Budget Document & Superintendent's Message

Adopted 2014–2015

LANE COUNTY SCHOOL DISTRICT 4J, EUGENE, OREGON

2014–15

BUDGET FOR THE FISCAL YEAR BEGINNING JULY 1, 2014

Budget Committee

Appointed Members:

Betsy Boyd
Tim Gleason, Committee Chair
Joan Obie
Sabrina Parsons
Evangelina Sundgrenz
Dan Williams
Jennifer Winters

Term:

July 1, 2011 to June 30, 2014
July 1, 2012 to June 30, 2015
July 1, 2011 to June 30, 2014
July 1, 2011 to June 30, 2014
July 1, 2013 to June 30, 2016
July 1, 2013 to June 30, 2016
July 1, 2012 to June 30, 2015

Board of Directors:

Jennifer Geller
Beth Gerot
Alicia Hays
Anne Marie Levis
Craig Smith
Jim Torrey
Mary Walston

Term:

July 1, 2013 to June 30, 2017
July 1, 2013 to June 30, 2017
July 1, 2011 to June 30, 2015
July 1, 2013 to June 30, 2017
July 1, 2011 to June 30, 2015
July 1, 2011 to June 30, 2015
July 1, 2011 to June 30, 2015

Clerk:

Dr. Sheldon Berman, Superintendent

Staff:

Dr. Simone Sangster, Chief Financial Officer
Andrea Belz, Associate Director of Finance
Sharon Myrand, Financial Management Analyst
John Gogol, Financial Management Analyst
Trena McMahan, Financial Management Analyst

Introduction

Welcome!

Bienvenidos! Para asistencia en español por favor llame al número (541) 790-7707.

The following document contains the 2014-15 budget of Lane County School District 4J, which was prepared in accordance with all laws and legal requirements of the State of Oregon, the Federal Government, and the District's mission, guiding beliefs and values, and goals as approved by the Board. This budget is designed to support instructional programs that will provide students with a high quality education within the resources available. It serves as a document that describes the goals of the District and how these goals are being met.

The budget document shows the District's funding structure, the resources available to the District in each fund, and each fund's requirements and appropriations. It also serves as a guide to operations throughout the coming fiscal year.

This document is available for public inspection online at www.4j.lane.edu/finance or through the Public Records / Superintendent's Office, 200 North Monroe St., Eugene OR 97402. Comments or suggestions should be addressed to the Eugene School District Board of Directors, Eugene School District 4J, 200 North Monroe St., Eugene OR 97402.

This section explains how the District's budget is organized and developed. The goal of the budget is to present a meaningful financial plan that can be readily understood by all members of our community and create a sound basis for decision-making.

All Budget Committee meetings are open to the public. Community members are invited to speak in favor of or in opposition to the budget or requested revisions. The budget process and calendar are described in the Executive Summary.

Document Format

The budget document is organized into eight major sections, as described below:

- Executive Summary
- Superintendent's Budget Message
- General Fund
- Other Funds
- Financial Forecast
- Information
- Program Budget Detail - All Funds
- Appendices

For quick and easy reference, summary information is provided in this **Introduction**. Inside the front cover is a list of the names and terms of the seven elected School Board and seven appointed Budget Committee members. They are jointly responsible for overseeing the development and approval of the District's budget. Following the list of members is this overview and the Distinguished Budget Presentation Award.

A **Table of Contents** for the entire budget document follows this Introduction. Individual tables of contents for each section are included on the back of each divider page.

The **Executive Summary** contains a brief summary of the 2014-15 budget, including a summary of changes in the District's service level. This section also contains a budget overview, a statement of the Board's mission and goals, a description of the economic climate in which the budget was developed, charts showing key indicators such as staff, enrollment, and fund balance, a description and diagram of the District's fund structure, a description of the underlying budget assumptions, and high level financial summaries for budgets in all funds.

The **Superintendent's Budget Message** presents a comprehensive description of District 4J's goals and how limited resources are being aligned to support these goals.

The **General Fund** and **Other Funds** sections provide narrative descriptions and financial summaries of the resources and requirements included in the budget, by fund. For each program area, key Board goals guiding the appropriation of spending authority, descriptions of services, and financial highlights and program changes are identified. Financial summaries show appropriations by object code for the budget year, and from the prior year's adopted budget, as well as actual results for the two previous fiscal years.

The long-term **Financial Forecast** provides the financial context for the development of the budget by describing the underlying assumptions for General Fund revenues, expenditures and reserve balances.

The **Information** section includes a profile of the District, financial management goals and policies, District-wide and department specific organizational charts, tax rate information, enrollment projections, staffing worksheets, salary schedules and position information, and other supplemental data.

The **Program Budget Detail** contains line item information on revenues and expenditures for each fund, presented in the State accounting format. Information is presented by fund, function (type of activity), and object (service or commodity obtained as a result of the expenditure).

The final section, **Appendices**, contains a list of all functions presented in the budget, as well as a glossary of terminology and list of acronyms used throughout the document.

Distinguished Budget Presentation Award

The Government Finance Officers Association of the United States and Canada (GFOA) presented a Distinguished Budget Presentation Award to Lane County School District 4J, Oregon, for its annual budget for the fiscal year beginning July 1, 2013. In order to receive this award, a governmental unit must publish a budget document that meets program criteria as a policy document, as an operations guide, as a financial plan, and as a communications device.

This award is valid for a period of one year only. We believe our current budget continues to conform to program requirements, and we are submitting it to GFOA to determine its eligibility for another award.

Executive Summary

Summary of the 2014-15 Budget

The driver behind both budgeted revenues and expenditures is projected enrollment. Projected 2014-15 enrollment is 15,843 students (excluding enrollment in alternative programs and charter schools), which is a decrease of 241 students or 1.5% from October 2013. Our revenue projections reflect enrollment changes for all District programs and charter schools.

The 2014-15 budget has been balanced using one-time funding. In May of 2014, the District received \$2 million in State School Funding due to the final reconciliation of 2012-13 activity and identified budget savings in the 2013-14 fiscal year of \$1.6 million. These balances will be used in 2014-15 to fund district operations, allowing the District to maintain student to classroom teacher ratios at or below 2013-14 levels. In addition, a Board Priorities Reserve of \$1.1 million has been created by reducing the General Fund ending fund balance from the Board policy level of 5.0% to 4.25%. This reflects a 0.25% increase over the 4.0% reserve balance approved for the 2013-14 budget year. The District is currently involved in contract negotiations with several employee groups – the results of these negotiations may impact staffing levels and General Fund expenses.

The District is cautiously optimistic about the General Fund revenue outlook. Recent economic news has been trending positive; however, any recovery in the economy will take some time to yield increases in state funding and tax revenues on which the District relies.

Budgeted General Fund revenue is projected to increase \$8.0 million to \$149.1 million, from \$141.1 million in the prior year. This revenue does not include transfers from other funds or the beginning fund balance. The primary sources of change in revenue are as follows: \$5.0 million increase under the state school funding formula; \$1.9 million increase in current property tax collections; and \$0.8 increase in local option tax receipts. The change in state funding represents the effects of a \$301 per ADMw increase from 2013-14 General Purpose Grant funding. It is based on 51% of the District's share of State 2013-15 K-12 revenue of \$6.55 billion plus \$100 million in additional funds for 2014-15.

For fiscal year 2014-15, General Fund operating expenses, excluding transfers, are projected to rise by \$9.4 million to \$149.8 million. This increase is driven by several factors. Compensation costs, excluding District retirement expenses, are expected to increase due to a projected return to a full school/work year from a 7-9 day furlough schedule in 2013-14 (\$4.4 million) and a projected step movement for all eligible employees on July 1, 2014 (\$1.6 million). In addition, partial step and cost of living increases implemented for staff during 2013-14 were primarily funded from employee group insurance reserves in 2013-14, but in 2014-15 the full cost of the step and cost of living increase will become the financial responsibility of the District (\$0.8 million).

Approval of recent measures to issue general obligation bonds has allowed capital investment and some transfer of capital improvement and investment costs out of the General Fund (General Fund relief). The \$170 million May 2013 bond measure will pay for technology and instructional materials at every school, improve school security, purchase school buses, and replace four of our older school buildings. The \$70 million May 2011 bond measure provides funding for required capital repairs including the replacement of roofs and synthetic athletic fields, improvements to instructional spaces and remodeling needed in response to school closures and consolidations, and upgrades to technology and building systems.

Risks to the Forecast and Budget

1. Enrollment – Students (ADMw)

State funding is based on the higher of the current year or prior year enrollment, which is counted as part of the District's Average Daily Membership (ADMw). Given the District's continued decline in enrollment, there is a possibility that the enrollment projection used to calculate the District's 2014-15 ADMw could be lower than expected.

2. State School Fund (SSF) Allocation

The budget has been built on assumed SSF Revenues for 2014-15 of 51% of \$6.55 billion plus an additional \$100 million added for the 2014-15 school year by the Oregon Legislature. Anything less will have a negative impact on the District.

3. State Property Tax Collections

The budget has been built based on expected assessed and real market values for property statewide and estimated collection rates. Any significant change in property taxes across the state will have an impact on the District (notably increased property tax collections in 2013-14 have contributed to increased SSF estimates for 2014-15).

4. Teacher Experience

A portion of the SSF allocation is adjusted for each year the District average teacher experience is more or less than the statewide average teacher experience. Our assumption for the 2014-15 budget is that District average teacher experience will be slightly higher than teacher experience at the state level. A decrease in the District's teacher experience level would negatively impact SSF funding.

5. PERS (Public Employees Retirement System)

The Oregon Legislature has taken several actions to reduce PERS employer rates for current and future years. These actions are currently under review by the Oregon Supreme Court. The District does not expect the outcome of this review to impact 2014-15 PERS rates, but if the Court does not uphold these actions PERS rates for future years could be significantly higher.

6. Local Option Property Tax

Since 2000, the District has benefited from local funding through a local option tax. This was first approved by local voters in 2000 and renewed in 2004 and 2008. The current measure expires at the end of the 2014-15 budget year. Since 2009, collections of local option levies have been limited by requirements imposed by Measures 5 and 50 and declines in property values. The budget includes an increase of \$760,000 in local option property taxes – in effect, we have matched projected 2014-15 tax collections to 2013-14 expected tax collection (as reflected in the District's December 2013 Long-Term Financial Forecast). Actual 2014-15 tax collection may be different depending on changes in property values, which are assessed as of January 1 each year, or changes in collection rates. Should these vary from our assumptions the budget will be affected – this may be a positive or negative variance.

7. Funding and Services received through the ESD (Education Service District)

Local ESD's receive state funding based on the enrollment of member districts. ESD use of these funds – flow through to districts and provision of services – is determined by vote of local member districts. A portion of state funding related to the District's enrollment will flow through Lane ESD to the District. As noted previously, changes in enrollment and state funding may impact this revenue stream.

8. Staffing Costs

Contracts between the District and its two largest employee groups expire on June 30, 2014. The terms of settlement will impact District operations and budget in 2014-15 and future years.

9. Bond Measures

In 2011 and 2013 voters approved bond measures of \$70 million and \$170 million, respectively. Elements of the General Fund budget, such as transfers to capital funds to purchase buses and equipment, have been suspended as a result of this measure; additionally, costs of maintenance, upgrades, and replacements to improve efficiency and better support educational needs are being paid for using bond funds.

General Fund Service Level Adjustments

GENERAL FUND SERVICE LEVEL ADDITIONS & REDUCTIONS, REVENUE ITEMS AND RESERVE STRATEGIES	\$	FTE
Additions and Reductions Resulting from On-going 2013-14 Supplemental Budget Actions	Addition / (Reduction)	
<ul style="list-style-type: none"> ▫ Addition of 64.35 licensed FTE (39.55 FTE classroom teachers, 16.00 FTE for elementary music and physical education instructors, 8.50 FTE for Essential Skills coordinators, and .30 FTE for EEA positions), a 1.0 FTE classified position for a Library Catalog Specialist, and \$200,000 for Professional Development ▫ Addition of Life Skills classroom (1.0 FTE classroom teacher, 3.75 FTE classified instructional assistants, and \$5,000 for classroom supplies) ▫ Addition of 1.0 licensed FTE for a School Nurse (budget correction) ▫ Addition of 0.35 classified FTE for a department secretary (budget correction) ▫ Addition of 1.50 classified FTE for Educational Assistants in Life Skills classrooms ▫ Addition of two part-time licensed practical nurse positions (0.50 FTE each) ▫ Warehouse courier and meal delivery services for ECCO's new Lane Community College location ▫ Additional transportation services for Teen Parent Program (net of ODE 70% reimbursement) ▫ Addition of 0.375 classified FTE for Educational Assistant, ECCO Child Development Center ▫ ECCO Facilities Lease agreement, telephone and non-district mail service provided by Lane Community College ▫ Correct budget for licensed employee 2013-14 Step and COLA increase (includes payroll costs) ▫ PERS rate adjustment ▫ Increase the hourly rate for classified Educational Assistant substitutes (includes payroll costs) ▫ Additional transportation costs for fuel, oil and tires 	6,529,000	65.35

Budgeting Overview

Budgeting and Accounting

The budget was prepared in accordance with Oregon Local Budget Law, which establishes standard procedures for Oregon municipalities, encourages citizen involvement and controls expenditures of public funds. It was also developed in conjunction with Generally Accepted Accounting Principles (GAAP), a uniform minimum standard for financial accounting and reporting. Governmental fund revenues and expenditures are budgeted and accounted for using the modified accrual basis of accounting. This is the same basis of accounting used in the District's audited Governmental fund financial statements. Under this basis, revenues are recognized when they become both measurable and available. "Available" is defined as collectible within the current period or soon enough thereafter to pay liabilities of the current period. Revenues subject to accrual include property taxes, interest revenue and charges for services. Property taxes are considered to be available if they are collected within 60 days after year-end.

Expenditures are recorded when the related fund liability is incurred. Principal and interest on long-term debt are recorded as fund liabilities when due.

The accrual basis of accounting is used by proprietary fund types; the District uses two such funds – the Insurance Reserve Fund and the Postemployment Benefits Fund. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred.

The Budget Process

The budget is a financial plan that estimates the cost to operate District schools and programs for the next fiscal year. The process by which the District prepares its annual budget is in accordance with provisions of Oregon Local Budget Law (ORS 294), which provides standard procedures for the preparation, presentation, administration and appraisal of budgets. The law mandates public involvement in budget preparation and public exposure of proposed programs. The law also requires that the budget be balanced; that is, projected resources must equal projected requirements in each fund.

Budget preparation takes several months and involves both building-based and central staff. A flowchart identifying the steps involved in the budget process is provided following this section.

The Budget Committee typically meets in December or January to receive enrollment and financial projections and to give direction to staff on the development of the proposed budget. To address special circumstances, meetings may also be held in February and March. The Budget Committee meeting to review the proposed budget is generally held in late April/early May. Prior to presenting the proposed budget, the District must publish a notice of the meeting once in the local newspaper, five to 30 days before the meeting date, and post the notice on the District's webpage at least ten days before the meeting date.

Once a document is given to the Budget Committee, citizens may access the information on the District's webpage at <http://www.4j.lane.edu/finance/docs/>.

At the April/May Budget Committee meeting, the Superintendent presents the budget message, which explains the proposed budget and identifies significant changes in District programs or financial condition. At this meeting, or a subsequent meeting, the Budget Committee receives public comment, makes revisions, and approves the budget. The Committee may meet as many times as needed to revise and complete the budget.

The budget approved by the Budget Committee is then forwarded to the School Board for adoption in June. A public hearing must be conducted at the meeting when the budget is presented as an item for future action. Notice of the public hearing and a summary of the budget must be published once in the local newspaper five to 30 days before the hearing. The notice indicates where the complete budget document is available for inspection.

After the hearing, the Board can change the budget estimates and tax levy approved by the Budget Committee. However, if taxes needed to balance the budget are increased by any amount beyond the level approved by the Budget Committee or expenditures in any fund are increased by ten percent or more, the amended budget summary must be republished and another budget hearing must be held. After the budget hearing and before June 30, the Board must adopt the budget, make appropriations, and impose and categorize each tax levy.

Supplemental Budgets

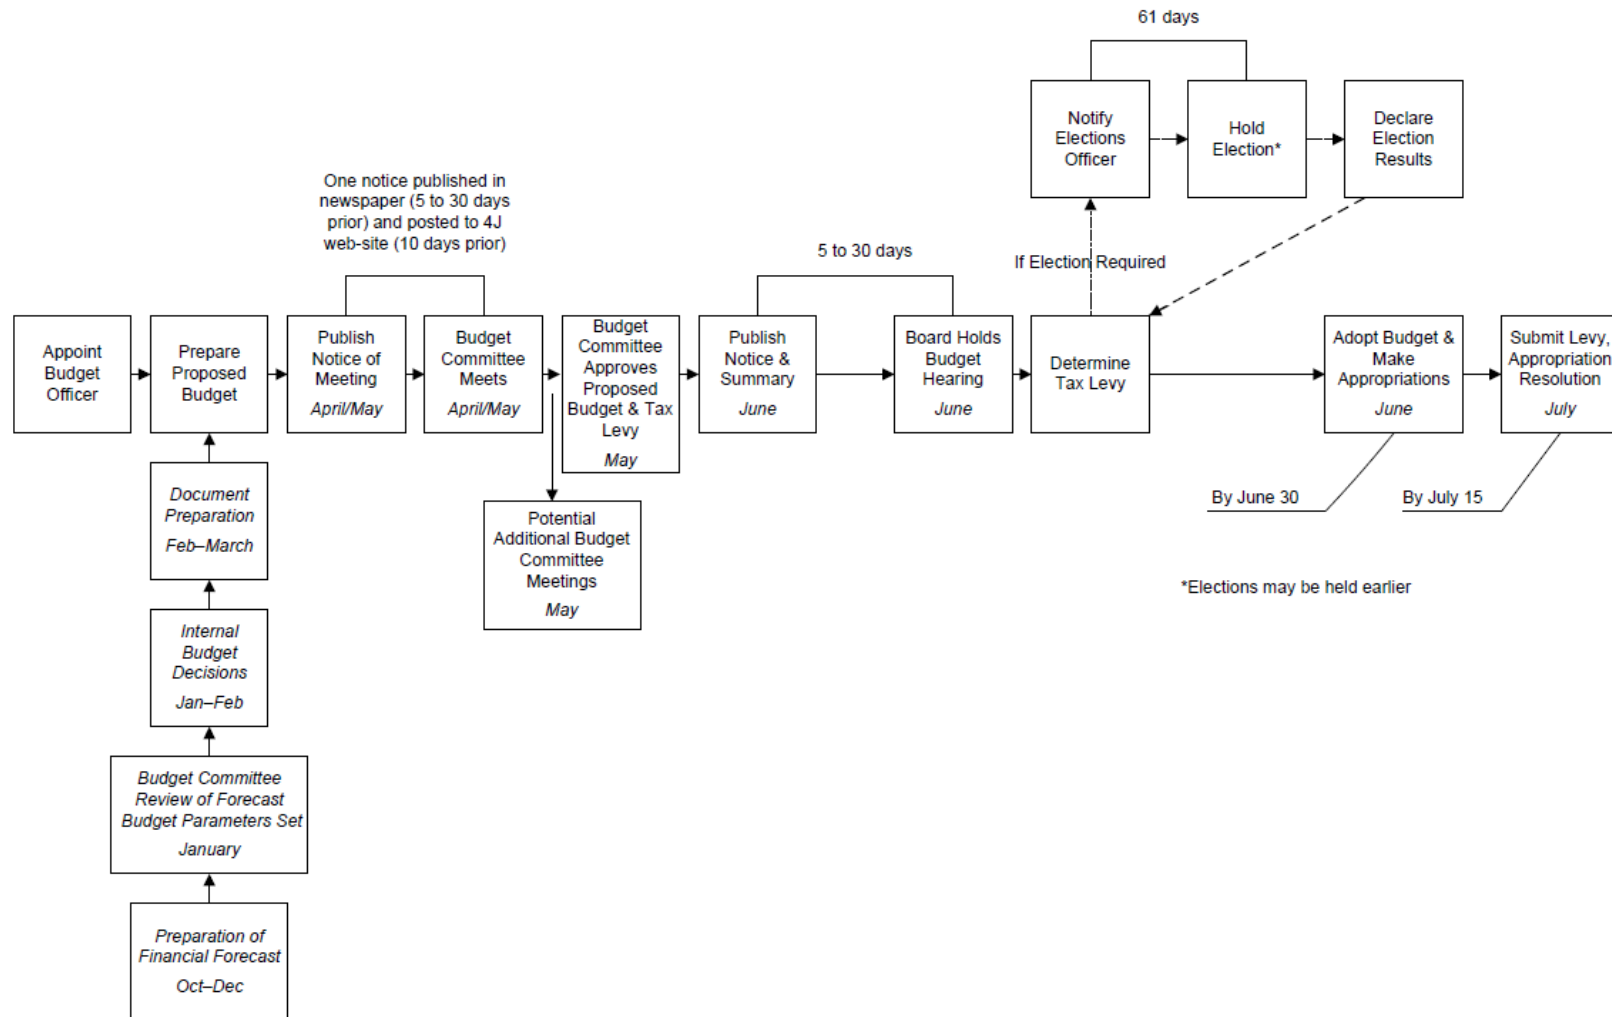

If the District receives unanticipated revenues or a change in financial planning is required, a supplemental budget may be adopted to authorize a change in the budget within a fiscal year. A supplemental budget cannot be used to authorize a tax levy.

The Board may adopt a supplemental budget at a regular public meeting if expenditures in the supplemental budget are less than ten percent of the annual budget of the fund being adjusted. If the expenditures exceed ten percent, the Board must publish the supplemental budget and hold a special hearing.

2014–15 Budget Calendar	
December 2, 2013	Budget Committee addressed administrative actions (election of officers, adoption of the meeting schedule, and introduction of new members) and received the 2013-14 enrollment report, including projections for future years. Staff reported on 2012-13 financial results, actions taken during the 2013 Special Session of the Oregon Legislature, and provided an update on local option levy revenue based on November 4th reported amounts.
January 27, 2014	Financial Services staff presented the 5-year financial forecast. The Superintendent discussed key factors/decisions in the development of the 2014-15 budget, and received comments from the Committee on budget development.
April 28	The Superintendent and Financial Services staff presented the 2014-15 proposed budget. The presentation included a brief discussion of changes from the 5-year forecast, and highlighted for the Budget Committee key factors/assumptions for the proposed budget. Time was set aside for questions/requests from Committee members.
May 5	The Budget Committee held a work session on the proposed budget.
May 19	The Budget Committee completed work on the 2014-15 budget and approved the budget.
June 4	The School Board held a public hearing on the approved budget and considered the adopted budget as an item for future action.
June 18	The School Board voted to adopt the budget.

The Budget Process: Requirements of Oregon Local Budget Law

District 4J activities or dates in italics

Board of Directors Guiding Beliefs and Values

District Mission

- Do what's best for all 4J students
- Continue to learn and grow
- Respect and care about each other

In order to meet the District Mission Statement above, the Board has adopted the following guiding beliefs and values:

Students

- We believe that all children can learn.
- We believe that our students' education and welfare are our most important commitments.
- We believe that a student's success in school should be independent of factors such as race, ethnicity, gender, socio-economic status, disability, native language, religion, and sexual orientation.
- We believe that public schools should foster development beyond academics such as character, creativity, resourcefulness, citizenship, an understanding of workplace expectations, respect for diverse cultures, and a lifelong love of learning.

Staff

- We value a highly qualified, caring and diverse staff that reflects our student population and believe they are the key to meeting our goals for students.
- We believe in collaborating with staff in deciding what is best for our schools and our students, recognizing that not everyone may agree.
- We believe that it is essential for staff and Board members to hold high expectations of all students, that these expectations are critical to student success, and that we must hold ourselves and each other accountable for the achievement of all students.
- We believe that high quality instruction is integral to student success and best achieved by providing strong instructional leadership, targeted professional development, and system-wide accountability and support for student growth.

Community

- We believe that the Board and staff make a difference in learning for our children by developing relationships and effectively engaging our families, community and local, state and federal governments on social, political and economic challenges and inequities.
- We value public support for our schools and believe that the Board plays a critical role in generating and sustaining community partnerships and ongoing financial and other support.

Leadership

- We believe it is critical for the Board and staff to plan and direct resources consistent with our beliefs and values.
- We value continual learning for all—Board, staff and students—and believe that it is essential to student success in school.

2013-14 Board Goals and Annual Agenda

Excellence, equity and choice are the core values that have shaped the Board's direction and actions over the last ten years.

In School District 4J, we believe that every student in every school can excel and that it is our responsibility as a board to ensure that every student has equitable access and opportunity. While our district has many strengths and successes to build on, we also must improve to make this vision a reality. In our current system, inequities exist among schools in terms of their ability to address students' educational needs. These inequities affect student performance and contribute to an achievement gap.

The agenda for the Eugene School District 4J Board of Directors is established in accordance with District policy as a statement of those issues that the Board believes are the highest priority for action in the coming year and beyond. It is also a statement of the outcomes and results against which the Board will evaluate the District's and the Board's success, and it reflects expectations consistent with state college and career readiness goals and federal requirements. The agenda is reviewed and modified at the beginning of each school year.

A. CHALLENGES

We recognize that implementing the agenda and achieving the Board goals may be affected by the availability of District financial and staff resources. Despite reductions in staff and school days, we are setting ambitious goals for student achievement. We are actively aligning our resources to enhance learning and deliver the best possible results for every student.

Increasing student achievement is a goal that has been challenged by lack of resources over the last decade. This is discussed further in the Superintendent's Budget Message. Future financial and operational issues are described in the Financial Forecast section.

These outcome goals and key results help us focus our efforts where improvement is most needed. It does not describe everything we are dedicated to doing. Although not all programs and services are specifically addressed in these goals and key results, we are committed to providing a comprehensive education that meets the needs of each student.

These Board goals will allow us to focus our attention on a few key priorities to ensure that we can succeed; that we continue to work within our means; and that we can measure our progress along the way. Upon the Board's adoption of these goals and key results, the Board directs the Superintendent to develop superintendent, department, and school-level outcome goals that will help achieve the key results.

B. GOALS

The Board adopted the following goals on November 6, 2013.

I. STUDENT ACHIEVEMENT

Goal: Increase achievement for every student and close the achievement gap.

The Board is committed to ensuring that every student graduates and is college and career ready. Every school must improve teaching and learning with a focus on the Common Core State Standards. Our expectation is that every student will make at least one year of academic growth in each school year. All staff shall provide the support needed to actively engage students in their learning. Some schools will require additional resources to achieve district and state academic goals and close the achievement gap.

II. STAFF CAPACITY BUILDING

Goal: Build our staff capacity to perform at a high level.

Staff capacity to deliver high quality instruction is a key lever to student success. Collaborative, data-informed decision-making processes, proficiency in culturally responsive practices, and continued systemic professional development are essential to our success as a school district.

III. STEWARDSHIP OF DISTRICT RESOURCES

Goal: Provide prudent stewardship of district resources to best support student success, educational equity and choice.

The Board will direct district resources to support the instructional core and to provide educational equity and choice while maximizing administrative and operational efficiency within a sustainable budget. The District must also respond to declining enrollment, regional enrollment patterns, a student population with more diverse needs, uncertain revenue streams and escalating costs.

IV. STAKEHOLDER ENGAGEMENT

Goal: Engage students, families, staff, the community, elected officials and other stakeholders in supporting our schools and improving educational outcomes for all 4J students.

In order for the Board to provide effective leadership, it must communicate with and establish working relationships with students, families, staff, the community, and other governmental agencies, and engage these stakeholders in supporting our students and schools.

C. KEY RESULTS AND OBJECTIVES

Key results are the specific changes in behavior, knowledge, skills, status and level of functioning that will be observable and measurable and should allow us to answer the question: “How will we know we were successful?” Our outcome goals should be attainable within 1 to 4 years, while longer-term goals should be achievable within a 4 to 7 year timeframe.

I. Student Achievement

Goal: Increase achievement for every student and close the achievement gap.

Key Results and Objectives

1. By 2015-16, the district will implement the Common Core State Standards, providing clear goals for student learning in English language arts and math and focusing instruction on the knowledge and essential skills that each student will demonstrate for college and career readiness and to achieve the Oregon diploma.
2. In 2013-14, continue tracking both formative academic growth and college and career readiness measures and Oregon Achievement Compact targets, so that this data can inform instruction and resource allocation decisions. These measures include:
 - the proportion of ninth graders earning six credits;
 - the percentage of students fully scheduled at each grade level;
 - attendance rates by grade level;
 - EXPLORE college and career readiness results for eighth and ninth grade students;
 - PLAN college and career readiness results for tenth grade students;
 - OAKS (Oregon Assessment of Knowledge and Skills) and essential skills performance for all students and for subgroups;
 - graduation rates for four-year and five-year cohorts;
 - the number and percentage of graduates who enter two-year and four-year colleges; and

-
- the number of graduates who are still enrolled in postsecondary education 16 months following their high school graduation.
3. By 2013-14, the district's overall percentage of 4J students who meet the Oregon Assessment of Knowledge and Skills (OAKS) benchmarks in reading, writing and math will increase by 12% from 2007-08, with the target adjusted for the change in the passing score. The gaps for African American, Hispanic, Native American, multi-ethnic, special education and economically disadvantaged students will be cut in half, with the target adjusted for the change in the passing score. Those students in the class of 2014 not meeting the OAKS benchmarks in reading, writing, and math will show mastery of essential skills in those areas using any of the alternatives to OAKS approved by ODE so that they can satisfy graduation requirements.
 4. By 2020-21, the five-year cohort graduation rate for 4J students in regular education will reach 100%. Students with disabilities, after four or five years of high school years, will attain a regular, modified, or extended diploma or a certificate of program completion, resulting in a cumulative 100% five-year completion rate.

II. Staff Capacity Building

Goal: Build our staff capacity to perform at a high level.

Key Results and Objectives

1. In 2013-14, continue implementing our plan to expand access to robust data and analysis that informs instruction, personalizes learning and better supports district planning and leadership decision-making by:
 - improving the timeliness and usability of the data through Synergy, the 4J data portal and other tools, and
 - expanding access to such information to all staff members.We will measure our progress in this area through user surveys.
2. By June 2014, all schools will be effective using formative and summative student data to inform instruction and personalize learning and to identify strategies for providing support to students at risk of falling behind.
3. By June 2014, implement collaborative practices K-12 that lead to a more systemic and flexible approach to teaching and learning, such as job/school embedded professional development, common planning time, lesson study and instructional teaming strategies.
4. By 2014-15, complete implementation of our aligned teacher and administrator effectiveness and growth systems, with the purpose of developing and retaining a highly skilled and high performing workforce. Improve alignment of our principal evaluation and teacher evaluation. By June 2014, all teachers and administrators will have developed SMART goals that specify growth goals in student academics, professional practice, professional development, as well as a related action plan.
5. By June 2015, train additional teacher cohorts to strengthen teacher expertise district-wide in best practices that enhance instruction, student achievement and college and career readiness. Deepen the expertise of principals to observe and support high-quality instruction.

III. Stewardship of District Resources

Goal: Provide prudent stewardship of district resources to best support student success, educational equity and choice.

Key Results and Objectives

1. By 2014-15, the district will develop a sustainable budget strategy that
 - funds a full school year and reasonable class sizes, reaching a target of 22 students per classroom teacher at elementary and 25 students per class at middle and high school;
 - supports staffing and programs needed to achieve a 100% five-year cohort graduation rate, including fully scheduling all high school students;
 - provides full-day kindergarten;
 - provides a sustainable health services program;
 - maintains reserves at or above board targets;
 - minimizes the use of one-time funds for ongoing expenses;
 - optimizes the use of short-term resources to reach student achievement goals, and
 - increases operational efficiency while reducing long-term capital needs.
2. During 2013-14, the district will review and adjust our needs index methodology for calculating licensed teacher staffing for individual schools. This will improve the transparency, equity, and effectiveness of resource allocations. It will also ensure that resources are allocated to schools based on the needs of students within those schools.
3. By September 2017, complete construction of Howard, River Road/el Camino del Rio, Roosevelt and Jefferson school buildings. Beginning in 2014, provide annual reports to the community from the Bond Review Committee regarding the investment of 2013 bond measure funds.
4. By November 2013, determine whether to continue receiving services from the Lane Education Service District or develop a plan to provide those services within the district or in consortium with other providers by 2014-15.
5. By June 2014, dispose of the Civic Stadium properties and review the district's land holding and property classification as in use, reserve or surplus.
6. By June 2014, improve and centralize processes and reduce energy consumption to further leverage our taxpayer resources.

IV. Stakeholder Engagement

Goal: Engage students, families, staff, the community, elected officials and other stakeholders in supporting our schools and improving educational outcomes for all 4J students.

Key Results and Objectives

1. In 2014-15, the board will work with other local school districts, the Lane County legislative delegation, the Governor's Chief Education Officer and education advisor, the Deputy Superintendent of Public Instruction, the City of Eugene, other elected officials, OSBA and other groups to advocate for legislation in support of increased student achievement envisioned in Oregon's 40-40-20 goal, the funding level identified in the Oregon Quality Education Model and the local control of schools.
2. The board and staff will work with the 4J Equity Committee to create community partnerships and connections that increase the opportunities for every 4J student to meet college and career readiness goals and receive the related services that they need to succeed in school.
3. By June 2014, the board will provide timely parent access to all of their student's information about grades, assignments, progress and attendance through the district's

student information system, so that families can better support student learning and success in school.

4. By June 2014, the Board will consider new strategies for expanding public engagement and provide direction for 2014-15.

D. STRATEGIES

Much of the work of the District is embedded in the key results and objectives. Each department has identified work or strategies to achieve specific Board goals. By and large, departments describe their strategies, initiatives and objectives, and resources required in the General Fund section. Work completed through the Capital Projects Fund reflects the District's commitment to prudent stewardship of resources such as facilities, technology, and curriculum, while the Federal, State and Local Programs Fund provides additional funding for the Board's goals of student achievement and staff capacity building.

Departments and programs will work to enhance and define their scope of work, identify milestones and measures of success, and develop implementation plans. This is an evolving process.

Sustainable Budget Strategy Direction: School Board Decisions

During the 2010-11 year, the Board led a conversation on strategies to address long-term fiscal challenges. State revenues remained stagnant and personnel costs continued to increase. Many of these directions were implemented during 2011-12. Long-term items such as school closures and consolidations, delayed step increases, reductions in staffing services and programs, and reductions in materials, supplies, and services have remained. Short-term reductions have been evaluated annually since then as current service budgets have continued to be in deficit.

February 2, 2011

Reduce Staffing, Services and Programs	Efforts Made Toward These Goals as of 2014-15 budget (descriptive only, costs vary over years)
<ul style="list-style-type: none"> • Reduce administrative and classified staff by 10% (62 FTE, \$3.5M) • Increase student-to-teacher ratio by 2.5 (55 FTE, \$4.6M) to 4 (84 FTE, \$7M) • Eliminate or reduce teachers on special assignment and staff development specialists (6 FTE, \$0.5M) • Total Cost/Savings Target: \$8.6M–\$11M 	<ul style="list-style-type: none"> • Administrative, professional, and classified staff were reduced by 58 FTE in 2011-12; the net reduction between 2010-11 and 2014-15 adopted budgets is 37 FTE. • In 2011-12 the student-to-teacher staffing ratio was increased by 3 students at all school levels; the net reduction in staff between 2010-11 and 2014-15 adopted budgets results in an increase of 2.42 at elementary, 2.00 at middle, and 2.38 at high schools. • TOSA and SDS were reduced 2.5 FTE in 2011-12; between 2010-11 and 2014-15 adopted budgets the staffing has increased by a net 5.7 FTE as funding for these positions was shifted from grants to the General Fund.
Compensation and Benefits, Including Fewer School/Work Days	
<ul style="list-style-type: none"> • Negotiate \$5.5M–\$10M in compensation reductions, potentially including some of the following elements: • 9–12 unpaid furlough days — one per month based on work year, e.g. 9 or 10 days for most school-based staff (Cost/Savings Target: \$4M) • Negotiate a \$1.5M–\$6M reduction in salary and benefits costs. Possible elements include: pay freeze (including no step/column increase), freeze in benefits costs, 5% salary reduction, reduction in PERS employer pick-up (GF Cost/Savings Target: \$1.5M–\$6M) 	<ul style="list-style-type: none"> • Over the course of intervening years, employee groups have accepted compensation adjustments that have prevented even deeper financial reductions. • Since 2011-12 furlough days have been: 6 days (1 permanent) in 2011-12; 3 to 5 days in 2012-13; and 7 to 9 days in 2013-14. • In 2011-12 and 2012-13 employee groups agreed to no cost of living increases; in 2013-14 the increase was between 0.8% and 1%. • Steps were delayed (partly waived in 2011-12) during part of this period. • Health benefits increased between \$25 and \$45/ month per full time equivalent between 2011-12 and 2013-14.

<ul style="list-style-type: none"> • Total Cost/Savings Target: \$5.5M–\$10M (must be negotiated with employee groups) • <i>Direction for future years: Continue furlough days, consider a 4-day work week if necessary, and negotiate other contract adjustments to minimize/contain ongoing costs to District, as needed.</i> 	<ul style="list-style-type: none"> • See above.
School Closures and Consolidations	
<ul style="list-style-type: none"> • Close Coburg Elementary in 2011, merge neighborhood with Gilham • Close Crest Drive in 2011, merge neighborhood with Adams • Close Parker in 2011, merge neighborhood with Edgewood and Camas Ridge • Close Meadowlark program in 2011, merge neighborhood with Willagillespie • Leave Charlemagne at Fox Hollow for now • Review non-language alternative schools (Corridor and Family School) • The board did not act on a recommendation to close Twin Oaks in 2012 • <i>Note: This school consolidation plan will require some boundary changes</i> • Cost/Savings Target: \$1M 	<ul style="list-style-type: none"> • School closed. • School closed. • School closed. • School closed. • Charlemagne still at Fox Hollow in 2014-15. • Public input sessions were held and the board decided to close ATA Elementary school. • Twin Oaks still open 2014-15.
Shared Services and Contracting Out	
<ul style="list-style-type: none"> • Identify current services that could be provided by the education service district and transfer these services to Lane ESD • Cost/Savings Target: \$0.5M • <i>Direction for future years: Explore service-sharing options with other districts that could reduce costs. Look at consolidating some services with other school districts and/or contracting out some services to the private sector.</i> 	<ul style="list-style-type: none"> • The State has made provision for districts to withdraw from ESDs. • Lane ESD services have been analyzed and the most cost effective arrangement was selected for 2014-15.
Materials, Supplies and Services	
<ul style="list-style-type: none"> • 15% reduction in materials & supplies, contracted services budget • Centralize purchasing of materials & supplies, equipment 	<ul style="list-style-type: none"> • In 2011-12, material and supply budgets were reduced by 20% for all central office and administration departments. • Department and school discretionary budgets have not been adjusted for inflation for 6 years. • Certain technology purchases have been centralized; a centralized copier solution has been implemented.

<ul style="list-style-type: none"> • Cost/Savings Target: \$1.1M 	
School and Instruction Redesign	
<ul style="list-style-type: none"> • Stakeholder Task Force to consider grade reconfiguration and make a recommendation to the Superintendent and Board • Redesign instructional delivery model for secondary schools to accommodate fewer students & less resources • Cost/Savings Target: TBD • <i>Direction for future years: Potential reconfiguration, if recommended. Consider revising school calendar to have shorter summer breaks and/or 4-day school weeks.</i> 	<ul style="list-style-type: none"> • Grade reconfiguration would be disruptive to the system and during the 2011-12 facility evaluation, the Board opted to retain the current grade and school configuration, • Starting in 2013-14 the four conventional high schools moved to a 3 by 5 schedule.
Non-Instructional and Student Support Programs	
<ul style="list-style-type: none"> • Reduce General Fund support for athletics programs and other extracurricular offerings by 25% • Cost/Savings Target: \$0.5M 	<ul style="list-style-type: none"> • Speech/ debate, and 9th grade and JV baseball and softball have been eliminated; coaching positions reduced; participation fees increased.
Reserves and One-Time Funds	
<ul style="list-style-type: none"> • Use up to \$5M reserves/one-time funds to maintain and bridge to 2012–13 • Cost/Savings Target: \$5M one-time • <i>Direction for future years: Use up to \$3M from sales of surplus property or lease revenue in 2012–13. Return General Fund Reserve and Contingency Fund to 90% of board targets in 2013–14, and to Board targets in 2014–15.</i> 	<ul style="list-style-type: none"> • Since 2011-12 reserves have been drawn down as follows: \$2.3M; \$5.5M; \$2.4M to the point where almost no reserves are left for the 2014-15 budget. • <i>The sale of surplus property fund has been drawn down. In 2014-15 the General Fund Reserve will be targeted to 4.25%, which is 85% of the Board policy level.</i>
Revenue Enhancements	
<ul style="list-style-type: none"> • Increase community use fees by 20% (\$20K) • Lease some closed schools to charter schools or others (\$200K) • Revenue Target: \$0.22M GF • <i>Decision to come: Bond measure. The board will consider at a future meeting whether to place a bond measure on the May 2011 ballot to address critical needs, upgrade some aging school facilities, and shift some repairs, improvements and technology costs out of the</i> 	<ul style="list-style-type: none"> • Community Use fees for most user classifications increased in 2011-12. • The number of district buildings leased to charter school increased in 2011-12 when Coburg was leased to Coburg Community Charter School, Willard to Village School, and a portion of Dunn to Ridgeline, which has subsequently purchased its own facility. • <i>In May 2011, District voters approved a bond measure for \$70 million for critical needs, some upgrades, and shifting some costs out of the operating budget.</i> • <i>In May 2013, District voters approved a bond measure for \$170 million for</i>

<p><i>operating budget (General Fund offload = \$1M)</i></p> <ul style="list-style-type: none"> • <i>Direction for future years: Sell or lease Civic, Willard, or other vacant facilities, with 50% of proceeds to the General Fund Reserve. Implement any new revenue sources (e.g. a local tax to support schools) to mitigate reductions.</i> 	<p><i>replacement of instructional materials, instructional technology, acquisition of buses, and school facilities.</i></p> <ul style="list-style-type: none"> • <i>The Board selected an offer from the City of Eugene during the recent sale process for Civic Stadium. The details of this sale should be finalized in February 2015.</i>
Other Options	
<p>Direction for 2011–12 and future years:</p> <ul style="list-style-type: none"> • Consider these options if they would result in actual cost-savings or more efficient operations: • Offering early retirement incentives • Adopting single-platform technology systems for centralized purchasing & technical support • Minimizing site-based decision making, increasing centralized direction for staffing (e.g., program staffing for student support services) <ul style="list-style-type: none"> • GF Costs/Savings Target: TBD 	<ul style="list-style-type: none"> • An early retirement option was offered for licensed and classified staff in 2013. • The technology department has become more instrumental in directing school-based technology following the passage of the 2013 bond. • Program staffing has been adopted for elementary specialists, counselors, athletic support, freshman specialists, IB coordinators, and for the following student groups: high needs supplement, ECCO, 9th grade fully-schedule, and IHS adjustment.

Economic Climate

State Economic and Revenue Forecast

The District's General Fund revenue relies heavily on state resources (2014-15 – 90.6%); therefore it is important to consider the state's economic picture as a backdrop to the District's annual budget. The June 2014 State Economic and Revenue Forecast, prepared by the Office of Economic Analysis (OEA), provides details on the state's economic status and may be viewed in its entirety at the OEA's website. We recommend the reader refer to the website <http://www.oregon.gov/DAS/OEA/pages/index.aspx> for the most recent economic information. The next page provides the Executive Summary of Oregon's Economic and Revenue Forecast.

EXECUTIVE SUMMARY

June 2014

A broad consensus of economic forecasters and industry leaders both in Oregon and elsewhere in the U.S. has become increasingly optimistic about the pace of the recovery. Oregon is once again a leader in terms of job gains, with the pace of statewide growth now matching the best years of the housing boom

U.S. job growth thus far in 2014 is on pace to be the strongest since 2000 and the major weights on the recovery have been lifted. To borrow a phrase from Federal Reserve Chairwoman Janet Yellen, the U.S. economy paused in early 2014, due in part to bad winter weather. However, most economic indicators have thankfully picked back up in the spring. Household balance sheets are largely back in the black, housing is poised to reaccelerate and corporations' financial positions remain quite strong. As the nationwide expansion continues to pick up momentum over the next two to three years, the feel good nature of the recovery may finally appear.

In Oregon, the economic acceleration the state experienced in 2013 has continued into early 2014. Oregon was spared some of the weather-related problems seen elsewhere in the U.S. Statewide job growth is currently at the strongest pace since 2006. This improvement was largely expected as the two major weights on the economy lifted: housing and government. Growth statewide picked up primarily due to regions outside of the Portland Metropolitan Area joining in the recovery. In the first quarter of 2014, 4 out of 5 Oregon counties saw job gains over the year, marking the same share as during the mid-2000s expansion. Although the rate of growth for many counties remains below previous expansions, most regions of the state are experiencing gains today. As the recovery continues, the housing market regains its footing and the net in-migration the state is accustomed to picks up, economic conditions should improve across much of Oregon.

The additional job growth assumed in the June 2014 forecast will bring with it additional state tax collections in fiscal year 2015 and beyond. As such, although recent tax collections have mirrored the outlook, the revenue forecast has been revised upward somewhat as well.

The April 2014 tax filing season was not a good one for states like Oregon that depend heavily on personal income tax revenues. Year-end tax payments fell sharply across the U.S., with the typical state seeing collections fall on the order of 25% during the peak processing season. Oregon's personal income tax collections were not immune to this weakness. Sharp declines in late April and May have fully erased early gains posted during what began as a strong 2014 season for Oregon's tax collections.

Despite declining year-end tax collections, the outlook for personal income tax revenues in Oregon remains on track for now, with collections closely matching the Close of Session forecast that was used by the legislature when crafting the 2013-15 budget. Unlike the case in many other states that depend on personal income taxes, no large emergency budget adjustments are called for at this time.

Despite increased optimism, the 2013-15 biennium is still young, and therefore significant uncertainty remains. One more income tax filing season remains between now and the end of the biennium. As such, many risks to the outlook remain. On the upside, if asset markets continue to boom or if Oregon's traditionally strong migration trends and labor force growth reappear, a short-term spike in revenues remains possible during the coming months. Although the bar is set high in fiscal year 2015 with strong revenue growth expected, it would only take about \$70 million in unanticipated revenue to trigger the kicker law at this point.

Revenue growth in Oregon and other states will face considerable downward pressure over the 10-year extended forecast horizon. As the baby boom population cohort works less and spends less, traditional state tax instruments such as personal income taxes and general sales taxes will become less effective, and revenue growth will fail to match the pace seen in the past.

Staffing History

The charts presented below show District staffing for a five year period. Staff funded in the Federal, State and Local Programs Fund have been excluded from this presentation, as staffing can fluctuate significantly from year to year with the availability of grant funding. Staffing for 2008-2009 is also presented to illustrate the impact of the economic downturn on staffing. The first chart (below) is a summary presentation, while the second (beginning on the next page) presents staffing at a more detailed level. Both charts present full time equivalent (FTE) staffing.

¹ FTE associated with functions 2115 (Student Safety), 2122 (Counseling Services), 2190 (Service Direction for Special Programs), 2411 (Principal Services), and 2490 (School Administration) has been presented in the Classroom Services and Support section to provide a more comprehensive view of staffing resources allocated to schools and special programs.

² As a result of contract negotiations in the spring/summer of 2013, the licensed staff reductions reflected in the 2013-14 Adopted Budget were restored in the 2013-14 Supplemental Budget #1 as follows: a) Elementary staffing: 19.50 FTE classroom teachers, 16.0 FTE for music/PE, and 4.5 FTE for Essential Skills Coordinators; b) Middle School staffing: 8.20 FTE classroom teachers; and, c) High School Staffing: 11.85 FTE classroom teachers and 4.0 FTE Essential Skills Coordinators.

³ Special Education Services - to complete the transition of ESD students to 4J classrooms the District added 0.50 FTE for a secretary and 1.0 administrator FTE for an ESS Administrator.

Significant Trends and Adjustments:

Licensed Staffing

Over the last 5 years, projected budget deficits and a continued decline in regular program enrollment have resulted in a significant reduction in licensed positions within the District. To achieve a balanced budget, as required by Oregon Budget Law, the Student to Teacher Ratio used to determine school and program staffing has been increased by 2.0 to 2.4 students over the past 5 years, depending on grade level. The most significant increase occurred in 2011-2012, when the District increased ratios for all grade levels by 3 students to address a deficit of \$21.8 million.

In 2012-13, 4.11 FTE counseling positions previously budgeted under School Support were reallocated to schools, reducing licensed staffing under Other Student Support Services and increasing staffing for Classroom Services and Support. In 2013-14, the District began rebuilding staffing under Student Support for nursing and speech therapy. Libraries, Curriculum and Staff Development additions in 2014-15 will include licensed positions for media specialists and instructional staff development. Within the Technology Department, one Teacher on Special Assignment (TOSA) was added in 2013-14 and two additional TOSAs were added in 2014-15 to support bond-funded technology projects.

Classified Staffing

The state combines classified and professional positions under the category of classified staffing. When combined, the District has experienced an overall decline in classified staffing; however, as

separate staffing categories, classified staffing has declined over the last five years, while professional staffing has grown. We have presented separate discussions of District classified and professional staffing changes to provide additional detail.

a) Classified Staffing

Managing projected budget deficits over this 5-year period has impacted classified staffing, with the most significant decrease occurring in 2011-2012. To balance the District's 2011-2012 deficit of \$21.8 million, classified staff at schools, in custodial services, and at the central office were reduced by 10%. During this period, staff previously paid for with General Fund dollars (approximately \$1 million) were moved to the Capital Projects Fund. Classified staffing within Nutrition Services also continues to decline. In 2011-12 this program was directed to become self-supporting. Moving to a balanced budget, while at the same time facing reductions in revenue and increasing personnel costs, have necessitated continued reductions in staffing for the program.

The significant increase in classified positions reflected in Special Programs relates to the movement of special education services from Lane Education Service District to 4J in 2013-14.

b) Professional Staffing

The addition of 9.735 FTE professional staff over the 5-year period is primarily due to capital projects requirements related to bond-funded initiatives. Using bond funding, the Facilities Department added 3.0 FTE for project management and Technology increased by 1.575 FTE to support bond-related initiatives.

Increases of 2.41 FTE in Libraries, Curriculum and Staff Development have been made to support data analysis and instruction. Technology added .275 FTE to support services, and Community Services staffing increased by .722 to fund a supervisory position for the Young Parent Program at ECCO. Financial Services added 1.0 FTE to support accounting and budget functions, and Communications and Intergovernmental Relations increased their grant writer to .75 FTE.

Administrators

Over the 5-year period, administration has grown by 4.410 FTE. This growth is primarily due to reorganization within the Human Resources Department. Three positions have been added to the department to support recruitment and compensation administration, workforce planning/staffing, and benefits. These additions were partly funded through the elimination of similar professional and supervisory positions. The Libraries, Curriculum and Staff Development Department added two administrative positions related to K-12 curriculum and college/career readiness, which were funded through the elimination of positions in other classifications. Additional adjustments, including the transfer of the Instruction Technology Coordinator to the Technology Department, have reduced administration for the Libraries, Curriculum and Staff Development Department by .4 FTE and increased Technology's level of administration by .86 FTE.

The growth in Special Programs administration is due to the movement of special education services from Lane Education Service District to 4J. As of 2014-15, the District will have added 1.45 FTE for administration of services formerly offered by the ESD.

Also of note, school administrators have declined overall, but the District has made some targeted increases. To balance the District's 2011-2012 projected deficit of \$21.8 million, four elementary schools were closed (reduction of 2.6 FTE for three part-time and one full-time principal position). A further 1.5 FTE reduction in principal positions was taken in 2011-12 to

achieve a balanced budget. While 2.0 FTE principal positions have been added back to schools during the 5-year period, this still leaves a net reduction of 2.1 FTE.

Classified Supervisors

Classified supervisors declined by 0.08 FTE. This relates to a small portion of FTE that has been shifted to the Federal, State, and Local Programs Fund. Other FTE changes in this category relate to reorganization within the Human Resources and Facilities Management departments.

Student Enrollment Projections

The District continues to experience declining enrollment in District schools. This is the result of a long-term demographic shift as birth rates for Lane County continue to decline. Additionally, an increasing number of students are attending charter schools. The increase in 2015-16 ADMr reflects the first year of full-day kindergarten. Kindergarten students are reflected at 0.5 ADMr for 2013-14 and 2014-15, and 1.0 ADMr for 2015-16 and future years.

Please refer to the Enrollment Forecast and Methodology in the Information section for additional details and for methodologies regarding enrollment.

Fund Structure Overview

The ***General Fund*** and ***Other Funds*** sections describe resources and requirements for each of the District's eight funds.

For each fund, budget information can be compared to the adopted budget for the prior year and actual, audited figures for the two years preceding that year.

General Fund – The General Fund is the District's major operating fund and accounts for most of the District's financial resources. Revenues come from two main sources: state funding and local property taxes. All of the state revenue and most of the local property taxes are included in the State School Fund formula, which determines 90.6% of General Fund operating revenue. Additional income, outside the funding formula, includes a voter-approved local option tax levy, flow-through funding for special education from Lane Education Service District, interest earnings, and income from building rentals and fees. Resources also include transfers from other funds.

General Fund expenditures represent costs incurred to operate the school system: salary and benefit costs for teachers, administration and support staff; textbooks and supplies; building maintenance and utilities; and other expenses. Expenditures are presented in five major program areas: Direct Classroom Services, Classroom Support Services, Building Support Services, Central Support Services, and Other Accounts. Each service area is divided into functional categories which identify purpose statements, the key Board goals for the service, budget goals, financial highlights and program changes, and expenditure summaries.

Other Funds include the following:

Special Revenue Funds

- ***Federal, State and Local Programs*** – This fund accounts for money received from federal, state, local, and private grants. It also includes donations from the Eugene Education Fund, a local, non-profit foundation established to support instructional programs. Educational programs benefit from funding received for disadvantaged and disabled students, drug and alcohol prevention, career and technical programs, professional development of school staff members, and special projects.
- ***School Resources*** – This fund accounts for the money schools receive from students and parent groups for purposes such as special school projects, field trips, and various student activities. Also included in this fund is the Special Purpose Reserve. Schools and departments that don't spend all of their General Fund budget in the current fiscal year can carry these savings forward to the next year to pay for additional staffing, special projects, and other expenditures. These savings were formerly accounted for in the Capital Equipment Fund.
- ***Nutrition Services*** – This fund accounts for the activities of the District's Nutrition Services program. Services include lunch programs in all schools, breakfast and snack programs in many schools, and catering services provided upon request. Resources reflect federal subsidies from the U.S. Department of Agriculture, which provides partial reimbursement to the District for each meal served; student sales; the value of federal commodities; reimbursements for meals for low-income students; and payment for catering services. The Nutrition Services program is budgeted to be financially self-supporting.

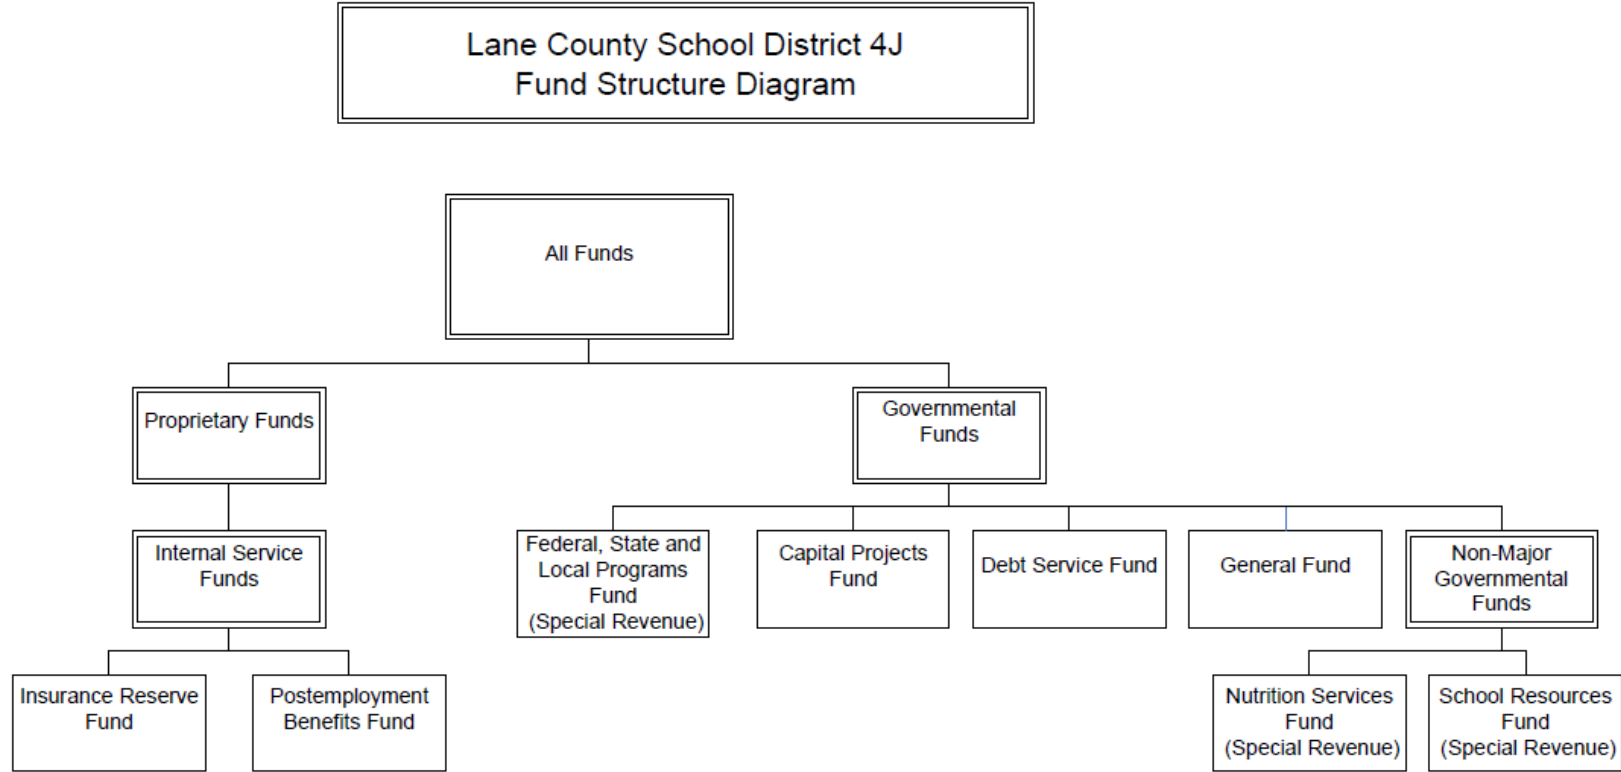

Capital Projects – The Capital Projects Fund accounts for revenue and expenditures for capital improvements. Primary resources include general obligation bonds to fund capital construction and facilities remodels, and the sale of surplus property. The fund has been expanded to include capital budget appropriations for the Technology, Facilities, and Transportation Services departments formerly in the Capital Equipment Fund. These appropriations support the replacement of school buses, vehicles, equipment, and other long-lived assets. Primary sources of funding for these appropriations include transfers from the General Fund and state reimbursement of certain qualifying transportation costs.

Debt Service – This fund accounts for the District's repayment of general obligation bonds and pension obligation bonds. The fund also accounts for the refinancing of outstanding bonded debt. The use of bond proceeds for capital construction is accounted for in the Capital Projects Fund (See Capital Projects).

Insurance Reserve – This fund accounts for the risk management activities and employee benefits programs provided by the District. It covers insurance premium payments, insurance reserves, the Wellness Clinic and efforts to manage the District's exposure to potential loss.

Postemployment Benefits – This fund accounts for the District's obligations to provide supplemental retirement benefits to eligible employees.

Fund Structure Diagram

Budget Assumptions

General Fund Budget

Revenue from the State

School districts receive funding from the State of Oregon in two primary ways. The State School Fund (SSF), administered by the Oregon Department of Education, is based on many factors including property tax collections and the average daily membership of students in the District. The High Cost Disability grant provides additional support for students with disabilities who require services that cost over \$30,000 a year. Funding received under the State School Fund formula is our most significant revenue source.

The budget is built with the revenue assumption that the state K-12 appropriation for the 2013-15 biennium will be \$6.55 billion plus an additional \$100 million dedicated to 2014-15.

Funding Source	State Budget	State Budget	\$ per pupil (ADMw) (Total Formula Revenue)		
	2011-13 Biennium	2013-15 Biennium	2012-13	2013-14	2014-15
State School Fund	5,700,000	6,550,000 (plus \$100 million for 14-15)	6,359	6,833	7,164

Revenue from Local Sources

Local option levy: Since 2001, local support has helped the District deliver services to students in the face of unstable and declining state revenue and reductions in enrollment. In November 2008, the community supported the District's local option levy by renewing it for an additional 5 years (through 2014-15). In 2010-11, the first year of the most recent renewal, the local option levy provided \$11.7 million; for 2014-15, it is expected to decrease to \$7.9 million, representing a decline of 32.4% since the current local option levy's first year. The local option comprises approximately 5.2% of the District's General Fund revenue.

Local option levy collections are difficult to predict, as they are dependent on the relationship between assessed value and real market value for each property in the District. The budgeted local property tax collection rate for 2014-15 is 95.00%. The estimated collection rate for 2013-14 is 95.12%.

Interest earnings: Interest earnings continue to decline due to low interest rates and declines in the District's reserves.

Expenditures

Wages and benefits: In this budget, expenditures have been adjusted to reflect a step increase for all eligible employees effective July 1, 2014, and a full work/school year for the District. It is possible that employee compensation changes may be negotiated with employee groups.

The budgeted PERS rates that are applied to salaries reflect three elements. The first element is the PERS employer contribution rates issued by the PERS board actuary for employees in Tier 1/ Tier 2 and OPSRP plans. The District's composite PERS rate, using rates as adopted by the PERS Board on May 31, 2013, has decreased from 17.04% in 2013-14 to 16.98% effective July 2014.¹

¹ Assumes 62% Tier 1/ Tier 2 and 38% OPSRP proportions applied to actuaries' rates.

The second element is the effect of pension bond repayments from the District's side account. The rate for pension bond repayments, which has also been increasing, varies depending on the amount of PERS eligible salary. PERS eligible salary will depend upon the balance of staffing reductions and employee compensation changes that may be agreed upon between the District and employee groups.

The third element is the District's contribution for PERS on behalf of employees, which is a flat 6% (also referred to as the PERS pick-up).

Materials, Services and Supplies: Materials, services and supplies budgets have been increased to reflect expected cost increases of 1.5% (based on the Portland Consumer Price Index).

Transfers from reserves:

		From						
		General Fund	Special Purpose Res.	Capital Proj. Fund	Lcnd. Ins. Res.	Class. Ins. Res.	4JA. Ins. Res.	Postemp. Benefits Fund
To	General Fund		193,000	2,000	1,000	229,000	1,000	1,000
	Nutrition Svcs.					32,000		
	Risk Mgmt.	875,000						
	Lcnd. Ins. Res.	135,000						
	Clas. Ins. Res.	75,000						
	Admn. Ins. Res.	40,000						

Contingency and Ending Fund Balance

The District's General Fund projected ending fund balance as of June 2015 is \$6.4 million. This reflects 4.25% of operating revenues for 2014-15 (\$149.1 million), which is lower than the Board policy target for the ending fund balance of 5.0%. The Board has directed a lower fund balance of 4.25% to fund a \$1.1 million Board Priorities Reserve.

The operating contingency is \$3.0 million, or 2.0% of operating expenditures as provided in Board policy. We assume that two-thirds of this balance will remain unspent at year-end.

Other Operating Funds

Other operating funds range from those that are quite stable to ones that rely on reserves to cover costs. Major operating funds are discussed below.

Federal, State and Local Programs Fund

This fund accounts for revenues and expenditures from federal, state and local governments, and private grant foundations (excluding SSF and local tax collections, which are General Fund). Expenditures should match revenues in this account. Expenditures in this fund total \$14.7 million. The largest grant programs in the 2014-15 budget are described below.

- **Elementary and Secondary Education Act (ESEA)**

These grants are received from the federal government to support specific educational programs such as: low-income, high quality teacher, and English language learner. We are projecting \$4.9 million in 2014-15.

-
- **Individuals with Disabilities Education for All Act (IDEA)**
IDEA is received from the federal government to support services for students with special needs. We are projecting an increase of \$0.1 million, which brings the 2014-15 grant balance to \$2.9 million. Current funding is significantly below the 40% of special education costs recommended by the federal government when Congress passed IDEA.
 - **Regional Programs for Students with Disabilities**
Beginning in 2014-15, Lane ESD will no longer contract with the District to provide certain special education services for District students. Lane ESD will now either provide or contract with a provider to support students with such needs as severe orthopedic impairment, vision impairment, and hearing impairment. Due to this change, the grants we formerly received on behalf of these services will be significantly reduced. We are projecting a budget allocation of approximately \$491,000 for 2014-15 (2013-14: \$2.8 million).
 - **Eugene Education Fund**
The District receives quarterly distributions from the EEF, a non-profit organization established in 1993 to support schools and programs. We anticipate funding of \$1.5 million for 2014-15 (2013-14: \$1.0 million).

Nutrition Services Fund

The Nutrition Services Fund accounts for the revenue and expenditures of the District's meal programs. Principal sources of revenue comprise sales of meals and subsidies received under the National School Lunch Act. The financial goal of the program is to break even – match revenues and expenditures.

Insurance Reserve Fund

The Insurance Reserve Fund accounts for the majority of the District's insurance functions, including employee benefit plans and property and liability insurance. It comprises the following five functions:

- **EEA / teacher association insurance reserve**
- **OSEA / classified association insurance reserve**
- **4JA/ administrator association insurance reserve**
These funds are jointly controlled by District representatives and representatives of each of the employee groups. Contributions are made to the insurance reserve by the District based on full-time FTE (2013-14 - \$1,145 for licensed and administrative staff and \$1,060 for classified). Employee contributions vary depending on individual plan choices and the employee's FTE level. Health insurance is provided by the state-mandated Oregon Employee Benefits Board (OEBB). The 2014-15 adopted budget assumes OEBB rates and employee contributions to be at rates slightly higher than in the current year (approximately 5%). Subsequent to finalization of the budget, OEBB notified the District that rates will increase approximately 8.8%; the rate will vary depending on plan selection and bundling of health, vision, and dental coverage. Adjustments may be made through supplemental budgets, if required.
- **Wellness Clinic**
The 4J Wellness Clinic is a health care service available for all 4J employees that has operated since October 1988. It is managed by a committee comprised of management and representatives of each of the employee groups – the Joint Benefits Committee (JBC). In July 2012, the District established a contract with Cascade Health Solutions to provide a full-range of healthcare services. Between 1995 and 2012, the District contracted with PeaceHealth Medical group. The JBC voted in May 2013 to increase the amount each employee currently contributes by \$2 per month to \$10 to ensure that the wellness clinic fund will be sufficient for ongoing operations.

- **General Risk Management Fund**

This fund accounts for remittances of workers' compensation and unemployment payments (approximately \$1.0 million), administration of the District's risk programs, and insurance deductibles in the event of claims (\$0.5 million). The budgeted expenditures for this fund are \$4.0 million, which are primarily provided by transfers from the General Fund.

Postemployment Benefits Fund

The District Postemployment Benefits Fund accounts for supplemental retirement benefits. The supplemental reserve is for employees who retire before age 65 and applies to most administrators hired before 1996 and teachers hired prior to 1998. At the time the plan was discontinued, employees were given the option to convert to a plan that offered increased District-paid tax sheltered annuities. The Fund also includes the cost of implementing the early retirement plan issued by the District in early 2013. The plan was offered to licensed and classified staff.

To cover the annual cost of retirement benefits, the District budgets a percentage of salary costs in this fund. For 2014-15 \$2.3 million is budgeted in the General Fund to help cover these costs.

Capital Projects Fund

As a result of voter approval for the May 2011 and 2013 bond measures for capital improvements, replacements, renovations and repairs, expenditures from this fund of \$63.9 million focus on replacing or renovating four aging schools, improvements to school facilities, the upgrade of technology systems, bus purchases and a broad range of support for changes in the delivery of instruction.

Debt Service Fund

Debt service costs of \$22.6 million reflect the District's repayment of general obligation and pension obligation bonds.

Budget Summaries

Total - All Funds	\$99,558,763	\$267,716,451	\$308,285,476	\$9,017,215	\$68,006,953

Ending fund balance is defined as the difference between a fund's resources and requirements at year-end. In the General Fund, balances are maintained to provide stable services and employment to offset cyclical variations in revenue and expenditures.

Fund balance projections indicate the estimated financial condition of the District at year end. School Board policy sets the targeted minimum fund balance for the General Fund at 5% of operating revenues. The 2014-15 budgeted ending fund balance represents 4.25% of operating revenues. General Fund operating revenues reflect total revenues less transfers from other funds of \$427,000.

Each year the Board allocates a portion of the projected ending fund balance to the unappropriated ending fund balance (UEFB) in the annual budget. The UEFB may not be spent or appropriated during the fiscal year in which it is budgeted.

¹ Underspending is projected to be 66% of the budgeted operating contingency. Transfers to other funds are excluded.

² The School Resources Fund contains both Student Body and Special Purpose Reserve sub funds. Underspending for Student Body represents 97% of the budgeted contingency plus 0.75% of all other accounts. Underspending for the Special Purpose Reserve is projected to be 66% of the budgeted contingency plus 50% of all other accounts.

³ Ending Fund Balance is available for debt service payments due in early 2015-16.

⁴ Underspending is expected to be 5% of budgeted expenditures, excluding transfers and debt service payments.

⁵ Underspending is projected to be 66% of the budgeted contingency plus 3% of all other accounts. Transfers are excluded from underspending calculations.

⁶ Underspending is projected to be 97% of the budgeted contingency and 0.75% of all other accounts.

Aligning the Budget with Our Values and Goals	57
Conclusion	64

Superintendent's Budget Message

The 2014-15 budget reflects the use of General Fund reserves below the Board policy level and includes the return of all furlough days, step advancement for all step eligible employees, maintenance of the same staffing ratio for the District's general classrooms, and maintenance of the elementary specialist program. Over the last 20 years, repeated reductions in funding and strains on the District's core operations have limited the District's ability to maintain stability, retain valued programs, and make strategic investments. Nevertheless, the budget is designed to support the District's mission and the Board's adopted core values and goals. The following message describes how the District has leveraged its budget in the past three years—and how we plan to align limited resources in the 2014-15 fiscal year—to support the Board's core values of equity, choice, and excellence, and the four goals of student achievement, staff capacity building, stewardship of District resources, and stakeholder engagement.

Background

State school funding represents over 80% of the District's revenue. Accordingly, state level funding is a key issue in determining the District's operating budget. Education funding and long-term structural costs, described below, were key issues for state leaders in the 2013 legislative session. The session ultimately ended with significant increases in state education funding for the biennium from \$5.7 billion in 2011-13 to \$6.55 billion in 2013-15, with an additional \$100 million added for the 2014-15 school year late in the session. As well, the Legislature recommended and the PERS board enacted reforms of the state's public employee pension system that are expected to yield significant cost savings state-wide if they withstand court scrutiny. Legal challenges have been referred to the Oregon Supreme Court. Work has begun and a final Supreme Court decision is expected no later than June 30, 2015.

Over the last five years, District revenue has decreased markedly, pulled downward by declines in enrollment and local, state and federal funding. The great recession that started in late 2008 also impacted Eugene's local revenues. Eugene's annual local option revenue collections have fallen by 52.3% since 2009 (Figure 1).

Over the last ten years, K-12 education's share of the state budget has fallen from 44.8% to only 40.7% of the 2013-15 biennial budget (Figure 2). It recovered some ground in the 2013 legislative session. The recent reduction is partly explained by the long and deep national recession that began in 2008 and from which Oregon is slowly emerging; however, it should be noted that education's share of the state's budget was already falling as early as 2005. Figure 3 shows the decline in state school funding per pupil since 2007-08. This is shown adjusted for inflation in Figure 4. The share of state funding directed to education and the funding per student improved in the 2013 legislative session, resulting in 2013-14 state school funding per student more in line with the level of funding seen for 2007-08. However, over the same period staffing costs have increased considerably; with significant increases in contributions required to fund PERS and insurance benefits.

Adding to both the local and state funding issues, federal sequestration has produced cuts in funding for programs serving our most needy students and is affecting the subsidy of a portion of our bond interest. We are not certain of the future of sequestration cuts and the budget reflects revenues as reported by agencies.

The District's overall costs continue to rise. Employee salaries and benefits, which represent approximately 85% of the District budget, have risen through a combination of employee step movements, cost of living increases, increases in health care benefits, and PERS rate increases. In 2014-15, the District's effective PERS rates taking into account the effect of side accounts and

debt service on our pension bonds is 23.19% of PERS eligible salary. In contrast, District records indicate that the PERS composite rate in 2003-05 was 11.11%. Between 2003-05 and 2014-15, PERS costs increased by 12.08 percentage points. In other words, for every one hundred dollars (\$100) of salary, the District paid an additional twelve dollars (\$12) to PERS in 2014-15 compared with ten years earlier. The District also contributes 6% toward employee PERS contributions. Note that the PERS rate reflects the cost of funding the PERS system and is not directly linked to benefits for current employees. Other operating costs, such as the cost of insurance and utilities, have also increased. For example, the District monthly contribution for 1.0 FTE licensed staff as specified in the EEA agreements for insurance was \$778/month in 2003-04 and rose to \$1,145/month for 2013-14. This represents a 47.2% increase over ten years. In addition, the cost of transportation continues to fluctuate along an upward trajectory tracking increases in fuel prices.

Since 2009-10, when revenues declined precipitously due to the onset of the great recession, balancing our budget has required the use of reserves, reductions in services, and employee concessions. The Board undertook a sustainable budget process in 2011-12 that identified ten key areas for putting Eugene on a sustainable financial path and providing all our students with a sound education. In order to bring some stability to the system and allow us to take stock of the effect of past cuts, the 2012-13 budget was balanced using \$10.4 million in one-time resources. The 2013-14 budget was balanced through a combination of further drawing down and in many cases exhausting reserves, reductions in services, and employee concessions that included 7 to 9 furlough days.

Finally, 4J's two decade overall trend of declining student enrollment is projected to continue. The rate of decline slowed in 2012-13 due to a small net inflow of students to the District resulting from the state's new inter-district open enrollment law. School districts may now enroll students who reside outside of District boundaries without limitation except as defined by the local board. If admitted under the provisions of the open enrollment statute, the student does not pay tuition; the enrolling district assumes responsibility for educating the student and claims the student for purposes of state funding.

Figure 5. Enrollment History

Note: Student enrollment is expressed as resident average daily membership (ADMr). It represents the average annual enrollment as of June 30 and counts kindergarten students at 0.5 ADM or half time. The State uses ADM as the basis for allocating funds under the State School Fund formula and provides additional weighting (ADMw) for special education, economic

disadvantage, English Language Learners (ELL), and pregnant and parenting students. The District also receives funding for students placed in alternative education programs or enrolled in District-sponsored charter schools. The ADMr shown above excludes students enrolled in charter schools. Beginning in 2011-12, the ADMr above includes alternative education programs.

Current Context

The budget is also shaped by Oregon's education agenda and local student learning needs. Oregon is adopting the common core state standards, requiring districts to implement a new teacher and principal evaluation system, requiring standards-based grade reporting, and employing a kindergarten readiness assessment in all kindergarten classrooms. In addition, beyond examining achievement levels on the OAKS test, the state has established a wide range of indicators to evaluate school performance, including yearly measures of academic growth, attendance in grades 6 and 9, completion of at least six credits in grade 9, and high school graduation and completion rates. Although funding limitations make it a challenge to meet these new requirements and standards, the District is complying with the requirements and taking steps to ensure that we use them as opportunities to enhance teaching and learning. For example, our new teacher and principal effectiveness system is aligned with the state standards and will help build the capacity of instructional staff and foster a non-defensive self-examination of instructional practice throughout the District. Each of these state initiatives requires professional development for administrators and teachers to ensure meaningful and effective implementation. Funds for professional development are built into the budget at the most modest level so that we can meet these requirements.

The District is also continuing, as best it can within the constraints of the budget, to build on work initiated over the past two years that supports equity, efficiency and instructional effectiveness. District initiatives such as moving to an aligned high school schedule, fostering collaboration within and across schools, and promoting instructional dialogue among teachers and principals will continue to help schools better support student needs. Given the unknown financial picture for the next biennium, our work in 2014-15 will continue to focus on enhanced operational consistency, increased use of data, examining equitable school funding, and an overarching effort to limit the impact of any cuts on the classroom.

Aligning the Budget with Our Values and Goals

Ensuring and Enhancing Equity

Equity, defined as directing resources to schools to address students' educational needs, has long been a core value of the 4J Board. In 2012-13, the District began using a school needs index as a student weighting tool in allocating building-based staffing. The needs index for each school is based on the percent of students at the school with such student characteristics as being economically disadvantaged, requiring special education services, having limited English proficiency, and being highly mobile in their home residence. In 2012-13, we established program staffing comprising counselor and essential skills staff that is based on the school needs index to ensure that schools with a greater percentage of students with higher needs received some added support. Although we are maintaining the needs index, reductions in the District's financial resources have challenged the implementation of the needs index at the elementary school level as the District has also sought to limit class sizes.

The District will review the implementation of the needs index in 2014-15 in light of limited resources, an interest in both providing additional resources to support students at risk, and an interest in ensuring class size at the elementary level doesn't exceed 30.

The Board's key value of equity demands that where a student lives should not affect their level of education. We owe it to all students to ensure every student has access to the same opportunities. Starting in 2012-13, we began to implement a common schedule for the District's four comprehensive high schools. This was fully implemented in 2013-14. The schedule does not preclude some differences in programming across schools. However, this consistency is bringing a greater level of equity of opportunity for students across the system, and will enhance the capacity of the District to provide quality services to all. Other goals included ensuring students receive access to similar educational services (instructional time and number of courses) irrespective of which school they attend. The schedule has also resulted in operating efficiencies that led to a slight reduction in class sizes for core classes even as the staffing ratio was increased.

In 2012-13, we addressed the disparities in elementary music and physical education by providing nine weeks of instruction in each subject for all elementary schools. In 2013-14, we increased that to eighteen weeks in each subject in all elementary schools. Equity will remain a prominent focus as we pursue efforts to close the achievement gap and provide a high quality of education to all.

Sustaining and Promoting Choice

The District is also addressing the core value of choice. Open enrollment has offered additional opportunities for choice for both Eugene students and students from surrounding districts. The change in enrollment policies at Buena Vista Elementary—which gives priority to English language learners and economically disadvantaged students—has significantly altered the demographic makeup of the school and brought it more in line with District averages. Students in the Buena Vista dual language immersion program will feed into a similar program that will be started at Kelly Middle School in 2014-15. High school subject and instruction choices have increased. In 2012-13 Churchill High School kicked off a focus on science, technology, engineering, and math, generally referred to as STEM. In 2013-14, the Early College and Career Options program (ECCO), formerly Education Options, relocated to the Lane Community College campus and began offering programs to students at LCC's main campus. This program acquaints students with college life and college coursework while they continue to earn their high school diplomas, thus facilitating their transition to college. ECCO students will have access to campus resources in addition to LCC's academic courses, including easy bus transportation, on-campus childcare for parenting students, and early introduction to career and technical programs.

Excellence through Student Achievement

A third core value is excellence, which is perhaps most clearly evidenced through our focus on the Board goal of student achievement. Oregon's introduction of Achievement Compacts in 2012 shifted the state's focus from input measures to outputs—or “key measures of student success”—by setting targets for achievement. This shift formalizes what 4J schools have been doing for many years by using data to inform instruction.

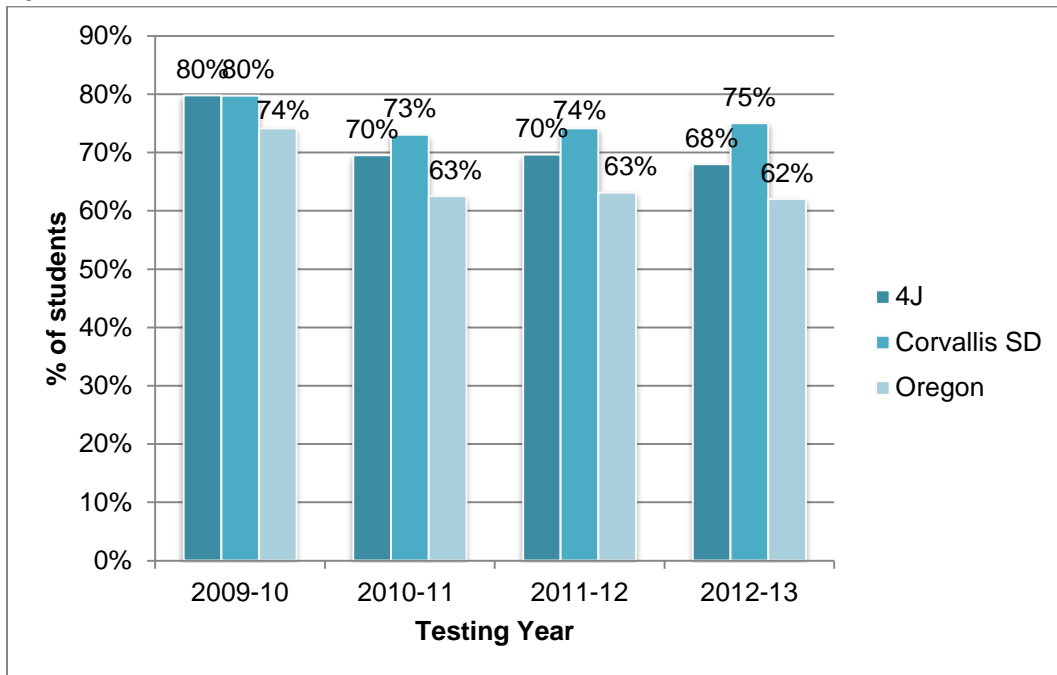

Several key metrics of student achievement—academic performance, high school graduation, and college and career readiness—guide our instructional initiatives. OAKS achievement results for Eugene 4J students as a whole are relatively strong. The District's OAKS results exceeded the state average score for the last four years (Figures 6 and 7). For comparison purposes, results are also shown for Corvallis School District. Like Eugene, Corvallis is a college town. Corvallis' student population is also demographically similar to that of Eugene (Table 1).

Figure 6. Students meeting or exceeding benchmark on OAKS reading test, 2010-11 to 2012-13

Note: The OAKS test is taken by all students between grades 3 and 11. The Score Required to Meet Benchmark increased in 2011-12 at all grades except 11th.

Figure 7. Students meeting or exceeding benchmark on OAKS math test, 2009-10 to 2012-13

Note: The OAKS test is taken by all students between grades 3 and 11. The Score Required to Meet Benchmark increased in 2011-12 at all grades except 11th.

Table 1. Demographic Composition of Eugene School District 4J and Comparison Districts, 2012-13

District	% White (non-Hispanic)	% Hispanic/Latino	% Multiethnic	% Asian	% FRL	Enrollment
Eugene	70	13	9	4	37	16,865
Corvallis	71	14	6	7	38	6,397
Oregon	65	22	5	5	n/a	563,714

Source: Eugene School District 4J Research and Planning staff

One of the state’s goals is to increase the percentage of students who earn a diploma within four years. Data on the District’s graduation rates over the past five years reveal that we are losing ground on this indicator as compared with the rest of the state and with Corvallis as a similar district (Figure 8).

Figure 8. High School 4-Year Graduation Rate, 2009-10 to 2012-13 (four year cohort graduation rate)

The PLAN test predicts college and career readiness. Recent results indicate the majority of the District’s 10th graders in 2012-13 are not on track to be prepared for success in college (Figures 9 and 10).

Figure 9. PLAN test prediction of college and career readiness for 10th graders reading, 2011-12 to 2013-14

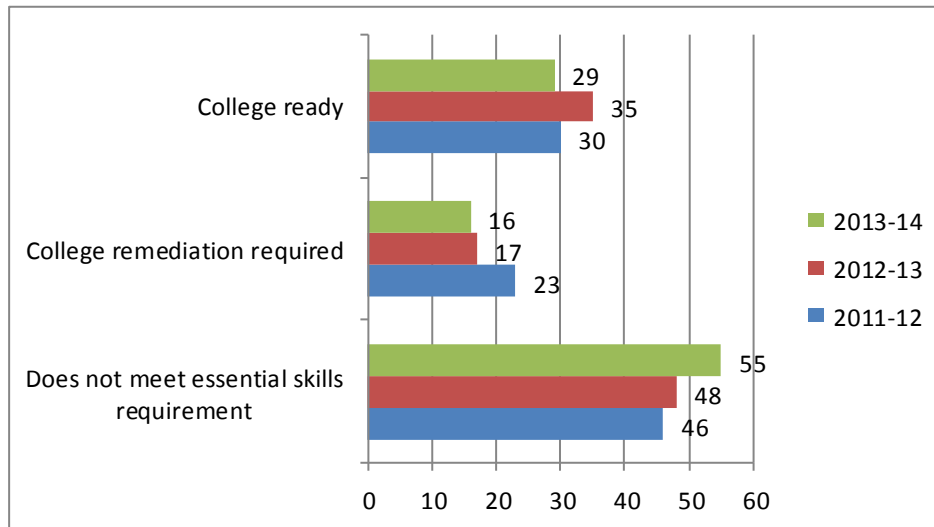

Figure 10. PLAN test prediction of college and career readiness for 10th graders math, 2011-12 to 2013-14

Among the District's major priorities in the area of student achievement is enhancing the graduation rate and our students' college and career readiness. The District's initiatives in this area continue to be moving to a trimester schedule and fully scheduling 9th graders.

- The trimester schedule will provide more opportunities for students to retake courses or receive remediation without delay, as well as enable students to accelerate in areas of interest. It will also provide the opportunity for students to focus in greater depth on fewer subjects at a time, thereby assisting students in developing greater depth of understanding of core concepts.
- Fully scheduling 9th graders helps students start their school careers with a greater opportunity to accumulate credits. Having insufficient credits at the end of freshman year to be on track to graduate is highly correlated with dropping out of high school. Providing all 9th grade students with a full academic schedule has already increased learning time at the beginning of students' high school careers (Figure 11).

Figure 11. Percentage of students in 4J comprehensive high schools with full schedules

- We are implementing an aligned schedule in all high schools that provides opportunities for teachers and principals to share strategies and practices across the District.
- We are identifying common learning targets in all core subject areas and developing a proficiency-based assessment system in secondary schools.
- We have brought truancy services in-house and are developing a standardized approach to truancy and attendance record keeping. These changes will streamline the process of identifying and supporting students who are not attending school, and ultimately increase student attendance and graduation rates.
- We are implementing school-based data teams that use an instructional intervention progress monitoring system to identify students needing additional support to be successful.
- We have made significant progress in addressing the needs of at-risk high school students, including teen parents, through program changes and relocation of ECCO and the continued expansion of AVID.
- The District is working with the Educational Policy Improvement Center (EPIC) at the University of Oregon to align our curriculum and instruction with college-ready standards. We are also collaborating with Lane Community College, the University of Oregon, and other Lane County school districts in a college- and career-readiness initiative entitled "ConnectEd Lane County."
- At seven schools (Spring Creek Elementary, Awbrey Park Elementary, Howard Elementary, Madison Middle, Monroe Middle, Cal Young Middle, and Sheldon High) staff members are piloting the use of personal devices (iPads) to improve core instruction and interventions by providing targeted instruction that students can access at school and at home.

Academic achievement is the focus of other initiatives as well that range from creating a positive school and classroom climate to enhancing the rigor of instruction to address the expectations of the common core state standards, and from supporting professional collaboration to providing more current and rigorous instructional materials. All of these initiatives over the past year and those extending into next year are targeted on improving excellence in teaching and learning.

Staff Capacity Building

The Board's goal of building staff capacity is critical to the District's success. Since 2008-09, the decline in staffing levels throughout the District has outpaced the drop in student enrollment. The result is that class sizes in the District have grown and the variation in size between the smallest and largest classes has increased. Moreover, support and administrative staff have been reduced to minimal levels.

Our outstanding and dedicated staff constitute the District's most important resource, whether delivering instruction themselves or providing essential support for those who do. Hiring, retaining, and developing staff are critical functions for which resources have been cut. Over the last two years, the District has introduced a new system for evaluating educator effectiveness and invested significant grant and district resources in the professional development of principals and teachers to effectively implement the system. This work is aligned with the Oregon Framework for Teacher and Administrator Evaluation and Support Systems. It also incorporates the requirements found in Oregon Senate Bill 290 and in the federal Elementary and Secondary Education Act (ESEA) Flexibility Request (waiver) process.

In recent years, accommodations by all employees have helped balance the budget and reduce layoffs.

Stewardship of District Resources

The District provides stewardship of resources in three ways. First, staff looks at ways to leverage the District's resources and achieve efficiencies, particularly with General Fund dollars. Second, the District is reinvesting in and rejuvenating the District's physical infrastructure. Third, the District is using bond funding to support deferred investment in instructional materials and technology. The Board carefully manages local property tax rates through the budget process and regularly reviews financial data.

District staff have been working with limited and declining resources for many years. Staff members are required to obtain multiple quotes or proposals for all significant purchases to best leverage District resources. Additionally, District staff looks for ways to leverage the District's buying power. In 2013-14, the District selected a sole vendor for the entire copier fleet and replaced all existing copiers. Realizing savings on contracts for services may take some time, with some schools experiencing increased costs in the short run; however the savings in principal and school staff time should be immediate. We will continue to seek best value in the services we purchase. The Technology Department has identified technology standards for the purchase of technology for all schools and departments across the District. Ensuring consistency in technology assets will make maintenance and repairs easier. This year, technology implemented a centralized service model/help desk for the District. In the coming year, Technology will continue working on developing a replacement cycle for technology across the District.

In May 2013, District voters approved a \$170 million bond measure following an update to the District's long-range facilities plan. With an average age of over 50 years, many school buildings are in need of significant repair or replacement. Moreover, many buildings are not designed to appropriately support new instructional techniques and technology. The bond measure was for the following:

- replacement or major renovation of four aging schools
- additions at two schools and a new track for Kelly Middle School
- technology upgrades at all schools
- instructional materials at all schools

-
- school safety and security measures
 - building repairs, improvements and equipment
 - bus purchases

The District is actively using the proceeds of this bond funding to support deferred investments in new instructional materials and technology. In 2014-15, bond funds will support an update and replacement of science materials for all grade levels and curricular material and technology supports for special education students. After working together with a community advisory committee, the District has also provided targeted hardware and software to support student learning. Piloting technology initiatives has enabled the District to ensure the best solution to support student learning. Over the course of the bond, many school computers will be replaced because they are too outdated to run current instructional software. The funds are also being used to refresh aging District infrastructure. Since the 2011 approval of a \$70 million bond measure, approximately \$1 million of facility recurring budget for long-term infrastructure has been paid for using the bond rather than general funds.

The Board also demonstrates stewardship of District resources through ongoing financial oversight. This includes regular financial reports, and the constitution of an audit committee that examines financial policies as well as meeting annually with the District's auditor to review the financial statements and auditor's report. The Board also solicits community input and oversight on finances through the Budget Committee and the Bond Review Committee.

Our continuing financial constraints have created a tension between retaining educational services and implementing a sustainable budget strategy. Our long-term goal remains to present a sustainable budget that maintains reserves at or above Board targets, minimizes the use of one-time funds, optimizes the use of short-term resources to improve student achievement, and increases operational efficiency while reducing long-term capital needs.

Stakeholder engagement

The Board and I continue to engage the community, staff, families, students, elected officials and other stakeholders through a variety of forums. I have appreciated the opportunity to meet with business and community leaders, legislators, parents and students to discuss our instructional initiatives and the financial challenges facing our schools.

In 2013-14, we expanded our outreach endeavors, especially among communities of color. The Equity Committee is formulating an equity lens and equity scorecard to guide and monitor our work, and we continue to build relationships that help us advance these efforts to better engage with all families.

The new Synergy Student Information System was implemented in 2013-14. It includes a parent portal (ParentVUE) that provides parents and guardians access to current achievement and behavioral data for their students through one user-friendly site that is standard for all 4J schools.

The Board has also established a bond review committee to engage community members in reviewing our planned bond spending and ensuring that our bond funds are spent wisely and in alignment with what we have promised to deliver.

Conclusion

The 2014-15 budget that I am recommending reflects another year in which the District does not have sufficient resources to offer all educational programs and services that we would like. Pending the results of negotiations with our associations, this budget restores a full school year

for students and provides a \$1.1 million reserve for Board priorities. The Board's priorities are maintaining or reducing current staffing ratios to avoid increasing class sizes, and targeted reductions in class size in our most crowded classrooms; beginning to restore lost school days and instructional time; and maintaining preparation time for our elementary teachers, which is key to improving results for students. The budget presented is also not sustainable, given that it draws General Fund reserves down to 4.25% and still relies on other one-time resources to balance the budget.

We must live within our means and at the same time provide a strong educational experience for every student. We deeply appreciate the cooperation of our employees, who have repeatedly accepted compensation adjustments in order to prevent even deeper reductions that would impact student learning.

Our children are our future and our joy. We take delight in their success and are troubled when they struggle. Together, we will do our best to ensure that every student succeeds. We deeply appreciate the profound commitment and talent of our staff and of all those who are volunteering to assist us in making a difference for the children of Eugene.

Sincerely,

A handwritten signature in cursive script, appearing to read "Sheldon Berman".

Sheldon Berman
Superintendent

General Fund Resources & Requirements

Resources

Resources supporting District General Fund operations primarily come from local and state revenues, with additional income from federal, county, and other sources. The largest segment, which includes state funding and local property taxes, is determined by the State School Fund (SSF) formula. Since Measure 5 property tax limitations were approved in 1990, school district funding has been largely defined by the state; previously, it was primarily determined locally and supported by local property taxes.

State School Fund - \$74.7 million

In 1991, the State School Fund was created by the Oregon Legislature to distribute state aid to school districts. A formula was developed with the goal of providing equal funding to all school districts, with funds allocated on a weighted, per-student basis. Extra weighting is provided for students with one or more designations such as special education, poverty level, English Language Learners, and teen parents.

To determine a district's general purpose grant, the weighted student count is multiplied by a statewide target grant amount which is adjusted to reflect average teacher experience and available state resources. The student count is based on extended Average Daily Membership, weighted (ADMw).

State statute permits funding to be based on the higher of current year or prior year "extended" ADMw. For districts with declining enrollment, the use of extended ADMw delays funding decreases by one year. This permits the district to make more thoughtful adjustments to its instructional programs and infrastructure. District 4J has experienced declining enrollment in its regular school programs since 2003.

Per student funding is also weighted to reflect a district's average teacher experience relative to the state average teacher experience. This recognizes the higher compensation costs that districts incur for more tenured teaching staff.

Total formula revenue represents a general purpose grant plus a transportation grant to reimburse a portion of the costs of transporting students to and from school. Local property taxes and other specified revenues are deducted from formula revenue to determine the State School Fund grant paid to a district. Total payments may also include a high cost disabilities grant and a facilities grant, depending on qualifying district costs.

The state legislature sets appropriations for K–12 education each biennium based on projections of corporate and personal income taxes as well as local property taxes. This cycle requires that, every other year, the school district will develop its proposed budget while the legislative session establishing K-12 funding for the next biennium is still in process. This will be the case for the 2015-16 District budget.

2014-15 Revenue Assumptions

The 2014-15 General Fund budget is based on the \$6.55 billion budget approved by the state legislature for K-12 education in the 2013-15 biennium, with an additional \$100 million dedicated for 2014-15.

The 2014-15 State School Fund estimate projects an increase in SSF revenues when compared to revenue projected in the District's December 2013 Financial Forecast. This, along with education named as a priority by the Governor and legislative steps toward School Stability, is expected to result in greater state school funding. The State School Fund of \$6.65 billion is a 16.5% increase over the prior biennium funding level and results in an additional \$805 per ADMw in funding to schools. The State School Fund appropriation for K-12 schools in 2011-13 was approximately \$5.71 billion.

The District budget for 2014-15 General Fund revenue includes \$74.7 million from the state: \$73.8 million in SSF formula revenue and \$825,000 in High Cost Disability grant revenue. Formula revenue assumes \$7,164 per ADMw, based on the 2014-15 State School Fund Grant estimate posted by the Oregon Department of Education. Per pupil revenue is adjusted upward or downward based on the relationship of average District teacher experience to the state average. The State estimate reported District Average Teacher Experience of 0.07 year more than the state average teacher experience.

Current Property Taxes - \$57.7 million

Under Measure 50, District property taxes are based on a permanent tax rate of \$4.75 per \$1,000 of assessed value, applied to the value of real and personal property located within District boundaries. In 1997–98, assessed values were rolled back to 1995–96 values less 10%, reducing the District's tax base by about 13%. Future increases in assessed value are limited to 3% per year; however, there are exceptions such as the value of new construction.

Tax revenues budgeted for 2014-15 assume an overall 3% increase in assessed property values and a tax collection rate of 95%. Property taxes are included in total State School Fund formula revenue.

Prior Years' Property Taxes - \$1.7 million

Most taxes not collected in the year in which they were levied are collected in subsequent years. It is estimated that approximately 55% of uncollected prior years' property taxes will be received in 2014-15.

Other property tax-related revenues include interest earnings from delinquent taxes. Prior years' taxes are included in total State School Fund formula revenue.

Other SSF Revenues - \$1.6 million

With current and prior years' property taxes, the following revenues are defined as local revenues under the State School Fund formula and impact state funding levels:

Common School Fund - \$1.4 million

Oregon receives income from lands granted by the federal government to the state at statehood—rangelands, forests and waterways and their mineral and timber resources—in trust for the benefit of public schools. Lands are managed by the state Land Board and income is invested by the State Treasurer, one of three members of the Land Board, and the Oregon Investment Council. The fund has a balance of over \$1 billion. Investment earnings are distributed to schools each year using a sliding scale policy based on the annual change in the value of the fund. Amounts are allocated to districts on a per pupil basis. Annual amounts received by the District vary, fluctuating between \$400,000 and \$1.8 million over the past ten years. Revenues of \$1.4 million are budgeted for 2014-15 based on state estimates.

County School Fund - \$200,000

Twenty-five percent of revenues received by counties from the sale of timber cut on federal forest land and other miscellaneous sources are provided to local school districts. Funds are distributed to school districts on a per student basis. The District's annual revenues have ranged from \$90,000 in 2000-01 to \$311,000 in 2011-12. The District has budgeted \$200,000 from the County School Fund in 2014-15.

Federal Forest Fees

No revenue from this source has been included in the 2014-15 budget.

Local Option Tax Levy - \$7.9 million

Since 1999, school districts have been allowed to request voter approval of additional property taxes to support operations and/or capital needs. This levy is limited to \$1,000 (plus 3% per year beginning 2008-09) per student, 20% of state resources, or the difference in taxes under Measure 5 and Measure 50, whichever is smallest. Levies may be approved for up to five years for operations and ten years for capital. Proceeds are excluded from the state school funding formula.

District voters first approved a local option levy of \$1.50 per \$1,000 of assessed value in May 2000. In November 2004, District voters approved renewal of a five-year, local option tax of \$1.50 per \$1,000 of assessed value. In November 2008, District voters again approved renewal of the local option levy, which became effective in the fall of 2010 and will expire in 2015.

For 2014-15, \$7.9 million in current and prior year receipts is budgeted. This compares to a high of \$14.2 million in 2008-09 and a projected \$8.0 million in 2013-14.

District local option revenues represent the gap between Measure 5 and Measure 50 taxes and are affected by the volatility of the local real estate market. Declines reflect the effect on the "tax gap" of lower real market values and minor increases in assessed values. The 2014-15 budget assumes that the Local Option levy tax collections will be similar to fiscal year 2013-14 actual revenues collected.

Other Sources of Revenue - \$5.6 million

The District receives money from a variety of sources outside of its State School Fund grant. These include Lane ESD flow-through funds, reimbursement income, school based income, interest earnings on investments, tuition payments, and local option tax revenues (discussed above).

Significant other sources of revenue budgeted in the 2014-15 General Fund include \$2.3 million for the District's share of flow-through funding from Lane ESD to provide special education services; \$2 million in reimbursement income; \$970,000 in school based income including rental

fees and athletic participation fees; and interest earnings of \$125,000 (compared to a high of almost \$1.2 million in 2008-09).

Interfund Transfers - \$427,000

The 2014-15 budget includes transfers from other funds:

- \$229,000 from the Classified Employees Reserve in the Insurance Reserve Fund to support compensation costs; and
- \$193,000 from the Special Purpose Reserve in the School Resources Fund to support compensation and other costs; and
- \$2,000 from the Insurance Reserve Fund, to create budget authority for a transfer should the need arise; and
- \$2,000 from the Capital Projects Fund, to create budget authority for a transfer should the need arise; and
- \$1,000 from the Postemployment Benefits Fund, to create budget authority for a transfer should the need arise.

Beginning Fund Balance - \$9.9 million

The beginning fund balance includes unexpended resources and the unappropriated ending fund balance carried over from the previous year. These resources are also excluded from the State School Fund formula.

2014-15 General Fund Budget Resources				
	11-12 Actual	12-13 Actual	13-14 Budget	14-15 Adopted

Total Budget Resources	147,216,736	150,683,832	149,112,000	159,413,558

¹ 2012-13 SSF revenue reflects the loss of over 300 students (ADM); state per pupil funding was essentially the same as in 2011-12.

² Transfers included \$2.45 million from capital reserves, \$1.26 million from PERS reserves and \$780,000 from insurance reserves.

³ 2013-14 SSF revenue assumed state K-12 funding of \$6.55 billion and an increase of 125 students (ADM) over 2012-13. 2014-15 SSF revenue assumes an additional \$100 million in statewide funding.

⁴ Transfers include \$1.0 million from capital reserves and \$258,000 from insurance reserves.

⁵ Other revenues include \$2.3 million in 2014-15 from Lane ESD flex funds available to provide special education services.

Total Requirements	147,216,736	150,683,832	149,112,000	159,413,558

¹ The 2013-14 Contingency balance included an open enrollment contingency of \$900,000 that was not continued in 2014-15.

² Represents 2% of operating expenditures, excluding transfers.

³ Board policy targets total reserves, including Unappropriated Ending Fund Balance (UEFB) and projected underspending of budgeted amounts, at 5% of operating revenues, excluding transfers. Budgeted 2014-15 reserves have been set at 4.25% by the Board to fund a \$1.1 million Board Priorities Reserve; 2013-14 reserves were budgeted at 4.0%.

Requirements — Major Program Areas

Description

General Fund expenditure functions (activities) are organized into five major program areas: Direct Classroom Services, Classroom Support Services, Building Support Services, Central Support Services, and Other Accounts. The General Fund's five major program areas are further divided into programs and functions (or activities). This section includes purpose statements, descriptions of budget goals, financial highlights and program changes, and budget tables for each program. Functions are described in more detail in the Appendices.

Summary of General Fund Program Areas

	<u>2014-15 Budget</u>
Direct Classroom Services	\$ 87,247,817
Classroom Support Services	30,206,771
Building Support Services	25,001,761
Central Support Services	7,374,285
Transfers of Funds/Other	1,126,000
Board Priorities Reserve	1,100,000
Contingency	2,996,633
Unappropriated Ending Fund Balance (UEFB)	<u>4,360,292</u>
Total	\$ 159,413,558

Direct Classroom Services

The direct classroom services portion of the budget is dedicated to school district activities that are involved in direct instructional services to students. Since the primary District service is instruction, the direct classroom services budget is aligned with the Board goal of student achievement: *to increase student achievement for all students and close the achievement gap.*

The fundamental purpose of the District is to provide the very best education we can for every student, from kindergarten through high school graduation, in a safe environment which is demanding but nurturing and rigorous but compassionate, fosters independence and collaboration, and respectfully demands accountability as well as excellence from students and staff.

Each of the direct classroom services programs has established a program of work and a set of goals and objectives that it intends to accomplish during the 2014–15 school year. The documents that follow contain a brief description of each of these programs and their accompanying goals and objectives.

Major Functions

	<u>2014-15 Budget</u>
Regular Programs	\$ 63,139,164
Special Programs	<u>24,108,652</u>
Total	\$ 87,247,817

Regular Programs

Service Description

Kindergarten through grade twelve instruction programs are designed to prepare students to graduate from high school, prepared to be successful in college, careers, and as citizens. These programs provide learning experiences to develop the knowledge, skills, appreciation, attitudes, and behavioral characteristics needed by all students. They also include special learning experiences designed to meet physical, mental, social and emotional disabilities or gifts. Instructional areas include language arts (reading, speaking, listening, and writing); mathematics; science; fine arts (including the visual arts, and general music); physical and health education, social sciences, technology and media, second language, and career development.

Key Board Goals for this service:

- Increase achievement for every student and close the achievement gap.
- Build our staff capacity to perform at a high level.

Budget Goals for 2014-15

Goal 1. Establish a career and college readiness climate in our schools K-12.

- Begin AVID at Cal Young and Monroe Middle Schools bringing the total number of 4J AVID schools to 12.
- Participate in the FAFSA Completion Project at all high schools.
- Strengthen professional development for counselors K-12.
- Administer ACT assessments (ASPIRE) at all middle and high schools.
- Provide specific college and career readiness activities in all elementary schools.
- Study ways to increase counseling services K-12.
- Pilot kindergarten readiness activities at Howard Elementary, Chavez Elementary, and River Road Elementary schools.
- Implement Naviance at all high schools.
- Complete Education Plan and Profiles at grades seven and eight.

Goal 2. Increase teacher effectiveness through improving instructional practice

- Provide professional development for teachers and administrators through the Research for Better Teaching course, "The Skillful Teacher".
- Provide collaborative learning experiences for administrators and a teaching partner K-5 through participation in the Learning About Learning networks.
- Implement teacher collaboration time at high schools through the common schedule.
- Further develop the Professional Development Growth Plan and Teacher Effectiveness System at all schools.
- Continue to support eight Caring for Kids schools while pursuing additional grant funds to include the remaining 11 schools.
- Continue secondary math teachers' collaborative practice.
- Continue Literacy Teacher Leaders collaborative practice.
- Support reading and writing Essential Skills teachers.
- Continue work with Emerging Teacher Leaders.

Goal 3. Align curriculum and assessments in math and literacy across content areas K-12 using the Common Core Standards as a foundation.

- Determine when and how literacy skills will be taught and assessed K-12.
- Continue to develop consistent learning targets for content areas in grades 6-12 and determine assessments.
- Continue to develop reporting standards to use on report cards 6-12.

-
- Provide professional development for elementary teachers in the area of literacy.
 - Provide professional development for teachers implementing writing strategies K-12
 - Utilize AVID writing strategies for all teachers 6-12.
 - Develop a K-12 mathematics curriculum that aligns to state standards and includes learning targets and objectives for each unit.
 - Provide professional development to teachers and administrators to align curriculum and assessments during the summer and throughout the year.
 - Revise elementary report cards to reflect changes due to Common Core State Standards implementation.

Goal 4. Provide additional support to students in need of assistance in order to meet benchmarks, demonstrate proficiency in essential skills and graduate from high school.

- Develop and implement a technology integrated middle school summer school program focused on math and literacy skills.
- Provide AVID middle school summer programs in math and science.
- Provide two AVID Summer Bridge programs for incoming ninth grade students at high schools.
- Provide summer school for low income elementary students using Title I funds.
- Provide elementary instructional interventions to meet the needs of students performing at the 20th percentile and below.
- Develop and provide summer classes for students to complete reading and writing essential skill graduation requirements.
- Include equity lens in all discussions.
- Develop streamlined and consistent protocols for determining students who are in need of assistance.

Goal 5. Consistently use data for diagnostic purposes to support instructional, structural, and programmatic decisions K-12.

- Identify common data points for all schools in order to develop a systemic approach to data analysis.
- Establish and implement a district-wide approach to data analysis that guides and informs school data teams, K-12.
- Provide professional development for building based data teams.
- Provide leadership for data teams through a combination of administrators, regional essential skill coordinators, and instructional coaches.
- Continue to refine work of the High School Administrative Rules and Protocols Committee.

Financial Highlights and Significant Program Changes

Reductions

- The 2013-14 Adopted Budget included licensed staffing of 530.09 FTE. Following the completion of employee negotiations in the summer of 2013, licensed positions totaling 55.6 FTE were added back and 3.55 FTE from the District's open enrollment contingency were returned for a revised licensed staffing total of 589.24. For 2014-15, a projected decline in enrollment and other minor adjustments resulted in a decrease of 11.56 licensed FTE.

Additions/Reallocations

- Increase of 2.75 licensed FTE for teaching positions at ECCO. This increase was partially funded through the Superintendent's staffing pool.

Special Programs

Service Description

Special programs provide a wide range of instructional and related services for traditional and non-traditional students including programs for those with disabilities, alternative education, Talented and Gifted, and English Language Learners, as well as learners attending summer school, charter schools, and other programs.

Key Board Goal for this service:

- Increase achievement for all students and close the achievement gap.

Budget Goals for 2014-15

Goal 1. Partner with general education to shape the educational delivery system to meet every child's learning and social/behavioral needs and close the achievement gap.

Goal 2. Partner with general education to provide high quality instruction and access to the general curriculum for students with disabilities.

Goal 3. Partner with the District's research team to collect, analyze and provide key achievement data for students with disabilities to district stakeholders.

Goal 4. Expand the continuum of special education services offered within the District to include life skills level of service.

Goal 5. Based on the results of the Oregon Department of Education's Performance Review and Improvement (SPR&I) process, review current data and develop measurable goals and outcomes for implementation of the District's Achievement compact.

Financial Highlights and Significant Program Changes

Reductions

- Reduction of 3.0 licensed FTE due to decline in enrollment.

Additions/Reallocations

- 1.0 licensed FTE and 3.75 classified FTE added for a new classroom.
- 1.5 classified FTE added for school safety.

Classroom Support Services

Classroom Support Services include direct services to the staff that provide student instruction; activities designed to support instruction by providing materials, services, and professional growth opportunities; extra-curricular activities for students; functions that directly support the non-instructional needs of students; and the administration of the schools that our students attend.

Each of the classroom support services programs has established a program of work and a set of goals and objectives for the 2014–15 school year, which are associated with the five core goals identified within the Direct Classroom Services (Regular Programs) section of the budget.

Major Functions

	<u>2014–15 Budget</u>
Extracurricular Activities	\$ 2,353,592
Student Support	9,828,193
Libraries, Curriculum and Staff Development	5,371,227
School Administration	12,196,475
Community Services	457,285
Total	\$ 30,206,771

Extracurricular Activities

Service Description

Extracurricular activities are designed to support and enrich successful student participation in regular and special instructional programs. Support is provided by various specialists through direct service to students and consultation services with school personnel, parents, students and other agencies. Schools at each level provide enrichment opportunities for students to participate in music and physical education activities to the extent possible. The District also collaborates with Lane Community College, the City of Eugene, YMCA, and KidSports to make co-curricular activities available for students.

Key Board Goals for this service:

Opportunities to participate in extracurricular activities are available to all students. They are part of the Board's commitment to provide a comprehensive education that meets the needs of each student.

Budget Goals for 2014-15

Goal 1. Coordinate District extracurricular activities and programs

- Investigate, develop, and implement District activity programs that provide maximum opportunities for student participation.
- Establish safe and legal standards for all programs.
- Identify ways to increase student participation, especially from underrepresented groups.

Financial Highlight and Significant Program Changes

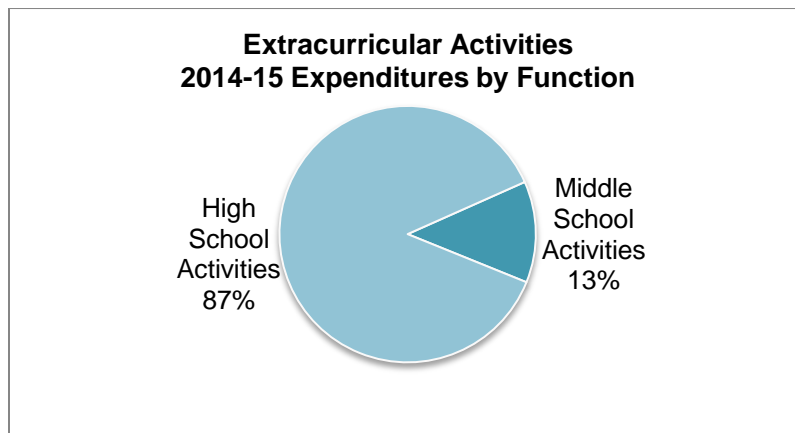

Reductions

- None.

Additions and Reallocations

- None.

Community Services

Service description

Activities include providing child care and managing community use of District facilities.

Key Board Goal for this service:

- Provide prudent stewardship of district resources to best support student success, educational equity and choice.
- Engage students, families, staff, the community, elected officials and other stakeholders in supporting our schools and improving educational outcomes for all 4J students.

Budget Goals for 2014-15

Board Goal: Provide prudent stewardship of district resources to best support student success, educational equity and choice.

Strategy: Enhance operational efficiencies by aligning business systems and resources.

Initiatives/Objectives:

1. Maximize operational efficiency and the use of resources by extended use of facilities – Provide additional resources to maintain facilities.

Board Goal: Engage students, families, staff, the community, elected officials and other stakeholders in supporting our schools and improving educational outcomes for all students.

Strategy: Create community partnerships and connections.

Initiatives/Objectives:

1. Engage with stakeholders by extended use of facilities and resources – Ensure safe and appropriate use of school buildings by youth activity groups and other community users that rent school facilities.
2. Provide related services that students need to succeed in school – Provide Child Care Services as an adjunct to the instructional program. Services include the Early College and Career Options (ECCO) Child Development Center and reimbursable child care at Camas Ridge Community School, Edgewood Community School, South Eugene High School, and North Eugene High School.

Financial Highlights and Significant Program Changes

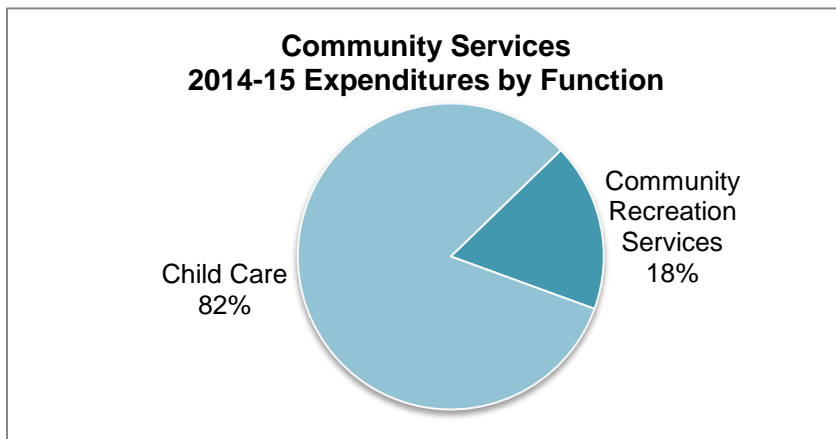

Reductions

- None.

Additions and Reallocations

- 0.375 classified FTE on-going addition to staffing at the Early College and Career Options (ECCO) Child Development Center.

Building Support Services

Building Support Services provide direct support to students and staff in the school buildings, including maintenance and operations of school buildings, student transportation, food services (included in a separate Nutrition Services Fund), supplies and mail distribution, and effective communications through networked computer and telephone systems.

- Facilities and Transportation Services provide safe, reliable transportation for district students, and work to create and maintain safe, comfortable and attractive facilities to enhance the learning and working environment for District students and employees.
- Technology manages the District's information resources, which span instructional and administrative uses of technology.
- Warehouse and purchasing include purchasing, warehousing, courier and mail service.

Major Functions

	<u>2014-15 Budget</u>
Facilities Operation and Maintenance	\$ 12,406,331
Student Transportation	7,424,938
Technology	4,752,876
Warehouse and Purchasing	<u>417,615</u>
Total	\$ 25,001,761

Facilities and Transportation Services

Service Description

The purpose of the Facilities and Transportation Services Department is to provide safe, reliable transportation for District students, and to create and maintain safe, comfortable and attractive facilities to enhance the learning and working environment for District students and employees.

Key Board Goal for this service:

- Provide prudent stewardship of district resources to best support student success, educational equity and choice.

Budget Goals for 2014-15

Board Goal: Provide prudent stewardship of district resources to best support student success, educational equity and choice.

Strategy 1: Improve facilities and district-wide resource consumption using bond funds.

Initiatives/Objectives:

1. Improve school facilities and technology infrastructure – A \$70 million bond measure, approved by voters in May 2011, furthers efforts begun in the Long-Range Facilities Plan adopted by the Board in 2002. The bond provides funding for capital improvements to school facilities, building upgrades and repairs, upgrade of technology systems and a broad range of support for changes in delivery of instruction. The bond also replaces approximately \$1 million in General Fund building repair costs. See Capital Projects Fund.
2. Respond to school facility needs by replacing aging District schools – A \$170 million bond measure, approved by voters in May 2013, provides funding for replacement of four schools, instructional materials, buses, and technology. See Capital Projects Fund.

Strategy 2: Implement and enhance the preventive maintenance program.

Initiatives/Objectives:

1. Improve the targeting of preventive maintenance – The capital budget includes the tenth year of funding for the preventive maintenance (PM) program. This program is funded by proceeds from the sale of surplus property. The preventive maintenance program funds activities that maximize the longevity and reduce the long term maintenance costs of buildings. The PM team has been required to absorb the preventive maintenance work previously performed by the high school maintenance coordinators that were removed from the high schools (department restructuring) to offset staffing reductions (5.0 FTE) in 2009-2010. As a result of further maintenance staff reductions in 2010-2011 (4.0 FTE) and 2011-2012 (5.0 FTE), the preventive maintenance staff has been required to provide support to the department's repair functions. It is estimated that actual preventive maintenance activities have been reduced by approximately 65% as a result of these maintenance staff reductions. See Capital Projects Fund for additional information.
2. Improve efficiency of facilities scheduling – Implementation of a new facilities scheduling system has enabled more efficient on-line scheduling of District facilities; added consistency to scheduling processes and recordkeeping across the District; provided automated invoicing of rental charges; and provided up-to-date information to schools, users, and schedulers; thus reducing scheduling conflicts and providing consistent, thorough, and accurate communication across the system. Additional training is required

for school-based staff in order to become proficient with the scheduling system and to fully realize the benefits provided. The system is now also being utilized for scheduling of outdoor facilities for youth sports organizations.

Strategy 3: Enhance efficiency of Transportation.

Initiatives/Objectives:

1. Improve efficiency of routing transportation for special needs students – Conversion of the routing system to Edulog in 2012-2013 was challenging and did not fully result in more efficient routing for the special needs transportation system. Further evaluation is required to determine if the current routing product is the best choice and method for routing special needs services.
2. Improve efficiencies within the department, without reducing services, while maintaining and/or improving service levels – Implementation of a new GPS-based product, “Zonar”, will provide the transportation department with more GPS information options at a decreased monthly recurring fee (after implementation period). Future additions such as student tracking and driver vehicle inspection reports could be utilized. These future additions are not supported by our current GPS provider. Implementation of new fleet shop maintenance software will also help maintain accurate parts inventory, scheduling of maintenance and repairs of District fleet vehicles, measure staff productivity, and correctly bill for services rendered.

Financial Highlights and Significant Program Changes

Facilities

Over the past six years, the facilities repair function has become more responsive to clients through enhancement of the work order and scheduling program. Integration of scheduled maintenance ensures that critical maintenance requirements, especially those legally required, are not overlooked. However, the backlog of uncompleted work order requests is increasing.

- Recent upgrades to heating and air conditioning system control systems as well as other systems affecting energy use are resulting in 15 to 30 percent energy savings following completion. Savings from recent projects has allowed the District to absorb in excess of \$200,000 in utility cost increases, driven primarily by rate increases, without increasing the corresponding budgets. Continued monitoring of utility usage will provide the information necessary to guide focused efforts at specific sites. Monitoring is also important to quickly identify system failures which otherwise may cause excessive energy use and/or compromise the comfort and well-being of building occupants.
- As a result of the \$70 million general obligation bond approved by voters in May 2011, \$1 million in annual appropriations for building improvements and repairs, including the value of 12 FTE classified staff and \$70,647 in materials costs, were shifted from the General Fund to the Capital Projects Fund. These costs will be paid from bond proceeds for three more years.
- We are now seeing the results of past staffing reductions through the growth of the volume of outstanding (uncompleted) work order requests. The number has increased from a previous average of approximately 650 to a current backlog of approximately 900.

History of Building Maintenance Costs

One industry measure for tracking building operating costs is to compare building maintenance costs (excluding custodial and utility costs) per square foot of building space over time. The facilities maintenance budget for 2014–15 includes about \$4.3 million to maintain approximately three million square feet of buildings. This budget includes approximately \$1 million in qualifying capital repairs being funded from general obligation bond proceeds in the Capital Projects Fund. Over time, maintenance and repair costs have been reduced by replacing older facilities and remodeling classroom space as well as shifting maintenance costs associated with two closed schools to District-sponsored charter schools under lease agreements. Some savings have been offset by requirements associated with the introduction of new systems and a broader range of technologies.

Transportation

Over the past several years, 4J Transportation has continued to deploy additional technologies to provide easier access to information for schools and parents, and to interface the routing software with windows-based and mapping products for ease of use. This minimizes staff time by providing wider information access to bus stops and schedules, enhancing reporting capabilities, increasing the ability to manage transportation of students in emergency situations, and increasing efficiency in managing routing changes. One such addition in 2013-14 was the “Where’s My Bus Stop” tool for parents and school staff on the transportation website homepage. This tool allows parents and school staff to find the nearest bus stop to the input address, saving time and calls into the transportation office.

In 2013, 4J Transportation executed Intergovernmental Agreements with Head Start of Lane County and Lowell School District to provide fleet maintenance services for their school buses and various fleet vehicles. Revenue from these contracts may exceed District expenditures for an additional 1.0 FTE Mechanic II position hired. Transportation will evaluate a request from Crow-Applegate-Lorane School District to provide fleet maintenance services in June 2014.

Student Transportation

	2008-09	2009-10	2010-11	2011-12	2012-13
Number of Students Transported Daily	4,832	4,985	5,197	5,042	4,830
Total Miles Traveled	1,391,374	1,326,201	1,302,505	1,409,582	1,412,378

Reductions

- None.

Additions and Reallocations

- Bus Aide and Route Planning Coordinator job positions have been increased by 4.0 and 2.0 classified FTE, respectively, primarily via the conversion of Bus Drivers (5.08 FTE) and Dispatch Information Coordinators (1.875 FTE).
- 1.0 administrator FTE (Facilities Manager) reallocated to 1.0 supervisor FTE (Facilities and Maintenance Manager).
- 0.5 classified FTE (Electrician Specialist) moved from the General Fund to the Capital Projects Fund.
- 0.5 classified supervisor FTE (Building and Grounds Maintenance Supervisor) moved from the Capital Projects Fund to the General Fund.
- 0.25 classified FTE reduction of custodial services at Parker Elementary.
- The 2014-15 budget for fuel, oil, and tires has been increased by \$113,293 via a baseline service level request.

Technology

Service Description

The mission of the Technology Department is to provide highly reliable and useable technology resources for District students and staff. The resources provided by the department include in-school and District-wide networks, phone systems, student information systems, data warehouse systems, data extraction and reporting services, email services, calendaring services, web services, repair services, file and print services, and desktop support. (Business information systems are provided and managed by the Financial Services Department.)

Key Board Goals for this service:

- Increase achievement for every student and close the achievement gap.
- Build our staff capacity to perform at a high level.
- Provide prudent stewardship of district resources to best support student success, educational equity and choice.
- Engage students, families, staff, the community, elected officials and other stakeholders in supporting our schools and improving educational outcomes for all 4J students.

Budget Goals for 2014-15

Board Goal: Increase achievement for every student and close the achievement gap.

Strategy: Increase access to instructional technology.

Initiatives/Objectives:

1. Implement Personal Devices and electronic textbooks across the District – The IT3 project has piloted the use of personal devices (iPads) in 7 district schools (Howard, Spring Creek, Awbrey Park, Madison, Cal Young, Monroe, and Sheldon). Based on the results of this pilot, the department will partner with the Instruction Department to identify the next schools to implement. The focus of these devices is to improve student performance towards meeting Common Core State Standards, increase student motivation in general, increase attendance, and increase graduation rates.
2. Implement technology devices and infrastructure to support the Smarter Balance Assessments – Individual assessments, completed in partnership with the Technology Department, Instruction Department, and building staff, will be conducted in the summer and fall of 2014 to identify where support is needed to ensure that students can complete assessments under ideal testing conditions. This will include substantial investments in new computers at all buildings (financed through the capital bond), improvements to the network backbone to allow more internet traffic, and may include upgrades to networks in buildings.

Board Goal: Build our staff capacity to perform at a high level.

Strategy: Improve access to student information.

Initiatives/Objectives:

1. Improve usability of the Synergy Student Information System to inform instruction, personalize learning, and better support District planning and leadership decision-making – The Synergy system has been deployed in all District schools and is used by all teachers, supporting instructional staff, and office staff. This includes both a student information

system and a special education system. In the first year, many implementation issues have emerged that need to be corrected in the second year. This is typical for a new system.

The department will change a number of District set-up features based on user's requests, increase the number of supported functions of the software, and train users extensively during the summer and the 2014-15 school year. In particular, the process of building a master schedule and putting students into classes will be done completely differently than in 2013-14. This will create better schedules for all buildings, especially the 3x5 schedules at the four comprehensive high schools.

Board goal: Provide prudent stewardship of district resources to best support student success, educational equity and choice.

Strategy: Improve operational efficiency of District-wide telephone communications infrastructure.

Initiatives/Objectives:

1. Design a new District phone system – The department will engage stakeholders, develop a requirements document, analyze alternative approaches, and recommend to the Superintendent the design for a new phone system. A new system will likely require changes to the core network that can be completed in the spring of 2015. The actual change to new systems in schools will occur in the summer of 2015.

Board goal: Engage students, families, staff, the community, elected officials and other stakeholders in supporting our schools and improving educational outcomes for all 4J students.

Strategy: Improve access to student information.

Initiatives/Objectives:

1. Establish timely access to student performance data, so that families can better support student learning and success in school – Information access portals for parents (ParentVUE) and students (StudentVUE) will be introduced for elementary schools and expanded for secondary schools. This includes continued expansion in the use of the grade book by 4J teachers. In coordination with the Instruction Department, the grade book will be configured to support standards-based assessments and reflect student proficiency. This directly supports the Board goal to engage families, specifically the key result to “provide timely parent access to all of their student’s information about grades, assignments, progress and attendance...so that families can better support student learning and success in school.”

Financial Highlights and Significant Program Changes

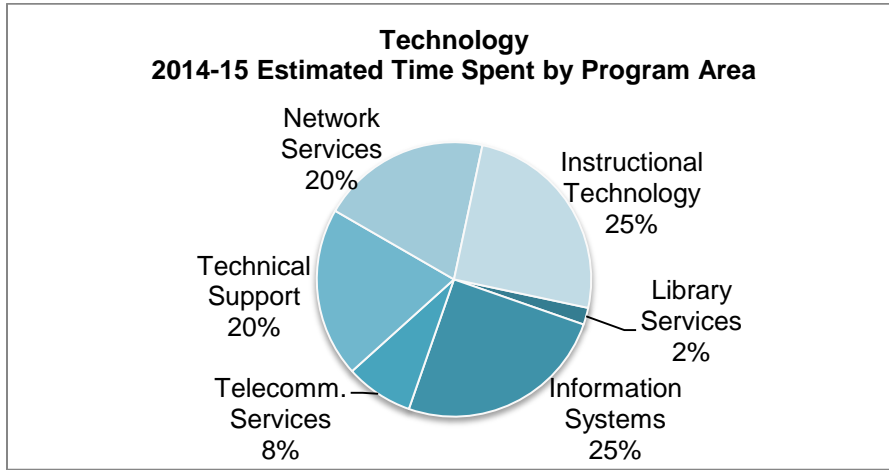

Reductions

- Reduction of 0.593 classified FTE related to special education.

Additions and Reallocations

- 1.0 classified FTE that was reduced in the 2013-14 adopted budget was restored after 2013-14 negotiations with employee groups were complete; this FTE has been reallocated to restore 0.75 classified FTE and the remaining used towards other additions and reallocations below.
- 0.95 classified FTE changed to 0.95 professional FTE.

- 2.0 increase in licensed FTE to provide an additional year of support for teachers to use Synergy, and to implement the Personal Device project. This increase will be paid for with existing department resources.
- 2.0 increase in classified FTE in the Capital Projects Fund (Fund 410) to deploy new student devices and securely dispose of old devices.

Technology Expenditures					
	11-12 Actual	12-13 Actual	13-14 Budget	14-15 Adopted	% of 14-15 Total

Warehouse and Purchasing

Service Description

Warehouse and Purchasing includes purchasing, central supply warehouse and materials/mail distribution. Purchasing staff facilitates the acquisition of professional services, supplies, and equipment for the District. The staff is also responsible for compliance with state purchasing statutes and competitive bidding requirements. Central Warehouse staff provides receiving, distribution, courier services, furniture and equipment relocation, and disposition of excess property for the school district (See the Financial Services organizational chart in the Information Section).

Key Board Goal for this service:

- Provide prudent stewardship of district resources to best support student success, educational equity and choice.

Budget Goals for 2014-15

Board Goal: Provide prudent stewardship of district resources to best support student success, educational equity and choice.

Strategy: Align purchases and inventory to needs of nutritional services program.

Initiatives/Objectives:

1. Increase efficiency and responsiveness of supplying foods and products – Implementation of the federal Healthy, Hunger-Free Kids Act of 2010 has resulted in changes to menus and also to the foods and products ordered for the Nutrition Services program. Warehouse staff will support these innovations by researching products available and delivering them to the schools.

Financial Highlights and Significant Program Changes

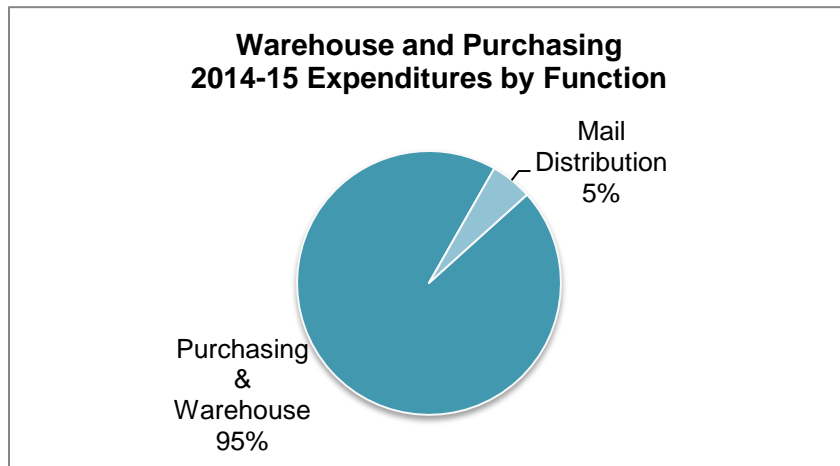

Reductions

- None

Additions and Reallocations

- Increase of 0.14 classified FTE for additional services added during 2013-14.
- Increase of 0.16 classified FTE for warehouse operations (0.02 FTE in the General Fund and 0.14 FTE in the Nutrition Services Fund).

Central Support Services

Central Support Services provide general direction and support for the District's various programs. More specifically:

- Executive Administration includes the School Board and the Office of the Superintendent. The School Board has the ultimate responsibility for the education of children residing within the school district (ORS 332.072), budgeting the resources allocated by the State Legislature and, to the extent allowed under the law, obtaining additional funds needed for the operation of schools. The superintendent provides leadership for the District's programs and is ultimately responsible for all areas of the District's operation (School Board Policy), provides executive leadership and administrative direction for all departments and services, and is responsible for proposing and implementing long-range plans.
- The Finance and Support Services Department is responsible for the District's fiscal operations of accounting, budget, and audit and provides analysis and support to schools, departments, District administration and the School Board in financial matters. The department also directs the activities of Nutrition Services (budgeted in a separate fund), purchasing, mail delivery, warehouse services, and business systems (included in the Building Support Services section).
- The Human Resources Department facilitates the recruitment, selection, development and retention of a skilled and diverse work force, and is responsible for the collective bargaining agreements. Costs of the District supplemental retirement program are budgeted here and paid out of the Postemployment Benefits Fund.
- The Communications and Intergovernmental Relations Department implements communication and community engagement activities that support District goals and maintain open communication within the District and with the public. The department also assists District leadership in maintaining positive intergovernmental relationships.

Major Functions

	<u>2014–15 Budget</u>
Executive Administration	\$ 1,022,048
Financial Services	1,723,358
Human Resources	4,023,392
Communications & Intergovernmental Relations	<u>605,487</u>
Total	\$ 7,374,285

Executive Administration

Service Description

The School Board helps ensure that the fundamental purpose of the District—to provide the best possible education for every student—is realized. It has responsibility for establishing and supporting the overall purpose of the District, leading and participating in the identification of needs and possibilities for improvement, and working with the legislature, community, and staff to secure the resources required to achieve the District's purpose.

The Superintendent has responsibility for the day-to-day operation of the school district, which includes supporting and communicating District goals, helping to establish a positive environment for learning, leading and participating in the identification of needs and possibilities for improvement, ensuring that policies, laws, and mandates are followed, and working with the School Board to determine the allocation of resources required to achieve the District's purpose.

Budget Goals for 2014-15

School Board Goals

School Board Policy BA requires the School Board to establish an annual agenda that sets the direction for the School Board and the District for the next school year and beyond. The Board adopted the following goals on November 6, 2013.

Goal 1. Student Achievement: Increase achievement for all students and close the achievement gap.

The Board is committed to ensuring that every student graduates and is college and career ready. Every school must improve teaching and learning with a focus on the Common Core State Standards. Our expectation is that every student will make at least one year of academic growth in each school year. All staff shall provide the support needed to actively engage students in their learning. Some schools will require additional resources to achieve District and State academic goals and close the achievement gap.

Key Results

1. By 2015-16, the District will implement the Common Core State Standards, providing clear goals for student learning in English language arts and math and focusing instruction on the knowledge and essential skills that each student will demonstrate for college and career readiness and to achieve the Oregon diploma.
2. In 2013-14, continue tracking both formative academic growth and college and career readiness measures and Oregon Achievement Compact targets, so that this data can inform instruction and resource allocation decisions. These measures include:
 - the proportion of ninth graders earning six credits;
 - the percentage of students fully scheduled at each grade level;
 - attendance rates by grade level;
 - EXPLORE college and career readiness results for eighth and ninth grade students;
 - PLAN college and career readiness results for tenth grade students;
 - OAKS (Oregon Assessment of Knowledge and Skills) and essential skills performance for all students and for subgroups;
 - graduation rates for four-year and five-year cohorts;
 - the number and percentage of graduates who enter two-year and four-year colleges; and

-
- the number of graduates who are still enrolled in postsecondary education 16 months following their high school graduation.
3. By 2013-14, the District's overall percentage of 4J students who meet the Oregon Assessment of Knowledge and Skills (OAKS) benchmarks in reading, writing and math will increase by 12% from 2007-08, with the target adjusted for the change in the passing score. The gaps for African American, Hispanic, Native American, multi-ethnic, special education and economically disadvantaged students will be cut in half, with the target adjusted for the change in the passing score. Those students in the class of 2014 not meeting the OAKS benchmarks in reading, writing and math will show mastery of essential skills in those areas using any of the alternatives to OAKS approved by ODE so that they can satisfy graduation requirements.
 4. By 2020-21, the five-year cohort graduation rate for 4J students in regular education will reach 100%. Students with disabilities, after four or five years of high school, will attain a regular, modified, extended diploma or a certificate of program completion, resulting in a cumulative 100% five-year completion rate.

Goal 2. Staff Capacity Building: Build our staff capacity to perform at a high level.

Staff capacity to deliver high quality instruction is a key lever to student success. Collaborative, data-informed decision-making processes, proficiency in culturally responsive practice, and continued systemic professional development are essential to our success as a school district.

Key Results

1. In 2013-14, continue implementing our plan to expand access to robust data and analysis that informs instruction, personalizes learning and better supports District planning and leadership decision-making by:
 - improving the timeliness and usability of the data through Synergy, the 4J data portal and other tools, and
 - expanding access to such information to all staff members.

We will measure our progress in this area through user surveys.

2. By June 2014, all schools will be effective using formative and summative student data to inform instruction and personalize learning and to identify strategies for providing support to students at risk of falling behind.
3. By June 2014, implement collaborative practices K-12 that lead to a more systemic and flexible approach to teaching and learning, such as job/school embedded professional development, common planning time, lesson study and instructional teaming strategies.
4. By 2014-15, complete implementation of our aligned teacher and administrator effectiveness and growth systems, with the purpose of developing and retaining a highly skilled and high performing workforce. Improve alignment of our principal evaluation and teacher evaluation. By June 2014, all teachers and administrators will have developed SMART goals that specify growth related goals in student academics, professional practice, professional development, as well as a related action plan.
5. By June 2015, train additional teacher cohorts to strengthen teacher expertise district-wide in best practices that enhance instruction, student achievement and college and career readiness. Deepen the expertise of principals to observe and support high-quality instruction.

Goal 3. Stewardship of District Resources: Provide prudent stewardship of district resources to best support students success, educational equity and choice.

The Board will direct District resources to support the instructional core and to provide educational equity and choice while maximizing administrative and operational efficiency within a sustainable budget. The District must also respond to declining enrollment, regional enrollment patterns, a student population with more diverse needs, uncertain revenue streams and escalating costs.

Key Results

1. By 2014-15, the District will implement a sustainable budget strategy that
 - funds a full school year and reasonable class sizes, reaching a target of 22 students per classroom teacher at elementary and 25 students per class at middle and high school;
 - supports staffing and programs needed to achieve a 100% five-year cohort graduation rate, including fully scheduling all high school students;
 - provides full-day kindergarten;
 - provides a sustainable health services program;
 - maintains reserves at or above board targets;
 - minimizes the use of one-time funds for ongoing expenses;
 - optimizes the use of short-term resources to reach student achievement goals, and
 - increases operational efficiency while reducing long-term capital needs.
2. During 2013-14, the District will review and adjust our needs index methodology for calculating licensed teacher staffing for individual schools. This will improve the transparency, equity, and effectiveness of resource allocations. It will also ensure that resources are allocated to schools based on the needs of students within those schools.
3. By September 2017, complete construction of Howard, River Road/el Camino del Rio, Roosevelt and Jefferson school buildings. Beginning in 2014, provide annual reports to the community from the Bond Review Committee regarding the investment of 2013 bond measure funds.
4. By November 2013, determine whether to continue receiving services from the Lane Education Service District or develop a plan to provide those services within the District or in consortium with other providers by 2014-15.
5. By June 2014, dispose of the Civic Stadium properties and review the District's land holding and property classification as in use, reserve or surplus.
6. By June 2014, improve and centralize processes and reduce energy consumption to further leverage our taxpayer resources.

Goal 4. Stakeholder Engagement: Engage students, families, staff, the community, elected officials and other stakeholders in supporting our schools and improving educational outcomes for all 4J students.

In order for the Board to provide effective leadership, it must communicate with and establish working relationships with students, families, staff, the community, and other governmental agencies, and engage these stakeholders in supporting our students and schools.

Key Results

1. In 2014-15, the Board will work with other local school districts, the Lane County legislative delegation, the Governor's Chief Education Officer and education advisor, the Deputy

Superintendent of Public Instruction, the City of Eugene, other elected officials, OSBA and other groups to advocate for legislation in support of increased student achievement envisioned in Oregon’s 40-40-20 goal, the funding level identified in the Oregon Quality Education Model and the local control of schools.

2. The Board and staff will work with the 4J Equity Committee to create community partnerships and connections that increase the opportunities for every 4J student to meet college and career readiness goals and receive the related services that they need to succeed in school.
3. By June 2014, the Board will provide timely parent access to all of their student’s information about grades, assignments, progress and attendance through the District’s student information system, so that families can better support student learning and success in school.
4. By June 2014, the Board will consider new strategies for expanding public engagement and provide direction for 2014-15.

Financial Services

Service Description

The mission of the Finance and Support Services Department is to work together in a respectful and ethical manner to provide high quality financial, food, mail and warehouse services to District students, District staff and our community. All department work supports the District's mission to do what is best for students; continue to learn and grow; and respect and care about each other. Specific financial services include accounting and financial reporting, treasury and cash management, budgeting, financial analysis, payroll, accounts payable, business systems support and purchasing. The nutrition services operation is budgeted in the Nutrition Services Fund. Business systems support, purchasing, warehouse and materials/mail distribution services are budgeted under Building Support Services.

Key Board Goals for this service:

- Provide prudent stewardship of district resources to best support student success, educational equity and choice.

Budget Goals for 2014-15

Board Goal: Provide prudent stewardship of district resources to best support student success, educational equity and choice.

Strategy 1: Enhance operational efficiencies by aligning business systems and resources.

Initiatives/Objectives:

1. Integrate and improve processing and reporting across business systems – During the year, we will finish implementing the student body accounting and attendance systems. This will allow us to complete out migration off the legacy “alpha” system that remains from the 1990s. We will also increase our use of the business information system functionality such as forecasting tools (for employee costs) and facilitate regular position control monitoring.
2. Effectively respond to school and department financial needs in a timely manner – Financial Services aims to support the financial transactions in schools and departments. We will focus efforts on providing direct support through a help ticket system, meetings with staff, reviews of transactions, outreach to help where needed, and regular communication. We will also continue to develop tools for school and department staff to use in daily routines such as checklists, one-page guides, and manuals.
3. Improve and centralize purchasing processes for the purposes of cost savings and efficiency – Over the last year, finance has worked collaboratively with the Technology Department to centralize the acquisition and maintenance of photocopiers. This will yield considerable savings in the form of funds and in people time that was spent managing copier operation, relationship with vendors and with processing transactions. Financial Services will continue to explore ways that the District can save time and money and assist departments using funds from bonds to yield ongoing operational savings.

Strategy 2: Enhance financial information provided to the District Leadership and the Board.

Initiatives/Objectives:

- 1. Develop, refine, and implement regular financial reports – Finance will continue to work with the Superintendent and Board to provide regular reports on the District’s financial position. Finance will also work with the Board’s Audit Committee to provide additional oversight in managing the District’s financial risk. Specific responsibilities might include oversight of the District’s internal and external audit process, the financial reporting process, and the system of risk assessment and internal control over financial systems.

Strategy 3: Adopt a sustainable annual budget aligned with District goals.

Initiative/Objectives:

- 1. Develop a plan that aligns resources with Board goals and priorities – Staff will continue to review budget options to adapt our operations to the available resources. Ensure that revenues equal or exceed expenditures. Specifically, our focus will be on minimizing the use of one-time funds for on-going expenditures, improving operating efficiencies, enhancing revenues and lowering capital needs. Ensure that reserves are maintained at or above Board levels or a plan is in place to return reserves to targeted levels. We understand that the Board may engage in a strategic plan during 2014-15 and this will support the budget development process.

Financial Highlights and Significant Program Changes

Reductions

- None.

Additions and Reallocations

- 0.225 increase in administrator FTE to return the Associate Director of Finance position to full time.
- 0.5 professional FTE reallocated to 0.625 classified FTE.

¹ Includes \$14,000 cost of actuarial analysis of postemployment benefits incurred every two years.

Audit Opinions

The District has received unmodified audit opinions for more than 20 consecutive years, including the fiscal year ended June 30, 2013. An unmodified opinion indicates that the auditor has determined that financial statements: 1) fairly present the financial position, results of operations and changes in financial position of an entity in accordance with generally accepted accounting principles applied on a consistent basis, and 2) include appropriate informative disclosures.

Budget and Financial Reporting

The District has received the *Certificate of Achievement for Excellence in Financial Reporting* from the Government Finance Officers Association (GFOA) every year since June 30, 1987. This certificate is presented to governments whose comprehensive annual financial reports achieve the highest standards in government accounting and financial reporting.

The District has received the GFOA *Distinguished Budget Presentation Award* every year since 1992–93. This states that the District has published a budget document that meets program criteria as a policy document, operations guide, financial plan, and communications device.

Ratio of Payroll Checks Issued Per Payroll FTE

This performance measure addresses the workload of payroll staff. Since 2011-12, staffing reductions have resulted in a significant increase in workload.

Human Resources

Service Description

The Department of Human Resources (HR) provides leadership, direction and support to District schools and departments. HR's functions are driven by the District's mission, vision and philosophy about student learning and achievement, staff effectiveness, growth and development, prudent stewardship of District resources and stakeholder engagement. In support of this mission, HR fosters and promotes instructional excellence by cultivating and exemplifying a student-centered/employee-oriented culture that emphasizes quality, effectiveness, continuous improvement, growth and the development of high performing employees. HR develops responsive, contemporary and compliant HR policies and practices and manages programs focused on recruitment, retention and teacher quality, employee performance and growth, professional development and training, and operational efficiency in supporting schools and staff. HR also manages the following programs: employee wellness; health benefits administration; employee and labor relations; workforce planning and staffing; equity and diversity initiatives; workers compensation, employee safety and welfare; risk, liability and emergency management; and property loss, prevention and management.

The mission of the HR Department is to create a high functioning, collaborative, student-centered work environment through its leadership and direction in fostering institutional excellence; support and promote student achievement by attracting, developing and retaining highly effective employees; promote the value of all past, present and future employees; maintain employee-employer relationships which are positive, productive, ethical and legal; and protect the District's employees, property and finances from avoidable loss.

Key Board Goals for this service:

- Build our staff capacity to perform at a high level.

Budget Goals for 2014-15

Board Goal: Build our staff capacity to perform at a high level.

Strategy 1: Enhance and implement systemic professional development.

Initiatives/Objectives:

1. Implement and improve the Professional Development Growth Plan and Teacher Effectiveness Systems and the Administrator Visionary Leadership and Growth Plan – Comply with Senate Bill 290 and the requirements of the ESEA Flexibility Waiver by continuing to implement and build sustainability for 4J's Teacher Effectiveness and Growth Evaluation Systems and the Administrator Visionary Leadership and Growth Plan (principal, assistant principal and administrator evaluation). Both evaluations are growth-centered, designed to increase teacher and administrator effectiveness, improve student growth and reduce the achievement gap, and increase leadership potential and capabilities. The evaluations focus on: key District strategic priorities as they support District goals; multiple approaches to student learning; a shared District vision; infusing a supportive culture; promoting collaborative practices, collective inquiry and participatory decision-making; promoting improvement in schools and the system as a whole; encouraging risk-taking, mutual trust and support; being flexible; utilizing a variety of assessments and information gathering tools and supporting documentation; and promoting staff self-reflection, leadership, social justice, ethical leadership and continuous professional growth.

2. Implement the Emerging Leaders Academy – Continue to foster a high functioning workforce and promote retention of high quality staff by promoting a leadership academy for emerging leaders amongst assistant principals and teachers.
3. Continued implementation and sustainability of the Effectiveness and Growth System for Classified Employees (Classified Employees’ Evaluation) – Continue to promote a high functioning work environment by continued implementation of, and sustainability for, a student-centered, growth-oriented performance evaluation system for classified employees.

Strategy 2: Recruit and assign a workforce for the District’s future.

Initiatives/Objectives:

1. Develop and implement workforce planning and teacher recruitment program – Ensure that the District’s workforce meets and exceeds current and future needs by attracting, developing and retaining highly skilled employees through the development of a District-wide workforce planning and recruitment plan.
2. Develop and implement an enhanced staffing system – Collaborate with principals, administrators and supervisors to jointly develop staff planning analysis models in order to remain responsive to current and future staffing needs focused on moving schools and the District closer to narrowing the achievement gap.

Financial Highlights and Significant Program Changes

Reductions

- None.

Additions and Reallocations

- 1.0 professional FTE reallocated to 1.0 administrator FTE for employee benefits and shifted to the Insurance Reserve Fund (Fund 600).

Communications and Intergovernmental Relations

Service Description

The Communications and Intergovernmental Relations staff:

- Provides executive leadership and support including policy development, planning and other support to the Board of Directors, the Superintendent and the organization;
- Develops and implements a comprehensive communication program that includes external communications between the District, parents and the community, news media relations, publications, web site information, internal communications and technical assistance to schools and departments;
- Supports efforts to maintain positive intergovernmental relationships with legislators and local government officials and works cooperatively with other agencies that provide community services for students;
- Researches grant opportunities, develops grant proposals and coordinates the District's relationship with the Eugene Education Fund; and
- Oversees radio station KRVM budgeted in the Federal, State and Local Programs Fund.

Key Board Goals for this service:

- Provide prudent stewardship of district resources to best support student success, educational equity and choice.
- Engage students, families, staff, the community, elected officials and other stakeholders in supporting our schools and improving educational outcomes for all 4J students.

Budget Goals for 2014-15

Board Goal: Provide prudent stewardship of district resources to best support student success, educational equity and choice.

Strategy: Enhance District resources available to increase achievement for every student and close the achievement gap.

Initiatives/Objectives:

1. Enhance District resources by identifying and applying for grants – Identify grant opportunities. Facilitate development of grant proposals that support District priorities and instructional initiatives.

Board Goal: Engage students, families, staff, the community, elected officials and other stakeholders in supporting our schools and improving educational outcomes for all 4J students.

Strategy: Create opportunities for expanding public engagement.

Initiatives/Objectives:

1. Provide support for District leadership – Provide leadership and support to the Board, Superintendent's Cabinet and other groups including the Bond Review Committee.
2. Support ongoing communications and communications of emerging issues with all stakeholders – Broaden community awareness of District goals, plans and initiatives including the renewal of the local option levy. Assist principals and school staff in managing urgent situations and issues by providing communications support and expertise. Engage

parents, staff and community stakeholders in decision processes for issues that have long-term implications for the District including the design process for new school buildings.

3. Strengthen and build upon strategic partnerships with local and state officials – Ensure that the District proactively communicates with local and state officials and works cooperatively to improve educational quality and funding to address issues of student health, safety and welfare.

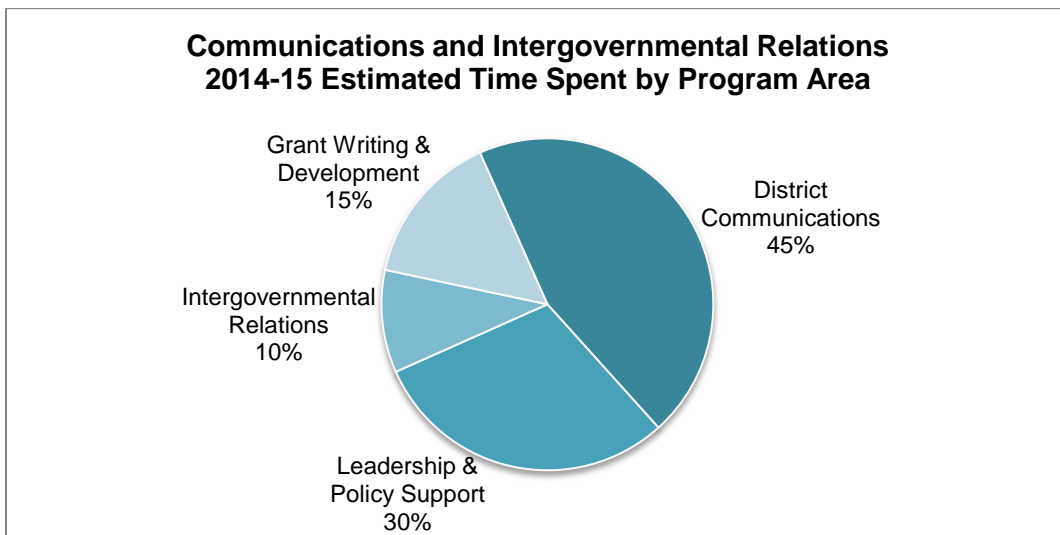

Financial Highlights and Significant Program Changes

Reductions

- None

Additions and Reallocations

- 0.20 increase in professional FTE for Grant Writer position, bringing position to .75 FTE. This increase will be paid for with existing department resources.

Communications and Intergovernmental Relations Expenditures

Other General Fund Accounts

Transfers

These transactions withdraw spending authority from one fund and place it in another to facilitate accounting for specific projects and to accumulate reserves.

Transfers for 2014-15

To the Insurance Reserve Fund—\$1,125,000

- \$230,000—estimated District paid social security savings from employee use of IRS Section 125 accounts (tax sheltered insurance accounts). By agreement with employee groups, these savings are to be transferred to the employee group reserves in the Insurance Reserve Fund.
- \$875,000—for risk management and employee benefits program operations.
- \$20,000—to offset increases in insurance costs for administrators, by agreement with the administrators association 4JA.

Debt Retirement

This account is used to budget the cost of short term borrowing necessary to fund District operations during periods when cash reserves are depleted. The District's goal is to minimize the cost of short-term borrowing. No short-term borrowing is anticipated in 2014–15. The \$1,000 budgeted for potential interest expense preserves the District's budgetary authority to borrow if it should experience unforeseen cash flow difficulties.

Contingency

This appropriation allows for unforeseen expenditures. Budget authority in this account can only be used with approval of the School Board. An appropriation is then transferred and costs charged to the account which describes the expenditure.

Board Priorities Reserve for 2014-15

The Board has established a special reserve for the purpose of reinvesting in instruction. Spending plans will be designed to align with the following Board priorities:

1. Maintaining or reducing current staffing ratios to avoid increasing class sizes and to reduce class size in our most crowded classrooms.
2. Beginning to restore lost school days and instructional time.
3. Maintaining preparation time for elementary teachers, which is key to improving results for students.

Contingency Budget for 2014–15

Board policy sets the funding target for the contingency account at 2% of operating expenditures. Transfers of other funds are not included in this calculation. The operating contingency of \$2,996,633 represents 2.0% of operating expenditures for 2014-15.

Unappropriated Ending Fund Balance (UEFB)

The UEFB represents a cash carry-over to the next year's budget for stability in volatile economic times and cash flow until other resources are received. It cannot be accessed by resolution or supplemental budget during the fiscal year in which it is budgeted. It is described under Board policy.

UEFB for 2014–15

Board policy sets a minimum target for the projected ending fund balance at 5.0% of operating revenues. It also permits the use of a portion of the projected ending fund balance to stabilize services if revenues are less than anticipated. The use of reserves below 5.0% requires a plan for rebuilding reserves to the targeted level within five years.

The UEFB for 2014-15 is budgeted at \$4,360,292 or 2.9% of operating revenues. The District projects that the budgeted UEFB plus unspent contingency appropriations will result in an ending fund balance of \$6,358,147 (approximately 4.25% of operating revenues), which is consistent with Board direction for the 2014-15 budget.

³ Formerly the Student Body Fund; includes the Special Purpose Reserve.

⁴ Includes the Capital Equipment Reserve.

Capital Equipment Fund

The Capital Equipment Fund was established in 1990-91 to support efforts to replace fleet, vehicles and equipment on a scheduled basis. Over the years, the funding sources and the desired use of funds have changed. Sources have included: bond funds in the early 1990s, state lottery funds in the late 1990s, and partial State reimbursement of school bus purchases. These sources are considered special revenues. More recently, funding has also been received from the General Fund for school and departmental equipment. With the economic downturn, funding from the General Fund has dwindled. Additionally, department's and schools' spending plans have expanded to use these funds for non-equipment purposes.

As a result of the changes in funding and spending plans, in 2013 the Board approved a resolution to dissolve the Capital Equipment Fund and create two new funds. The first fund, the Special Purpose Reserve, is for school and department general spending and is funded by unexpended budget capacity from the General Fund. It is within the School Resources Fund. The second fund, the Capital Equipment Reserve, is to set aside funding for replacement of fleet, vehicles, and equipment. It is within the Capital Projects Fund. Due to the fund's dissolution, the Capital Equipment Fund budget for 2013-14 and 2014-15 shows no revenues or expenditures. It remains in the budget document to show prior years' revenues and expenditures.

Federal, State and Local Programs Fund

Description of Services

These are designated-purpose dollars for programs of a special nature. Their uses and limitations are specified by the grantor entity. Generally the resources of this fund cannot be diverted to other uses.

Programs accounted for in this fund are approved by the District Board of Directors. Budgeted amounts are based on anticipated funding; however, actual expenditures are dependent upon receipt of grants from the various sources. The 2014-15 budget includes estimated carryover from the prior year and assumes all funds will be expended in the current year. The major anticipated grants include funding for the following programs:

Elementary and Secondary Education Act (ESEA)

The Elementary and Secondary Education Act is a federal law passed to ensure that all children have a fair, equal, and significant opportunity to obtain a high-quality education and reach, at a minimum, proficiency on challenging state academic achievement standards and state academic assessments. Administered by the State Department of Education, amounts appropriated under ESEA are distributed to local schools to be used for purposes stated in the law.

Oregon has received an ESEA flexibility waiver, which allows a major shift in school accountability, moves away from many of the one-size-fits-all elements of No Child Left Behind (NCLB), and moves toward a more customized, authentic, and evidence-based approach to improving the performance of individual students, schools, districts, and the state. Under the waiver, Oregon must identify at least five percent of its highest-performing or highest-progress Title I schools as “Reward” schools, and 15 percent of its lowest-performing or lowest-progress Title I schools as “Priority” and “Focus” schools.

ESEA includes the following grants:

- Title I – Education for the Disadvantaged: Grant funds are to be used for instruction which focuses on improving the academic achievement of disadvantaged students. Ten District elementary schools, two District middle schools, and one K–8 charter school are expected to receive Title I funding.
- Title II-A – Preparing, Training, and Recruiting High Quality Teachers and Principals.
- Title II-B – Mathematics and Science Partnership.
- Title III – Language Instruction for Limited English Proficient and Immigrant Students.

Students with Disabilities

Grants from state and federal sources are received by the District to support students eligible for special education. Grants include the following:

- The Individuals with Disabilities Education Act (IDEA) grant provides funding for education of disabled students.
- Regional Physical/Occupational Therapy Services provide funding for students who need physical/occupational therapy.

Eugene Education Fund (EEF)

The District receives quarterly distributions from the EEF. The fund was established by parents and teachers in 1993 as a non-profit organization to support the students of Eugene School District 4J. Donations may be earmarked for particular schools, District programs or a program at a specified school. Five percent of any gift to a specific school is retained by EEF for equity

grants, which are available to all schools through a grant proposal process, and five percent is retained to cover overhead costs.

School Resources Fund

Service Description

This fund is used to record the financial transactions for school-sponsored activities at District elementary, middle, and high schools, including receipts, disbursements, and the transfer of funds from one student body account to another. The major sources of income are student fees and fundraising by parent groups and student organizations. These funds are used for various student activities and special school projects.

Since 1991–92, schools and departments have accumulated savings from the General Fund at year-end to build reserves for future equipment needs. These carryover balances from the General Fund were formerly managed in the Capital Equipment Fund and are now being managed in a Special Purpose Reserve within the School Resources Fund. Reserves fund expenditures such as the purchase of equipment, additional staff, and instructional materials such as textbooks and library books. Funds may also be transferred back to the General Fund to support operations.

Debt Service Fund

Service Description

The Debt Service Fund accounts for principal and interest payments on long-term general obligation and limited tax pension obligation debt. Expenditures budgeted in 2014–15 represent the portion of principal and interest that must be paid during that fiscal year. Amounts budgeted in the unappropriated ending fund balance will be levied in 2014–15 to cover payments due in July or August 2015 and recorded as expenditures in 2015–16. Sources of revenue include the debt service levy on local property taxes, interest earnings on investments and charges to other funds.

As of June 30, 2014, outstanding principal balances total \$148.9 million in general obligation (G.O.) bonds and \$48.7 million in pension bonds. Based on 2013-14 assessed value, general obligation bonds represent 8.6% of the District's legal debt limit of \$1.7 billion. Remaining legal debt capacity is \$1.6 billion. Debt levels are also governed by Board policy, which requires the periodic review of debt capacity to ensure that debt levels are prudent and affordable to District taxpayers. The District's debt and investment management policies can be found in the Information section of the budget document.

Bond Rating

In July 2013, Moody's Investors Service assigned an **Aa2** underlying rating to the District's general obligation bonded debt. A negative outlook has also been assigned to the District's underlying rating. According to Moody's, one of the top bond rating agencies in the country, the rating "incorporates the district's sizable tax base, above average wealth measures, financial operations characterized by a recent trend of operating deficits and thinning reserve levels, and a modest debt profile. The negative outlook primarily reflects the district's financial operations which exhibit structural imbalances that are expected to further narrow reserve levels that already lag its peers in the Aa2 rating category." Aa indicates that bonds, from an investor's perspective, are judged to be high quality. The highest rating that Moody's assigns is Aaa. State of Oregon bonds are rated Aa1.

The District also participates in the Oregon School Bond Guaranty Program, which guarantees the general obligation bonds of school districts, education service districts, and community colleges. This program helps to minimize interest costs for districts.

Debt service payments in 2014–15 reflect the following debt issuances:

- In May 2002, District voters approved a bond measure for \$116 million. \$70 million in general obligation bonds were issued in November 2002 and have been repaid; \$46 million were issued in August 2005.
- In February 2004, the District sold \$53.4 million in pension bonds to finance one-half of its unfunded actuarial liability in the Public Employees Retirement System (PERS). The estimated net present value of the savings to the District over the life of the bonds was projected to be \$13.9 million, assuming the bond proceeds deposited in the District's PERS account earned an average of 8 percent per year.
- In September 2008, the District issued \$47.3 million in advance refunding bonds to refinance portions of the District's 1999 and 2002 G.O. bonds. The purpose of the refunding was to reduce debt service costs to taxpayers by refunding debt at lower interest rates. The gross savings to taxpayers, over the life the bonds, was estimated to be \$5.9 million, which represented a net present value savings of \$1.8 million, or 3.5 percent.

- In May 2011, voters authorized the issuance of general obligation bonds totaling \$70 million, \$35 million of which were issued in August 2011 and \$15 million of which were issued in August 2013. The remaining \$20 million is expected to be issued in 2014 and 2015.
- In October 2012, the District issued \$37.4 million of general obligation refunding bonds to refinance a portion of the District's Series 2005 and Series 2003 bonds. Savings to the taxpayers over the life of the refunded bonds were calculated to be over \$2.9 million, or a net present value savings of 6.6 percent. The remaining \$2.26 million of the 2003 bonds matured in January 2013 and \$1.9 million of the 2005 bonds mature in 2015.
- In May 2013, District voters approved the issuance of general obligation bonds totaling \$170 million, \$25 million of which was issued in August 2013. The remaining \$145 million is expected to be issued in 2014 and 2015.

Property taxes levied for debt service payments on voter-approved general obligation bonds are not subject to the property tax rate limits of Measure 5 or Measure 50.

The following tables show District bonded indebtedness as of June 30, 2014 and annual payments to be made in 2014–15. At the time of printing, a portion of bonds approved by District voters in May 2011 and 2013 are expected to be issued in September 2014. New debt arising from this bond issue is not included in the tables and charts on this page and on pages 129 to 131. The total estimated requirement of debt service principal and interest (including estimated costs of the September 2014 bonds) due in 2014-15 is shown in the expenditure table on page 131.

Limitation on Additional Bonding	<u><u>\$ 1,583,977,540</u></u>
----------------------------------	--------------------------------

¹ ORS 328.245 limits the general obligation debt which an Oregon school district may have outstanding at any time to an amount calculated by multiplying the number of grades, kindergarten through eighth, for which the district operates schools by a factor of .0055 of the real market value, and the number of grades, nine through twelve, for which the district operates schools by a factor of .0075. The District's aggregate percentage debt limitation is therefore 7.95% of the real market value of the District.

² The bonding limit is based on Real Market Value of District property in Lane and Linn Counties. Property tax calculations are based on Assessed Value.

³ Legal lending limit only applies to general obligation bonds. Pension bonds are excluded from this calculation.

GO and Pension Bonded Debt Principal Outstanding by Issue

¹ Includes \$3,145,000 estimate of required principal and interest due from bonds expected to be issued in September 2014. We anticipate the issue will be finalized before the tax certification deadline; therefore approval for capacity is included in this budget.

Capital Projects Fund

Service Description and Funding Sources

The District's Facilities Department is responsible for implementing three major programs that are funded by Capital Projects funds:

Capital Improvements, Repairs and Maintenance Program

The Capital Improvements, Repairs and Maintenance Program manages several significant projects throughout the District, such as: sports field turf installation, gym floor refinishing and sports field maintenance; parking facilities maintenance and upgrades; and irrigation, lighting, and heating upgrades. Individual projects budgeted in 2014-15 are listed within the Non-Bond Funded portion of the Capital Projects Listing.

This program is staffed by a Design Planning Manager (1.0 FTE), a Safety Specialist (1.0 FTE), and 12.0 FTE that conduct a wide variety of capital repairs throughout the District as required (e.g., carpenters, electricians, plumbers, heating/ventilation, etc.). The funding source for the 12.0 FTE is bond proceeds from the May 2011 bond measure (see Long-Range Facilities Plan and Impact of the Capital Projects Funds on the General Fund sections below).

There are also 11.5 FTE budgeted in the General Fund for capital repairs and maintenance projects. Additionally, this program provides 2.25 General Fund FTE for custodial services located at the Youth Sports Park locations.

Local reimbursements from the City of Eugene and usage fees paid by youth sports organizations such as KidSports are the primary sources of operating revenue for this program. Current-year funding is also provided by unspent funds received in prior years.

Preventive Maintenance Program

The goal of the Preventive Maintenance Program is to assure systems operate efficiently and their useful lives are extended, and to design and implement energy conservation efforts.

The program funds several projects including: real estate consulting, relocations, the demolition of auxiliary buildings located on the Civic Stadium property, and the Safer Routes to Schools study. Individual projects budgeted in 2014-15 are listed within the Non-Bond Funded portion of the Capital Projects Listing. It is staffed by a Supervisor (1.0 FTE) and Maintenance Workers (3.0 FTE) that conduct regularly scheduled maintenance of major building systems (e.g., roofs, plumbing, electrical, and heating/ventilation/air conditioning (HVAC)).

Resources for this program are from past sales of surplus properties and unspent funds from prior-year transfers from the General Fund. The proceeds from bond sales are not a source of revenue for this program.

Capital Improvement Program

The Capital Improvement Program is responsible for building construction and improvements, building systems replacement and upgrades, as well as providing funding for student safety and security upgrades, replacing textbooks and instructional materials, acquiring and improving technology, and acquiring vehicles and equipment. It is staffed by a project administration team, including a Construction Program Manager (1.0 FTE), Project Managers (5.0 FTE), and engineering and administrative support (2.7 FTE).

Resources for the Capital Improvement Program are primarily from the sale of general obligation bonds (see the Long-Range Facilities Plan and Bond Measures sections below), and to a lesser extent from interest income and Oregon Department of Education (ODE) reimbursements. ODE reimburses an estimated 3-6% of eligible project costs when construction results in new classroom space, or converts spaces not used for instruction in the previous five years into instructional space.

Long-Range Facilities Plan, 2002

In February 2002, the Board adopted a 24-year Long-Range Facilities Plan, which was developed by the Strategic Facilities Planning Advisory Committee, a group of 21 community members, parents, students, teachers, classified staff, administrators, and School Board members appointed by the Superintendent to develop a plan to address the District's aging facilities, rising facilities operating costs and declining enrollment.

The Committee reviewed recommendations made by the Schools of the Future Committee (1999–00) and the School Closure, Consolidation and Replacement Committee (2000–01) as well as District financial and enrollment projections, demographic and geographic information, building operating costs, and capital needs.

The plan includes the following strategies:

- Replace or fully renovate aging elementary and middle school buildings that no longer adequately serve students. Remodel high schools in stages, replacing portable classrooms and improving instruction and student activity spaces;
- More closely match available space with enrollment at the elementary level, through school consolidations;
- Replace and upgrade capital systems, such as roofs, wiring, plumbing, and fire and security systems as needed to prolong the useful life of the buildings and to upgrade the technology infrastructure to support current instructional needs;
- Dispose of surplus property that will not be needed in the future for educational purposes or seek long-term leases that would financially benefit the District; and
- Improve instructional spaces throughout the District.

Long-Range Facilities Plan Update, 2013

In February 2013, the Board approved the Superintendent's recommended update to the Long-Range Facilities Plan. This followed an extensive public process after the completion of a comprehensive facilities assessment by an external consulting firm. This assessment included the physical condition of buildings, condition and constraints of each site, educational suitability, and technology readiness. The results of this assessment were used to inform the decision-making process surrounding the planned and projected replacement and upgrade of schools.

Bond Measures

The 2002 Long-Range Facilities Plan calls for four bond elections approximately six years apart.

The first bond measure, totaling \$116 million, was approved by voters in 2002. Final balances under this measure were expended in 2010-11.

The timing of the Great Recession put the Plan on hold until May 2011, when voters approved a \$70 million bond measure funding capital improvements to school facilities, upgrades to technology systems and a broad range of support for changes in the delivery of instruction. The bond also shifts approximately \$1 million of General Fund building repair costs to the Capital

Projects Fund. Of the approved \$70 million measure, \$50 million of bonds have been sold, and approximately \$35 million is expected to be spent through 2013-14.

Additional school replacements called for in the Plan were not included in the 2011 bond because of economic conditions at that time, the fact that a local income tax to benefit schools was also on the May 2011 ballot, and because further analysis on grade reconfigurations, school closure and consolidation, and language immersion programs was needed.

In May 2013, voters approved a \$170 million bond measure funding a combination of replacement and renovation of four school buildings, as well as providing funding for student safety and security upgrades, replacing textbooks and instructional materials, acquiring and improving technology, and acquiring vehicles and equipment. Of the approved \$170 million measure, \$25 million of bonds have been sold, and approximately \$17 million is expected to be spent through 2013-14.

Capital Projects Fund – Major Projects Summary

Major projects are funded from bond measures approved by the District’s voters. These are budgeted on a project basis. Capital improvements and repairs valued at \$5,000 or more are typically budgeted in the Capital Projects Fund.

May 2011 \$70 million bond measure

The purpose of the bond measure is to:

- Fund capital improvements for school facilities, including remodels and additions to several schools;
- Redirect \$1 million in annual operating costs for six years for building improvements and repairs to support the District’s instructional program, as noted below in Impact of the Capital Projects Funds on the General Fund;
- Upgrade technology systems; and
- Provide a broad range of support for changes in the delivery of instruction.

Major Projects (\$)	Total Project Budget	Actual Expenditures 7/1/11-6/30/13	Projected Expenditures 2013-14	Budgeted Expenditures 2014-15
Capital Systems Replacements and Improvements	\$44,400,000	\$10,509,792	\$4,915,612	\$5,955,000
Additions and Remodels	6,000,000	4,143,652	603,172	380,000
Allowance for future school reconfiguration	4,000,000	4,591,103	369,520	0
Building Improvements and Repairs	6,000,000	2,000,000	1,000,000	2,487,000
Instructional technology, technology infrastructure, and student information system	6,800,000	3,689,753	419,393	2,745,426
Changes in instructional design	2,100,000	744,800	599,029	0
Potential acquisition of property	700,000	0	0	0
Emergency Contingency	1,500,000	1,100,228	674,058	750,00
TOTAL	\$70,000,000	\$26,779,328	\$8,580,784	\$12,317,426

Note: Costs of bond issuance, construction project administration and project management are funded from bond proceeds and are included in the above figures.

- **Capital systems replacement and improvements** includes roofing, plumbing, heating, electrical, fire alarms, safety/security/ paving, energy conservations, etc.

- **Additions and remodels** includes projects at Adams, Camas Ridge and Willagillespie, plus a \$4 million allowance to support future Board actions related to school consolidation and grade reconfiguration. The \$4 million allowance has been tapped to fund the Edgewood Music Room Addition and the Churchill High School STEM Remodel/Renovation.
- **Building improvements and repairs** were funded from the General Fund prior to the issuance of the bond.
- **Technology infrastructure** comprises upgrades, telephone system replacements, a new student data information system, and classroom technology.
- **Supporting changes in instruction design** comprises changes in the delivery of instruction as required for larger class sizes, distance learning, space modifications, advances in instructional technology, and qualifying instructional materials.
- **Potential acquisition of real property** adjacent to existing school sites, should it be determined that the purchase of property provides more flexibility for school replacement at these sites in the future.
- **Emergency Contingency** funds were allocated in the total amount of \$1.5 million. Roughly \$1 million is being used to fund the migration of the District's business system (Lawson) and expansion of Lawson to include attendance and student body.

May 2013 \$170 million bond measure

The purpose of the bond measure is to:

- Replace, renovate, improve, repair, and remodel school facilities and other property used for District purposes;
- Address student safety and security across the District;
- Replace textbooks and instructional materials;
- Acquire technology to support effective classroom instruction, and improve technology infrastructure;
- Acquire vehicles for transporting students and enhance access routes to schools; and
- Acquire equipment.

Project	Total Project Budget	Projected Expenditures 2013-14	Budgeted Expenditures 2014-15
Roosevelt Middle School, replacement	\$42,000,000	\$3,709,709	\$1,500,000
Jefferson M.S., partial replacement & renovation	35,000,000	841,591	1,000,000
Howard Elementary School, replacement	32,000,000	3,525,165	25,000,000
River Road Elementary School, replacement	24,000,000	2,211,565	1,000,000
Gilham Elementary School, remodel and addition	5,000,000	0	500,000
Kelly Middle School, track and multi-use field	2,000,000	119,600	1,000,000
Technology Infrastructure and classroom technology	10,480,000	2,218,820	4,500,000
Buses and High School Activity Vans	6,000,000	3,014,741	0
Instructional materials, equipment, and curriculum	5,220,000	1,012,644	1,600,000

Special Education Equip. & Facility Improvements	300,000	0	300,000
Increased personnel costs, related to projects	0	0	200,000
TOTAL	\$170,000,000	\$16,868,835	\$42,111,175

Note: Costs of bond issuance, construction project administration and project management were funded from bond proceeds and are included in the above figures.

Fleet and Equipment

Historic Value of Fleet and Equipment held at 6-30-13 ¹	
Bus Fleet	\$10,349,000
Other District Fleet	2,222,000
Grounds Equipment	1,003,000
Other Equipment	<u>6,891,000</u>
Total Value	\$20,465,000

¹ Note that this information contains only equipment and vehicles over \$5,000.

Bus Fleet

Bond funds from the May 2013 measure will be used to purchase buses. In 2013-14, \$3 million of bond proceeds have been used for bus purchases, while no bond proceeds are budgeted for bus purchases in 2014-15. An additional \$3 million is anticipated to be used in 2015-16. In the past, the District used both state and General Fund money to purchase or lease new school buses. The state reimburses replacement costs for buses and vans used to transport students at a rate of 70% of the allowable fleet depreciation. Vehicles are depreciated over a ten-year period. State reimbursements in 2014–15 for bus depreciation are budgeted at \$680,000.

Until 2009-10, the District budgeted a General Fund transfer of approximately \$150,000 to supplement these funds. This transfer was eliminated in 2009-10 as part of District-wide budget reduction strategies. The current liability for lease payments of existing buses and future liability for additional bus purchases is reflected in the Capital Projects fund.

The District currently owns 107 regular and special education school buses that have an estimated useful life of 10 to 12 years. Eight special education program route buses, twelve regular program route buses, and six high school activity vans were purchased in 2013-14 to replace existing vehicles in the fleet.

Impact of the Capital Projects Funds on the General Fund

The primary objective of infrastructure and building systems upgrades and improvements is to limit the growth of operating costs, increase the comfort of employees and students, and improve the reliability of these systems, thereby reducing current and future maintenance costs.

Facilities management currently anticipates a combination of new building construction, upgrades to digital system controls and monitoring, heating equipment upgrades, exterior window replacement, LED lighting fixture retrofits, and increased access to water wells for irrigation will yield reduced energy consumption at a rate comparable to likely increases in the cost of energy inputs over the next several years. Although it is difficult to quantify at this time, these capital project improvements should limit increases in utilities cost within the General Fund during the useful life of these improvements.

The savings to the General Fund related to spending on capital projects in the 2014-15 budget is estimated at \$16.3 million. This reflects costs that otherwise would have been paid by the General Fund, such as staffing, equipment, and maintenance. The table on the next page shows this breakdown in more detail.

Description	Capital Project Fund	FTE	Salaries and Benefits	Non-Personnel	Total
Capital Improvement and Repair	Bond	12.00	\$925,000	\$200,000	\$1,125,000
Preventive Maintenance	Surplus Property Reserve	4.00	325,000	1,275,000	1,600,000
Capital Repairs	Capital Repairs Reserve	4.00	315,000	1,595,000	1,910,000
Technology infrastructure and instructional technology	Bond	3.94	500,000	6,400,000	6,900,000
Capital Projects	Bond	-	-	2,800,000	2,800,000
Instructional materials, equipment, and curriculum	Bond	-	-	1,950,000	1,950,000
TOTAL		23.94	\$2,065,000	\$14,220,000	\$16,285,000

Real Property Management

To permit the District to take a more proactive approach to property management, the Long Range Facilities Plan calls for the biannual review and classification of real property into the following classifications:

In Use: Property that houses or supports the educational program.

Reserve: Property that is not in use but which is or may be needed for a definable future use. Reserve property shall be managed to preserve its use for future District requirements.

Surplus: Property that may not, in the judgment of the School Board, be required for school purposes and may be sold or leased. This may include property currently in use for District functions that could be moved without significant disruption to the service provided. Surplus property shall be managed to maximize the financial return to the District while taking potential community benefit into consideration.

The classification of properties was last reviewed in April 2009. Further review of property classifications was deferred, pending the results of the facilities assessment and recommendations for updating the Long-Range Facilities Plan.

As of April 2009, properties classified as surplus included:

- Dunn/Opportunity Center
- Bailey Hill Elementary
- Civic Stadium
- Coburg farm property

In August 2013, the Board reopened discussions that began in 2010-11 regarding the disposition of the Civic Stadium property. Approval of a final request for proposals occurred at the October 2, 2013 meeting. After receiving and evaluating four separate proposals, the Board voted on February 19, 2014 to award a contract for sale of the property to the City of Eugene. The City's offer pays \$4.5 million for the purchase of the property contingent on the City Council's decision to be made within nine months of 4J approval. During that time period, the City must identify an

outside entity that will submit a plan for renovation, operation, and maintenance and demonstrate available financial resources of at least \$3 million.

Early College & Career Options (ECCO), a program designed to assist students who have dropped out or have not experienced success in traditional programs, relocated to the Lane Community College (LCC) campus in summer 2013. This relocation included a merger of services to further the Career and Technical Education (CTE) partnership with LCC.

The Village School, a District-sponsored charter school, may continue to lease space at Willard. The District currently intends to retain the Willard site for future school use. The Dunn/Opportunity Center is currently vacant, and the District may consider initiating the Land Use Disposal Process in the near future.

According to Board policy DFD, net proceeds from the sale or lease of facilities will be used to acquire and develop land and/or upgrade and improve District facilities “unless the Board decides otherwise for compelling reasons.” Annual transfers of \$500,000 were made from these funds to help offset General Fund budget deficits in 2009-10 and 2010-11. A \$2 million transfer was budgeted for 2012-13, with another \$1 million transfer budgeted for 2013-14. No transfer to the General Fund is included in the 2014-15 budget, and the budget assumes all available proceeds will be expended during fiscal year 2014-15.

Revenue	11-12 Actual	12-13 Actual	13-14 Budget	14-15 Adopted	% of 14-15 Total

The District's history of capital expenditures shows the strong, positive impact of voter-approved bonds on its ability to make improvements to buildings and grounds. Prior to bond issuance in 1993, typical annual capital improvement expenditures ranged from \$1 million to \$3 million. The graph below highlights the impact of bond issuance.

The 2014-15 capital improvement program will largely be funded with proceeds of the \$170 million bond approved by voters in May 2013 and the \$70 million bond approved in May 2011. Bond-funded expenditures represent \$45.6 million for capital projects, \$7.2 million for technology upgrades, \$1.6 million for Instruction-related improvements, and \$2.3 in project management and program administration costs. The remainder of costs in this area relate to District staff compensation, bond costs, and consultant design services. Non-bond funded projects include almost \$5.7 million in capital improvements and \$510,000 for repairs and preventive maintenance.

Capital Projects Listing

2014-15 Bond Funded Projects

PROJECT NUMBER	DEPARTMENT/ BUILDING	PROJECT	TOTAL 2014-15
1	Multiple Sites	Playground Equipment Upgrades	125,000
2	Multiple Sites	Wireless Network Installation	35,905
3	Multiple Sites	Instructional Support	348,284
4	Multiple Sites	Lighting Upgrades	200,000

Total Non-Bond Funded Projects			\$2,771,685
Total Projects			\$57,200,286

Capital Projects Descriptions

The following projects are budgeted for 2014-15. Specific work at “multiple site” projects will be identified once staff has determined where the greatest needs exist. The budget was developed to authorize the maximum amount of work that can take place during this fiscal period.

Bond Funded Projects

1. Playground Equipment Upgrades
 - Repair/replace outdated playground equipment.
2. Wireless Network Installation
 - Complete the wireless network installation in warranted areas that didn't receive the upgrade during the main project.
3. Instructional Support
 - Fund instructional space remodels, classroom technology, and appropriate instructional materials.
4. Lighting Upgrades
 - Install controls to reduce energy costs at multiple sites. Improve lighting quality at Ed Center.
5. Fuel Tank Monitoring
 - Decommission some tanks no longer in use.
6. Irrigation Upgrades
 - Convert manually operated or failed irrigation systems to automatic controlled systems to save operational costs.
7. Edison Office Remodel
 - Upgrade building security by converting a classroom into main office space adjacent to the main entry.
8. Student Information System
 - Replace software and implement conversion to new student information system.
9. Repair Asphalt Surfaces
 - Patch deteriorated asphalt parking lots and playgrounds at multiple sites.
10. Upgrade Security and Card Access Systems
 - Install card access systems and upgrade security systems at multiple sites.
11. Accessibility Upgrades
 - Support ADA accessibility upgrades to building entrances, restrooms, cafeterias, and gymnasiums to provide reasonable access to physically challenged individuals.
12. Lawson Project
 - Purchase software licensing and implement hosting of new financial reporting system.
13. Spencer Butte HVAC Upgrade
 - Replace failing unit ventilators and reduce glazing to improve comfort in building.
14. Abate / Replace Flooring
 - Replace flooring and remove related asbestos to maintain floor surfaces at multiple sites.
15. Electrical Upgrade at Buena Vista

-
- Replace aging electrical switch gear and panels to improve electrical service.
16. Paint Building Exteriors
 - Paint buildings to preserve building envelope and maintain finishes in accordance with seven to eight year schedule.
 17. Concrete Sidewalk Upgrades
 - Replace worn out, cracked concrete at multiple sites.
 18. Pavement Replacement
 - Reconstruct parking lots and drive lanes at the Ed Center.
 19. Acoustical Treatment
 - Reduce noise levels in classrooms by installing acoustical panels on walls and/or ceilings at CHS STEM building.
 20. Fire Alarm Upgrades
 - Upgrade fire alarm systems at multiple sites.
 21. Upgrade/Replace Exterior Doors
 - Replace exterior doors as needed at Buena Vista ES. Budget also supports card access projects.
 22. Technology Infrastructure Upgrades Allowance
 - Replace computer equipment at Technology, upgrade telephone service district wide and improve classroom technology.
 23. Roofing Replacement
 - Replace roofing at multiple sites, and perform associated seismic upgrades, as needed.
 24. Fire-Life Safety Remediation
 - Address the highest priority life/safety deficiencies identified in a study of all school buildings performed by a local architectural firm. All four high schools will receive upgrades this year.
 25. Asbestos/Lead Paint Allowance
 - Provide abatement funding to support construction projects at multiple sites.
 26. Structural Repair/Seismic Allowance
 - Repair structural deficiencies as they are identified. Budget also supports seismic upgrades for roofing projects as necessary.
 27. HVAC Upgrade
 - Repair inefficient HAVC system in the instruction wing at the Education Center.
 28. Emergency Contingency
 - Budget provides funding for unforeseen projects at multiple sites, which cannot wait for future bond funding.
 29. Locker Replacement/Refurbish Allowance
 - Replace, upgrade, refurbish or paint worn lockers at multiple sites.
 30. Replace Carpets
 - Replace worn carpeting at multiple sites with high quality, long lived carpet.
 31. Replace Kitchen Equipment
 - Replace aged kitchen equipment with more energy efficient equipment at multiple sites.
-

-
32. Improve Energy Conservation
 - Replace or upgrade inefficient heating/cooling systems by installing efficient control systems.
 33. Landscaping at STEM
 - Complete the STEM remodel at CHS by installing landscaping in the STEM courtyard and surrounding area.
 34. Stormwater/Sewer Allowance
 - Repair/replace failing stormwater and sewer piping at multiple sites.
 35. Power Circuits or Technology
 - Provide additional circuits to rooms that don't have sufficient power for technological devices at multiple sites.
 36. Window Covering Allowance
 - Replace aging window coverings at multiple sites.
 37. Fencing/Mow Strip Allowance
 - Provide mow strips at multiple sites to allow mowing next to fences and buildings.
 38. New Rubberized Track and Synthetic Field
 - Construct new track and field at Kelly Middle School.
 39. Elementary School Building Replacement
 - Replace the Howard Elementary School building.
 40. Middle School Addition/Remodel
 - Design for new two story classroom wing and remodeling of portions of the existing Jefferson ATA building.
 41. Middle School Building Replacement
 - Design for the replacement of the Roosevelt Middle School building.
 42. Elementary School Building Replacement
 - Design for the replacement of the River Road Elementary School building.
 43. Elementary School Addition/Remodel
 - Design classroom addition and remodeling of portions of the existing Gilham Elementary School building.
 44. Improve Special Education Facilities
 - Upgrade/remodel existing special education facilities and programs at multiple sites.
 45. Technology Upgrades
 - Provides funding for equalization of school based technology and replacement, infrastructure support, assistive technology and nutrition services technology District-wide.
 46. New Instructional Materials
 - Purchases new instructional materials related to science, writing, math and special education.
 47. Safer Routes to School
 - Provides budget to improve the safety of the routes students use to travel to and from the new schools.
 48. Capital Repairs & Improvements
 - Repair, replace and/or upgrade capital systems at multiple sites.
-

49. Security Upgrades

- Improve building security at multiple sites.

50. Increased Personnel Costs, Project Related

- Provides funds to offset incremental salary increases for positions offloaded from the General Fund as part of the previous \$70 million bond measure.

Non-Bond Funded Projects

1. Playground / Bleacher Equipment Upgrades

- Improve outdated playground equipment and outdoor bleachers at multiple sites.

2. Building Modifications

- Perform minor building remodels such as workspace remodels, time-out rooms, and remodel of classrooms to accommodate changes to programs.

3. Site Improvements

- Repair or reconstruct sidewalks, entry ways, planter boxes and drainage at various sites throughout the District.

4. Refinish Gym Floors

- Preserve wooden gym floors at multiple sites, screening and re-coating according to three-year schedule.

5. Maintain Sports Fields

- Repair and maintain District fields using combined capital funding and user fees from field usage.

6. Irrigation Upgrades

- Convert manually operated or failed irrigation systems to automatic controlled systems to reduce operating costs.

7. Heating Equipment Replacement

- Upgrade outdated and inefficient heating equipment with energy efficient equipment and controls as necessary.

8. Lighting Upgrades

- Re-lamp and replace ballasts in existing fixtures at multiple sites.

9. New Schools Meetings/Meals

- Provide budget for meals for new schools design teams when schedule dictates that design meetings must continue through the lunch break.

10. New Schools Teacher Substitution/Child Care Costs

- Provide budget for substitute teachers when teachers on design teams need to attend limited meetings/events during school hours. Also funds child care for after hour events associated with the design of the new schools.

11. Kid Sports Revenue Repair/Upgrades

- Use funding from Kid Sports to maintain sports fields and repair/replace athletic equipment used by Kid Sports at multiple sites.

12. Asphalt Repair/Reconstruction

- Repair/replace aging asphalt surfacing at multiple sites as necessary.

13. Sports Field Turf Improvements

- Provide budget to fund new synthetic athletic field at Kelly Middle School. This budget will be spent to install the new field, and then will be replaced with revenue from City of Eugene, who will partner with District on the project.

-
14. Bus Parking Modifications
 - Funding to modify bus parking required because the City of Eugene needs additional right of way to complete the new LTD route to west 11th Avenue.
 15. Real Estate Consulting
 - Contract with real estate consultants to assist with the buying and selling of property, providing estimates of property values, and assisting with other property issues.
 16. Demolish Auxiliary Buildings
 - Demolish dilapidated, non-historic buildings adjacent to Civic Stadium.
 17. ECCO Relocation
 - Funding to move the ECCO program, and associated child care program, from Parker to Lane Community College campus.
 18. Open Enrollment/Full Day KG Space Needs/Modifications
 - Address space needs and modifications required from the new inter-district open enrollment transfers and full day kindergarten.
 19. Safer Routes to School Studies
 - Provide funding to study potential improvements to the routes students use in getting to and from school.
 20. Energy Conservation
 - Continue to fund projects that result in long term energy savings District-wide.

Nutrition Services Fund

Service Description

The purpose of the Nutrition Services Program is to provide nutritious, affordable and enjoyable meals and to promote nutrition education. Meals must be in compliance with the Child Nutrition Program administered by the United States Department of Agriculture. The financial goal of the program is to breakeven or yield a profit. Income is received from federal and state government reimbursements as well as student participation. The educational goal of the program is to provide students, staff and parents with information to facilitate good nutritional habits that will last a lifetime. The program is managed by a contracted service company. Sodexo was selected to provide this service in 2013-14 with four one-year renewals; this contract has been renewed for 2014-15.

Budget Goals for 2014-15

Goal 1. Achieve financial stability

Employ a variety of strategies to achieve a financially self-sustaining food service operation, as directed by the Board. Strategies will include expanding menus to increase revenues, establishing equitable kitchen staffing standards, monitoring the meal pricing structure, reducing non-essential items, and fully utilizing the District's commodity allotment to reduce food costs.

- Work to grow participation and revenue through increased program quality, consistency, communication, program marketing, menu marketing and student engagement
- Update computers and technology at sites to improve service to customers
- Increase revenue through upgrades to serving equipment
- Increase participation through outreach to households eligible for meal benefits

Goal 2. Implement revisions to new USDA standards for school meals

Monitor and implement changes to nutrition-based menus that advance the interests of the Healthy, Hunger-Free Kids Act. Make certain that District meal programs incorporate the following standards:

- Ensure students are offered both fruits and vegetables every day of the week;
- Substantially increase offerings of whole grain-rich foods;
- Offer only fat-free or low-fat milk varieties;
- Limit calories based on the age of children being served to ensure proper portion size; and
- Increase the focus on reducing the amounts of saturated fat, trans fats and sodium.

Goal 3. Engage the community and advisory groups

Engage students, parents, community members, administrators, teachers and staff in determining menu offerings. Address program feedback from student and community advisory groups. Address local community interests of:

- Increasing the amount of locally grown and produced food;
- Reducing the amount of processed food;
- Providing understandable and easily accessible information on the nutritional value and ingredients of menus; and
- Conduct Community Advisory Meetings
- Publish Newsletters
- Active listening to students, households, community groups and special focus groups

Goal 4. Expand use of local produce and implement more sustainable practices

In collaboration with Willamette Farm and Food Coalition, and to the extent it is fiscally feasible, purchase more produce grown in Oregon and, whenever possible, in Lane County. Seek ways to implement more sustainable business practices and reduce the program's overall carbon footprint. Partner with school garden programs to be a resource so that the cafeteria can be a vital link to the education and sustainability of the school garden whenever possible.

Goal 5. Increase Employee Satisfaction

Nutrition Services will continue to engage site staff in the processes and decisions that affect their work environments:

- Conduct yearly employee satisfaction surveys
- Continue to refine the Standard Operating Procedures and Employee Performance Standards Handbook
- Conduct performance reviews
- Staff kitchens equitably by staffing standards
- Conduct monthly Food council meetings
- Conduct monthly Coordinators meetings and yearly training for all staff

Revenue	11-12 Actual	12-13 Actual	13-14 Budget	14-15 Adopted	% of 14-15 Total

Insurance Reserve Fund

Service Description

The District's Insurance Reserve Fund is an internal service fund established to fund and record risk management activities and services. These activities and services fall into three major areas: 1) insurance premium payments; 2) insurance reserve requirements; and 3) risk management program costs.

The premium costs and reserve requirements include all of the District's employee fringe benefit programs: medical, dental, vision, long-term disability and life insurance. The unemployment and worker's compensation programs include claims and case management and return to work programs. The amount of the District contribution for employee benefits is budgeted with salary expenditures and is paid from the General Fund and other funds containing salaries to the Insurance Reserve Fund. Program administration is covered by a transfer from the General Fund and by fund reserves.

The 4J Risk Management program has responsibility for the systematic identification of exposure to potential loss within the District and the selection of appropriate methods for managing those exposures. The operation of a school district involves the ongoing risk of loss through normal business activity from the acts or omissions of employees, as well as the use and condition of the District's facilities, vehicles and equipment. These risks are also associated with acts of nature, the economy and society. Risk Management manages all claims investigation activities and maintains a direct role in any litigation against the District. The costs of the risk management program are comprised of staffing and operating expenses.

The Risk Management program also responds to inquiries and counsels employees regarding fringe benefits, manages relationships with insurers and medical providers, and oversees District employee benefits enrollment and orientations. The program coordinates the District's Joint Benefits Committees which are charged with ensuring that benefits provided to employees are reasonable and cost effective.

Key roles of the fund are:

- Risk Management
- Employee Benefits
- Occupational Safety and Health
- Employee Leaves

Key Board Goal for this service:

- Provide prudent stewardship of district resources to best support student success, educational equity and choice.
 - Continue diligent research and negotiations with District insurance carriers to minimize insurance premium increases while maintaining adequate coverage for all District functions and exposures.
 - Manage employee on-the-job injuries to reduce claims exposures and allow injured employees to return to work as soon as possible. Oversee and recover all possible state reimbursements to the District for Preferred Workers and Employer-At-Injury Programs.

Budget Goals for 2014-15

Goal 1: Reduce Occupational Injuries and Overall Liability

Risk Management will continue to review insurance coverage, identifying areas which may require additional coverage or insurance limit increases, conduct loss prevention activities and claim investigations, and manage and maintain close involvement in District litigation matters. Support will be provided for loss prevention to lower claims.

Goal 2: Support the development and implementation of effective District-wide emergency procedures at all 4J schools

Risk Management will continue to focus on assisting 4J schools in their efforts to develop and implement appropriate strategies for dealing with emergency situations that might arise in schools. These efforts include required National Incident Management System (NIMS) and Incident Command System emergency training for administrators, a District NIMS compliant Emergency Operations Plan, continual updates to the Emergency Procedures Manual for distribution to District employees, school site evaluations, coordination of fire and evacuation drills and weekly meetings regarding safety/emergency coordination with the District's School Resource Officers and the Eugene Police Department.

Goal 3: Management of District Employee Benefits

District employee benefits are offered and contracted for by the District. The benefits function will closely monitor the legislatively approved Oregon Educators' Benefits Board and individual insurance carriers. Benefits staff will study plan options, provide ongoing education for employees and test modifications of the employee benefits module of the business system to ensure optimal customer service.

Goal 4: Support continued use of the Preferred Worker and Employer-at-Injury Program

The Oregon Workers' Compensation Division has a fund specifically targeted to assist Oregon employers in the re-employment of injured workers. These funds are disbursed through two programs: Employer-at-Injury (EAIP) and Preferred Worker. The District has received over \$1.0 million from the Preferred Worker Program since 1990. The District has also received an additional \$787,249 from the EAIP since the program began in 1993, with the recovery of more than \$136,500 in fiscal year 2013, along with another \$47,743 through March in fiscal year 2014. Risk Management will continue to pursue the use of these funding sources for the re-employment of injured workers and to further invest in District-wide loss prevention efforts. Risk Management also works closely with Oregon Occupational Health and Safety Act and Occupational Safety and Health Administration (OSHA) requirements which apply to District operations. All District OSHA written plans receive yearly review for compliance, in order to both protect employees from injury as well as avoid OSHA fines and/or negative inspections.

Goal 5: Support implementation of innovative District wide safety and security initiatives by continued development of internal and external strategic partnerships

Risk Management will continue to identify, develop and implement proactive Safety and Security related strategies throughout the District with a strong focus on fostering a safe learning environment. Risk Management, in partnership with multiple internal and external stakeholders, is implementing risk deterring safety and security strategies. For example, Risk Management will be managing the implementation of the Surveillance System project.

Performance Indicators

Worker's Compensation

This graph outlines the number of workers' compensation claims for all District employees between July 1, 2004 and April 1, 2014. Worker's compensation provides medical and/or time loss payments to 4J employees, Board members, volunteers, student workers, and work placement students for injuries sustained in the workplace. As indicated by the graph, the number of claims filed in 2011-12 and 2012-13 are similar, while the current 2013-14 policy year is trending down. The downward trend in claims filed in 2013-14 can be attributed to a proactive safety strategy with a focus on increased safety training and accident investigation to ascertain and implement any changes necessary to reverse the increasing number of injuries to District employees.

Total Claims Review

This graph provides information on the District's history for all insured and self-insured property and liability losses from July 1, 2004 through April 1, 2014. The total number and cost of all property and liability claims are illustrated for each fiscal year. The claims and costs indicated include losses in the following areas: general liability, property, error and omissions, and auto (including school buses). The increase in 2006 costs is due to approximately \$250,000 of fire damage at a closed school. Year 2009-10 costs include an incurred property coverage deductible (\$150,000) due to a significant school fire loss. Year 2011-12 costs are higher than in previous years as the District had settled several lawsuits that had been outstanding in prior years. The two significant claim settlements resulted in the District settling for \$150,000 (Sexual Misconduct) and \$60,000 (Fall from bleacher). Claims incurred in 2010-11 and 2011-12 show a significant decline in number and total dollars incurred. For July 2013- April 2014, the District is trending down considerably in overall number of claims and incurred cost.

Postemployment Benefits Fund

Service Description

The Postemployment Benefits Fund was established in 1991–92 as the District Retirement Fund to account for obligations related to supplemental retirement benefits. The fund has also been used as a reserve for Public Employees Retirement System (PERS) rate increase when lower employer rates in the 2003–05 biennium allowed some savings to be put aside. These were exhausted in 2012-13.

The supplemental retirement program, which was established in 1978, provides monthly cash payments and/or insurance benefits for eligible employees who retire before age 65. Benefit levels and eligibility have been bargained and vary among the different employee groups. This program ended in July 1996 for administrators and July 1998 for teachers. The fund provides benefits for most administrators and teachers hired before those dates, as well as a limited contribution to health premiums for retired classified employees.

In 2012-13, the District offered an Early-Out Retirement incentive for licensed and classified staff. These plans entailed one-time cash incentives or supplementary payments towards health care premiums paid in 2012-13, 2013-14, and 2014-15. The cost of the payout for 2014-15 has been included in the Postemployment Benefits Fund.

Financial Highlights and Program Changes

Expenditures budgeted in this fund for post-employment benefits amount to 2.7% of the total District budget for salaries. Revenue to the fund comes from an assessment on District staff wages. The General Fund will provide \$2.3 million in 2014-15 to support these expenditures. Available fund reserves will also be used to meet a portion of payment obligations that are projected to be higher than revenues.

Forecast Framework

This financial forecast has been prepared in response to the District's adopted management goal of maintaining long-term financial stability. The forecast establishes key assumptions underlying the projections and identifies variables which may cause the projections to change. Its purpose is to provide the fullest picture of the District's financial future so that decision-making today can support high quality and innovative educational programs tomorrow.

In Board Policy DA, the District's Financial Management Goals and Policies provide the framework for financial planning and decision-making by the School Board, Budget Committee, and District staff.

1. "The district will establish a financial base sufficient to support high quality and innovative educational programs which meet community needs."
2. "The district will follow prudent and professional financial management practices in order to achieve and maintain long-term financial stability."
3. "The district will demonstrate to the taxpayers of the district and the financial community that its schools are well managed."
4. "The district will provide cost effective services to citizens by cooperating with other educational, government, and non-profit agencies."
5. "The district will have an adequate capital improvement program that maintains existing district assets, provides for student and employee safety, maintains a quality instructional environment, and allows for enhancements that are necessary to meet changes in enrollment."
6. "The district will continually review and improve its formal budget document and other financial information so that it clearly and openly communicates its resources, expenditures, and financial position."
7. "The district will communicate, as permitted by law, with its employees and the community so that they understand the district's program requirements and financial status."

Board Policy DI provides additional direction for the planning and allocation of resources:

1. "The district estimates revenues, operating and capital expenditures, and debt service every year for the following five years. Annually, the superintendent will propose a financial forecast that is reviewed and potentially modified by the budget committee or Board. This forecast serves as the basis for budget instructions to the superintendent for the following year and for other financial planning activities."

Future Budget Issues

Medium Term Projected General Fund Position

The General Fund is projected to be in deficit for each of the next four years, assuming current service levels and a full school year. Accordingly, the District is structurally imbalanced – the cost of operations exceeds the District’s ability to support those operations. Balancing the budget requires long-term changes in programs or operations, which may mean service reductions or further consolidations. In recent years, the District has maintained services and operations by drawing down reserves; however, the majority of these reserves have now been exhausted. The District continues to evaluate and implement revenue generation strategies and cost efficiencies, which may offset the potential for future service reductions, on an ongoing basis.

Local Option Levy Revenue

With the continued support of local residents, the District receives revenues from local option levies. The amount of levy collected depends on property values and is defined by Measures 5 and 50. Local option revenue represents the gap between Measure 5 and Measure 50 tax limits. Measure 5 tax limits are based on the real market value (RMV) for each property in the District, and Measure 50 tax limits are based on assessed value (AV). Although local option revenue is calculated on a property by property basis, generally, when RMV grows at a greater rate than AV, local option revenue increases. When it decreases at a greater rate, revenue decreases. Recently, local option levy receipts have declined as a result of the downward trend in real market property values. For 2014-15, assessed values are expected to increase by 3.00 percent, while real market values are expected to grow, albeit at a slower rate. Therefore, the tax gap is expected to remain relatively flat and result in a compression loss of \$11.9 million. In 2013-14, the District experienced local option tax compression of approximately \$11.3 million.

The State Legislature continues to consider proposed legislation that could potentially change future local option tax calculations and collections. Most proposals would amend the Oregon constitution and therefore require voter approval.

State School Fund Revenue

Oregon spending on K-12 education is relatively low in comparison to other states. Oregon ranked 37th in the nation in 2010-11 for public elementary and secondary education spending per pupil (NCES, Revenues and Expenditures for Public Elementary and Secondary Education: School Year 2010-11 (FY 2011), 2013 Digest of Educational Statistics, Retrieved March 25, 2014: http://nces.ed.gov/programs/digest/d13/tables/dt13_235.20.asp). This ranking has been declining compared with other states for over ten years. It has fallen from 15th in 1997-98 and 29th in 2007-08 to 33rd in 2008-09 and now 37th. Total 2010-11 expenditures of \$10,866 per pupil were below the national state mean (\$12,730) and median (\$11,819) expenditures.

In the last decade, the State’s spending on education has fallen as a proportion of the State’s total budget and in real dollar terms. For 4J, this decline is exacerbated by declining enrollment. Given continued declines in enrollment at the younger grades, we expect this trend to continue.

Full Day Kindergarten

Starting in 2015-16, Oregon school districts will be required to offer full day kindergarten that the state will reimburse as a full-time program (Senate Bill 248, 2011 Legislative Session; State of Oregon, Retrieved March 25, 2014: <https://olis.leg.state.or.us/liz/2011R1/Measures/Analysis/SB248>). Currently, the State only provides districts with funding for half day kindergarten. The state has not indicated if additional funding beyond what is normally allocated to K-12 education will be provided for full day kindergarten; some concern has been expressed that it will be at the

expense of other educational programs. Participation in full-day kindergarten will not be mandatory.

Federal Forest Fee Revenue

The Federal Government has not clearly indicated whether Federal Forest fees will be remitted in 2014-15. Since about 2000, the Federal government has made payments to counties hurt by cutbacks in federal logging (under the Secure Rural Schools and Community Self-Determination Act). The act was extended through 2011 and then again in 2012 and 2013, at reduced levels. No revenue from this source has been included in the 2014-15 budget or forecasts.

Education Services District (ESD) Services and Funding

Each county in Oregon has an ESD to provide educational programs and services for districts. ESDs are funded by grants from the state that are calculated based on enrollment in the local districts served. ESDs may also receive fees for services from districts that are not members of the ESD. In 2013, the Legislature allowed local districts to withdraw from an ESD and receive funds passed through. The District has historically used ESD services for special education students. In 2013-14, the District opted to receive 50% of funds from the ESD, reduced the ESD services that were used, and began to provide some of the services that were previously purchased in-house.

Special Education Services and Funding

The State School Fund provides additional payments for students with disabilities up to 11% of the District population (ADMr). If a district's percentage of students with disabilities exceeds 11%, some additional funding is available, but at a much lower rate per student. In 2014-15, with an estimated 2,275 students qualifying for special education services, the District's percentage of students with disabilities is 14.3% (including charter school students).

The State also provides separate funding for high cost students. This is a fixed amount of funding that is divided across all districts in the state based on the number of high needs students with costs that exceed \$30,000. For 2013-14 a total cost for high cost students of approximately \$2.1 million was estimated.

The table below shows the number of high cost students since 2008-09.

Year	Number of students cost >\$30,000
2008-09	176
2009-10	166
2010-11	168
2011-12	162
2012-13	160
2013-14 est.	162

Enrollment

Enrollment is projected based on the best available information, but it is still an estimate. The District has experienced declining enrollment for approximately 20 years. Declines in enrollment negatively affect the District's revenues.

Public Employee Retirement System (PERS) Rates

PERS contribution rates are set once every biennium. They are based on fund performance over the 18 months prior to the effective date of the rate change and the actuarial projections of fund liabilities. The current rates were set during the state's 2013-15 biennial budget process based on the December 2011 actuarial valuation, adjusted for the effects of actions of the legislature and PERS Board.

As of December 31, 2013, the PERS system liability was reduced to incorporate the liability reductions from Senate Bills 822 and 861 and changes to actuarial methods and assumptions approved by the PERS Board. The funded status, excluding PERS side accounts, was 87%; or 96% with side accounts (State of Oregon – PERS, PERS Facts:

http://www.oregon.gov/PERS/docs/general_information/pers_facts_3-14.pdf, Retrieved: March 25, 2014). The District's liability is dependent on the benefit levels for District employees and the performance of the PERS investment portfolio – of PERS as a whole and of the District's "lump sum" or "side" account with PERS (created when the District sold pension bonds).

Increases in PERS costs over the last decade have created budget pressure for districts across the state. Legislative action in the 2013-15 biennium resulted in cost savings; however, these actions are subject to legal challenge. The outcome of such legislative challenges is unclear and is expected no later than June 30, 2015.

Employee Group Contracts

Contracts between the District and its two largest employee groups expire on June 30, 2014. The terms of settlement will impact District operations and budget in 2014-15 and future years.

Health Insurance

Health insurance rates continue to rise nationwide at rates higher than the rate of inflation. The impact of the Patient Protection and Affordable Care Act (also referred to as the Health Care Reform Act or Affordable Care Act) is unclear. The District health insurance program is operated through a statewide health insurance pool for all school district employees that commenced in 2008-09 (OEBB). We have built in an estimated 5% increase in plan costs in the insurance reserves for the 2014-15 school year (coverage year starts on October 1, 2014). The benefits plans and rates are selected by the Joint Benefits Committee (JBC), and each employee group has its own insurance reserve fund. Actual reserve levels will vary depending on final rates and member plan selection.

Wellness Clinic

The District has contracted with Cascade Health Solutions to provide medical services for the clinic effective July 2012. This service will continue to be evaluated by the District's JBC, which comprises employee groups and employer representatives.

Facility Improvements

The District facilities are aging and in need of maintenance, upgrades, and replacement to improve efficiency and better support educational needs. The recent passage of bond measures by the District's voters will address many of these capital improvement needs.

Class Size and Scheduling High School Students

Limited resources resulting from economic challenges, increasing costs (particularly PERS), and the District's declining enrollment are straining the District's ability to maintain programs at current levels.

Number of Schools

The District has a lower number of students per school than other districts of a similar size in the state. Following enrollment declines, several schools have been closed in recent years.

Sale of Civic Stadium

On February 19, 2014, the Board voted to move forward with the City of Eugene's proposal to purchase the Civic Stadium properties for \$4.5 million. The Board directed staff to negotiate a purchase agreement with the City including some conditions:

- A firm commitment to proceed with the purchase within nine months from the date of the purchase and sale agreement.
- If the City of Eugene sells all or part of the property at a future date, the District will receive a portion of any proceeds resulting from an increase in the sales price.
- A restriction prohibiting property uses that are deemed inappropriate or incompatible with the close proximity of South Eugene High School.
- The City immediately assumes all costs of maintaining and insuring the property and all associated holding costs.
- 4J is allowed to continue to utilize the former transportation shop areas for storage of surplus furniture and equipment until closing.

Five Year General Fund Forecast, as of May 2014

Summary of Long-Term Financial Forecast – General Fund

This document provides in-depth information on the development of Lane County School District 4J's long-term financial forecast. Results and key assumptions are summarized below. The accompanying pages are integral to understanding this summary information.

The District's 2014-15 Adopted Budget represents the "baseline" in the forecast. The four-year period from 2015-19 is referred to as the "forecast" period, and the "Key Assumptions" section below provides insight into the significant assumptions driving each year's forecast.

Key Assumptions Impacting Forecast Years

2015-16

- **State School Fund Grants (SSF)** – This forecast assumes a 4% growth in state funding available to K-12 education for the 2015-17 biennium. As a result, statewide SSF grant revenues are estimated to be \$6.92 billion (an increase of \$270 million over 2013-15 funding of \$6.65 billion). As this is the first year of the biennium, 49% of the estimated K-12 budget approved for the 2015-17 biennium will be available. In the absence of significant change in enrollment statewide, this will result in a projected SSF formula revenue per student of \$7,164.

Even with this increase, the District will see only minimal growth in SSF revenue year-over-year due to two factors. In 2015-16, SSF revenue will be spread over a larger student base, as kindergarten students move from part-time status to full time. The District's weighted enrollment (ADMw) will increase by 530 students, but the increase in the number of students statewide because of full-day kindergarten will result in a decrease of SSF formula revenue per student from a forecast of \$7,164 in 2014-15 to \$6,956 in 2015-16. We estimate that the impact of these factors will result in a SSF revenue increase of \$131,000. Continued enrollment declines will negatively impact revenue growth.

- **Implementation of Full-Day Kindergarten** – the Oregon Department of Education has mandated full-day kindergarten for school districts beginning in the 2015-16 school year. The District's ADM for 2015-16 has been increased by 530 (1,060 kindergarten students moving from part-time to full-day classes), but the District has received no guarantee or estimate of funding. As a result, this forecast assumes no additional State funding will be made available to implement full-day kindergarten.

The District has not yet completed a comprehensive estimate of implementation cost. The costs presented within this forecast are preliminary, and subject to change. The preliminary estimate assumes staffing for kindergarten classrooms will increase by 19.43 licensed FTE and 13.625 classified FTE (estimated increased staffing-related expenditures of \$2.9 million). One-time costs for additional classrooms and teaching materials and supplies have been estimated at \$0.3 million.

- **Employee Compensation** – salary costs for 2015-16 have been calculated assuming no furlough days and a full step increase for eligible employees effective July 1st at a cost of \$1.6 million. Licensed positions reflect the revised Student:Teacher Ratio (as of May 15, 2014) in effect for 2014-15 (Elementary at 26.98, Middle at 28.06 and High at 28.76).

-
- **Pension Costs** - Oregon Public Employees Retirement System (PERS) rates applied to District salaries are estimated to increase by 2.6% beginning in 2015-16. As a result of this increase payroll costs will be \$2.3 million higher in 2015-16.
 - **District Retirement Benefits** – expenses associated with past retirement incentive programs will decrease by 26.6% (\$0.6 million) in 2015-16 as additional members of eligible groups retire and benefit eligibility ceases.
 - **Fund Balance** – the 2014-15 budget will use \$3.5 million in General Fund Reserves to support operations. This one-time funding source will not be available in 2015-16. In addition, the forecast assumes an ending fund balance equal to 5% of total district revenues, as directed in Board policy. A total of \$1.1 million will be required to bring General Fund Reserves to 5%.

Annual Deficit: \$9.89 million

2016-17

- **State School Fund (SSF) Grants** – in 2016-17 SSF revenues will increase due to the availability of 51% of the forecast state K-12 budget for the 2015-17 biennium (versus 49% in 2015-16). Enrollment in 2016-17 is also estimated to increase slightly over the previous year, providing some stability to this revenue stream.
- **Employee Compensation** – salary costs for 2016-17 have been calculated assuming no furlough days and a full step increase for eligible employees effective July 1st.

Annual Deficit: \$6.25 million

2017-18

- **State School Fund (SSF) Grants** – This forecast assumes a 4% growth in state funding available to K-12 education for the 2017-19 biennium. As a result, statewide SSF revenues are estimated to be \$7.19 billion (an increase of \$270 million over 2013-15 forecast funding of \$6.92 billion). As this is the first year of the biennium, 49% of the estimated K-12 budget approved for the 2017-19 biennium will be available. However, continued enrollment declines will negatively impact revenue growth.
- **Employee Compensation** – salary costs for 2017-18 have been calculated assuming no furlough days and a full step increase for eligible employees effective July 1st.

Annual Deficit: \$5.92 million

2018-19

- **State School Fund (SSF) Grants** – in 2018-19 SSF grant revenues will increase due to the availability of 51% of the forecast state K-12 budget for the 2017-19 biennium (versus 49% in 2017-18). However, continued enrollment declines will negatively impact revenue growth.
- **Employee Compensation** – salary costs for 2018-19 have been calculated assuming no furlough days and a full step increase for eligible employees effective July 1st.

Annual Deficit: \$3.68 million

Summary Forecast

IMPACT ON OPERATIONS (in thousands)		2014-15 Adopted Budget	2015-16 Forecast	2016-17 Forecast	2017-18 Forecast	2018-19 Forecast

Note: Totals may differ due to rounding.

Summary Assumptions

1. Total revenues

- See the revenue detail and assumptions for a detailed explanation of the calculations used to develop District total revenues.

2. Operating expenditures

- See the expenditures detail and assumptions for a detailed explanation of the calculations used to develop District operating expenditures.

3. Transfers

- Capital projects, equipment and textbooks, and bus fleet transfers are not included in the forecast as they are assumed to be funded from the May 2013 bond issue throughout the forecast period.
- Insurance and risk reserve transfer of \$1,125,000:
 - \$875,000 in support to Risk and Benefit Management operations, increasing by the CPI rate throughout the forecast period.
 - \$250,000 in social security cost savings from pre-tax flexible spending accounts to insurance reserve accounts in 2014-15, as negotiated with employee groups.

4. Contingency

- 2.0% of operating expenditures per Board policy.

Board Policy DI, Accounting and Financial Practices Policy 4: *“The targeted contingency for general fund is two percent of the operating budget.”*

- Board Priorities Reserve of \$1.1 million to address operational improvement in 2014-15 only.

5. Projected Underspending

- Assumes a portion of budgeted expenditures will not be spent in any given year; calculated as 66% of Contingency. This is used to calculate the District's ending fund balance.

6. Use of Transfers from Reserves to Balance

- In 2014-15, the General Fund reserve has been set at 4.25% of operating revenues, consistent with the Superintendent's proposed budget, in order to supplement resources for operations. A total of \$3.52 million of General Fund reserves will be needed in 2014-15 to fund operations.
- General Fund reserves, as a percentage of operating revenues, are restored to the 5% board policy target beginning in 2015-16. In 2015-16, a transfer of \$1.14 million to reserves is necessary to achieve a 5% General Fund reserve level.

7. Annual Deficit Assuming Use of Reserves (4.25% in 2014-15 and 5% in future years)

- Difference between total District revenues and operating expenditures, net of reserve transfers.
- Projected financial shortfalls shown in brackets.

8. Corrective Action Required

- Board actions required to maintain a 4.25% or 5% ending fund balance during the forecast period.
- This line item assumes that a previous year's deficit is resolved, and projects the additional amount that will be needed in the subsequent year to balance the budget. For example, if expenditures were reduced by \$9.89 million in 2014-15 the District would not have a projected deficit for the remainder of the forecast period.

9. General Fund Reserves or Ending Fund Balance

- Projected to be at 4.25% of operating revenues for 2014-15, and 5% for the remainder of the forecast period.

Board Policy DI, Accounting and Financial Practices Policy 5d: *“The district will maintain a minimum ending fund balance of five percent of current year annual operating revenues excluding transfers between funds. The fund balance takes into consideration revenue and expenditure volatility and other district needs. The minimum ending fund balance is comprised of the General Fund UEFB plus two-thirds of the contingency for the ensuing year.”*

Revenue Assumptions

1. Property Tax Collections – Current Year

- Average, annual tax growth of 3.3% per year over the forecast period.
- Assessed property values (AV) projected to increase annually by 3.0% throughout the forecast period.
- Compression losses are expected to top-out in 2014-15 before beginning a slow decline in 2015-16, assuming real market property values (RMV) resume growing more rapidly than AV.
- Tax collection rates are assumed to be 95% throughout the forecast period.
- Included in the State School Fund formula.

2. Property Tax Collections – Prior Year

- Estimated at 55% of uncollected current year property taxes throughout the forecast period.
- Included in the State School Fund formula.

3. State School Fund (SSF) Grants

State School Fund Grant

Total SSF Formula Revenue: Per Pupil Amount (SSF Grant per Pupil, adjusted for teacher experience and state funding ratio) X Enrollment (Extended ADMw) + Transportation Grant – SSF Local Revenues (Local Property Taxes, Federal Forest Fees, Common School Fund, County School Fund).

- Approximately 90% of District General Fund revenues.
- Assumes \$6.55 billion in state funding for K-12 schools in the 2013-15 biennium with an additional \$100 million available in 2014-15, a 16.4% increase over the previous biennium. For future periods, state funding is forecast to grow by 4% in each biennium. During each biennium, there is a 49%-51% funding split between the first and second years.
- Per pupil amounts have been adjusted to reflect projected enrollment during the forecast period. The April 2014 estimate of the District's average Teacher Experience ratio has also been incorporated into the SSF calculation.
- In 2015-16 both the statewide and district-level ADMw have been increased to reflect kindergarten students at full-day attendance.

High Cost Disability Grant

- Provided to partially offset the cost of educating students for whom costs exceed \$30,000 per year.
- Revenue based on 2014-15 estimate.

4. SSF Local Revenues

- Includes Common School Funds and County School Funds.
- Included in the State School Fund formula.

5. Local Option Levy

- Five-year property tax levy of \$1.50/\$1,000 AV to support general operations, renewed November 2008 and extends through 2014-15. The Forecast assumes the current levy is renewed effective 2015-16.
- Projected to grow slowly through the forecast period.
- Expected to remain substantially below statutory limits of \$1,000 per ADMw and 20% of state resources over the forecast period.
- Not included in the State School Fund formula.

6. Other Revenues

- Not included in the State School Fund formula.
- Includes interest earnings, tuition and fees, e-rate income, funding and donations from outside groups, and building rental income.
- Future increases in interest earnings limited by slow growth of interest rates and low growth in reserve levels.

Board Policy DI, Revenue Policy 1: *“The district will strive to establish a stable revenue base for the operating budget for program needs through cooperation with its associations, legislators, and other districts. The district will make capital funding requests periodically to assure adequate safety and preservation of school buildings, district equipment, and other capital assets.”* 2. *“The district may charge the service fees intended to recover the partial or full cost of non-district sponsored use of its facilities, services or equipment, if permitted by law...”*

7. Enrollment

- Average Daily Membership (ADM) – Year-to-date average of daily student enrollment.
 - ADMr – Resident ADM.
 - ADMw – ADM weighted to reflect the number of students in specific categories such as English Language Learners (ELL), students with Individualized Education Programs (IEPs), students enrolled in Pregnant and Parenting programs, living in poverty, or in foster care.
 - Extended ADMw – Greater of the current year or prior year ADMw, used to calculate State School Fund grant payments.
- District enrollment, excluding charter schools, is projected to decline in all but one year of the forecast. Projected enrollment for 2014-15 (16,132) will decrease slightly to 16,099 in 2015-16. Enrollment is expected to increase by 18 students in 2016-17 (16,117), but is projected to decline in 2017-18 by 154 students (15,963). A further decline of 67 students in 2018-19 brings final enrollment to 15,896.
- Charter school enrollment is projected to increase from 753 students in 2013-14 to 791 in 2014-15, and over 800 in future years.
- In 2014-15 all kindergarten students are reflected in the ADM at 0.5, as kindergarten classes are half-day. In 2015-16 the state has mandated the implementation of full-day kindergarten. The ADM for 2015-16 has been increased by 530 (1,060 kindergarten students moving from part-time to full-day classes), but the District has received no guarantee or estimate of funding. As a result, this forecast assumes no additional State funding will be made available to implement full-day kindergarten.

Expenditure Assumptions

1. Salaries and Benefits Expenditures

- Projected salaries for 2014-15 through 2018-19 reflect a full contract year for all employee groups and therefore include no furlough days. An annual step movement for all eligible employees effective July 1st is assumed throughout the forecast period beginning in 2014-15.
- Licensed employee changes (i) track enrollment changes, (ii) represent 2014-15 revised staffing ratios, and (iii) reflect an increase of 19.43 FTE in 2015-16 to meet mandated full-day kindergarten requirements.
 - 2015-16 18.13 FTE increase (19.43 FTE (full-day K) less 1.3 FTE for enrollment decline)
 - 2016-17 0.53 FTE increase
 - 2017-18 5.42 FTE reduction
 - 2018-19 2.49 FTE reduction
- Classified employee staffing (i) represent 2014-15 proposed staffing levels, and (iii) reflects an increase of 13.625 FTE in 2015-16 to meet mandated full-day kindergarten requirements.

Payroll Costs and Benefits

- Payroll costs are calculated as a percentage of salary, while health insurance and other benefits are driven by staffing levels.
 - Insurance contributions are subject to negotiation with employee groups. The forecast assumes no growth in district contributions over the forecast period.
 - The forecast does not assume any changes to health insurance coverage or insurance contributions as a result of the Affordable Care Act (ACA), as the District is still in the process of assessing the impact and requirements of this legislation.
- The District's composite PERS rate for 2013-15 is estimated to be 29.2%, an increase of 3.65 percentage points over 2011-13. The rate is projected to increase an additional 2.6 percentage points in 2015-17.
- Annual support for District early retirement benefits is estimated at \$2.3 million in 2014-15, and declining thereafter as members of the eligible group retire out of the plan and benefit eligibility ceases.

Board Policy DI, Organizational Policy 3: *“The compensation of employees will be competitive with that of comparable public and private sector employers in the relevant recruiting or market area. The criteria for reviewing employee wages and benefits will also include internal comparability for similar jobs, ability to pay and relevant federal or state requirements.”*

2. Other Operating Expenditures

- Purchased Services increase at the rate of CPI throughout the forecast period. In 2015-16 an additional increase is projected (\$0.3 million) to address classroom infrastructure and supplies related to the implementation of full-day kindergarten.
- Charter school payments represent the pass-through of state funding (80% or more of state funding received) and local option revenue on a per pupil basis.

Board Policy DI, Organizational Policy 4: *“The district will, within available resources, maintain the productivity of staff through a supportive working environment which includes appropriate equipment, supplies, materials, and professional staff development.”*

Full Day Kindergarten

As mentioned previously in this document, the Oregon Department of Education has mandated the implementation of full-day kindergarten for school districts by 2015-16. This forecast assumes this implementation will be effected by 4J beginning in that year and will require the following budget changes:

- projected 2015-16 ADM would increase by 530 students (1,060 students moving from part-time to full-time) and it is assumed additional State School funding will not be made available for implementation;
- licensed staffing levels would increase by 19.4 FTE and classified staffing levels would increase by 13.63 FTE (estimated increased staffing-related expenditures, \$2.9 million); and
- increased classroom infrastructure and supplies expenditures are currently estimated to be \$0.30 million in 2015-16.

3. Transfers

- Capital projects, equipment and textbooks, and bus fleet transfers are not included in the forecast as they are assumed to be funded throughout the forecast period from the May 2013 bond issue.
- Insurance and risk reserve transfers of \$1,125,000 in 2014-15:
 - \$875,000 in support to Risk and Benefit Management operations, increasing annually at the rate of CPI.
 - \$250,000 in social security cost savings from pre-tax flexible spending accounts to insurance reserve accounts, as negotiated with employee groups.

4. Contingency

- General contingency maintained at 2% of operating expenditures (excluding transfers).

Board Policy DI, Accounting and Financial Practices Policy 4: *“The targeted contingency for the general fund is two percent of the operating budget.”*

Statistical Information

Local Option Revenue

In May 2000, District voters approved a five-year local option levy of \$1.50 / \$1,000 of assessed property value. Since the passage of Measure 5 in 1990, this was the first opportunity for District voters to increase school operating funds above the state funding formula. Voters renewed the local option for another five years in November 2004 and again in 2008.

The stability of this revenue source is largely dependent on the real market value of each property in the District increasing by at least the same rate as the assessed value (which is limited to a 3% increase per year up to the real market value). In a slower economy, real market value may increase at a slower rate than assessed value or fall. This condition has been evident since 2011, as tax revenues have fallen from a high of \$14.2 million in 2009 to \$8.1 million in 2012-13 and are projected to be \$8.0 million in 2013-14.

When the gap between real market value and assessed value is not sufficient to generate the full \$1.50 tax rate, a property is said to be "in compression" and the taxes paid are only a part of the tax rate imposed. On one end, if assessed value and real market value is the same for a particular property, no taxes are due. On the other end, if the assessed value is well below the real market value, the full \$1.50 rate is due. Most taxpayers are paying less than the full rate. Since 2004 the average "actual rate" received by the District has been as low as \$0.67 in 2013 and as high as \$1.32 in 2009. The falling real market values beginning in 2010 have driven the actual rate down every year since 2010. It is projected to fall again to \$0.63 in 2014.

The local option calculation requires that compression be calculated for each property separately and it is therefore difficult to predict the effect of compression on District revenue.

Ending Fund Balance

The graph below shows historical and projected ending fund balances in the General Fund, representing cash reserves remaining at the end of the fiscal year. Balances reflect additional revenues collected during the year, unexpended budget appropriations, and planned savings held in the unappropriated ending fund balance (UEFB).

Board Policy DI, Accounting and Financial Policy 5d through 5f describes the policies regarding minimum ending fund balance. See the “Financial Management Goals and Policies” in the Information section for the policy.

The State of Oregon \$5.2 billion K-12 budget approved for the 2003-05 biennium was reduced to \$4.9 billion in 2004 with the failure of Measure 30. Per pupil funding declined substantially and required the carry-over of reserves to maintain stable programs in 2004-05. The District reduced its state funding accrual by \$2.1 million in 2004-05.

The 2005 legislature adopted a \$5.24 billion K-12 budget plus \$23 million if state revenues exceeded projections. Along with higher local property taxes, this resulted in an unexpected boost to District revenues and reserves in 2005-06 and 2006-07.

The 2007 legislature adopted a \$5.985 billion K-12 budget plus another \$260 million for a noncompetitive School Improvement Fund grant available for certain expenditures aimed at increasing student achievement. The combined \$6.245 billion was \$940 million over the previous biennium or 17.7%. During November 2008, in light of falling state revenues, the Governor called for a 1.2% reduction in 2007-09 school funding. This resulted in a \$2.1 million cut to District revenues.

Although the 2009 legislature approved a \$5.8 billion base budget and approved the release of an additional \$200,000 in reserves for K-12 education, in May 2010, 9% across the board cuts were imposed for all state agencies as the Great Recession began to have its impact on local economies. Total biennial funding dropped to \$5.74 billion, and state funding to the District was reduced by \$6.8 million as a result.

For the 2011-13 biennium, the State approved \$5.7 billion to fund K-12 schools, 3.4% lower than the 2009-11 appropriation. The total included \$125 million in School Year Subaccount funds to

lower class sizes and to increase the number of school days. The total was 8.7% lower than the \$6.245 billion provided in the 2007-09 biennium.

For the 2013-15 biennium, the State approved \$6.55 billion plus \$100 million additional revenue available in 2014-15. This is about 16.7% higher than the legislatively approved 2011-13 K-12 funding level.

The ending fund balance is projected to be 6.8% of annual operating revenues in 2013-14, and is forecast at 4.25% in 2014-15, which is consistent with Board direction for the 2014-15 budget. Ending fund balance is projected to be at 5.0% in future years.

Revenue/Expenditure History (Actuals)

Significant

Revenue/Expenditure Variables

2003-04: State funding was approved at a higher level than budgeted by 4J. PERS rates declined but costs were held to budgeted levels because of uncertainty around state funding and PERS rates. Expenditures include a \$4 million PERS reserve.

2004-05: Revenues dropped sharply from the failure of Measure 30 and the resulting cut to state funding. Expenditures include a \$4.5 million transfer to PERS reserves and use \$6.0 million in General Fund reserves to support operations.

2005-06: A strong economy generated higher levels of state funding and local option income. Costs were increased to reflect higher health insurance costs and PERS rates, additional special education staff, and 1-time funding to stabilize neighborhood schools and strengthen the school choice system. \$2.3 million in General Fund reserves and \$3 million in PERS reserves were used to support operations.

2006-07: State funding was bolstered by “trigger revenue” and 1-time lottery funds. Local option revenue exceeded projections. Costs included continued efforts to stabilize neighborhood schools and 1-time initiatives to increase student achievement. PERS reserves of \$3 million were used to support operating costs. Another \$3 million was held in reserve to fund services when the City levy expired at the end of 2006-07.

2007-08: A strong economy once again generated higher levels of state and local revenues. Costs were increased due to the on-load of City Levy funded services and the addition of ongoing and one-time investments in the classroom.

2008-09: State funding was decreased in response to the global economic crisis, with District revenues cut almost \$2 million. Further reductions were offset by the use of federal State Fiscal Stabilization Fund dollars. District spending was reduced by \$4.3 million.

2009-10: Unprecedented uncertainty and a continued global economic crisis resulted in \$11.7 million in budget reductions. Further cuts were avoided with funding provided under the American Recovery and Reinvestment Act (ARRA) as well as state funding from the Education Stability Fund and Rainy Day Fund.

2010-11: With renewal of the District’s local option levy, passage of statewide tax initiatives, the Legislature’s approval of \$200 million in K-12 funding from state reserves, and additional ARRA funding, budget reductions were minimized at \$7.2 million.

2011-12: In the wake of the Great Recession, breakeven operations were achieved by implementing over \$21 million in budget reductions. Strategies included \$5.8 million from an increase of 3.0 on the student: teacher ratio, \$3.2 million in employee compensation adjustments, \$5.0 million in reserves, \$940,000 from school consolidations, cutting 10% of central office and school-based classified staff, and shifting \$1.0 million in facilities costs to a G.O. bond.

2012-13: To address a projected 2012-13 General Fund operating deficit, the District implemented \$11.8 million of budget reductions which included staff, services, and supply reductions; increased revenue; use of reserves; and compensation reduction strategies for all employee groups.

Open Books Project

The Open Books Project was created to explain information about Oregon K-12 school spending in a simple, easy-to-understand format, and also presents information about how well schools are meeting the needs of students. Information is available on district spending, and users can compare their district to similar ones from across Oregon.

There is also information available from Oregon's school and district report cards, including student progress and outcomes, the curriculum and learning environments, and student demographics. For more information visit the Open Books Project website: <http://www.openbooksproject.org/>.

FROM THE DISTRICT SUPERINTENDENT
SUPERINTENDENT Sheldon Berman

200 N Monroe St
Eugene, OR 97402-4295, (541) 790-7700
<http://www.4j.lane.edu>

At Eugene School District 4J, we are proud of our history of excellence, equity and choice. That history is built on the work of outstanding students, creative teachers, dedicated staff members, involved parents and a supportive community, all working together to create a system of remarkable schools.

We believe that every student in every school can excel—and that we have a responsibility to ensure every student has that opportunity. Overall, our student achievement, growth and graduation results are strong. However, we still have a distance to go in fulfilling our commitment to help all students succeed.

We are focusing our efforts to:

- Increase achievement for all students
- Close the achievement gap
- Implement the Common Core State Standards
- Prepare all students to be ready for college and career
- Increase graduation rates to 100% by 2020–21.

To learn more about Eugene School District 4J and the comprehensive education provided by our outstanding schools, please visit www.4j.lane.edu or contact your school.

Thank you,
Superintendent Dr. Sheldon Berman

Key academic highlights:

Did at least 95% of students in this district take state exams?

YES NO

District Profile

Lane County School District 4J is committed to helping each student succeed. The District's Board of Directors and staff strive to ensure that students acquire the knowledge and skills necessary to meet the challenges of life, work and citizenship in the 21st century. The District is governed by these core values:

- Do what's best for all 4J students
- Continue to learn and grow
- Respect and care about each other

Lane County School District 4J, also known as Eugene Public Schools, is a financially independent, special-purpose municipal corporation exercising accountability for all public education within its boundaries. The District is primarily located in Lane County, with a small portion extending north into Linn County. Formed in 1854, the District encompasses approximately 155 square miles in western Oregon at the southern end of the Willamette Valley, 110 miles south of Portland. The District is governed by a seven member Board of Directors. Voters residing within District boundaries elect members to four-year overlapping terms. The duties of the Board include setting policy; approving expenditures and contracts; appointing the Superintendent; and hiring, terminating and approving resignations of all certified and administrative staff members. The Board also constitutes one-half of the Budget Committee and appoints the seven citizen members.

During the 2013-14 school year, the District directly provided education for approximately 16,100 students. In addition, approximately 280 students attended alternative programs, and approximately 750 students attended charter schools. The District provides an array of services for students with a wide range of special education needs from ages 3-21. Some attend programs outside the general education classroom for part of the day, and some receive supplemental support services in the general classroom. Those with more significant, complex or multiple disabilities receive the majority of their instruction outside the general education classroom.

The District's elementary program has fourteen neighborhood schools, one K-8 school, four language immersion programs, and three District-sponsored charter schools. Each school reflects the uniqueness of its students, staff, and community. The immersion programs and charter schools reflect particular visions and education philosophies and have such emphases as language and culture immersion.

The District's secondary program (grades 6-12) consists of seven neighborhood middle schools, one alternative middle school, four middle school language immersion programs, and a fourth charter school which serves students in grades 7-12. In addition, there are four regional high schools, one alternative education option school, an international high school program that offers classes on three high school campuses and is accredited by the International Baccalaureate program, an environmental science program, and a transition education program.

Three of the charter schools that serve elementary students also provide middle school education. One charter serves grades K-7 and will expand to 8th grade in 2014-15. A fourth charter school serves grades 7-12. Additionally, school and business partnerships exchange facilities and services for career training or other educational benefits and support.

Economic Condition – Eugene is the second largest city in Oregon and is the seat of Lane County government. The City of Eugene, together with the City of Springfield, comprises the State's third largest metropolitan area. The area serves as the regional center for industry,

service and trade, as well as for cultural, academic, and recreational activities in the central part of western Oregon. Eugene is the site of the University of Oregon, the State's liberal arts and research institution. Other facilities for higher education include Lane Community College and Northwest Christian University.

In the past ten years, the District's and City of Eugene's population has increased 7.6% and 10.9%, respectively¹. While modest population growth continues to be experienced by the City of Eugene and the State, the District's enrollment in regular programs has declined mainly due to demographic changes in the community.

The Oregon Employment Department reported that Oregon's seasonally adjusted unemployment rate was 6.9% in February 2014, which is 0.2% higher than the national rate². In February 2013, the Oregon seasonally adjusted unemployment rate was 8.1%. In addition, the Eugene-Springfield metropolitan statistical area (MSA) unemployment rate as of February 2014 was 6.9%, which is equal to the State's rate. Following state trends, the regional economy has shown improvement over the past year.

The economy of Lane County consists of higher education, agriculture, health care, technology, forest products, recreation, and tourism. Over the last few decades the economy of the Eugene-Springfield metropolitan area has shifted from an earlier reliance on the wood products industry to non-manufacturing industries such as retail trade, services and government and non-lumber manufacturing. Eighty-seven percent of total nonfarm employment in the metropolitan area is based in three major industry sectors: services (46%), government (22%), and trade, transportation, and utilities (19%). Manufacturing, construction, and natural resources generate the remaining 13% of jobs³.

Eugene is home to one public university, a community college, and four private colleges. The University of Oregon is a public university offering bachelor and master degree programs; Lane Community College is a public community college offering associate degrees and technical programs; Northwest Christian University, New Hope Christian College, Gutenberg College and Pacific University's Eugene campus are all private colleges which offer bachelor degree programs. With the presence of the University of Oregon and a Federal courthouse, government employment helps add stability to Lane County's economy.

Local Support – Over two decades ago, a tax limitation measure limited all educational agencies to a maximum of \$5 property tax revenue per \$1,000 assessed value and shifted the responsibility for the funding of schools from the local community to the State of Oregon. Subsequent property tax limitation measures cut property taxes, imposed a permanent tax rate of \$4.75 per \$1,000 assessed for the District operating levy, prohibited the use of bonded debt to fund equipment and routine capital repairs, and required 50% voter participation for bond approval except on general election dates. Beginning in 1999, the legislature allowed districts to seek approval of local option levies within certain limits. Revenue from these levies is outside the State School Fund Formula. In November 2008, voters approved a measure that limited the 50% voter participation requirement to March and September elections.

¹ District data from the District's 2013 CAFR, page 111. City data from Portland State University certified population estimates <http://www.lcog.org/store/Results.cfm?category=11>; also see the District's 2013 CAFR, page 113.

² Unemployment data extracted from Worksource Oregon in March 2014, retrieved from <http://www.qualityinfo.org/olmisj/AllRates>.

³ Employment count data retrieved from Oregon Employment Department Workforce Analysis, Lane County Trends, March 2014 <http://www.qualityinfo.org/olmisj/CES?action=rs54&areacode=21021660>.

Local support for the District has continued, even during uncertain economic times. The District's voters have approved local funding measures by substantial margins. Since 1992, District voters have approved six general obligation bond levies, one local option levy, and two renewals of the local option levy.

In May 2000, voters approved a five-year local option levy to assist with operations with a 63.6% "yes" vote. The levy was renewed for an additional five years in November 2004 with a "yes" vote of 72.0%, and again in November 2008 with a "yes" vote of 63.7%. This renewal levy extends through 2014-15. The District will ask voters to renew this levy prior to its expiration.

In May 2011, voters approved a \$70 million general obligation bond with a 63.2% "yes" vote. Proceeds will be spent for capital systems replacements and improvements, school additions and remodels, building improvements and repairs, technology infrastructure upgrades, and instructional systems support. This bond represents the second phase of a 24 year long-term facilities plan adopted by the Board in 2002. The first phase was funded with a \$116 million bond which consolidated four elementary schools into two new buildings and replaced two middle schools. It passed in May 2002 with a 67.4% "yes" vote.

In February 2013, the Board approved the Superintendent's recommended update to the long range facilities plan. This followed an extensive public process after the completion of a comprehensive facilities assessment by an external consulting firm. This assessment included the physical condition of school buildings, condition and constraints of sites, educational suitability, and technology readiness. The results of this assessment were used to inform the decision-making process surrounding the planned and projected replacement and upgrade of schools. District voters passed a \$170 million general obligation bond measure in May 2013 with a 63.4% "yes" vote. Proceeds will be used for school replacement, school additions, technology upgrades, instructional materials, school safety and security, building repairs, improvements, equipment, safe routes to schools, and bus purchases.

Academic Performance Indicators

Board Goals

- Increase achievement for every student and close the achievement gap.
- Build our staff capacity to perform at a high level.
- Provide prudent stewardship of district resources to best support student success, educational equity and choice.
- Engage students, families, staff, the community, elected officials and other stakeholders in supporting our schools and improving educational outcomes for all 4J students.

Introduction

Eugene School District 4J strives for excellence in all areas of its operations, driven by its mission to do what's best for students. In this section are key indicators of how well the District is carrying out this mission.

Direct Classroom and Classroom Support Services – Student Achievement

The District has a strong record of fostering student achievement. Results of the 2013 Oregon Assessment of Knowledge & Skills (OAKS) were consistently better than the statewide averages in Reading and Math, as shown in the charts on this page.

While these overall results are impressive, an achievement gap is present when data is broken down by ethnicity. As seen in the charts below, American Indian, Black, and Hispanic/Latino students scored lower than their White peers on OAKS Reading and Math at all levels.

OAKS Reading by Race/ Ethnicity and Grade, 2013

OAKS Math by Race/ Ethnicity and Grade, 2013

Progress on the Achievement Gap

Closing the achievement gap continues to be a primary goal of the School Board. In 2010-11 there were some promising trends in our data for Hispanic/Latino students which have not been sustained. Recently, the scoring method in both OAKS Reading and OAKS Math have changed. While the number of students meeting the benchmark has decreased for all groups, the changes in scoring appear to have had a disproportionate effect upon the achievement of non-white students. There are pronounced gaps between American Indian, Black, and Hispanic/Latino students and their White contemporaries at all levels, and achievement levels in Math are particularly concerning. The tables below show elementary, middle, and high school OAKS Reading and Math scores for the last three years:

Reading Achievement by Race/Ethnicity – Elem. (Grades 3-5)					
	Am. Indian	Asian	Black	Hispanic/Latino	White
2010-11	80%	>90%	79%	76%	89%
2011-12	60%	>90%	62%	63%	82%
2012-13	66%	82%	58%	62%	81%
Reading Achievement by Race/Ethnicity – Middle (Grades 6-8)					
	Am. Indian	Asian	Black	Hispanic/Latino	White
2010-11	75%	86%	64%	64%	86%
2011-12	68%	76%	60%	58%	80%
2012-13	62%	86%	58%	60%	81%
Reading Achievement by Race/Ethnicity – High (Grade 11)					
	Am. Indian	Asian	Black	Hispanic/Latino	White
2010-11	72%	86%	58%	74%	90%
2011-12	82%	90%	75%	69%	92%
2012-13	73%	90%	74%	78%	90%
* In 2011-12 benchmark scores increased for OAKS Reading at both the elementary and middle level.					
Math Achievement by Race/Ethnicity – Elem. (Grades 3-5)					
	Am. Indian	Asian	Black	Hispanic/Latino	White
2010-11	57%	78%	45%	52%	71%
2011-12	53%	85%	41%	48%	72%
2012-13	46%	79%	38%	49%	69%
Math Achievement by Race/Ethnicity – Middle (Grades 6-8)					
	Am. Indian	Asian	Black	Hispanic/Latino	White
2010-11	53%	80%	37%	48%	73%
2011-12	45%	82%	46%	51%	73%
2012-13	38%	85%	49%	52%	72%
Math Achievement by Race/Ethnicity – High (Grade 11)					
	Am. Indian	Asian	Black	Hispanic/Latino	White
2010-11	73%	93%	39%	63%	79%
2011-12	67%	85%	36%	49%	77%
2012-13	60%	90%	47%	56%	76%
* In 2010-11 benchmark scores increased for OAKS Math at both the elementary and middle level.					

Direct Classroom and Classroom Support Services – State Report Card Results 2011–13

The Oregon Department of Education is responsible for issuing a report card to all schools and districts in the State. These report cards provide information to educators, parents, and community members about certain accountability measures regarding each Oregon school.

The rating that a school receives is based largely on student participation and performance on the Oregon Assessment of Knowledge & Skills (OAKS). Graduation rates for high schools also factor into a school's overall rating. In 2012 the model was expanded to reflect individual student growth within the school based upon prior test performances by that student, and in 2013 the three-level letter ratings were replaced by a 5-level numerical rating scale.

September 2013 Achievement Compact Recommendations

In October, 2012 the district appointed the following staff members to the Achievement Compact Advisory Committee: Cheryl Linder, Director of Education Support Services, Chair; Sabrina Gordon, EEA Representative and teacher at Awbrey Park; Clair Wiles, Social Studies teacher at North Eugene High School; Cydney Vandercar, Principal at Cal Young Middle School and 4JA Chair; Londa Rochholz, Vice Principal at Churchill High School; Linda Warner, Instructional Assistant at Arts and Technology at Jefferson; and Kathleen Wiebke, Custodian and OSEA representative.

In October, 2013, the Achievement Compact Advisory Committee met once again to review the draft recommendations. Some of the committee participants have changed assignments for the 2013-14 school year. Those members include Cydney Vandercar, Human Resources Administrator, Londa Rochholz, Principal at McCormack and Linda Warner, Instructional Assistant at Kelly Middle School. Kathleen Wiebke has retired from the district.

The 2011 legislation states the committee's tasks are to:

- Develop plans for achieving the district's outcomes, measures of progress, goals and targets expressed in an achievement compact, including methods of assessing and reporting progress toward the achievement of goals and targets.
- Recommend outcomes, measures of progress, goals and targets to be contained in the district's achievement compact for the next fiscal year.
- Present recommendations in a report to the board no later than February 1st.
- Conduct meetings in public and follow public meetings law requirements.

The compact contains a limited number of outcome measures, including: measures of completion (e.g. diplomas and degrees), and validation of knowledge and skills along the education pathway (e.g. middle school reading and math proficiency). The compacts will track these measures not only for all students, but also for groups of students who historically have not been well served by Oregon's public education system: English language learners, students from lower-income homes, those with disabilities and students of color.

In January, 2013, The OEIB approved changes to the Achievement Compacts for submission in June, 2013. The changes included the following:

Elimination of the five-year cohort graduation measure.

Separation of the 9th grade "On Track" measure into two separate measures – chronic absenteeism and 9th grade credit completion.

Addition of 8th grade math proficiency.

- Replaced the 3rd grade math proficiency with 5th grade math proficiency.

Achievement Compact Progress

The Achievement Compact committee began our work by reviewing our 2012-13 achievement targets, board goals and progress to date on our growth targets. We used our 2011-12 data as the baseline for going forward. While the Eugene School District tracks some of the data for our 2013-14 compact (e.g. 3rd grade reading proficiency), other targets are new for our district (e.g. 9th grade chronic absence).

Since our last meeting in the spring, we have been able to update three of the key indicators: 90% or higher attendance for 6th graders, 90% or higher attendance for 9th graders and 6 or more credits by the end of student's 9th grade year. Indicators such as post-secondary enrollment, graduation rate and college credits remain unknowns due to reporting timeframe.

Chronic absenteeism has been a high priority focus since submission of our Achievement Compact in 2012. Revising classroom attendance practices and fully scheduling 9th graders was expected to impact our rates. Similarly, directed efforts on the part of the schools to personally connect with the group of students who were headed toward the “chronically absent” label was hoped to impact our rates as well.

The Achievement Advisory Committee attempted to recommend both aspirational and attainable targets centered within the context of our current budget climate. Where we did not have previous data to draw on, the committee reviewed state, regional and national data. We considered changes to targets (e.g. cut score changes) and historical performance trends. In areas where we do not have board goals such as chronic absenteeism, the committee looked at data compiled by leading researchers (e.g. Everyone Graduates Center) to compare the rate of absenteeism between Oregon and other comparable states.

Listed below are the committee’s target recommendations for our 2013-14 Achievement Compact.

Summary of the 2013_2014 Achievement Compact Goals

Aggregated Goals

Achievement Compact Goals	2010-11	2011-12	Goal for 2012-13	Goal for 2013-14
3rd Grade OAKS Reading	90	79	80	82
5th Grade OAKS Math	66	66		67
6th Grade Chronic Absence	15	13	14	13
8th Grade OAKS Math	73	75		76
9th Grade At Least 6 Credits Earned	83	83		85
9th Grade Chronic Absence	21	24		20
4 Year Graduation Rate	71.2	66.1	76	76
5 Yr Completion Rate	89	84.5	90	90 (*)
Post-Secondary Enrollment	69	71	72	72 (**)
9+ College Credits	NA	NA	NA	NA
(*) For 2014-15		(**) For February 2016		

Disaggregated Goals

- 3rd Grade OAKS Reading:

3rd Grade OAKS Reading	2010-11	2011-12	Goal for 2012-13	Goal for 2013-14
All Students	90	79	80	82
Disadvantaged Students	86	66	73	69
Economically disadvantaged students	87	67	73	70
Limited English Proficient students	73	33	35	36
Students with disabilities	69	44	62	47
Black (not of Hispanic origin) students	73	61	54	64
Hispanic origin students	83	66	66	69
American Indian / Alaska Native students	79	65	70	68
Pacific Islander students				
Asian students	>95	92	>95	95
TAG students	>95	>95	>95	>95

Rationale: same increase for each subgroup as for the whole student body, equivalent to a larger proportional increase for lower-performing groups. All goals exceed School Board goals, since the latter were stated in terms of the scores before the cut scores were raised.

- 5th Grade OAKS Math:

5th Grade OAKS Math	2010-11	2011-12	Goal for 2012-13	Goal for 2013-14
All Students	66	66		67
Disadvantaged Students	47	48		49
Economically disadvantaged students	50	49		50
Limited English Proficient students	29	11		12
Students with disabilities	31	30		31
Black (not of Hispanic origin) students	41	58		59
Hispanic origin students	50	45		46
American Indian / Alaska Native students	52	45		46
Pacific Islander students				
Asian students	78	93		94
TAG students	>95	>95		>95

Rationale: same increase for each subgroup as for the whole student body, equivalent to a larger proportional increase for lower-performing groups. All goals exceed School Board goals, since the latter were stated in terms of the scores before the cut scores were raised.

- 6th Grade Chronic Absence:

6th Grade Chronic Absence	2010-11	2011-12	Goal for 2012-13	Goal for 2013-14
All Students	15	13	14	14
Disadvantaged Students	19	15		16
Economically disadvantaged students	21	16		17
Limited English Proficient students	7			
Students with disabilities	20	21		22
Black (not of Hispanic origin) students	26	21		22
Hispanic origin students	12	10		11
American Indian / Alaska Native students	25	26		27
Pacific Islander students	<5			
Asian students	11	0		0
TAG students	11	8		9

Rationale: same goal for each subgroup as for the whole student body, maintaining stable the level of 6th grade chronic absenteeism. There is no School Board goal for 6th grade chronic absenteeism.

- 8th Grade OAKS Math:

8th Grade OAKS Math	2010-11	2011-12	Goal for 2012-13	Goal for 2013-14
All Students	73	75		76
Disadvantaged Students	57	57		58
Economically disadvantaged students	59	59		60
Limited English Proficient students	19	30		31
Students with disabilities	28	26		27
Black (not of Hispanic origin) students	55	52		53
Hispanic origin students	56	61		62
American Indian / Alaska Native students	62	56		57
Pacific Islander students				
Asian students	77	84		85
TAG students	>95	>95		>95

Rationale: same increase for each subgroup as for the whole student body, equivalent to a larger proportional increase for lower-performing groups. All goals exceed School Board goals, since the latter were stated in terms of the scores before the cut scores were raised.

- 6+ Credits Earned by 9th Grade:

9th Grade At Least 6 Credits Earned	2010-11	2011-12	Goal for 2012-13	Goal for 2013-14
All Students	83	83		86
Disadvantaged Students		75		78
Economically disadvantaged students		74		77
Limited English Proficient students				
Students with disabilities		73		76
Black (not of Hispanic origin) students		65		68
Hispanic origin students		73		76
American Indian / Alaska Native students		77		80
Pacific Islander students				
Asian students		92		95
TAG students		97		99

Rationale: same goal for each subgroup as for the whole student body, increasing by 2 percentage points the percentage of students with at least 6 credits by the end of 9th grade. There is no School Board goal for percentage of 9th graders who have earned at least 6 credits.

9th Grade Chronic Absence:

9th Grade Chronic Absence	2010-11	2011-12	Goal for 2012-13	Goal for 2013-14
All Students	21	24		19
Disadvantaged Students		27		24
Economically disadvantaged students		30		27
Limited English Proficient students				
Students with disabilities		28		25
Black (not of Hispanic origin) students		25		22
Hispanic origin students		20		17
American Indian / Alaska Native students				
Pacific Islander students				
Asian students		6		3
TAG students		11		8

Rationale: same goal for each subgroup as for the whole student body, reducing by 3 percentage points the rate of 9th grade chronic absenteeism. There is no School Board goal for 9th grade chronic absenteeism.

- 4 Year Graduation Rate:

4 Year Graduation Rate	2010-11	2011-12	Goal for 2012-13	Goal for 2013-14
All Students	71	66.1	76	76
Disadvantaged Students	59	55.1	68	65
Economically disadvantaged students	60	55.3	67	65
Limited English Proficient students	64	44.4	70	54
Students with disabilities	42	39.4	52	49
Black (not of Hispanic origin) students	71	55.3	76	65
Hispanic origin students	60	58.6	67	69
American Indian / Alaska Native students	52	50	61	60
Pacific Islander students				
Asian students	81	80	>95	>95
TAG students	92	89.7	>95	>95

Rationale: same increase for each subgroup as for the whole student body, equivalent to a larger proportional increase for lower-performing groups. There is no School Board goal for 4-year graduation rates.

- 5 Year Completion Rate:

5 Yr Completion Rate	2010-11	2011-12	Goal for 2012-13	Goal for 2013-14
All Students	89	84.5	90	90
Disadvantaged Students	NA	77.2	86	83
Economically disadvantaged students	NA	77.6	86	83
Limited English Proficient students	NA	87.5	83	93
Students with disabilities	NA	64.4	79	70
Black (not of Hispanic origin) students	NA	78	91	84
Hispanic origin students	NA	83.2	86	89
American Indian / Alaska Native students	NA	75	83	83
Pacific Islander students				
Asian students	NA	>95	>95	>95
TAG students	NA	>95	>95	>95

Rationale: same increase for each subgroup as for the whole student body, equivalent to a larger proportional increase for lower-performing groups. All goals exceed the School Board goal of being in a path to 100% completion rate by 2020-2021.

- Post-Secondary Enrollment:

Post-Secondary Enrollment	2010-11	2011-12	Goal for 2012-13	Goal for 2013-14
All Students	69	71	72	72
Disadvantaged Students	NA	NA	NA	NA
Economically disadvantaged students	NA	NA	NA	NA

Financial Management Goals and Policies

School Board Policy, Section D: Fiscal Management

Key Board policies related to fiscal management are presented below. Additional policies may be viewed at: <http://www.4j.lane.edu/board/policies/>.

DA. Financial Management Goals and Policies

School District 4J's financial management goals and policies provide the framework for financial planning and decision making by the school board, budget committee, and district staff. They are designed to help ensure the financial integrity of the district which, along with prudent management of its financial resources, is necessary if the district is to provide the educational services, support services and facilities that address the needs and desires of our students, their parents, and the community.

The following goals and policies for the school district are intended to guide the district in its financial matters. The goals are broad statements of board philosophy for financial management of the district. The policies provide more specific direction for consistent financial management decisions.

Financial Management Goals

1. The district will establish a financial base sufficient to support high quality and innovative educational programs which meet community needs.
2. The district will follow prudent and professional financial management practices in order to achieve and maintain long-term financial stability.
3. The district will demonstrate to the taxpayers of the district and the financial community that its schools are well managed.
4. The district will provide cost-effective services to citizens by cooperating with other educational, government, and nonprofit agencies.
5. The district will have an adequate capital improvement program that maintains existing district assets, provides for student and employee safety, maintains a quality instructional environment, and allows for enhancements that are necessary to meet changes in enrollment.
6. The district will continually review and improve its formal budget document and other financial information so that it clearly and openly communicates its resources, expenditures, and financial position.
7. The district will communicate, as permitted by law, with its employees and the community so that they understand the district's program requirements and financial status.

DI. Financial Management Policies

Resource Planning and Allocation Policies

1. The district estimates revenues, operating and capital expenditures, and debt service each year for the following five years. Annually, the superintendent will propose a financial forecast that is reviewed and potentially modified by the budget committee or Board. This forecast serves as the basis for budget instructions to the superintendent for the following year and for other financial planning activities.

-
2. The superintendent's proposed annual budget will reflect the official five-year forecast approved by the Board, incorporate operating and capital budgets, and respond to current district goals and policies and other long-range plans and needs of the district.
 3. The operating and capital budgets will be proposed by the superintendent and approved by the budget committee consistent with the following criteria:
 - a. The physical safety of students and employees;
 - b. Instructional services that meet the needs of all students;
 - c. Support services to efficiently manage the human, financial, capital, facility and information resources of the district;
 - d. Development of new capital assets to meet enrollment changes or otherwise improve the safety, efficiency or quality of district instructional services.

It is the responsibility of the superintendent, budget committee and Board to balance these criteria during the development, review, and adoption of the annual budget.

4. The district's education program must be responsive to the changing needs of the community and its students. To respond to these changes, a portion of the operating budget may be reserved each year for research and development purposes.
5. The district will gradually fund reserve and replacement accounts for its future liabilities, claims and fixed assets. Each reserve account will include explicit standards for setting the amount of the reserve.

Accounting and Financial Practices Policies

1. The district will maintain an accounting and financial reporting system that conforms to both Generally Accepted Accounting Principles (GAAP) adopted by the Government Accounting and Standards Board (GASB) and Oregon local budget law, and will issue a Comprehensive Annual Financial Report (CAFR).
2. The Board will establish funds as needed to support effective and efficient service delivery. The budget committee and the Board will review each fund annually as the budget is prepared and reviewed. If certain funds are not found to enhance the district's services or financial goals, they will be restructured or eliminated.

3. Reserve Funds

The Board may establish one or more reserve funds to hold moneys to be accumulated and expended for the purpose of financing the cost of any service, project, property or equipment. The Board shall review established reserve funds annually and determine whether the fund will be continued or abolished, as part of the budget process.

4. Contingency Funds

The Board requires each fund to maintain an appropriate contingency account to meet unanticipated requirements that may occur during the budget year. Cash reserves and fund balances will be consistent with generally accepted accounting practices and local budget law.

The contingency appropriation is an allowance meant to smooth annual variations in revenues and spending; it should be considered in conjunction with the district's Fund Balance Policy. It is necessary to:

- a. Maintain financial stability for program continuity and public confidence;
- b. Ensure budget and financial compliance with Oregon Revised Statutes and Oregon Administrative Rules;

-
- c. Provide an emergency reserve to balance risk of availability and liquidity of resources in other funds as well as the potential drain upon financial resources, liquidity, and designations, as reviewed annually;
 - d. Protect the district from unnecessary borrowing in order to meet cash-flow needs;
 - e. Provide prudent reserves to meet unexpected emergencies and protect against catastrophic events;
 - f. Meet the uncertainties of state and federal funding;
 - g. Allow for unexpected variation in spending; and
 - h. Help ensure a district credit rating that would qualify the District for lower interest costs and greater marketability of bonds that may be necessary in the construction and renovation of school facilities.

The Board may approve action to reduce or reappropriate the contingency appropriation. The Board's authority is limited to the currently adopted budget or a budget for the following fiscal year.

The Board must approve any transfers from the contingency appropriation.

The targeted contingency for the general fund is two percent of the operating budget. The district will review other funds for contingency and cash reserve requirements to ensure that each fund has sufficient reserves and a positive balance at year end, as required by local budget law.

5. General Fund Balance

a. Purpose

The purpose of this policy is to establish a key element of the financial stability of the district by setting guidelines for the General Fund balance. The district will maintain a portion of fund balance Committed for Economic Uncertainty that is the minimum ending fund balance in the General Fund in order to provide stable services and employment and to offset cyclical or unforeseen variations in revenues and expenditures without borrowing. The minimum ending fund balance also provides cash flow liquidity for the district's general operations.

b. Definitions

Fund balance is defined as the excess of assets of a fund over its liabilities and reserves. The Board established minimum ending fund balance is five percent of current year annual operating revenues excluding transfers between funds.

c. Budget

As a part of the budget process, the district will project general fund operating revenues and ending fund balances for the ensuing four fiscal years in its annual financial forecast.

The budgeted unappropriated ending fund balance (UEFB) may not be spent or appropriated during the fiscal year in which it is budgeted.

d. Minimum

The district will maintain a minimum ending fund balance of five percent of current year annual operating revenues excluding transfers between funds. The fund balance takes into consideration revenue and expenditure volatility and other district needs. The minimum ending fund balance is comprised of the General Fund UEFB plus two-thirds of the contingency for the ensuing year.

e. Exceptions

The Board may approve a temporary reduction in the minimum ending fund balance during the budget process, along with a plan to rebuild the ending fund balance to the targeted five percent level within five years. The superintendent will update the Board on the financial condition of the district and present the Board with financial options and a timeline to replenish the fund balance. Should the ending fund balance exceed the five percent target, a plan for one-time use of the additional amount may be considered by the Board.

f. Breach

The superintendent will advise the Board if at any time the ending fund balance falls below or is projected to fall below the targeted five percent. If during any fiscal year, district revenues are projected to be less than anticipated, the superintendent and Board will review expenditures, transfers, and the projected ending fund balance for possible mid-year adjustment. The Board may decide to use a portion of the projected ending fund balance to stabilize services. When such a determination is made, the Board will adopt a plan to rebuild the ending fund balance to the five percent targeted level within five years.

g. The district will review other funds for contingency and cash reserve requirements to ensure that each fund has sufficient reserves and a positive balance at year end, as required by local budget law.

h. Reporting Fund Balances in accordance with GASB Standards

This policy establishes the procedures for reporting funds balances in the financial statements. Certain commitments and assignments of fund balance will help ensure that there will be adequate financial resources to protect the district against unforeseen circumstances and events such as revenue shortfalls and unanticipated expenditures. The policy also authorizes and directs the Chief Financial Officer to prepare financial reports which accurately categorize fund balance as per Governmental Accounting Standards Board (GASB) Standards.

There are five separate components of fund balance, each of which identify the extent to which the district is bound to honor constraints on the specific purpose for which amounts may be spent.

- (1) Nonspendable (including but not limited to inventory and prepaid expenditures)
- (2) Restricted (externally restricted)
- (3) Committed (self-imposed limitations set in place by resolution of the Board)
- (4) Assigned (intent for specific use)
- (5) Unassigned (available for any purpose)

The Board establishes the order in which fund balances will be spent when multiple fund balance types are available for a specific purpose is committed, assigned, and lastly unassigned. The superintendent or designee shall establish and maintain procedures for determining if resources would meet the definition of assigned.

The Board, as the district's highest level of decision-making authority, may commit fund balance for specific purposes pursuant to constraints imposed by formal actions taken, such as a majority vote or resolution. These committed amounts cannot be used for any other purpose unless the Board removes or changes the specific use through the same type of formal action taken to establish the commitment.

Amounts that are constrained by the district's intent to be used for specific purposes, but are neither restricted nor committed, should be reported as assigned fund balance. This policy hereby delegates the authority to assign amounts to be used for specific purposes to the chief financial officer for the purpose of reporting these amounts in the annual financial statements.

6. If district revenues are less than anticipated, operating, capital and ending fund balance allocations will be reviewed by the Board for possible reductions. The Board may decide to use a portion of the projected ending fund balance to stabilize services. When such a determination is made, the Board will adopt a plan to rebuild reserves to the five percent targeted level within five years.
7. Excess one-time funds may be available for capital, equipment, library books, automation or other one-time projects that improve the district's productivity and efficiency, but only if the ending fund balance is sufficient.
8. Each fund will maintain adequate cash reserves in order to meet operating cash flow needs or borrow internally from another fund, or as a last resort, borrow externally to provide for cash requirements.
9. When feasible, and where legally permissible, the district may evaluate support services to determine if creating a user-fee, internal service fund, or enterprise will increase efficiency of service delivery or recover the cost of providing the service from the users.
10. The district may recover the indirect costs associated with the operation of programs from such non-general fund sources as federal and state grants, intergovernmental services agreements, and other operating internal service or enterprise funds.

Revenue Policies

1. The district will strive to establish a stable revenue base for the operating budget for program needs through cooperation with its associations, legislators, and other districts. The district will make capital funding requests periodically to assure adequate safety and preservation of school buildings, district equipment, and other capital assets.
2. The district may charge the service fees intended to recover the partial or full cost of non-district-sponsored use of its facilities, services or equipment, if permitted by law. In approving new uses of district services or facilities, the criteria for setting fees will include:
 - a. The cost of the use to the district;
 - b. The ability of the user to pay for the service or activity;
 - c. The degree to which the activity supports or detracts from the educational mission of the district;
 - d. Whether the use is by a private organization or individual or by another public entity; and
 - e. The comparable fees charged by other public or private organizations.
3. Periodically the administration will review and adjust service fees to ensure that rates are equitable and recover the cost of operation. The district reserves the right to deny any use of its facilities or services to prevent possible conflicts with its activities educational purpose.

Capital Improvements Policies

1. Facilities are essential to the support of the district's instructional programs. The annual operating and capital budget will reflect the need to maintain and repair facilities to preserve the public's investment in district facilities and to minimize future costs of major renovation and/or replacement.

-
2. Construction, acquisition, or improvements of capital assets may be financed with resources outside of the district's normal operating and maintenance budget (e.g., bond issues or other methods of financing).
 3. The district will maintain a current inventory of its capital assets, their condition, and replacement and maintenance costs.
 4. The district will operate an ongoing preventive maintenance program to inspect facilities, inventory needs, and perform required repairs and maintenance.
 5. The district will plan for capital improvements over a multi-year period. The capital improvements program (CIP) will reflect long-range plans and policies, adopted land-use requirements, and growth projections. The staff and public will be involved in developing the capital improvements plan. The plan document will include estimates of known major capital needs extending beyond five years.
 6. CIP will estimate the changes in operating costs resulting from the improvements in facilities.

Intergovernmental Revenue Policies

The district will use non-recurring grant revenue for one-time services such as capital projects, equipment requirements, services that can be terminated without significant disruption to students and the community, and the development of innovative programs which the district is considering for future adoption. If grant resources do not provide predictable operating income for district programs, a plan will be available for replacement of the income from another source or phase out of the program. This plan will be a part of the district's financial forecast.

Debt and Investment Management Policies

1. The district will seek to maintain an Aa Moody's bond rating or equivalent to preserve its access to credit and to minimize the cost of borrowing.
2. The district will use general obligation bonds or other financing instruments permitted by law to finance essential fixed assets, equipment, and capital improvements to support its instructional mission.
3. The district will periodically review debt capacity as part of long-range capital planning to ensure that debt levels are prudent and affordable. Retirement of bonded debt shall not exceed the useful life of the capital improvements that have been financed.
4. The district will comply with debt issuance laws and regulations established by federal and state government and with Board policies.
5. The district will follow state law and local investment guidelines and abide by the following prioritized criteria when making investments:
 - a. Preserve capital through prudent financial investments;
 - b. Maintain sufficient liquidity so that funds are available when needed; and
 - c. Achieve the best available rate of return on investments.

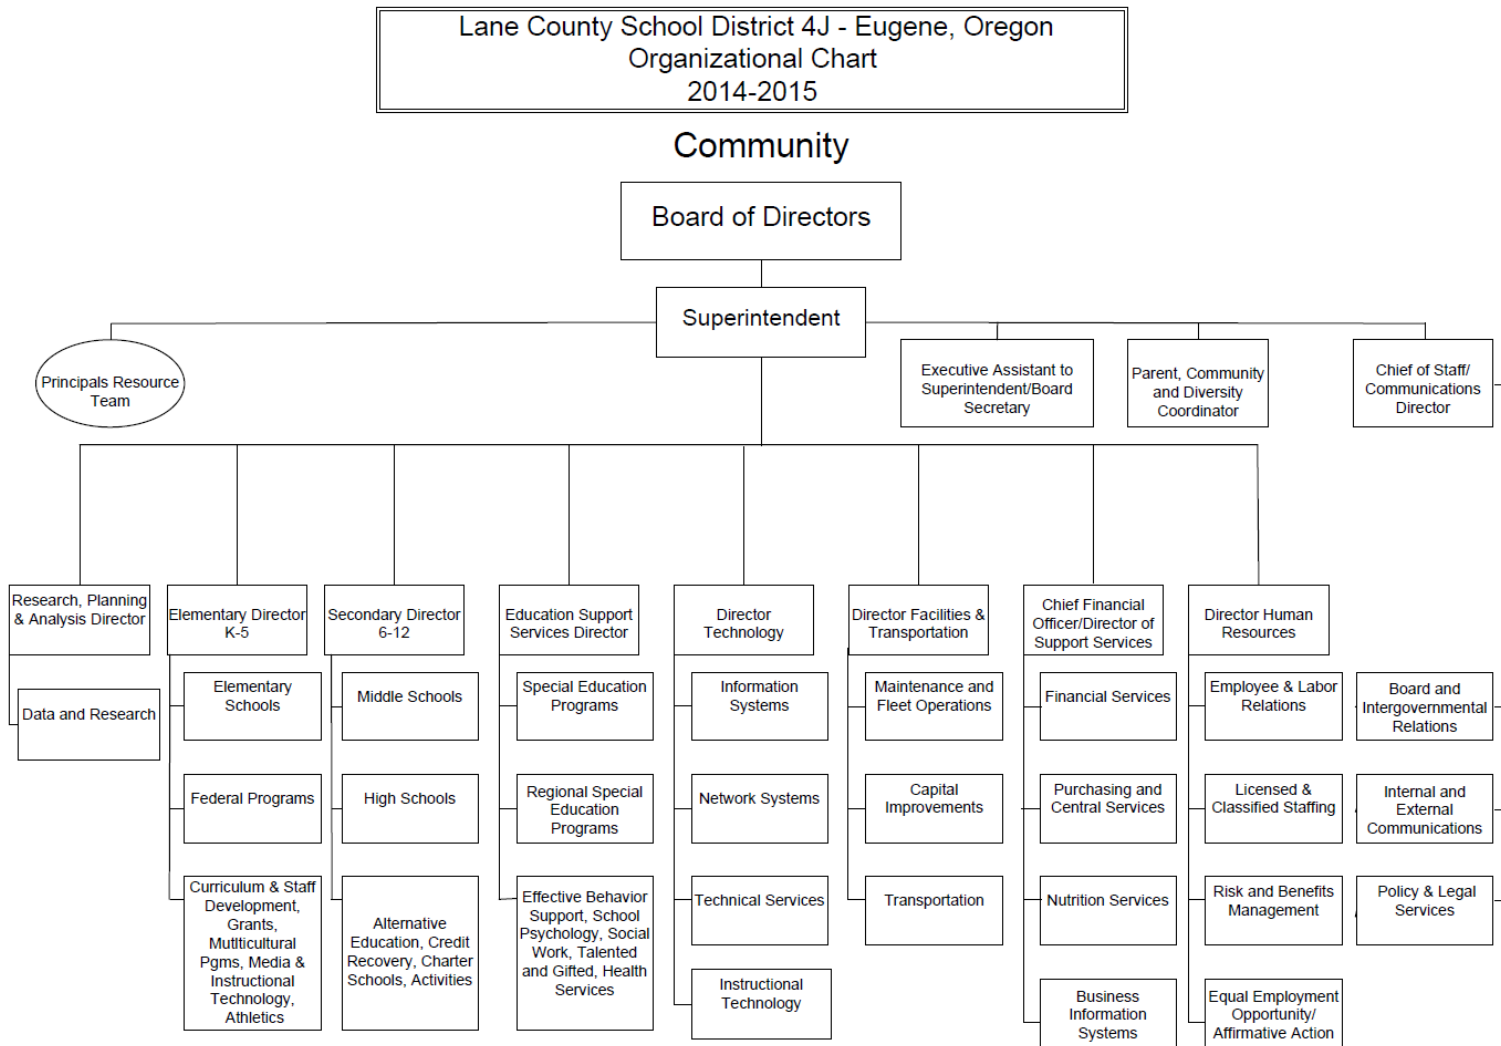

Organizational Policies

1. The superintendent will review the district's organizational structure and operating programs periodically to assure that it is responsive to current needs and avoids service duplication or inefficiencies.
2. The district will maintain a plan for balancing the cost of services with available revenues in order to minimize uncertainty about employment and services. The plan will be consistent with the adopted forecast.

-
3. The compensation of employees will be competitive with that of comparable public and private sector employers in the relevant recruiting or market area. The criteria for reviewing employee wages and benefits will also include internal comparability for similar jobs, ability to pay and relevant federal or state requirements.
 4. The district will, within available resources, maintain the productivity of staff through a supportive working environment which includes appropriate equipment, supplies, materials, and professional staff development.
 5. The district will routinely evaluate its support services and determine whether the services are being provided at a competitive market cost. The district will develop corrective plans for any services that are not efficient or effective.
 6. The district will use intergovernmental service contracts to minimize the duplication of services and to ensure the most effective and efficient delivery of services to the taxpayers.

Assessed Value (bonds approved after 2001)				\$12,908,854,407			\$1.5811	\$13,296,120,039
							\$1.5997	

¹ Budget summaries containing resources and requirements for all funds may be found in the Executive Summary.

² For the purpose of certifying taxes approved by the Budget Committee with the county tax assessor, districts are required to distinguish between bond levies that were approved before or after October 6, 2001. Assessed values to support the calculation of the debt service tax rate are provided in the table above.

Tax Rate Comparison

	2010-11	2011-12	2012-13	2013-14	2014-15 Budget
Permanent Tax Rate Operating Levy	\$4.7485	\$4.7485	\$4.7485	\$4.7485	\$4.7485
Local Option Levy	\$1.5000	\$1.5000	\$1.5000	\$1.5000	\$1.5000
Debt Service Levy	\$1.3024 ¹	\$1.2866	\$1.1299 ²	\$1.5951 ³	\$1.5997 ⁴

¹ Includes the final payoff of general obligation bonds issued in 1999 and 2000.

² Includes G.O. bonds issued in 2011. Debt Service Levy is lower from interest savings on Qualified School Construction Bonds.

³ Reflects the impact of: 1) October 2012 advance refunding bonds which refunded portions of 2003 refunding and 2005 general obligation bonds, 2) a correction to the 2012-13 debt service budget, and 3) the issuance of a portion of bonds approved in May 2011 and 2013.

⁴ Reflects the proposed issuance of a portion of bonds approved in May 2011 and 2013.

Measures and Levies

Measure 5

In November 1990, Oregon voters approved Measure 5, a citizen's initiative limiting total taxes on each property in the state to 1.5 percent of the property's real market value and shifting responsibility for funding public education to the state from the local level.

Measure 5, a constitutional amendment, phased in the tax limit for schools over a five-year period, beginning with a limit of \$15 per \$1,000 of property value in 1991–92 and decreasing to a permanent limit of \$5 per \$1,000 of value in the 1995–96 fiscal year. Tax limitations do not apply to bonded debt for capital construction.

In response to the requirement that the state replace school tax revenue lost under Measure 5, the legislature created the State School Fund (SSF) and established an equalization formula to allocate revenue to schools on a weighted per-student basis.

Since Measure 5 was passed, the state's share of funding to schools increased from about 30% to about 70%.

Measure 50

In 1997, Oregon voters approved Measure 50, an initiative referred by the legislature to implement the provisions of Measure 47. The purpose of Measure 50 was to clarify legal ambiguities in the original measure and change the property tax system from a tax base system (where a dollar amount is levied) to a tax rate system (where a permanent rate is levied). As a result, in 1997–98 assessed values were rolled back to 1995–96 values minus 10% and future assessed value increases were capped at 3% per year plus exceptions such as the value of new construction. The District's permanent rate was set at \$4.75 per \$1,000 of assessed value.

Other provisions limited the use of bonded debt and required a 50% voter turnout for property tax elections except at general elections (November of even-numbered years).

Measure 56

In November 2008, voters amended the state constitution to require that all local property tax measures on May and November elections be decided by majority vote, overturning the "double majority" requirement of Measure 50.

Measures 66 and 67

In January 2010, Oregon voters upheld two tax increases approved by the 2009 legislature. Measure 66 increased personal income tax rates for high income individuals, and Measure 67 increased corporate taxes by raising the \$10 corporate minimum tax to \$150, raising the corporate profits tax, and increasing certain business filing fees.

Local Option Levy

Since 1999, school districts have been allowed to request voter approval for local property tax levies to support operations and/or capital needs. This represents the only opportunity for district voters to increase revenue for district operations since Measure 5 passed in 1990. Local option capacity represents the "tax gap" between the Measure 5 tax rate limit based on real market value and the Measure 50 tax rate based on assessed value.

As revised by the 2007 legislature, the amount a district can receive under a local option levy is restricted to the least of:

- Measure 5 limit: revenue received by the district from local option taxes imposed; or
- Dollars per student: \$1,000 per average daily membership, weighted (ADMw), growing by 3% per year as of 2008-09; or
- Percent of state resources: 20% of the combined total of the state general purpose grant, transportation grant, facility grant and high cost disability grant.

Operating levies cannot exceed five years. Capital levies cannot exceed the lesser of ten years or the expected useful life of the asset(s).

Local option levies for more than a year may be filed as either a fixed dollar amount per year or a tax rate. Local option revenue is excluded from the state funding formula.

In May 2000, District voters passed a five-year local option tax of \$1.50 per \$1,000 of assessed value to support District operations. The levy was renewed in November 2004 and November 2008. The current levy expires in 2014-15. The District will ask voters to renew this levy prior to its expiration.

General Obligation Bonds

Districts may levy taxes for the repayment of bonded debt upon voter approval. Tax levies for bonded debt fall outside the limits of Measure 5.

Measure 50 limited the use of bonded debt to funding capital construction and improvements and prohibited using bonds to finance the purchase of equipment or maintenance and routine repairs.

The 2009 state legislature approved a provision of the Oregon Constitution which effectively expanded the range of qualifying uses of bond proceeds by redefining “capital costs” as costs of land and of other assets having a useful life of more than one year, including costs associated with acquisition, construction, improvement, remodeling, furnishing, equipping, maintenance or repair. Bonds may not be used to pay for the costs of routine maintenance or supplies.

District voters approved requests for general obligation bond funding for capital improvements and repairs to District facilities in 1992, 1994, 1998, 2002, 2011 and 2013. Detail on these bonds is provided in the Other Funds section of the budget document, under Debt Service Fund.

Bond and Levy Election Record ¹

Year	Type of Election	Amount Requested	Yes Votes	No Votes	% Passed	Turnout
11/03/1992	G.O. Bonds	\$73,400,000	38,717	27,939	58.10%	N/A

¹ Lane County voters only.

² Voters authorized a Local Option Levy of \$1.50 per \$1,000 of assessed value, to be levied for five years beginning in 2000-01. The amount requested represents estimated revenue over the five-year period, as stated in the ballot summary.

³ Voters authorized a Local Option Levy of \$1.50 per \$1,000 of assessed value, to be levied for five years beginning in 2005-06. The amount requested represents estimated revenue over the five-year period, as stated in the ballot summary.

⁴ Voters authorized a Local Option Levy of \$1.50 per \$1,000 of assessed value, to be levied for five years beginning in 2010-11. The amount requested represents estimated revenue over the five-year period, as stated in the ballot summary.

Local Option Levy Tax Calculation Worksheet

This worksheet can be used to estimate what a household pays for 4J's local option levy.

Local Option Levy Tax Calculation

Use this worksheet to determine your share of the Local Option Levy

Assume: Measure 5 tax limit of \$5.00 per \$1,000 of Real Market Value
Measure 50 tax limit of \$5.5908 per \$1,000 of Assessed Value

Note: Property values may change from year to year. If the property values you use for this worksheet are from your prior year's property tax statement, your actual Local Option tax for this year may be different but should be similar.

Determine the Local Option "tax gap" on your property

Calculate the Measure 5 tax for your property.

1. Enter the Real Market Value of your property ("RMV Total") from your property tax statement ... _____
2. Multiply the amount on Line 1 by \$5.00 _____
3. Divide the amount on Line 2 by 1,000. _____
4. Enter the amount on Line 3. This represents your Measure 5 tax..... _____

Calculate the Measure 50 tax for your property.

5. Enter the Assessed Value of your property ("AVR Total") from your property tax statement. _____
6. Multiply the amount on Line 5 by \$5.5908 _____
7. Divide the amount on Line 6 by 1,000. _____
8. Enter the amount from Line 7. This represents your Measure 50 tax. _____

9. Subtract the amount on Line 8 from the amount on Line 4. If the amount is zero or less, enter zero (0). This represents the Local Option "tax gap" for your property.....

Apply the Local Option rate to your property's value

10. Enter your Assessed Value ("AVR Total") from Line 5 above. _____
11. Multiply the amount on Line 10 by \$1.50. _____
12. Divide the amount on Line 11 by 1,000. _____

13. Enter the amount from Line 12.

This represents the maximum possible Local Option tax on your property.....

Determine the amount you pay for the Local Option

Compare Line 9 with Line 13. Enter the smaller amount.

This is the amount you pay for one year of the Local Option levy

Enrollment Projections and Methodology

Enrollment History

During the past several decades Eugene School District has experienced steady enrollment declines. The most recent respites have been 1996-97, 1997-98, and 2002-03; however, these were brief and increases were small. This is illustrated in the graph below.

Student enrollment reached its highest point in the mid-1970s at approximately 22,000 students and declined to a low of 16,636 in 1984-85. During this period, the District reduced staff and closed several elementary schools. Between 1985 and 1993, enrollment increased and two elementary schools were reopened.

Enrollment has consistently declined since 2002-03, when it was 17,979. In 2010-11, enrollment declined below the 1984-85 level and the District closed four elementary schools. The decline has not been steady, but has been consistent. The decision of the State Legislature to allow open enrollment across the District for the five year period of 2012-13 through 2016-17 has had a positive impact on the rate of decline.

Figure 1. Enrollment History

Note: Student enrollment is expressed as resident average daily membership (ADMr). It represents the average annual enrollment as of June 30 and counts kindergarten students at 0.5 ADM or half time. The State uses ADM as the basis for allocating funds under the State School Fund formula and provides additional weighting (ADMw) for special education, poverty, English Language Learners (ELL), and pregnant and parenting students. The District also receives funding for students placed in alternative education programs or enrolled in District-sponsored charter schools. ADMr for 97-98 through 10-11 excludes students enrolled in charter schools and alternative education programs. Beginning in 11-12, the ADMr above includes alternative education programs.

Enrollment Projection

Enrollment is projected each year for the next five years by the Research and Planning team in the District's Instruction Department. The graph below shows ADMr by school level (actual and projected) for recent history and the years in the forecast.

Figure 2. Total District Enrollment

Methodology Used for Enrollment Projections

Each year, as part of the annual planning cycle, an estimate is made of the ensuing year's October 1 enrollment by school, grade level, and total District for the budgeted school year. Because the enrollment estimates are used for building a budget and for hiring decisions, they are conservative by design. These projections reflect the potential for enrollment of students as a result of open enrollment policies.

The enrollment estimates are based on the following factors:

1. The number of live births in Lane County and the birth-to-kindergarten average capture ratio over the last three years.
2. The number of students who continue in the system from one year to the next adjusted for the average survival ratio for the last three years.
3. Three-year enrollment history.
4. Student transfer and open enrollment expectations.

Other factors considered to test the estimates:

- Number of housing starts and new addresses added to the 4J area in current and prior years.
- Differential in median house prices in 4J and surrounding school district areas.

Projections of Student from Open Enrollment

As a result of HB3681, Oregon districts may enroll students from other districts. Eugene 4J has elected to allow such enrollment and open enrollment students are residents of a different Oregon district who choose to attend a 4J school. We have based our projections of the number of open enrollment students in 2014-15 on our experience in 2012-13 and 2013-14, the first two years when open enrollment was available.

School Staffing Methodology

School staffing is allocated in two ways:

1. Teacher to Student Staffing Ratios

The District's projected base teacher staffing ratios for the 2014-15 school year will be slightly below 2013-14 ratios. Ratios are applied to projected enrollment at each school/program, which is adjusted by the school or program's Needs Index level, to determine classroom staffing.

	2010-11	2011-12	2012-13	2013-14*	2014-15	5-Year Change
"Represents 1 Licensed FTE for Every ___ Students"						
Grades K-5	24.56	27.55	26.45	27.15	26.98	2.42
Grades 6-8	26.06	29.06	27.65	28.15	28.06	2.00
Grades 9-12	26.38	29.38	28.79	29.22	28.76	2.38
* Ratios have been reduced from those shown in the 2013-14 adopted budget as a result of employee negotiations, which concluded after the 2013-14 budget was adopted.						

Note: Teacher/student staffing ratios are used for hiring staff and are a targeted average for the District. Actual class sizes may vary widely depending on the move-in patterns of students, school demographics, etc. These are adjusted for each school based on the Needs Index on the following page.

Basic enrollment is the school's projected enrollment for the coming year. It is adjusted by 0.5 for kindergarten students and 0.25 for certain special education students (who are also served through the special education program). The equity factor applied is a Needs Index, which is presented on the next page.

Student needs may be reflected by looking at many students' characteristics. The table on the following page shows the characteristics that the District has developed to represent student need. These will be refined over time as we better understand student needs across the District's schools. For 2014-15, the Needs Index is calculated based on the following student characteristics in each school: families with low incomes, students requiring special education services, students with limited English proficiency, and students who move between schools during the school year.

2. Program Staffing

Positions that are program staffed include counselors, athletic directors and trainers, freshman specialists, IB coordinators, and classroom teachers allocated to address specific program requirements such as fully scheduling 9th grade. The Early College and Career Options (ECCO) program is also program staffed, as enrollment can fluctuate significantly throughout the year.

These resources may vary by school level. There are also non-formula additions for new programs or special needs or circumstances, like split campuses or language immersion programs.

Needs Index

(1) High school projected enrollment includes one half of IHS projected enrollment and special ed. students defined as ESD students at .25 FTE.

(2) Each I.H.S. receives 7.2 hours program staffing.

(3) Based on the percentage of students qualifying for free/reduced meals from feeder schools

(4) Staffing must be used for campus monitors. Allocated based on enrollment.

(5) ECCO allocation amounts, including Young Parent Program, are fixed amounts.

(6) Year-over-year Difference represents: +4.000 hours Registrar Help at Churchill and North Eugene, and +3.000 hours at the Child Development Center (ECCO Young Parent Program).

Staff Conversion and Costing Table

The Staff Conversion and Costing Table reflects the full budget cost of an average licensed and/or classified full time equivalent (FTE) employee. This version of the Staff Conversion and Costing Table was used in the development of the 2014-15 budget.

2014-15 STAFF CONVERSION AND COSTING TABLE February 14, 2014

Below are average staff salary, payroll and benefits costs to use for calculating additional staffing from donated funds and for converting licensed FTE and classified hours. Amounts can be used for both conversion purposes and costing additional staffing. *Classified conversions are stated in terms of hours and not FTE.*

Remember that donated funds from parent groups and other sources must be sent to Financial Services prior to hiring staff, and that there is a 10% equity surcharge on staffing moneys donated to any specific school.*

These rates may be used for all staffing conversions.

Below are average staff salary and benefits costs to use for calculating staffing funded with grants or conversions of materials and supplies budgets.

AVERAGE STAFFING COSTS **

Licensed Staff (191 days)

Regular Staff				.10 FTE =	\$10,105
	Salary Account	111	\$5,933		
	Fixed Costs	200s	\$2,676		
	Fringe Benefits	240s	\$1,496		
Extended Contract				1 day =	\$431
	Salary Account	131	\$311		
	Fixed / Fringe Costs	200s	\$120		
Substitute Teacher				1 day =	\$230
	Salary Account	121	\$173		
	Fixed / Fringe Costs	200s	\$57		
<u>Classified - Grade 10 and lower</u>				1 Hour =	\$6,673
	Salary Account	112	\$3,508		
	Fixed Costs	200s	\$1,391		
	Fringe Benefits	244	\$1,774		
<u>Classified - Grade 11 and higher</u>				1 Hour =	\$7,816
	Salary Account	112	\$4,326		
	Fixed Costs	200s	\$1,716		
	Fringe Benefits	244	\$1,774		

* Please contact a member of the Budget team (budget@4j.lane.edu) for help in costing additional staffing or converting one type of staffing to another, e.g., licensed to classified. Financial Services will work with you to determine the amount that needs to be billed to your school for staffing purchased with outside funds.

** Average staffing costs reflect status quo contract provisions. If contract negotiations result in a different number of days, this table will be updated to reflect new average staffing costs.

According to Board policy, staff positions funded through donations will be created only after the funds have been received by the district. Funds are considered to be received by the district upon confirmation by Financial Services that your payment has been received. After that, Human Resources can implement your staffing changes.

For staffing funded through Eugene Education Fund (EEF) grants, please notify Maria Montes (montes_m@4j.lane.edu, ext. 7607) of your budget decisions, in addition to your Human Resources representative.

2014-15 STAFF CONVERSION AND COSTING TABLE
Payroll and Employee Benefit Costs
February 14, 2014

C	10.34	10.60	10.87	11.14	11.42	11.71	12.00	12.30	12.61	12.86
B	9.09	9.32	9.55	9.79	10.03	10.28	10.54	10.80	11.07	11.29
A	8.68	8.90	9.12	9.35	9.58	9.82	10.07	10.32	10.58	10.79

These are the 2013-14 salary schedules. They will be updated when negotiations between the Oregon School Employees Association (OSEA) and the District are completed.

These salary schedules have been increased over the 2012-13 salary schedules by 1%. The Longevity step represents 2% over Step 9.

Per the OSEA/District agreement, seven days will be cut from employees' regular work year assignments during 2013-14.

Whenever the state minimum wage exceeds a pay rate established in this schedule, the employee will receive the state minimum wage.

An employee on Step 5 of the 1997-98 salary schedule who received an additional 3% shall continue to receive the value of the 3%.

Function Descriptions

1111 *Elementary School Programs*

The elementary instructional program for children in grades kindergarten through five provides learning experiences focused on key essential skills, particularly those necessary to receive an Oregon high school diploma: read and comprehend a variety of texts; write clearly and accurately; apply mathematics in a variety of settings; listen actively and speak clearly and coherently; think critically and analytically; use technology to learn, live and work; demonstrate civic and community engagement; demonstrate global literacy; and demonstrate personal management and teamwork skills.

Instruction is delivered using strategies that encourage students to make connections across subject areas, think critically and apply their learning to experiences in their own lives.

1113 *Elementary Student Activities*

Expenditures for elementary school extra-curricular activities.

1121 *Middle School Programs*

This level of instruction blends a strong academic program with a gradual transition from the elementary school to the high school. The middle school climate and program are designed to assist students to progress intellectually, physically, and socially by involving them in continued development of basic skills and exploratory activities. The middle school course profile that identifies course work and career exploration activities to be completed during the middle and high school years. Students are encouraged to take increasing responsibility for their own behavior and learning. All students are expected to meet benchmarks including completing algebra by the 8th grade.

1122 *Middle School Student Activities*

Expenditures for middle school extra-curricular activities.

1131 *High School Programs*

The high school instructional programs focus on learning experiences and activities which emphasize knowledge, skills, appreciation, attitudes, and behavioral characteristics needed by all students in order to graduate prepared to be successful in college and careers. Special efforts are made to help students understand themselves, their relationship with society, and the preparation necessary for their successful entry into the world of work and/or advanced academic and career training.

Increased graduation requirements and the need to prepare graduates for the 21st century have guided high schools to invest in the four dimensions of college readiness: key cognitive strategies; key content knowledge; academic behaviors; and contextual skills and awareness.

1132 *High School Student Activities*

This portion of the budget includes expenditures for student activities and athletics. These co-curricular pro-grams supplement the basic instructional offerings by providing additional interests and experiences for student learning to take place.

1210 *Programs and Services for the Talented and Gifted (TAG)*

Instruction provided for intellectually gifted and academically talented students addressing their assessed levels and rate of learning.

1220-1224 Restrictive Programs for Students with Disabilities

Special learning experiences for students with disabilities who spend one-half or more of their time in a restricted setting. These learning experiences include but are not limited to such areas as Comprehensive Learning Centers, Developmental Kindergarten, Community Transition Centers, Life Skills with Nursing, Out of District programs, Home Instruction, Extended School Year programs, Diagnostic Classrooms and Functional Living Skills.

1229 Other Restrictive Programs

Services and activities designed to support students with Autism or behavior needs.

1250-1254 Less Restrictive Programs for Students with Disabilities

Special learning experiences for students with disabilities outside the regular classroom. These learning experiences include but are not limited to such areas as Learning Centers where students with disabilities go during certain periods of the school day to receive targeted instruction in specific subject or skill areas. All special education expenditures, including 1250, need to be reported to the state at the district level rather than the school level.

1260 Early Intervention

Services designed to evaluate children with developmental deficits in sensory, motor, communication, self-help, and socialization areas. It includes transition services to school-age programs.

1271 Remediation

Instructional activities designed to improve achievement of regular education students who are not meeting state performance standards. Activities take place outside regular class time; e.g., after school, Saturday School and Summer School.

1280 Alternative Education

Learning experiences for students who are not succeeding in a regular classroom setting; who are at-risk of dropping out of school; who may be more successful in a nontraditional environment; or who need a special education placement outside of District programs.

1288 Charter Schools

Expenditures related to District sponsored charter schools.

1291 English Language Learner (ELL) Program

Instructional activities designed to improve English skills of students who do not speak English as their native language.

1294 Youth Corrections Education

Instructional programs delivered to youth in detention.

1460 Summer School

Instructional activities provided in accordance with summer school.

2110 Attendance and Social Work Services

Those activities which are designed to improve student performance at school and which attempt to prevent or solve student problems involving the home, the school, and the community.

2115 Student Safety

Activities associated with campus monitors, school police, crossing guards, and other direct expenses associated with services intended to enhance student campus and vicinity safety.

-
- 2122 *Counseling Services*
This program provides activities concerned with the relationship between students and others, including other students, staff, and parents. The major purpose of this effort is to assist pupils to understand their educational, personal and occupational strengths and limitations; to relate their abilities, emotions, and aptitudes to educational career opportunities; to form realistic plans and to achieve satisfying personal and social development.
- 2129 *Other Guidance Services*
Other guidance services not classified above.
- 2131 *Health Services*
Activities associated with directing and managing health services, which are not instruction, such as health inspection, treatment of minor injuries, and referrals for other health services.
- 2132 *Medical Services*
Activities concerned with the physical and mental health of students, such as health appraisal, screening for psychiatric services, periodic health examinations, emergency injury and illness care and communications with parents and medical officials.
- 2139 *Other Health Services*
Other health services not classified above.
- 2142 *Psychological Testing Services*
Activities concerned with administering psychological tests, standardized tests and inventory assessment of ability, aptitude, achievement, interests and personality and the interpretation of these measures for students, school personnel and parents.
- 2143 *Psychological Counseling Services*
Activities concerned with administering psychological tests and interpreting the results, gathering and interpreting information about student behavior, working with other staff members in planning school programs to meet the special needs of students, conducting behavioral evaluations and interventions, and managing a program of psychological services.
- 2152 *Speech Pathology Services*
Speech/language services and support to students with disabilities.
- 2169 *Miscellaneous Support of Educational Services*
Activities supporting District special educational programs.
- 2190 *Service Direction, Student Support Services*
Activities associated with directing and managing student support services.
- 2210 *Improvement of Instruction Services*
Activities designed primarily for assisting instructional staff in planning, developing and evaluating the process of providing learning experiences for students.
- 2211 *Direction of Instruction Services*
Activities associated with directing and managing the improvement of instruction services.
- 2212 *Site-Based Improvement of Instruction*
Site-based activities associated with directing and managing the improvement of instructional services.
-

-
- 2213 *Curriculum Development Services*
Activities designed to aid teachers in developing, preparing and using curriculum materials.
- 2214 *Multicultural Education*
Activities associated with managing and directing the multicultural program.
- 2215 *Reimbursable Leave*
Licensed president leave, reimbursed by Eugene Education Association (EEA) as provided in the EEA/District Collective Bargaining Agreement.
- 2219 *Other Improvement of Instruction Services*
Activities for improving instruction other than those contained in the other 2210 functions. Staff including District coordinators of activities and athletics, music, technology, and language. Funds to support the student work study program.
- 2222 *Library/Media Services*
Activities such as selecting , acquiring, preparing, cataloging, and circulating print and non-print materials, and networking with other entities to offer a wide array of these materials to students and staff. Also included are services to instructional staff related to the use of the media center, media materials, and instruction of students in the use of media center materials and equipment.
- 2223 *Multimedia Services*
Activities such as selecting, preparing, caring for, and making available to members of the instructional staff all multimedia equipment and materials.
- 2230 *Assessment and Testing*
Activities to measure individual student achievement. Information obtained is generally used to monitor individual and group progress in reaching District and state learning goals and requirements.
- 2240 *Instructional Staff Development*
Activities specifically designed for instructional staff to assist them in preparing and using special/new curriculum materials, understanding and using best teaching practices, and any other activity designed to improve teacher performance.
- 2311 *Board of Directors*
- Set goals for the District and establish the necessary policies, contracts, budget, and directives for accomplishing those goals.
 - Monitor the extent to which the goals of the District are accomplished.
 - Engage the community on school issues, advocate with legislators and collaborate with other governmental units, for K–12 education.
 - Monitor the fiscal efficiency of the District.
 - Evaluate the performance of the Superintendent.
- 2321 *Office of the Superintendent*
- Provide executive leadership and administrative direction for all functions of the school district.
 - Propose and implement long-range plans that will continue to improve the effectiveness of school district programs.
 - Administer the policies, contracts, budgets and directives of the School Board.
 - Promote and maintain educational equity/diversity, including liaison with communities of color.
 - Carry out the laws and administrative rules of the State of Oregon and the federal government as they relate to public schools.
-

-
- Develop and disseminate information useful to the Board and administration in decision-making.
 - Coordinate the authorization, monitoring, and evaluation of District charter schools.

2411 *Principals Services*

Expenses connected with activities performed by principals in the general supervision of all operations of the school, evaluation of the staff members of the school, assignment of duties to staff members, supervision and maintenance of school records, and coordination of school instructional activities with instructional activities of the District. Clerical staff for these activities is included.

2490 *Other Support Services—School Administration*

Other school administration services which cannot be recorded under the preceding function. Included here are extended contract costs for school administrators.

2521 *Financial Services*

- Service Direction and Administration: Financial Services, Food Services, Other Building Services
- Payroll
 - Employee Pay
 - Record Keeping
 - Payroll Reporting and Compliance
 - Employee Questions
- Accounts Payable
 - Invoice Payment
 - Vendor Relations
- Financial Accounting
 - General Ledger/Chart of Accounts
 - Accounts Receivable
 - Billings
 - Cash Receipts
 - Journal Entries
 - Account Reconciliations
 - Audit
 - Financial Reporting
 - Student Body Fund Accounting
 - Staff Training
- Grant Administration
 - Application Processing
 - Compliance Monitoring
 - Federal and State Reporting
 - Audit
- Cash Management
 - Investments
 - Cash Flow Analysis
- Budget
 - Budget Development
 - Transfers of Funds
 - Budget Committee Support
 - School/Department Support
- Financial Analysis/Forecasting
 - State School Fund Analysis
 - Long-term Financial Forecast

2541 *Facilities Management*

Activities to direct and manage the operation and maintenance of school plant facilities.

2542 *Building Division Services*

- Floor Covering
- Roofing
- Building Repairs
- Plumbing/Heating/Electrical
- Air Conditioning
- Filters
- Food Service Equipment Repair

2543 *Grounds Division Services*

- General Grounds Service
- Asphalt Repair
- Playgrounds/Athletic Fields
- Irrigation
- Fencing
- Site Improvements

2544 *Building Repair and Maintenance*

- Building Construction
- Remodeling/Alterations

2546 *Security Services*

- Security Monitoring
- Security Patrolling
- Locks & Keys
- Asbestos Management
- Building Safety

2548 *Care of Buildings Services*

- Custodial Equipment Repair
- Rentals
- Custodial Supplies & Equipment
- Pest Control
- Electricity & Fuel
- Water/Garbage/Sewage

2549 *Fleet Maintenance Services*

Operation of the District's motor pool services.

2551 *Transportation Services*

Activities pertaining to directing and managing pupil transportation services.

2552 *Vehicle Operation Services*

Activities concerned with operating vehicles for pupil transportation from the time the vehicles leave the point of storage until they return to that point. Driving buses or other pupil transportation vehicles is included. Liability insurance of pupil transportation vehicles is recorded here.

2554 *Vehicle Purchasing, Servicing, and Maintenance Services*

Activities concerned with maintaining pupil transportation vehicles in good operating condition.

2555 *Student Transportation*

Other than to and from school (District Expenses).

2556 *Student Transportation*

Other than to and from school (Refundable).

2559 *Other Pupil Transportation Services*

Pupil transportation services which cannot be classified under the preceding functions. Included are the costs for contracted transportation services, transportation permits, transportation safety, and out of District transportation.

2575 *Purchasing and Warehouse Services*

- Purchasing Administration
 - Preparation of Bids
 - Bid Openings
 - Requisition Processing
 - Contract Administration
 - Procurement of Warehouse Stock
 - Interpretation of State Statutes and Administrative Rules
 - Purchase Order Review
 - Vendor Resource to Schools/Departments
 - School/Department Assistance
 - Fixed Asset Inventory
 - Procurement Card Program
- Warehouse Services
 - Receive and Store Central Stock
 - Deliver Food, Supplies, Textbooks, Audio-visual and Computer Equipment
 - District-wide Receiving Station for Schools/Departments
 - Mail and Courier Deliveries
 - Intra-District Mail
- Excess Property
 - Move and Store Excess Property
 - Transfer Excess Items to Auction for Disposition
 - Arrange for Non-Auction Disposition of Excess Items
 - Chair and Table Rental

2576 *Mail Distribution Services*

- U.S. Mail
- Special Mail Service—UPS, Airborne, Express Mail

2630 *Public Information Services*

- District Communications
- Policy Support
- Intergovernmental Relations
- Grant Writing and Development

2641 *Human Resources*

Teacher Quality

- Administration and management of the Teacher Effectiveness and Growth Systems (teacher evaluation and professional development associated with the Effectiveness and Growth systems).
- Management of Probationary Teachers' Induction Program.

-
- Through the District's Teacher Effectiveness and Growth Systems, administer and manage the Educator Professional Cycle for licensed staff, from the teacher practicum through continued growth, development, and effectiveness.
 - Manage Intensive Support Programs to increase educator effectiveness.
 - Provide leadership and direction for No Child Left Behind (NCLB) and Highly Qualified (HQ) policy/law.

Workforce Planning and Staffing

- Administration and management of jointly developed workforce planning model meeting the District's present and future staffing needs.
- Administration and management of District-wide staffing plan.
- Internal consultant to schools on scheduling and staffing allocation distributions.

Recruitment, Equity, and Retention

- Administration and Management of the District's Key Talent Recruitment and Retention Plans.
- Develop plans for applicant outreach; train and support hiring supervisors and District search committees.
- Management of guest teachers' (substitutes) licensing requirements and performance management.
- Oversee the development and implementation of the District's workforce diversity plan.
- Develop and implement an employee retention program.
- Administer the District applicant tracking system (NeoGov/Government Jobs).
- Ensure District-wide compliance with federal and state hiring laws.
- Establish hiring pools and pipelines for hard-to-fill positions.
- Administer classification and compensation studies and analysis.

Classification and Compensation

- Develop, maintain and update job descriptions for all employee groups.
- Oversee salary surveys and market studies.
- Facilitate the Oregon School Employees Association (OSEA) Pay Grade Evaluation Committee process for classified employees.
- Review and process all requests for position reclassifications.
- Internal consultant to directors, administrators, and supervisors on employee job classification and compensation.

Employee and Labor Relations Services

- Bargain with the District's unions and associations.
- Oversee administration of all bargaining agreements.
- Provide leadership, direction and staff support on joint labor/management relations committees.
- Provide leadership and staff support to the Joint Benefits Committee.
- Internal consultant to administrators and supervisors regarding grievance process.
- Advise administrators and others on interpretation and compliance with all labor contract issues.
- Manage all legal employee proceedings involving the Bureau of Labor and Industry, Equal Employment Opportunity Commission, subpoenas from the Department of Labor, employee claims, actions, and lawsuits.
- Investigate and respond to complaints of discrimination, illegal retaliation, sexual and other work related types of harassment.
- Develop and update administrative rules and Board policies in HR program areas to ensure compliance.
- Provide staff training to ensure compliance with employment laws.
- Internal consultant on employment laws, workplace rules, and regulations.

-
- Ensure District administrative rules, policies, procedures, and practices are in compliance with applicable employment labor laws.

Employee Services and Staff Support

- Process all personnel actions impacting employees' terms and conditions of employment.
- Maintain employee personnel files ensuring compliance with federal and state laws.
- Administer employee information system (Lawson).
- Maintain Human Resources web page.
- Administration of all employment processes ensuring compliance with the Fair Labor Standards Acts (FLSA), and other applicable state and federal laws.
- Ensure compliance with employee background checks.
- Maintain accurate employee records and data and provide accurate reporting to state and federal agencies. Respond to internal and external requests for information in compliance with the public records law (PRR).
- Maintain, revise and update the staffing plan and HQ modules in Lawson. Develop and implement the leaves and workers compensation modules in Lawson.
- Create and implement on-line forms and processes to ensure accuracy of employee data.
- Provide higher level of service to employees by enhancing the Employee Self Service module in Lawson.

2660 Technology

Activities concerned with all aspects of technology, which includes computing and data processing services such as networking and telecommunications costs.

- Information Systems
 - Student Records
 - Scheduling
 - Attendance Records
 - Grade Reporting
 - Transcripts
 - Graduation Requirements
 - State and District Reporting
 - Health Services
 - Special Education Records
 - Data Warehouse Services
 - Work group collaboration suite including email and calendaring.
- Network Services
 - Data network infrastructure
 - Desktop support
 - Security
 - Web filtering
 - Print and File storage
 - Internet
- District Applications
 - Directory Services
 - Email / mailing lists
 - Server administration
 - Central file storage
 - Backup and recovery
 - Instructional software
- Telecommunications Services
 - Voice Services

-
- Autodialer communications
 - Emergency notifications
 - Library Services
 - Maintenance of library server
 - Technical Repair Services
 - Computers
 - Clock, bells, intercoms
 - On Line Learning
 - Virtual High School collaborative
 - Tier 2 and Tier 3 supports
 - Credit Recovery
 - Instructional Technology
 - Personal device pilot
 - District wide technology integration and professional development
 - Technical Repair / Support Services
 - Computers
 - Clocks, bells, intercoms
 - Desktop/laptop computers
 - iPod/iPads
 - Smartboards
 - Document camera

2665 *Site-based Technology Services*

Activities to support instructional staff in the integration of technology into curriculum.

2669 *Other Technology Services*

Activities concerned with data processing which are not described above.

2690 *Other Support Services – Central*

Used only in Fund 600 for claims paid.

2700 *Supplemental Retirement Program*

Costs associated with supplemental retirement program provided to eligible employees by the District.

2710 *Retirement – Certified*

Used in Fund 790 only.

2720 *Retirement – Administrators*

Used in Fund 790 only.

2730 *Retirement – Classified*

Activities concerned with the retirement pay plan for classified employees of the Eugene School District. Use only with Fund 790.

3100 *Food Services*

Activities concerned with providing food to students and staff in a school or district. This service area includes the preparation and serving of regular and incidental meals, lunches, or snacks in connection with school activities, and the delivery of food.

-
- 3320 *Community Recreation Services*
The District provides facilities for the City of Eugene, Kidsports, and other partners to provide students a variety of educational and recreational enrichment activities after school and on weekends. School facilities are also frequently rented for other community activities and for private uses.
- 3390 *KRVM*
Activities related to KRVM Radio broadcasting.
- 3510 *Child Care Services*
Activities concerned with the provision of programs for custodial child care, which are not a part of, or directly related to, the instructional program.
- 4111 *Service Area Direction*
Activities concerned with direction and management of facilities acquisition and construction.
- 4120 *Site Acquisition and Development Services*
Activities pertaining to the initial acquisition of sites and improvements thereon.
- 4150 *Building Acquisition, Construction, and Improvement Services*
Activities concerned with building acquisition through purchase or construction and building improvements. Initial installation or extension of service systems, other built-in equipment and building additions are included.
- 5110 *Long-Term Debt Service*
Expenditures for debt retirement exceeding 12 months.
- 5120 *Short-Term Debt Retirement*
Expenditures for debt retirement paid in full within the fiscal year.
- 5200 *Transfers of Funds*
All transfers from the General Fund to other funds.
- 6110 *Operating Contingency*
Amounts budgeted to allow for unforeseen expenditures and unusual increases in necessary requirements. Any expenditure is approved by the Board of Directors and the funds are transferred to the correct appropriation to cover the costs.
- 6113 *Open Enrollment Contingency*
Amounts budgeted for staffing and other costs associated with expected increases in enrollment under the District's open enrollment policy.
- 6114 *Board Priorities Reserve*
Amounts budgeted to support Board priorities. Expenditures are approved by the Board of Directors and the funds are transferred to the correct appropriation to cover the costs.
- 7000 *Reserves and Fund Balances*
Carry-over to the next year's budget for stability in volatile economic times and cash flow until other resources are received. It cannot be accessed by resolution or supplemental budget during the fiscal year in which it is budgeted. It is described under Board policy.

Glossary

A

ACCOUNTING SYSTEM

The total structure of records and procedures which discover, record, classify, summarize, and report information on the financial position and results of operations of a government of any of its funds, fund types, balanced account groups, or organizational components.

ACCRUAL BASIS

The basis of accounting under which transactions are recognized when they occur regardless of the timing of related cash flows.

ACTIVITY

A specific and distinguished line of work performed by one or more organizational components of a government for the purpose of accomplishing a function for which the government is responsible. For example, food inspection is an activity performed in the discharge of the health function.

ACHIEVEMENT GAP

A persistent and significant disparity in educational achievement and attainment among groups of students as determined by a standardized measure.

ADEQUATE YEARLY PROGRESS (AYP)

The minimum level of improvement that school districts and schools must achieve each year as determined under the *No Child Left Behind Act*.

ADM

Average daily membership is a student count used for state funding purposes. It is calculated as the total days' membership during a specific reporting period, divided by the number of days school was in session during that reporting period.

ADM_r

Resident average daily membership of the students who live within District boundaries, with kindergarten students included as half students.

ADM_w

Average daily membership of daily student enrollment increased by a variety of weighting factors. For example, each student qualifying for special education services is given one additional weight and counted as 2.0 full-time equivalents (FTE) for funding purposes.

ADOPTED BUDGET

The financial plan adopted by the school board which forms a basis for expenditure appropriations.

AMERICAN RECOVERY AND REINVESTMENT ACT OF 2009 (ARRA)

Federal economic stimulus funding distributed on a one-time basis to states, local educational agencies and other entities to avoid layoffs, create and save jobs and improve student achievement. Three major components are the State Fiscal Stabilization Fund; Title I, Part A, of the Elementary and Secondary Education Act, and the Individuals with Disabilities Education Act (IDEA), Part B.

APPROPRIATION

A legal authorization to make expenditures and incur obligations for specific purposes. Total appropriations include the adopted budget and any supplemental budget(s). The legal appropriation is the amount authorized by the Board.

ASSESSED VALUE (AV)

The portion of value of real or personal property that is taxable; the lesser of the property's real market value or the constitutional value limit. The value limit may increase 3% annually unless qualifying improvements or changes are made to the property. See "Measure 50."

ASSESSMENT

A method to measure what students are learning (i.e., testing).

ASSETS

Resources, owned or held by a government, which have monetary value.

ADVANCEMENT VIA INDIVIDUAL DETERMINATION (AVID)

A college readiness system for elementary through higher education that is designed to increase school-wide learning and performance.

B

BALANCED BUDGET

Projected resources equal projected requirements within each fund.

BEGINNING FUND BALANCE

Funds carried forward from the current fiscal year into the next budgeted fiscal year that become a resource to support the appropriations for the next budgeted fiscal year.

BOND or BOND ISSUE

A certificate of debt guaranteeing payment of the original investment plus interest on specific dates. Bonds are typically used by governments to pay for large public projects like new schools.

BUDGET

A plan of financial operation embodying an estimate of proposed means of financing them for a single fiscal year. A proposed budget is presented to the budget committee for approval. An approved budget is subsequently adopted as approved or modified by the School Board.

BUDGET COMMITTEE

Fiscal planning board of a local government or district, consisting of the governing body (school board) plus an equal number of legal voters from the district, who are appointed by the governing body (*Oregon Revised Statutes, 294.336*).

BUDGET DOCUMENT

The instrument used by the budget-making authority to present a comprehensive financial plan to the School Board, which is the appropriating body. The budget document contains a message from the Superintendent, together with a summary of the proposed expenditures, means of financing them, and the schedules supporting the summary. These schedules show in detail the information as to past years' actual revenues, expenditures, and other data used in making the estimates.

BUDGETARY CONTROL

The management of the district, in accordance with an approved budget, for the purpose of keeping expenditures within the limitations of available appropriations and available revenues.

C

CAPITAL BUDGET

A plan of proposed capital projects for the coming year and the means for financing them.

CAPITAL OUTLAY

Expenditures that result in the acquisition of or addition to fixed assets.

CASH BASIS

The basis of accounting under which transactions are recognized only when cash changes hands.

CITY LEVY

A four-year local option tax levy approved by residents of the City of Eugene for youth cultural and recreational services. The levy expired in 2006-07. Ninety-three percent of the levy was distributed to the two school districts within the City limits (Eugene and Bethel). The distribution was based on assessed value, that is, the portion of city assessed value within each district. Services funded from the levy included elementary music and P.E., counselors, nurses and media specialists at all levels, secondary athletics and activities, and the custodial and maintenance services that support these activities. The General Fund has absorbed the cost of those services beginning in 2007–08.

CLASSIFIED EMPLOYEES

Support staff, including instructional assistants, clerical staff, bus drivers, custodians, maintenance and food service staff.

CONTINGENCY

An amount budgeted each year for unforeseen expenditures. Board policy recommends a General Fund operating contingency of 2% of expenditures. Transfer of general operating contingency funds to cover unanticipated expenditures requires Board approval.

CURRENT RESOURCES

Resources available to meet current obligations and expenditures. Examples are current assets, estimated revenues of a particular period not yet realized, transfers from other funds authorized but not received, and in the case of certain funds, bonds authorized and un-issued.

D

DEBT SERVICE

The amount of money needed to make periodic payments on the principal and interest on an outstanding debt. Debt service is usually expressed as an annual amount.

DEFICIT

The excess of the liabilities of a fund over its assets. Oregon school districts may not carry deficits in any fund.

E

EARLY COLLEGE AND CAREER OPTIONS (ECCO)

A comprehensive 4J high school offering a state-accredited diploma. Class sizes are small and credit is accelerated, helping students who have dropped out or who have not experienced success in traditional programs. ECCO offers opportunities for independent study and nontraditional methods for completing graduation requirements.

EDUCATION STABILITY FUND

Established in 2002 by constitutional amendment and funded with 15% of lottery earnings. Has similar triggers to access as Rainy Day Fund but no two thirds cap on withdrawals. Limited to 5% of state General Fund revenues collected in the prior biennium. Tapped for K-12 support in 2001-03, 2003-05, 2007-09 and 2011-13.

ELEMENTARY AND SECONDARY EDUCATION ACT (ESEA)

Federal statute originated in 1965 and currently authorized under the No Child Left Behind Act. Represents the largest source of federal support for K-12 education and focuses resources on the neediest students and schools. Includes Title 1 funding for economically disadvantaged students at risk of falling behind.

ESSENTIAL BUDGET LEVEL (EBL)

Amount calculated by the Legislative Revenue Office prior to each biennial legislative session to project the state budget level required to continue current service levels.

EUGENE EDUCATION ASSOCIATION (EEA)

An employee group representing licensed employees.

EUGENE EDUCATION OPTIONS (EEO)

A consolidation and enhancement of existing alternative education services offered to traditional and non-traditional school populations such as at-risk students in Options High Schools, students attending Early College & Career Options, traditional and non-traditional students accessing online instruction, and other student populations who need personalized programs and services.

ENDING FUND BALANCE

The difference between a fund's resources and requirements at year end.

EQUALIZATION

A method for allocating local and state funds for schools adopted by the 1991 Oregon Legislature and modified slightly since then. The purpose of equalization is to ensure that students in all of Oregon's districts are treated more or less equally in terms of how state and local resources are allocated. Equalization is implemented through the State School Fund formula which allocates local and state funds on a weighted per student basis.

ELL

The English Language Learner program provides educational support to students who do not meet a minimal English language proficiency standard.

EXPENDITURES

Decreases in net financial resources. Expenditures include current operating expenses which require the current or future use of net current assets, debt service, and capital outlays.

F

FEDERAL ECONOMIC STIMULUS

Temporary funding from the federal government for 2008-09, 2009-10, 2010-11, 2011-12, and 2012-13 to support economic recovery nationwide. Also known as the American Recovery and Reinvestment Act of 2009 (ARRA).

FREE APPLICATION FOR FEDERAL STUDENT AID (FAFSA)

Form which must be completed by all students interested in financial aid for college.

FISCAL YEAR

A 12-month period that determines the time frame for financial reporting, budgeting and accounting. For District 4J, the fiscal year is July 1 through June 30.

FIXED ASSETS

Asset of a long term character which are intended to continue to be held or used, such as land, buildings, improvements other than buildings, machinery, and equipment.

FIXED COST

A cost such as rent that does not change with increases or decreases in the amount of services provided.

FTE

Full-time equivalent staff. One FTE is defined as a regular position scheduled to work eight hours per day.

FUNCTION

Expenditure classification identifying the activity or principal purpose for which an expenditure is made.

FUND

A fiscal and accounting entity with a self-balancing set of accounts recording cash and other financial resources together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations.

FUND STRUCTURE

The District budgets its resources in eight funds—four major governmental funds, two non-major governmental funds, and two proprietary—or internal service—funds. The funds are:

Major Governmental Funds

- General
- Federal, State and Local Programs
- Capital Projects
- Debt Service

Non-major Governmental Funds

- Nutrition Services
- School Resources

Proprietary (Internal Service)

- Insurance Reserve
- Postemployment Benefits

G

GENERAL FUND

The fund used to account for District operations except those required to be accounted for in another fund.

GENERAL OBLIGATION (G.O.) BOND

A bond that is secured by the pledge of a government's "full faith and credit." General obligation bonds issued by a jurisdiction are secured by the jurisdiction's ad valorem taxing power which is typically not subject to a constitutional limitation on the tax rate.

H

HEALTHY, HUNGER-FREE KIDS ACT OF 2010 (HHFKA)

Legislation which authorizes funding and sets policy for the United States Department of Agriculture's (USDA) core child nutrition programs (National School Lunch Program, School Breakfast Program, Special Supplemental Nutrition Program for Women, Infants, and Children, the Summer Food Service Program, and the Child and Adult Care Food Program).

HIGH COST DISABILITY GRANT

State School Fund allocation to reimburse school districts for expenditures above \$30,000 per student for high cost special education students.

I

IDEA

The Individuals with Disabilities Education Act is federal legislation which requires local districts to provide free and appropriate education in the least restrictive environment to students with disabilities. Allocations for 2009-10 and 2010-11 are increased with federal funding under the American Recovery and Reinvestment Act of 2009 (ARRA).

IEP (INDIVIDUALIZED EDUCATION PROGRAM)

A written statement of an educational program for a student receiving special education services. An IEP is required for each student receiving such services.

INDIRECT COST

A cost necessary for the functioning of the organization as a whole, but which cannot be directly assigned to one service.

INTERNAL SERVICE FUND

A fund used to account for the financing of goods or services provided by one department or agency to other departments or agencies of a government, or to other governments, on a cost-reimbursement basis.

K

KRVM

District 4J's radio station which provides career education in communications media and broadcasts school district activities.

L**LIABILITIES**

Debt or other legal obligations arising out of transactions in the past which must be liquidated, renewed, or refunded at some future date. This term does not include encumbrances.

LICENSED EMPLOYEES

Includes teachers, counselors, media specialists, psychologists, social workers, nurses, athletic trainers, and occupational, speech, and physical therapists.

LOCAL OPTION

A tax levy approved by the 1999 Legislature to allow school districts to raise additional funds for operations or capital needs. Funds are excluded from the State School Fund formula.

M**MEASURE 5**

Property tax limitation passed by Oregon's voters in November 1990, limiting local property taxes for schools to \$5 per \$1,000 of assessed value.

MEASURE 47

Property tax limit passed by Oregon voters in November 1996, rolling taxes back to 1995–96 levels less 10% and capping future increases by 3% annually.

MEASURE 50

Initiative referred by legislature and approved by voters to clarify and implement Measure 47. Measure 50 set the assessed value for each property and limited future annual growth to 3%, with exceptions. Under Measure 50, assessed value cannot exceed real market value. Prior to Measure 50, property was assessed at real market value. Also imposed "double majority" requirement of 50% voter turnout and majority affirmative vote at all elections except November general elections (even-numbered years). ("Double majority" requirement overturned by Measure 56 in 2009. See below.)

MEASURE 56

State ballot measure referred by the Legislature to remove the "double majority" requirement for approval of local property tax measures from all May and November elections. Approved by voters in November 2008.

MEASURES 66 and 67

Citizen tax referenda for voters to affirm two tax increases approved by the 2009 legislature. Measure 66 increased personal income tax rates for high-income individuals, and Measure 67 increased corporate taxes by raising the \$10 corporate minimum tax to \$150, raising the corporate profits tax, and increasing certain business filing fees. Approved January 2010.

MODIFIED ACCRUAL BASIS

Basis of accounting used for all governmental funds. Revenues are recognized when they become both "measurable" and "available to finance expenditures of the current period." Expenditures are recognized when the related fund liability is incurred.

N

NO CHILD LEFT BEHIND ACT (NCLB)

The most recent authorization of the Elementary and Secondary Education Act (ESEA), the principal federal law affecting K–12 education. A number of federal entitlement programs (Title I–V) have been grouped together under this program name.

O

OREGON ASSESSMENT OF KNOWLEDGE AND SKILLS (OAKS)

State assessment testing of student achievement in the areas of reading, math, writing and science for students in grades 3 through 12.

OSEA

Oregon School Employees Association, the employee group representing classified staff.

OBJECT

As used in expenditure classification, this term applies to the article purchased or the service obtained (as distinguished from the results obtained from expenditures). Examples are salaries, employee benefits, personal services, materials, and supplies.

OPERATING BUDGET

Plans of current expenditures and the proposed means of financing them. The annual operating budget is the primary means by which most of the financing acquisition, spending, and service delivery activities of a government are controlled. The use of an annual operating budget is required by state law.

OREGON EDUCATIONAL ACT FOR THE 21ST CENTURY

A sweeping school improvement effort initiated in 1991, calling for increased academic standards, student achievement and accountability through benchmark testing and public/parent involvement and reporting of progress.

OREGON PUBLIC EMPLOYEES RETIREMENT FUND (OPERF)

A cost sharing multiple-employer defined benefit pension plan administered by the Oregon Public Employees Retirement System; this plan is for qualifying employees who were hired before August 29, 2003. Members in this plan are either Tier One (hired on or before December 31, 1995) or Tier Two (hired on or after January 1, 1996 and before August 29, 2003).

OREGON PUBLIC SERVICE RETIREMENT PLAN (OPSRP)

A hybrid successor plan to the OPERF; OPSRP consists of two programs. The Pension Program is the defined benefit portion of the plan and applies to qualifying employees hired after August 29, 2003. Beginning January 1, 2004, all PERS member contributions go into the Individual Account Program (IAP), the defined contribution portion of the plan. PERS members retain their existing PERS accounts, but any future member contributions are deposited into the member's IAP.

P

PAYROLL COSTS

Amounts paid by the District on behalf of employees, in addition to gross salary. Examples are group health insurance; contributions to public employees retirement system (PERS); social security (FICA); workers' compensation; and unemployment insurance.

PUBLIC EMPLOYEES RETIREMENT SYSTEM (PERS)

System that administers public employee benefits in Oregon. The District contributes to two pension plans administered by PERS: the Oregon Public Employees Retirement Fund (OPERF) and the Oregon Public Service Retirement Plan (OPSRP).

Q

QUALITY EDUCATION MODEL (QEM)

A model, developed by the legislative Council on the Quality Education Model and refined by the Oregon Quality Education Commission, specifies what constitutes adequate funding and services for elementary, middle and high school students.

R

RAINY DAY FUND

Established by the 2007 legislature and built by moving funds from the state ending fund balance at the end of each biennium. Withdrawals require one of three conditions to be met plus three fifths vote of legislature. Conditions are decline in employment, projected budgetary shortfall, and declaration of state of emergency. Withdrawals are limited to two thirds of balance at beginning of biennium.

REAL MARKET VALUE (RMV)

Defined under Measure 50 to be the amount of cash that could reasonably be expected to be paid by an informed buyer to an informed seller as of the assessment date for the tax year.

REQUIREMENT

An expenditure or net decrease to a fund's resources.

RESERVE FUND

Established to accumulate money from one fiscal year to another for a specific purpose.

RESOURCES

Estimated beginning fund balances on hand at the beginning of the fiscal year, plus all anticipated revenues.

REVENUES

Monies received or anticipated by a local government from either tax or non-tax sources.

S

SCHOOL YEAR SUBACCOUNT

Funds allocated in 2011-12 to K-12 school districts by the State Legislature for the purpose of reducing class size and enhancing student learning opportunities in such ways as increasing the number of school days.

SEQUESTER / SEQUESTRATION

Across-the-board budget reductions in specific categories of federal spending resulting from a policy of fiscal austerity. Funding cuts are expected to negatively impact District grants and subsidies beginning in the 2013-14 fiscal year.

SHAPING 4J'S FUTURE

A strategic planning process initiated by the District in 2006. This process focused on several questions about how and where the District would provide instructional programs to best serve students in light of declining enrollment and changing student demographics and needs.

STAFFING RATIO

The licensed staffing ratio is the ratio of students to licensed staff. Class size is higher than the staffing ratio because counselors and specialists in areas such as Music, Media, P.E., are funded through the staffing ratio.

STATE FISCAL STABILIZATION FUND (SFSF)

A fund established through the federal American Recovery and Reinvestment Act of 2009, to be distributed to school districts by state agencies for spending in 2008-09, 2009-10 and 2010-11. \$160 million used by the 2009 legislature to partially offset a reduction in state general fund revenue in the 2009-11 biennium.

STATE SCHOOL FUND

A long-standing state fund within the budget of the Oregon Department of Education which holds the major appropriation of state support for public schools. Annual grants are distributed to school districts on a per-student basis in eleven payments per year, according to a legislatively adopted formula. This formula incorporates monies held in the State School Fund plus local property taxes and other local revenues such as Federal Forest Fees, Common School Funds and County School Funds. The formula determines approximately 87% of the District's General Fund revenues.

STEM

Science, Technology, Engineering, and Mathematics curriculum.

SUPPLEMENTAL BUDGET

Prepared to meet unexpected needs or to spend revenues not anticipated at the time the regular budget was adopted. A supplemental budget cannot be used to increase a tax levy.

SUSTAINABLE BUDGET

To address the Board goal of providing prudent stewardship of District resources to best support student success, educational equity and choice, in 2010-11 the District embarked on a seven month sustainable budget development process that included public input and stakeholder feedback. The Board's revised goal is for the District to implement a sustainable budget by 2014-15 which maintains reserves at or above Board targets, minimizes the use of one-time funds for ongoing expenses, optimizes the use of short-term resources to improve student achievement, and increases operational efficiency while reducing long-term capital needs.

T

TAG

The Talented and Gifted (TAG) State legislation requires local districts to provide programs and services to academically talented and cognitively gifted students at their assessed level and rate of learning.

TITLE I

Title 1 of the Elementary and Secondary Education Act is federal funding aimed at students who are behind academically or at risk of falling behind. Funding provides assistance to students who are economically disadvantaged.

TOSA

Teacher on special assignment, usually performing project work such as curriculum development or program coordination.

TRANSFERS

Amounts distributed from one fund to finance activities in another fund. Shown as an expenditure in the originating fund and revenue in the receiving fund.

TRANSITION EDUCATION NETWORK (TEN)

A creative 21st century program that provides appropriate instruction and opportunities to students with developmental disabilities, ages 14–21. The program maximizes students' potential in educational, social, vocational, recreational and residential areas.

TSPC

The Teacher Standards and Practices Commission is an organization separate from the Oregon Department of Education which provides licenses to teachers and administrators.

U

UNAPPROPRIATED ENDING FUND BALANCE (UEFB)

Amount budgeted to carry over to the next year's budget to provide the District with needed cash flow until other money is received and to provide financial stability. This amount cannot be transferred by resolution or used through a supplemental budget during the fiscal year.

W

WORKING CAPITAL

Financial term for the liquidity of an organization's financial condition. Sometimes refers to beginning or ending fund balances.
