

Photovoltaic Array Installation at Buena Vista Elementary
Eugene Public School District 4J
Eugene, Oregon

RFP Number 17-457

ADDENDUM NUMBER TWO

June 13, 2017

This addendum is issued to clarify, change, and correct the Request For Proposal Documents and shall form a part of the Contract. Acknowledge receipt of this Addendum in the space provided on the Signature Page. Failure to do so may subject the Bidder to disqualification.

The due date for the proposal has been delayed while we seek to find a structural engineer to review a different location for the installation.

A copy of the plan showing the latest desired location is posted with this addenda. (See below)

Proposers may propose alternate locations to get better performance from the array, but it must be in the same general area as shown as the desired location. (I.e., move west a little, or move north a little.)

The District prefers not to have to trim trees on a regular basis.

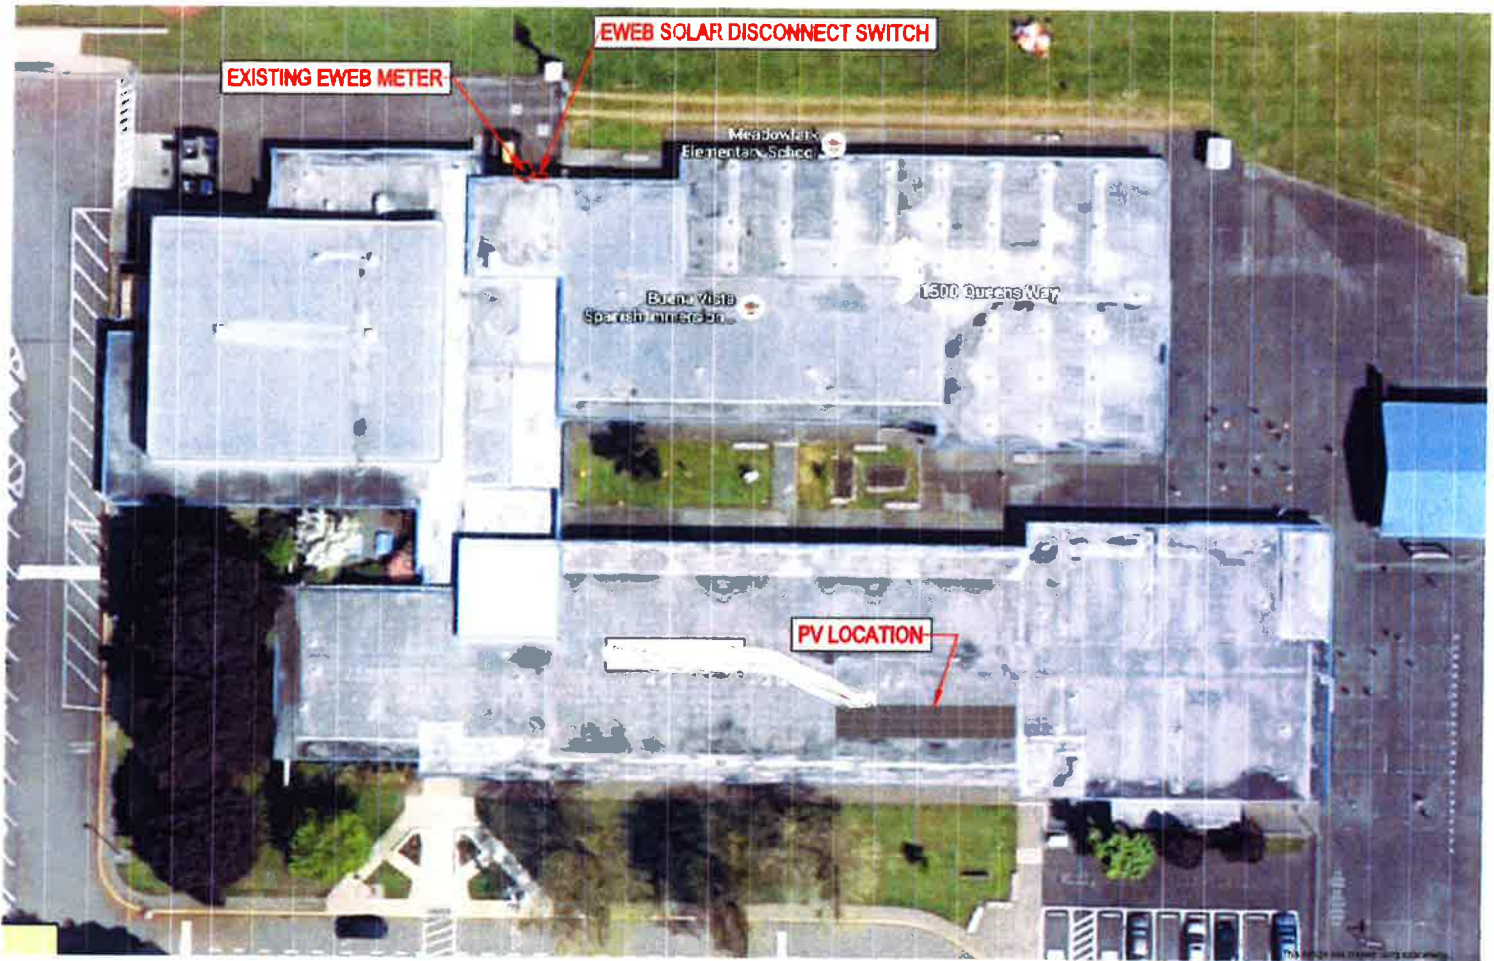

Proposers are advised that there plans of the Buena Vista building available at the following address:

4J Facilities Management
715 W. 4th Avenue
Eugene, OR 97402
