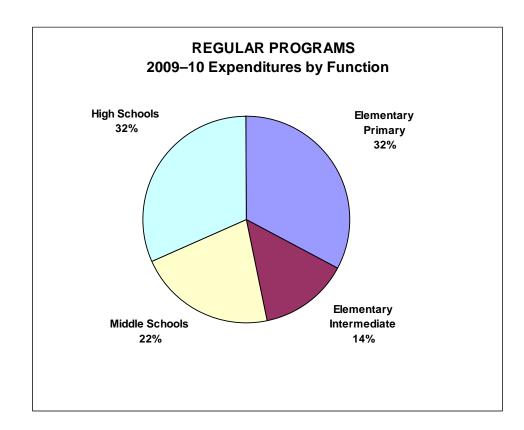

Expenditures for grades 4 and 5 programs, except extra-curricular activities, including language arts, math, science, social studies, arts, physical and health education, and technology/media.

1121 Middle School Programs

This level of instruction blends a strong academic program with a gradual transition from the elementary school to the high school. The middle school climate and program are designed to assist students to progress intellectually, physically, and socially by involving them in continued development of basic skills and exploratory activities. Students are encouraged to take increasing responsibility for their own behavior and learning. Standards for achievement at the middle level have been increased. and all students will be expected to meet benchmarks including algebra in grade 8.

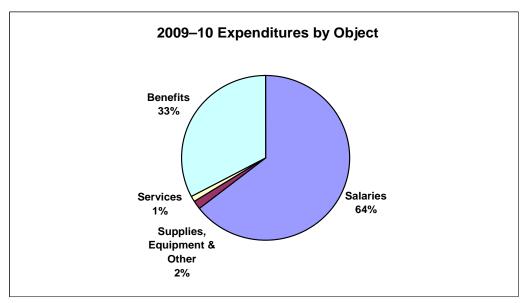

1131 High School Programs

The high school instructional programs focus on learning experiences and activities which emphasize knowledge, skills, appreciation, attitudes, and behavioral characteristics needed by all students. Special efforts are made to help students understand themselves, their relationship with society, and the preparation necessary for their entry into the world of work and/or advanced academic and career training. A major focus will be preparing students to meet new graduation requirements that have increased rigor in language arts, math, and science.

SPECIAL PROGRAMS

SERVICE DESCRIPTION

Special programs provide a wide range of instructional and related services for students with disabilities, as well as alternative education, talented and gifted, English Language Learner, summer school, charter schools, and other programs.

Key Board Goal for this service:

Increase achievement for all students and close the achievement gap.

BUDGET GOALS FOR 2009–10

- Goal 1. Partner with general education to shape the educational delivery system to meet every child's learning and social/behavioral needs and close the achievement gap.
- Goal 2. Partner with general education to provide high quality instruction and access to the general curriculum for students with disabilities.
- Goal 3. Work with district staff to design, implement and monitor specially designed instruction and effective intervention activities that address the needs of culturally and linguistically diverse students.
- Goal 4. Work collaboratively with general education and the University of Oregon to implement two model demonstration grants: Instructional Intervention/Progress Monitoring (IIPM) and Intensive Positive Behavior Support (IPBS).
- Goal 5. Partner with High School Services to support reform efforts to increase expectations for all students and change the service delivery model for secondary students with disabilities.

Goal 6. Based on the results of the Oregon Department of Education System's Performance Review and Improvement process, review current data and implement the district Improvement Plan revised 2008– 2009.

FINANCIAL HIGHLIGHTS AND PROGRAM CHANGES

Continuation of programs previously funded on a time-limited basis

- 1.67 licensed FTE to continue after school programs for an additional year at River Road, César Chávez, and Howard elementary schools, and Arts and Technology (K-8) and Kelly Middle School. (Function 1271)
- \$25,000 (.30 licensed FTE) to expand middle level summer school. (Function 2211)

Reductions

 \$250,000 reduction in tuition for student placements with outside providers. (Function 1280)

- \$125,000 elimination of high school incentive grants. (Function 1280)
- 4.25 classified FTE reduction to after school programs. (Function 1271)
- \$100,000 reduction to funding for middle to high school transition funding. (Function 1460)
- \$110,000 for elementary academy school funding which was provided to elementary schools with higher need students. (Function 1299)
- \$38,000 Tripod Project (Function 1460)
- \$425,000 (includes 2.5 licensed FTE) Academy School Funding for middle and high schools: Arts and Technology (K-8), Kelly and Madison middle schools, and North Eugene High School. (Function 1121, 1131) (Supported by grant in 2009-10)

Additions/Reallocations

 \$190,000 (2.11 licensed FTE) for middle to high school transition funding reallocated from summer school (Function 1460) to student support services (Function 2129) to more accurately reflect the program.

MAJOR FUNCTIONS

1210 Programs and Services for The Talented And Gifted (TAG)

Instruction provided for intellectually gifted and academically talented students addressing their assessed levels and rate of learning.

1220 Restrictive Programs For Students With Disabilities

Special learning experiences students with disabilities who spend one-half or more of their time in a restricted setting. These learning experiences include but are not limited to such areas as Structured and Intensive Learning Centers. Developmental Kindergarten, Community Transition Centers, Life Skills with Nursing, Out of District programs, Home Instruction, Extended School Year programs, Diagnostic Classrooms and Functional Living Skills.

1229 Other Restrictive Programs

1250 Less Restrictive Programs for Students with Disabilities

Special learning experiences for students with disabilities outside the regular classroom. These learning experiences include but are not limited to such areas as Resource Rooms where students with disabilities go during certain periods of the school day to receive remedial instruction in specific subject areas or other remedial activities. ΑII special education expenditures, including 1250, need to be reported to the state at the district level rather than the school level.

1260 Early Intervention

Services designed to evaluate children with developmental deficits in sensory, motor, communication, self-help, and socialization areas. It includes transi-tion services to school age programs.

1271 Remediation

Instructional activities designed to improve achievement of regular education students who are not meeting state performance standards. Activities take place outside regular class time; e.g., after school, Saturday School and Summer School.

1280 Alternative Education

Learning experiences for students who are not succeeding in a regular classroom setting; who are at-risk of dropping out of school; who may be more successful in a nontraditional environment; or who need a special education placement outside of district programs.

1288 Charter Schools

Expenditures related to district sponsored charter schools.

1291 English Language Learner (ELL) Program

Instructional activities designed to improve English skills of students who do not speak English as their native language.

1294 Youth Corrections Education

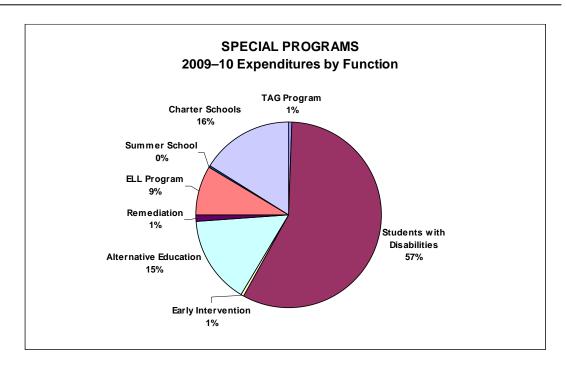

Instructional programs delivered to youth in detention.

1299 Other Programs

Function 1299 can not be used for children with Individual Education Plans.

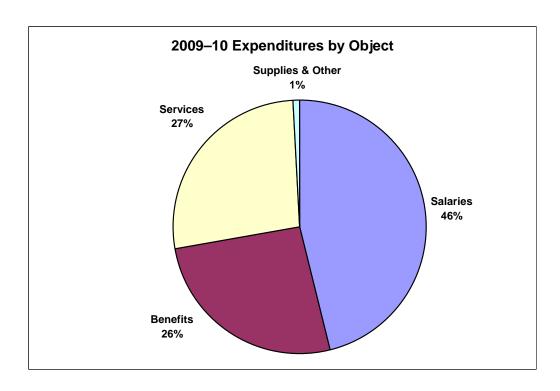

1460 Summer School

Instructional activities provided in accordance with summer school.

EXTRA-CURRICULAR ACTIVITIES

SERVICE DESCRIPTION

Activities designed to support successful student participation in regular and special instructional programs and extra-curricular activities. Support is provided by various specialists through direct service to students and consultation services with school personnel, parents, students and other agencies. Schools at each level provide opportunities for students to participate in music and physical education activities. The district continues to attend to the repair, maintenance, and improvement of district activity/athletic facilities. The district also collaborates with Lane Community College, the City of Eugene, YMCA, and KidSports to make co-curricular activities available for students.

Key Board Goal for this service:

Increase achievement for all students and close the achievement gap.

BUDGET GOALS FOR 2009–10

Goal 1. Coordinate district activities and programs.

- Investigate, develop, and implement district activity programs that provide maximum opportunities for student participation.
- Establish safe and legal standards for all programs.
- Focus on raising student participation, especially from underrepresented groups.
- Conduct after school programs and activeties that provide more time for learning and enhance academic achievement.

FINANCIAL HIGHLIGHTS AND PROGRAM CHANGES

Reductions

None

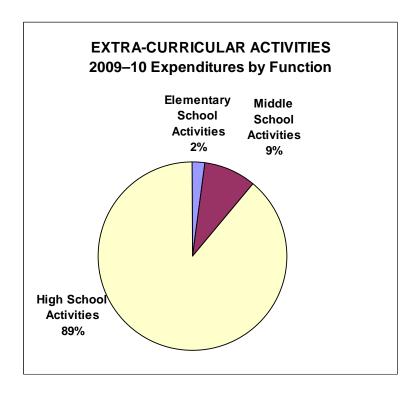

Additions and Reallocations

 1.9 licensed FTE athletic trainers/directors reallocated from regular programs (Function 1131) to more appropriately reflect duties. (Function 1132)

MAJOR FUNCTIONS

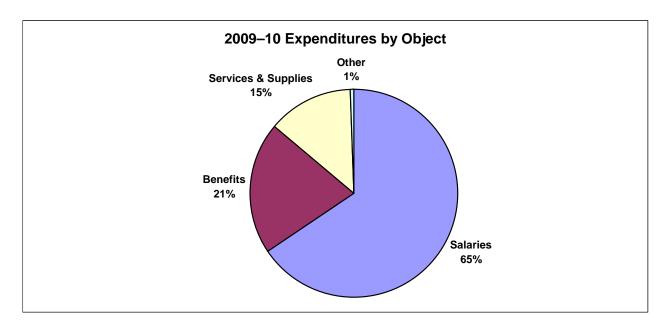

- 1113 Elementary Student Activities
- 1122 Middle School Student Activities
- 1132 High School Student Activities

This portion of the budget includes expenditures for student activities and athletics. These co-curricular programs supplement the basic instructional offerings by providing additional interests and experiences for student learning to take place.

COUNSELORS, NURSES AND STUDENT SUPPORT

SERVICE DESCRIPTION

Activities designed to support successful student participation in regular and special instructional programs. Support is provided by various specialists through direct service to students and consultation services with school personnel, parents, students and other agencies. Some of these functions are funded by Federal, State and local grants.

Key Board Goals for this service:

• Increase achievement for all students and close the achievement gap.

Goal 1. Include school counseling and guidance programs in the instructional support structure of all of the district schools.

- Identify the guidance and counseling needs of each student.
- Provide counseling services for students which will assist them to understand their educational, personal, and occupational strengths and areas for improvement.
- Relate students' abilities, emotions and aptitudes to educational and career opportunities.

Goal 2. Identify the needs of at-risk and special education students and design and implement intervention programs.

 Provide casework and intervention services to district secondary personnel, students and their families when family, health, social, emotional, or learning problems interfere with a student's school adjustment.

BUDGET GOALS FOR 2009–10

- Provide assistance, support and consultation to secondary school staff who implement required individualized education programs for students with disabilities.
- Assist secondary level schools and families in identifying necessary social, medical, and related community resources.
- Goal 3. Work with staff and parents to identify health problems that are interfering with a student's ability to function effectively in schools; assist students, through referral and direct services; and provide education, consultation and support to students and their families.
- Ensure that students with chronic medical problems and those who are in fragile health have the nursing and related support necessary to attend school.
- Provide for the public health of all students and staff in the district by coordinating the screening of students, implementing state immunization and communicable disease

laws; serve as a liaison with community-based professional and civic organizations.

Goal 4. Provide assessment and consultation services to all schools within the district to ensure that students are appropriately placed in school programs.

- Provide assessment services for those students who have been referred to determine if they are eligible for special services, e.g., services to students with disabilities, services to talented and gifted.
- Provide assistance, support and consultation to school staff who implement required individualized educational programs for students with disabilities.

Goal 5. Provide crossing guards, student supervision assistants, and police officers in the schools to protect the safety of all students.

 Provide instruction and guidance to students to increase their understanding of safety measures.

FINANCIAL HIGHLIGHTS AND PROGRAM CHANGES

Continuation of programs previously funded on a time-limited basis

- 1.5 classified FTE for eSIS/Special Education model to maintain accurate records and reports. (Function 2190)
- 0.4 licensed FTE OCR Compliance. ELL/Special Education evaluation team to prevent over-identification of students for Special Education. (Functions 2143, 2152)

Reductions

- \$30,000 (includes .3 licensed FTE) Mentor Program. Reduction in mentors and elimination of coordinator position. (Function 2211)
- 1.5 classified FTE to implement the student information system special education model. (Function 2190)

- 0.35 administrator FTE moved to Federal, State and Local Programs Fund to support Regional Programs. (Function 2190)
- 0.49 licensed FTE special education consultant. (Function 2110)

Additions and Reallocations

 \$190,000 (2.11 licensed FTE) for middle to high school transition funding reallocated to student support services (function 2129) from summer school (function 1460) to more accurately reflect the program.

MAJOR FUNCTIONS

2110 Attendance And Social Work Services

Those activities which are designed to improve student performance at school and which attempt to prevent or solve student problems involving the home, the school, and the community.

2115 Student Safety

Activities associated with campus monitors, school police, crossing guards, and other direct expenses associated with services intended to enhance student campus and vicinity safety.

2122 Guidance Services

This program provides activities concerned with the relationship between students and others, including other students, staff, and parents. The major purpose of this effort is to assist pupils to understand their educational, personal and occupational strengths and limitations; to relate their abilities, emotions, and aptitudes to educational career opportunities; to form realistic plans and to achieve satisfying personal and social development.

2129 Other Guidance Services

Other guidance services not classified above.

2131 Health Services

Activities associated with directing and managing health services, which are not instruction, such as health inspection, treatment of minor injuries, and referrals for other health services.

2132 Medical Services

Activities concerned with the physical and mental health of students, such as health appraisal, screening for psychiatric services, periodic health examinations, emergency injury and illness care and communications with parents and medical officials.

2139 Other Health Services

Other health services not classified above.

2142 Psychological Testing Services

Activities with concerned administering psychological tests. standardized tests and inventory assessment of ability, aptitude. achievement, interests and personality and the interpretation of these for students, school measures personnel and parents.

2143 Psychological Services

Activities concerned with administering psychological tests and interpreting the results, gathering and interpreting information about student behavior, working with other staff members in planning school programs to meet the special needs of students, conducting behavioral evaluations and interventions, and managing a program of psychological services.

2152 Speech And Language

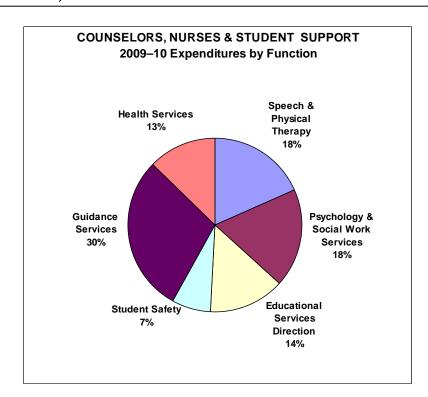

Speech/language services and support to students with disabilities.

2169 Miscellaneous Support Of Educational Services

Activities supporting district special educational programs.

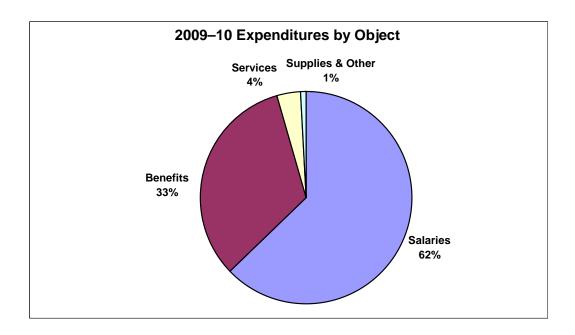

2190 Service Direction, Student Support Services

Activities associated with directing and managing student support services.

LIBRARIES, CURRICULUM AND STAFF DEVELOPMENT

SERVICE DESCRIPTION

Activities designed to support instruction by providing materials, services, and professional growth opportunities.

Key Board Goals for this service:

- Increase achievement for all students and close the achievement gap.
- Engage the community, staff, families, students, elected officials and other stakeholders in supporting our schools and improving educational outcomes for all 4J students.

BUDGET GOALS FOR 2009–10

Goal 1. Conduct curriculum planning, professional development, and assessment to support priority projects.

Priority Projects

To attain its objectives, the district's Instructional Leadership Team will take action in ten areas that impact student achievement. Those areas and the projects that accompany each are outlined here.

Literacy:

- a. Expand and refine District 4J reading assessments.
- b. Align K-12 curriculum to standards in language arts.
- c. Support the language arts adoption and implement IIPM (Instructional Interventions and Progress Monitoring).
- d. Help schools integrate their literacy goals and plans in the Continuous School Improvement Plan.
- e. Articulate expectations, budget guidelines, and accountability for the Literacy Infusion Project, a project aimed at training

teachers in effective reading and writing instruction.

Math:

- a. Complete and implement District 4J math assessments.
- b. Prioritize and align K-12 standards in math.
- c. Continue implementing Math Task Force recommendations for best practices and programs to improve student achievement in math.
- d. Train teachers on effective math instructtion, especially for teaching algebraic relationships and concepts at the middle level.

Integration of special education and regular education:

- a. Improve effectiveness of SSTs (Student Support Teams) through training on interventions and best practices.
- b. Include teams of principals, special education teachers, and regular education

- teachers in all staff development on best practices, requirements and assessment.
- c. Serve students identified on the autism spectrum in a more effective way through training and program development.
- d. Continue to train staff on progress monitoring, interventions, and access to the general curriculum.

Data-driven decision-making:

- a. Train building administrators and teachers on effective use of data for making instructional decisions.
- b. Train building administrators and teachers on how to get access and effectively use the District 4J data warehouse and on how to work with data on the 4J Reading and Math Project website.

Testing Environments:

a. Share and implement strategies to create optimum testing environments.

GENERAL FUND — CLASSROOM SUPPORT SERVICES — LIBRARIES, CURRICULUM AND STAFF DEVELOPMENT

- Refine implementation of the computerized state assessment system called OAKS (Oregon Assessment of Knowledge and Skills).
- c. Clarify Oregon Department of Education assessment rules and processes for building administrators and teachers.
- d. Develop performance assessments (work samples) for reading and math grades 3-12.

English Language Learner (ELL) Students:

- a. Provide training on best ELL instructional practices for building administrators and teachers.
- b. Provide coaching for teachers using sheltered English strategies.
- c. Enhance the language development program at the elementary level.

Structures for student achievement coordination:

- Give guidance to building administrators and teachers on integrating general and special education and on improving student achievement.
- b. Refine Intervention Staff Development Specialist model in middle schools.
- c. Focus on improving achievement for all students and eliminating the achievement gap.

Cultural Competence:

- a. Provide site-specific cultural competence training to building administrators and teachers.
- b. Train building administrators on engaging families from diverse backgrounds in the school.

 c. Incorporate concepts around cultural competence and community engagement into Continuous School Improvement Plans.

School culture support:

- a. Refine and expand Positive Behavior Support (PBS) in schools.
- b. Maintain and use data on student attitudes, suspension/expulsion, and bullying/harassment.
- c. Conduct Tribes Learning Communities training for interested schools.

High School reform:

- a. Implement new graduation requirements.
- Develop performance assessments for each high school student to complete to meet new graduation requirements.

Goal 2. Provide programs that incorporate into the curriculum an appreciation for diversity, an understanding and respect for different cultural and ethnic backgrounds, and knowledge of the contributions made by ethnic minorities.

- Support district efforts at implementing instructionally related recommendations, based on data and survey results, to promote diversity and multicultural education.
- Continue the analysis of state test scores to monitor the academic progress of minority population and design strategies or programs to assist students.
- Support and encourage school based efforts to incorporate multicultural curriculum throughout the instructional and staff development programs.

Goal 3. Assist schools in accessing community resources for the improvement of instruction.

- Enhance the educational experience by using volunteers and by developing school partnerships.
- Recruit business and community organizations to be involved with schools.
- Develop career pathway opportunities for students and promote school-to-work activities.

FINANCIAL HIGHLIGHTS AND PROGRAM CHANGES

Continuation of programs previously funded on a time-limited basis

 0.50 classified FTE to assist with instructional technology support. (Function 2211)

Reductions

- \$20,000 contracted services and extended contracts. Reduce consultants and staff development. (Function 2211)
- \$25,000 for high school reform efforts. (Function 2211)
- \$100,000 for reading assessment assistance. (Function 2211)
- \$126,000 professional development costs. (Function 2240)
- 1.0 administrator FTE curriculum development/student achievement. (Functions 2211, 2213)
- \$45,000 Instructional Materials Center (IMC). Eliminate .3 classified FTE position and materials budget. (Function 2221)
- \$129,000 reduction to math, physical education, science and music teachers on special assignment (TOSA). (Function 2211)

- \$302,500 for mathematics interventions for middle/high schools. (Function 2240) (Supported by grant in 2009-10)
- 0.50 licensed FTE. Interventions for Secondary ELL/Special Education. To provide professional development and coaching to secondary levels. (Function 2211) (Supported by grant in 2009-10)
- \$500,000 provided in 2008-09 on a onetime basis to support strategic planning recommendations. (Function 2211)
- \$136,250 Intervention training in Language Arts/Math to address achievement gap. (Function 2240) (Supported by grant in 2009-10)

Additions and Reallocations

 8.1 classified FTE from direct classroom services (Functions 1111, 1121, 1131) to site-based technology (Function 2665) to more accurately reflect support for increased classroom technology.

MAJOR FUNCTIONS

2210 Improvement of Instruction Services.

Activities designed primarily for assisting instructional staff in planning, developing and evaluating the process of providing learning experiences for students.

2211 Direction of Instruction Services Activities associated with directing and managing the improvement of

instruction services.

2213 Curriculum Development Services

Activities designed to aid teachers in developing, preparing and using curriculum materials.

2214 Multicultural Education

Activities associated with managing and directing the multicultural program.

2219 Other Improvement of Instruction Services

Activities for improving instruction other than those contained in the other 2210 functions. The staff included in this function are district coordinators of activities and athletics, music, technology, and language. Funds to support the student work study program.

2221 Instructional Materials Center

Activities associated with previewing publications.

2222 Library/Media Services/Print

Activities such as cataloging, circulating print and non-print materials, and networking with other entities to offer a wide array of these materials to students and staff.

2223 Library/Media Services/Audio-Visual, Nonprint, and Computers

The Eugene 4J library/media program provides resources and instruction to help students find, use and apply information which enables them to function successfully in the school program, to enjoy reading and fulfill future learning needs. Automated media centers help students by providing opportunities for them to seek information electronically and independently.

2230 Assessment and Testing

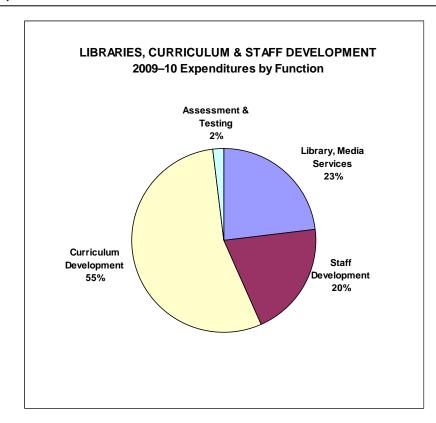

Activities to measure individual student achievement. Information obtained is generally used to monitor individual and group progress in reaching district and state learning goals and requirements.

2240 Instructional Staff Development

Activities specifically designed for instructional staff to assist them in preparing and using special/new curriculum materials, understanding and using best teaching practices, and any other activity designed to improve teacher performance.

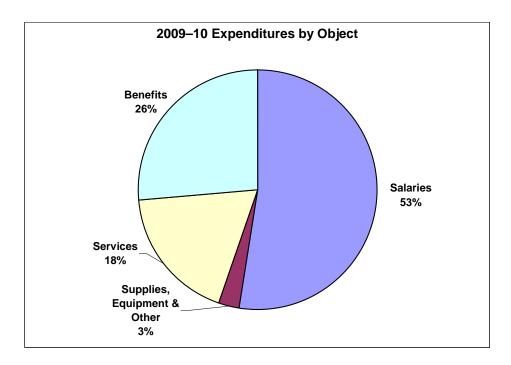

2665 Site-based Technology Services

Activities to support instructional staff in the integration of technology into curriculum.

¹ Includes one-time investment in targeted professional development and funding to support strategic planning initiatives.

PRINCIPALS' SERVICES

SERVICE DESCRIPTION

Principals' Services provides funding for school leadership, including principals, assistant principals, extended contracts, and other related services.

Key Board Goals for this service:

• Increase achievement for all students and close the achievement gap.

BUDGET GOALS FOR 2009–10

- Goal 1. Implement and supervise the District's required instructional program.
- Goal 2. Emphasize strategies and techniques that will facilitate the transition of students from elementary to middle school, from middle to high school and high school to post-secondary school or work.
- Goal 3. Evaluate staff using required evaluation procedures.

- Goal 4. Coordinate school instructional and athletic/activity programs including programs for at-risk students.
- Goal 5. Lead and direct school level budgeting, scheduling, staffing and restructuring.
- Goal 6. Lead efforts to eliminate the achievement gap and to enable all students to achieve higher standards.

FINANCIAL HIGHLIGHTS AND PROGRAM CHANGES

Reductions

 Two .5 FTE assistant principals at high school level and .5 FTE campus principal at North Eugene High School. (Function 2411)

Additions

None

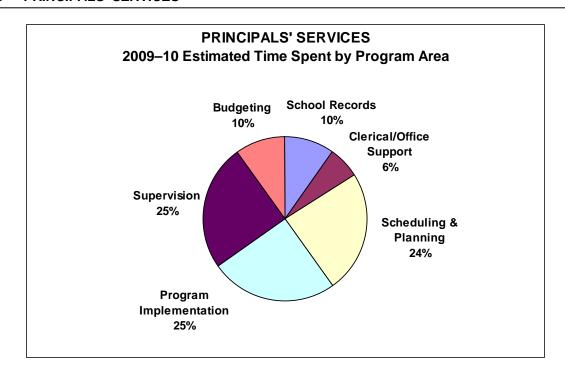

MAJOR FUNCTIONS

2411 Principals' Services

Expenses connected with activities performed by principals in the general supervision of all operations of the school, evaluation of the staff members of the school, assignment of duties to staff members, supervision and maintenance of school records, and coordination of school instructional activities with instructional activities of the District. Clerical staff for these activities are included.

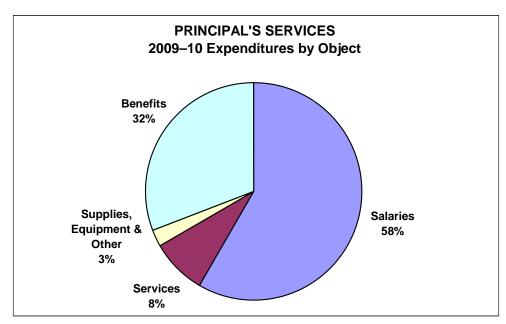

2490 Other Support Services—School Administration

Other school administration services which cannot be recorded under the preceding function. Included here are extended contract costs for school administrators.

COMMUNITY RECREATION SERVICES AND CHILD CARE

SERVICE DESCRIPTION

Activities involved in providing child care and in managing community use of district facilities.

Key Board Goals for this service:

• Engage the community, staff, families, students, elected officials and other stakeholders in supporting our schools and improving educational outcomes for all 4J students.

BUDGET GOALS FOR 2009-10

Goal 1. Building Rental & Scheduling.

Ensure safe and appropriate use of school buildings by youth activity groups and other community users that rent school facilities.

Goal 2. Child Care Services.

Provide Child Care Services as an adjunct to the instructional program. These services are available at the Opportunity Center, Churchill High School and North Eugene High School. The instructional program includes child care classes as a part of the curriculum. This program is supported by tuition fees from parents.

FINANCIAL HIGHLIGHTS AND PROGRAM CHANGES

Reductions

None

Additions and Reallocations

.6 classified FTE reallocated from regular high school program (Function 1131) to childcare (Function 3510) to more accurately reflect duties assigned.

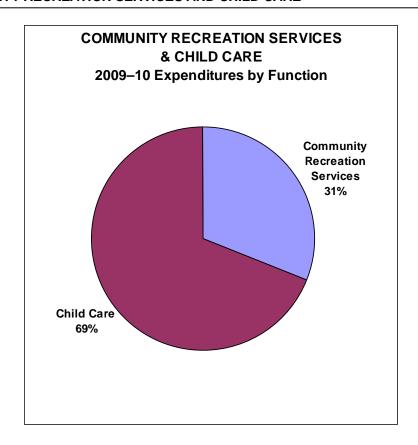

MAJOR FUNCTIONS

3300 Community Recreation Services

School District 4J provides facilities for the City of Eugene, Kidsports and other partners to provide students a variety of educational and recreational enrichment activities after school and on weekends. School facilities are also frequently rented for other community activities and for private uses.

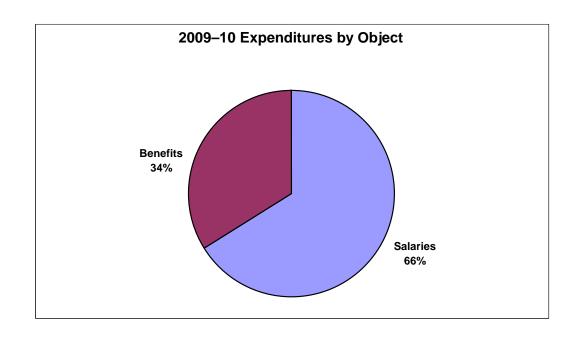

3510 Child Care Services

Activities concerned with the provision of programs for custodial child care, which are not a part of, or directly related to, the instructional program.

COMMUNITY RECREATION SERVICES & CHILD CARE

BUILDING SUPPORT SERVICES

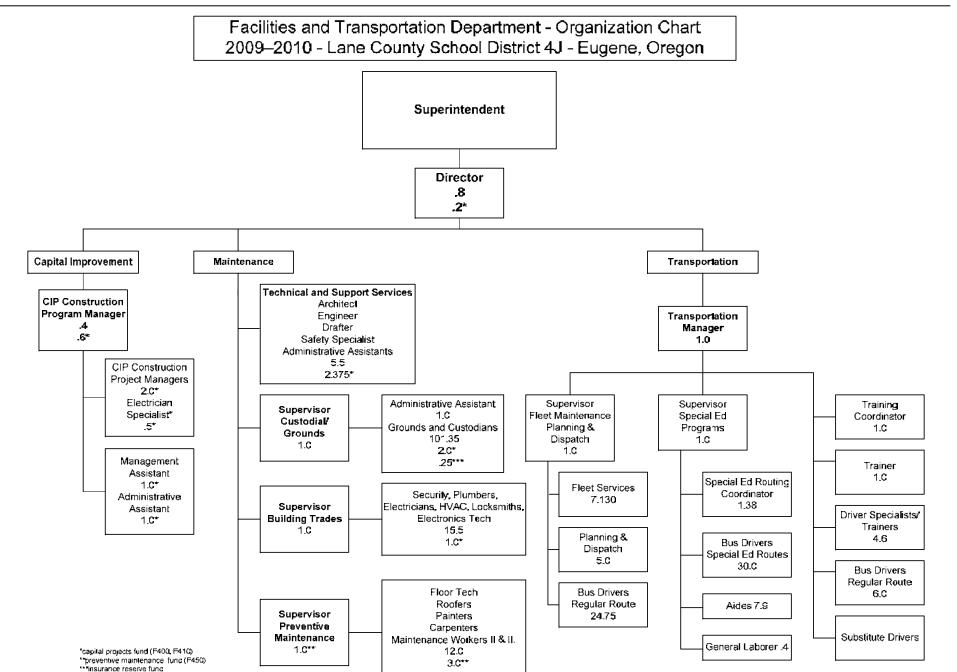

Building Support Services provide direct support to students and staff in the school buildings, including maintenance and operations of school buildings, student transportation, food services (included in a separate nutrition services fund), supplies and mail distribution, and effective communications through networked computer and telephone systems.

- The Facilities and Transportation Services Department provides safe, reliable transportation for district students, and works to create and maintain safe, comfortable and attractive facilities to enhance the learning and working environment for district students and employees.
- The Nutrition Services program provides affordable and nutritious meals to students under the guidelines of the federal Child Nutrition Program. The program is budgeted in the nutrition services fund and is not included in the general fund budget.
- Computing and Information Services manages the district's information resources, which span instructional and administrative uses of technology.
- Other Support Services include purchasing, warehousing, courier and mail service.

MAJOR FUNCTIONS

	2009-10 Budget
FACILITIES MANAGEMENT	\$14,128,623

COMPUTING & INFORMATION SERVICE	ES 3,464,191
OTHER SUPPORT SERVICES	448,063
TOTAL	\$23,774,700

FACILITIES AND TRANSPORTATION SERVICES

SERVICE DESCRIPTION

The purpose of the Facilities and Transportation Services Department is to provide safe, reliable transportation for district students, and to create and maintain safe, comfortable and attractive facilities to enhance the learning and working environment for district students and employees.

Key Board Goals for this service:

• Provide prudent stewardship of district resources to best support student success, educational equity and choice.

BUDGET GOALS FOR 2009-10

Goal 1. Continue to implement the longrange facilities plan adopted by the board in February 2002.

Continue making the capital improvements specified in the plan for the 2002–2009 time frame and complete additional projects funded from savings and interest revenue. To date, all capital projects have been completed on or ahead of schedule and within budget. Develop a work plan for spending out of bond proceeds through summer/fall 2009 and merge to bond planning activities for the next planned bond measure. Implement direction to proactively dispose of surplus property through sale, trade or long-term lease and manage remaining property designated as "in use" or "reserve." See Capital Improvement Program.

Goal 2. Continue to implement five-year preventive maintenance program.

The capital budget includes the fifth year of funding for a five-year preventive maintenance (PM) program. These programs are funded by proceeds from the sale of surplus property. The preventive maintenance program funds activities that maximize the longevity and reduce the long term maintenance costs for buildings. The focus is on regular and scheduled lubrication,

replacement of parts, and detection and repair of damaged parts, systems and materials. 4.0 FTE are budgeted for this program. The budget also includes \$80,000 for materials and supplies to support the PM function. Funding for scheduled interior painting that was part of the PM program has been eliminated due to budget constraints. See Capital Improvement Program for more detailed information.

Goal 3. Continue emergency response.

Responding to emergencies will be the top priority use of staff.

Goal 4. Implement Facilities related components of the Shaping 4J's Future Recommendation as approved by the Board in March 2008.

Certain recommendations approved by the Board require facilities remodel. Staff will continue to assist with these to ensure optimal instructional environments.

Goal 5. Implement alternative Work Order System options.

Replacement of the district's mainframe computer required the replacement of the previous work order system. Initial

implementation of the new web-based work order system took place in March 2008. Continued implementation will involve minor system modifications to meet district needs. Implementation of the preventive maintenance work order module will continue in 2009-10.

Goal 6. Implement the Landscape Rules and Guidelines and upgrade irrigation systems.

In an effort to improve the functionality, usability, and appearance of the district's landscaping, revised and updated landscape rules and guidelines were developed and adopted. The new rules and guidelines were implemented in 2008-2009 and will continue to progress this year. A master plan to upgrade irrigation systems was developed in 2008-2009. Webbased irrigation controllers are currently being installed at ten sites with plans for five additional sites in 2009-2010. These controllers will reduce water consumption by adjusting watering rates according to weather data. Conversion of manually operated systems to automatic systems primarily for landscaped areas in and around the front of schools in many cases will mean complete replacement and/or renovation.

Goal 7. Operate jointly with the City of Eugene eight multi-purpose synthetic turf athletic fields.

New fields at Spencer Butte Middle School and Jefferson Arts and Technology were completed in 2008-09, bringing the total number of synthetic fields to eight.

Goal 8. Continue to improve and add to the features of the Transportation Intranet and Internet Web Sites which provide pupil transportation information and information about our services.

This web site has improved schools' ability to respond to parent questions regarding current bus routes and stops. It also assists schools in accessing information regarding activity trips, approved van drivers, which street addresses are assigned to which schools and the assigned route and the closest bus stop for a qualifying address.

Goal 9. Use the Edulog routing system to assist in long term planning for student populations, capacity of buildings, and attendance boundaries.

This system can accurately produce and analyze student demographics. It reduces the need for services and reports previously purchased from LCOG. This data is used for long-term planning, including planning for boundary changes, and school closures and consolidations.

Goal 10. Implement a GPS system that is integrated with existing school bus routing software, pending board approval.

This will allow better management of resources and will improve emergency preparedness and security for students.

Goal 11. Implement Chalkboard Project business and operations review recommendations as appropriate.

Chalkboard Project (a community-based school advocacy group) received grant funding to review the business and operations functions at five school districts state-wide in collaboration with the Oregon Association of School Business Officials. Eugene was selected for the review which consisted of self-evaluation of all non-instructional central support services and on-site reviews by an independent review team to identify best practices and opportunities to provide more effective services

FINANCIAL HIGHLIGHTS AND PROGRAM CHANGES

Facilities

Over the last few years, the facilities repair function has become more responsive to clients through enhancement of the work order and scheduling program. The new web-based work order system implemented in 2008 has improved the ability to track status of work, manage staffing commensurate with district needs, and to provide improved cost data for maintenance activities. Integration of scheduled maintenance will insure that critical maintenance requirements, especially those legally required, are not overlooked.

Building and site security improvements (funded through the Capital Improvement Program) are becoming increasing sophisticated and effective for managing daily security. Upgrade to building security systems and addition of card access features are ongoing. During 2008-2009 the final conversion of old security systems was made to card access systems for activation/deactivation of building security. This reduces overall system

monitoring costs and also provides the ability to automatically "arm" the systems nightly.

Energy conservation and "tightening" of buildings, coupled with building age, has contributed to potential air quality concerns. The Facilities Management Department has a proactive program of investigating, analyzing and mitigating (where necessary) environmental hazards. If the facilities are well maintained, they will be more comfortable and safe, will provide a better environment for learning, and will be less costly to maintain overall.

Heating and air conditioning system control conversions at Churchill and Sheldon high schools are indicating 15 percent or greater energy savings in the first year following completion.

Transportation

4J Transportation continues to pursue new methods to reduce the emissions produced by the school bus fleet both for the safety of our students and employees, and for the community as a whole.

Over the past four years using funds from Environmental Protection Agency and Department of Environmental Quality grants our buses have been retrofitted with updated technology including Diesel Oxidation Catylist filters and Crankcase Ventilation systems (to be installed spring/summer 2009). The goal of these systems is to reduce emissions from the entire district school bus fleet by fifty percent or more.

District buses are currently using B5 bio-diesel and hopefully will move to B20 within the next few years.

Reductions

- 5.0 FTE reduction of classified maintenance staff and restructuring of the department to eliminate high school based maintenance coordinators so that maintenance and repair efforts for all schools will be managed centrally. The reduction of 5.0 FTE includes 1 Painter Specialist, 1 Grounds employee, 1 Electronics Technician Apprentice, and 2 Maintenance Worker II positions. (Functions 2542, 2543)
- \$272,000 in facilities materials and services. (Functions 2541-2546)
- \$91,000 in transportation materials and services. (Functions 2551-2555)
- \$100,000 in transportation costs due to change in athletic schedule. (Function 2555)

Additions and Reallocations

- \$301,000 for utility costs increases. (Function 2548)
- \$16,020 (1.56 classified FTE) increase for two additional special education bus routes (net of state reimbursement). (Function 2552)
- \$10,400 materials and services reallocated to 0.375 classified FTE and .25 supervisor FTE or (net of state reimbursement). (Functions 2551, 2552)
- 0.17 classified FTE reallocated to materials and services. (Function 2548)
- 0.4 classified FTE reallocated from materials and services. (Function 2551)

MAJOR FUNCTIONS

2541 Directing & Managing 4J FacilitiesActivities of directing and managing the operation and maintenance of school plant facilities.

2542 Building Maintenance

- Floor Covering
- Roofing
- Building Repairs
- Plumbing/Heating/Electrical
- Air Conditioning
- Filters
- Food Service Equipment Repair

2543 Grounds Maintenance

- General Grounds Service
- Asphalt Repair
- Playgrounds/Athletic Fields
- Irrigation
- Fencing
- Site Improvements

COMPUTING AND INFORMATION SERVICES

SERVICE DESCRIPTION

The mission of the Computing and Information Services (CIS) Department is to provide highly reliable and useable technology resources for district students and staff. The resources provided by the department include in-school and district-wide networks, phone systems, student information systems, library systems, email services, calendaring services, web services, repair services, file and print services, and desktop support.

Key Board Goal for this service:

Provide prudent stewardship of district resources to best support student success, educational equity and choice.

BUDGET GOALS FOR 2009-10

Goal 1. Support Information Systems.

Provide technology based information systems for district staff to enhance classroom instruction; facilitate communications; gather, manage and analyze district information; and provide data for local, state and federal needs.

The student information system is used to collect and manage student information for administrators, teachers and staff to inform instruction, facilitate data analysis, and provide both internal and external reporting. 4J shares resources and expenses with five other Oregon school districts using the same student system. The district also shares information and expenses with other Oregon districts in the development of new student system applications. Each year new features are implemented and existing procedures are streamlined. Last year CIS implemented a work sample tracking module and a parent assistant module.

The Data Warehouse system collects information from the student information system, HR system, state assessment system and local assessments. The information is then provided back to

teachers, administrators and parents. Due to budget reductions, the Data Analyst position has been eliminated and duties will be shifted to other members in the department.

The Information Systems (IS) group within CIS continues to be responsible for the servers running many other applications including some financial applications, email, calendaring, and directory services.

Goal 2. Support Networks.

Provide high capacity, highly reliable data networks and resources to district students and staff to improvement instruction and administrative functions. CIS continues to deploy a new metropolitan area network which currently connects all high and middle schools, seventeen elementary buildings and the Ed Center in a high-speed fiber network. Increased capacity for the remaining five sites is provided through additional leased services. Seven sites now have fixed wireless access points throughout their buildings. By 2009-10 all seven sites will be converted to the same wireless system to improve reliability. CIS continues to work on the security issues surrounding wireless networks.

Goal 3. Support Telecommunications Services.

Provide highly reliable, highly functional voice communications capabilities for district staff. The district has implemented Internet Protocol (IP) phones in the four new school buildings. Centralized voice mail services at the Ed Center serve all schools. By the start of school 2009-10 we will have completed a phone renumbering project with a new prefix (790) assigned to 4J.

Goal 4. Support School Instructional Material Needs

Library Services provides support to school libraries for both printed materials and on-line resources. Additionally 4J has maintained an Instructional Materials Center containing approximately 5000 distinct items that can be checked out by classroom teachers. These are materials that would not normally be kept in a library setting and include some 660 classroom sets of books. Due to budget reductions the Instructional Materials Center (IMC) will be closed and a decision concerning the disposition of the collection will be made during 2009-10. Staff will

continue research to determine the best ways to meet the informational needs of the school community.

Goal 5. Provide Enhanced Desktop Support.

CIS provides end user support for phone and computer systems. With the continued increase in numbers of computer systems and other technology, there is a growing need for consistent, centralized support. The District Technology Steering Committee has directed CIS to develop methodology to adequately configure student computers for the 09-10 school year. This project will be a cooperative effort between CIS and schools with the goal to have student computers ready and available by the time school begins in the fall.

Goal 6. Implement Chalkboard Project review recommendations.

Chalkboard Project (a community-based school advocacy group) received grant funding to review the business and operations functions at five school districts state-wide in collaboration with the Oregon Association of School Business Officials. This review was conducted in 4J during the fall of 2008. The review recommended the purchase of an asset tracking and management system that could track technology assets as well as software applications and licensing. Planning will take place for this project however funding will need to be secured before implementation can begin CIS will work closely with the Instruction Department in the development of an instructional technology plan.

FINANCIAL HIGHLIGHTS AND PROGRAM CHANGES

Reductions (Function 2660)

- 1.0 professional FTE data analyst
- \$91,000 materials and services reductions.

Additions and Reallocations (Function 2660)

- \$56,000 materials and services budget reallocated to fund 0.5 professional FTE that was previously funded by the capital projects fund.
- \$25,000 for increased router maintenance cost.

MAJOR FUNCTIONS

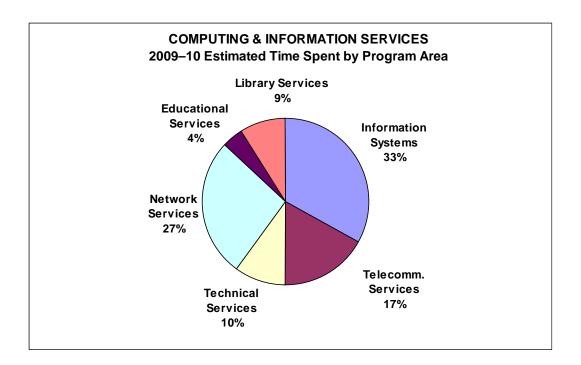

2660 Computing & Information Services

Activities concerned with all aspects of technology, which includes computing and data processing services such as networking and telecommunications costs.

OTHER SUPPORT SERVICES

SERVICE DESCRIPTION

Other Support Services include purchasing, central supply warehouse and materials/mail distribution. Purchasing staff facilitates the acquisition of professional services, supplies, and equipment for the District. The staff is also responsible for compliance with state purchasing statutes and competitive bidding requirements. Central Warehouse staff provides receiving, distribution, courier services, furniture and equipment relocation, and disposition of excess property for the school district. (See Financial Services organization chart on page 116.)

Key Board Goal for this service:

Provide prudent stewardship of district resources to best support student success, educational equity and choice.

BUDGET GOALS FOR 2009–10

Goal 1. Support Shaping 4J's Future Recommendations.

Strategic planning recommendations to improve instructional excellence, equity and choice were approved by the board in March 2008. The recommendations include moving certain school staff for the 2009-10 school year. Warehouse staff will assist in the planning and moving of teacher supplies and materials.

FINANCIAL HIGHLIGHTS AND PROGRAM CHANGES

Reductions

 0.29 classified FTE moved to the Nutrition Services Fund to more accurately reflect workload shift from general warehouse to food service warehouse given increased student participation in the school breakfast and lunch programs. (Function 2575)

Additions and Reallocations

 0.5 classified FTE moved to Financial Services (Function 2521) to more accurately reflect assigned duties. (Function 2575)

CENTRAL SUPPORT SERVICES

Central Support Services provide general direction and support for the district's various programs. More specifically:

- Executive Administration includes the School Board and the Office of the Superintendent. The School Board has the ultimate responsibility for the education of children residing within the school district (ORS 332.072), budgeting the resources allocated by the State Legislature and, to the extent allowed under the law, obtaining additional funds needed for the operation of schools. The superintendent provides leadership for the district's programs and is ultimately responsible for all areas of the district's operation (School Board Policy), provides executive leadership and administrative direction for all departments and services, and is responsible for proposing and implementing long-range plans.
- The Finance and Support Services Department is responsible for the district's fiscal operations of accounting, budget, and audit and provides analysis and support to schools, departments, district administration and the School Board in financial matters. The department also directs the activities of Nutrition Services (budgeted in a separate fund), and Other Support Services including purchasing, mail delivery, warehouse services, and business systems (included in the Building Support Services section).
- The Human Resources Department facilitates the recruitment, selection, development and retention of a skilled and diverse work force, and is responsible for the collective bargaining agreements. Costs of the district supplemental retirement program are budgeted here.
- The Communications and Intergovernmental Relations Department implements communication and community engagement activities that support district goals and maintain open communication within the district and with the public. The department also assists district leadership in maintaining positive intergovernmental relationships.

EXECUTIVE ADMINISTRATION

SERVICE DESCRIPTION

The School Board helps ensure that the fundamental purpose of the school district—to provide the best possible education for every student—is realized. It has responsibility for establishing and supporting the overall purpose of the school district, leading and participating in the identification of needs and possibilities for improvement, and working with the legislature, community, and staff to secure the resources required to achieve the district's purpose.

The Superintendent has responsibility for the day-to-day operation of the school district, which includes supporting and communicating district goals, helping to establish a positive environment for learning, leading and participating in the identification of needs, and possibilities for improvement, ensuring that policies, laws, and mandates are followed, and working with the School Board to determine the allocation of resources required to achieve the district's purpose.

SCHOOL BOARD GOALS

School Board Policy BA requires the School Board to establish an annual agenda that sets the direction for the School Board and the district for the next school year and beyond. The board adopted the following agenda on October 15, 2008.

Goal 1. Student Achievement. Increase achievement for all students and close the achievement gap.

The board is committed to providing equal opportunities for all students to succeed. Every school must focus on improving learning teaching and to increase achievement for all students. All students should have the support needed to reach their And, all students should full potential. graduate from high school prepared to succeed in postsecondary education and chosen careers, and to participate actively as citizens in a democratic society. schools may require additional resources to achieve district and state academic goals and close the achievement gap.

BUDGET GOALS FOR 2009-10

Goal 2. Stewardship of District Resources. Provide prudent stewardship of district resources to best support student success, educational equity and choice.

The board will direct district resources to support the instructional core and to provide educational equity and choice while maximizing administrative and operational efficiency. The district must also respond to declining enrollment, regional enrollment patterns, and a student population with more diverse needs.

Goal 3. Stakeholder Engagement. Engage the community, staff, families, students, elected officials and other stakeholders in supporting schools and improving educational outcomes for all 4J students.

In order for the board to provide effective leadership, it must communicate with and establish working relationships with the community, other governmental agencies, staff, families, and students, and engage these stakeholders in supporting our students and schools.

SUPERINTENDENT'S GOALS

On January 7, 2009, the School Board and Superintendent agreed upon the following two-year goals for the 2008-09 and 2009–10 school years. Specific outcomes are agreed to at the beginning of each school year.

Goal 1. Student Achievement. Increase achievement for all students and close the achievement gap.

- Establish content and performance standards in 2009-10 that outline the knowledge and essential skills that students need to master by the end of transition grades 5 and 8, in order to be on track to earn an Oregon diploma.
- Assess the resources needed to support elementary, middle and high school students who are not on track to graduate, and develop a proposal for Budget Committee consideration in spring 2010 for implementation in 2010-11.
- Increase the percentage of 4J students who meet the OAKS benchmarks in

- reading and math by 2.5 percentage points by spring 2010.
- Increase the percentage of African American and Hispanic students who meet OAKS benchmarks in reading and math by five percentage points to narrow the achievement gaps by spring 2010.
- Develop incremental targets to increase the graduation rate for Hispanic students (77.6% for 2006-07) using the new graduation formula and implement targeted intervention strategies starting in 2009-10.

Goal 2. Stewardship of District Resources. Provide prudent stewardship of district resources to best support student success, educational equity and choice.

- By February 2009, develop budget strategies to redirect and/or prioritize district resources to respond to potential school funding reductions or restrictions caused by the current economic downturn, while striving to ensure that district resources are optimally allocated to address the board goals related to student success and closing the achievement gap.
- By December 2009, present to the board the district's plan to implement accepted recommendations from the OSBA/ Chalkboard business audit.
- By November 2009, update the district's technology and facilities plans and set program priorities and identify funding strategies including a recommended timeline for the next bond measure.
- By November 2009, complete the district's workforce diversity plan.
- Increase the representation of minority teachers to 7% of licensed staff for the

- 2009-10 school year, and provide report to the board by December 2009.
- Implement enrollment and transfer limits for middle and high schools for the 2009-10 school year.
- Implement parent and community input process on boundary changes and develop implementation strategy by February 2009.
- By April 2009, recommend to the Budget Committee a differentiated staffing ratio for the 2009-10 school year, in alignment with the board's direction from Shaping 4J's Future.
- By February 2009, present recommendations to the board regarding possible Harris-Eastside consolidation, Coburg intergovernmental agreement, River Road-Howard cluster program and middle school alternative program review.
- Report on Adams program plan to the board.

Goal 3. Stakeholder Engagement.

Engage the community, staff, families, students, elected officials and other stakeholders in supporting our schools and improving educational outcomes for all 4J students.

- Provide to the board an analysis of election results and identify future implications for district funding measures.
- Facilitate opportunities for district leadership to interact with local legislators regarding district priorities and school funding prior to and during the 2009 legislative session.
- Expand communications and outreach with stakeholder groups whose voices are not typically represented through

community organizations and traditional public input processes.

FINANCIAL HIGHLIGHTS AND PROGRAM CHANGES

Reductions (Function 2321)

- Eliminate 1.0 FTE Chief Operating Officer position.
- Eliminate 1.0 FTE support staff position to the Chief Operating Officer.
- Eliminate 1.0 FTE Equity & Diversity Coordinator position which has been staffed for two years by a Principal on Special Assignment
- 0.29 licensed FTE
- \$63,901 materials and service reductions.

Additions and Reallocations

None

District Mission

- Do what's best for all 4J students.
 - Continue to learn and grow.
- Respect and care about each other.

Board of Directors Guiding Beliefs and Values

In order to meet the district's mission statement above, the board has adopted the following guiding beliefs and values:

Children

- We believe that all children can learn.
- We believe that our students' education and welfare are our most important commitments.
- We believe that a student's success in school should be independent of factors such as race, ethnicity, gender, socio-economic status, disability, native language, religion, and sexual orientation.
- We believe that public schools should foster development beyond academics such as character, creativity, resourcefulness, citizenship, an understanding of workplace expectations, respect for diverse cultures, and a lifelong love of learning.

Staff

- We value highly qualified and caring staff and believe they are the key to meeting our goals for students.
- We believe collaborating with staff in deciding what is best for our schools and our students, recognizing that not everyone may agree.
- We believe that it is essential for staff and Board members to hold high expectations of all students and that these expectations are critical to student success.
- We believe that high quality instruction is integral to student success and best achieved by providing professional development that includes staff teams working together to improve instruction.

Community

- We believe that the Board and staff make a difference in learning for our children by developing relationships and effectively engaging our families, community and local, state and federal governments on social, political and economic challenges and inequities.
- We value public support for our schools and believe that the Board plays a critical role in generating and sustaining our community's ongoing financial and other support.

Leadership

- We believe it is critical for the Board and staff to plan and direct resources consistent with our beliefs and values.
- We value continual learning for all—Board, staff and students—and believe that it is essential to student success in school.

MAJOR FUNCTIONS

2311 School Board

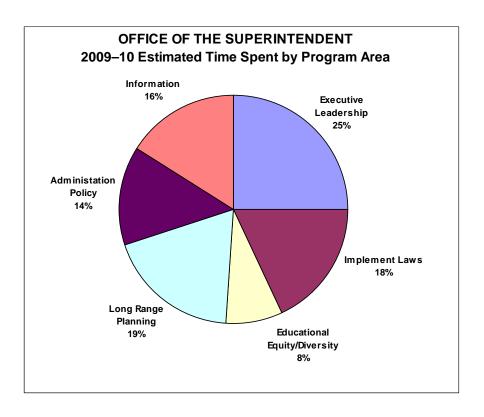

- Set goals for the district and establish the necessary policies, contracts, budget, and directives for accomplishing those goals.
- Monitor the extent to which the goals of the district are accomplished.
- Engage the community on school issues, advocate with legislators and collaborate with other governmental units, for K-12 education.
- Monitor the fiscal efficiency of the district.
- Evaluate the performance of the Superintendent.

2321 Office Of The Superintendent

- Provide executive leadership and administrative direction for all functions of the school district.
- Propose and implement longrange plans that will continue to improve the effectiveness of school district programs.
- Administer the policies, contracts, budgets and directives of the School Board.

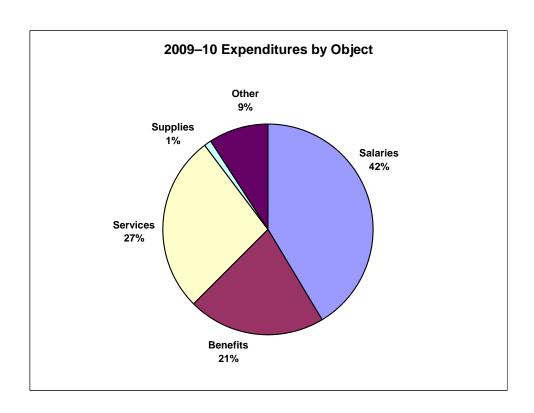

- Promote and maintain educational equity/diversity, including liaison with communities of color.
- Carry out the laws and administrative rules of the State of Oregon and the federal government as they relate to public schools.

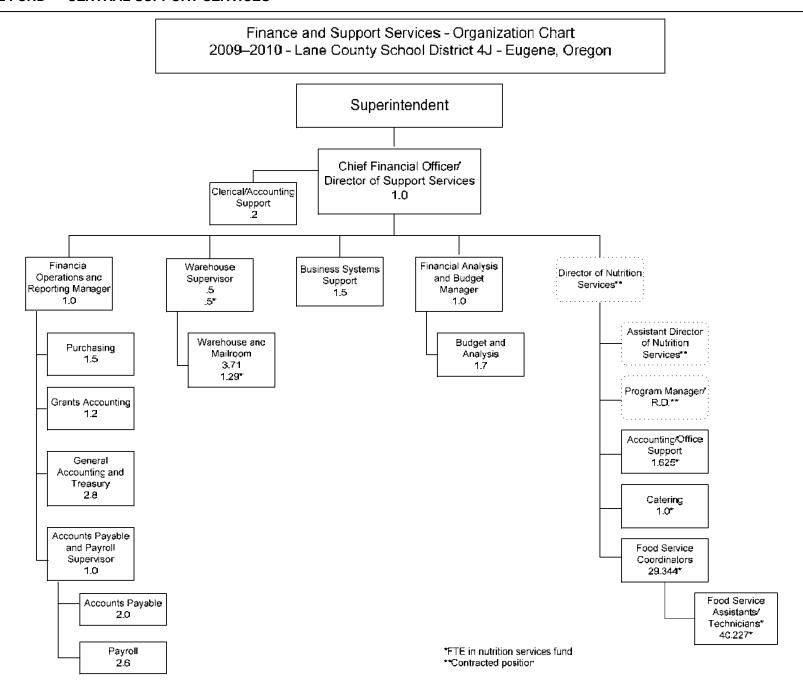

- Develop and disseminate information useful to the board and administration in decision-making.
- Coordinate authorization, monitoring, and evaluation of district charter schools.

FINANCIAL SERVICES

SERVICE DESCRIPTION

The mission of the Finance and Support Services Department is to work together in a respectful and ethical manner to provide high quality financial, food, mail and warehouse services to district students, staff and community. All department work supports the district's mission to do what is best for students. Specific financial services include accounting and financial reporting, treasury and cash management, budgeting, financial analysis, payroll, accounts payable, business systems support and purchasing. The nutrition services operation is budgeted in the Nutrition Services Fund. Business systems support, warehouse and materials/mail distribution services are budgeted under Building Support Services.

Key Board Goals for this service:

- Provide prudent stewardship of district resources to best support student success, educational equity and choice.
- Stakeholder Engagement: Engage the community, staff, families, students, elected officials and other stakeholders in supporting our schools and improving educational outcomes for all 4J students.

BUDGET GOALS FOR 2009-10

Goal 1. Upgrade business systems and implement budget system.

On September 1, 2004 the Board authorized staff to enter into an intergovernmental agreement with Clackamas Education Service District (ESD) to host district business systems and to purchase appropriate licenses and maintenance agreements on behalf of the District. The payroll/human resources systems were converted in July 2006, finance and procurement systems in February 2008 and fixed assets in May 2009. The system will be upgraded by December 2009, and a staff team will begin working to implement the budget system in 2009-10.

Goal 2. Implement payroll, financial, purchasing, warehouse, and inventory control system enhancements.

To improve operations and customer service, staff will continue to develop reports and refine system processes.

Goal 3. Provide ongoing financial forecasting and analytical support for projects to address board goals and district priorities.

Staff will continue to provide ongoing analysis to help the Board and superintendent meet district goals and respond strategically during the tenuous financial climate.

Goal 4. Provide information, guidance, and support to administrators to assist them in effectively staffing and managing their buildings or departments.

In partnership with Human Resources, review and revise staffing and employee payment processes to ensure administrators receive accurate information on staffing consistent with budget and payroll records; simplify the process, and enhance position control.

Goal 5. Implement recommendations from the Chalkboard Audit.

Implement, as accepted by the Board, the recommendations of the OSBA/Chalkboard business audit to improve operational efficiencies.

FINANCIAL HIGHLIGHTS AND PROGRAM CHANGES

Reductions

• \$10,000- Direct deposit notices will be made available on-line to employees saving the cost of forms and postage.

Additions and Reallocations

 .5 classified FTE moved from Other Support Services (Function 2575) to more accurately reflect assigned duties.

HUMAN RESOURCES

SERVICE DESCRIPTION

The mission of the Human Resources Department is to provide knowledge-based support in the delivery of programs and processes needed to hire, develop and retain employees who model organizational values and contribute productively to the District's goals. Human Resources programs ensure accountability for the District's property and finances; protect the District from avoidable loss; and are legal, ethical, productive and positive.

Key Board Goal for this service:

- Provide prudent stewardship of District resources to best support student success, educational equity and choice.
 - By November 2009, complete the District's workforce diversity plan.
 - o Increase the representation of minority teachers to 7% of licensed staff for the 2009-10 school year.

BUDGET GOALS FOR 2009-10

Goal 1. Recruit a highly qualified, culturally competent, and diverse workforce.

Develop and implement a new District-wide Recruitment Program. Revise and implement a new Equity Plan. Develop and implement a teacher retention program. Develop a centralized system-wide internal and external recruitment process. Develop training for hiring supervisors and others involved in recruitment and selection. Implement short-term and long-range outreach recruitment strategies to increase the diversity of staff.

Goal 2. Provide leadership, information, guidance and training to administrators and supervisors.

Develop and implement a Leadership Academy training program for administrators and supervisors. Develop and implement training tools to identify performance management issues. Develop and formulate cross-functional initiatives. Develop and

implement training on employee coaching, mentoring and accountability.

Goal 3. Review Human Resources practices and develop the HR staff.

Develop and coordinate the implementation of HR services, programs, and processes through Human Resources staff. Provide training to HR staff to develop core competencies. Build administrative functions, processes, and foundational skills to integrate these functions throughout the District.

Goal 4. Implement recommendations from the Chalkboard Audit.

Implement, as accepted by the Board, the recommendations of the OSBA/Chalkboard business audit to improve operational efficiencies.

Goal 5. Provide all employees with opportunities for development and growth which enhance their skills and support the mission and values of the District.

Develop and implement a new employee orientation program. Review and revise the performance management system used for licensed and classified staff.

Reductions

- \$50,000 materials and services
- \$800,000 general fund support for supplemental retirement program.

Additions and Reallocations

 1.0 FTE labor relations professional reclassified to administrator position.

MAJOR FUNCTIONS

2215 Reimbursable Leave

Licensed president leave — reimbursed by EEA as provided in the licensed agreement.

Human Resources

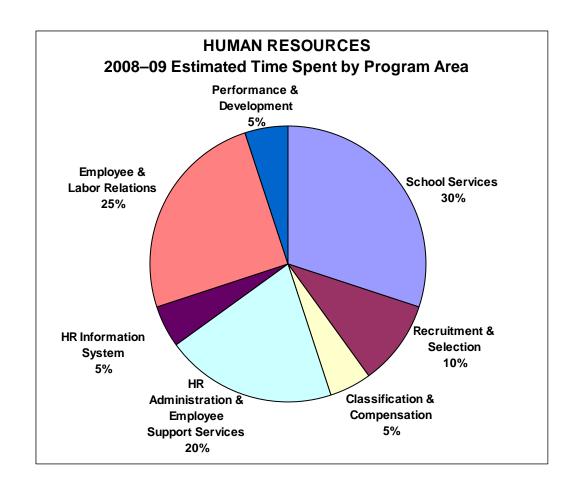

- School Services
 - Provide leadership on No Child Left Behind and Highly Qualified Status.
 - Develop and maintain staffing plans and implementation of staffing process.
 - Provide advice and direction to teachers and administrators on licensure and endorsements.
 - Provide consultation and advice regarding performance management for teachers.
 - Oversee the hiring and dispatch of substitutes.
- Recruitment and Selection Services
 - o Design recruitment plans.
 - Prepare, post, and distribute job announcements and develop plans for outreach.
 - Receive and process all applications for District positions.
 - Provide information and advice to internal and external applicants.
 - Provide guidance and support to hiring supervisors regarding selection processes.

- Oversee the development and implementation of the District's workforce diversity and equity plans.
- Develop and implement an employee retention plan.
- Classification and Compensation
 - Maintain descriptions for all District classifications.
 - Conduct market studies.
 - Provide staff support to the Pay Grade Evaluation committees.
 - Provide consultation to directors, administrators, and supervisors regarding appropriate salaries.
- Employee and Labor Relations Services
 - Bargain with the District's unions and association.
 - Oversee administration of all bargaining agreements.
 - Provide leadership and staff support to joint labor management relations committees.
 - Provide leadership and staff support to the Joint Benefits Committee.
 - Provide advice to administrators and supervisors regarding grievance processing.
 - o Provide consultation and advice on employment laws.
 - Provide guidance and advice to employees, administrators

- and supervisors regarding workplace rules, regulations, and concerns.
- Ensure District administrative rules, policies, procedures and practices are in compliance with applicable employment laws.
- HR Operations Services
 - Process all personnel actions and records retention.
 - Establish and maintain all processes related to employees' terms and conditions of employment.
 - Process and maintain staffing records for all employee groups.

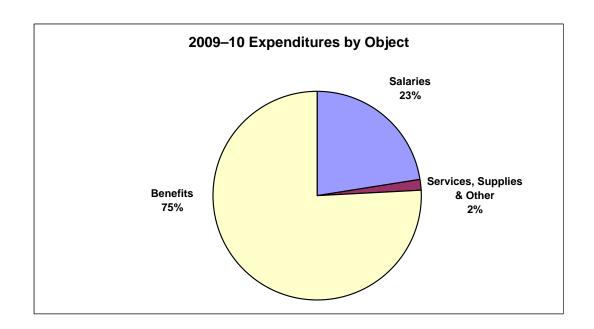

• Supplemental Retirement Program

Costs associated with a supplemental retirement program provided to eligible employees by the District.

*FTE in grants fund

COMMUNICATIONS AND INTERGOVERNMENTAL RELATIONS

SERVICE DESCRIPTION

The Communications and Intergovernmental Relations staff:

- Supports policy development, strategic planning and other executive leadership functions, including support to the board of directors;
- develops and implements a comprehensive communication program that includes external communications between the district and parents and the community, news media relations, publications, web site information, internal communications and technical assistance to schools and departments;
- Supports efforts to maintain positive intergovernmental relationships with legislators and local government officials and works cooperatively with other agencies that provide community services for students;
- Schedules use of school facilities by community groups and works with user groups to ensure appropriate use of district facilities and
- Oversees radio station KRVM budgeted in the Federal, State and Local Programs Fund. (See Executive Administration organization chart on page 110.)

Key Board Goals for this service:

- Provide prudent stewardship of district resources to best support student success, educational equity and choice.
- Engage the community, staff, families, students, elected officials and other stakeholders in supporting our schools and improving educational outcomes for all 4J students.

BUDGET GOALS FOR 2009–10

Goal 1. Communications

Broaden community awareness of district goals, programs and student achievement goals, strategies and outcomes.

Goal 2. Intergovernmental Relations

Ensure that the district proactively communicates with local and state officials and works cooperatively to improve educational quality and funding to address issues of student health, safety and welfare.

Goal 3. School Assistance

Assist principals and school staff in managing urgent situations and issues, by providing communications support and expertise.

OTHER GENERAL FUND ACCOUNTS

TRANSFERS

These are transactions that withdraw money from one fund and place it in another fund to facilitate accounting for specific projects and to accumulate reserves.

TRANSFERS FOR 2009-10

To the Fleet and Equipment Fund—\$499,576 to schools for textbooks and equipment.

Additional transfers of \$1,179,440 for equipment, books and bus fleet are eliminated in 2009-10 as part of the general fund budget reduction strategies.

To the Nutrition Services Fund—\$250,000

This transfer covers a portion of operating costs in the food service program.

To the Insurance Reserve Fund—\$568,000

- \$193,000—estimated district paid social security savings from employee use of IRS Section 125 accounts (tax sheltered insurance accounts). By agreement with employee groups, these savings are to be transferred to the employee group reserves in the Insurance Reserve Fund.
- \$375,000—for operation of the district's risk management and employee benefits program.

To the Capital Projects Fund

Annual transfer of \$520,000 eliminated in 2009-10 in conjunction with budget reduction strategies.

DEBT RETIREMENT

This account is used to budget the cost of short term borrowing necessary to fund district operations during periods when cash reserves are depleted. The district's goal is to minimize the cost of short-term borrowing.

Debt Retirement Budget for 2009–10

No short-term borrowing is anticipated in 2009–10. If cash flow projections change and borrowing is required then staff would request approval of short-term borrowing as soon as this determination is made. The \$1,000 budgeted for interest expenditures preserves the district's budgetary authority to borrow if it should experience unforeseen cash flow difficulties.

CONTINGENCY

These funds are budgeted to allow for unforeseen expenditures or reductions in planned revenues. Expenditures from this account are approved by the School Board, and the funds are transferred and charged to the correct appropriation.

Contingency Budget for 2009–10

Board policy sets the funding target for the contingency account at 2% of operating expenditures. Transfers of other funds are not included in this calculation.

As part of budget reduction strategies for 2009-10, the contingency was reduced to 1.5% of operating revenues. The budgeted amount totals \$2,138,000.

In addition, a \$500,000 special education contingency was eliminated.

UNAPPROPRIATED ENDING FUND BALANCE

The Unappropriated Ending Fund Balance (UEFB) is an amount set aside in the budget to be used as a cash carry-over to the next year's budget and to provide the school district with needed cash flow until other resources are received. This amount cannot be transferred by resolution or used through a supplemental budget during the fiscal year in which it is budgeted.

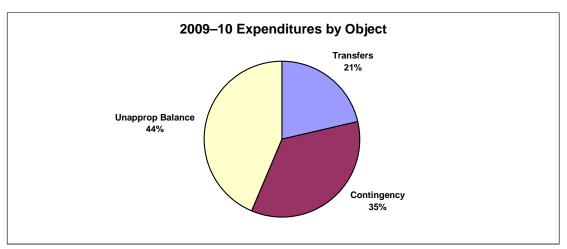

Unappropriated Ending Fund Balance (UEFB) for 2009–10

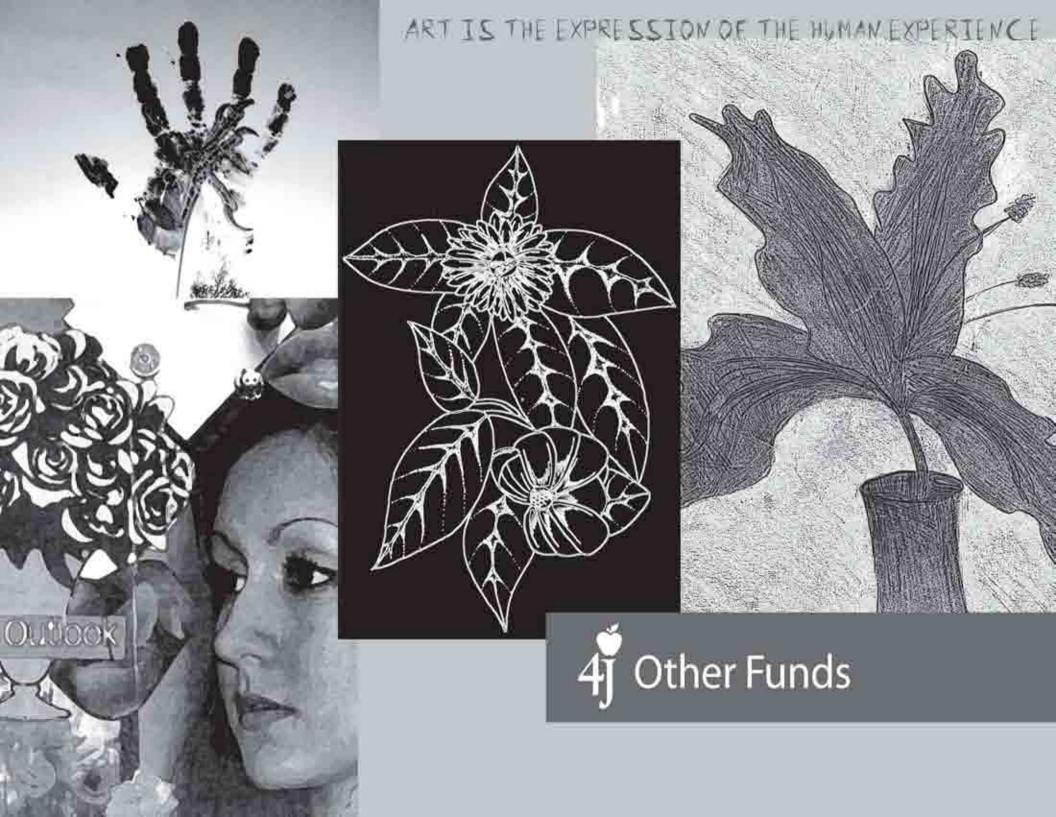

Board policy sets a minimum target for the projected ending fund balance at 5% of operating revenues. It also permits the use of a portion of the projected ending fund balance to stabilize services if revenues are less than anticipated. The use of reserves below 5% requires a plan for rebuilding reserves to the targeted level within five years.

In response to decreased state revenues, as a budget reduction strategy for 2009-10, the UEFB for 2009–10 is budgeted at \$2,672,918 or 2.0% of operating revenues. The District projects that the budgeted UEFB plus underspending will result in an ending fund balance of \$5,450,000 or 4.1% of operating revenues. The current financial forecast anticipates restoring reserves to 5% in 2010-11.

Detail for the Capital Projects Fund can be found in the Capital Improvement Program section.

Reflects expiration of four-year City of Eugene local option levy.

Includes a \$3 million transfer from the PERS Reserve to the general fund.

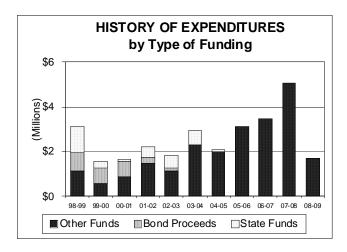

Includes targeted American Recovery and Reinvestment Act funds.

FLEET AND EQUIPMENT FUND

INTRODUCTION

The Fleet and Equipment Fund was established in 1990–91 to support efforts to replace fleet, vehicles and equipment on a scheduled basis. Over the years, purchases have been funded by a variety of sources: bond funds in the early 1990's (no longer legal to use for equipment), state lottery and classroom needs funds in the late 1990's, transfers from the general fund, and partial state reimbursement of school bus purchases.

The following graph shows, by funding source, a history of expenditures through 2007–08 in the Fleet and Equipment Fund, with projected spending for 2008–09. "Other Funds" in this graph include transfers from the general fund.

CAPITAL ASSETS

The district owns \$40.8 million in fleet and equipment valued at \$5,000 or more, as shown below. Fleet includes buses, vans, cars and trucks used to transport students as well as to support other district functions. Grounds equipment includes tractors and mowers used to maintain district real property. Other equipment includes computers and related technology, musical instruments and athletic equipment. Each has an estimated useful life at the end of which the equipment should be replaced to maintain functionality or stay abreast of technological advances.

Capital Assets				
Bus Fleet	\$8,579,000			
Other District Fleet	3,323,000			
Grounds Equipment	3,236,000			
Other Equipment	<u>25,642,000</u>			
Total Value	\$40,780,000			

BUS FLEET

The district uses both state and general fund money to purchase new school buses. The state reimburses replacement costs for buses and vans used to transport students at a rate of 70% of the allowable fleet depreciation. Vehicles are depreciated over a ten-year period. State reimbursements in 2009–10 for bus depreciation are budgeted at \$485,000. Any additional purchases in 2008–09 will increase this amount. In the past, the district budgeted a general fund transfer of approximately \$150,000 to supplement these funds. This transfer has been eliminated for

2009-10 as part of district-wide budget reduction strategies.

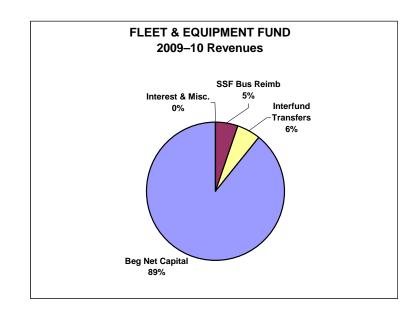

The district owns 93 regular and special education school buses that have an estimated useful life of 10 to 12 years. Six special needs buses will be purchased in 2009-10 which will replace existing buses in the fleet.

TEXTBOOKS AND EQUIPMENT

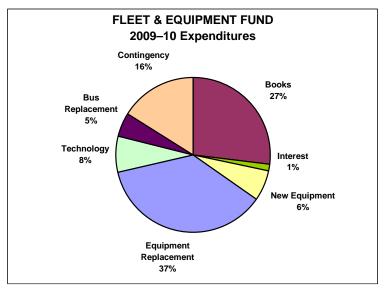

Starting in 2003–04, ongoing equipment costs have been funded by transfers from the general fund. The district estimates that \$2 million per year is needed to fund the purchase of textbooks and equipment. For 2009–10, a transfer of \$499,576 from the general fund is budgeted, representing per pupil allocations to schools. The \$1.2 million general transfer for textbooks and high priority equipment needs has been eliminated for 2009-10 in conjunction with district-wide budget reductions. Existing reserves will be used for any needed textbook and equipment purchases.

In addition, since 1991–92, schools and departments have transferred savings from the general fund at year-end to build reserves for future equipment needs. Reserves fund the purchase of equipment and instructional materials such as textbooks and library books. The ability to reserve building-based funds for future use supports longer range planning.

FEDERAL, STATE AND LOCAL PROGRAMS FUND

DESCRIPTION

These are designated-purpose funds for programs of a special nature. Their uses and limitations are specified by the grantor entity. Generally the resources of this fund cannot be diverted to other uses.

Programs accounted for in these funds are approved by the Board of Directors. Budgeted amounts are based on anticipated funding; however, actual expenditures are dependent upon receipt of grants from the various sources. The 2009-10 budget includes estimated carryover from the prior year and assumes all funds will be expended in the current year. The major anticipated grants include funding for the following programs.

AMERICAN RECOVERY AND REINVESTMENT ACT FUNDS(ARRA)

As part of the federal stimulus program, ARRA, the United States Department of Education (USDE) is providing additional funding for disadvantaged and disabled students. Additional funds will be provided under the Title I-A and Individuals with Disabilities Education Act (IDEA) programs. Restrictions for the use of funds mirror the initial allocation from USDE.

NO CHILD LEFT BEHIND (NCLB)

The No Child Left Behind Act of 2001 was passed to ensure that all children have a fair, equal, and significant opportunity to obtain a high-quality education and reach, at a minimum, proficiency on challenging state academic achievement standards and state academic assessments.

Administered by the State Department of Education, the funds are distributed to the local schools to be used for purposes stated in the law. NCLB includes the following grants:

- Title I Disadvantaged: Funds are to be used for instruction which focuses on improving the academic achievement of disadvantaged students. Fourteen district elementary schools, two private schools, and one charter K–8 school will receive Title I funding.
- Title IIA Preparing, Training, and Recruiting High Quality Teachers and Principals.
- Title IID Enhancing Education Through Technology.
- Title III Language Instruction for Limited English Proficient and Immigrant Students.
- Title IV Safe and Drug-Free Schools and Communities.
- Title V Innovative Programs: Support school improvement, educational reform, staff development, and choice options for students.

STUDENTS WITH DISABILITIES

Grants from state and federal sources are received by the district to support students eligible for special education. Grants received by School District 4J include the following:

- The IDEA Grant provides funding for education of disabled students.
- Regional Programs provide funding for students with severe orthopedic impairment; students with vision impairment; students

with hearing impairment; and students who are deaf and blind.

TWENTY-FIRST CENTURY COMMUNITY LEARNING CENTERS

This federally funded program is administered by the U.S. Department of Education with the objective of creating community learning centers that complement regular academic programs. The program is intended to enrich academic opportunities for students to enable them to meet state and local standards in core academic subjects. The program also offers literacy and other educational services to the families of participating students.

EUGENE EDUCATION FUND (EEF)

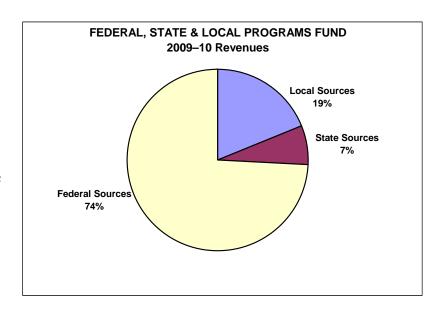

The district receives quarterly distributions from the EEF. The fund was established by parents and teachers in 1993 as a non-profit organization to support the students of Eugene School District 4J. Donations may be earmarked for particular schools, district programs or a program at a specified school. Five percent of any gift to a specific school is retained by EEF for Equity Grants, which are available to all schools through a grant proposal process.

STUDENT BODY FUND

This fund is used to record the financial transactions for school-sponsored activities at district elementary, middle, and high schools, including the cash receipts, the cash disbursements, and the transfer of funds from one student body account to another. The major source of income is from fundraising by parent groups and student organizations. These funds are used for various student activities and special school projects.

DEBT SERVICE FUND

The Debt Service Fund is used to account for principal and interest payments on long-term, general obligation and limited tax pension obligation debt. Expenditures budgeted in 2009-10 represent the portion of principal and interest that must be paid during that fiscal budaeted Amounts in the vear. unappropriated ending fund balance will be levied in 2009-10 to cover payments due on July 1, 2010, which are recorded as expenditures in the 2010-11 fiscal year. Sources of revenue include the debt service levy on local property taxes, interest earnings on investments and charges to other funds.

As of June 30, 2009, outstanding bonded indebtedness totals \$131.3 million in general obligation bonds and \$52.9 million in pension bonds. General obligation (G.O.) bonds represent 6.7% of the district's legal debt limit of \$1,956.7 million. Remaining legal debt capacity is \$1,825.5 million. Debt levels are also governed by board policy, which requires the periodic review of debt capacity to ensure that debts levels are prudent and affordable to district taxpayers.

Debt service payments in 2009–10 reflect the following debt issues:

In November 1998, the district passed a general obligation bond levy for \$12.2 million to finance critical capital needs, security improvements to schools, and the construction of new high school athletic fields. Bonds totaling \$8.7 million were issued in June 1999, with an additional \$3.5 million issued in January 2000.

- In February 2002, the district did an advance refunding to take advantage of lower interest rates in the bond market. Bonds in the amount of \$21 million were issued, the proceeds of which were used to advance refund the callable portion of the 1993A bonds. These were the only bonds that met the state Department of Treasury's requirement that the net present value of the savings from a refunding be at least 3%. Actual savings to the taxpayers over the remaining 11 years of the refunded bonds is \$1 million, or a net present value savings of 3.9%. The remaining \$3.8 million of 1993A bonds are not callable.
- In May 2002, district voters approved a bond measure for \$116 million. In November 2002, \$70 million in general obligation bonds were issued. The remaining \$46 million were issued in August 2005. (See the Capital Improvement Program budget beginning on page 155 for additional details.)
- In February 2003, the district did a second advance refunding to take advantage of lower interest rates in the bond market. Bonds in the amount of \$17.6 million were issued, the proceeds of which were used to advance refund the callable portion of the 1994 and 2000 general obligation bonds. Savings to the taxpayers over the life of the refunded bonds a over \$668,000 or a net present value savings of 4.0%. The remaining \$3.1 million of 1994 and \$990,000 of 2000 bonds are not callable.

- In February 2004, the district sold \$53.4 million in pension bonds to finance one-half of the district's unfunded actuarial liability in the Public Employees Retirement System (PERS). Estimated net present value of the savings to the district over the life of the bonds is projected to be \$13.9 million, assuming the bond proceeds deposited in the district's PERS account earn an average of 8% per year.
- In September 2008, the district issued \$47.3 million in advance refunding bonds to refinance portions of the district's 1999 and 2002 general obligation bonds. The purpose of the refunding was to reduce debt service costs to taxpayers by refunding debt at lower interest rates. The district gross savings to taxpayers over the life the bonds of \$5.9 million, which represents a net present value savings of \$1.8 million, or 3.5%.

Property taxes levied for debt service payments on voter-approved general obligation bonds are not subject to the property tax rate limits of Measure 5 or Measure 50.

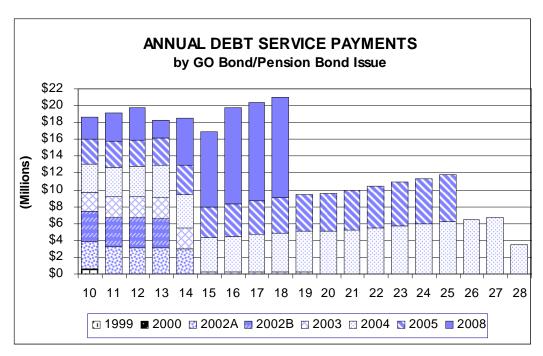

The following tables show the bonded indebtedness of District 4J as of June 30, 2009, and annual payments to be made in 2009–10.

Date of Issue	Purpose of Issue	Amount of Issue	Effective Interest Rate	Amount Outstanding June 30, 2009	Principal Payments 2009–10	Interest Payments 2009–10	Total Payments 2009–10

NUTRITION SERVICES FUND

SERVICE DESCRIPTION

The purpose of the Nutrition Services Program is to provide nutritious and affordable meals and to promote nutrition education. Meals must be in compliance with the Child Nutrition Program, administered by the United States Department of Agriculture. The financial goal of the program is a breakeven or better level of operation. Income is received from Federal and State Government reimbursements as well as student participation. The educational goal of the program is to provide students, staff and parents with information to facilitate good nutritional habits that will last a lifetime.

BUDGET GOALS FOR 2009–2010

Goal 1. Continue to increase participation.

Increase participation by introducing menus that offer a wide variety of nutritious and appealing choices. Conduct extensive training for coordinators, with a focus on food quality, nutrition, safety, presentation, and consistent following of recipes. Implement a variety of marketing strategies to promote the breakfast and lunch program.

Goal 2. Make progress toward a financially self-sufficient program.

Employ a variety of strategies to meet the board policy for a self-sustaining food services operation. Strategies include more proactive control of inventory, more analysis of revenue and expense data, a focus on marketing strategies, and managing food and labor costs.

Goal 3. Participate in community efforts to improve nutrition.

Actively participate in community efforts to address the increasing problem of obesity among youth. Communicate the district's current efforts to improve nutrition and increase students' awareness of a healthful lifestyle. Continue nutritional education programs and marketing. Look at ways to introduce local food products. Continue making operational changes necessary to comply with the adopted Wellness policy and rules.

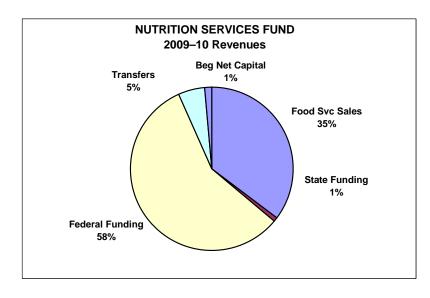

Goal 4. Explore using more sustainable products and offering more local produce.

In collaboration with Willamette Farm and Food Coalition, Nutrition Services will look to purchase more produce that is grown locally. In order to ensure sufficient supply, locally has been defined as grown in Oregon, but whenever possible, produce grown in Lane County will be purchased. Nutrition Services will continue to look at ways to be more sustainable and reduce the overall carbon footprint.

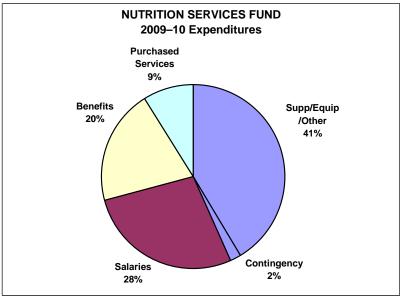

Goal 5. Comply with House Bill 2650.

Implement second portion of new House Bill rules which places caloric, fat content and serving size limits on on-site prepared snacks and entrees and make operational changes necessary to comply with the bill.

INSURANCE RESERVE FUND

SERVICE DESCRIPTION

The district's Insurance Reserve Fund is an internal service fund established to fund and record the district's risk management activities and services. These activities and services fall into three major areas: 1) insurance premium payments; 2) insurance reserve requirements, and 3) risk management program costs.

The premium costs and reserve requirements include all of the district's employee fringe benefit programs: medical, dental, vision, long-term disability, and life insurance. The unemployment and workers' compensation programs include claims and case management, and return to work programs. The amount of the district contribution for employee benefits is budgeted with salary expenditures and is paid from the general fund and other funds containing salaries to the insurance reserve fund. Program administration is covered by a transfer from the general fund and by fund reserves.

The 4J Risk Management program has responsibility for the systematic identification of exposure to potential loss within the district and the selection of appropriate methods for managing those exposures. The operation of a school district involves the ongoing risk of loss through normal business activity from the acts or omissions of employees, as well as the use and condition of the district's facilities, vehicles, and equipment. These risks are also associated with acts of nature, the economy, and society. Risk Management performs all duties of claims investigations, and maintains a direct role in any litigation against the district. The costs of the risk management program are comprised of staffing and operating expenses.

The Risk Management Department responds to inquiries and counsels employees regarding fringe benefits, manages relationships with insurers and medical providers, and oversees District employee benefits enrollment and orientations. The department coordinates the district's Joint Benefit Committees which are charged with ensuring that benefits provided employees are reasonable and cost effective.

BUDGET GOALS FOR 2009–10

Goal 1: Support loss prevention activities on high frequency employee injury categories.

Continue to provide financial and consulting support for loss prevention activities that target employee groups or injury categories showing a high frequency of potentially costly claims.

Goal 2: Support enrollment into the Oregon Educator's Benefit Board.

Continue the implementation of the district's enrollment in the legislatively approved Oregon Educator's Benefits Board (OEBB). This requires additional study and implementation of new plans OEBB approves and offers. Plans that the district chooses to offer will require monitoring of the enrollment process, careful study of plan

options, ongoing education of employees, and testing and modifying of the employee benefits module.

Goal 3: Support the development and implementation of effective district-wide emergency procedures at all 4J schools.

Risk Management services will continue to focus on assisting 4J schools in their efforts to develop and implement appropriate strategies for dealing with emergency situations that might arise in schools. These efforts will include emergency training for administrators, licensed, and classified employees, and an update to the Emergency Procedures Manual for distribution to District employees.

Goal 4: Support continued use of the Preferred Worker and Employer-at-Injury Program.

The Oregon Workers' Compensation Division has a fund specifically targeted to assist Oregon employers in the re-employment of injured workers. These funds are disbursed through two programs: Employer-at-Injury (EAIP) and Preferred Worker. The district has received over \$1.0 million from the Preferred Worker Program since 1990. The district has also received an additional \$500,000 from the EAIP since the program began in 1993. Risk Management will continue to aggressively pursue the use of these funding sources for the

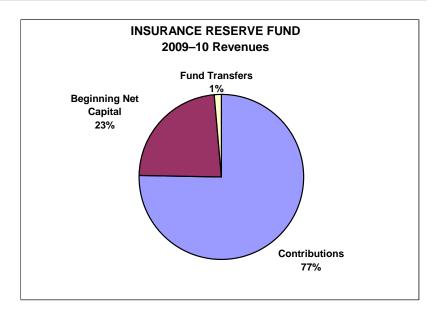

OTHER FUNDS - INSURANCE RESERVE FUND

re-employment of injured workers, and to further invest in district loss prevention efforts.

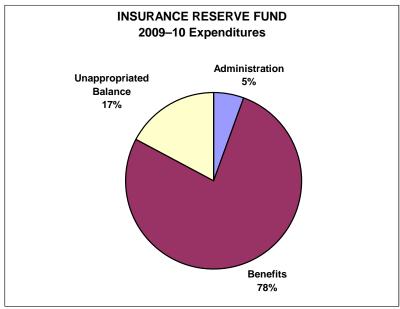

Goal 5: Stabilize fund.

If current revenue and expenditure trends continue, the fund's general reserve (excluding employee group reserves and the Wellness Clinic) will be depleted in a few years. During 2009–10, Risk Management and Financial Services staff will develop a proposal to stabilize the fund, which will be implemented by 2011–12.

DISTRICT RETIREMENT FUND

DESCRIPTION

The District Retirement Fund was established in 1991–92 to account for the district's obligation related to supplemental retirement benefits. Starting in 2003–04, the fund also accounts for a Public Employees Retirement System (PERS) Reserve. This reserve was built by savings from lower employer rates in the 2003–05 biennium and was used to buy down higher rates in the 2005–2007 biennium, with the balance of approximately \$2.5 million retained to offset PERS costs in future years.

The supplemental retirement program, which was established in 1978, provides monthly cash payments and/or insurance benefits for eligible employees who retire before age 65. Benefit levels and eligibility have been bargained and vary among the different employee groups. This program ended in July 1996 for administrators and July 1998 for teachers. The fund provides benefits for most administrators and teachers hired before those dates, as well as a limited contribution to health premiums for retired classified employees.

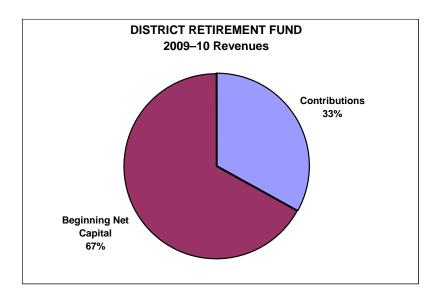

FINANCIAL HIGHLIGHTS AND PROGRAM CHANGES

Expenditures budgeted in this fund for early retirement costs amount to 3.9% of the district budget for salaries. This is the amount needed to cover projected retirement benefits for 2009–10. Revenue to the fund comes from an assessment on wages from all district funds that include staff. If the number of retirees exceeds projections, fund reserves are available to meet increased payment obligations.

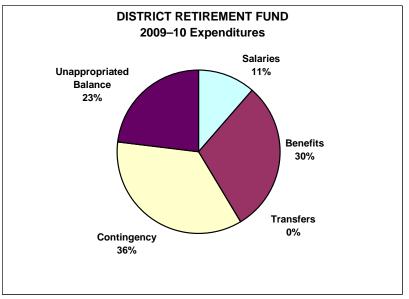

USE OF PERS RESERVE

The PERS Reserve was created in 2003–04 to hold savings from a rate reduction in the 2003–05 biennium. Most of the savings were returned to the general fund to offset rate increases in the 2005–07 biennium. A balance of \$2.5 million remains because the actual rate increase was less than originally projected. These funds are budgeted in a reserve to help offset rate increases which are anticipated in 2011-12.

CAPITAL PROJECTS FUND

INTRODUCTION

2009-10 capital budget reflects construction activity in the eighth year of the district's capital improvement program (CIP). This program, approved by voters in May 2002, is funded by a \$116 million bond levy. Its purpose is to better support learning in district facilities and minimize building repair and operating costs. The CIP also represents the first phase of the Long Range Facilities Plan approved by the Board in February 2002. When fully implemented, the plan will address approximately 60% of district facilities through replacement, full renovation, consolidations and closures, and the sale, trade or long-term lease of surplus property. The original funding strategy consisted of four bond measures over 24 years, issued at approximately six-year intervals. Depending upon economic conditions, the second bond measure is anticipated within the next two years.

Projects budgeted for 2009-10 include improving emergency egress and security site lighting, electrical system upgrades, fire alarm systems, heating and ventilation systems, and driveway/traffic improvements. These projects represent the final "spend-down" of the remaining 2002 bond proceeds.

Additional detail on the uses of bond proceeds and the status of the Long Range Facilities Plan is provided below.

The capital budget includes funding for the fifth year of a five-year preventive maintenance and interior painting program, financed with the proceeds from the sale of surplus properties. To preserve capital reserves, the interior painting portion of this program is not being scheduled for 2009-10.

THE CAPITAL PROJECTS FUND

Capital improvements and repairs valued at \$5,000 or more are typically budgeted in the capital projects fund. Projects are funded with voter-approved bonds, the sale or lease of district properties, state resources, general fund resources, and other income.

Budgeted 2009-10 expenditures include:

- \$5.9 million for capital projects using bond proceeds to remodel and upgrade district buildings; includes \$100,000 to upgrade existing wireless networks.
- \$2.3 million in additional capital projects and routine building repairs funded from state and local sources.
- \$416,000 for preventive maintenance and real property planning/consulting from the proceeds of the sale of surplus properties.
- \$2,000,000 to support the implementation of *Shaping 4J's Future* decisions, including potential construction costs.
- \$500,000 transfer from the sale of surplus properties to the general fund to support district operations.

A total of 14.55 FTE are budgeted in the capital projects fund for activities ranging from project management to preventive maintenance activities.

Sources of funding for these expenditures include:

Interest Earnings

Income is generated from investing bond proceeds.

Other Local Reimbursements

Youth sports organizations such as KidSports and AYSO make payments to offset the cost of upgrading district athletic facilities. Energy conservation incentive grants are also budgeted to pay for costs not eligible for bond funding.

Revenue from Other Local Governments
User fees from the City of Eugene related to the use of the high school athletic fields are budgeted to support field maintenance.

Beginning Fund Balance

Primary sources of carry-over funding include general obligation bond proceeds, revenue from the sale of property, and interest earnings. Amounts are re-appropriated each year to finance additional capital projects.

IMPACT ON THE GENERAL FUND

Since 2001-02, the district has transferred \$500,000 from the general fund to the capital projects fund to pay for capital repairs and improvements that do not qualify for general obligation bond funding. As part of the district's budget reduction strategy to minimize the impact of declining revenues on instructional programs, this transfer is not being budgeted for 2009-10.

Capital projects to be completed in 2009-10 are expected to impact operating costs in the general fund in the following ways:

Remodel Projects: Upgrades to existing spaces are expected to reduce maintenance and repair costs at effected locations.

System Replacements and Upgrades: While some system replacements and upgrades will reduce maintenance and repair costs, others will increase the cost of operations. When a replacement or upgrade is so extensive that it effectively represents a new system (e.g., emergency egress lighting and exterior site lighting systems), operating costs will be higher. New standards under current building codes require more elaborate systems (e.g., increased number of fixtures, new emergency generator system requiring testing and maintenance), which will also result in increased costs. The installation of automatic door openers/closers for wheel chair accessibility, security and card access systems, fire alarm systems, and fire sprinkler systems are also expected to raise maintenance demands. Initial analysis on recent heating and ventilation system upgrades indicate that energy usage has dropped 25% to 30%.

New Systems: Although many of the new systems installations improve safety and security and enhance the teaching and learning environment, there will be added maintenance costs and/or ongoing capital liabilities.

The installation of new synthetic turf fields is expected to be cost neutral from an annual operating cost perspective, but will result in increased capital liabilities for the future (turf replacement). The benefit derived from increased school and community use of the all-weather facilities is significant but does not reflect cost savings.

New City of Eugene storm water filtration requirements for new building spaces and paving will result in the installation of at least two new filtration systems during 2009-10. These require regularly scheduled maintenance and reporting.

Landscaping requirements for new and reconstructed parking areas have significantly increased the grounds maintenance costs.

Preventive Maintenance: A four-member preventive maintenance team systematically inspects district buildings to ensure that building systems are working properly and that minor problems are addressed before they escalate. For example, worn bearings and drives are being replaced before mechanical systems are impacted and leaking windows are being resealed before supporting walls are damaged by moisture, each of which would have required a more costly and time-consuming response. Utility usage is reviewed and additional attention is given toward identification of opportunities to reduce energy consumption.

STRATEGIC FACILITIES PLANNING

The capital budget reflects the direction of the Long Range Facilities Plan approved by the Board in February 2002. The 24-year plan was

developed by the Strategic Facilities Planning Advisory Committee, a group of 21 community members, parents, students, teachers, classified staff, administrators, and school board members appointed by the superintendent to develop a plan to address the district's aging facilities, rising facilities operating costs and declining enrollment.

The committee reviewed recommendations made by the Schools of the Future Committee (1999–00) and the School Closure, Consolidation and Replacement Committee (2000–01) as well as district financial and enrollment projections, demographic and geographic information, building operating costs, and capital needs.

The Long Range Facilities Plan includes the following strategic direction:

- Replace or fully renovate aging elementary and middle school buildings that no longer adequately serve students.
- Remodel high schools in stages, replacing portable classrooms and improving instruction and student activity spaces.
- More closely match available space with enrollment at the elementary level, through school consolidations.
- Replace and upgrade capital systems, such as roofs, wiring, plumbing, and fire and security systems as needed to prolong the useful life of the buildings and to upgrade the technology infrastructure to support current instructional needs.
- Dispose of surplus property that will not be needed in the future for educational

purposes or seek long-term leases that would financially benefit the district.

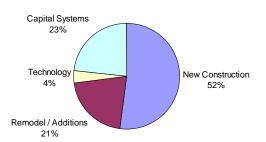

Improve instructional spaces throughout the district.

The plan calls for four bond elections, approximately six years apart. Voters approved the first bond in May 2002; a second bond election originally planned for November 2008, is expected to be delayed 18 months to two years.

2002 General Obligation Bond

The \$116 million bond levy approved by the voters in May 2002 directly addressed the recommendations of the Strategic Facilities Planning Advisory Committee. Projects funded from 2002 bonds were reviewed and approved by the Strategic Facilities Planning Advisory Committee, the superintendent and the board.

\$116 Million Bond Levy by Project Category

Major program changes reflecting highest priority capital needs were identified by district staff and reviewed by the board. For a number of projects, particularly the new elementary and middle schools, the scope

and/or budget of the projects were updated to more accurately reflect instructional and community needs and construction costs. Costs have shifted among the original project categories to reflect these changes.

The revised plan allocated bond proceeds as follows:

New Construction \$58.6 million

- Consolidate and replace Patterson and Westmoreland elementary schools with a new school, César Chávez Elementary School.
- Consolidate and replace Washington and Willakenzie elementary schools with a new school, Bertha Holt Elementary School.
- Replace Madison and Cal Young Middle Schools.

Remodels and Additions \$24.3 million

- Make major renovations at each of the four high schools.
- Replace portable classrooms with permanent additions.
- Remodel classrooms to improve the instructional environment.
- Remodel restrooms to current standards.

Technology \$4.4 million

 Enhance communications capabilities and increase access to information resources for schools.

Systems Replacements \$27.3 million

• Replace critical building systems such as plumbing or heating/ventilation.

Increase security for students and staff.

In the first four years of the current bondfunded program, efforts were primarily focused on design and construction of the new elementary and middle schools and remodel projects at each of the four high schools. The status of these major projects is as follows:

New Schools

The new elementary schools opened in the fall of 2004. The new Madison Middle School opened in the fall of 2005. The new Cal Young Middle School opened in the fall of 2006.

School Remodels

New student centers at North Eugene and South Eugene high schools were constructed, as was the new science and technology wing at Sheldon High School. The new science wing at Churchill High School was completed in December 2005.

In 2006-07, Willagillespie Elementary School restrooms were upgraded; classrooms, cafeteria and kitchen received new flooring and paint; and the gym floor was refinished. At Arts and Technology Academy, the kitchen, cafeteria and restrooms were remodeled and all interior spaces painted.

In 2007-08, Churchill High School heating controls were updated to improve occupant comfort and energy efficiency. At South Eugene High School aged and failing water piping was replaced throughout the building, and the upstairs classroom wing received new interior paint.

In 2008-2009, Sheldon High School heating controls were updated to improve occupant comfort and energy efficiency. Two new synthetic turf athletic fields were constructed at Spencer Butte Middle School and Arts & Technology Academy in partnership with the City of Eugene. A number of electrical systems upgrades, door and hardware replacement, locker upgrades, security system upgrades, and lighting system upgrades were completed. A new parking lot constructed at Harris/Eastside Elementary School, a walk-in freezer was replaced at Sheldon High School, and a new classroom modular was installed Meadowlark Elementary School.

Technology

This portion of the bond has been used to increase the speed and reliability of the district's fiber optic ring to the high schools and extend this fiber network to all of our middle schools. Additionally the fiber network and equipment has been extended to the two new elementary schools and to 14 other elementary schools. Work is still progressing on updating the network in several additional locations. Existing wireless networks are being upgraded.

Real Property Management

To permit the district to take a more proactive approach to property management, the Long Range Facilities Plan calls for the biannual review and classification of real property into the following classifications:

• *In Use:* Property that houses or supports the educational program.

- Reserve: Property that is not in use but which is or may be needed for a definable future use. Reserve property shall be managed to preserve its use for future district requirements.
- Surplus: Property that may not in the judgment of the School Board be required for school purposes and may be sold or leased. This may include property currently in use for some district function that could be moved without significant disruption to the service provided. Surplus property shall be managed to maximize the financial return to the district while taking potential community benefit into consideration.

In April 2009, the Board reviewed and made no changes to the classifications of properties that were updated in October 2002 and reviewed in 2005 and 2007.

Current surplus properties are:

- Dunn/Opportunity Center
- Bailey Hill Elementary
- Civic Stadium
- Coburg farm property

According to board policy, net proceeds from the sale or lease of facilities will be used to acquire and develop land and/or upgrade and improve district facilities "unless the Board decides otherwise for compelling reasons." Transfers from these funds in the annual amount of \$500,000 are planned for 2009-10 and 2010-11 to support operations in order to help offset budget deficits due to the struggling economy.

Shaping 4J's Future

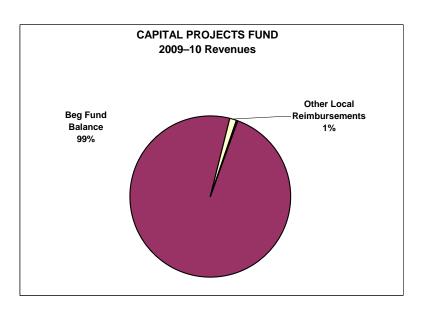

In March 2008 the school board approved district-wide strategies to address how and where to provide instructional programs to best serve students in the future, in light of declining enrollment and changing student demographics and needs.

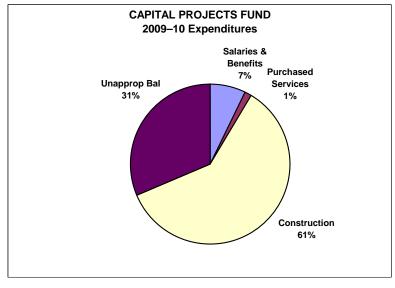

Strategies impacting facilities include the following:

- Move Family School grades 1-5 to the Jefferson building to share a facility with the Arts and Technology Academy, beginning in 2009-10. Decide about moving Family School grades 6-8 from Spencer Butte to the Jefferson Building in 2008-09.
- Retain Meadowlark at its current site and move Buena Vista Spanish Immersion school to another site in the Sheldon region by 2012-13.
- Relocate Eastside Alternative School to the Harris site in 2008-09. Explore school consolidation in 2009-10.
- Close the Fox Hollow building and move Charlemagne French Immersion School to a more centrally located site for 2010-11 or later.
- Decommission the aging Willard building at the end of the 2009-10 school year. The two charter schools leasing the building (The Village School and Ridgeline Montessori) will move. The district intends to retain the site for a future school use.

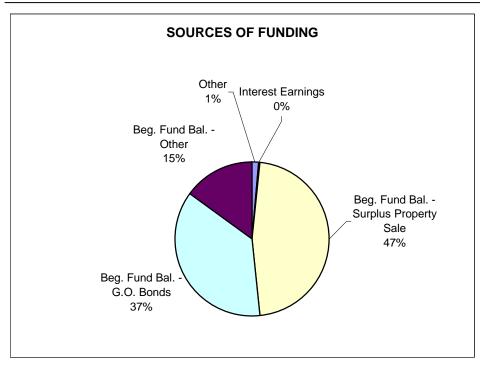

Further Board action on *Shaping 4J's Future* will shape the content of the second bond election envisioned in the Long Range Facilities Plan.

Total	\$12,823,063	\$9,236,997	\$9,569,043	\$11,114,973

The district's history of capital expenditures shows the strong, positive impact of voter-approved bonds on its ability to make improvements to buildings and grounds. Prior to bond issuance in 1993, typical annual expenditures ranged from \$1 million to \$3 million. The adjacent graph highlights the impact of bond issuance, identifying 1994 through 1996 as the peak construction years of the 1993–98 Capital Improvement Program (CIP). Spending from 1999 to 2002 reflects the 1999 \$12.2 million bond issue, funding from the City of Eugene, and resources provided by the state. Spending from 2002–03 through 2008-09 represents the implementation of the first seven years of the 2003–09 CIP, a program funded with \$116 million bond levy approved by voters in May 2002.

Bond-funded projects budgeted for 2009-10 include \$5,772,882 in capital construction costs, \$100,000 for the installation of fiber optic wiring and technology upgrades, and \$477,552 in project and bond administration costs. Non-bond projects include \$4,309,337 in capital construction and \$455,202 in staffing costs and administrative costs funded from other sources. They also include a \$1.5 million construction allowance for potential school closure and consolidation. Additional non-bond funded costs represent a \$500,000 transfer to the general fund to support district operations and \$366,159 for the preventive maintenance program. State-funded projects represent the balance of state capital funding provided in previous biennia to support technology infrastructure.

CAPITAL ASSETS

CAPITAL ASSETS

The district owns 43 real properties, including 684 acres of land and buildings. Facilities represent approximately three million square feet of building space and \$426 million of value (estimated replacement value for insurance purposes). The average age of school buildings is 49 years, with an age range from 3 to 83 years.

Thirty-six properties currently house district schools or central services functions. The

remaining seven include closed schools, Civic Stadium, and additional properties being held for future school use.

According to the Association of School Business Officials, the useful life of a school building is about 50 years. By this measure, about one-half of the district's buildings are nearly beyond their useful lives. Older buildings have higher maintenance and repair costs. Many buildings were not constructed with high quality building materials magnifying this problem.

Adding two new elementary schools, replacing two middle schools, and selling or demolishing six elementary school sites (12% of properties) has dropped the age of the average district buildings to 49 years. Thirty percent of the district's properties are scheduled to be addressed under the current CIP, through replacement, full renovation, closure and consolidation, sale, trade or longterm lease of properties.

CAPITAL PROJECTS DESCRIPTIONS

The following projects are budgeted for 2009-10. Specific work at "multiple site" projects will be identified once staff has determined where the greatest needs exist. The budget was developed to authorize the maximum amount of work that can take place during this fiscal period. (Numbers correspond to projects listed on page 162–164.)

BOND FUNDED PROJECTS SERIES 2002 BONDS

3 Building Remodel Phase II

Upgrade the north wing and office area at Spencer Butte Middle School.

4 Upgrade Technology/Install Fiber Optic Network

Install a fiber optic network to increase the speed and reliability of technology in schools. Funding will complete the fiber installation and begin establishing a wireless network for remaining locations.

7 Clock System Upgrades

Kennedy and Spencer Butte Middle School's existing clock systems will receive updated hardware and software to work more efficiently.

9 Parking Lot/ Security Site Lighting

Install parking lot lighting at McCornack, Willagillespie and Corridor Elementary schools, and Churchill High School. Security site lighting will be installed at Awbrey Park, Crest Drive, Edgewood, and River Road Elementary Schools. The upgrades allow better visibility for students, staff and community members

when traveling between the buildings and parking lots after dark.

11 Grounds Equipment Storage Expansion

Add more covered storage areas to the grounds equipment storage building behind the Education Center.

12 Carpet Replacement

Replace carpeting in classrooms at multiple sites.

18 Fire Sprinkler Installation

Installation of sprinkler system in main Warehouse located at the Education Center.

22 Fire Alarm Replacement

Install updated fire alarm system at Arts and Technology Academy.

25 Emergency Egress Lighting

Provide sufficient lighting at floor level to allow egress to appropriate exits and increase safety in corridors where needed at multiple sites.

27 Canvas Roof Cover Replacement

Replace decade old canvas covers located over openings in roof at Sheldon High School.

28 Dust Collector Replacement

Replace failing dust collector in the woodshop at North Eugene High School.

29 Clinic Restroom ADA Upgrade

Remodel of Clinic restroom for wheelchair accessibility at Sheldon High School.

39 HVAC Systems Upgrade

Replace heating, ventilation and air conditioning controls to improve comfort at Sheldon, Churchill and South Eugene High Schools and at the Education Center.

40 Electrical Systems Upgrade

Upgrade electrical service at Churchill High School.

42 Generator Modifications

Install new generator to allow Education Center to function as a command center during power outages.

50 Upgrade Stage Lighting/Lighting

Upgrade stage lighting at Churchill High School, Kelly Middle School and Arts & Technology Academy. Upgrade interior lighting at Parker Elementary.

100 Allowance-ADA Compliance Upgrades

Improve wheelchair access to district buildings, including ramp installations, restroom upgrades, entrance improvements and playground equipment upgrades, where needed.

101 Allowance–Asbestos / Lead Paint Removal

Remove asbestos-containing materials and lead paint, where needed.

107 Driveway Paving

Install new driveways at Monroe Middle School and Churchill High School.

109 Allowance-Structural Repairs

Repair components of building structures, where needed, and replace South Eugene High School Track Shed.

110 Fire Alarm Replacement

Upgrades and Replacement of fire alarm Equipment at Arts and Technology Academy, Facilities and Transportation.

119 Security Fencing

Install fencing to provide a secure connection between all instructional buildings on site for students and staff.

122 Partitions/Acoustical Panels

Replace aging partitions with new partitions or with solid walls at multiple sites. Acoustical Panels will be installed at multiple sites to insulate distracting noise in the learning environment.

127 Electronic Security Systems Upgrade

Improve building security and occupant safety with new access technology at multiple sites.

160 Artificial Turf Sports Fields

In partnership with the City of Eugene, new artificial turf multi-purpose fields at Spencer Butte Middle School and Arts and Technology Academy will be completed, along with the installation of a rubberized track at Arts and Technology Academy.

NON-BOND FUNDED PROJECTS

1 Real Estate Consulting Services

Assist district staff by providing land use consulting and brokerage services for determining the best use for district properties and establishing long-term plans for site utilization, lease or sale.

2 Playground/Bleacher Upgrades

Improve outdated playground equipment and outdoor bleachers.

3 High School Ed Spec/Bond Planning

Begin developing district-wide educational specifications for future high school improvements and initiate planning efforts for the second six-year capital improvement plan under the District's Long Range Facilities Plan.

4 Consulting/Planning Services

Fund anticipated personal services to support special projects.

5 Window Coverings Replacement

Replace deteriorated window coverings at multiple sites. With the exception of new buildings, window coverings are in generally poor condition throughout the district.

6 Building Modifications/Upgrades

Perform minor building remodels such as workspace remodels, time-out rooms, and remodel of classrooms to accommodate changes to programs.

7 Site Modifications for Improved Traffic Flow

Create a new driveway to Churchill High School from Bailey Hill Road, evaluate options, and construct improvements to improve traffic flow at other locations.

8 Site Improvements

Repair or reconstruct sidewalks, entry ways, planter boxes and drainage at various sites throughout the district.

9 Irrigation Upgrades

Convert manually operated or failed irrigation systems to automatic controlled systems to support landscaping at district sites.

10 Steam Heating Systems

Upgrade steam heating system chemical treatment through installation of automatic chemical injection systems.

11 Refinish Gym Floors

Preserve wooden gym floors district-wide, screening and re-coating according to three-year schedule.

12 Repair Asphalt Surfaces

Repair or reconstruct deteriorated asphalt parking lots and playgrounds at a number of sites.

14 Replace/Upgrade Security Door Locks

Replace classroom, cafeteria and gymnasium doors and/or locksets with ADA compliant locksets that can be locked from the inside to improve security at multiple sites.

15 Accessibility Upgrades

Support ADA accessibility upgrades to building entrances, restrooms, cafeterias, and gymnasiums to provide reasonable access to physically challenged individuals.

18 Modular Classrooms Strategic Planning

Purchase modular classrooms as needed to accommodate emergency needs for additional classroom space.

19 Folding Walls/Partitions

Replace worn and broken folding walls/partitions with new, or replace with standard walls made of wall board.

20 Building Lighting Systems

Funding to replace old metal halide fixtures, as required, and to replace lamps in classrooms at multiple sites.

21 Repair / Replace Flooring

Replace flooring and remove related asbestos to maintain floor surfaces.

22 Building Additions to Support Strategic Planning

Funding to add building additions to support relocation of alternative schools, consolidations and boundary changes that may occur as a result of the *Shaping 4J's Future* process.

23 Asbestos Removal/Environmental Safety

Funds support abatement/removal of asbestos materials, lead paint and other environmental hazards.

24 Paint Building Exteriors

Paint buildings to preserve building structures and maintain finishes in accordance with seven to eight year schedule.

25 Repair Security Systems

Provide repairs and replacement parts for existing security systems when General Fund resources are inadequate.

26 HVAC Upgrades

Upgrade HVAC systems to improve efficiency and decrease utility costs.

27 Replace/upgrade rest room partitions

Toilet partitions are targets for vandalism and must be repaired or replaced periodically with the exception of the new buildings and recent restroom renovations, restroom partitions are in generally poor condition throughout the district

28 Maintain Sports Fields

Repair and maintain artificial turf fields using combined Capital funding and user fees from field usage.

150 Upgrade/Replace Exterior Doors

Supplement bond funding to replace exterior doors, which must be replaced more frequently than other building components.

170 Relocation of Grounds Department

Relocate Grounds Department to Ed Center in order to increase operational efficiency by consolidating operations and also to allow more bus parking at the Transportation site.

184 Artificial Turf Contract Reserve

Reserve funds due to SprinTurf for artificial turf fields located at Madison and Cal Young Middle Schools. Contract Reserve guarantees performance of SprinTurf on an extended 10 year warranty.

185 Technology Infrastructure Upgrades

Use carry-over funds provided by the state in previous years to provide wiring and electrical power requirements; servers, hubs, and routers; network design and installation; video distance education equipment; technology support staff salaries; or other costs necessary to support telecommunications connectivity

with 3% stipend	84,499	88,724	93,160	97,818	102,709	107,844

This salary schedule is the same as the 2008-09 salary schedule.

APPENDIX G - GLOSSARY

ACADEMY SCHOOL

In conjunction with the Board's 2005–06 school choice strategies, five high-poverty elementary neighborhood schools, two middle schools and one high school were designated as academy schools. Funding to redesign school programs has been given to raise achievement levels for all students, close the achievement gap and attract more neighborhood students.

ACCOUNTING SYSTEM

The total structure of records and procedures which discover, record, classify, summarize, and report information on the financial position and results of operations of a government of any of its funds, fund types, balanced account groups, or organizational components.

ACCRUAL BASIS

The basis of accounting under which transactions are recognized when they occur regardless of the timing of related cash flows.

ACTIVITY

A specific and distinguished line of work performed by one or more organizational components of a government for the purpose of accomplishing a function for which the government is responsible. For example, food inspection is an activity performed in the discharge of the health function.

ACHIEVEMENT GAP

A persistent and significant disparity in educational achievement and attainment among groups of students as determined by a standardized measure.

ADEQUATE YEARLY PROGRESS (AYP)

The minimum level of improvement that school districts and schools must achieve each year as determined under the *No Child Left Behind Act*.

ADM

Average daily membership is the year-to-date average of daily student enrollment.

ADMw

The average daily membership of daily student enrollment increased by a variety of weighting factors. For example, each student qualifying for special education services is given one additional weight and counted as 2.0 full-time equivalents (FTE) for funding purposes.

ADOPTED BUDGET

The financial plan adopted by the school board which forms a basis for expenditure appropriations.

AMERICAN RECOVERY AND REINVESTMENT ACT OF 2009 (ARRA)

Federal economic stimulus funding distributed on a one-time basis to states, local educational agencies and other entities to avoid layoffs, create and save jobs and improve student achievement. Three major components are the State Fiscal Stabilization Fund; Title I, Part A, of the Elementary and Secondary Education Act, and the Individuals with Disabilities Education Act (IDEA), Part B. One-time allocations for 2009-10 and 2010-11 are scheduled to be distributed in the spring and fall of 2009.

APPROPRIATION

A legal authorization to make expenditures and incur obligations for specific purposes. Total appropriations include the adopted budget and any supplemental budget(s). The legal appropriation is the amount authorized by the board.

ASSESSED VALUE (AV)

The portion of value of real or personal property that is taxable; the lesser of the property's real market value or the constitutional value limit. The value limit may increase 3% annually unless qualifying improvements or changes are made to the property. See "Measure 50."

ASSESSMENT

A method to measure what students are learning (i.e., testing).

ASSETS

Resources, owned or held by a government, which have monetary value.

BEGINNING FUND BALANCE

Funds carried forward from the current fiscal year into the next budgeted fiscal year, that become a resource to support the appropriations for the next budgeted fiscal year.

BOND or BOND ISSUE

A certificate of debt guaranteeing payment of the original investment plus interest on specific dates. Bonds are typically used by governments to pay for large public projects like new schools.

BUDGET

A plan of financial operation embodying an estimate of proposed means of financing them for a single fiscal year. A proposed budget is presented to the budget committee for approval. An approved budget is subsequently adopted as approved or modified by the School Board.

BUDGET COMMITTEE

Fiscal planning board of a local government or district, consisting of the governing body (school board) plus an equal number of legal voters from the district, who are appointed by the governing body (*Oregon Revised Statutes*, 294.336).

BUDGET DOCUMENT

The instrument used by the budget-making authority to present a comprehensive financial plan to the School Board, which is the appropriating body. The budget document contains a message from the superintendent, together with a summary of the proposed expenditures, means of financing them, and the schedules supporting the summary. These schedules show in detail the information as to past years' actual revenues, expenditures, and other data used in making the estimates.

BUDGETARY CONTROL

The management of the district, in accordance with an approved budget, for the purpose of keeping expenditures within the limitations of available appropriations and available revenues.

CAPITAL BUDGET

A plan of proposed capital projects for the coming year and the means for financing them.

CAPITAL OUTLAY

Expenditures that result in the acquisition of or addition to fixed assets.

CASH BASIS

The basis of accounting under which transactions are recognized only when cash changes hands.

CITY LEVY

A four-year local option tax levy approved by residents of the City of Eugene for youth cultural and recreational services. The levy expired in 2006-07. Ninety-three percent of the levy was distributed to the two school districts within the City limits (Eugene and Bethel). The distribution was based on assessed value, that is, the portion of city assessed value within each district. Services funded from the levy included elementary music and P.E., counselors, nurses and media specialists at all levels, secondary athletics and activities, and the custodial and maintenance services that support these activities. The general fund has absorbed the cost of those services beginning in 2007-08.

CLASSIFIED EMPLOYEES

Support staff, including instructional assistants, clerical staff, bus drivers, custodians, maintenance and food service staff.

CONTINGENCY

An amount budgeted each year for unforeseen expenditures. Board policy recommends an operating contingency of 2% of expenditures. Transfer of general operating contingency funds to cover unanticipated expenditures requires board approval.

CURRENT RESOURCES

Resources available to meet current obligations and expenditures. Examples are current assets, estimated revenues of a particular period not yet realized, transfers from other funds authorized but not received, and in the case of certain funds, bonds authorized and un-issued.

DEBT SERVICE

The amount of money needed to make periodic payments on the principal and interest on an outstanding debt. Debt service is usually expressed as an annual amount.

DEFICIT

The excess of the liabilities of a fund over its assets. Oregon school districts may not carry deficits in any fund.

EDUCATION STABILITY FUND

Established in 2002 by constitutional amendment and funded with 15% of lottery earnings. Has similar triggers to access as Rainy Day Fund but no two thirds cap on withdrawals. Limited to 5% of state general fund revenues collected in the prior biennium. Tapped for K-12 support in 2001-03 and 2003-05. Represents a possible source of fiscal support to schools in 2009-11.

ESSENTIAL BUDGET LEVEL (EBL)

Amount calculated by the Oregon Department of Administrative Services prior to each biennial legislative session to project the state budget level required to continue current service levels.

EEA

Eugene Education Association, an employee group representing licensed employees.

ENDING FUND BALANCE

The difference between a fund's resources and requirements at year end.

EQUALIZATION

A method for allocating local and state funds for schools adopted by the 1991 Oregon Legislature and modified slightly since then. The purpose of equalization is to ensure that students in all of Oregon's districts are treated more or less equally in terms of how state and local resources are allocated. Equalization is implemented through the State School Fund formula which allocates local and state funds on a weighted per student basis.

ELL

The English Language Learner program provides educational support to students who do not meet a minimal English language proficiency standard.

EXPENDITURES

Decreases in net financial resources. Expenditures include current operating expenses which require the current or future use of net current assets, debt service, and capital outlays.

FEDERAL ECONOMIC STIMULUS

Temporary funding from the federal government for 2008-09, 2009-10 and 2010-11 to support economic recovery nationwide. Also known as the American Recovery and Reinvestment Act of 2009 (ARRA).

FTE

Full-time equivalent staff. One FTE is defined as a regular position scheduled to work eight hours per day.

FISCAL YEAR

A 12-month period that determines the time frame for financial reporting, budgeting and accounting. For District 4J, the fiscal year is July 1 through June 30.

FIXED ASSETS

Asset of a long term character which are intended to continue to be held or used, such as land, buildings, improvements other than buildings, machinery, and equipment.

FIXED COST

A cost such as rent that does not change with increases or decreases in the amount of services provided.

FUNCTION

Expenditure classification identifying the activity or principal purpose for which an expenditure is made.

FUND

A fiscal and accounting entity with a selfbalancing set of accounts recording cash and other financial resources together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations.

FUND STRUCTURE

The district budgets its resources in nine funds—four major governmental funds, four non-major governmental funds, and one proprietary—or internal service—fund. The funds are:

Major Governmental Funds

- General
- Debt Service
- Capital Projects
- Federal, State and Local Programs

Non-major Governmental Funds (Special Revenue)

- Nutrition Services
- Student Body
- District Retirement
- Fleet and Equipment

Proprietary (Internal Service)

Insurance Reserve

GENERAL FUND

The fund used to account for district operations except those required to be accounted for in another fund.

GENERAL OBLIGATION (G.O.) BOND

A bond that is secured by the pledge of a government's "full faith and credit." General obligation bonds issued by a jurisdiction are secured by the jurisdiction's ad valorem taxing power which is typically not subject to a constitutional limitation on the tax rate.

HIGH COST DISABILITY GRANT

State School Fund allocation to reimburse school districts for expenditures above \$30,000 per student for high cost special education students.

IDEA

The Individuals with Disabilities Education Act is federal legislation which requires local districts to provide free and appropriate education in the least restrictive environment to students with disabilities. Allocations for 2009-10 and 2010-11 are increased with federal funding under the American Recovery and Reinvestment Act of 2009 (ARRA).

IEP (Individualized Education Program)

A written statement of an educational program for a student receiving special education services. An IEP is required for each student receiving such services.

INDIRECT COST

A cost necessary for the functioning of the organization as a whole, but which cannot be directly assigned to one service.

INTERNAL SERVICE FUND

A fund used to account for the financing of goods or services provided by one department or agency to other departments or agencies of a government, or to other governments, on a cost-reimbursement basis.

KRVM

District 4J's radio station which provides career education in communications media and broadcasts school district activities.

LIABILITIES

Debt or other legal obligations arising out of transactions in the past which must be liquidated, renewed, or refunded at some future date. This term does not include encumbrances.

LICENSED EMPLOYEES

Includes teachers, counselors, media specialist, psychologists, social workers, nurse, athletic trainers, occupational, speech, and physical therapists. Also referred to as "certified" staff.

LOCAL OPTION

A tax levy approved by the 1999 Legislature to allow school districts to raise additional funds for operations or capital needs. Funds are excluded from the State School Fund formula.

MEASURE 5

Property tax limitation passed by Oregon's voters in November 1990, limiting local property taxes for schools to \$5 per \$1,000 of assessed value.

MEASURE 47

Property tax limit passed by Oregon voters in November 1996, rolling taxes back to 1995–96 levels less 10% and capping future increases by 3% annually.

MEASURE 50

Initiative referred by legislature and approved by voters to clarify and implement Measure 47. Measure 50 set the assessed value for each property and limited future annual growth to 3%, with exceptions. Under Measure 50, assessed value cannot exceed real market value. Prior to Measure 50.

property was assessed at real market value. Also imposed "double majority" requirement of 50% voter turnout and majority affirmative vote at all elections except November general elections (even-numbered years). ("Double majority" requirement overturned by Measure 56 in 2009. See below.)

MEASURE 56

State ballot measure referred by the Legislature to remove the "double majority" requirement for approval of local property tax measures from all May and November elections. Approved by voters November 4, 2008.

MODIFIED ACCRUAL BASIS

Basis of accounting used for all governmental funds. Revenues are recognized when they become both "measurable" and "available to finance expenditures of the current period." Expenditures are recognized when the related fund liability is incurred.

NO CHILD LEFT BEHIND ACT

The most recent authorization of the Elementary and Secondary Education Act (ESEA), the principal federal law affecting K–12 education. A number of federal entitlement programs (Title I–V) have been grouped together under this program name.

OREGON ASSESSMENT OF KNOWLEDGE AND SKILLS (OAKS)

State assessment testing of student achievement in the areas of reading, math, writing and science for students in grades 3 through 12.

OSEA

Oregon School Employees Association, the employee group representing classified staff.

OBJECT

As used in expenditure classification, this term applies to the article purchased or the service obtained (as distinguished from the results obtained from expenditures). Examples are salaries, employee benefits, personal services, contractual services, materials, and supplies.

OPERATING BUDGET

Plans of current expenditures and the proposed means of financing them. The annual operating budget is the primary means by which most of the financing acquisition, spending, and service delivery activities of a government are controlled. The use of an annual operating budget is required by state law.

OREGON EDUCATIONAL ACT FOR THE 21ST CENTURY

A sweeping school improvement effort initiated in 1991, calling for increased academic standards, student achievement and accountability through benchmark testing and public/parent involvement and reporting of progress.

PAYROLL COSTS

Amounts paid by the district on behalf of employees, in addition to gross salary. Examples are group health insurance; contributions to public employees retirement system (PERS); social security (FICA); workers' compensation; and unemployment insurance.

PERS (Public Employee Retirement System)

This system covers employees hired prior to August 29, 2003. Employees hired since that date are covered by the Oregon Public Service Retirement Plan (OPSRP).

QUALITY EDUCATION MODEL (QEM)

A model, developed by the legislative Council on the Quality Education Model and refined by the Oregon Quality Education Commission, specifies what constitutes adequate funding and services for elementary, middle and high school students.

RAINY DAY FUND

Established by the 2007 legislature and built by moving funds from the state ending fund balance at the end of each biennium. Withdrawals require one of three conditions to be met plus three fifths vote of legislature. Conditions are decline in employment, projected budgetary shortfall, and declaration of state of emergency. Withdrawals are limited to two thirds of balance at beginning of biennium.

REAL MARKET VALUE (RMV)

Defined under Measure 50 to be the amount of cash that could reasonably be expected to be paid by an informed buyer to an informed seller as of the assessment date for the tax year.

REQUIREMENT

An expenditure or net decrease to a fund's resources.

RESERVE FUND

Established to accumulate money from one fiscal year to another for a specific purpose.

RESOURCES

Estimated beginning fund balances on hand at the beginning of the fiscal year, plus all anticipated revenues.

REVENUES

Monies received or anticipated by a local government from either tax or non-tax sources.

SHAPING 4J'S FUTURE

A strategic planning process initiated by the district in 2006. This process focused on several questions about how and where the district would provide instructional programs to best serve students in light of declining enrollment and changing student demographics and needs.

SCHOOL DAY RESTORATION FUND

State general fund allocation of \$51 million established by the legislature in March 2009 to preserve a full school year for Oregon schools to the extent possible in 2008-09. Requires districts to submit an application with certain assurances.

SCHOOL IMPROVEMENT FUND (SIF)

Funds distributed to districts as non-competitive grants that must be spent for purposes specified by the Legislature. Funded in 2001-03 and 2007-09.

STAFFING RATIO

The licensed staffing ratio is the ratio of students to licensed staff. Class size is higher than the staffing ratio because counselors and specialists in areas such as Music, Media, P.E., are funded through the staffing ratio.

STATE FISCAL STABILIZATION FUND (SFSF)

A fund established through the federal American Recovery and Reinvestment Act of 2009, to be distributed to school districts by state agencies for spending in 2008-09, 2009-10 and 2010-11. \$115.4 million used by the 2009 legislature to partially offset a reduction in state general fund revenue in 2008-09.

STATE SCHOOL FUND

A long-standing state fund within the budget of the Oregon Department of Education which holds the major appropriation of state support for public schools. Annual grants are distributed to school districts on a per-student basis in eleven payments per year, according to a legislatively adopted formula. This formula incorporates monies held in the State School Fund plus local property taxes and other local revenues such as Federal Forest Fees, Common School Funds and County School Funds. The formula determines approximately 87% of the district's general fund revenues.

SUPPLEMENTAL BUDGET

Prepared to meet unexpected needs or to spend revenues not anticipated at the time the regular budget was adopted. A supplemental budget cannot be used to increase a tax levy.

TAG

The Talented and Gifted (TAG) State legislation requires local districts to provide programs and services to academically talented and cognitively gifted students at their assessed level and rate of learning.

TITLE I

Title 1 of the Elementary and Secondary Education Act is federal funding aimed at students who are behind academically or at risk of falling behind. Funding provides assistance to students who are economically disadvantaged. Allocations for 2009-10 and 2010-11 are increased with federal funding under the American Recovery and Reinvestment Act of 2009 (ARRA).

TOSA

Teacher on special assignment, usually performing project work such as curriculum development or program coordination.

TRANSFERS

Amounts distributed from one fund to finance activities in another fund. Shown as an expenditure in the originating fund and revenue in the receiving fund.

TSPC

The Teacher Standards and Practices Commission is an organization separate from the Oregon Department of Education which provides licenses to teachers and administrators.

UNAPPROPRIATED ENDING FUND BALANCE (UEFB)

Amount budgeted to carryover to the next year's budget to provide the district with needed cash flow until other money is received and to provide financial stability. This amount cannot be transferred by resolution or used through a supplemental budget during the fiscal year.
