Executive Summary

Introduction

Welcome!

Bienvenidos! Para asistencia en español por favor llame al número (541) 790-7707.

The following document contains the 2018-19 budget of Lane County School District 4J (Eugene School District 4J), which was prepared in accordance with all laws and legal requirements of the State of Oregon, the Federal Government, and the District's mission, guiding beliefs and values, and goals as approved by the Board. This budget is designed to support instructional programs that will provide students with a high quality education within the resources available. It serves as a document that describes the goals of the District and how those goals are being met.

The budget document shows the District's funding structure, the resources available to the District in each fund, and each fund's requirements and appropriations. It also serves as a guide to operations throughout the coming fiscal year.

This document is available for public inspection online at www.4j.lane.edu/finance or through the Superintendent's Office, 200 North Monroe St., Eugene OR 97402. Comments or suggestions should be addressed to the Eugene School District Board of Directors, Eugene School District 4J, 200 North Monroe St., Eugene OR 97402.

All Budget Committee meetings are open to the public. Community members are invited to speak in favor of or in opposition to the budget or requested revisions. The budget process and calendar are described in the Building the Budget section.

Document Format

The budget document is organized into eight major sections, as described below:

- Executive Summary
- About Our District
- Planning for the Future
- Building the Budget
- Financial Plan
- Program Budget Detail
- Financial Forecast
- Appendices

The **Executive Summary** contains the Superintendent's budget message and a summary of the 2018-19 budget.

The **About Our District** section details information on the District's organization and administration, a history of local support, and academic performance indicators.

Planning for the Future addresses the Board of Director's guiding beliefs and values, Board goals and the District's current strategic planning initiative 4J Vision 20/20.

Executive Summary

Building the Budget has been designed to help readers better understand the process of developing the District’s budget. It provides greater insight into areas such as school staffing and resources, and details the legal requirements of budget development.

The **Financial Plan** summarizes how the District is allocating its resources to best meet its challenges and achieve its goals. The financial plan section of the budget document addresses revenues, expenditures, reserves, debt and capital and is organized by fund.

The **Program Budget Detail** presents the budget at the fund, function (type of activity), and object (revenue/expenditure account) level as required by Oregon Local Budget Law.

The **Financial Forecast** section considers the long-range sustainability of the District’s financial trajectory and looks out four years beyond the current year. It contains the 5-year Forecast, which addresses enrollment and financial projections as well as an analysis of risk to future periods.

The final section, **Appendices**, contains additional staffing information, listings and descriptions of all functions presented in the budget, and a glossary of terminology and list of acronyms used throughout the document.

Executive Summary

Superintendent's Budget Message

June 2018

Budget Committee Members and the Eugene 4J Community,

I am pleased to present the adopted budget for the 2018-19 fiscal year. This budget reflects the vision and goals of the District's strategic plan (4J Vision 20/20) while recognizing the operational challenges currently facing the district. The budget was prepared consistent with the vision and goals of 4J Vision 20/20 as follows:

Vision: Every student connected to community and empowered to succeed.

Goal I: Educational Excellence with Equitable Access and Outcomes for Every Student

Goal II: Multiple Pathways to Student Success

Goal III: Communication and Connection with Community

Goal IV: Diverse World-Class Workforce

Goal V: Stable, Sustainable Stewardship

Statewide, Oregon school districts continue to face difficult operational challenges. Funding for K-12 operations at the state level is growing, but this growth is not sufficient to address the increasing cost of delivering services to Oregon's diverse student population. The recently passed federal education budget may provide additional funding for some programs in 2018-19, but is unlikely to restore federal grant revenues to pre-recession levels or provide sufficient funding to meet the needs of our most vulnerable students. Given these challenges and the need to provide "stable, sustainable stewardship" for District operations in the coming years, the Eugene 4J School Board has set aside reserves from one-time funding sources. These reserves will be used to maintain current operating levels, such as a full academic year in 2018-19 for the third year in a row, and support strategic investments in key areas such as high school graduation and behavioral supports.

The adopted budget totals \$213.8 million General Fund and \$389.2 million Total Funds with tax rates of \$4.75 for general purpose property taxes, a maximum of \$1.50 for local option levy taxes and \$23.4 million for debt service. This represents a 5.4% increase in General Funds and 0.01% decrease for Total Funds.

With nearly 85% of the General Fund budget dedicated to personnel services, the budget is significantly influenced by the cost of labor agreements and Public Employees Retirement System (PERS) contribution rates. The 2018-19 adopted budget reflects the current Eugene Education Association (EEA) agreement and an approved Cost of Living Adjustment (COLA) for unrepresented staff, but does not include an estimate for any potential economic or benefit changes that may result from the District's current negotiations with Oregon School Employees Association (OSEA). The PERS contribution rate is established every other year, and for 2018-19 is expected to remain relatively unchanged from the 2017-18 rate.

Executive Summary

The following table highlights additional investments and budgetary changes from the 2017-18 Adopted Budget to the 2018-19 adopted budget:

Goal	Objective	Strategy	2018-19
Educational Excellence with Equitable Access	<i>Support student learning with rigorous, relevant, consistent curriculum and clear expectations for teaching and learning</i>	Provide implementation materials and licensed staffing support for elementary math and world language curriculum adoptions	\$341,000 0.5 FTE
	<i>Provide instructional supports and systems to meet the needs of all students</i>	Add physical education teachers to support an additional 30 minutes per week of elementary teacher preparation time (per EEA contract)	\$823,000 7.8 FTE
		Continue counseling support at elementary schools to provide a full-time counselor for most schools	\$422,000 4.0 FTE
		Continue Educational Assistants (EAs) for Project Pass, which provides behavioral supports and special education services to students	\$167,000 3.0 FTE
		Provide behavioral supports for schools and classrooms and reduce specialist caseload: <ul style="list-style-type: none"> • Behavioral EAs 7.3 FTE • Cognitive EAs 11.6 FTE • School Psychologist 1.0 FTE • SPED Teacher 0.2 FTE • Health Services Asst 1.0 FTE 	\$1,156,000 1.2 FTE Licensed 19.9 FTE Classified
		Continue licensed and classified support for Comprehensive Learning Centers at Howard and McCornack elementary schools to address attendance growth	\$337,000 1.5 FTE Licensed 3.2 FTE Classified
<i>Support struggling learners with interventions, resources and training</i>	Provide funding for a part-time volunteer coordinator for the District's middle school lunchtime mentoring program	\$14,000	
Multiple Pathways to Student Success	<i>Provide rigorous academic programs in both neighborhood and alternative schools</i>	Provide additional program staffing for Spanish and Japanese immersion programs at Kelly Middle School and North Eugene.	\$69,000 0.65 FTE
		Expand Chinese immersion program to Kindergarten through grade 2	\$105,000 1.0 FTE
	<i>Provide strong and varied career and technical education programs</i>	Continue implementation of programs supported by the High School Graduation and College and Career Readiness ACT (Measure 98-High School Success Grant)	\$3,309,000 13.5 FTE

Executive Summary

Stable, Sustainable Stewardship	Allocate resources in an equitable manner to meet every student's needs	Maintain licensed staff ratios to meet enrollment growth	\$686,000 6.5 FTE
		Continue Staffing Pool at \$1,750,000 to address targeted reductions in class size	\$500,000
	Develop a sustainable budget aligned to district goals, strategies, and objectives	Decrease contingency from 3% to 2.5% to fund behavioral supports and reduction of specialist caseload	(\$1,156,000)
		Maintain General Fund ending fund balance at Board policy level of 5%	\$579,000
	Provide safe, secure, sustainable learning spaces that meet educational needs	Continue funding for a District Safety Officer to oversee safety initiatives and emergency preparedness throughout the District	\$174,000

Initial development work for the 2018-19 adopted budget was based on the District's December 2017 General Fund forecast, which assumed a State School Fund level of \$8.2 Billion split equally between the two years of the 2017-19 biennium. Updates to this forecast were presented to the Budget Committee at the March 19th meeting and have been used in the development of the adopted budget. If additional resources were to become available, I would propose to restore and enhance services consistent with the 4J Vision 20/20 strategic plan in the following areas:

- ✓ Develop a robust behavior framework for schools and classrooms
- ✓ Reduce class size as appropriate through a targeted approach
- ✓ Plan for life-cycle replacements and deferred maintenance and critical assets

I want to thank our staff, students, parents, and community for their on-going support. I also want to thank the Budget Committee for their review and input on the District's budget.

Sincerely,

Dr. Gustavo Balderas
Superintendent

Executive Summary

Summary of the 2018-19 Budget

Economic Climate

The District's General Fund revenue relies heavily on the State School Fund formula, two-thirds of which is appropriated by the Oregon State Legislature; therefore it is important to consider the State's economic picture as a backdrop to the District's annual budget. The March 2018 State Economic and Revenue Forecast, prepared by the Office of Economic Analysis (OEA), provides details on the state's economic status and may be viewed in its entirety at the OEA's website. We recommend the reader refer to the website at: <http://www.oregon.gov/DAS/OEA/pages/index.aspx> for the most recent economic information.

Oregon's economic outlook remains bright and employment growth continues to be more than enough to meet needs in population growth. Wages are rising faster than in the typical state, however in the second half of 2017, employment and measures of economic wages have come in below expectations. Two significant factors currently are affecting Oregon's General Fund revenue outlook. The first is the federal tax cuts and jobs act which will reduce state revenues by more than \$200 million in the current biennium but will boost revenues in future budget periods. The second factor is a potential correction in the equity markets which would draw down revenues due to the state's dependence on personal income taxes. Additionally, due to a quirk in the current tax law, income repatriations from multinational corporations represent a near-term revenue loss in Oregon.

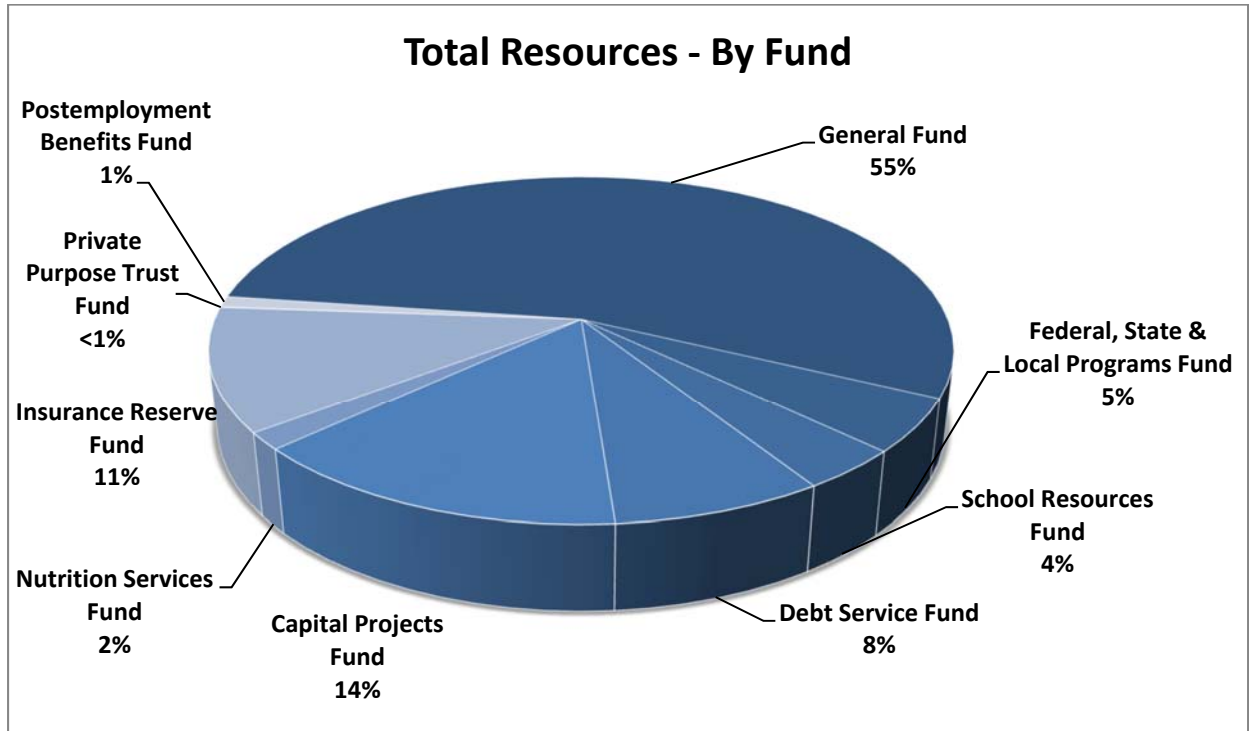

Budget Overview

The driver behind both budgeted revenues and expenditures is projected enrollment. Projected 2018-19 enrollment is 16,447 students (headcount; excluding enrollment in alternative programs and charter schools), which is an increase of 152 students from October 2017 actual enrollment levels. Our revenue projections reflect enrollment changes for all District programs and charter schools.

Executive Summary

Resources

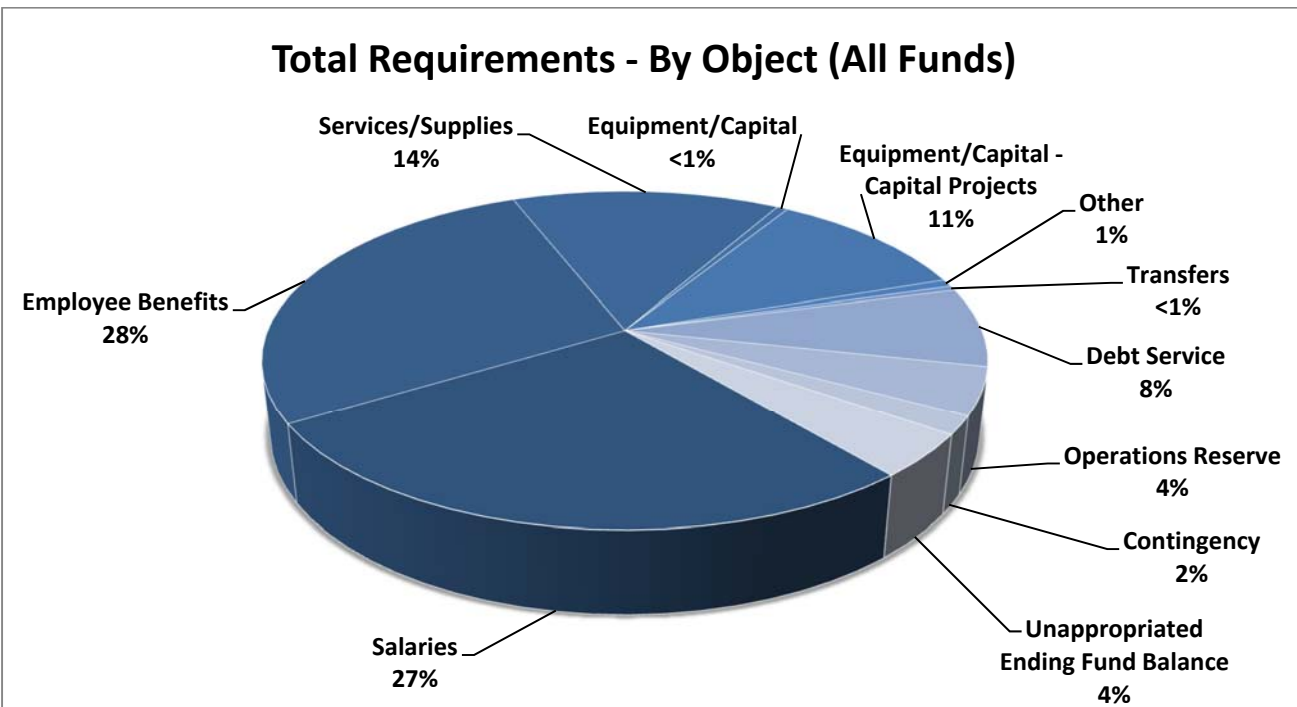

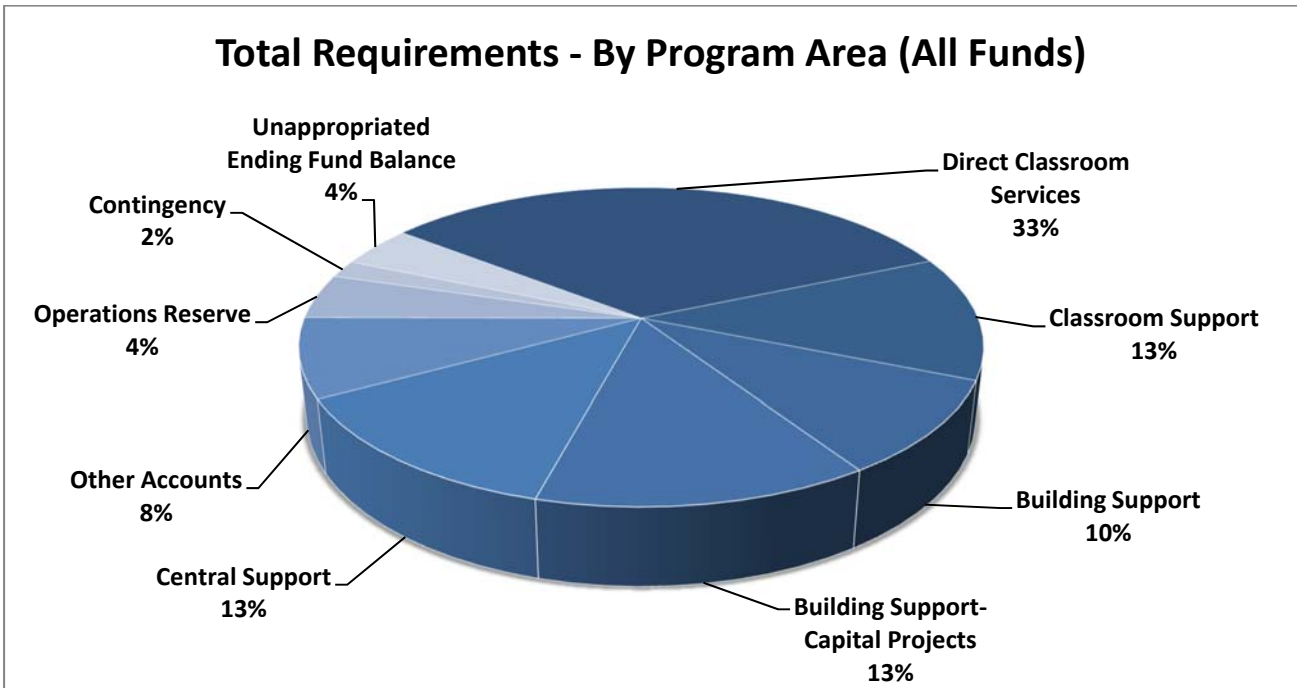

The majority of the District's resources are provided through State School Funding, property taxes, the local option levy, and the issuance of debt. The 2018-19 budget totals \$389.2 million for all funds (see the Financial Plan section for more details).

Executive Summary

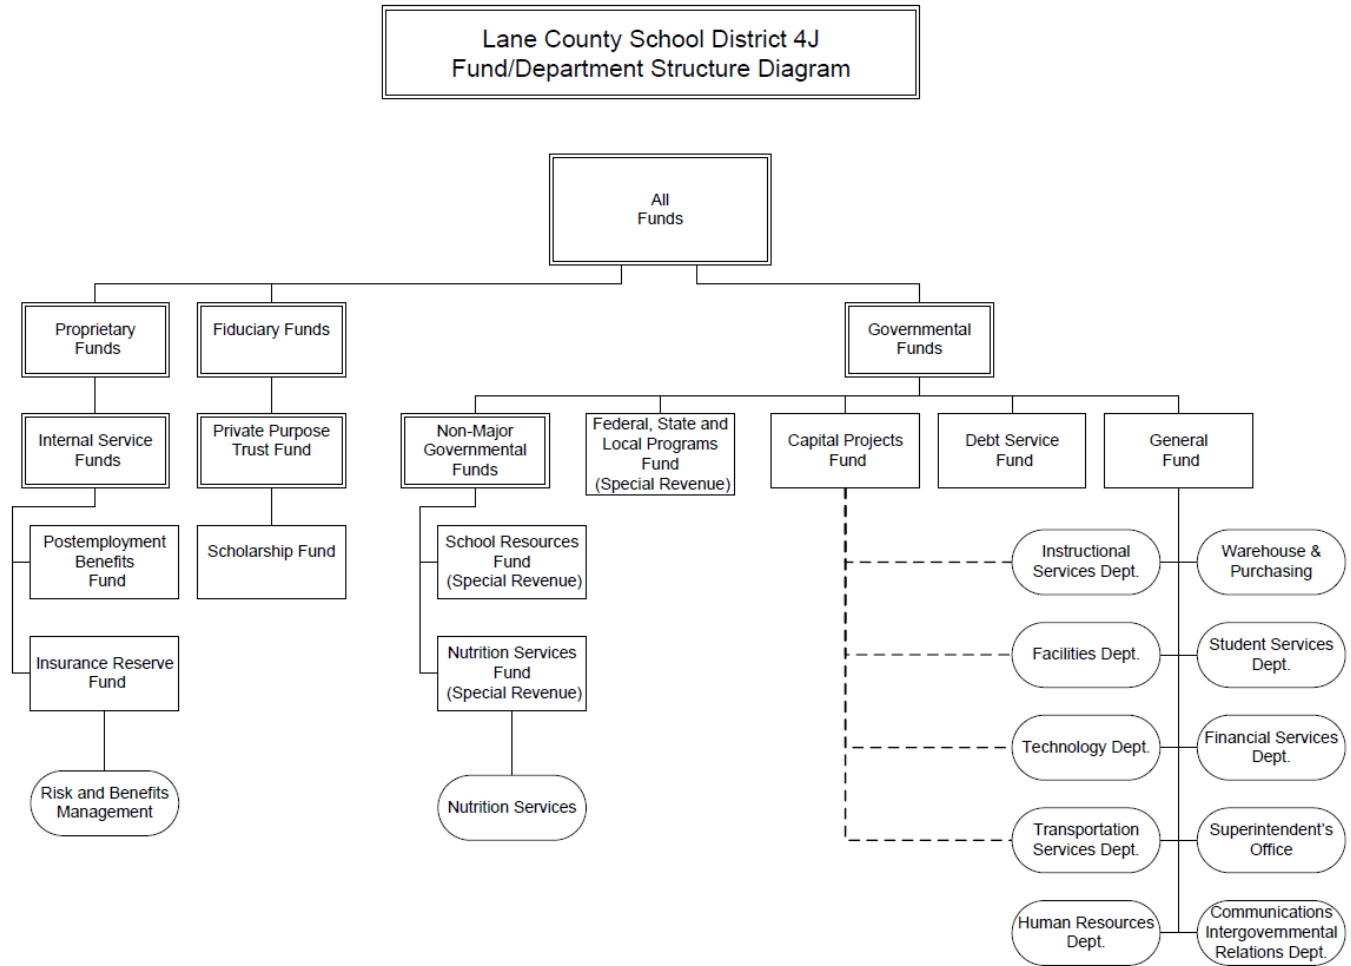

Requirements

Budget requirements for all funds in various program areas include salaries, payroll-related costs such as pension payments and health insurance, supplies and materials, equipment, bond-funded projects, and debt service payments (see the Financial Plan section for more details). Approval of local ballot measures in 2011 and 2013 to issue general obligation bonds has allowed for capital investment and some transfer of capital improvement and building costs out of the General Fund.

Executive Summary

Fund Overviews

General Fund

The General Fund is the District’s major operating fund and accounts for most of the District’s ongoing financial resources which include District revenues, transfers and beginning fund balance. Revenues come from two main sources: state funding and local taxes. All of the state funds and most of the local property taxes are included in the State School Fund formula, which determines about 88.7% of General Fund operating revenue. Additional revenue, outside the funding formula, includes a voter-approved local option tax levy, and flow-through funding for special education from the Lane Education Service District.

General Fund expenditures represent costs incurred to support regular, alternative and special education programs throughout the District. Expenditures are presented in five major program areas: Direct Classroom Services, Classroom Support Services, Building Support Services, Central Support Services, and Other Accounts (Transfers, Short-Term Debt, Contingency, and Unappropriated Ending Fund Balance).

At June 30, 2018, the ending fund balance is projected to be 16.2% of annual operating revenues, and is forecast to end 2018-19 at 5.0% of annual operating revenues with an additional \$17.6 million Operations Reserve dedicated to addressing future operating deficits.

Executive Summary

The graph below shows historical and projected ending fund balances in the General Fund, representing cash reserves remaining at the end of the fiscal year. Balances reflect additional revenues collected during the year, unexpended budget appropriations, and planned savings held in the unappropriated ending fund balance (UEFB).

Board Policy DI, Accounting and Financial Policy 5d through 5f describes the policies regarding minimum ending fund balance. See the “District Policies and Practices” section in Building the Budget for this policy.

School Resources Fund

This fund accounts for the money schools receive from students, private organizations, and parent groups for purposes such as special school projects, field trips, and various student activities. Also included in this fund is the Special Purpose Reserve. Schools and departments that don’t spend their entire General Fund budget in the current fiscal year can carry these savings forward to the next year to pay for additional staffing, special projects, and other expenditures.

Federal, State and Local Programs Fund

This fund accounts for money received for federal, state, local, and private grants. It also includes gifts and grants from the Eugene Education Fund, a local non-profit foundation established to support instructional programs. Educational programs benefit from funding received for disadvantaged and disabled students, drug and alcohol prevention, career and technical programs, professional development of school staff members, and many other special projects.

Debt Service Fund

This fund accounts for the District’s repayment of general obligation bonds and pension obligation bonds. The fund also accounts for the refinancing of outstanding bonded debt. The use of bond proceeds for capital construction is accounted for in the Capital Projects Fund (see Financial Plan).

Executive Summary

Capital Projects Fund

The Capital Projects Fund accounts for resources and expenditures for capital improvements. Primary resources include the issuance of general obligation bonds to fund capital construction and facilities remodels, and the sale of surplus property. The fund also includes capital budgets for the Technology, Facilities, and Transportation Services departments. These appropriations support the replacement of school buses, vehicles, equipment, and other long-lived assets. Primary sources of funding for these appropriations include transfers from the General Fund of unspent department budgets and state reimbursement of certain qualifying transportation costs.

Nutrition Services Fund

This fund accounts for the activities of the District's Nutrition Services program. Services include lunch programs in all schools, breakfast and snack programs in many schools, and summer programs at several locations. Resources reflect federal subsidies from the U.S. Department of Agriculture, which provides partial reimbursement to the District for each meal served; student sales; the value of federal commodities; and reimbursements for meals for low-income students. The goal of the Nutrition Services program is to be financially self-supporting, but currently the program is partially supported by the General Fund.

Insurance Reserve Fund

This fund accounts for the risk management activities and employee benefits programs provided by the District. It covers insurance premium payments, insurance reserves, the Wellness Clinic and efforts to manage the District's exposure to potential loss.

Postemployment Benefits Fund

The Postemployment Benefits Fund was established in 1991–92 as the District Retirement Fund to account for the receipt and disbursement of postemployment benefits. The fund provides monthly cash payments and/or insurance benefits for eligible employees who retire before age 65. Benefit levels and eligibility have been bargained and vary among the different employee groups. This program ended in July 1996 for administrators and July 1998 for teachers. The fund provides benefits for most administrators and teachers hired before those dates, as well as a limited contribution to health premiums for retired classified employees.

Private-Purpose Trust Fund

The Private-Purpose Trust Fund is used to administer privately funded scholarship programs that benefit individual students. The District established this fund in 2017-18 to report scholarship-related balances and activities for scholarships such as the Gillilan-Torrey Memorial Scholarship.

Executive Summary

Risks Impacting the 2018-19 Budget

The objectives of this budget are to preserve the current level of services while focusing on strategic investments, to the extent possible given ongoing resource limitations. Other significant assumptions and risks that affect the budget, in addition to the economy, include the following:

Enrollment – Students (ADMw)

State funding is based on the higher of the current year or prior year enrollment, which is counted as part of the District’s weighted Average Daily Membership (ADMw). The District experienced nearly 20 years of enrollment declines before the current growth in enrollment began in 2015-16. Enrollment for 2018-19 is projected to grow by 147 students, with moderate growth expected in future years. In this environment we face several risks. There is a possibility that actual 2018-19 enrollment levels could be lower than the projection used to calculate the District’s 2018-19 ADMw resulting in a potential decline in state funding. There is also the possibility that statewide enrollment is significantly higher than expected. The amount of state funding does not increase with the number of students in the state, so as the number of students within the state increases each student is “allocated” a smaller amount of available state funding. Under these circumstances, even if enrollment remains on target, the District would see a decline in state funding. As a result, if enrollment were to exceed the current forecast, the District could receive the same level of funding, but would be required to serve more students with little or no increase in available resources.

State School Fund (SSF) Revenue Allocation

The budget has been built using the 2017-19 biennium State School Fund (SSF) appropriation of \$8.2 billion approved by the Oregon Legislature. The Oregon Department of Education (ODE) estimate for the District’s share of this revenue will change throughout the year, and final payments for 2018-19 will not be known until May of 2020.

State Property Tax Collections

The budget has been built based on projected assessed and real market values for property within district boundaries and estimated tax collection rates. For local property tax calculations, the District’s budget assumes 3.0% assessed property value growth per year and a tax collection rate of 94.5% of amounts due. The local factors are based on our review of historic trends. Any significant variance in actual property tax collections in the district and across the state will have an impact on the District.

Local Option Levy Revenue

Since 2000, the District has benefited from local funding through a local option levy. This was first approved by local voters in 2000 and renewed in 2004, 2008, and 2014. The current measure is effective until and including the October 2019 tax notices. For 2018-19, the budget assumes that assessed property values will increase by 2%, and the gap between those values and real market values will continue to grow. Compression losses from the application of Measure 5 educational tax limitations are also expected to continue to shrink. Changes in collection rates may also affect receipts. Should actual collections vary from our assumptions the budget will be affected – this may be a positive or negative variance.

Executive Summary

Education Service District (ESD) Services and Funding

Local ESD's receive state funding based on the enrollment numbers of member districts. ESD use of these funds – flow through to districts and provision of services – is determined by vote of local member districts. A portion of state funding related to the District's enrollment will flow through Lane ESD to the District. As noted previously, changes in enrollment and state funding may impact this revenue stream.

Teacher Experience

A portion of the SSF allocation is adjusted for each year the District average teacher experience is more or less than the statewide average teacher experience. Our assumption for the 2018-19 budget is that District average teacher experience will be 0.06 years more than teacher experience at the state level. This level is significantly lower than the previous fiscal year where it stood at 0.36 years more than the state level. A decrease in the District's teacher experience level would negatively impact SSF funding, as the state assumes less experienced teachers are paid a lower salary.

PERS (Public Employees Retirement System)

PERS rates have been rising at a fairly robust pace. The District's blended PERS rate increased by 4.86 percentage points at the beginning of the 2017-19 biennium with an estimated increased cost to the District of over \$4.0 million per year for this period. This rate is projected to increase an additional 6.38 percentage points in the next biennium (from 29.80% of PERS eligible salaries in 2018-19 to 36.18% of eligible salaries in 2019-20). For more information regarding historical PERS rates, see the PERS Rate History table on page 134.

Staffing Costs

The District completed negotiations with the Eugene Educational Association (EEA) with a three year agreement that runs through June 30, 2020. Economic terms and benefits for staff members represented in that agreement as well as a COLA of 1.8% for managers, administrators, professionals and supervisors has been included for 2018-19. The Oregon School Employee Association (OSEA) contract expires on June 30, 2018. The District has begun negotiations with OSEA for the next contract period beginning in 2018-19 and cannot predict the outcome of these negotiations, or their potential impact on District operations at this time.

Nutrition Services

The District's nutrition services program is expected to generate a loss in 2018-19. A transfer from the General Fund to the Nutrition Services Fund in the amount of \$300,000 has been budgeted to fund uncollectable student meal account balances, support meal programs at several locations with a low level of participation, support the free breakfast program at all elementary schools, and provide additional management oversight of the program. This transfer may need to be adjusted if program operation costs exceed District projections or revenues fall short of expected levels.

Bond Measures

In 2011 and 2013 voters approved bond measures of \$70 million and \$170 million, respectively. In addition to funding the construction of four school buildings, bond funds are utilized for school bus purchases, curriculum adoptions, technology implementations at the school and district level, and various facilities projects across the District. When bond funding for these activities concludes, some costs will shift back to the District's General

Executive Summary

Fund. This shift will have a significant impact on operational costs in the years to come, as the District will need to identify resources to support these initiatives or reduce operations in other areas.

Losses

The District is part of an insurance pool and the budget for insurance funds contains a provision for self-insurance. Over the last two years the District has experienced a higher than projected level of loss events, including multiple fires at district facilities and the need to replace a growing number of lost or damaged computers and tablets in schools. If this trend continues or expands, losses will put a strain on risk management reserves and could require increased support from the General Fund.

About Our District

District Organization and Administration

Jurisdiction and Governance

Lane County School District 4J, also known as Eugene School District 4J, is a financially independent, special-purpose municipal corporation exercising financial accountability for all public education within its boundaries.

The District is primarily located in Lane County, with small portions extending north into Linn County. The District's boundaries include portions of the City of Eugene, City of Springfield and City of Coburg. The largest city in the District is the City of Eugene. Formed in 1854, the District encompasses approximately 155 square miles in western Oregon at the southern end of the Willamette Valley, 110 miles south of Portland.

The District is governed by a seven member Board of Directors. Voters residing within District boundaries elect members to four-year overlapping terms. The duties of the Board include setting policy; approving expenditures and contracts; appointing the Superintendent; and hiring, terminating and approving resignations of all certified (licensed) and administrative staff members. The Board also constitutes one-half of the Budget Committee and appoints the seven citizen members. The duties of the Budget Committee are to review, discuss, make additions or deletions, and approve the proposed budget presented by the District's Budget Officer. After completing deliberations, the committee approves the budget, declares tax rates, approves the Debt Service Levy, and submits to the Board for adoption.

The District serves over 16,400 students in 19 elementary schools, eight middle schools, four high schools and two specialized high school programs. In addition, nearly 325 students attend alternative programs, and around 825 students currently attend five charter schools located in the District.

Population

The following table shows the historic population for the City of Eugene, Lane County, and the State of Oregon.

July 1	City of Eugene	Percent Change	Lane County	Percent Change	State of Oregon	Percent Change
2017	167,780	1.14%	370,600	1.27%	4,141,100	1.59%
2016	165,885	1.48	365,940	1.05	4,076,350	1.56
2015	163,460	1.67	362,150	0.93	4,013,845	1.29
2014	160,775	0.75	358,805	0.75	3,962,710	1.11
2013	159,580	0.79	356,125	0.54	3,919,020	0.91
2012	158,335	0.84	354,200	0.30	3,883,735	0.68
2011	157,010	0.46	353,155	0.33	3,857,625	0.53
2010	156,295	1.08	352,010	1.24	3,837,300	0.36
2009	154,620	3.77	347,690	0.52	3,823,465	0.85
2008	149,004	1.81	345,880	1.81	3,791,075	2.73

About Our District

Economic Overview

The economy of Lane County consists of higher education, agriculture, health care, high technology, forest products, recreation, and tourism. The table below shows the top ten taxpayers for tax year 2016-17 for Eugene School District 4J.

Taxpayer Name	Tax Amount
Comcast Corporation	\$ 2,741,464
Valley River Center	2,100,062
Peace Health	1,272,969
McKay Investment Company LLC	1,011,199
CenturyLink	920,746
Chase Village LLC	767,624

Shepard Investment Group LLC	694,798
ACC OP LLC Garden Avenue	685,738
Oregon VA1C LLC	618,254

Source: Lane County Department of Assessment and Taxation

Real market and assessed property value growth was lower than expected in 2016-17, but growth for 2017-18 was robust and reflects the area's expanding market for apartments and single family properties. The table below shows the real market value and assessed value of properties within District boundaries.

Fiscal Year	Total Real Market Value	RMV Growth	Total Assessed Valuation ⁽¹⁾	AV Growth
2017-18	\$27,807,129,480	9.21%	\$14,810,196,621	3.80%
2016-17	25,461,783,833	3.78	14,268,248,108	2.87
2015-16	24,533,642,779	4.27	13,869,559,768	4.72

About Our District

The Oregon Employment Department reported that Oregon’s seasonally adjusted unemployment rate was 4.1% in January 2018, which is the same as the national rate. In contrast, the Eugene-Springfield metropolitan statistical area (MSA) unemployment rate as of December 2017 was 4.2%, 0.1% greater than the State’s rate. Following state trends, the regional economy has shown steady improvement over the past few years. The graph below depicts the seasonally adjusted unemployment rate for the United States, Oregon, and the Eugene Metropolitan Statistical Area.

Local Area Unemployment Statistics

Source: Oregon Employment Department Qualityinfo.org

The availability of student teachers and new graduates to fill open positions supports the District’s instructional operations. There are three private colleges, one public university, and a community college in Lane County. The University of Oregon is a public university offering bachelor’s and master’s degree programs; Lane Community College is a public community college offering associate degrees and technical programs; Northwest Christian University is a private university offering bachelor’s and master’s degree programs; New Hope Christian College and Pioneer Pacific College are private colleges which offer bachelor’s degree programs. The University of Oregon and Northwest Christian University offer teaching programs.

Clerk:

Dr. Gustavo Balderas, Superintendent

District Directors

Superintendent: Dr. Gustavo Balderas

Provides leadership for the District's programs and is ultimately responsible for all areas of the District's operation (School Board policy). The Superintendent provides executive leadership and administrative direction for all departments and services, and is responsible for proposing and implementing long-range plans.

Assistant Superintendent for Instruction: Dr. Charis McGaughy

Oversees all elementary and secondary schools, instruction, student services department, equity, and research and planning for the District. The Assistant Superintendent also serves as a member of the Superintendent's Cabinet responsible for the District's overall oversight, planning and implementation.

Assistant Superintendent for Administrative Services: Cydney Vandercar

Oversees all support services which includes capital projects, facilities, finance, human resources, technology and transportation. The Assistant Superintendent also serves as a member of the Superintendent's Cabinet responsible for the District's overall oversight, planning and implementation.

About Our District

Director of Elementary Education: Brooke Wagner

Oversees the administration of the District's elementary education program, kindergarten through fifth grade.

Director of Secondary Education: Andy Dey

Oversees the administration of the District's middle and high school programs, including the District's alternative high school and programs that connect students to coursework at Lane Community College and at the University of Oregon.

Director of Research and Planning: Oscar Loureiro

Responsible for the leadership and administration of District-wide functions involving educational research, analysis, and reporting.

Director of Student Services Department: Dr. Cheryl Linder

Oversees the District's various Special Education programs tasked with locating, identifying, evaluating and supporting all children with special needs, birth to age 21.

Director of Facilities Management: Ryan Spain

Oversees the safe, reliable transportation of District students and works to create and maintain secure, comfortable and attractive facilities to enhance the learning and working environment for District students and employees.

Director of Technology: Steve Menachemson

Envisions and works to provide a robust technology infrastructure that supports not only current but also emerging and potential technologies throughout the District.

Chief Financial Officer (CFO)/Director of Support Services: Vacant

Responsible for the District's fiscal operations including all aspects of accounting, payroll and budget. The CFO also oversees the activities of Nutrition Services, Purchasing and the Warehouse.

Director of Human Resources: Vacant

Responsible for securing, developing, managing, evaluating and sustaining a top-quality, high-performing staff for the District. The Director also oversees the District's Risk Management program.

About Our District

School Descriptions

Within this section are short descriptions of each District school. More detailed information is available on the District's website at: www.4j.lane.edu/schools. Noted below is a map of the Eugene School District school locations with neighborhood boundaries outlined within each region; Sheldon in green, South in purple, Churchill in blue and North in pink.

Eugene School District 4J: School Locations

About Our District

School enrollment levels drive the District’s funding and are used in calculating licensed and classified staff allocations. The tables included in this section reflect key budgeting information for schools. Projected enrollment for staffing purposes differs from headcount in that special education students are counted at 0.25. This allocation provides a small level of additional resources to support these students and classrooms. Direct support for special education students and classrooms is allocated by the District’s Student Services Department based on the needs of individual classrooms and students, and is not reflected within this section. Other school resources include administrative staff, classified staff and a discretionary budget allocation.

Elementary

The District’s elementary program has fifteen neighborhood schools and five language immersion programs. Each school reflects the uniqueness of its students, staff, and community. The immersion programs reflect particular visions and education philosophies and have emphases such as language and culture immersion.

Adams Elementary

Principal: Kevin Gordon

950 West 22nd Avenue, Eugene, OR 97405

Adams is a thriving neighborhood school that emphasizes academic excellence, sustainability, citizenship and equity. Talented and dedicated staff strive to provide differentiated instruction to challenge and support all students in achieving high levels of academic success, as well as social and emotional learning. Adams benefits from active parent

and community involvement, offering students a variety of experiences including music, art, field trips, and participation in green school initiatives such as gardening, composting, and walking and biking to school.

About Our District

Awbrey Park Elementary

158 Spring Creek Drive, Eugene, OR 97404

Principal: Michael Riplinger

Awbrey Park is a thriving neighborhood school in North Eugene that focuses on the whole child. They value parent involvement and collaboration. Their teachers, counselor, administrator and support staff excel in teamwork and a child centered approach to elementary education. The Awbrey Park academic program focuses on 21st century literacy, math, science and a hands-on, minds-on approach to learning. Awbrey Park is an Advancement via Individual Determination (AVID) school that is preparing students for a successful future. The integration of technology is key to their rigorous and engaging classrooms. Their students know that the staff believe in them and can assist them to make academic and social gains in their progress through school.

About Our District

Camas Ridge Community School

Principal: Wes Flinn

1150 East 29th Avenue, Eugene, OR 97403

Parents, students and staff work together to create a dynamic, child-centered learning community. The morning and first part of the afternoon are focused on the core instruction of language arts and math. Three art blocks are offered during the year which allows partnering with local artists and community resources and includes music, theater, video, fine arts, culinary arts and creative writing/poetry.

About Our District

Chávez Elementary

Principal: Denisa Taylor

1510 West 14th Avenue, Eugene, OR 97402

The academic program focuses on literacy through systematic instruction. Technology is integrated across curricular areas and grade levels, with laptops available for all 3rd, 4th and 5th-grade students. A respectful, caring community with high expectations, the school honors individual successes and believes everyone can learn in an encouraging environment.

Budgeted Teacher Allocation History:

Year	Projected Enrollment for Staffing	Needs Index	Teacher Allocation	School Student: Teacher Ratio ¹		Average Class Size ¹	
2018-19	438.00	56.6	18.00	23.1	24.6	Not available

About Our District

Chinese Immersion Program

1155 Crest Drive, Eugene, OR 97405

Principal: Jennifer Hebard

A new Chinese Language Immersion Program began in the 2017–18 school year with kindergarten and first grade with second grade being added in 2018-19. This program will add one grade per year to provide a rigorous K–12 Mandarin Chinese immersion program from kindergarten through high school. It will enable students to be biliterate in Mandarin Chinese and English, to develop strong cross-cultural understanding and appreciation, to utilize higher-level thinking skills, and to become caring and productive global citizens.

About Our District

Howard Elementary

700 Howard Avenue, Eugene, OR 97404

Principal: Allan Chinn

Howard Elementary School is a technology immersion program where students and teachers integrate technology into everyday learning. Howard offers a rigorous curriculum that challenges students and prepares them with 21st century skills. Howard is a place where the entire school community gathers regularly to support, celebrate and honor the achievements of all our children. With the caring guidance of dedicated staff, students make academic gains while developing persistence and personal responsibility, qualities that are the cornerstone of lifelong learning. Howard is committed to fostering a curiosity for learning and the skills necessary to prepare students academically and socially for the transition to middle school. Rigorous academic explorations coupled with the daily immersion of technology into everyday teaching and learning helps students grow into thinkers and problem solvers of the future.

River Road/El Camino del Río Elementary

120 West Hilliard Lane, Eugene, OR 97404

Principal: Joel Lavin

River Road/El Camino del Río is a comprehensive and inclusive dual immersion program. Dual immersion offers a unique opportunity for native English and Spanish speakers to work together to become bilingual and bi-literate. Staff strive to balance classes with equal numbers of native Spanish and English speakers.

About Our District

Middle

The District's middle school program (grades 6-8) consists of eight middle schools, including four language immersion programs.

Arts and Technology Academy (ATA)

Principal: Larry Williams

1650 West 22nd Avenue, Eugene, OR 97405

Arts & Technology Academy is a Science, Technology, Engineering and Mathematics (STEM) Lab School that integrates the Arts (STEAM). Students participate in scientific inquiry and project-based learning in all content areas using the design process. Teachers integrate reading, writing, mathematics and science curriculum to support problem solving and critical thinking skills learning about real world challenges. Students participate in a wide array of electives that allow them to apply the concepts they are learning in their core classes, from robotics and rockets to "Medical Detectives." This provides students opportunities to explore their own interests, learning styles and core values. Students' experiences result in strong academic growth during their middle school years preparing them for high school success.

Cal Young Middle School

Principal: Chris Mitchell

2555 Gilham Road, Eugene, OR 97408

Cal Young Middle School provides an active, comprehensive instructional program designed to prepare students to succeed in high school and to meet or exceed state standards. In addition to core instructional classes, elective courses pique student interest and meet the developmental needs of middle-level students. Technology is infused throughout the curriculum with many laptop computers and tablets available for student use.

About Our District

Kelly Middle School

Principal: Juan Cuadros

850 Howard Avenue, Eugene, OR 97404

Kelly is committed to fostering lifelong learners who are prepared academically and socially for the transition to high school. Teachers and administrators strive to educate the whole student by extending instruction from the core subject areas into PE, music, writing and second-language learning environments. Small learning communities allow students and teachers to get to know each other well, to build on students' strengths, and to encourage the development of new skills and abilities.

Budgeted Teacher Allocation History:

¹Kelly Middle School receives additional licensed FTE for their Language Immersion program lowering their overall student: teacher ratio.

Kennedy Middle School

Principal: Morgan Christensen

2200 Bailey Hill Road, Eugene, OR 97405

Kennedy's program promotes community outreach and involvement for students, preparing them for a world beyond the school walls. Students become involved in serving others through an active student leadership program and activities such as canned food drives. Specialized programs and activities that develop students' unique talents and interests are available through the music program, yearbook publication, robotics club, drama club, weight lifting club, charity club, leadership program, track & field and the Martin Luther King Assembly. Recognition for student achievement and success occurs through the PRIDE Program, Knights of Honor and multicultural awards.

Monroe Middle School

2800 Bailey Lane, Eugene, OR 97401

Principal: Mike Johnson

Monroe Middle School is a professional learning community where academic achievement and success is valued by staff, students and parents. Monroe has a strong parent network that supports instruction and promotes a positive school climate. Monroe staff recognizes the unique needs of early adolescent students, and design developmentally appropriate education aligned to the state standards and articulated to high school, college and career readiness.

About Our District

Roosevelt Middle School

Principal: Eric Anderson

500 East 24th Avenue, Eugene, OR 97405

Roosevelt balances scholastic excellence with a choice of electives and social and emotional growth. The CORE (Creating Our Roosevelt Environment) program trains 8th grade leaders to orient all 6th grade students to Roosevelt. The House program emphasizes growth in the whole child. The advisory program offers student support for social and emotional growth as well as improvement of academic

practices while the comprehensive counseling and special education services offer a wide range of support to all students.

About Our District

High

The District’s high school program (grades 9-12) consists of four regional high schools and one alternative education option school (Early College and Career Options – ECCO).

An international high school program offers classes on three high school campuses (Churchill, Sheldon, and South Eugene) and is accredited by the International Baccalaureate program. This program is a four-year interdisciplinary curriculum focused on the study of nations, their cultures, history, artistic expression, and political, economic and belief systems.

Churchill High School

Principal: Greg Borgerding

1850 Bailey Hill Road, Eugene, OR 97405

Churchill is a caring academic community where teachers, students, parents and colleagues work collaboratively and where decision-making focuses on doing what’s best for students first and foremost. The spirit of the school is a belief that high school education should be academically rigorous and attentive to the needs of the community, because intellectual and personal growth go hand in hand. Churchill is one of three campuses that host the Eugene International High School (IHS) program.

About Our District

North Eugene High School

200 Silver Lane, Eugene, OR 97404

Principal: Iton Udosenata

North Eugene High School has a long and proud tradition in the River Road and Santa Clara communities. An outstanding and deeply caring teaching, counseling, classified and administrative staff believe in the potential of every student and have created a dynamic and expansive program designed to address students' post-secondary goals. North Eugene is an International Baccalaureate World School and every student has access to a comprehensive IB diploma program. All students are able to pursue a rich and rigorous curriculum in every subject area, including advanced science and math courses, a variety of fine, applied and performing arts, and robust Career-Technical Education programs.

Sheldon High School

2455 Willakenzie Road, Eugene, OR 97401

Principal: Bob Bolden

Sheldon High School provides all students the opportunity to learn in a caring and supportive environment. Rigorous curriculum provides an opportunity for students to meet Oregon state standards and the Knowledge and Skills for University Success college readiness standards. Academic programs, along with a wide array of extracurricular activities, challenge students, staff and Sheldon families to create a student-centered culture that emphasizes intellectual competence, active participation and mutual respect for the qualities each member brings to a multicultural and diverse community. Sheldon is one of three campuses that host the Eugene International High School (IHS) program.

About Our District

South Eugene High School

400 East 19th Avenue, Eugene, OR 97401

Principal: Carey Killen

South Eugene's rigorous curriculum includes college preparatory science and math courses, vibrant literature offerings, relevant experiences in the social studies, and a variety of fine, applied and performing arts, in addition to health and physical education classes. Students interested in music and theater thrive at South, as do those interested in fine arts, culinary arts, advanced computer skills and business/marketing. Students and staff take pride in the sheer number of exceptional opportunities available at the open-campus school. South Eugene is one of three campuses that host the Eugene International High School (IHS) program.

About Our District

Early College & Career Options (ECCO)

4000 E. 30th Avenue, Building 10, Eugene, OR 97405

Principal: Molly Gillett

Early College & Career Options (ECCO) High School is an alternative 4J high school offering a state-accredited diploma. Class sizes are small and credit is accelerated, helping students who are credit deficient or who have not experienced success in traditional programs. Opportunities for independent study and nontraditional methods for completing graduation requirements are provided. The academic programs stress community, personal growth and social success. Instruction is largely individualized and students are encouraged to take responsibility for their own learning and commitment to success. A school-to-work and school-to-college transition program allows students to explore career opportunities or attend Lane Community College while they earn high school credit.

Budgeted Teacher Allocation History:

Year	Projected Enrollment for Staffing	Needs Index	Teacher Allocation	School Student: Teacher Ratio
2018-19	250.00	137.0	10.50	23.8
2017-18	250.00	91.1	10.50	23.8
2016-17	250.00	91.3	10.50	23.8
2015-16	250.00	91.7	10.50	23.8
2014-15	250.00	72.6	9.75	25.6

As of 2014-15, ECCO has been consistently staffed at a maximum enrollment of 250 students, as enrollment can fluctuate significantly throughout the program year.

Note that average class size is not tracked for the ECCO program.

Open Books Project

The Open Books Project provides information about Oregon K-12 school spending in a simple, easy-to-understand format, and also presents information about how well schools are meeting the needs of students. Information is available on district spending, and users can compare districts.

Information is also available from Oregon's school and district report cards, including student progress and outcomes, the curriculum and learning environments, and student demographics. For more information visit the Open Books Project website: www.openbooksproject.org.

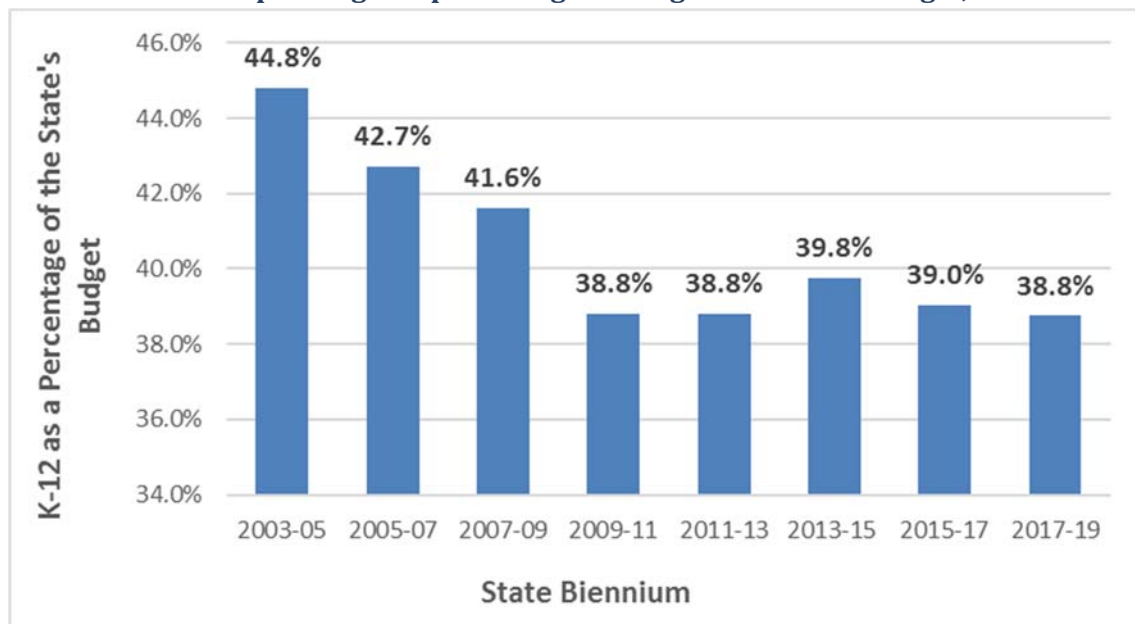

About Our District

History of State Funding

Over the last twelve years, K-12 education's share of the Oregon state budget has fallen from 44.8% to only 38.8% of the 2017-19 State Biennial Budget (Figure 1). The recent reduction is partly explained by a long and deep national recession that began in 2008; however, it should be noted that education's share of the state's budget was already falling as early as 2005.

Oregon's economy has recovered from the Great Recession with unemployment rates at near all-time lows and robust revenue growth. Even with the recent improved economic growth of the state, the 2017-19 biennium provided a level of funding that slightly reduces investments in K-12 and higher education, health care and critical human services. The final approved budget set the K-12 appropriation for the 2017-19 biennium at \$8.2 billion.

Figure 1. K-12 Education spending as a percentage of Oregon's Biennial Budget, 2003-05 to 2017-19

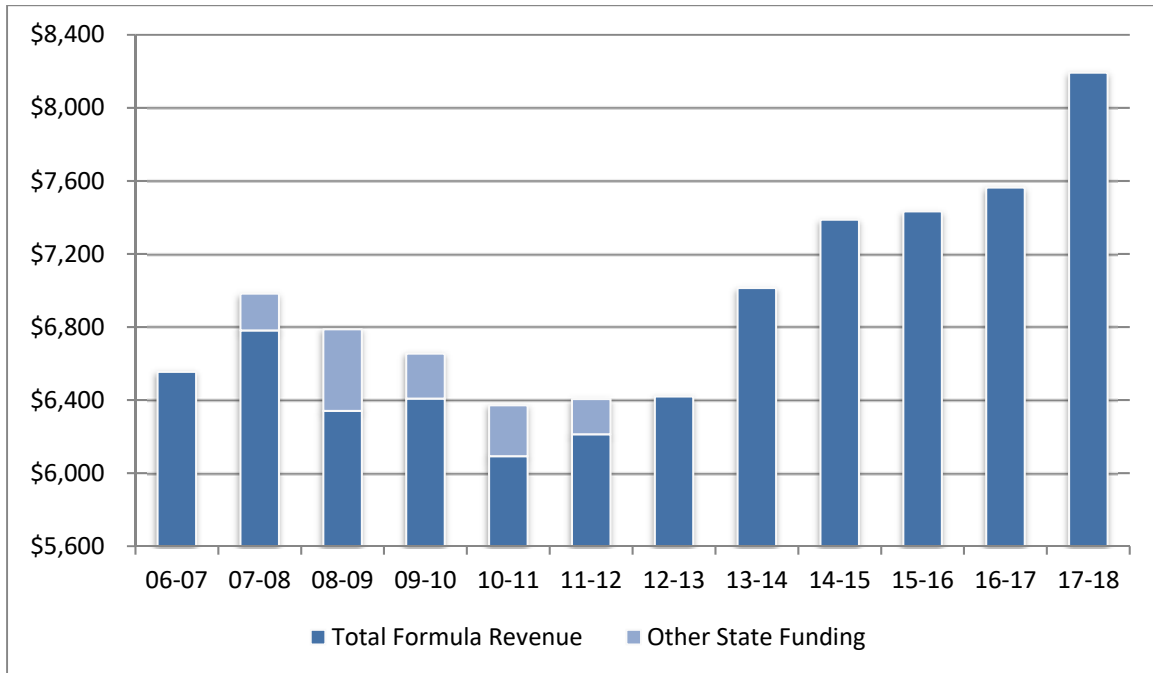

Source: COSA; Oregon Legislative Fiscal Office 2013-15 Legislatively Approved budget; 2015-17 Legislatively Adopted budget; 2017-19 Legislatively Adopted budget

Figure 2 shows the decline in state school funding per pupil from 2007-08 through 2012-13. This is shown adjusted for inflation in Figure 3. State school funding levels beginning in 2013-14 show improvement over prior years, however, over the same period staffing costs have increased considerably; with significant increases in contributions required to fund PERS and insurance benefits. When adjusted for inflation the change in per student funding has fluctuated over this time.

Federal sequestration cuts are continuing with reduced funding for programs serving our most needy students and the subsidy payment for a portion of our bond interest. We are not certain of the future of sequestration cuts and the budget reflects revenues as reported by agencies.

About Our District

History of Local Support

Oregon Property Tax Measures

Measure 5

In November 1990, Oregon voters approved Measure 5, a citizen’s initiative limiting total taxes on each property in the state to 1.5% of the property’s real market value and shifting responsibility for funding public education to the state from the local level.

Measure 5, a constitutional amendment, phased in the tax limit for schools over a five-year period, beginning with a limit of \$15 per \$1,000 of real market value in 1991–92 and decreasing to a permanent limit of \$5 per \$1,000 of value in the 1995–96 fiscal year. Tax limitations do not apply to bonded debt for capital construction.

In response to the requirement that the state replace school tax revenue lost under Measure 5, the legislature created the State School Fund (SSF) and established an equalization formula to allocate revenue to schools on a weighted per-student basis.

Measure 50

In 1997, Oregon voters approved Measure 50, an initiative referred by the legislature to implement the provisions of Measure 47. The purpose of Measure 50 was to clarify legal ambiguities in the original measure and change the property tax system from a tax base system (where a dollar amount is levied) to a tax rate system (where a permanent rate is levied). As a result, in 1997–98 assessed values were rolled back to 1995–96 values minus 10% and future assessed value increases were capped at 3% per year plus exceptions such as the value of new construction. The District’s permanent rate was set at \$4.75 per \$1,000 of assessed value.

Other provisions limited the use of bonded debt and required a 50% voter turnout for property tax elections except at general elections (November of even-numbered years).

The original Measure 50 language did not allow school districts or educational service districts to use local option levies; however legislation passed in 1999 enabled school districts to seek approval of local option levies to support operations and/or capital needs starting in 2000-01. This represents the only opportunity for district voters to increase revenue for district operations since Measure 5 passed in 1990. Local option levies for more than a year may be filed as either a fixed dollar amount per year or a tax rate. Operating levies cannot exceed five years, and capital levies cannot exceed the lesser of ten years or the expected useful life of the asset(s). Revenues from local option levies are outside the State School Fund formula.

Measure 56

In November 2008, voters amended the state constitution to require that all local property tax measures in May and November elections be decided by majority vote, overturning the “double majority” requirement of Measure 50.

Local Support

Local support for the District has continued, even during uncertain economic times. The District’s voters have approved local funding measures by substantial margins. Since 1992, District voters have approved six general obligation bond levies, one local option levy, and three renewals of the local option levy.

About Our District

Local Option Levy Revenue

In May 2000, District voters approved a five-year local option levy of \$1.50 per \$1,000 of assessed property value to assist with operations. Since the passage of Measure 5 in 1990, this was the first opportunity for District voters to increase school operating funds above the State School Fund formula. Voters renewed the local option in November 2004, 2008 and 2014. The current local option will be levied for five years from 2015-16 through 2019-20.

The stability of this revenue source is largely dependent on the real market value of each property in the District increasing by at least the same rate as the assessed value (which is limited to a 3% increase per year up to the real market value). In a slower economy, real market value may increase at a slower rate or fall below the assessed value.

Local option capacity represents the “tax gap” between the Measure 5 tax rate limit based on real market value and the Measure 50 tax rate based on assessed value. When the gap between real market value and assessed value is not sufficient to generate the full \$1.50 tax rate, a property is said to be “in compression” and the taxes paid are only a part of the tax rate imposed. On the one hand, if assessed value and real market value are the same for a particular property, local option taxes are at their lowest amount (most compressed). On the other hand, if the assessed value is well below the real market value, the full \$1.50 rate is due (no compression). Most taxpayers are paying less than the full rate. Since 2005-06 the average “actual rate” received by the District has been as low as \$0.63 per \$1,000 in 2013-14 (\$7.9 million total) and as high as \$1.32 in 2008-09 (\$14.2 million total). The falling real market values beginning in 2010 drove down the actual rate every year between 2010 and 2014. Local option revenue rose steadily since then and is projected to increase to \$0.98 per \$1,000 (\$14.56 million total) in FY 2017-18.

The local option calculation requires that compression be calculated for each property separately and it is therefore difficult to predict the effect of compression on District revenue.

About Our District

General Obligation Bonds

Districts may levy taxes for the repayment of bonded debt upon voter approval. Tax levies for bonded debt fall outside the limits of Measure 5.

Measure 50 limited the use of bonded debt to funding capital construction and improvements and prohibited using bonds to finance the purchase of equipment or maintenance and routine repairs. However, in 2009, the state legislature approved a provision of the Oregon Constitution which effectively expanded the range of qualifying uses of bond proceeds by redefining “capital costs” as costs of land and of other assets having a useful life of more than one year, including costs associated with acquisition, construction, improvement, remodeling, furnishing, equipping, maintenance or repair. Bonds may not be used to pay for the costs of routine maintenance or supplies.

District voters approved requests for general obligation bond funding for capital improvements and repairs to District facilities in 1992, 1994, 1998, 2002, 2011, and 2013. Detail on these bonds is provided in the Financial Plan section of the budget document, under Debt Service Fund.

Bond and Levy Election Record ¹

Year	Type of Election	Amount			
		Requested	Yes Votes	No Votes	% Passed
11/03/1992	G.O. Bonds	\$74,300,000	38,717	27,939	58.1%
11/08/1994	G.O. Bonds	6,000,000	28,378	22,632	55.6
11/03/1998	G.O. Bonds	12,200,000	32,294	16,823	65.7

05/21/2013	G.O. Bonds	170,000,000	24,672	14,266	63.4
11/04/2014	Local Option Renewal ⁵	40,000,000	48,036	15,344	75.8

¹ Lane County voters only.

² Voters authorized a Local Option Levy of \$1.50 per \$1,000 of assessed value, to be levied for five years from 2000-01 through 2004-05. The amount requested represents estimated revenue over the five-year period, as stated in the ballot summary.

³ Voters authorized a Local Option Levy of \$1.50 per \$1,000 of assessed value, to be levied for five years from 2005-06 through 2009-10. The amount requested represents estimated revenue over the five-year period, as stated in the ballot summary.

⁴ Voters authorized a Local Option Levy of \$1.50 per \$1,000 of assessed value, to be levied for five years from 2010-11 through 2014-15. The amount requested represents estimated revenue over the five-year period, as stated in the ballot summary.

⁵ Voters authorized a Local Option Levy of \$1.50 per \$1,000 of assessed value, to be levied for five years from 2015-16 through 2019-20. The amount requested represents estimated revenue over the five-year period, as stated in the ballot summary.

About Our District

Academic Performance Indicators

Board Goals

- Increase achievement for every student and close the achievement gap.
- Build our staff capacity to perform at a high level.
- Provide prudent stewardship of district resources to best support student success, educational equity and choice.
- Engage students, families, staff, the community, elected officials and other stakeholders in supporting our schools and improving educational outcomes for all 4J students.

Introduction

Eugene School District 4J strives for excellence in all areas of its operations, driven by its mission to do what's best for students. In this section are some key indicators of how well the District is carrying out this mission.

Graduation and Completion Rates

Four Year

In 2016-17 the 4-year graduation rate in the Eugene School District 4J was 73.7%, 1.3% lower than last year but still 1.7% higher than in 2013-14. As shown below during 2016-2017, among comprehensive schools, only Churchill increased graduation rates significantly (+4.5%), while South increased moderately (+0.6%) and Sheldon increased negligibly (+0.1%). North's graduation rate fell 7% from last year's (2016: 77.9% to 2017: 70.9%). Overall, the district 4-year graduation rate modestly fell (-1.3%) from last year's rates, owing largely to drops in graduation rates at North Eugene and at ECCO.

Eugene 4J's 4-Year Graduation Rate is 3 percentage points lower than the state average of 76.7%.

Table 1.1.1 4J High School Four-Year Cohort Graduation Rates – 2014–17

School	2014 (**)	2015	2016	2017
Churchill High School	82.7%	87.7%	81.4%	85.9%
North Eugene High School	71.4%	78.3%	77.9%	70.9%
Sheldon High School	85.4%	87.6%	88.0%	88.1%
South Eugene High School	87.0%	90.8%	89.4%	90.0%
DISTRICT RATE *	71.9%	74.2%	75.0%	73.7%
STATEWIDE RATE*	72.0%	73.8%	74.8%	76.7%

* District and statewide averages include students in alternative education programs and placements.

** In 2014 there was a change in the way graduation rates are computed.

About Our District

Five Year

In 2016-17, the 5-year graduation rate in the Eugene School District 4J rose 0.2% from last year's rate (2016: 78.9% to 2017: 79.1%). While it is a modest gain from last year, the 2016-17 rate represents a +3.9 percentage point increase from rates in 2014-15.

Gains last year in the 5-year cohort graduation rate at Sheldon (+2.8%) offset losses at the other comprehensive high schools to allow the overall 4J District graduation rate to rise slightly. Churchill's graduation rate fell 3.2 percentage points, North's fell 1.1 percentage points, and South's fell 3.1 percentage points.

Eugene 4J's 5-Year Graduation Rate is slightly higher (+0.2) than the state average graduation rate of 78.9%.

Table 1.1.2 4J High School Five-Year Cohort Graduation Rates – 2013–17

School	2013	2014 (**)	2015	2016	2017
Churchill High School	82.2%	88.6%	88.3%	92.0%	88.8%
North Eugene High School	83.8%	83.3%	76.7%	82.4%	81.3%
Sheldon High School	82.3%	85.7%	90.1%	90.6%	93.4%
South Eugene High School	87.4%	88.6%	92.0%	93.9%	90.8%
DISTRICT RATE *	74.8%	75.2%	76.6%	78.9%	79.1%
STATEWIDE RATE*	73.2%	75.9%	76.5%	77.8%	78.9%

* District and statewide averages include students in alternative education programs and placements.

About Our District

High School Drop Outs

Drop Out Rates are calculated based on students who are classified as Non-Completers. Non-Completers are students who are not considered Graduates within five years, who have not earned an Adult High School Diploma, Extended Diploma, or GED within five years, and who are actively no longer attending.

For the 2016-17 school year, the drop-out rate in the Eugene School District 4J was 4.0%, 0.1% percentage points higher than in 2014-15 and 0.4 percentage points lower than in 2015-16. Churchill, Sheldon, and South all showed small decreases (-0.5%, -0.6%, and -0.7%, respectively), while North experienced a slight increase in its dropout rate (+0.4%).

Eugene 4J has a negligibly higher (+0.1%) dropout rate than the rest of the state of Oregon (3.9%).

Table 1.3.1 4J High School Dropout Rates – 2013–17

School	2013 (**)	2014	2015	2016	2017
Churchill High School	1.2%	0.9%	1.5%	2.8%	2.3%
North Eugene High School	2.3%	2.1%	3.0%	3.2%	3.6%

About Our District

Student Achievement in the Oregon Assessment of Knowledge and Skills (OAKS)

Results of the 2017 Oregon Assessment of Knowledge & Skills (OAKS) in 4J were consistently better than the statewide averages in every grade, for both English Language Arts (ELA) and Math, and for every group of students, as shown in the charts below. These charts also show, however, that significant achievement gaps are present both in 4J and Oregon when scores are broken down by groups of students.

Planning for the Future

Board of Directors Guiding Beliefs and Values

District Mission

- Do what's best for all 4J students
- Continue to learn and grow
- Respect and care about each other

In order to meet the District Mission Statement above, the Board has adopted the following guiding beliefs and values:

Students

- We believe that all children can learn.
- We believe that our students' education and welfare are our most important commitments.
- We believe that a student's success in school should be independent of factors such as race, ethnicity, gender, socio-economic status, disability, native language, religion, and sexual orientation.
- We believe that public schools should foster development beyond academics such as character, creativity, resourcefulness, citizenship, an understanding of workplace expectations, respect for diverse cultures, and a lifelong love of learning.

Staff

- We value a highly qualified, caring and diverse staff that reflects our student population and believe they are the key to meeting our goals for students.
- We believe in collaborating with staff in deciding what is best for our schools and our students, recognizing that not everyone may agree.
- We believe that it is essential for staff and Board members to hold high expectations of all students, that these expectations are critical to student success, and that we must hold ourselves and each other accountable for the achievement of all students.
- We believe that high quality instruction is integral to student success and best achieved by providing strong instructional leadership, targeted professional development, and system-wide accountability and support for student growth.

Community

- We believe that the Board and staff make a difference in learning for our children by developing relationships and effectively engaging our families, community and local, state and federal governments on social, political and economic challenges and inequities.
- We value public support for our schools and believe that the Board plays a critical role in generating and sustaining community partnerships and ongoing financial and other support.

Leadership

- We believe it is critical for the Board and staff to plan and direct resources consistent with our beliefs and values.
- We value continual learning for all—Board, staff and students—and believe that it is essential to student success in school.

Planning for the Future

Board Goals

Excellence, equity and choice are the core values that have shaped the Board's direction and actions over the last fourteen years.

In School District 4J, we believe that every student in every school can excel and that it is our responsibility as a Board to ensure that every student has equitable access and opportunity. While our district has many strengths and successes to build on, we also must improve to make this vision a reality. In our current system, inequities exist among schools in terms of their ability to address students' educational needs. These inequities affect student performance and contribute to an achievement gap.

These goals help us focus our efforts where improvement is most needed. They do not describe everything we are dedicated to doing. Although not all programs and services are specifically addressed in these goals, we are committed to providing a comprehensive education that meets the needs of each student.

These Board goals adopted January 20, 2016, allow us to focus our attention on a few key priorities to ensure that we can succeed; that we continue to work within our means; and that we can measure our progress along the way. As part of the Superintendent's Evaluation Process, goals will be developed that will help achieve the key results. When the superintendent succeeds, the Board succeeds.

I. STUDENT ACHIEVEMENT

Goal: Increase achievement for every student and close the achievement gap.

The Board is committed to ensuring that every student graduates and is college and career ready. Every school must improve teaching and learning with a focus on the Common Core State Standards. Our expectation is that every student will make at least one year of academic growth in each school year. All staff shall provide the support needed to actively engage students in their learning. Some schools will require additional resources to achieve district and state academic goals and close the achievement gap.

This goal aligns with the Superintendent's Area of Responsibility 1-Student Achievement

II. STAFF CAPACITY BUILDING

Goal: Build our staff capacity to perform at a high level.

Staff capacity to deliver high quality instruction is a key lever to student success. Collaborative, data-informed decision-making processes, proficiency in culturally responsive practices, and continued systemic professional development are essential to our success as a school district.

This goal aligns with the Superintendent's Area of Responsibility 2-Staff Capacity Building

III. STEWARDSHIP OF DISTRICT RESOURCES

Goal: Provide prudent stewardship of district resources to best support student success, educational equity and choice.

The Board will direct district resources to support the instructional core and to provide educational equity and choice while maximizing administrative and operational efficiency within a sustainable budget. The District must

Planning for the Future

also respond to declining enrollment, regional enrollment patterns, a student population with more diverse needs, uncertain revenue streams and escalating costs.

This goal aligns with the Superintendent's Area of Responsibility 3-Stewardship of District Resources

IV. COMMUNITY ENGAGEMENT

Goal: Engage students, families, staff, the community, elected officials and other stakeholders in supporting our schools and improving educational outcomes for all 4J students.

In order for the Board to provide effective leadership, it must communicate with and establish working relationships with students, families, staff, the community, and other governmental agencies, and engage these stakeholders in supporting our students and schools.

The District will engage in a comprehensive Community Engagement Process to be completed by September 2016.

This goal aligns with the Superintendent's Area of Responsibility 4-Stakeholder Engagement

V. TRANSITION NEW LEADERSHIP

Goal: Engage key community stakeholders to transition our new superintendent into a successful place to lead our district. This Board goal is being added to underscore the importance of having stable leadership for our district to ensure we are able to reach our other four goals.

In order for our district to succeed in all of our other goals, we need to have stable and successful leadership for our team of professionals. As we have had quite a bit of change in the past few years, it will be important for the Board to commit to taking steps to ensure we have successful relationships with the superintendent and that we help him to be successful in his job and in the community.

This goal aligns with the Superintendent's Area of Responsibility 5-Leadership and Professionalism

Planning for the Future

4J Vision 20/20 Strategic Plan

Overview

Eugene School District 4J is looking to the future with 4J Vision 20/20. The district has engaged the community in a strategic visioning and planning process to develop a roadmap for the next few years, a 3- to 5-year guiding plan for the Eugene School District 4J.

The goal of the process was to develop a shared vision and plan for the future of our schools and the future success of every student. The plan was designed to reflect what our community wants our school system to look like and where the district's limited resources should be targeted to best support student success.

The Board approved the following Eugene School District 4J Strategic Plan Framework (2016-2021) on January 11, 2017.

Vision: Every Student Connected to Community and Empowered to Succeed.

- **Goal I:** Educational Excellence with Equitable Access and Outcomes for Every Student
- **Goal II:** Multiple Pathways to Student Success
- **Goal III:** Communication and Connection with Community
- **Goal IV:** Diverse World-Class Workforce
- **Goal V:** Stable, Sustainable Stewardship

Planning for the Future

Strategic Plan Framework

Provide all students with a high-quality, well-rounded educational experience that is rigorous, culturally responsive, healthful and engaging.

Objective 1: Support student learning with rigorous, relevant, consistent curriculum and clear expectations for teaching and learning

We will...

- Articulate curriculum and coursework between levels.
- Adopt updated curriculum aligned to state standards using an approved process.

Objective 2: Provide instructional supports and systems to meet the needs of all students.

We will...

- Implement full schedules for 10th graders.
- Develop staff capacity to provide culturally responsive instruction.
- Support grade-level transitions.

Objective 3: Support struggling learners with interventions, resources and training.

We will...

- Expand multi-tiered system of academic interventions.
- Implement attendance intervention system.
- Strengthen behavioral intervention system.

Objective 4: Streamline assessment system to provide effective, efficient, meaningful assessments to inform instruction and maximize time for learning.

We will...

- Conduct an audit of currently used assessments and their purpose, parameters, frequency, cost and time impact.
- Develop and undertake an assessment adoption process.
- Align and articulate assessments used across the system, and reduce the number of assessments where possible.

Planning for the Future

- Provide professional development on assessment use.
- Ensure that working professional learning communities review and interpret data to guide student learning.

Goal I & II Key Performance Indicators:

- *Graduation & completion rates (4 & 5 year)*
- *40-40-20 progress (postsecondary success indicators)*
- *Suspension & expulsion rates*
- *Attendance data*
- *3rd grade reading*
- *9th grade on track to graduate*
- *Opportunity and achievement gaps in all indicators*

Planning for the Future

Multiple pathways to student success

Provide multiple pathways to student success, including instructional and career pathways to engage all students for post-graduate readiness.

Objective 1: Provide rigorous academic programs in both neighborhood and alternative (magnet) schools.

We will...

- Improve articulation of immersion programs.
- Investigate the potential for expansion of immersion programs.
- Expand accelerated learning opportunities.
- Pilot the expansion of AVID to the elementary level.

Objective 2: Provide equitable educational opportunities at all comprehensive secondary schools.

We will...

- *Develop a visioning process for the distinct district regions, beginning with the North Eugene region.*
- *Review and potentially recommend changes regarding the current common secondary schedule.*
- *Review the school choice process.*

Objective 3: Provide strong and varied career and technical education programs.

We will...

- Review existing career and technical education programs.
- Create connections among existing 4J programs.
- Deepen community and industry relationships.
- Connect with city, county, state and other resources to expand opportunities.
- Develop plan to expand and articulate career and technical education programs in all high schools.

Objective 4: Support student engagement in alternative educational settings.

We will...

- Review alternative education programs and recommend program changes and additions.
- Explore options for providing middle school alternative programs.
- Develop a framework for online learning.

Planning for the Future

Communication and connection with community

VISION 20/20 Goal **3**

Foster proactive and positive communication, engagement and partnerships with stakeholders.

Objective 1: Implement a comprehensive communication strategy that provides timely, family centered, two-way communication.

We will...

- Develop and implement a comprehensive communications plan.
- Develop and implement an annual communications calendar.
- Increase output of timely communication about processes, activities and events.
- Design engagement strategies into major initiatives.
- Expand outreach to under-engaged communities.

Objective 2: Strengthen connections between our schools and our community.

We will...

- Develop and support partnerships with community organizations and businesses.
- Provide multiple school communication platforms and pathways.
- Provide opportunities for community engagement.

Objective 3: Support active school–family communication and engagement.

We will...

- Establish a baseline standard for school communications.
- Provide consistent communication resources to schools.
- Provide clear and timely school–family communication.
- Improve customer service to enhance parent experience.

Objective 4: Provide multiple pathways to engagement.

We will...

- Share important information through multiple channels to meet diverse needs.
- Provide opportunities for two-way communication.
- Increase targeted outreach to under-engaged communities.
- Communicate effectively with families in their home language.

Planning for the Future

**Diverse,
world-class
workforce**

VISION 20/20 **Goal** **4**

Ensure that every classroom has a high-quality, effective teacher, supported by high quality, effective administrators and support staff.

Objective 1: Attract, hire and retain high-quality, passionate and diverse staff.

We will...

- Strengthen collaboration with colleges to develop hiring plans for pre-service candidates.
- Develop in-district programs to provide avenues to diversify the workforce (EAs, students, mentoring, leadership development).

Objective 2: Elevate the professional capacity of our workforce to meet the needs of today's learners.

We will...

- Develop and implement a mentoring program for new teachers and administrators.
- Develop and implement a coherent professional development plan for all staff.

Goal III & IV Key Performance Indicators:

- *Communication output and outcome met*
- *Community satisfaction with district communication, engagement and transparency (survey)*
- *Parent satisfaction with school communication, engagement and transparency (survey)*
- *Staff retention rates*
- *Staff diversity compared with student diversity*

Planning for the Future

Stable, sustainable stewardship

Provide effective, efficient, and equitable stewardship of district resources to best support our instructional mission.

Objective 1: Optimize efficiencies and improve effectiveness.

We will...

- Audit internal and external systems and recommend improvements.
- Articulate district systems to ensure effectiveness and efficiency.
- Integrate and improve data reporting, automation, and data quality across processes and systems.
- Restructure district departments to provide more efficient support of schools.

Objective 2: Provide transparent, accountable financial management.

We will...

- Provide comprehensive financial and accountability information that is easy to locate and understand.
- Present budget overview in clear, consistent, plain language that is accessible by a layperson.
- Integrate all sources of income and how those sources are spent within the school district.

Objective 3: Allocate resources in an equitable manner to meet every student's needs.

We will...

- Review how resources are allocated to schools based on enrollment and needs index.
- Provide resources to reduce class sizes where possible, with attention to student need levels.

Objective 4: Develop a sustainable budget aligned to district goals, strategies and objectives.

We will...

- Prioritize budget additions and reductions to align with district goals.
- Develop long-range funding plans to reduce class sizes, restore specialists, update curriculum and technology, continue to provide a full school year, and other priorities.
- Utilize master plans and replacement schedules to inform priorities.
- Develop processes to review funded systems, processes and programs and determine whether spending should continue, expand, reduce or halt.
- Maintain appropriate reserve levels.

Planning for the Future

Objective 5: Provide safe, secure, sustainable learning spaces that meet educational needs.

We will...

- Complete a demographic study to analyze future student enrollment patterns.
- Update the long-range facilities plan for future construction priorities.
- Seek direction from the board, budget and bond committees on a potential future construction bond.
- Complete construction priorities on-time and on-budget.

Objective 6: Optimize technology to meet instructional and operational needs.

We will...

- Develop a long-range technology plan with a stable and secure platform and standards aligned to curriculum framework.
- Integrate technology into curriculum and instruction in a coherent, articulated manner.
- Promote technology through our organizational structure.
- Expand technology infrastructure to ensure all district sites have equitable access to technology.

Goal V Key Performance Indicators:

- *Reserve levels (per board policy)*
- *Class sizes and staffing ratios*
- *Access and use of technology devices*
- *District progress on long-range facilities plan*

Building the Budget

Budget Drivers

The following chart describes the key drivers of the District's budget.

Building the Budget

Requirements for Budget Development

Oregon Budget Law

The budget is a financial plan that estimates the cost to operate District schools, departments and programs for the next fiscal year. Board Policy DB directs the process by which the District prepares its annual budget to be in accordance with provisions of Oregon Local Budget Law ([ORS 294](#)), which provides standard procedures for the preparation, presentation, administration and appraisal of budgets for Oregon municipalities. The law mandates public involvement in budget preparation, public exposure and discussion of the budget, and controls over the expenditure of public funds. The law also requires that the budget be balanced; that is, projected resources must equal projected requirements in each fund.

Basis of Budgeting and Accounting

The budget was developed in accordance with Generally Accepted Accounting Principles (GAAP), a uniform minimum standard for financial accounting and reporting. Governmental fund revenues and expenditures are budgeted and accounted for using the modified accrual basis of accounting. This is the same basis of accounting used in the District's audited Governmental fund financial statements. Under this basis, revenues are recognized when they become both measurable and available. "Available" is defined as collectible within the current period or soon enough thereafter to pay liabilities of the current period. Revenues subject to accrual include property taxes, interest revenue and charges for services. Property taxes are considered to be available if they are collected within 60 days after year-end.

Expenditures are recorded when the related fund liability is incurred. Principal and interest on long-term debt are recorded as fund liabilities when due.

The accrual basis of accounting is used by proprietary and fiduciary fund types; the District uses three such funds – the Insurance Reserve Fund, the Postemployment Benefits Fund and the Private-Purpose Trust Fund. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred.

All the District's funds are appropriated through Board resolution at the conclusion of the budget process. All the funds included in the budget are included in the applicable year's audited financial statements.

The Budget Process

Budget preparation takes several months and involves both school-based and central department staff. A flowchart identifying the steps involved in the budget process is provided following this section.

The District's Budget Committee includes all seven elected members of the School Board and seven community members appointed by the Board to three-year terms of service. The Budget Committee typically meets in January to receive enrollment and financial projections, and to give feedback to the Superintendent on the development of the proposed budget. To address special circumstances, meetings may also be held in February and March. The Budget Committee meeting to review the proposed budget is generally held in early May. Prior to presenting the proposed budget, the District must publish a notice of the meeting once in the local newspaper, five to 30 days before the meeting date, and post the notice on the District's website at least ten days before the meeting date.

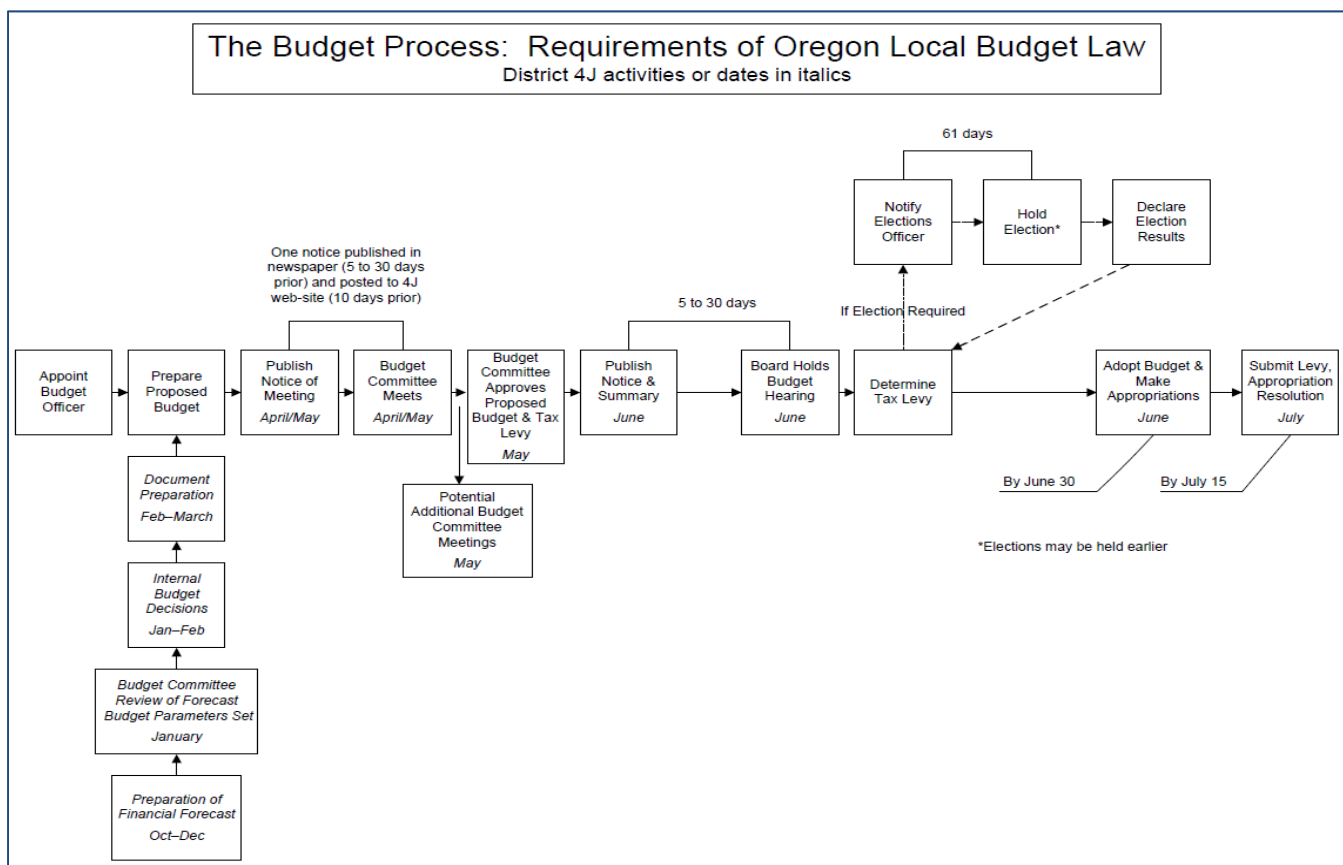

Building the Budget

Once the budget document is given to the Budget Committee, community members may access the information on the District’s website at www.4j.lane.edu/finance/docs.

At the May Budget Committee meeting, the Superintendent presents the budget message, which explains the proposed budget and identifies significant changes in District programs or financial condition. At this meeting, or a subsequent meeting, the Budget Committee receives public comment, makes revisions, and approves the budget for submission to the School Board. The Budget Committee also declares tax rates for the next year and approves the Debt Service Levy. The Committee may meet as many times as needed to complete their work.

The budget, tax rates and Debt Service Levy approved by the Budget Committee are then forwarded to the School Board for adoption in June. A public hearing must be conducted at the meeting where the budget is presented as an item for future action. Notice of the public hearing and a summary of the budget must be published once in the local newspaper five to 30 days before the hearing. The notice indicates where the complete budget document is available for inspection.

After the hearing, the Board can change the budget, tax rates or levy approved by the Budget Committee. However, if taxes needed to balance the budget are increased by any amount beyond the level approved by the Budget Committee or expenditures in any fund are increased by ten percent or more, the amended budget summary must be republished and another budget hearing held. After the budget hearing and before June 30th, the Board must adopt the budget, make appropriations, and impose and categorize each tax rate and levy.

Building the Budget

Supplemental Budgets

If the District receives unanticipated revenues or a change in financial planning is required, a supplemental budget may be adopted to authorize a change in the budget within a fiscal year. A supplemental budget cannot be used to authorize a tax levy.

The Board may adopt a supplemental budget at a regular public meeting if expenditures in the supplemental budget are less than ten percent of the annual budget of the fund being adjusted. If the expenditures exceed ten percent, the Board must publish the supplemental budget and hold a special hearing.

Budget Calendar

Board meeting: Appoint new Budget Committee members	October 18, 2017
Budget Committee meeting: Presentation of five year financial forecast, introduce new members, elect officers and set meeting schedule	January 22, 2018
Budget Committee meeting: Hold discussion and receive public comment	March 19, 2018
Publish notice of Budget Committee meeting on district's website at least 10 days before the meeting	April 23, 2018
Publish notice of Budget Committee meeting in newspaper 5-30 days before the meeting	April 23, 2018
Budget Committee meeting: Receive Superintendent's 2018-19 budget message and proposed budget, hold discussion and receive public comment	May 7, 2018
Budget Committee meeting: Approve Superintendent's 2018-19 proposed budget and declare tax rates and debt service levy	May 21, 2018
Publish notice of budget hearing 5 to 30 days before the hearing	May 27, 2018
Board meeting: Hold budget hearing	June 6, 2018
Board meeting: Enact resolutions to adopt budget, make appropriations, and impose and categorize taxes	June 20, 2018
Submit tax certification documents to assessor	July 15, 2018
Submit copy of complete budget document to county clerks	September 15, 2018

Building the Budget

District Policies and Practices

School Board Policy, Section D: Fiscal Management

Key policies related to fiscal management adopted by the Board are presented below. Additional policies may be viewed at: www.4j.lane.edu/board/policies.

DB. Budget

The district budget will serve as the financial plan of operation for the district and will include estimates of expenditures for a given period and purpose, and the proposed means of financing the estimated expenditures. The district may provide that the budget and budget documents be prepared on an annual or biennial basis consistent with the district's strategic plan.

The district budget will be prepared in compliance with Local Budget Law, federal and state laws and regulations, and locally adopted procedures.

The fiscal year will extend from July 1 to June 30 inclusive.

The chief financial officer will be designated as budget officer and will prepare the budget document.

DI. Financial Management Policies

Resource Planning and Allocation Policies

1. On a semi-annual basis the district forecasts General Fund resources and operational requirements over a rolling five year period. Annually, as part of the budgeting process for the district, the Superintendent presents the most recent forecast to the Budget Committee and Board for review and consideration. This forecast highlights resource and requirement considerations that will inform the development of the Superintendent's Proposed Budget for the following year and for other financial planning activities.
2. The Superintendent's Proposed Budget will build off of the General Fund five-year forecast presented to the Budget Committee and Board, incorporate operating and capital budgets managed through other funds, and respond to current district goals and policies and other long-range plans and needs of the district.
3. Operating and capital budgets will be proposed by the Superintendent and approved by the Budget committee consistent with the following criteria:
 - i. The physical safety of students and employees;
 - ii. Instructional services that meet the needs of all students;
 - iii. Support services to efficiently manage the human, financial, capital, facility and information resources of the district;
 - iv. Development of new capital assets to meet enrollment changes or otherwise improve the safety, efficiency or quality of district instructional services.
4. It is the responsibility of the Superintendent, Budget Committee and Board to balance these criteria during the development, review, and adoption of the annual budget.
5. The district's education program must be responsive to enrollment changes and the changing needs of the community and its students. To respond to these changes, a portion of the operating budget may

Building the Budget

be reserved each year for staffing adjustments, new programs under development, and research and development.

6. Depending on the needs and resource of the district, reserve funds may be established and continually funded to address the replacement of technology, capital assets and curriculum. The Superintendent will recommend funding levels and mechanisms for each established fund as part of the annual budget process.

Accounting and Financial Practices Policies

1. The district will maintain an accounting and financial reporting system that conforms to Generally Accepted Accounting Principles (GAAP) adopted by the Government Accounting Standards Board (GASB), the Program Budgeting and Accounting Manual issued by the Oregon Department of Education and Oregon local budget law. A Comprehensive Annual Financial Report (CAFR) will be issued by the district no later than December 31st of each year.

2. The Board will establish funds as needed to support effective and efficient service delivery. The Budget Committee and the Board will review each fund annually as the budget is prepared and reviewed. If certain funds are not found to enhance the district's services or financial goals, they will be restructured or eliminated.

3. Reserve Funds

The Board may establish one or more reserve funds to hold moneys to be accumulated and expended for the purpose of financing the cost of any service, project, property or equipment. The Board shall review established reserve funds annually and determine whether the fund will be continued or abolished, as part of the budget process.

4. Contingency Funds

The Board requires each fund to maintain an appropriate contingency account to meet unanticipated requirements that may occur during the budget year. Cash reserves and fund balances will be consistent with generally accepted accounting practices and local budget law.

A contingency appropriation is typically used to address unexpected one-time program costs, new program or legislative requirements not known at the time of budget adoption and emergency situations. Funding for programs or operations that require ongoing support will be addressed during the budget development process for the next year.

The Board must approve all actions to reduce, increase or reappropriate a contingency appropriation based on the needs of the district. The Board's authority is limited to the currently adopted budget and the budget for the following fiscal year.

The targeted contingency for the General Fund is two percent of the operating budget. The district will review other funds for contingency and cash reserve requirements to ensure that each fund has sufficient reserves and a positive balance at year end, as required by local budget law.

5. General Fund Balance

- a. Purpose

The purpose of this policy is to establish a key element of the financial stability of the district by setting guidelines for the General Fund balance. The district will maintain a minimum ending fund balance in the General Fund in order to provide stable services and employment and to offset

Building the Budget

cyclical or unforeseen variations in revenues and expenditures without borrowing. The minimum ending fund balance also provides cash flow liquidity for the district's general operations.

b. Definitions

Fund balance is defined as the excess of assets of a fund over its liabilities and reserves.

c. Budget

As a part of the budget process, the district will project general fund operating revenues and ending fund balances for the ensuing four fiscal years in its General Fund financial forecast.

The budgeted unappropriated ending fund balance (UEFB) may not be spent or appropriated during the fiscal year in which it is budgeted.

d. Minimum

The district will maintain a minimum General Fund ending fund balance of five percent of current year annual operating revenues excluding transfers between funds. The fund balance takes into consideration revenue and expenditure volatility and other district needs. The minimum ending fund balance is comprised of the General Fund UEFB plus two-thirds of the contingency for the ensuing year.

e. Exceptions

The Board may approve a temporary reduction in the General Fund minimum ending fund balance during the budget process, along with a plan to rebuild the ending fund balance to the targeted five percent level within five years. The Superintendent will update the Board on the financial condition of the district and present the Board with financial options and a timeline to replenish the fund balance. Should the ending fund balance exceed the five percent target, a plan for one-time use of the additional amount may be considered by the Board.

f. Breach

The Superintendent will advise the Board if at any time the General Fund ending fund balance unexpectedly falls below or is projected to fall below the targeted five percent. If during any fiscal year district revenues are projected to be less than anticipated, the Superintendent and Board will review expenditures, transfers, and the projected ending fund balance for possible mid-year adjustment through resolution or a supplemental budget. The Board may decide to use a portion of the projected ending fund balance maintained within the General Fund Contingency to stabilize services. When such a determination is made, the Board will adopt a plan to rebuild the ending fund balance to the five percent targeted level within five years.

g. The district will review other funds for contingency and cash reserve requirements to ensure that each fund has sufficient reserves and a positive balance at year end, as required by local budget law.

h. Reporting Fund Balances in accordance with GASB Standards

This policy establishes the procedures for reporting funds balances in the financial statements. Certain commitments and assignments of fund balance help ensure that there will be adequate financial resources to protect the district against unforeseen circumstances and events such as revenue shortfalls and unanticipated expenditures. The policy also authorizes and directs Financial Services to prepare financial reports which accurately categorize fund balance as per Governmental Accounting Standards Board (GASB) Standards.

Building the Budget

There are five separate components of fund balance, each of which identify the extent to which the district is bound to honor constraints on the specific purpose for which amounts may be spent.

- (1) Nonspendable (including but not limited to inventory and prepaid expenditures) (2) Restricted (externally restricted)
- (3) Committed (self-imposed limitations set in place by resolution of the Board) (4) Assigned (intent for specific use)
- (5) Unassigned (available for any purpose)

The Board established order in which fund balances will be spent when multiple fund balance types are available for a specific purpose is committed, assigned, and lastly unassigned. The Superintendent or designee shall establish and maintain procedures for determining if resources would meet the definition of assigned.

The Board, as the district's highest level of decision-making authority, may commit fund balance for specific purposes pursuant to constraints imposed by formal actions taken, such as a majority vote or resolution. These committed amounts cannot be used for any other purpose unless the Board removes or changes the specific use through the same type of formal action taken to establish the commitment.

Amounts that are constrained by the district's intent to be used for specific purposes, but are neither restricted nor committed, should be reported as assigned fund balance. This policy hereby delegates the authority to assign amounts to be used for specific purposes to the Superintendent for the purpose of reporting these amounts in the annual financial statements.

6. Excess one-time funds may be available for capital, equipment, curriculum adoptions, automation or other one-time projects that improve the district's productivity and efficiency, but only if the ending fund balance is sufficient.
7. Each fund will maintain adequate cash reserves in order to meet operating cash flow needs or borrow internally from another fund with approval of the Board. As a last resort, the district will borrow externally to provide for cash requirements.
8. The district may recover the indirect costs associated with the operation of grant programs from such non-general fund sources as federal and state grants, intergovernmental services agreements, and other operating internal service or enterprise funds.

Revenue Policies

1. The district will strive to establish a stable revenue base for the operating budget for program needs through cooperation with its associations, legislators, and other districts. The district will make capital funding requests periodically to assure adequate safety and preservation of school buildings, district equipment, and other capital assets.
2. The district may charge service fees intended to recover the partial or full cost of non-district- sponsored use of its facilities, services or equipment, if permitted by law. In approving new uses of district services or facilities, the criteria for setting fees will include:
 - i. The cost of the use to the district;
 - ii. The ability of the user to pay for the service or activity;
 - iii. The degree to which the activity supports or detracts from the educational mission of the district;

Building the Budget

- iv. Whether the use is by a private organization or individual or by another public entity; and
 - v. The comparable fees charged by other public or private organizations.
3. Periodically the administration will review and adjust service fees to ensure that rates are equitable and recover the cost of operation. The district reserves the right to deny any use of its facilities or services to prevent possible conflicts with its activities or educational purpose.

Capital Improvements Policies

1. Facilities are essential to the support of the district's instructional programs. The annual operating and capital budget will reflect the need to maintain and repair facilities to preserve the public's investment in district facilities and to minimize future costs of major renovation and/or replacement.
2. Construction, acquisition, or improvements of capital assets may be financed with resources outside of the district's normal operating and maintenance budget (e.g., bond issues or other methods of financing).
3. The district will maintain a current inventory of its capital assets, their condition, and replacement and maintenance costs.
4. The district will operate an ongoing preventive maintenance program to inspect facilities, inventory needs, and perform required repairs and maintenance.
5. The district will plan for capital improvements over a multi-year period. The capital improvement program (CIP) will reflect long-range plans and policies, adopted land-use requirements, and growth projections. The staff and public will be involved in developing the capital improvement plan. The plan document will include estimates of known major capital needs extending beyond five years.
6. The CIP will estimate the changes in operating costs resulting from the improvements in facilities.

Intergovernmental Revenue Policies

The district may use bond resources or non-recurring grant revenue for one-time services such as capital projects, equipment requirements, services that can be terminated without significant disruption to students and the community, and the development of innovative programs which the district is considering for future adoption.

Debt and Investment Management Policies

1. The district will seek to maintain an Aa Moody's bond rating or equivalent to preserve its access to credit and to minimize the cost of borrowing.
2. The district will use general obligation bonds or other financing instruments permitted by law to finance essential fixed asset purchases, curriculum adoptions, and capital construction and improvements to support its instructional mission.
3. The district will periodically review debt capacity as part of long-range capital planning to ensure that debt levels are prudent and affordable. Retirement of bonded debt shall not exceed the useful life of the capital improvements that have been financed.
4. The district will comply with Oregon debt issuance laws, Internal Revenue Service (IRS) regulations established by the federal government, all bond covenants and with related Board policies.
5. The district will follow state law, local investment guidelines and the district's investment policy and related administrative rule when investing the proceeds of any bond issuance.

Building the Budget

Organizational Policies

1. The Superintendent will review the district's organizational structure and operating programs periodically to assure that it is responsive to current needs and avoids service duplication or inefficiencies.
2. The district will maintain a plan for balancing the cost of services with available revenues in order to minimize uncertainty about employment and services. The plan will be consistent with the adopted budget and will be informed by the General Fund forecast.
3. The compensation of employees will be competitive with that of comparable public and private sector employers in the relevant recruiting or market area. The criteria for reviewing employee wages and benefits will also include internal comparability for similar jobs, ability to pay and relevant federal or state requirements.
4. The district will, within available resources, maintain the productivity of staff through a supportive working environment which includes appropriate equipment, supplies, materials and professional staff development.
5. The district will routinely evaluate its support services and determine whether the services are being provided at a competitive market cost. The district will develop corrective plans for any services that are not efficient or effective.
6. The district will use intergovernmental service contracts to minimize the duplication of services and to ensure the most effective and efficient delivery of services to the taxpayers.

DID. Capital Assets

Inventory and Control of Capital Assets

The district will maintain an inventory of all fixed assets in accordance with governmental accounting standards. The purpose of the inventory will be to protect the district against losses that would significantly affect the district's students, staff, property, budget or ability of the district to fulfill its stewardship responsibilities. The inventory also satisfies financial and insurance reporting requirements. The district's inventory will be updated annually to include property newly purchased and disposed.

Capital assets include all district-owned property such as land, buildings, improvements to property other than buildings (i.e., parking lots, athletic fields, playgrounds, etc.) and equipment with a value greater than \$5,000 as defined by the Program Budget and Accounting Manual, published by the Oregon Department of Education. To be classified as a capital asset an item must also have an initial useful life extending beyond a single reporting period (essentially 1 year) and must satisfy the definition of a capital asset as defined within governmental accounting standards (GASB).

Federal law requires a physical inventory of federally-funded assets at least once every two years. These assets shall be accounted for following guidelines issued by the Oregon Department of Education. Grant managers and others charged with responsibility for federally-funded assets will report lost, damaged or stolen capital assets to the district's risk management and grant oversight staff for corrective action when necessary.

Attractive assets are defined as non-capital assets that are subject to an increased risk of theft because they are valuable, small enough to be removed from district facilities without detection and readily sold or traded in secondary markets. Attractive assets include, but are not limited to, computers and computer equipment, ipads,

Building the Budget

tablets, cell phones, projectors, musical instruments, communication devices, and other items that are movable and valuable. The district will maintain an inventory of attractive assets on an ongoing basis. Lost, damaged or stolen items will be reported to the district's risk management staff.

Capital assets that are missing or damaged because they have been lost or stolen must be reported to Risk Management within 24 hours or as soon as practically possible if reasons for a delay exist. Missing or damaged assets will be removed from district property records during the annual update, and replacement assets will be recorded.

Attractive assets such as computer equipment may be removed from district premises when used in the performance of district duties and activities.

The superintendent shall establish criteria for a system of accountability and control of capital assets in rules or procedures.

Building the Budget

General Fund Resources

Resources supporting the District’s General Fund operations primarily come from local and state revenues, with additional income from federal, county, and other sources. The largest segment, which includes state funding and local property taxes, is determined by the State School Fund (SSF) formula. Since Measure 5 property tax limitations were approved in 1990, school district funding has been largely defined by the state; previously, it was primarily determined locally and supported by local property taxes.

State School Fund

In 1991, the State School Fund (SSF) was created by the Oregon Legislature to distribute state funding to school districts. A formula was developed with the goal of providing a base level of funding to all school districts, with funds allocated on a per-student basis. This base level of funding is “weighted” to provide additional resources to address the unique student population of each district, and adjusted to reflect each district’s cost structure.

The State School Fund formula takes into account two funding sources in the calculation of K-12 school and Education Service District funding: the Oregon State Legislature’s biennial appropriation for K-12 education and projected local revenue available to fund education. Both of these resources are heavily dependent on tax collections, which can fluctuate significantly depending on economic factors. Funding can also be impacted by legislative actions, investment returns, and changes in the student population at the state or local level. As a result, the level of funding provided to each school district by the State School Fund will fluctuate from year to year and also throughout each year.

The District’s State School Fund budget is built on the approved 2017-19 Biennial budget that provided an appropriation of \$8.2 billion. These funds are scheduled to be delivered with 50% of the approved budgeted funds available in each of the two years of the biennium. This is a departure from the previous budget that provided 49% of the funds in year one and 51% in year two.

Funding Source	State Budget	State Budget	\$ Per Pupil (ADMw) (Total Formula Revenue)		
	2015-17 Biennium	2017-19 Biennium	2016-17	2017-18	2018-19
State School Fund	\$7.258 billion (plus \$118 million for 16-17)	\$8.2 billion	\$7,450	\$8,019	\$8,033

The process of calculating the District’s state funding level begins with a projection of student enrollment for the coming school year. The District’s Director of Research and Planning projects enrollment by school and grade level based on various factors including current enrollment, birth rates, and historic trends. This projection is adjusted by expected student attendance levels to establish a resident average daily membership (ADM_r) for the coming year.

The State School Funding model adds additional weights for the following student populations:

- Students in English as a Second Language (ESL) programs
- Students in pregnant and parenting programs
- Students with an Individualized Education Plan (IEP)

Building the Budget

- Students in poverty (as reported in the Small Area Income and Poverty Estimates (SAIPE) updated annually by the Census Bureau)
- Students in foster care and neglected/delinquent students

The weighted average daily membership (ADMw) for the coming year is compared to the current year's ADMw. State statute permits SSF funding to be based on current year or projected ADMw, whichever is higher. For districts with declining enrollment, this option delays funding decreases by one year and provides the district with time to make more thoughtful adjustments to its instructional programs and infrastructure.

The selected ADMw is then multiplied against the District's General Purpose Grant per ADMw amount, which is provided by the Oregon Department of Education. The Oregon Department of Education uses a formula established by statute to calculate a statewide General Purpose Grant per ADMw amount based on the biennial budget approved by the Oregon Legislature for K-12 schools and education service districts and the projected level of local funding for education. This base level of support is then adjusted for each district to reflect that district's average teacher experience relative to the state average teacher experience. As a result, individual district General Purpose Grant amounts may be more or less than the statewide amount depending on the tenure of district teaching staff.

To complete the calculation of Total Formula Revenue, which includes the General Purpose Grant total calculated above, the District must also calculate reimbursable transportation expenditures. The SSF formula includes a transportation grant to reimburse a portion of the costs of transporting students to and from school. This grant will reimburse the District for 70% of all eligible transportation expenditures.

Total Formula Revenue represents funding from two sources – the biennial state budget for K-12 education and local revenue available to fund education. Local property taxes, Common School Fund payments, County School Fund payments and Federal Forest Fees are deducted from formula revenue to determine the State School Fund grant paid to a district from the biennial state budget. Each of these local revenue sources are discussed below.

The District also receives funding through the High Cost Disability Grant, which is part of the State School Fund process. This grant provides additional support for students with disabilities who require services that cost over \$30,000 a year.

With current and prior years' property taxes, the following revenues are defined as local revenues under the State School Fund formula and impact state funding levels:

Common School Fund

Oregon receives income from lands granted by the federal government to the state at statehood—rangelands, forests and waterways and their mineral and timber resources—in trust for the benefit of public schools. Lands are managed by the State Land Board and income is invested by the State Treasurer, one of three members of the Land Board, and the Oregon Investment Council. Other sources of income for the Common School Fund include investment earnings on unclaimed property balances held in trust by the state, and a portion of the proceeds from the sale of federal lands.

Building the Budget

At the end of calendar year 2017 the Common School Fund was valued at \$1.68 billion. Investment earnings are distributed to schools each year using a sliding scale policy based on the annual change in the value of the fund. Amounts are allocated to districts on a per pupil basis. The Oregon Department of Education provides the District with a preliminary estimate of Common School Fund payments for the coming year for use in the budget development process, and updates this estimate throughout the year.

County School Fund

Twenty-five percent of revenues received by counties from the sale of timber cut on federal forest land and other miscellaneous sources are provided to local school districts. Funds are distributed to school districts on a per student basis. The District develops a preliminary estimate of payments for the coming year for use in the budget development process, and updates this estimate throughout the year.

Federal Forest Fees

The Secure Rural Schools Act (SRS) was reauthorized for federal fiscal years 2017 and 2018 in the 2018 Omnibus Appropriations Bill. The 2018-19 budget does not include a revenue estimate for federal forest fees, as this recent reauthorization has not yet been incorporated into the State School Fund formula calculation.

Operating Levy

Under Measure 50, District property taxes are based on a permanent tax rate of \$4.7485 per \$1,000 of assessed value, applied to the value of real and personal property located within District boundaries. In 1997–98, assessed values were rolled back to 1995–96 values less 10%, reducing the District’s tax base by about 13%. Future increases in assessed value are limited to 3% per year; however, there are exceptions such as the value of new construction.

The estimate of property tax revenue for the coming year begins with an assumption of the assessed value of real and personal property located within the District. For 2018-19, growth in assessed value is estimated at 3% over 2017-18 values. This amount is multiplied against the permanent tax rate to determine the base level of tax revenue available to the District. The base tax level is then adjusted for “compression” – a situation where the real market value of a property is less than the assessed value and tax must be imposed on the lower value. For 2018-19 the compression loss is estimated at 0.77% of the base tax level. The final amount represents the imposed tax level for the coming year.

Based on prior year tax collections, the District expects to collect approximately 94.5% of imposed taxes in the year they are due. Taxes not collected in the year in which they were imposed are collected in subsequent years. It is estimated that approximately 30% of uncollected prior years’ property taxes will be received in 2018-19.

Other tax revenues include interest and penalties related to delinquent taxes, and other miscellaneous local government tax collections. The District estimates these revenues based on prior year collections.

Local Option Levy

The estimate of local option levy tax revenue for the coming year begins with an assumption of the assessed value of real and personal property located within the District subject to the local option levy. For 2018-19, growth in assessed value is estimated at 2.0% over 2017-18 values. This amount is multiplied against the local option tax rate to determine the base level of tax revenue available to the District. The base tax level is then adjusted for “compression” – a situation in which the gap between real market value and assessed value is not sufficient to

Building the Budget

generate the full \$1.50 per \$1,000 tax rate and the taxes paid are only a part of the tax rate imposed. For 2018-19 the compression loss is estimated at 34.1% of the base tax level. The final amount represents the imposed local option tax level for the coming year.

Based on prior year tax collections, the District expects to collect approximately 94.5% of imposed taxes in the year they are due. Taxes not collected in the year in which they were imposed are collected in subsequent years. It is estimated that approximately 30.0% of uncollected prior years' property taxes will be received in 2018-19.

Other tax revenues include interest and penalties related to delinquent taxes. The District estimates these revenues based on prior year collections.

Debt Service Levy

The debt service levy funds principal and interest payments on long-term general obligation debt. Amounts received from this levy are held in the Debt Service Fund. Total requirements are the amount of principal and interest due during the fiscal year.

Total resources are current year taxes, prior year taxes, interest, federal subsidy revenue, and net working capital. Prior year taxes, interest, and federal subsidy revenue are all estimated based on what has been received in prior years and what the District expects to receive in the budget year. Net working capital is based on an estimate of what the prior year's unappropriated ending fund balance is expected to be. Current year taxes are the remaining revenue required to meet the District's payment obligations.

The amount certified for the debt service levy is the total revenue required for current year taxes, plus an estimate of uncollected tax. The 2018-19 budget assumes a collection rate of 94.5%. The estimate of uncollected tax is added to the total levy to ensure that the District collects enough to meet its debt service obligations.

The total certified levy is divided by assessed value (2.0% higher than 2017-18 assessed value) and multiplied by 1,000 to get the dollar tax rate. For 2018-19, the projected tax rate is \$1.600.

For more details on debt service obligations refer to the Debt Service Fund information in the Financial Plan section of this budget document.

¹ Budget summaries containing resources and requirements for all funds may be found in the Financial Plan section.

² The maximum debt service tax rate is \$1.60 per \$1,000 as publicized to voters during the 2013 bond measure.

Building the Budget

Tax Rate Comparison

	2014-15	2015-16	2016-17	2017-18	2018-19 Budget
Permanent Tax Rate Operating Levy	\$4.7485	\$4.7485	\$4.7485	\$4.7485	\$4.7485
Local Option Levy	\$1.5000	\$1.5000	\$1.5000	\$1.5000	\$1.5000
Debt Service Levy	\$1.5817 ¹	\$1.5605	\$1.6152 ²	\$1.5827 ³	\$1.6000

¹ Reflects the issuance of a portion of bonds approved in May 2013.
² Reflects the issuance of a portion of bonds approved in May 2011 and 2013. The increased debt service levy rate is due to a lower than expected assessed property value increase.
³ Reflects the issuance of the remaining bonds approved in May 2011 and 2013.

Other Resources

Other Local Resources

While the primary source of revenue supporting District operations continues to be the State School Fund and local taxes, the District does receive funding from other sources as outlined below.

Lane Education Service District (Lane ESD) Pass-Through Funding

State ESDs receive funding through the State School Fund (SSF) formula based on student enrollment reported for districts within their service area. Each ESD must spend at least 90% of their total SSF funds directly on school district programs or services. The other 10% is allocated for the operation of the ESD.

Each district within the ESD receives a portion of available funding based on their projected enrollment. For 2018-19, the District will use half of its available funding to obtain services directly from the ESD and receive the other half in the form of cash payments to support District-based special education programs and services.

In 2018-19, the District expects to receive approximately \$2.7 million from Lane ESD to support district special education services and programs.

Interest Income

Interest income is calculated based on projected cash balances for the coming year, and an estimated rate of return based on current rates available for the State of Oregon Local Government Investment Pool and financial institutions authorized to hold District funds. For 2018-19, the District expects to receive approximately \$0.70 million.

School-Related Receipts

School-related receipts include gate receipts from athletic events at high schools, student body card revenue from high schools, and athletic participation fees at middle and high schools. These are budgeted based on historic receipt patterns and, in the case of athletic participation fees and student body card revenue, the percentage of fees expected to be remitted to the District by schools (currently set at 66% of fee collections). For 2018-19, the District expects to receive about \$0.38 million in school-related receipts.

Building the Budget

Reimbursements

Reimbursements include student activity transportation reimbursements (payments received from schools for bus trips), child care reimbursements (reimbursable salaries for child care providers at two schools), and other local reimbursements such as reimbursements from schools' student body funds. These are budgeted based on historic receipt patterns. For 2018-19, the District expects to receive about \$1.28 million in reimbursements.

Building Rentals

Revenue is received from two sources: 1) the rental of school buildings no longer used by the District (closed schools), and 2) the rental of open District facilities. This revenue budget is based on historic receipt patterns, with adjustments made to reflect known changes in the availability of facilities for rental and the expressed intent of current renters (e.g. the sale of a building that was previously rented or a renter moving to an alternative location). For 2018-19, the District expects to receive about \$0.32 million in rental revenue.

Grant Administration

Direct grant costs generally include expenses such as staffing, materials, supplies and equipment purchased solely for use on a specific grant award or contract. Indirect costs represent the expenses of doing business that are not easily identifiable to a specific grant, but are necessary for the general operation of the organization and the conduct of activities it performs. For example, costs like heat, light, and support personnel such as accounting staff cannot easily be identified with specific cost objectives of a grant award or contract. Many grants or programs benefit from these types of activities so it is fair and necessary to distribute these indirect costs to grants.

An indirect cost rate represents each grant program's share of departmental administration costs. Each year, the District uses a methodology provided by the Department of Education to calculate an indirect cost rate for the coming year. This rate must be formally approved by the Department of Education before it is applied to District grant programs.

The District's approved indirect rate is applied to all activities in the Federal, State and Local Programs Fund, except when the grant agreement or contractual terms specifically exclude an administrative or indirect charge to the program. Estimated revenue has been calculated based on projected grant resources and the 2017-18 approved indirect rate of 5.5% of direct charges. For 2018-19, the District expects to receive approximately \$0.51 million.

Interfund Transfers

These transactions distribute funds to finance activities in another fund. The 2018-19 budget includes \$0.76 million in transfers.

Beginning Fund Balance

The beginning fund balance includes unexpended resources and the unappropriated ending fund balance carried over from the previous year.

Building the Budget

General Fund Requirements

Schools

Position Budgeting

Licensed staffing is assigned in a variety of ways. General classroom allocations of licensed staff members are based on three key factors: 1) projected enrollment, 2) the target student-to-teacher staffing ratio for each grade level, and 3) the Needs Index. The majority of staffing (60% of available staffing resources) is allocated strictly on enrollment, while the remaining 40% takes into account each school's level of need as reflected in the Needs Index. Schools also receive program staffing – a set level of staffing resources – for specific positions such as elementary physical education (PE) and music teachers, counselors, essential skills coordinators, and athletic directors. A separate process is undertaken to allocate special education and English language development teaching resources, as these resources must be distributed based on the needs of specific student populations, and even individual students, within the District. Schools also may receive additional staffing through external resources such as grants, fundraising, and federal/state programs.

Classified staffing is also assigned using multiple methodologies. General school allocations of classified staff time are based on projected enrollment and the number of students eligible for the District's free or reduced price meal program at each school. The number of classified hours available for allocation are limited by grade level (elementary, middle, high). Schools also receive program staffing – a set level of staffing resources – for specific positions such as school secretaries, crossing guards, records and scheduling assistants, office support, school safety coordinators and assistants, registrars and school-to-work coordinators. A separate process is undertaken to allocate special education and English language development classified resources. These resources must also be distributed based on the needs of specific student populations, and individual students, within the District. Schools also may receive additional staffing through external resources such as grants, fundraising, and federal/state programs.

Key factors are detailed below, followed by a brief description of licensed and classified staffing methodologies.

Enrollment

Enrollment History

For much of the past several decades Eugene School District 4J has experienced enrollment declines. Student enrollment reached its highest point in the mid-1970s at approximately 22,000 students and declined to 16,636 in 1984-85. During this period, the District reduced staff and closed several elementary schools. Between 1985 and 1993, enrollment again increased and two elementary schools were reopened.

Enrollment has consistently declined since 2002-03, when it was 17,379. In 2010-11, enrollment declined below the 1984-85 level and the District closed four elementary schools. Enrollment in 2014-15 was only 15,424, nearly 30% below the peak in the 1970's. The decline has not been steady, but has been consistent. The decision of the State Legislature to allow open enrollment across districts beginning in 2012-13 has had a positive impact on enrollment levels, as has the economic recovery of recent years. Beginning in 2015-16, kindergarten students were transitioned to a full day program, which has also had an effect on the District's enrollment. The District

Building the Budget

began experiencing enrollment growth in 2015-16 and expects to see moderate growth in future years with an increase of 147 students projected for 2018-19.

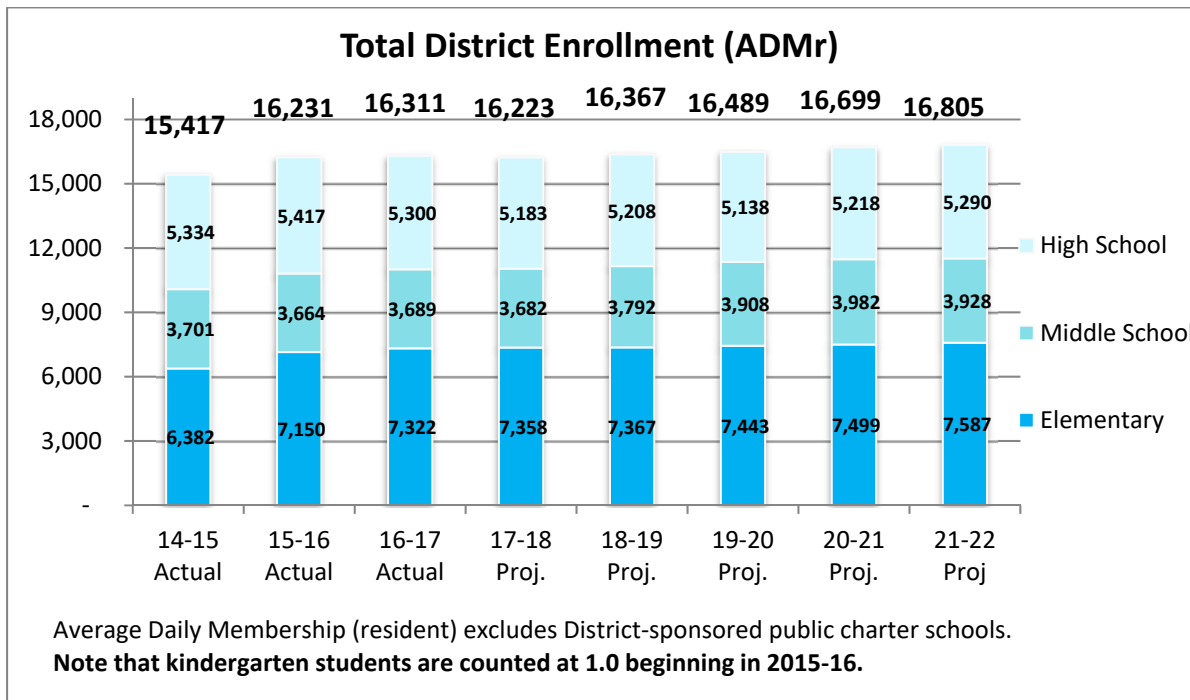

*15-16 reflects change to full day kindergarten

Note: Student enrollment is expressed as resident average daily membership (ADMr). It represents the average annual enrollment as of June 30 and had counted kindergarten students at 0.5 ADM, or half time. Beginning in 2015-16, kindergarten students were counted at 1.0 ADM due to the beginning of full-day kindergarten. The State uses ADM as the basis for allocating funds under the State School Fund formula and provides additional weighting (ADMw) for special education, poverty, English Language Learners (ELL), and pregnant and parenting students. The District also receives funding, most of it passed through to the provider, for students placed in alternative education programs or enrolled in District-sponsored charter schools. ADMr for 2008-09 through 2010-11 excludes students enrolled in charter schools and alternative education programs. Beginning in 2011-12, the ADMr above includes alternative education programs.

Building the Budget

ADMr based on Enrollment Projections

Enrollment is projected each year for the next five years by the research and planning team in the District's Instruction Department. The graph below shows ADMr by school level (actual and projected) for recent history and the years in the forecast. ADMr for 2018-19 is projected to be 16,367.

Methodology Used for Enrollment Projections

Each year, as part of the annual planning cycle, an estimate is made of the coming year's enrollment by school, by grade level, and for the District as a whole for the budgeted school year. Because the enrollment estimates are used for building a budget and for hiring decisions, they are conservative by design. These projections reflect the potential for enrollment of students as a result of open enrollment policies.

The enrollment estimates are based on the following factors:

- The number of live births in Lane County and the birth-to-kindergarten average capture ratio over the last three years.
- The number of students who continue in the system from one year to the next adjusted for the average retention ratio for the last three years.
- Three-year enrollment history.
- Student transfer and open enrollment expectations.

Other factors considered to test the estimates:

- Number of housing starts and new addresses added to the 4J area in current and prior years.
- Differential in median house prices in 4J and surrounding school district areas.

Building the Budget

Projections of Students from Open Enrollment

As a result of HB3681, Oregon districts may freely enroll students from other districts within a specified open enrollment window. The District has elected to allow such enrollment and defines open enrollment students as residents of a different Oregon district who choose to attend a 4J school. We have based our projections of the number of open enrollment students in 2018-19 on our past experience. The table on the next page reflects open enrollment projections and is used to determine staffing allocations.

Building the Budget

Student-to-Teacher Staffing Ratio

The District uses a target student-to-teacher staffing ratio, differentiated by grade level as noted below, to determine the number of licensed staff positions available for a given school year. In simple terms, projected enrollment is divided by the ratio amount and then adjusted to reflect staffing allocation levels: 1) elementary staffing is allocated in 0.25 full-time equivalent (FTE) increments, 2) middle school staffing is allocated in 0.20 FTE increments, and 3) high school staffing allocations are in 0.25 increments. For example, if projected enrollment was 100 students in grades 1-5, initial staffing would be 3.71 FTE (100 students ÷ 26.95 staffing ratio). However, as elementary school staffing is allocated in 0.25 FTE increments, we would round this to 3.75 FTE. A staffing formula is then used to allocate positions between schools based on projected enrollment and need.

As the staffing ratio decreases the number of available licensed positions increases – the opposite is true for periods when the staffing ratios are increasing. Target staffing ratios increased sharply during the economic downturn, but have stabilized with the return of economic growth. Kindergarten was expanded to a full day program in FY 2015-16. As part of this implementation the target student-to-teacher staffing ratio for kindergarten was set at 23. Staffing ratio’s are relatively unchanged from 2017-18 to 2018-19.

	2014-15	2015-16*	2016-17	2017-18	2018-19	5-Year Change
“Represents 1 Licensed FTE for Every ___ Students”						
Kindergarten		22.88	23.07	22.72	22.72	0.00
Grades K-5	26.98	26.38	27.05	26.95	26.70	-0.28
Grades 6-8	28.06	27.80	27.91	27.86	27.92	-0.14
Grades 9-12	29.18	29.16	29.18	29.07	29.17	-0.01

*** As different staffing ratios are now used for kindergarten and grades 1-5 we have chosen to report these ratios separately beginning in 2015-16**

Note: Student/teacher staffing ratios are used for hiring staff and are based on a targeted average for the District. Actual class sizes may vary widely depending on the move-in patterns of students, school demographics, and other factors.

Needs Index

Beginning in 2012-13, the District began using a staffing formula that incorporates a needs index to allocate a portion of general classroom licensed staffing and distribute targeted staffing to schools. Each school receives a needs index score, which is the weighted average of four key characteristics of the school’s student population:

- Poverty (50% of the score): the percentage of students at the school who qualify for free or reduced-price school meals.
- Mobility (30% of the score): the proportion of students who enroll or depart the school mid-year (October 1st through June 1st). This is calculated by taking the total number of arrivals and departures and dividing this number by the school’s enrollment.
- Special education (15% of the score): the percentage of students at the school receiving special education services.
- English language learners (5% of the score): the percentage of students identified as English language learners at the school.

Building the Budget

This score is used to develop each school's needs-weighted enrollment as follows:

Example

School's needs index score	25
	÷ 100
	+ 1
School's needs-index weighting	= 1.25
School's needs-index weighting	1.25
School's projected enrollment, e.g. 300	x 300
School's needs-weighted enrollment	= 375

Needs-weighted enrollment is used to allocate 40% of available licensed staffing resources and distribute targeted staffing. A more detailed description of these calculations is included in the licensed staffing sections of Building the Budget.

It is important to note that the Needs Index does not provide additional resources. Very simply put, the use of this index in staffing shifts existing resources between schools at each grade level (elementary, middle, high) based on need. It seeks to ensure staffing equity based on the needs of each school, instead of providing equal amounts of staffing at each school.

NEEDS INDEX: WHY DO WE USE IT?

EQUITY ≠ EQUALITY
EQUALITY = same inputs
EQUITY = same outcomes

- Every child deserves to get the support they need to succeed.
- Students have different needs, based on their life circumstances.
- So we target more of our limited resources to where our students need them most.
- That means providing staffing based on the needs of students, not just the number of students.

LEP - percentage of students identified as English language learners

MOBILITY - percentage of students who entered or exited school

Building the Budget

School Staffing Methodology

General Licensed Staff Allocation

Classroom Allocations

The process begins when the District receives initial projected enrollment numbers for the coming year and an updated Needs Index from the Director of Research and Planning. Enrollment is projected by school and by grade level within each school. Projected enrollment of students with special education needs is also provided at the school level, as the general classroom allocation formula only provides a small portion of the support resources for this student population (see *Education Support Services Staffing* for additional information). This information is entered into the staffing allocation model. With the implementation of full-day kindergarten in 2015-16, all general education students were reflected in the model as full-time students (previously kindergarten students were counted at 0.5 to reflect a half-day program) and special education students are counted at quarter-time (0.25 per student). This calculation produces the projected enrollment for staffing that is carried forward to the next step in the calculation.

Available staffing resources at each grade level (elementary, middle and high school) are determined by dividing projected enrollment by the target student-to-teacher staffing ratio for that grade level. The staffing allocation model then calculates each school's base staffing using the following formula: 1) 60% of available resources is allocated to schools based on their projected enrollment, and 2) 40% of available resources is allocated based on the needs-weighted enrollment for each school. This split is intended to provide balance and mitigate staffing impacts to schools with low needs index scores.

While the first part of the formula is relatively straightforward, the second part can be harder to visualize. The calculation is essentially:

$$\begin{aligned} & 40\% \text{ of available resources at each grade level} \\ \div & \text{ Sum of all needs-weighted enrollment at that grade level} \\ = & \text{ Per-student allocation for needs-weighted enrollment} \\ \\ & \text{School's needs-weighted enrollment} \\ \times & \text{ Per-student allocation for needs-weighted staffing resources} \\ = & \text{ School's needs-weighted staffing allocation} \end{aligned}$$

Once this calculation has been completed, the raw staffing number is rounded in accordance with the District's staffing methodology. Elementary allocations are rounded to the nearest 0.25 FTE, while middle school staffing is rounded to the nearest 0.2 FTE and high school staffing is rounded to the nearest 0.25 FTE.

Following this process, the final general classroom staffing allocation is provided to schools and the Human Resources Department for use in the development of staffing plans for the coming year.

Program Staffing Allocations

Schools also receive program staffing – a set level of staffing resources – for specific licensed positions. Program staffing is assigned by grade level and school. The method used to allocate these resources differs based on grade

Building the Budget

level and purpose. As a result, schools within each grade level may not receive the same level of program staffing. For 2018-19, licensed program staffing allocations include:

- Elementary – 17.0 FTE for counselors (an increase of 4.0 FTE)
- Middle School – 8.0 FTE for counselors and 1.4 FTE for language immersion programs
- High School – 10.0 FTE for counselors, 7.2 FTE for athletic directors, trainers, and freshman specialists, 6.52 FTE for additional support related to high-needs students, 16.00 FTE to support fully scheduling ninth and tenth grade students as well as 4.85 FTE for other support of international programs and 1.0 FTE to support language immersion programs.

General Classified Staffing Allocations

Classroom and School Allocations

Schools are allocated hours of classified staffing support for classrooms and other services based on projected enrollment. For 2018-19, classified classroom and school allocations include:

- Elementary – 242.0 hours (30.25 FTE) for kindergarten education assistants allocated to schools based on their projected kindergarten enrollment, and approximately 231 hours (28.88 FTE) allocated to schools for general support based on projected enrollment.
- Middle School – 7.55 hours (.94 FTE) allocated based on the number of students qualifying for the free/reduced lunch program at each school and an additional 7.55 hours allocated based on projected enrollment for general support.
- High School – approximately 142 hours (17.75 FTE) allocated based on projected enrollment and an additional 102.5 hours (12.8 FTE) allocated based on the number of students qualifying for the free/reduced lunch program at each school for administration and general support.

Program Staffing Allocations

Schools also receive program staffing – a set level of staffing resources – for specific classified positions. Program staffing is assigned by grade level and school. The method used to allocate these resources differs based on grade level and purpose. As a result, schools within each grade level may not receive the same level of program staffing. For 2018-19, classified program staffing allocations include:

- Elementary – 152 hours (19.0 FTE) for office management, 9.5 hours (1.19 FTE) for crossing guards, 11.2 hours (1.4 FTE) for schools with enrollment over 450 students, and 265 hours (33.13 FTE) for custodial services.
- Middle School – 192 hours (24.0 FTE) for office management, 30 hours (3.75 FTE) for school safety, 3 hours (.38 FTE) for crossing guards, and 179 hours (22.38 FTE) for custodial services.
- High School – 47 hours (5.88 FTE) for school safety, 16 hours (2.0 FTE) for registrar assistance, 16 hours (2.0 FTE) for school-to-work coordinators, and 166 hours (20.75 FTE) for custodial services.

Targeted Staffing Allocations

Beginning in 2017-18, and in addition to other staffing allocations, schools receive an equivalent allocation in classified staffing hours from the targeted funding source previously allocated in discretionary dollars. The staffing allocations from targeted funds available in 2018-19 include:

Building the Budget

- Elementary schools will receive 28.2% (28.2 additional classified hours)
- Middle schools will receive 29.9% (29.8 additional classified hours)
- High schools (including ECCO) will receive 41.9% (41.9 additional classified hours)

Within each level, available funds are converted to classified hours and allocated to individual schools based on their needs-weighted enrollment for the year, which is developed as part of the licensed staffing allocation process.

Student Services Department (Special Education) Staffing Allocation

The Student Services Department begins their calculation of licensed and classified staffing by determining a projected student case load for the coming year. This calculation uses current year enrollment, the current year case load (which is sampled at least three times during the year), and projected enrollment for the coming year to determine a projected case load as follows:

Projected Case Load = (current year case load ÷ current year enrollment) x projected enrollment

Once a projected case load is determined, staffing is allocated to establish a “base” staffing level. This staffing is reviewed and adjusted based on various issues or concerns in the program (e.g. 0.914 FTE projected rounds down to 0.9 FTE base and can be adjusted by 0.1 FTE to make the final allocation 1.0 FTE) if this makes sense given the continuum of services for the program, current significant needs in the program, staffing or personnel issues or concerns, etc. This final area is subjective and is based upon the SSD administrators’ review of students, program and school challenges during the instructional year. It is also based upon case load swings during the instructional year. This additional staffing is at the discretion of the Director of SSD based upon overall special education staffing levels (school based and itinerant) throughout the District.

English Language Learners (ELL) Staffing Allocation

In making staffing allocations to buildings, consideration is given to grade level and language proficiency in addition to the number of ELL students when allocating licensed and classified resources. As a general rule, buildings have been staffed with the following student to teacher ratio.

The 2018-19 student to teacher ratio is 43:1, down from 47:1 in 2017-18.

# of ELL Students	FTE
1-9	0.05-0.2 licensed FTE
10-18	0.2-0.4 licensed FTE
19-27	0.4-0.6 licensed FTE
28-36	0.6-0.8 licensed FTE
37-45	0.8-1.0 licensed FTE
over 45	1.0 licensed FTE and possible classified instructional assistant

Almost every secondary school will have enough FTE for a class period. Secondary schools with less than a class period of FTE will provide 2 to 3 days a week of ELL service to students and dual enroll in another course.

Building the Budget

Grants, Fundraising, and Federal/State Programs

School licensed and classified staffing may be augmented by any of the following sources:

- Grants – schools may receive grants from private organizations or other government entities to provide resources for specific programs or activities. Staff are allocated to grant funding based on the terms of the grant agreement, and District grant managers are responsible for ensuring that work completed complies with grant terms.
- Fundraising – private individuals and organizations may contribute to school staffing during fundraising events sponsored by a variety of groups including the Eugene Education Foundation, parent organizations, alumni groups, school clubs and athletic teams, and individual schools. The District requires that funding must be received before licensed or classified staffing is added.
- State and Federal Programs – the District receives funding through a variety of federal and state grants. For example, in 2017-18 schools benefited from millions of dollars in grant funds from the Elementary and Secondary Education Act (Title I, II, and III funding), the Individuals with Disabilities Act (IDEA), and the BEST Afterschool Program (21st Century Community Learning Center). Licensed and classified staffing under these programs is allocated to schools based on federal and state criteria, and District grant managers are responsible for ensuring that work completed complies with requirements. As many of these programs target resources to specific student populations, not all schools will be eligible for additional funding.

Extra Duty Stipends and Staffing

Additional funding is provided to schools to compensate staff members for extra duty assignments related to school leadership, student activities, student athletics, and student supervision:

- School Leadership – each school receives a leadership increment to be used to compensate licensed staff members serving on school leadership committees/teams. This flat grant is increased annually by the rate of any cost of living adjustment (COLA) in place for licensed staff. In addition to this amount, high schools also receive COLA-adjusted stipends for contractual payments related to athletic directors and media specialists.
- Student Activities – the District provides a set level of funding to elementary, middle and high schools to compensate licensed staff who oversee student activities. At the elementary level, funding is provided for music instruction. Middle school funding includes orchestra, band, choir, drama and journalism. High schools receive funding for orchestra, choir, band, a school paper, yearbook, rally (cheerleading), dance team, drama, and musicals.
- Student Athletics – each middle and high school receives general funding for head and assistant coaches for various sports. The only sport supported at the middle school level is track. At the high school level boys, girls, and coed sports include: football, basketball, baseball, wrestling, soccer, tennis, volleyball, softball, track, swimming and cross country.
- Student Supervision – each middle and high school receives a supervision increment to be used to compensate staff members who supervise students during school events. This flat grant is increased annually by the rate of any COLA in place for licensed staff.

Building the Budget

For student activities and athletics, each school receives a set stipend amount (reflected as a percentage of licensed salary) for every activity leader, head coach and assistant coach position authorized by the District. Allowable stipend percentages are detailed in section 5.1 of the collective bargaining agreement between the Eugene Education Association and the District. Over the past several years District funding for student activities and athletics has been reduced, and in some cases eliminated, to resolve spending deficits. As a result, not all of the positions listed within the bargaining agreement are currently funded by the District.

Discretionary Budgets – Schools

Schools are allocated discretionary budgets to provide funds to cover various operating costs (e.g. supplies, textbooks, repairs and maintenance, field trips and equipment). These budgets are primarily allocated to schools in three ways: 1) a set amount per pupil, 2) flat grants for specific purposes, and 3) additional funding for small schools.

Per pupil amounts are based on total projected enrollment and support both regular and special education programs. For 2018-19, per pupil allocations are \$85.64 for elementary schools, \$106.00 for middle schools, and \$134.33 for high schools. Supplemental funding is provided to small schools, as they may not have enough students to generate funding to meet their minimum building costs. Elementary schools under 250 students and middle schools under 400 students receive an additional per pupil allocation to support services at their location.

Funding for custodial and building maintenance supplies is determined centrally based on each school's expected level of need (number of students, square footage of school, age of school, etc.).

Flat grants support advisory and site council supplies, small building remodels and site improvement projects for all schools, intramural sports for middle schools, and vehicle supplies, athletics and career center funds for high schools. Flat grants are allocated based on the student population served (elementary, middle or high school).

Schools are responsible for developing and managing their discretionary budgets. For 2018-19, school discretionary budgets have been increased to reflect expected cost increases of 1.7% (based on the US Urban Consumer Price Index).

*** International High School is budgeted to pay \$16.91 per IHS student to the high school where those students attend. This payback is reduced by \$1,000 for each high school with IHS students to cover International Baccalaureate related expenses.

\$134.33 Per Pupil Amount - General Fund

\$67.17 IHS Per Pupil Amount - General Fund

Building the Budget

Departments

Staffing Methodology

Department staffing budgets are set based on an authorized level of staffing (number of FTE) for licensed, classified, administrative, professional, and classified supervisor positions. Staffing budgets are adjusted to reflect contractual terms of employment (step increases for eligible employees, cost of living adjustments, new steps, furlough days).

Normally, changes to a department's staffing must be cost-neutral. If a department wants to permanently increase staffing or reclassify existing positions they must: 1) eliminate other positions or reclassify them to offset costs, or 2) take a permanent reduction in their discretionary budget to fund the change. Outside of this process, the Superintendent may authorize additional staffing for a department to address critical concerns impacting the department's ability to provide services to students or district staff. Approved staffing increases become a part of the department's permanent budget.

Discretionary Budgets

Departments are allocated discretionary budgets to cover various operating costs (e.g. supplies, purchased services and equipment). Department discretionary budgets normally do not change year-to-year, with the exception of a small annual increase (2018-19 increase is 1.7% based on the US Urban Consumer Price Index) to help departments absorb increases in the cost of goods and services.

The Superintendent must approve any increase to a department's discretionary budget. An ongoing or permanent increase may be requested to address a cost increase outside of the department's control (e.g. utility cost increase), a critical workload concern (e.g. additional funding for day-treatment programs for students), or any other critical concern impacting the department's ability to provide services to students or district staff. Approved ongoing increases become a part of the department's permanent budget.

Program Budgets

The Student Services Department and Instructional Services departments develop and administer central budgets for many district programs. Budget development generally follows two patterns:

- Funding-based programs – budgets are based on the level of funding available for the specific program or activity. Resources are centrally managed by District program staff, and allocated to schools based on specific criteria. Most state and federal programs follow this budget pattern.
- Need-based programs – budgets are based on the level of required services for a specific program or activity. District program staff determine the level of resources required based on the needs of specific student populations, and centrally manage and allocate resources to monitor service delivery.

Charter School Funding and Its Effect on the District

In Oregon, a charter school is a public school operated by a group of parents, teachers and/or community members as a semi-autonomous school of choice within a school district. Under Oregon law (see [ORS 338](#)), a charter school is a separate legal entity operating under a binding agreement with a sponsor, i.e., the District. Charter schools within the District are given the authority to operate under a contract or charter between the members of the charter school community and the District. Public charter schools are subject to certain laws

Building the Budget

pertaining to public schools, are released from others, and must operate consistent with the charter agreement. The 2018-19 budget includes projected state school funding and estimated payments to Twin Rivers Charter School, Coburg Community Charter School, Network Charter School, Ridgeline Montessori Public Charter School, and The Village School.

Under Oregon law, for purposes of distributing State School Funds (SSF), charter school students are considered residents of the school district in which the public charter school is located. The sponsoring school district contracts with the charter school to pay for educational services. The contracted payment must be at least:

- 80% of the amount of the school district's General Purpose Grant per weighted Average Daily Membership (ADMw) for students in grades K-8, or
- 95% of the amount of the school district's General Purpose Grant per ADMw for students in grades 9-12.

The Oregon Department of Education (ODE) distributes all attributable SSF to the district in which the charter school is located. The district, in turn, must establish the payment arrangements and the timely transfer of a percentage of these funds to each charter school in the district. Payments must be made within 10 days after the district receives payment from the State School Fund, per ORS 327.005. The District budgets the amount of flow-through SSF payments to its charter schools by using ADMw projections provided by the charter schools and per pupil funding estimates provided by ODE. ADMw is then multiplied by 80% (grades K-8) or 95% (grades 9-12) of the SSF per pupil amount to arrive at an estimated amount for each charter school.

In addition to SSF payments, the District also pays a portion of local option levy revenue received to the charter schools for students that resided within district boundaries during that year. To budget this, projected local option revenue is divided by projected district resident Average Daily Membership (ADM_r), including charter school students, to come up with a per student amount. Charter school payments are then determined by multiplying the total of charter school students within district boundaries by either 80% or 95% of the per student amount, depending on grade level.

For charter school students who live outside the boundaries of the District, the District is required to return to the resident school district one half of the SSF payment retained on behalf of those students.

Equipment & Capital

Appropriations for capital outlay and depreciable equipment includes new buildings, building improvements, site improvements, new or replacement equipment, technology, vehicles and buses. The District defines capital assets as assets with an initial individual cost of more than \$5,000 and an estimated useful life in excess of one year. The majority of equipment and capital expenditures budgeted in the General Fund include building improvement, repair and maintenance at schools, and vehicle purchasing, servicing, and maintenance in the Transportation Department's bus fleet.

Other Requirements

Expenditures for principal, interest, dues and fees, as well as insurance and judgments are included in other requirements. The District provides a budget in the General Fund for dues and fees for membership in professional organizations or associations.

Building the Budget

The District self-insures for costs up to policy deductible limits that range from \$25,000 for physical fleet damage and liability to \$150,000 for building and business personal property damages and public entity liability for each covered event. Other appropriations in the General Fund include budgets for liability and property insurance as well as deductibles as described.

Debt Retirement – Short Term Borrowing

This account is used to budget the cost of short-term borrowing necessary to fund District operations during periods when cash reserves are depleted. The District’s goal is to minimize the cost of short-term borrowing. No short-term borrowing is anticipated in 2018-19. The \$1 budgeted for potential interest expense preserves the District’s budgetary authority to borrow if it should experience unforeseen cash flow difficulties.

Transfers

This category represents transactions for moving funding from one fund to another and does not represent a purchase. The District has appropriated payments from the General Fund to other funds that include transfers to the risk management fund and insurance reserve funds as noted below. These transfers cover program administration of the insurance reserve funds, fund the Risk Management program, and are implemented as outlined in the collective bargaining agreements.

Transfers between funds:

		From							
		General Fund	Special Purpose Reserve	Capital Equipment Reserve	Insurance Reserve Fund	Licensed Insurance Reserve	Classified Insurance Reserve	Admin. Insurance Reserve	Total
General Fund			1,000	1,000	1,000	650,000	101,000	1,000	755,000
Nutrition Svcs.		300,000					32,000		332,000
Risk Mgmt.		339,500							339,500
To	Lcnd. Ins. Res.	135,000							135,000
	Clas. Ins. Res.	75,000							75,000
	Admin. Ins. Res.	40,000							40,000
Total		889,500	1,000	1,000	1,000	650,000	133,000	1,000	1,676,500

Contingency

This appropriation allows for unforeseen expenditures. Budget authority in this account can only be used with approval of the School Board. An appropriation is then transferred and costs charged to the fund which incurs the expenditure.

Operations Reserve

A total of \$17.7 million has been set aside in 2018-19 to address projected budget shortfalls in the next two biennium. As noted in the District’s December 2017 long term financial forecast, the Public Employee Retirement System (PERS) blended rate paid by the District is increasing by 6.38 percentage points for the 2019-21 biennium, which is an estimated increase of over \$6.18 million each year of the biennium. By continuing to set aside funds to help offset this increase the District hopes to minimize the need for budget cuts in the coming bienniums.

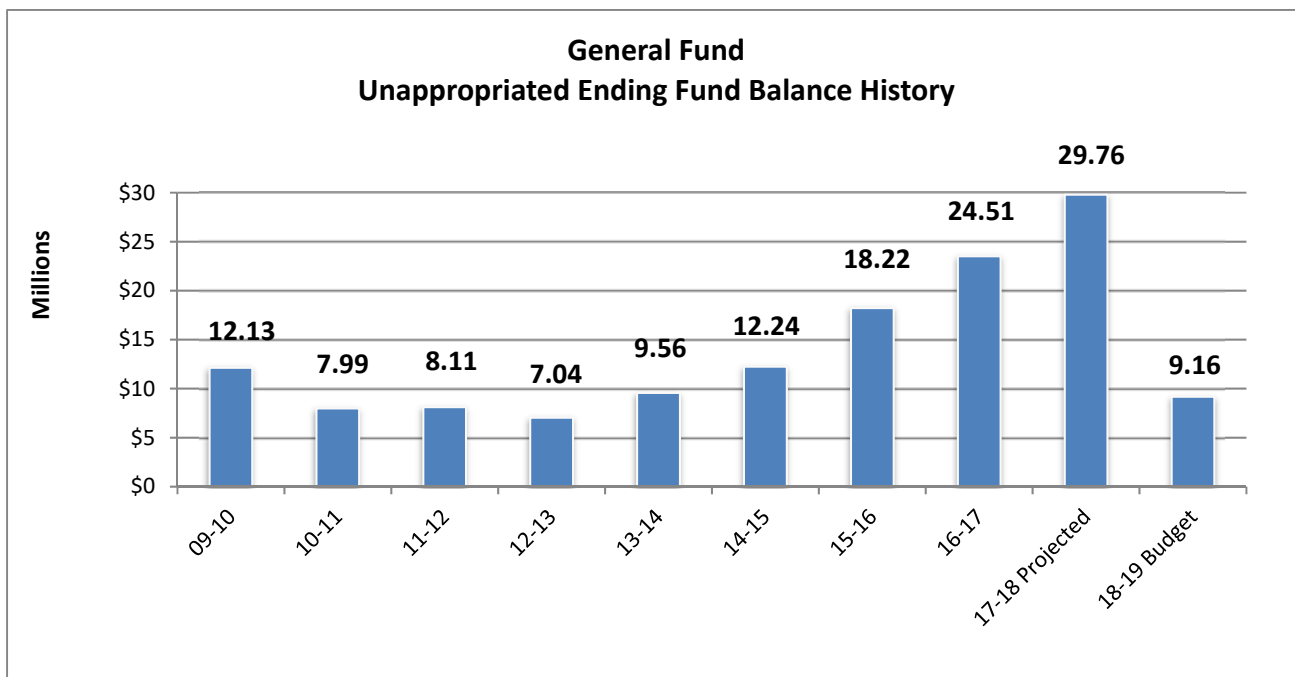

Building the Budget

Should this concern be resolved through future legislative actions, the Superintendent may propose and the Board may approve using reserve funds to address other District operational needs or Board priorities. Use of this reserve will require Board approval through resolution or the adoption of a supplemental budget.

Unappropriated Ending Fund Balance

The UEFB represents a cash carryover to the next year's budget for stability in volatile economic times and cash flow until other resources are received. It cannot be accessed by resolution or supplemental budget during the fiscal year in which it is budgeted. It is described under Board policy.

Board policy sets a minimum target for the projected ending fund balance at 5.0% of operating revenues. It also permits the use of a portion of the projected ending fund balance to stabilize services if revenues are less than anticipated. The use of reserves below 5.0% requires a plan for rebuilding reserves to the targeted level within five years. For the 2018-19 budget, the District has set the General Fund ending fund balance level at 5.0% as per Board policy.

Building the Budget

Other Funds

Federal, State & Local Programs Fund

This fund accounts for grants received from federal, state and local governments, and private grant foundations. The District's estimate of available grant funding for the coming year is based on a variety of factors including current grant funds that will be carried forward to the coming year, multi-year grant programs, award letters already received for the upcoming year, and anticipated new grants. Budgeted amounts are based on estimated funding; however, grant funds must be officially awarded before any spending can occur.

For 2018-19 the District's estimate of available grant funding is \$19.3 million (6.9% increase from 2017-18.)

School Resources Fund

Special Purpose Reserve

The Financial Services department estimates potential General Fund savings for departments and schools that could be carried forward into the next fiscal year. Appropriations are then set to ensure that schools and departments can spend the savings for items such as equipment, additional staff, and instructional materials such as textbooks and library books. For 2018-19 the District estimates that \$8.0 million in current and prior year savings will be available to schools and departments, and for district-wide initiatives.

Student Body Fund

Student Body Fund revenues include school fundraising, student fees, athletic participation fees and gate receipts, and other school-related activities. Some student body amounts are dedicated to specific expenditures, such as staffing or specific program purchases. Other amounts may be used for any educational purpose. For 2018-19 the District estimates that \$6.8 million will be available to provide additional staffing within schools, support school based programs and initiatives, and provide funding for clubs, activities and athletics. This is based on an analysis of prior year actual amounts spent and received.

Debt Service Fund

The Debt Service Fund accounts for principal and interest payments on long-term general obligation and limited tax pension obligation debt. Expenditures budgeted each year represent the portion of principal and interest on outstanding debt that must be paid during that fiscal year. Sources of revenue include the debt service levy on local properties, interest earnings on investments, and charges to other funds. Budgeted debt service costs of \$29.3 million in 2018-19 reflect the District's repayment of general obligation and pension obligation bonds.

Capital Projects Fund

The District maintains multiple capital projects funds that provide resources for capital projects. Each fund has a distinct purpose and funding source, and revenues are used for authorized purchases and capital construction projects within each fund. A Long-Range Facilities Plan guides the District's capital programs. In the process of preparing the Long-Range Facilities Plan, projects are identified, prioritized, and matched to anticipated funding sources and streams (primarily approved bond measures). Combined resources for the Capital Projects Fund for fiscal year 2018-19 are approximately \$55.5 million.

Building the Budget

Nutrition Services Fund

The Nutrition Services Fund accounts for the revenue and expenditures of the District’s meal programs which the District manages in collaboration with Sodexo, a contracted service company. Principal sources of revenue comprise sales of meals and subsidies received under the National School Lunch Act. The financial goal of the program is to break even – matching revenues and expenditures.

Operating costs include menu planning, meal production and service, operations management (purchasing, inventory, warehouse, delivery), and management of information services (student meal accounts and data collection). The Nutrition Services staffing budget is calculated based on meals per labor hour within a standard range for each school level (elementary, middle and high school), projected enrollment and an estimated level of participation. Other variables include the timing of meals, facilities layout, menu customization, and other site-based programs including summer school and after-school snacks.

Salaries and other payroll costs are budgeted at \$3.1 million while food and other expenses are estimated to be \$3.1 million. Food service professionals serve healthy meals at 31 school-building sites and support vended meals for three additional programs.

Insurance Reserve Fund

The Insurance Reserve Fund accounts for the majority of the District’s insurance and risk management functions, including employee benefit plans and property and liability insurance. It is comprised of the following funds:

General Risk Management Fund

This fund accounts for remittances of workers compensation and unemployment payments (approximately \$1.0 million), administration of the District’s risk programs, and a contingency for insurance deductibles in the event of claims (\$0.5 million). The budgeted expenditures for this fund are primarily funded by payroll collections for workers compensation and unemployment insurance and transfers from the General Fund.

Insurance Reserves

The insurance reserve funds are jointly controlled by the Joint Benefits Committee (JBC), comprised of District representatives and representatives of each of the employee groups (licensed, classified, and administrative). Contributions are made to the insurance reserves by the District based on full-time FTE (2018-19 – \$1,200 for licensed and administrative staff and \$1,080 for classified). As required by current labor agreements, District contributions are made to Insurance Reserves regardless of whether or not the employee is enrolled in a 4J-provided insurance plan. Employee contributions vary depending on individual plan choices and the employee’s FTE level. Health insurance is provided by the state-mandated Oregon Employee Benefits Board (OEBB). The 2018-19 budget estimates OEBB rates and employee contributions to be at rates higher than in the current year (approximately 8%). Adjustments for actual rate increases may be made through supplemental budgets, if required.

Wellness Clinic

The 4J Wellness Clinic is a health care service available for most 4J employees that has operated since October 1988. Oversight for this service is provided by the JBC. The District has contracted with Cascade Health Solutions to provide a full range of healthcare services at the clinic since July 2012. The fund’s primary resource is a \$20 monthly employee contribution, and expenditures consist mainly of services provided by the clinic.

Building the Budget

Postemployment Benefits Fund

The Postemployment Benefits Fund provides monthly cash payments and/or insurance benefits for eligible employees who retire before age 65. Benefit levels and eligibility have been bargained and vary among the different employee groups. This program ended in July 1996 for administrators and July 1998 for teachers. The fund provides benefits for most administrators and teachers hired before those dates, as well as a limited contribution to health premiums for retired classified employees. At the time the plan was discontinued for administrators and teachers, employees were given the option to convert to a plan that offered increased District-paid tax sheltered annuities.

The annual cost of retirement benefits is estimated for the next year based on employees eligible to retire and those who have retired that are currently receiving benefits. To cover the annual cost of retirement benefits, the District budgets a percentage of salary costs in the General Fund to be contributed to the Postemployment Benefits Fund. For 2018-19, \$1.4 million is budgeted in the General Fund to cover these costs.

For additional information regarding Postemployment Benefits plans please see the District's latest Comprehensive Annual Financial Report at: <http://www.4j.lane.edu/finance/docs/>.

Private-Purpose Trust Fund

The Private-Purpose Trust Fund is used to administer privately funded scholarship programs that benefit individual students. The District established this fund in 2017-18 to report scholarship-related balances and activities for scholarships such as Gillilan-Torrey Memorial Scholarship. For 2018-19, \$200,000 is budgeted to cover the activities of currently known scholarships.

Building the Budget

District Staffing History

The chart presented below shows District staffing for a five-year period. Staff funded in the Federal, State and Local Programs Fund have been excluded from this presentation, as staffing can fluctuate significantly from year to year with the availability of grant funding. Information is presented as full time equivalent (FTE) staffing.

¹ FTE associated with functions 2115 (Student Safety), 2122 (Counseling Services), 2190 (Service Direction for Special Programs), 2411 (Principal Services), and 2490 (School Administration) has been presented in the Classroom Services and Support section to provide a more comprehensive view of staffing resources allocated to schools and special programs.

Building the Budget

Significant Trends and Adjustments

Licensed Staffing

The five-year period looks back to 2014-15 when the District was emerging from the Great Recession and as funding was restored for previously planned furlough days. Enrollment gains, additional elementary music and PE teachers, additional elementary counselors, fully scheduling ninth and tenth graders, supports for immersion programs, and the implementation of full-day kindergarten (32.0 licensed and 25.63 classified FTE) have played a large role in the 211.8 FTE gain. While the District has not been able to substantially decrease student-to-teacher ratios used to determine school and program staffing, we have stabilized ratios at all grade levels. In addition, the following initiatives will be continued in 2018-19.

- Increase of 4.0 FTE in additional counselors at elementary schools for a total of 17.0 FTE.
- Continuing implementation of the Mandarin Chinese Language Immersion Program at the Crest Drive location with Family School. This program will add a second grade to the current kindergarten class and first grade class established in 2017-18 with the addition of 1.0 FTE licensed teacher for 2018-19.
- Increased program staffing for Spanish and Japanese immersion programs at Kelly Middle School and North Eugene High School with an additional 0.65 FTE licensed staff.
- Increase of 7.8 FTE in licensed teachers to provide additional physical education at elementary schools and to meet additional teacher preparation time (as per the 2017-2020 Collective Bargaining Agreement with the Eugene Education Association (EEA) requirements).
- Expand support for increased case-loads for school psychologists and speech specialists with additional 1.2 FTE licensed staff.

Classified Staffing

Elementary schools have experienced growth in classified staffing primarily due to the implementation of full-day kindergarten and enrollment gains. Growth at the middle and high school level has been minimal. Other initiatives to be implemented in 2018-19 include the following.

- The Student Services Department is adding 18.94 FTE for a health services assistant and educational assistants to meet the growing needs for cognitive and behavior supports in the district's Comprehensive Learning Centers in elementary schools and 1:1 supports at middle and high schools.
- Nutrition Services added 7.4 FTE kitchen and warehouse staff to support the increased participation due in part to free breakfasts at all elementary schools.

Professional Staffing

The addition of approximately 2.2 FTE professional staff over the five-year period is due to a variety of initiatives:

- Transportation reclassified their programmer analyst (classified) to a business information systems analyst and the District added a part-time bond planning manager.
- Financial Services added a capital projects analyst which is shared with Facilities.
- Human Resources funded an executive assistant position by eliminating a 1.0 FTE administrator.
- Technology's addition of 1.7 FTE relates to network security staffing and the addition of support for instructional technology initiatives with the reduction of a Lawson special projects manager.

Building the Budget

- Libraries, Curriculum and Staff Development reclassified the equity & diversity manager from a professional position to an administrative position

Administrators

Over the five-year period, administration has grown by approximately 4.9 FTE. This growth is primarily due to department reorganizations, the addition of an Assistant Superintendent for Administrative Services and additional administrative support for large elementary schools.

- Elementary schools receive additional administrative support with a 0.5 FTE principal added to support the Chinese Immersion Program and the increase of a 1.0 FTE assistant principal to support the District's three largest elementary schools.
- Over the five-year period, the Arts and Technology Academy received an additional 0.50 FTE administrative support to allow for a full-time principal position and North Eugene High School had a reduction of an assistant principal position to align with other high school administrative allocations.
- Special Programs administration has increased by 0.9 FTE to provide services for the Comprehensive Services Program, Home Instruction, and the Instructional Program.
- Human Resources made many changes that resulted in the reduction of the risk manager and the recruitment, compensation, & classification administrator positions and added a safety officer and in-house counsel.
- The District added an assistant superintendent for administrative services.
- Libraries, Curriculum and Staff Development made a variety of changes over this period, ultimately increasing administration by 1.9 FTE to support English language arts, elementary education and college and career readiness. In addition, the equity & diversity manager was reclassified from a professional position to an administrative position.
- Financial Services eliminated 1.0 FTE administrator position to fund other position reorganizations within Financial Services.

Classified Supervisors

Classified supervisors increased by 2.0 FTE during this five-year period. The biggest change in this classification was made in Financial Services. Financial Services eliminated an administrative position (Financial Operations & Reporting Manager) and a professional position (Financial Management Analyst III) to fund the creation of two new classified supervisor positions.

Total - All Funds	\$109,676,608	\$279,253,916	\$372,650,898	\$ 8,718,238	\$25,306,691

Ending fund balance is defined in Financial Management Policy DI as the difference between a fund's resources and requirements at year-end. In the General Fund, balances are maintained to provide stable services and employment, and to offset cyclical variations in revenue and expenditures.

Fund balance projections indicate the estimated financial condition of the District at year end. School Board policy sets the targeted minimum fund balance for the General Fund at 5.0% of operating revenues. Operating revenues reflect total revenues less transfers from other funds of \$755,000.

The Board may allocate a portion of the projected ending fund balance to the unappropriated ending fund balance (UEFB) in the annual budget and a portion to contingency. The UEFB may not be spent or appropriated during the fiscal year in which it is budgeted. Contingency funds may be spent subject to Board action through a supplemental budget or resolution.

¹Underspending is projected to be 66% of the budgeted operating contingency.

²The School Resources Fund contains both Student Body and Special Purpose Reserve sub funds. Underspending for Student Body represents 97% of the budgeted contingency plus 0.75% of all other accounts. Underspending for the Special Purpose Reserve is projected to be 66% of the budgeted contingency plus 50% of all other accounts.

³Underspending is expected to be 5% of budgeted expenditures, excluding transfers and debt service payments.

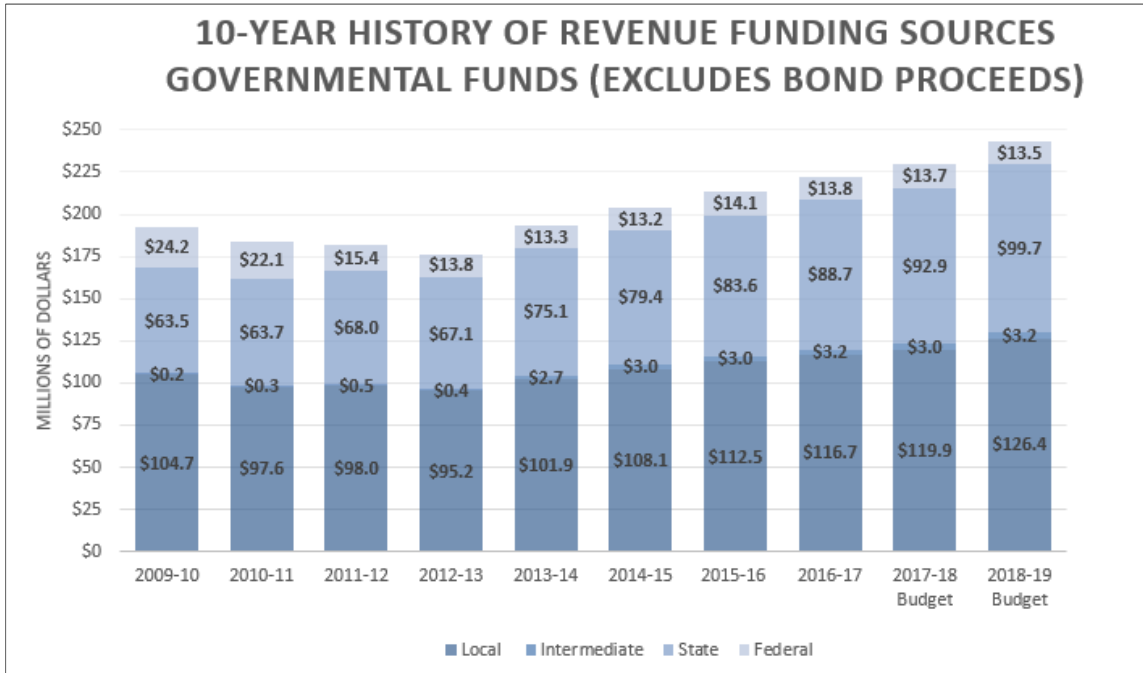

⁴Underspending is projected to be 66% of the budgeted contingency plus 3% of all other accounts. Transfers are excluded from underspending calculations.

⁵Underspending is projected to be 97% of the budgeted contingency and 0.75% of all other accounts.

Financial Plan

Governmental Funds Revenues & Expenditures

Revenues come from a variety of local, intermediate, state and federal sources. The chart below shows revenues received in the Governmental Funds (General Fund, Debt Service Fund, Capital Projects Fund, Federal, State & Local Programs Fund, Nutrition Services Fund, and School Resources Fund), excluding bond proceeds, fund transfers, and beginning fund balance.

The chart below compares revenues and expenditures in the Governmental Funds as defined for financial statement reporting purposes. Both revenues and expenditures include bond proceeds and spending from those proceeds, and exclude fund transfers, beginning and ending fund balances, reserves, and contingency.

Financial Plan

General Fund

Description of Fund

The General Fund is the District's major operating fund and accounts for most of the District's financial resources. Revenues come from two main sources: state funding and local property taxes. General Fund expenditures represent costs incurred to support regular, alternative and special education programs throughout the District. Expenditures are presented in five major program areas: Direct Classroom Services, Classroom Support Services, Building Support Services, Central Support Services, and Other Accounts.

2018-19 Budget Assumptions

Revenue Assumptions

State School Fund – \$90.9 million

The 2018-19 General Fund budget is based on the \$8.2 billion appropriation approved by the state legislature for K-12 education in the 2017-19 biennium. For the 2017-19 biennium, funding is assumed to be received at 50% of State School Funds in the first year and 50% in the second year. The District budget for 2018-19 General Fund revenue includes \$90.9 million from the state: \$89.8 million in SSF formula revenue and \$1.1 million in High Cost Disability grant revenue.

Current Property Taxes - \$67.9 million

Tax revenues budgeted for 2018-19 assume an overall 3% increase in assessed property values and a tax collection rate of 94.5%. Property taxes are included in total State School Fund formula revenue.

Prior Years' Property Taxes - \$1.5 million

It is estimated that approximately 30% of uncollected prior years' property taxes will be received in 2018-19.

Common School Fund - \$1.7 million

Revenues of \$1.7 million are budgeted for 2018-19 based on state estimates.

County School Fund - \$0.1 million

The District has budgeted \$0.1 million to be received from the County School Fund in 2018-19.

Local Option Tax Levy - \$14.8 million

For 2018-19, \$14.8 million in current and prior year receipts is budgeted. This compares to a prior year high of \$14.2 million in 2008-09 and a projected \$13.8 million in 2017-18.

Other Sources of Revenue - \$6.2 million

Revenues include \$2.7 million for the District's share of flow-through funding from Lane ESD to provide special education services; \$1.0 million in reimbursement revenue; \$0.5 million of revenue from grant indirect charges; \$0.6 million in school based revenue including rental fees and athletic participation fees; interest earnings of \$0.7 million; and \$0.7 million of miscellaneous revenue.

Transfers in to the General Fund - \$0.8 million

- \$0.7 million from the Licensed Employees Reserve in the Insurance Reserve Fund to support compensation costs.

Financial Plan

- \$0.1 million from the Classified Employees Reserve in the Insurance Reserve Fund to support compensation costs.
- \$1,000 each from the Special Purpose Reserve Fund, Capital Equipment Reserve, and the Risk and Insurance Reserve Funds to create budget authority for a transfer should the need arise.

Beginning Fund Balance - \$29.7 million

The District has projected the ending fund balance for 2017-18 based on currently known information. Revenues and expenses may change from projections due to unknown or uncontrollable events, or due to variation in actual events from assumptions.

Expenditure Assumptions

Salaries - \$95.1 million

Licensed salaries are budgeted using average salary cost. For 2018-19, the average cost of a licensed position is expected to be \$64,700 per 1.0 full time equivalent (FTE). Average salary has been calculated to reflect current contract terms. The district and the Eugene Education Association (EEA) reached an agreement on a three year contract in 2017-18. The negotiated cost of living adjustment for 2018-19 of 1.8% is factored for this year.

For classified staff members currently employed by the District, budgeted costs for 2018-19 have been calculated as status quo to reflect a normal step increase for all eligible employees and a full work year (i.e. no furlough days). District and OSEA representatives are currently negotiating a new contract. Budgeted amounts are adjusted for any change in assigned hours or assignment of duties. For vacant or new positions, an estimate is developed based on projected hourly costs.

Salaries for managers, administrators, professionals and supervisors has been calculated assuming a 1.8% COLA for 2018-19.

Additional details concerning average staffing costs are contained within the 2018-19 Staff Conversion and Costing Table, which is located within the Appendices on page 331.

Financial Plan

Employee Benefits - \$63.5 million

Employee benefits are comprised of pension obligations, social security taxes, workers compensation payments, unemployment assessments, support for negotiated district retirement benefits, district contributions for insurance plans, professional development funds, and tax sheltered annuity payments. Benefit levels differ based on employee classification. Some benefits are calculated as a percentage of employee salary, while others are budgeted based on a defined contribution amount.

Additional details concerning payroll costs and benefits are contained within the 2018-19 Staff Conversion and Costing Table document, which is located within the Appendices at page 331.

District PERS Rate - Blended	28.23%	28.09%	25.67%	25.25%	30.11%	29.80%

Services/Supplies - \$24.2 million

Non-personnel related costs associated with the operation of schools and departments are budgeted here. Costs include items such as utilities, supplies, textbooks, travel, technology purchases, contracts for professional services, and charter school flow-through payments. Services and supplies budget allocations normally do not change year-to-year, with the exception of a small annual increase (2018-19 increase is 1.7% based on the US Urban Consumer Price Index) to help schools and departments absorb increases in the cost of goods and services.

Equipment/Capital - \$0.05 million

A small amount is budgeted each year to address expenditures for minor building improvements, new or replacement equipment, furniture and fixtures, and technology purchases.

Other - \$1.0 million

This budget primarily funds liability and property insurance payments related to the operation of the District. A small portion of this budget relates to expenditures or assessments for membership in professional or other organizations.

Financial Plan

Transfers out of the General Fund - \$0.89 million

- \$0.23 million to the Insurance Reserve Fund. This is the amount estimated to be District paid social security savings from employee use of IRS Section 125 accounts (tax sheltered insurance accounts). By agreement with employee groups, these savings are to be transferred to the employee group reserves in the Insurance Reserve Fund.
- \$0.34 million to the Insurance Reserve Fund for risk management and employee benefits program operations.
- \$0.02 million to the Insurance Reserve Fund to offset increases in insurance costs for administrators, by agreement with the administrators association (MAPS).
- \$0.30 million to support the Nutrition Services program.

Contingency and Operations Reserve - \$22.3 million

Operations Reserve for 2018-19 - \$17.6 million

A total of \$17.6 million has been set aside in 2018-19 to address future projected budget shortfall and the estimated increase in PERS costs of over \$6.0 million in 2019-20.

Contingency Budget for 2018-19 - \$4.6 million

Board policy sets the funding target for the contingency account at 2% of operating expenditures. Transfers to other funds are not included in this calculation. The operating contingency of \$3.5 million represents 2.0% of operating expenditures for 2018-19. We assume that two-thirds of this balance will remain unspent at year-end, and will become part of the General Fund's ending fund balance. In addition, the District has added \$0.9 million to the operating contingency. This funding will be available to further support operations in the face of multiple uncertainties in the upcoming biennium.

Unappropriated Ending Fund Balance (UEFB) - \$6.7 million

The UEFB for 2018-19 is budgeted at \$6.7 million, or 3.7% of operating revenues.

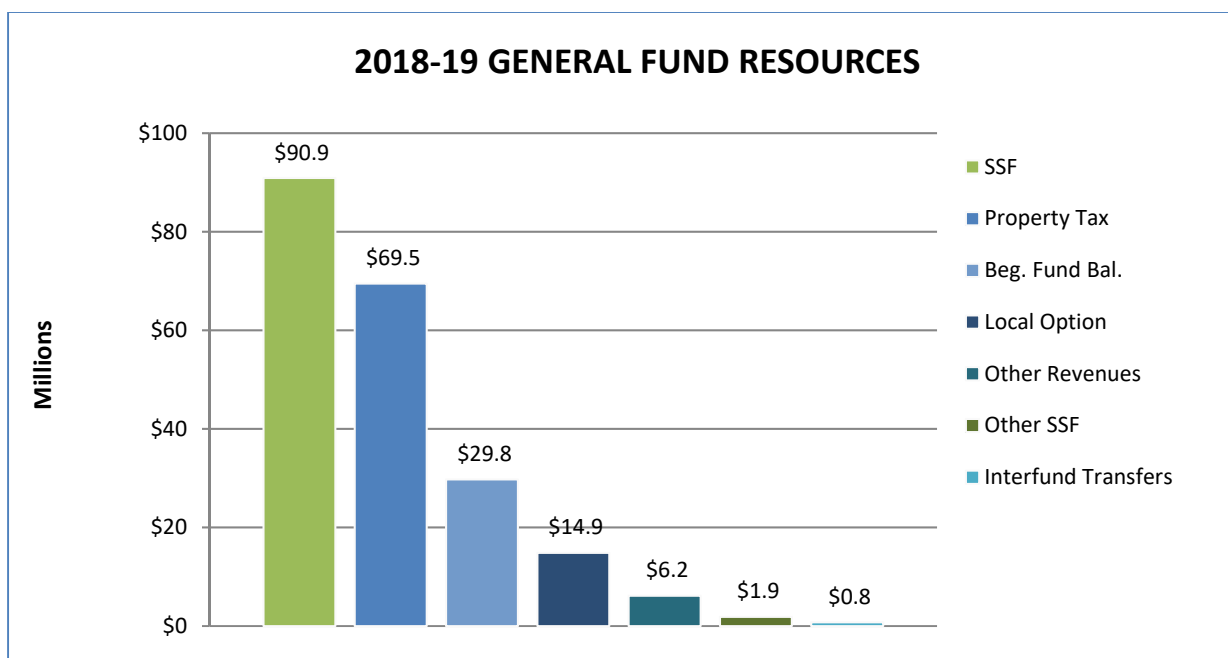

The District projects that the budgeted UEFB plus unspent contingency appropriations will result in an ending fund balance of \$9.2 million, approximately 5.0% of operating revenues, which is consistent with Board direction for balancing the 2018-19 budget.

¹ Represents 2% of operating expenditures (as in prior years), excluding transfers, plus an additional \$2,737,069.

² Represents 2% operating expenditures (as in prior years), excluding transfers, plus an additional \$919,508.

³ Board policy targets total reserves, including Unappropriated Ending Fund Balance (UEFB) and projected underspending of budgeted amounts, at 5% of operating revenues, excluding transfers. Budgeted 2018-19 reserves, UEFB and Contingency are increased to set aside funds to help offset future PERS costs and to minimize the need for budget cuts in the upcoming years.

Financial Plan

Expenditures by Major Program and Function

General Fund activities are organized into five major program areas: Direct Classroom Services, Classroom Support Services, Building Support Services, Central Support Services, and Other Accounts. The General Fund's five major program areas are further divided into programs and functions. Programs and functions are described in more detail within the Appendices.

Expenditures by Major Program Area and Function	2015-16 Actual	2016-17 Actual	2017-18 Budget	2018-19 Budget

Financial Plan

Department Descriptions and Key Performance Indicators

Instructional Services

The Instructional Services department’s mission—to help staff prepare students for the 21st century—is congruent with Eugene School District 4J’s vision, “Investing in Students, Creating the Future.” Toward these ends, Instructional Services initiates and identifies ideas to improve curriculum and instruction at all 4J schools.

Functions:

- To prepare students to graduate from high school, and be successful in college, careers, and as citizens
- To provide learning experiences to develop the knowledge, skills, appreciation, attitudes, and behavioral characteristics needed by all students
- To meet the needs of students with physical, mental, social and emotional disabilities or gifts
- To provide a wide range of instructional and related services for traditional and non-traditional students including programs for those with disabilities, alternative education, Talented and Gifted, and English Language Learners, as well as learners attending summer school, charter schools, and other programs
- To support and enrich successful student participation in regular and special instructional programs
- To provide enrichment opportunities for students to participate in music and physical education activities to the extent possible
- To support instruction by providing materials, services, and professional growth opportunities

Vision 20/20 Strategic Plan:

The Instructional Services Department has invested in several key initiatives consistent with the 4J Vision 20/20 strategic plan. These strategic initiatives are addressing student outcomes by providing high-quality instructional materials and professional development across all grade levels, that is aligned with state standards to ensure equitable access and outcomes. Another key initiative is the implementation of the High School Success Grant (Measure 98), that provides multiple pathways to student success, including instructional and career pathways to engage all students for post-graduate readiness.

The High School Success Grant focuses on three key areas:

- ✓ expanding and updating career-technical education programs,
- ✓ supporting access to college level courses, and
- ✓ implementing dropout prevention strategies to improve graduation rates.

Key Performance Indicators:

Key performance indicators for Instructional Services are described in “Academic Performance Indicators” within the About Our District section.

Student Services

The Student Services Department (previously called Education Support Services) facilitates the special education system that locates, identifies, evaluates and supports all children with disabilities, birth to age 21. Programs provide a variety of learning experiences designed to meet a wide range of physical, mental, social and emotional abilities. Home instruction, health services and the positive behavior interventions and supports program are also included in the Student Services Department.

Financial Plan

Functions:

- To provide a range of instructional and related services for students with disabilities, Section 504, and Talented and Gifted
- To prepare students to graduate from high school career and/or college ready
- To provide learning experiences to develop the social, emotional, functional, and academic knowledge needed by all students
- To provide professional growth and enrichment for staff in order to foster student success
- To support instructional activities by providing materials, services and procedural guidance

Key Performance Indicators:

Key performance indicators for Student Services are described in “Academic Performance Indicators” within the About Our District section.

Facilities

The Facilities Department works to create and maintain safe, comfortable and attractive facilities to enhance the learning and working environment for district students and employees.

Functions

- Administration – construction management, work order management, building rental, capital financial management, and safety management
- Custodial – building custodial services, equipment, supplies
- Architectural and Engineering services – engineering, planning, design
- Maintenance – electrical, HVAC, plumbing, painting, equipment repair, carpentry, glazing, roofing, flooring, general maintenance
- Grounds – landscaping, sport field and track maintenance
- Security – safety, locksmith, fire and security system maintenance and upgrade
- Construction – project management, liaison with contractors and consultants

Vision 20/20 Strategic Plan

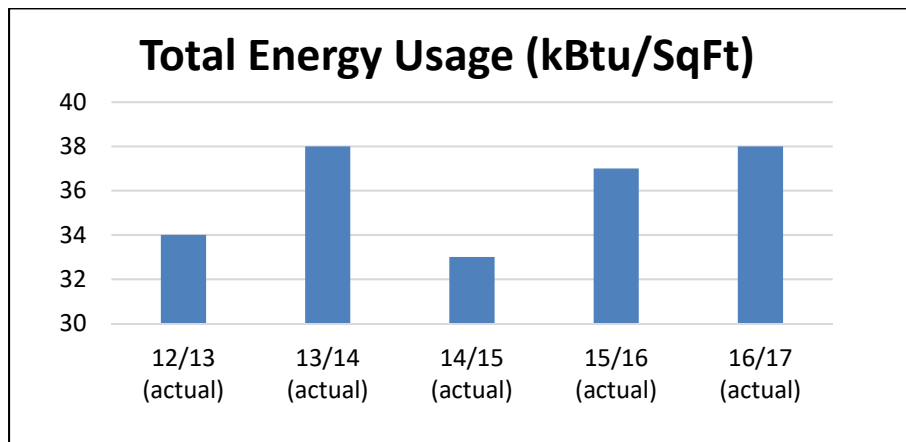

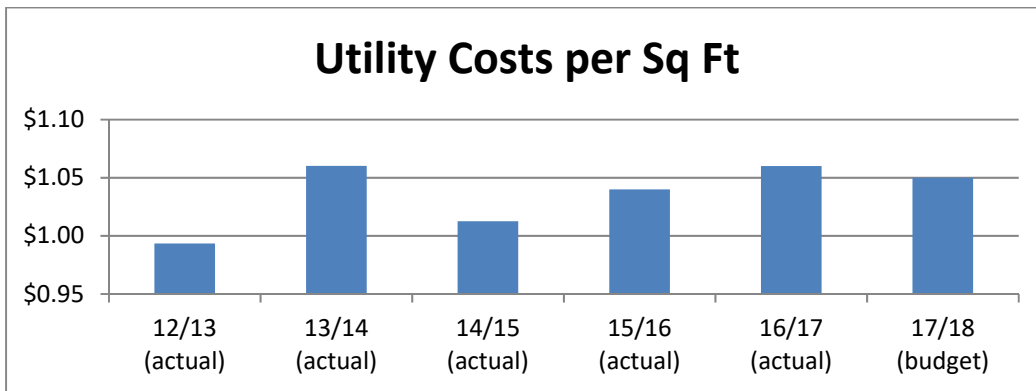

The Facilities Department has invested in operational efficiencies consistent with the 4J Vision 20/20 strategic plan. New buildings along with automated building controls and LED lighting upgrades in existing structures are increased efficiencies while providing for improved learning environments. Facilities is also updating the long-range facilities plan in a continued effort to provide safe, secure and sustainable learning spaces through new building, targeted remodeling, and maintenance projects.

Utility Costs per Building Area

As a result of bond measures funding building replacements and capital upgrades of heating and lighting systems, the District has been able to hold utility costs relatively flat as rates increase. The chart below shows total annual utility costs on a building square-foot basis, including costs for electricity, fossil fuel (diesel heating/generator fuel and natural gas), water, sewer, storm water, and garbage disposal. The second chart shows the total energy usage for all buildings for electricity and fossil fuel costs over the same period. This (second) chart is “corrected” to reflect weather data. The downward trend in 2012-13 is largely due to utilizing pre-purchased diesel heating fuel out of reserves in buried underground storage tanks, in preparation for tank removals in 2013-14 and 2014-15.

Financial Plan

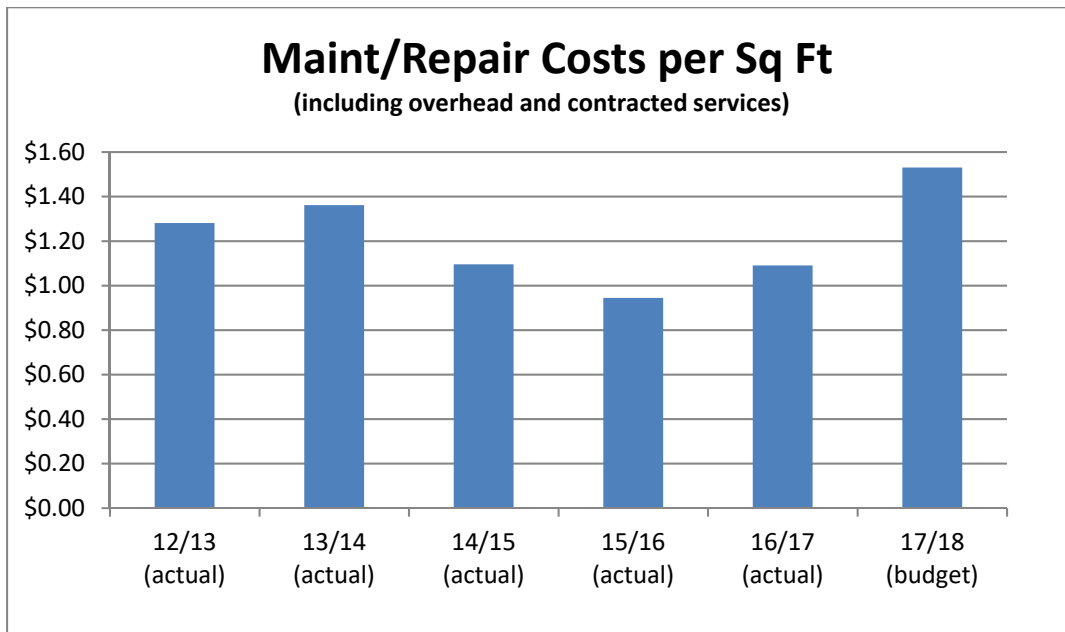

The savings generated in 2013-14 was offset by rate increases and a colder winter (resulting in higher fuel consumption). The 2015/2016 uptick occurred due to multiple surplus properties reopening with additional programs as well as the construction and operations of two buildings (old and new) at both Howard and Roosevelt. 2016/2017 added the construction and operation of two buildings at ATA and River Road sites. The 4 new facilities increased overall district square footage by nearly 40,000 square feet. Facilities utilizes this information for targeting future energy conservation upgrades and other system improvements that will reduce operating costs.

Financial Plan

Total Building Maintenance and Repair Costs

One industry measure for tracking building operating costs is to compare building maintenance costs (excluding grounds, custodial and utility costs) per square foot of building space over time. The facilities maintenance budget for 2017–18 includes about \$5.13 million to maintain nearly three million square feet of buildings. Other building and maintenance repairs include over \$1.5 million in qualifying capital repairs funded from general obligation bonds. Previous maintenance and repair costs had been reduced by shifting maintenance costs associated with surplus/closed schools to District-sponsored charter schools under lease agreements. Multiple surplus locations are back online increasing maintenance and repair needs. Some savings are also offset by requirements associated with the introduction of new systems and a broader range of technologies with new buildings and facilities upgrades. The chart below excludes 3.5 FTE salaries for the preventive maintenance program (funded from Real Property Capital Reserves, Fund 450)

Financial Plan

Grounds Maintenance Costs per Acre

The facilities maintenance budget for 2017–18 includes about \$634,000 to maintain approximately 608 acres of district property. These costs exclude the Coburg properties and the District’s nine synthetic turf Youth Sports Parks (YSP) athletic fields. Maintenance of the YSP fields is funded from the Capital Repairs fund (Fund 400), the cost of which is shared on a 50/50 basis with the City of Eugene.

Total Custodial Costs

Total custodial costs (labor and supplies) are shown on the chart below on a building square footage basis. Note that while the budget includes full funding for assigned staff, the budget has historically been underspent. This continues due to filling permanent vacant position (from turnover and leaves of absence) with substitute staff who do not receive the same wages and benefit packages.

Financial Plan

Repair Work Order Volume

The chart below illustrates the number of repair work order requests received versus the number of completed work orders over the same time period. This report does not include roughly 100 annual “blanket” work orders used to log costs for frequent routine and repetitive work such as mowing, field striping, filter replacement, and misc. equipment inspections. The uptick in requested work orders is based on a request for facilities staff to enter work orders for additional repair(s) discovered and completed while on sites addressing other work order(s). This provides better tracking for facilities work hours and repairs completed at each site.

Cumulative Repair Work Order Request Back-log

The chart below depicts the department’s running back-log of non-completed work orders. The up-tick in 2016-17 is due to surplus property now in use and some volume associated with working out the “bugs” in the new facilities. We believe the data point for 2015-2016 backlog to be an error due to a loss of process information. We believe that data point should be at 723 and will be corrected for future reporting.

Financial Plan

Transportation Services

Provides safe, reliable, and efficient transportation for District students to and from school and related school activities

Functions:

- Provides technical assistance to personnel, administrators, and district patrons concerning District and transportation issues, such as school attendance boundaries and the LTD student bus pass program
- Provides Driver Training and Certification for the District’s activity bus program
- Provides Fleet Maintenance Services for District buses and fleet
- Provides Fleet Maintenance Services through intergovernmental agreements with small neighboring school districts
- Coordination of the District’s Safe Routes To School program (SRTS)

Vision 20/20 Strategic Plan:

The Transportation Department has invested in the following key performance indicators (KPI/s) consistent with the 4J Vision 20/20 strategic plan. These KPI’s are addressing the efficiencies and effectiveness of the District’s Transportation Department compared to the national median of similar-size school transportation departments.

Key Performance Indicators:

Pupil Transportation Statistics

	2013-14	2014-15	2015-16	2016-17
Number of Buses	107	107	107	108
Number of Vans	12	14	13	12
Total Miles Traveled	1,412,378	1,426,870	1,523,519	1,483,421
Students Transported Daily	4,830	4,860	5,040	5,589

Cost per Mile Operated

	2013-14	2014-15	2015-16	2016-17
Cost per Mile	\$4.48	\$4.31	\$4.12	\$4.30
National Median	\$5.35	\$4.40	\$4.71	N/A
<i>N/A = data not available</i>				

Cost per Bus Operated

	2013-14	2014-15	2015-16	2016-17
Cost per Bus	\$59,685	\$61,344	\$56,776	\$59,122
National Median	\$58,307	\$56,298	\$57,917	N/A
<i>N/A = data not available</i>				

Cost per Student

	2013-14	2014-15	2015-16	2016-17
Cost per Student	\$1,314	\$1,302	\$1,129	\$1,142
National Median	\$1,096	\$930	\$947	N/A
<i>N/A = data not available</i>				

Financial Plan

Average Age of Fleet

Fleet replacement plans drive capital expenditures and on-going maintenance costs. Younger fleets require greater capital expenditures but reduced maintenance costs, and will result in greater reliability and service levels. An older fleet requires more maintenance expenditures but reduces capital expenses.

	2013-14	2014-15	2015-16	2016-17
Average Age	8.9	6.6	6.7	5.5
National Median	9.0	8.1	8.0	N/A
<i>N/A = data not available</i>				

Safe Routes to School

Safe Routes to School is all about creating safe, convenient, and fun opportunities for 4J students to walk and bike to and from schools. This is important for the health and safety of our kids and it helps to foster the creation of livable, vibrant communities. We work to increase physical activity and improve walking and bicycling safety conditions on routes to and from school and throughout the community.

The program elements (the “6 E’s”) of Safe Routes to School are below, along with some examples of related activities.

- *Equity* – We strive to distribute resources and educational programming equitably across the district and to incorporate equity into each of the “E’s” listed below.
- *Encouragement* – Bike + Walk to School Day and Month; School Pool database to connect families for biking, walking or driving together; Walking School Buses and Bike Trains.
- *Education* – Pedestrian and Bicycle Safety Education in 2nd and 6th grades, respectively.
- *Enforcement* – Crossing guards; police enforcement around school zones.
- *Engineering* – Improvements to the built environment to support safety for student pedestrians and bicyclists. This may include traffic signals, traffic calming, pedestrian crossings, sidewalks, off-street paths, bicycle parking, and signage.
- *Evaluation* – Assessment of infrastructure; classroom tallies and parent surveys to determine needs and program effectiveness.

The Safe Routes to School program experienced a staff transition in the middle of the 2016-17 school year that likely depressed some of the program outputs. The KPI's for 2017-18 already surpass those reported here and there have been numerous other program accomplishments in the last year that do not appear in the KPI's.

Number of Middle School Students Participating in a Nine Hour Bike Safety Education Program

Financial Plan

Number of Elementary School Students Participating in a Two Hour Pedestrian Safety Education Program

Number of Schools Registered for Walk+Bike to School Day (October)

Number of Schools Registered for Walk+Bike Challenge Month (May)

Financial Plan

4J Technology Department

Mission

Provide reliable, stable, secure and useable technology resources for District operations and the classroom teaching and learning environment

Functions:

- Information Systems – SIS (Synergy) training, technical support, user/technical documentation, module installation and support, support parent/student portal and mobile apps, host and manage consortium database; district state reporting. Host and manage the data warehouse for the consortium; importing data from external applications/sources such as Mealtime and assessment data from ODE, ACT, SAT, etc.; and data extractions for Mealtime, Naviance, Edulog, SmartChoice, SchoolConnects, SWIS, LDAP, VIA, etc.
- Network Services – provide overall system administration and the following services and support: hosting and support for school websites, application and file servers; host, support and manage email and calendaring; training; network infrastructure support; phone support; project management responsibility over phone platform, upgrade and patching, new construction, data center redundancy, security, logging, VMware, and inter-department consulting; and Windows Support for departments.
- Desktop Support – training, support deployment and management of new devices; support and maintenance for hardware, software, ticket resolution, websites, Apple Remote Desktop, and imaging; repair of laptops, desktops, printers, and clocks; and project rollout support for Operations and Classroom specific technologies, workflow projects, Smarter Balanced, Synergy, VMware, Lawson, and Volume Purchasing Program.
- Instructional Technology – project implementation and guidance for educational technology related grants; library services cataloging, inventory, checkout, digital instructional resource review and kit checkout; Collaborate with schools on strategic vision and long term ‘tech with technology’ plan; online learning and cloud instructional technology; customized professional development; training; evaluation of hardware, software, peripherals, applications, online subscriptions, vendor relations, and research; provide guidelines for appropriate use of Instructional technology, student responsible use contracts, and device take home contracts; and community partnerships such as universities, businesses, organizations, and Lane ESD.

Vision 20/20 Strategic Plan:

The Technology Department has invested in the following initiatives consistent with the 4J Vision 20/20 strategic plan:

1. Infrastructure analysis and assessment -- Identify where infrastructure may be susceptible to failure and where performance can be improved. Perform a security level gap analysis and penetration test assessment
2. Long range technology planning for sustainability and equipment refresh -- Collaborate with finance to identify options for sustaining our catalog of District equipment
3. Improved data access with an improved opportunity to extract reports -- Fortify the data warehouse and deploy a user friendly interface for report generation

Financial Plan

4. Equitable access -- Continue to expand and deploy technology to ensure all district sites have equitable access and opportunity to teach with technology

Key Performance Indicators:

Technology will continue to monitor infrastructure performance as well as staff performance in areas such as Desktop Support, Synergy, Instructional Technology, and Network Services. These initial key performance indicators will be further developed in future years and additional indicators will be added to reflect the department's performance and ability to meet the technological needs of students, staff and community.

Target: Device to student ratio= 1:1 (Current device to student ratio: 1.04 (38% of devices are >= 6 yrs. old)

- Device to Elementary School student ratio: 0.92 (flat)
- Device to Middle School student ratio: 1.52 (trending up)
- Device to High School student ratio: 0.82 (trending up)

Target: Establish metrics that identify operational trends: Group by product categories, filter by site

- Total number of helpdesk tickets year-to-date July 2017 - June 2018: 8967 (trending up)
- Average number of tickets by month, July 2017 - June 2018: 1042 (trending up)

Target: Number of Preventative maintenance windows completed on schedule

- Establish a forward looking preventative maintenance schedule published out to the district
 - Number of maintenance schedules completed on schedule >=70%
 - % Completed on schedule = 95%
 - # Scheduled = 2 per Month

Target: Increase the number of district active ParentVUE accounts >=: 80%

- Active district ParentVUE accounts: 62%
- The Synergy roadmap will leverage this mobile application to expand the data available to families.
 - Elementary School
 - Number of accounts enabled: 30%
 - Number of active ParentVUE users: 11.4%
 - Number of PVUE accounts used in last 120 days: 6%
 - Middle School
 - Number of accounts enabled: 89%
 - Number of active ParentVUE users: 39%
 - Number of PVUE accounts used in last 120 days: 24%
 - High School
 - Number of accounts enabled: 88%
 - Number of active ParentVUE users: 38%
 - Number of PVUE accounts used un last 120 days: 20%

Financial Plan

Warehouse and Purchasing

Warehouse and Purchasing are part of the Support Services work teams, providing central services to all district locations. With two employees and 1.5 FTE, Purchasing manages competitive procurement systems and support, including coordinating purchase order approval and issuing contracts for goods and services. Four warehouse assistants supervised by the warehouse manager provide delivery services to schools for paper and other supplies; central storage and delivery of food for child nutrition programs; operational management of surplus property inventory; and work order support for moving resources between sites.

Functions:

- Purchasing – competitive procurement systems and support, including coordinating purchase order approval and issuing contracts for goods and services
- Warehouse – providing central purchasing and delivery to schools for paper and other supplies; central storage and delivery of food for child nutrition programs; coordinating surplus property inventory; and completing work orders for moving resources between sites

Vision 20/20 Strategic Plan:

The purchasing team strives to support *4J Vision 20/20 Goal 3: Communication and Connection with Community* through ensuring competitive procurement and reducing barriers for local businesses to work with the district. This goal includes the objective to strengthen connections between our schools and our community through development and support partnerships with community organizations and businesses. Additionally, purchasing supports *Goal 5: Stable, Sustainable Stewardship* by ensuring compliance with public procurement requirements. The warehouse team also works towards sustainable stewardship of district resources by managing surplus property that can be shared between sites, or repurposed until items are no longer safe or are obsolete.

Key Performance Indicators:

Purchasing

Completion of capital Improvement projects supported by bond funds accounted for nearly all of the \$52.4 million reduction in *Purchase Order Total Amount* between FY16 and FY17. Nearly 80% of purchase orders are for less than \$1,000, which allows for automated approval. Purchasing staff manually process the remaining purchase order approvals, averaging 5–10 per day. Fifty-five percent of purchase orders are Confirming, which are purchased orders for a specific amount. Twenty-two percent are Not-to-Exceed POs, which are set up for multiple purchases over time from one vendor, up to a maximum limit. District purchasing staff also manage multiple formal solicitations annually.

Year	Number of Purchase Orders	Total Order Amount (\$)	Average Order Amount (\$)
2013-14	7,745	49,327,046	6,369
2014-15	8,495	94,424,875	11,115
2015-16	8,190	90,927,860	11,102
2016-17	8,233	38,597,057	4,688

Financial Plan

Warehouse

The District's central warehouse provides a storage and shipping hub for orders too large or too small to ship directly to school locations. Food orders for child nutrition programs are shipped directly to schools when feasible. Minimum orders for direct delivery by food vendors are typically too much for small kitchens, so these orders are combined and submitted for delivery to the central warehouse. Larger quantity orders purchased through the USDA commodity programs are delivered to the central warehouse. Schools receive food and office supply shipments twice per week, and intra-district mail collection and distribution daily. Warehouse staff also complete work orders, which are used to transfer furniture and equipment between storage locations and schools or other district buildings. Several locations store inventory available to replace or expand school furniture and equipment. The increased work orders in FY17 is primarily related to capital improvement projects.

Year	2013-14	2014-15	2015-16	2016-17
Number of Inventory Orders	6,779	7,323	7,232	6,491
Number of Work Orders	428	419	495	692

Financial Services

Finance Services is responsible for the district's central fiscal operations including accounting and financial reporting, budget development and monitoring, and financial analysis and audit support. The Financial Services team provides analysis and support to schools, departments, district administration and the School Board in financial matters.

Functions:

- Payroll – processing timesheets, leave, Public Employee Retirement System (PERS) payments, garnishments, taxes, Tax Sheltered Annuities (TSA) payments, other payroll liability payments, prepare W-2s and other state and federal reporting
- Cash Management – daily banking, receipts, debt service, school bank accounts
- Accounts Payable – paying vendors, processing invoices, visa card payments, extended contracts
- Budget – Prepare forecast, budget, levy calculations, legislative work, budget transfers
- Financial analysis – bond issuance, monitor bond spending, charter school management, negotiation support, school and department support, monitor actual spending, develop staff rates
- Accounting – prepare and post journal entries, monitor accounts for consistency and adherence to policy, perform bank reconciliations, fulfill public record requests, maintain financial records, statutory reporting, SSF requirements, general accounting, prepare 1099s, train and support school and program staff
- Grants – Support grants managers in financial reporting, monitor compliance with federal and state requirements, review proposal budgets, submit invoices and claims, prepare request for annual indirect rate, apply monthly indirect to grants; prepare annual deferral and accrual of grant funds

Financial Plan

Vision 20/20 Strategic Plan:

Goal V of the Vision 20/20 Strategic Plan calls for “Stable, Sustainable Stewardship” of district resources. This goal addresses the need to provide effective, efficient and equitable stewardship of district resources to best support our instructional mission. Financial Services supports this goal in the following ways:

- Providing comprehensive financial and accountability information through the budget, forecasting and financial reporting processes
- Supporting the development of stable, sustainable budgets that prioritize limited resources to align with district goals, maintain appropriate reserve levels and include reasonable contingency balances to support critical district operations
- Providing financial reporting, data and analysis support for management’s review of district systems, processes and programs to determine the most efficient and effective path forward for the district
- Supporting internal and external audits of district systems, programs and processes and recommending improvements
- Identifying and implementing improvements to the financial systems and processes the district relies on to manage current fiscal operations and forecast the impact of changes on future periods
- Integrating and improving financial data reporting, automation and data quality across processes and systems

Key Performance Indicators:

Audit Opinions

The District has received unmodified audit opinions for more than 20 consecutive years, including the fiscal year ended June 30, 2017. An unmodified opinion indicates that the auditor has determined that financial statements: 1) fairly present the financial position, results of operations and changes in financial position of an entity in accordance with generally accepted accounting principles applied on a consistent basis, and 2) include appropriate informative disclosures.

Financial Reporting

The District has received the *Certificate of Achievement for Excellence in Financial Reporting* from the Government Finance Officers Association (GFOA) every year since June 30, 1987. This certificate is presented to governments whose comprehensive annual financial reports achieve the highest standards in government accounting and financial reporting.

- *Ratio of Payroll Checks Issued Per Payroll FTE*

2012-13	2013-14	2014-15	2015-16	2016-17

Human Resources

The mission of the Human Resources Department is to support our students by providing the information and support needed to hire, develop, and retain qualified employees who model organizational values; contribute to the attainment of the District’s goals; maintain employee-employer relationships which are positive, productive, ethical, and legal; and protect the District’s employees, property, and finances from avoidable loss.

Functions:

- Through multiple Human Resource information systems (HRIS) and Lawson, HR maintains employee records and complies with Federal and State reporting – including but not limited to licensure, years of experience, along with the evolving reporting requirements to the Oregon Department of Education (ODE), under changes to Every Student Succeeds Act (ESSA)
- Operations – processing of new employees, separations (terminations, retirement, resignations, etc.), resource for employee questions, personnel actions including but not limited to position and pay related changes, updates to personal information, changes to insurance and benefits impacting deductions, etc.
- Performance management systems and disciplinary processes – evaluation, investigation, discipline
- Hiring and staffing processes – managing annual and ongoing hiring process, coordination of annual staffing process, including working with administrators to collect, process and implement staffing plans into the HR/Payroll system
- Maintenance of district-wide substitute pool – contact and technical support for all system users, hiring of additional subs, processing of monthly payroll, organization of annual training
- Leave of absence management – contact for employees, process leave applications and pay related changes, knowledge and implementation of Federal, State, District and bargaining agreement laws, rules, policies and correspondence between employee, supervisor and medical professionals when needed
- Employee and labor relations – liaise with employee groups, bargaining and management of collective bargaining contracts and compliance with labor laws, training of supervisors and administrators
- Classification and compensation – maintain job descriptions, evaluate salary levels, grade positions
- Recruitment, induction, retention – performed on an ongoing basis for all levels of positions
- Collaboration on continued District diversity and equity work
- Safety – constantly working to improve sites across the district for students and staff. This includes assessing, identifying and addressing potential risks/losses and areas of liability.

Vision 20/20 Strategic Plan:

The Human Resources Department has invested in initiatives consistent with the 4J Vision 20/20 strategic plan,

Financial Plan

specifically around attracting, hiring and retaining high-quality, passionate and diverse staff. HR continues to promote the District through a number of online and hard copy publications, as well as in person at job fairs. Beyond that, the department has invested various resources in attempts to hire multiple international candidates, primarily for bilingual positions, which can often be considered hard-to-fill. This process has included working with attorneys and multiple candidates on diligent and extensive efforts to obtain an H-1B visa, which allows employment for the candidate. The department has sought legal counsel in a number of instances, with the hope and intention of being able to hire (and ideally retaining) these international candidates who have so much to offer our students. Another option we are also exploring is that of the J-1 visa and what options that might provide for international candidates we are looking to hire. In addition, there are instances of hard-to-fill positions that the preferred candidate of a school might be an individual who does not currently have the correct license or endorsement. Our staff has been very attentive to these situations, exploring all possible options for alternative, short duration licenses that allow that person to be hired and be employed in that role while they work to fulfill the requirements of full licensure through the Teacher Standards and Practices Commission (TSPC).

Key Performance Indicators:

Ongoing efforts to expand and retain the pool of substitutes

Similar to recent years, HR continues to work diligently to hire additional guest teachers and classified substitutes in our ongoing effort to reduce the number of unfilled vacancies in schools. During the course of a typical school year, there are absences (licensed and classified) that unfortunately go unfilled due to a variety of reasons. Although substitutes might be available to accept work, they may not feel comfortable working in certain subject areas or grade levels, for example. Despite a large pool of hundreds of substitutes, there is still the potential for unfilled absences on days when a large number of staff are absent.

Some efforts made by HR to ease the burden on schools and increase the pool has been to continuously add new substitutes on an almost weekly basis by making some internal operational changes, allowing our staff to process additional applicants in a more timely manner. In addition, the message has once again gone out at the director and administrator level, requesting that professional development opportunities are not held on either Mondays or Fridays. These days historically have had an increased number of separate, personal absences.

During the current school year, HR has hired 103 classified substitutes and 133 licensed guest teachers, to help with vacancies in schools district-wide. Since the 2014/15 school year, through the collective efforts of our department, we have successfully continued to reduce the number of unfilled absences for licensed and the same for classified absences since the 2015/16 school year. For licensed absences, starting with 2014/15 there were 200 unfilled jobs, followed by 171 in 2015/16 and 149 in 2016/17. For the current year, the number of unfilled jobs sits at 110 as of 3/31/2018. On the classified absence side, in 2015/16 there were 1,218, with 1,101 in 2016/17 and currently there have only been 565 unfilled jobs as of 3/31/2018.

In regard to classified vacancies, specifically in the area of special education, for the second year in a row, HR teamed up with the Student Services Department (SSD) to provide a paid training opportunity to help educational assistant substitutes work in a special education setting. When we have reached out to substitutes for feedback around reasons for not accepting special education jobs, individuals still indicate they feel a level of uncertainty and apprehension in these areas. The feedback from the training held in February 2018 was positive from the 42

Financial Plan

substitutes in attendance. Our goal is to continue to offer this training, to help provide subs with the resources and confidence to accept these vacancies and work to reduce the unfilled absences in this critical area.

Continued improvement of fully licensed and properly endorsed teachers

Although the Highly Qualified (HQ) requirements under No Child Left Behind (NCLB) are no longer in place, HR has continued to learn about reporting changes under the replacement act (the Every Student Succeeds Act (ESSA)), along with continuing compliance of annual reporting requirements to the Oregon Department of Education (ODE).

HR has maintained consistency in screening applicants with the expectation that they are fully licensed and properly and completely endorsed to fulfill the positions in which they are pursuing. In 2016-17, the HQ requirements were dismissed by the federal government but the State expectations still require teachers to be endorsed in the subject they are teaching. This is the standard that we work to hold our licensed teachers to and in some instances (primarily positions that are hard-to-fill), our department works tirelessly with TSPC to obtain the necessary additional licenses and/or endorsements to help those who do not initially meet the requirements and to do so before starting in a position. We have a staff member that is the primary contact for licensure issues, for not only potential or new candidates, but current employees who are in need of guidance and assistance with the licensure process. With a direct contact to TSPC, we attempt to solve issues that arise with specific license situations. HR is optimistic that the proactive work we are doing now and continue to enforce will ideally help us maintain a high level of compliance to any ongoing revision and/or developments to reporting under ESSA.

Ratio of Human Resources/Risk Management FTE to District Staff (Full-Time and Part-Time)

Superintendent's Office

Provides leadership for the District's programs and is ultimately responsible for all areas of the District's operation (School Board policy). The Superintendent provides executive leadership and administrative direction for all departments and services, and is responsible for proposing and implementing long-range plans.

Functions:

- Has responsibility for the day-to-day operation of the school district, which includes:
 - Developing, supporting and communicating District goals
 - Helping to establish a positive environment for learning
 - Leading and participating in the identification of needs and possibilities for improvement
 - Ensuring that policies, laws, and mandates are followed
 - Working with the School Board and Budget Committee to determine the allocation of resources required to achieve the District's purpose

Financial Plan

Vision 20/20 Strategic Plan:

The Superintendent is the guiding force behind the 4J Vision 20/20 Strategic Plan.

Key Performance Indicators:

See the 4J Vision 20/20 Strategic Plan section for District goals and strategies, which the Superintendent's Office supports.

Communications and Intergovernmental Relations

The Communications and Intergovernmental Relations Department implements communication and community engagement activities that support district goals and maintain open communication within the district and with the public. The department also assists district leadership in maintaining positive intergovernmental relationships.

Functions:

- Communications — Develops and implements a comprehensive communication program that includes external communications between the District, parents and the community, news media relations, publications, website information, social media, internal communications, and technical assistance and counsel to schools and departments
- Coordination — Provides executive leadership and support including policy development, strategic planning and other support to the Board of Directors, the Superintendent and the District
- Intergovernmental Relations — Supports efforts to maintain positive intergovernmental relationships with legislators and local government officials and works cooperatively with other agencies that provide community services for students

Vision 20/20 Strategic Plan:

Working with the Board and Superintendent, the Communications Department supports the implementation of district strategies to attain Goal III: Communication and Connection with Community, including:

- Design community engagement events and communications for major initiatives (e.g. capital bond)
- Support superintendent community outreach including public events and drop-in meetings
- Proactively solicit positive media coverage of education programs and events
- Provide communication resources to schools to enhance clear and timely school–family communication
- Maintain opportunities for two-way communication including through social media
- Ensure key district communications and engagement events are accessible in Spanish

Financial Plan

Federal, State & Local Programs Fund

Description of Fund

The Federal, State & Local Programs Fund holds designated-purpose dollars for programs of a special nature. Fund use and limitations are specified by the grantor entity and generally cannot be diverted to other uses.

Programs accounted for in this fund are approved by the District Board of Directors. Budgeted amounts are based on anticipated funding; however, actual expenditures are dependent upon receipt of grants from the various sources. The 2018-19 budget includes estimated carryover from the prior year and assumes all funds will be expended in the current year. Anticipated grants include funding for the major programs as outlined below.

Elementary and Secondary Education Act (ESEA)

The Elementary and Secondary Education Act is a federal law passed to ensure that all children have a fair, equal, and significant opportunity to obtain a high-quality education and reach, at a minimum, proficiency on challenging state academic achievement standards and state academic assessments. Administered by the Oregon Department of Education, amounts appropriated under ESEA are distributed to local schools to be used for purposes stated in the law.

ESEA includes the following grants:

- Title I-A: Education for the Disadvantaged: Grant funds are to be used for instruction which focuses on improving the academic achievement of disadvantaged students. Twelve District elementary schools, two District middle schools, one K–8 charter school and two private schools are expected to receive Title I funding.
- Title II-A: The purpose is to increase student achievement through preparing, training, and recruiting highly qualified teachers and principals through professional development and new employee induction programs.
- Title III: The purpose is to provide supports to our English Language Learners so they can meet the same academic achievement standards as our English native students.
- Title IV-A: Student Support and Academic Enrichment: The purpose is to provide all students with access to well-rounded education and improve school conditions for student learning.
- Title IV-B: 21st Century Community Learning Centers: This supports our BEST afterschool program. We are on our final year and are applying for a new 5-year competitive grant for \$500,000 annually.

Students with Disabilities

Grants from state and federal sources are received by the District to support students eligible for special education. Grants include the Individuals with Disabilities Education Act (IDEA) awards which provide funding for education of disabled students.

High School Graduation and College and Career Readiness Act (Measure 98)

In November of 2016 Oregon voters passed Measure 98 – High School Graduation and College and Career Readiness Act, which later became known as “High School Success.” The intent of the measure was to provide funding to establish or expand programs for high school students in three focus areas, Career & Technical Education (CTE), College Level Education Opportunities, and Dropout Prevention.

Financial Plan

Fiscal Year 2018-19 is the second year the District will receive funding under this initiative. Effective this year, and through the law creating the High School Success Fund (Measure 98), are a number of eligibility requirements the District must address in planning for the use of funds awarded in July 2018.

These eligibility requirements include:

- ✓ Program establishment or expansion
- ✓ Teacher collaboration time around data
- ✓ Practices to reduce chronic absenteeism
- ✓ Equitable assignment to advanced courses
- ✓ Systems ensuring on-time graduation
- ✓ And partnerships

Research suggests that having these structures in place will aid in increasing graduation rates and ensuring high school graduates are ready for their next step. Moreover, providing time for teachers to look at specific student data, and use that data to inform decisions, will increase the chances a student is on-track to graduate in four years. All areas of eligibility noted above must be fully in place by the end of the 2020-2021 school year.

To implement this framework the District met with stakeholders which includes teachers, principals, Lane ESD, the equity taskforce, and others to gather their input and suggestions towards implementing a plan to most effectively use this funding. Furthermore, the District completed a self-assessment survey developed by the Oregon Department of Education, with results submitted to the State. Part of the outcome of the selfassessment was to identify areas where the District might need to respond to and/or address gaps in areas of eligibility in order to meet all requirements of the High School Graduation and College and Career Readiness Act.

With the vision that, *“All students graduate with the knowledge, skills, passion and vision to move into a successful post-graduation experience,”* and using the information gathered from the self-assessment survey and from input provided by stakeholders, the District developed and submitted to the Oregon Department of Education a three-year spending plan to achieve the goals outlined in the Act.

Eugene Education Foundation (EEF)

The District receives quarterly distributions from the Eugene Education Foundation (EEF). EEF was established by parents and teachers in 1993 as a non-profit organization to support the students of Eugene School District 4J. Donations may be earmarked for a specific school or for a District program. Five percent of each gift is retained by EEF for equity grants, which are available to all schools and District programs through a grant proposal process, and five percent is retained to cover overhead costs.

General Observations

Overall, federal, state, and local program funding is expected to remain stable for the next year with many continuing programs and support services. Notable grant funding changes from the prior year include a reduction in federal funding for Title I Education for the Disadvantaged due to a decline in the projected eligible student population, as determined by our Small Area Income and Poverty Estimates (SAIPE), and the decline in funding for the BEST Afterschool Program (21st Century Community Learning Center). The BEST grant is not included in the

Financial Plan

2018-19 budget as the funding level and structure of the grant is unclear at this time. The District plans to submit an application for grant funding with awards announced in early June.

Included in the 2018-19 budget is \$3.3 million in projected funding from Measure 98. The District is estimating \$2.5 million in 2018-19 state funding for the second year of the biennium plus approximately \$0.8 million in carryover funds from fiscal year 2017-18. The District spending plan includes the following areas of focus or “pillars” as set out in the measure with funding allocated as noted below.

- Career and Technical Education (CTE) - \$1.3 million: Expand CTE opportunities for students at all high schools in the areas of health services, technology, construction and manufacturing and create dual-credit courses (high school + college credit).
- College-level Educational Opportunities - \$0.2 million: Identify opportunities to expand participation in International Baccalaureate (IB) and Advanced Placement (AP) courses to underserved student populations at high schools.
- Dropout Prevention - \$1.8 million: Focus on 9th grade success through attendance support, interventions and transition coordinators and work to expand credit recovery opportunities through on-line curriculum.

In addition, the District Facilities Department submitted applications to the Oregon Department of Education for the Facilities Grant and received awards in the amount of \$1.9 million in 2016-17 and \$0.5 million in 2017-18. These funds are expected to be carried forward and available in 2018-19.

Other decreases in this fund reflect the complete consumption in 2017-18 of all Individuals with Disabilities Act (IDEA) carryover balances and the expenditure of all 2017-18 award dollars, leaving no funds available in 2018-19 other than that year’s award.

History of Grant Funds Received

The District's success in generating grant funding for new and innovative instructional programs contributes to its ability to support student success. These funds are restricted to specific purposes and are time-limited.

Financial Plan

School Resources Fund

Description of Fund

This fund is used to record the financial transactions for school-sponsored activities at District elementary, middle, and high schools, including receipts, disbursements, and the transfer of funds from one student body account to another. The major sources of income are student fees, fundraising by parent groups and student organizations, and donations. These funds are used for various student activities and special school projects.

Since 1991–92, schools and departments have accumulated savings from the General Fund at year-end to build reserves for future operational needs. These carryover balances are being managed in a Special Purpose Reserve within the School Resources Fund. Reserves fund expenditures such as the purchase of equipment, additional staff, and instructional materials such as textbooks and library books. Funds may also be transferred back to the General Fund to support operations.

General Observations

Fees and other school charges were reduced or eliminated following a comprehensive review by the District in the fall of 2017-18. The impact of this change is reflected in the Pupil Activity Income budget for 2018-19.

Financial Plan

Debt Service Fund

Description of Fund

The Debt Service Fund accounts for principal and interest payments on long-term general obligation and limited tax pension obligation debt. Expenditures budgeted in 2018-19 represent the portion of principal and interest on the outstanding debt that must be paid during the fiscal year. Sources of revenue include the debt service levy on local property, interest earnings on investments and charges to other funds.

As of June 30, 2018, outstanding principal balances will total \$253.0 million in general obligation (G.O.) bonds and \$41.3 million in pension bonds. Based on 2017-18 Measure 5 real market value, general obligation bonds represent 10.8% of the District's legal debt limit of \$1.9 billion. Remaining legal debt capacity is \$1.7 billion. Debt levels are also governed by Board policy, which requires the periodic review of debt capacity to ensure that debt levels are prudent and affordable to District taxpayers. The District's debt and investment management policies can be found in the Building the Budget section of the budget document.

General Observations

Bond Rating

As of June 2017, Moody's Investors Service assigned an **Aa2** underlying rating to the District's general obligation bonded debt. According to Moody's, one of the top bond rating agencies in the country, the rating "reflects the district's large tax base and economy that benefits from the presence of the University of Oregon; healthy socioeconomic measures; satisfactory financial operations buttressed by available reserves outside of the general fund; and manageable direct debt burden with elevated pension liabilities." This is the third highest rating offered by Moody's. Aa indicates that bonds, from an investor's perspective, are judged to be high quality. The highest rating that Moody's assigns is Aaa. State of Oregon bonds are rated Aa1.

The District also participates in the Oregon School Bond Guaranty Program, which guarantees the general obligation bonds of school districts, education service districts, and community colleges. This program helps to minimize interest costs for districts. Currently, the program carries an Aa1 rating with stable outlook.

Debt Issuance

Debt service payments in 2018-19 reflect the following debt issuances:

In February 2004, the District sold \$53.4 million in pension bonds to finance one-half of the calculated unfunded actuarial liability in the Public Employees Retirement System (PERS) at that time. The estimated net present value of the savings to the District over the life of the bonds was projected to be \$13.9 million, assuming the bond proceeds deposited in the District's PERS account earned an average of 8 percent per year. Variations in returns since that time have affected the economics of our PERS rates.

In May 2011, voters authorized the issuance of general obligation bonds totaling \$70 million. The District issued \$35 million in August 2011, \$15 million in August 2013, \$4 million in June 2016 and the remaining \$16 million in June 2017.

In October 2012, the District issued \$37.4 million of general obligation refunding bonds to refinance a portion of the District's Series 2003 and Series 2005 bonds. Savings to the taxpayers over the life of the refunded bonds were

Financial Plan

calculated to be over \$2.9 million, or a net present value savings of 6.6%. The remaining \$2.3 million of the 2003 bonds matured in January 2013 and \$1.9 million of the 2005 bonds matured in February 2015.

In May 2013, District voters approved the issuance of general obligation bonds totaling \$170 million. The District issued \$25 million in August 2013, \$80 million in September 2014, \$36 million in June 2016, and the remaining \$29 million in June 2017.

Property taxes levied for debt service payments on voter-approved general obligation bonds are not subject to the property tax rate limits of Measure 5 or Measure 50.

The following tables show District bonded indebtedness as of June 30, 2018 and annual payments to be made in 2018-19. Overall, debt service requirements are 27.4% lower in FY 2018-19. This reduction is due to the 2008 refunding final payment (\$12.0 million) being paid last year. The total estimated requirement of debt service principal and interest due in 2018-19 is shown in the expenditure table below.

General Obligation Bonds Outstanding, 06/30/17 ³	(206,395,402)

Limitation on Additional Bonding	\$ 1,698,484,398
----------------------------------	------------------

¹ ORS 328.245 limits the general obligation debt which an Oregon school district may have outstanding at any time to an amount calculated by multiplying the number of grades, kindergarten through eighth, for which the district operates schools by a factor of .0055 of the real market value, and the number of grades, nine through twelve, for which the district operates schools by a factor of .0075. The District's aggregate percentage debt limitation is therefore 7.95% of the real market value of the District.

² The bonding limit is based on Measure 5 Real Market Value of District property in Lane and Linn Counties. Property tax calculations are based on Assessed Value.

³ Legal lending limit only applies to general obligation bonds. Pension bonds are excluded from this calculation.

Financial Plan

Capital Projects Fund

The Facilities Department is responsible for the following four major programs that are funded by Capital Projects funds:

1. Capital Improvements, Repairs and Maintenance Program (Fund 400)

The Capital Improvements, Repairs and Maintenance Program manages several significant projects throughout the District, such as: sports field turf installation and maintenance, gym floor refinishing; parking facilities maintenance and upgrades; and irrigation, lighting, and heating upgrades. Individual projects budgeted in 2018-19 are listed within the Non-Bond Funded portion of the Capital Projects Listing.

This program funds 2.25 FTE for custodial services located at the Youth Sports Park locations. Local reimbursements from the City of Eugene and usage fees paid by youth sports organizations such as KidSports are the primary sources of operating revenue for this program. Current year spending is also supported by unspent funds received in prior years. The proceeds from bond sales are not a source of revenue for this program.

2. Preventive Maintenance Program (Fund 450)

The goal of the Preventive Maintenance Program is to assure systems operate efficiently and their useful lives are extended, and to implement energy conservation efforts.

The program funds several projects including: real estate consulting, program relocations, and building improvements. Individual projects budgeted in 2018-19 are listed within the Non-Bond Funded portion of the Capital Projects Listing. It is staffed by a Supervisor (0.5 FTE) and Maintenance Workers (3.0 FTE) that conduct regularly scheduled preventative maintenance of major building systems (e.g., roofs, plumbing, electrical, and heating/ventilation/air conditioning (HVAC)). Resources for this program are from sales of surplus properties and unspent funds from prior-year transfers from the General Fund. The proceeds from bond sales are not a source of revenue for this program.

According to Board policy DFD (see the Building the Budget section), net proceeds from the sale or lease of facilities will be used to acquire and develop land and/or upgrade and improve District facilities “unless the Board decides otherwise for compelling reasons.” Annual transfers of \$500,000 were made from these funds to help offset General Fund budget deficits in 2009-10 and 2010-11. A \$2 million transfer was budgeted for 2012-13, with another \$1 million transfer budgeted for 2013-14. No transfer to the General Fund has been included in budgets since 2013-14.

3. Capital Improvement Program (Bond Funds 410 and 420)

The Capital Improvement Program is responsible for building construction and improvements, building systems replacement and upgrades, as well as providing funding for student safety and security upgrades, replacing textbooks and instructional materials, acquiring and improving technology, and acquiring vehicles and equipment.

The program is staffed by a project administration team, including the Director of Facilities (0.30 FTE), a Construction Program Manager (1.0 FTE), Project Managers (5.0 FTE), and administrative support (3.0 FTE). Resources for the Capital Improvement Program are from the sale of general obligation bonds, related interest income and bond premium (see the Long-Range Facilities Plan and Bond Measures sections below).

Financial Plan

Long-Range Facilities Plan

In February 2002, the Board adopted a 24-year Long-Range Facilities Plan, which was developed by the Strategic Facilities Planning Advisory Committee, a group of 21 community members, parents, students, teachers, classified staff, administrators, and School Board members appointed by the Superintendent to develop a plan to address the District's aging facilities, rising facilities operating costs and declining enrollment.

The Committee reviewed recommendations made by the Schools of the Future Committee (1999–00) and the School Closure, Consolidation and Replacement Committee (2000–01) as well as District financial and enrollment projections, demographic and geographic information, building operating costs, and capital needs.

The plan includes the following strategies:

- Replace or fully renovate aging elementary and middle school buildings that no longer adequately serve students. Remodel high schools in stages, replacing portable classrooms and improving instruction and student activity spaces;
- More closely match available space with enrollment at the elementary level, through school consolidations;
- Replace and upgrade capital systems, such as roofs, wiring, plumbing, and fire and security systems as needed to prolong the useful life of the buildings and to upgrade the technology infrastructure to support current instructional needs;
- Dispose of surplus property that will not be needed in the future for educational purposes or seek long-term leases that would financially benefit the District; and
- Improve instructional spaces throughout the District.

In 2013, the Board approved an update to the Long-Range Facilities Plan. This followed an extensive public process after the completion of a comprehensive facilities assessment by an external consulting firm. This assessment included the physical condition of buildings, condition and constraints of each site, educational suitability, and technology readiness. The results of this assessment were used to inform the decision-making process surrounding the planned and projected replacement and upgrade of schools.

The District is currently in the process of updating this plan in preparation for a potential bond measure in November 2018.

Approved Bond Measures

The 2002 Long-Range Facilities Plan calls for four bond elections approximately six years apart. The first bond measure, totaling \$116 million, was approved by voters in 2002. Final balances under this measure were expended in 2010-11.

The timing of the Great Recession put the Plan on hold until May 2011, when voters approved a \$70 million bond measure funding capital improvements to school facilities, upgrades to technology systems and a broad range of support for changes in the delivery of instruction.

Additional school replacements called for in the Plan were not included in the 2011 bond because of economic conditions at that time, the fact that a local income tax to benefit schools was also on the May 2011 ballot, and

Financial Plan

because further analysis on grade reconfigurations, school closure and consolidation, and language immersion programs was needed.

In May 2013, voters approved a \$170 million bond measure funding a combination of replacement and renovation of four school buildings, as well as providing funding for student safety and security upgrades, replacing textbooks and instructional materials, acquiring and improving technology, and acquiring vehicles and equipment.

Spending from Bond Measures

Major projects are funded from bond measures approved by the District’s voters. These are budgeted on a project basis. Capital improvements and repairs valued at \$5,000 or more are typically budgeted in the Capital Projects Fund. The remainder of the bond proceeds from the 2011 and 2013 bond measures were issued in June of 2017.

Financial Plan

May 2011 \$70 million bond measure

The purpose of the bond measure as described in the measure approved by voters is as follows:

- Capital system replacements and improvements, including roofing, plumbing, heating, electrical, safety/security, paving, energy conservation measures.
- Additions and remodels updating several schools to better serve students.
- Building improvements and repairs currently funded from the General Fund.
- Technology infrastructure upgrades, telephone system replacements, new student data information system, enhanced classroom technology.
- Instructional System Support providing for changes in delivery of instruction as required for larger class sizes, distance learning, space modifications, enhanced classroom instructional technology, qualifying instruction materials.

Major Projects (\$)	Total Project Budget	Actual Expenditures 7/1/11-6/30/17	Projected Expenditures 2017-18	Budgeted Expenditures 2018-19
Capital Systems Replacements and Improvements	\$44,400,000	\$28,944,941	\$1,490,709	\$14,478,300
Additions and Remodels	6,000,000	2,723,838	26,955	0
Allowance for Future School Reconfiguration	4,000,000	5,706,932	0	0
Building Improvements and Repairs ¹	6,000,000	6,000,000	0	0
Instructional Technology, Technology Infrastructure, Student Information System, and Lawson ²	6,800,000	7,616,797	104,923	175,000
Changes in Instructional Design	2,100,000	2,048,422	93,250	0
Potential Acquisition of Property	700,000	0	0	0
Multi-Site Emergency Contingency ²	0	839,879	0	1,555,334
Bond Issuance Costs ³	n/a	746,656	3,201	0
Bond Premiums ⁴	3,702,557	3,702,557	n/a	n/a
Interest Earned ⁴	449,178	449,178	n/a	n/a
Total ⁵	\$74,151,735	\$58,779,200	\$1,719,038	\$16,208,634

¹ Building Improvements and Repairs includes a redirection of approximately \$1 million in annual operating costs from the General Fund for six years to support the District's instructional program. This support ended fiscal year 2016-17.

²The dollar reduction from previous years of actual Emergency Contingency and high increase in Technology is due to moving the actual expense of the Lawson project actuals from Emergency Contingency to Technology

³ Costs of bond issuance and oversight are funded from bond proceeds and are included in the above projected budget figures.

⁴ Bond premiums and interest earned have been added to the total project's available budget, as this provides additional funding for projects.

Financial Plan

May 2013 \$170 million bond measure

The purpose of the bond measure as described in the measure approved by voters is as follows:

- Replace, renovate, improve, repair, and remodel school facilities and other property used for District purposes.
- Address student safety and security across the District.
- Replace textbooks and instructional materials.
- Acquire technology to support effective classroom instruction, and improve technology infrastructure.
- Acquire vehicles for transporting students and enhance access routes to schools.
- Acquire equipment.
- Pay bond issuance costs.

Project	Total Project Budget	Actual Expenditures 7/1/13–6/30/17	Projected Expenditures 2017-18	Budgeted Expenditures 2018-19
Roosevelt Middle School, Replacement	\$42,000,000	\$37,873,708	\$51,574	\$136,103

¹ Costs of bond issuance and oversight were funded from bond proceeds and are included in the above project budget figures.				
² Bond premiums and interest earned have been added to the total project's available budget, as this provides additional funding for projects.				
³ The Total dollar amounts do not include Facilities Department employee compensation.				

Financial Plan

4. Capital Equipment Reserve (Fund 490)

The goal of the fund is to support ongoing capital purchases. These purchases are funded primarily from budget savings from the General Fund and state funding supporting fleet replacement. The state reimburses replacement costs for buses and vans used to transport students at a rate of 70% of the allowable fleet depreciation. Vehicles are depreciated over a ten-year period. State reimbursements in 2018-19 for bus depreciation are budgeted at \$700,000.

In the past, fleet replacement funds were supplemented by transfers from the General Fund (until 2009-10, \$150,000 per year); however, in recent years bond funds from the May 2013 measure were used to purchase buses so transfers were discontinued.

The District currently owns 107 regular and special education school buses that have an estimated useful life of 10 to 12 years.

Historic Value of Fleet and Equipment held at June 30, 2017 ¹	
Bus Fleet	\$10,807,000
Other District Fleet	2,894,000
Grounds Equipment	1,220,000
Other Equipment	<u>14,101,000</u>
Total Value	\$29,022,000
¹ Note that this information contains only equipment and vehicles over \$5,000.	

Financial Plan

Impact of the Capital Projects Fund on the General Fund

The primary objective of infrastructure and building systems upgrades and improvements is to limit the growth of operating costs, increase the comfort of employees and students, and improve the reliability of these systems, thereby reducing current and future maintenance costs.

Facilities management currently anticipates that a combination of new building construction, upgrades to digital system controls and monitoring, heating equipment upgrades, exterior window replacement, LED lighting fixture retrofits, and increased access to water wells for irrigation will yield reduced energy consumption at a rate comparable to likely increases in the cost of energy inputs over the next several years. Although it is difficult to quantify at this time, these capital project improvements should limit increases in utilities costs within the General Fund during the useful life of these improvements.

The savings to the General Fund related to spending on capital projects in the 2018-19 budget is estimated at \$26.6 million. This reflects costs that otherwise would have been paid by the General Fund. The table below shows this breakdown in more detail.

Description	Capital Project Fund	Spending	Total
Capital Improvements	Repairs & Maintenance Program	\$673,924	\$673,924
Technology infrastructure and instructional technology	Bond	1,469,358	1,469,358

History of Capital Improvement Program Expenditures

The District's history of capital expenditures shows the strong, positive impact of voter-approved bonds on its ability to make improvements to buildings and grounds. Prior to bond issuance in 1993, typical annual capital improvement expenditures ranged from \$1 million to \$3 million. The graph below highlights the impact of bond issuance.

The 2018-19 capital improvement program will be funded with proceeds of the \$170 million bond approved by voters in May 2013 and the \$70 million bond approved in May 2011. Bond-funded expenditures represent \$26.5 million for capital projects, \$1.3 million for technology upgrades, \$1.4 million for Instruction-related improvements, and \$1.2 million in project management and program administration costs. Non-bond funded projects include almost \$9.9 million in capital improvements and \$1.6 million for repairs and preventive maintenance.

Nutrition Services Fund

Description of Fund

The District maintains the food service fund to track participation in the National School Lunch Program (NSLP), School Breakfast Program (SBP), At-Risk Afterschool Meal Program (CACFP), and Summer Food Service Program. These programs are supported by federal and state reimbursements, commodity food credits from the U.S. Department of Agriculture (USDA), and revenue generated from meal sales. School districts must serve meals that meet Child Nutrition Program nutrition requirements and must offer free and reduced priced meals to eligible students. The District also participates in the Farm to School program, which provides grant funds for purchasing food from local sources.

Fund costs are comprised of office, kitchen, and warehouse staff; food; supplies; equipment; technology; and program management. Food service professionals serve healthy meals at 32 school-building sites and support vended meals for four additional programs.

Changes in Staffing (Full-Time Equivalent)

Vision 20/20 Strategic Plan:

Four elementary schools and one middle school provide both breakfast and lunch at no charge, and two additional middle schools provide lunch at no charge. As of Fall 2017, all elementary students may participate in school breakfast at no cost. These programs provide students with access to nutritious meals which improves learning and aligns to the district's Vision 20/20 Strategic Plan Goal 1: Educational Excellence with Equitable Access and Outcomes for Every Student.

General Observations

Staffing and food costs are more than 90% of expenses in the Nutrition Services fund. Sodexo, LLC provides operational management services under a per-meal fixed cost agreement with a break-even guarantee. The district hires and pays food service staff and Sodexo provides the management team and purchases food and supplies for student meals. The District supports provision of meals to all students, regardless of family income or the school a student attends. A transfer from the General Fund pays for uncollectable meal accounts, District staff to provide program oversight, and supports full breakfast and lunch services for several low-participation programs.

Financial Plan

In compliance with Oregon House Bill 3454, which prohibits communication with students about negative meal balances, district staff and school administrators have improved communications with and assistance to families regarding Free and Reduced Meal Applications and eligibility requirements.

Implementation of free breakfast to all elementary school students increased participation by over 400 students each day and required modest increases in staffing at some sites. Corrections to schedules were also implemented to ensure staff could take required rest and meal breaks.

Insurance Reserve Fund

Description of Fund

The District's Insurance Reserve Fund is an internal service fund established to fund and record insurance, Wellness Clinic, and risk management activities and services. These activities and services fall into four major areas:

- Benefits – manage employee medical insurance and benefit plans – initial enrollment, qualifying event changes, eligibility requirements, compliance with health care reform rules, process premium payments; coordination of joint benefits committee; administer retirement programs and flexible spending accounts
- Wellness – oversee wellness clinic
- Workers compensation and safety – manage worker safety program, Occupational Safety and Health Administration (OSHA) program, oversee unemployment claims, processing of injury claims, light duty work assignments, coordination of return to work process, work site accommodations
- Risk, Liability and Emergency Management – emergency planning and preparation, manage property loss and liability claims, coordinate District-wide insurance (auto, liability, property), school safety and inspections, and legal processes

¹ In 2017-18 staff was moved from the Insurance Reserve Fund to the General Fund. Remaining staff includes 0.50 FTE for the Licensed Benefits Coordinator; 1.0 FTE for the Classified Benefits Coordinator; and 0.25 FTE for the Wellness Clinic Custodian.						
² 1.0 FTE Safety Officer added in 2017-18 Supplemental Budget #2						

General Observations

During fiscal year 2017-18 the District added a Safety Officer to oversee safety and emergency preparedness through the District. This position, in partnership with local emergency responders, will develop and implement a comprehensive safety program to establish a safe and positive school climate for staff and students. This position will serve as a focal point to coordinate efforts, facilitate access to resources and provide professional development and support on a district-wide basis.

Workers Compensation

This graph outlines the number of workers' compensation claims for all District employees between July 2007 and April 2018. Workers' compensation provides medical and/or time loss payments to 4J employees, Board members, volunteers, student workers, and work placement students for injuries sustained in the workplace. Human Resources works to reduce the amount of claims filed by having a proactive safety strategy with a focus on increased safety training and accident investigation to ascertain and implement any changes necessary to decrease the number of injuries to District employees.

Financial Plan

Liability and Property Claims

This graph provides information on the District’s history for insured and self-insured property and liability losses from July 1, 2007 through April 3, 2018. This graph illustrates the total number and cost of property and liability claims as they are reported on the Special District Website of actual claims filed against the district for General Liability, Auto, and Property claims (including school buses). Costs recorded in 2009 include an incurred property coverage deductible due to a significant school fire loss. Two significant claims originating in 2011 resulted in the District settling on a sexual misconduct claim and fall from bleacher claim.

Over the last few years, bond funding has enabled the District to significantly expand technology resources in our schools. The growth in claims seen in 2015 through 2018 reflects a corresponding increase in technology-related claims for lost, damaged, or stolen devices. We would expect this trend to continue in the future as more devices are deployed to schools. Another part of the rise in claims for FY 2018 is due to unusually high property and liability claims for fire and vehicle incidents in the Summer and Fall.

* As claims are processed and later resolved, the dollar amounts noted in the graph are updated each year as some claims may take many years to settle. Once a claim comes to its final resolution, the dollar amount is recorded back to the original year the claim was filed.

Financial Plan

Postemployment Benefits Fund

Description of Fund

The Postemployment Benefits Fund was established in 1991–92 as the District Retirement Fund to account for the receipt of funding for and disbursement of postemployment benefits. The fund provides monthly cash payments and/or insurance benefits for eligible employees who retire before age 65. Benefit levels and eligibility have been bargained and vary among the different employee groups. This program ended in July 1996 for administrators and July 1998 for teachers. The fund provides benefits for most administrators and teachers hired before those dates, as well as a limited contribution to health premiums for retired classified employees.

General Observations

Expenditures budgeted in this fund for post-employment benefits amount to 1.6% of the total District budget for salaries. For 2018-19, \$1.4 million is budgeted in the General Fund to help cover these costs. This is a similar amount compared to the \$1.5 million budgeted in 2017-18 and uses available fund reserves to meet a portion of payment obligations.

Private-Purpose Trust Fund

Description of Fund

The Private-Purpose Trust Fund is used to administer privately funded scholarship programs that benefit individual students. The District established this fund in 2017-18 to report scholarship-related balances and activities for scholarships such as the Gillilan-Torrey Memorial Scholarship. For 2018-19, \$200,000 is budgeted to cover the activities of currently known scholarships.

Financial Forecast

Forecast Framework

This General Fund financial forecast has been prepared in response to the District's adopted management goal of maintaining long-term financial stability. The forecast establishes key assumptions underlying the projections and identifies variables that may cause the projections to change. Its purpose is to provide the fullest picture of the District's financial future so that decision-making today can support high quality and innovative educational programs tomorrow.

Board Policy DI provides direction for the planning and allocation of resources as follows:

1. "On a semi-annual basis the district forecasts General Fund resources and operational requirements over a rolling five year period. Annually, as part of the budgeting process for the district, the Superintendent presents the most recent forecast to the Budget Committee and Board for review and consideration. This forecast highlights resource and requirement considerations that will inform the development of the Superintendent's Proposed Budget for the following year and for other financial planning activities.
2. The Superintendent's Proposed Budget will build off of the General Fund five-year forecast presented to the Budget Committee and Board, incorporate operating and capital budgets managed through other funds, and respond to current district goals and policies and other long-range plans and needs of the district.
3. Operating and capital budgets will be proposed by the Superintendent and approved by the Budget committee consistent with the following criteria:
 - a. The physical safety of students and employees;
 - b. Instructional services that meet the needs of all students;
 - c. Support services to efficiently manage the human, financial, capital, facility and information resources of the district;
 - d. Development of new capital assets to meet enrollment changes or otherwise improve the safety, efficiency or quality of district instructional services.
4. It is the responsibility of the Superintendent, Budget Committee and Board to balance these criteria during the development, review, and adoption of the annual budget.
5. The district's education program must be responsive to enrollment changes and the changing needs of the community and its students. To respond to these changes, a portion of the operating budget may be reserved each year for staffing adjustments, new programs under development, and research and development.
6. Depending on the needs and resource of the district, reserve funds may be established and continually funded to address the replacement of technology, capital assets and curriculum. The Superintendent will recommend funding levels and mechanisms for each established fund as part of the annual budget process."

Financial Forecast

Future Budget Issues

Structural Balance of Budget: Medium Term Projected General Fund Position

The General Fund is projecting a small operating surplus in 2017-18 (about \$2 million), but operating deficits in future years are predicted to utilize most of the fund's \$20.6 million operations reserve assuming current service levels and a full school year. Accordingly, the District is structurally imbalanced – the cost of operations exceeds the District's ability to support those operations. Balancing the budget may require long-term changes in programs or operations, which may mean service reductions or further consolidations. In recent years, the District has maintained services and operations by drawing down reserves and spending one-time resources. Reserves at the end of FY 2017-18 do allow the District to maintain current service standards in the near term. However, the District continues to evaluate and implement revenue generation strategies and cost efficiencies, which may offset the potential for future service reductions.

Enrollment

Enrollment is projected based on the best available information, but it is still an estimate. In the last three years District-wide enrollment has been increasing, but the District had experienced declining enrollment for approximately 20 years before this. We hope that the current trend in enrollment will continue, but there is no guarantee that growth will be sustained or achieve the levels estimated for this forecast.

Local Option Levy Revenue

Through the continued support of local residents, the District receives revenues from a local option levy. The amount of levy collected depends on property values and is defined by Measures 5 and 50. Local option revenue represents the gap between Measure 5 and Measure 50 tax limits. Measure 5 tax limits are based on the real market value (RMV) for each property in the District, and Measure 50 tax limits are based on assessed value (AV). Although local option revenue is calculated on a property by property basis, generally, when RMV grows at a greater rate than AV, local option revenue increases. When it decreases at a greater rate, revenue decreases. During the recent economic downturn local option levy receipts were in decline as a result of the downward trend in real market property values, but with the stronger housing market of the last few years this revenue source is improving and is expected to exceed pre-recession levels over the course of the forecast.

The State Legislature continues to consider proposed legislation that could potentially change future local option tax calculations and collections. Most proposals would amend the Oregon constitution and therefore require voter approval.

It is important to note that this forecast assumes that the District's local option levy will be renewed by the voters for a new 5-year term (2020-21 through 2024-25). Without the local option levy the District would be faced with a revenue decline of over \$15 million beginning in 2020-21.

Education Services District (ESD) Services and Funding

Each county in Oregon has an ESD that provides educational programs and services for districts. ESDs are funded by grants from the State that are calculated based on enrollment in the local districts served. ESDs may also receive fees for services from districts that are not members of the ESD. In 2013, the Legislature allowed local districts to withdraw from their ESD and receive funds passed through. The District has historically used ESD services for special education students. In 2013-14, the District opted to receive 50% of funds from Lane ESD, reduced the ESD

Financial Forecast

services that were used, and began to provide some of the services that were previously purchased in-house. The District could decide to change the relationship with Lane ESD in the future, which would change the revenues and expenses in the forecast.

Special Education Services and Funding

The State School Fund provides additional payments for students with disabilities up to 11% of the District student population (ADM_r). If a district's percentage of students with disabilities exceeds 11%, some additional funding is available, but at a much lower rate per student. In 2018-19, with an estimated 2,400 students qualifying for special education services, the District's percentage of students with disabilities is 13.8% (including charter school students).

The State also provides separate funding for high cost students through the High Cost Disability Grant. This is a fixed amount of funding that is divided across all districts in the state based on the number of high needs students with costs that exceed \$30,000. For 2018-19 the District expects to receive grant revenue of approximately \$1.1 million, an amount equal to \$0.47 of every dollar spent over the initial \$30,000 per high cost student.

The table below shows the number of high cost students since 2010-11.

Year	Number of students cost >\$30,000
2010-11	168
2011-12	162
2012-13	160
2013-14	160
2014-15	159
2015-16	160
2016-17	180
2017-18 est.	197

The District is experiencing growth in the number of students with an IEP and in the number of high cost students requiring services. With significant State School Fund support for IEP populations limited to 11% and the growth in the population of high cost students the District will be challenged to meet the needs of these groups with current resources. The District is currently focused on finding funding and program delivery solutions for these challenges, which may impact the forecast in future years.

Public Employee Retirement System (PERS) Rates

PERS contribution rates are set once every biennium. They are based on fund performance over the 18 months prior to the effective date of the rate change and the actuarial projections of fund liabilities. The current rates were set prior to the state's 2017-19 biennial budget process based on the December 2015 actuarial valuation, adjusted for the effects of actions of the Legislature and PERS Board.

PERS rates for the 2015-17 biennium reflected the effect of actions by the Legislature and PERS Board during the 2013-15 state biennial budget process. These actions reduced the PERS system liability and comprised Senate Bills 822 and 861 and changes to actuarial methods and assumptions approved by the PERS Board. As a result of the

Financial Forecast

Oregon Supreme Court decision striking down many of the PERS reforms enacted by the Oregon Legislature, District PERS rates for the 2017-19 biennium increased by 4.86 percentage points beginning in 2017-18. The District expects to receive 2019-21 biennium PERS rates in the fall of 2018, but based on PERS advisory rates the District may see a PERS rate increase of up to 6.38 percentage points for 2019-21 and an additional 6.30 percentage points for the following biennium. These increases have been factored into the current forecast. Escalating PERS costs will require careful planning over the next several years to mitigate the impact of these increases on District operations.

The District's liability is dependent on the benefit levels for past and current District employees and the performance of the PERS investment portfolio – of PERS as a whole and of the District's "lump sum" or "side" account with PERS (created when the District sold pension bonds in 2004).

Employee Group Contracts

The contract between the District and the Oregon School Employee Association (OSEA) will expired on June 30, 2018. For 2018-19 and beyond, the forecast assumes a full work year for all classified employees (no furlough days) and a step increase for all eligible staff members. The forecast will be updated once a new contract is ratified by both parties.

The contract between the District and the Eugene Education Association (EEA) will expire in 2020. For 2020-21 and beyond, the forecast assumes a full work year for all licensed employees (no furlough days) and a step increase for all eligible staff members. Once economic terms and benefits are finalized in a new contract the forecast will be updated.

Managers, Administrators, Professionals and Supervisors (MAPS) are forecast to receive the same Cost of Living Increases (COLAs) as licensed staff. For 2020-21 and beyond, the forecast assumes a full work year for all unrepresented employees (no furlough days) and a step increase for all eligible staff members. Once new economic terms and benefits are finalized the forecast will be updated.

Employee salaries and benefits, which represent approximately 85% of the District's General Fund budget, will continue to rise through a combination of employee step movements, cost of living increases, and increases in employer contributions toward Public Employee Retirement System (PERS) benefits.

Health Insurance

The District health insurance program is operated through a statewide health insurance pool for all school district employees that commenced in 2008-09 (the Oregon Educators Benefit Board (OEBB)). The District's benefit contributions are subject to agreements with each bargaining unit and employee group. The benefit plans and rates are selected by the Joint Benefits Committee (JBC), and each employee group has its own insurance reserve fund. Employee contributions reflect the difference between the plan cost and district contribution based on plan selected. Actual reserve levels will vary depending on final rates and member plan selection.

Currently, the forecast does not include an increase in the District's benefit contribution. As this contribution is a subject of bargaining, this may change as a result of current or future negotiations.

Financial Forecast

Instructional Hours and Scheduling High School Students

The State has recently reinforced rules specifying the number of instructional hours and graduation requirements. At all education levels, the District is seeking to standardize school calendars and schedules to ensure that all schools meet instructional hour requirements in 2018-19. The District has also resourced full scheduling for 9th and 10th grade high school students, as students who achieve enough credits early in their high school career to be “on track” for graduation are more likely to remain in school and receive a high school diploma.

Number of Schools

The District has a lower number of students per school than other districts of a similar size in the state. Following enrollment declines in the recent past, the District has closed several schools. The District is now experiencing a period of growth, however, and several neighborhood schools are at or above capacity. Over the next year the District and Board will be exploring options to address this growth, including a potential bond measure in November of 2018 and a review of the District’s open enrollment policy and its impact on individual schools.

Financial Forecast

Five Year General Fund Forecast, as of May 2018

Summary of Long-Term Financial Forecast – General Fund

This document provides in-depth information on the development of Lane County School District 4J’s long-term financial forecast. Results and key assumptions are summarized below. The accompanying pages are integral to understanding this summary information, and the “Key Assumptions” section below provides insight into the significant assumptions driving each year’s forecast.

Key Assumptions Impacting Forecast Years

2018-19

The 2018-19 amounts presented in the first column of the 5-year forecast represents the District’s 2018-19 Adopted Budget, approved by the School Board on June 20, 2018.

Annual Operating Deficit: \$3.70 million

2019-20

Revenue

- **State School Fund (SSF) Grants** – This forecast assumes an 8% growth in state funding available to K-12 education for the 2019-21 biennium. As a result, statewide SSF revenues are estimated to be \$8.86 billion (an increase of \$0.66 billion over current 2017-19 funding of \$8.20 billion). As this is the first year of the biennium, we have assumed 49% (\$4.34 billion) of the estimated K-12 budget will be available for allocation to schools and Education Service Districts.

Spending

- **Employee Compensation** – Salaries and related costs and benefits for EEA represented staff have been calculated based on the 2017-2020 Collective Bargaining Agreement between EEA and 4J. Salaries for managers, administrators, professionals, supervisors and directors have been increased by 2.0% (2019-20 COLA) with Board approval. Salaries and benefits for staff members represented by OSEA have been calculated assuming no furlough days and a full step increase for eligible employees effective July 1, as the current agreement between the District and OSEA ended on June 30, 2018. The forecast will be updated to reflect new contract terms following the ratification of a tentative agreement between OSEA and the District.
- **Public Employee Retirement System (PERS) Rate** - PERS contribution rates are set once every biennium. Advisory rates for the 2019-21 biennium have been issued by PERS based on portfolio valuations as of December 2016. Final rates for the 2019-21 biennium will be set during the state’s 2019-21 biennial budget process and based on the December 2017 actuarial valuation completed by Milliman. As expected, rates are projected to increase significantly over 2017-19 values based on a combination of factors including:
 1. A projected drop in the School District Pool funding status to 68%, which will impact the rate collar limits and allow for a larger increase in rates between biennia,
 2. Investment portfolio returns and funding levels, and
 3. The impact of changes made by the PERS Board to the actuarial assumptions used by Milliman in their calculations to better match current plan experience.

Financial Forecast

PERS rates were previously forecast to increase by another 4.86 percentage points in the 2019-21 biennium, but are now predicted to increase by 6.38 percentage points beginning in 2019-20. This will increase PERS costs for the District by an estimated \$6.23 million in the first year of the biennium.

Annual Operating Deficit: \$5.94 million

2020-21

Revenue

1. **State School Fund (SSF) Grants** – This forecast assumes an 8% growth in state funding available to K-12 education for the 2019-21 biennium. As a result, statewide SSF revenues are estimated to be \$8.86 billion (an increase of \$0.66 billion over current 2017-19 funding of \$8.20 billion). As this is the second year of the biennium, we have assumed 51% (\$4.52 billion) of the estimated K-12 budget will be available for allocation to schools and Education Service Districts.

Spending

2. **Employee Compensation** – Salary costs for all employee groups have been calculated assuming no furlough days and a full step increase for eligible employees effective July 1st.

Annual Deficit: \$1.98 million

2021-22

Revenue

- **State School Fund (SSF) Grants** – 2021-22 is the first year of the third biennium reflected in this forecast. State funding is assumed to grow by 8% to \$9.56 billion (an increase of \$0.70 billion over 2019-21 biennium funding of \$8.86 billion). This is the first year of the biennium and we have assumed 49% (\$4.69 billion) of the estimated K-12 budget will be available for allocation to schools and Education Service Districts.

Spending

- **Employee Compensation** – Salary costs for 2021-22 have been calculated assuming no furlough days and a full step increase for eligible employees effective July 1st.
- **Public Employee Retirement System (PERS) Rate** - PERS contribution rates are expected to rise again in the 2021-23 biennium. Based on the advisory rates provided by PERS for the 2019-21 biennium and other payroll-related factors, PERS rates had been forecast to increase by another 6.30 percentage points in the 2021-23 biennium. This will increase PERS costs for the District by an estimated \$6.44 million in the first year of the biennium.

Annual Operating Deficit: \$4.85 million

2022-23

Revenue

- **State School Fund (SSF) Grants** – State funding for the 2021-23 biennium is assumed to grow by 8% to \$9.56 billion (an increase of \$0.70 billion over 2019-21 biennium funding of \$8.86 billion). As this is the second year of the biennium, we have assumed 51% (\$4.88 billion) of the estimated K-12 budget will be available for allocation to schools and Education Service Districts.

Financial Forecast

Spending

- **Employee Compensation** – Salary costs for 2021-22 have been calculated assuming no furlough days and a full step increase for eligible employees effective July 1st.

Annual Operating Deficit: \$2.72 million

Financial Forecast

Summary Assumptions

1. Total revenues

See revenue detail and assumptions for a detailed explanation of the calculations used to develop District total revenues.

2. Operating expenditures

See expenditures detail and assumptions for a detailed explanation of the calculations used to develop District operating expenditures.

3. Transfers

- Ongoing transfers to accumulate funds for capital projects, curriculum, technology and fleet purchases are not included in the forecast. Purchases in recent years have been funded by the May 2013 bond measure, and the District is currently evaluating funding options for future requirements once bond funds have been fully expended.
- Insurance and risk reserve transfers:
 - Beginning in 2017-18, staff associated with Risk and Benefits have been moved to the Human Resources Department and funded through the General Fund. As a result, and to offset remaining costs, the annual transfer to Risk and Benefits will be reduced from the 2016-17 amount of \$875,000 to \$340,000 for 2017-18 and beyond.
 - \$250,000 in social security cost savings from pre-tax flexible spending accounts to insurance reserve accounts annually, as negotiated with employee groups.
 - \$300,000 to support Nutrition Services operations in all years of the forecast.

4. Contingency and Reserves

- The General Fund Contingency is equal to 2.5% of operating expenditures, which is 0.5% greater than the minimum set by Board policy.

Board Policy DI, Accounting and Financial Practices Policy 4: *“The targeted contingency for general fund is two percent of the operating budget.”*

The forecast assumes a 5.0% General Fund ending fund balance (\$9.2 million in 2018-19 to \$10.8 million by 2022-23) throughout the forecast period. This complies with Board Policy DI, Accounting and Financial Practices Policies item 5 which states *“The district will maintain a minimum General Fund ending fund balance of five percent of current year annual operating revenues excluding transfers between funds.”*

General Fund Reserves are predicted to grow to \$20.6 million by the end of 2017-18. The forecast assumes that these reserves will be available to address future operating deficits and cost increases.

5. Projected Underspending

- Assumes a portion of budgeted expenditures will not be spent in any given year; calculated as 66% of 2% General Fund Contingency required under Board Policy DI.

Financial Forecast

6. Use of Transfers from Reserves to Balance

- General Fund Operations Reserves are used in each year of the forecast to adjust the ending fund balance to 5.0% of operating revenues, as required by Board Policy DI.
- Insurance Reserve transfers reflect balances agreed to during collective bargaining.

7. Annual Surplus/(Deficit) Assuming Use of Reserves

- Difference between total District revenues and operating expenditures, net of reserve transfers.
- Projected financial shortfalls shown in brackets.

8. Corrective Action Required

- Board action required to maintain an appropriate ending fund balance and support district operations during the forecast period.
- This line item assumes that a previous year's deficit is resolved, and projects the additional amount needed in the subsequent years to balance the budget. Based on available reserves over the five years of this forecast, there is no corrective action identified although the operating deficits in the last four years would use up all available reserves.

9. General Fund Reserves or Ending Fund Balance

- General Fund reserves, as a percentage of operating revenues, are expected to be 5% of operating revenues during the forecast period. This is consistent with the direction of the School Board, and reflects a return to the District policy level of 5% of operating revenues after several years below this point after the Great Recession.

Board Policy DI, Accounting and Financial Practices Policy 5d: *“The district will maintain a minimum ending fund balance of five percent of current year annual operating revenues excluding transfers between funds. The fund balance takes into consideration revenue and expenditure volatility and other district needs. The minimum ending fund balance is comprised of the General Fund UEFB plus two-thirds of the contingency for the ensuing year.”*

Financial Forecast

Revenue Assumptions

1. Property Tax Collections – Current Year

- Average, annual tax growth of 3.0% per year over the forecast period.
- Assessed property values (AV) projected to increase annually by 3.0% throughout the forecast period.
- Compression losses have decreased over the past several years and are projected at 0.77% of the permanent tax rate for 2018-19 and beyond.
- Tax collection rates are assumed to be 94.5% throughout the forecast period.
- Included in the State School Fund formula.

2. Property Tax Collections – Prior Year

- Estimated at 30% of uncollected current year property taxes throughout the forecast period.
- Included in the State School Fund formula.

3. State School Fund (SSF) Grants

State School Fund Grant

Total SSF Formula Revenue: Per Pupil Amount (SSF Grant per Pupil, adjusted for teacher experience and state funding ratio) X Enrollment (Extended ADMw) + Transportation Grant – SSF Local Revenues (Local Property Taxes, Federal Forest Fees, Common School Fund, County School Fund).

- Assumes \$8.2 billion in state funding for K-12 schools in the 2017-19 biennium: with 50% available in each year of the biennium. For the 2019-21 and 2021-23 biennia, state funding is forecast to grow by approximately 8.0% over the previous biennium's appropriation. For these two biennia, the forecast reflects a 49%-51% funding split between the first and second year.
- Per pupil amounts have been adjusted to reflect projected enrollment during the forecast period.
- Beginning in 2015-16 both the statewide and district-level ADMw increased to reflect kindergarten students at full-day attendance.
- Total SSF Formula Revenue, which includes property taxes and local revenues, is approximately 89% of District General Fund revenues.

High Cost Disability Grant

- Provided to partially offset the cost of educating students for whom costs exceed \$30,000 per year.
- Revenue for 2018-19 and future years assumes the availability of \$35 million a year, at the statewide level, for this grant.

4. SSF Local Revenues

- Includes Common School Funds and County School Funds for all years in the forecast.
- Included in the State School Fund formula.

5. Local Option Levy

- Five-year property tax levy of \$1.50/\$1,000 AV to support general operations, renewed November 2014 for 2015 through 2020.
- Forecast projections are based on current assessed values adjusted for steady growth throughout the forecast period (annual assessed property value growth at 2.0%)
- Expected to remain substantially below statutory limits of \$1,000 per ADMw and 20% of state resources over the forecast period.

Financial Forecast

- Not included in the State School Fund formula.

6. Other Revenues

- Not included in the State School Fund formula.
- Includes many different revenue sources such as Education Service District (ESD) funding allocations, interest earnings, tuition and fees, indirect grant charges, student body fund payment for staffing, athletics fees and gate receipts, funding and donations from outside groups, and building rental income.

Board Policy DI, Revenue Policy 1: *“The district will strive to establish a stable revenue base for the operating budget for program needs through cooperation with its associations, legislators, and other districts. The district will make capital funding requests periodically to assure adequate safety and preservation of school buildings, district equipment, and other capital assets.”* 2. *“The district may charge the service fees intended to recover the partial or full cost of non-district sponsored use of its facilities, services or equipment, if permitted by law...”*

7. Enrollment

- Average Daily Membership (ADM) – Year-to-date average of daily student enrollment.
 - ADMr – Resident ADM.
 - ADMw – ADM weighted to reflect the number of students in specific categories such as English Language Learners (ELL), students with Individualized Education Programs (IEPs), students enrolled in Pregnant and Parenting programs, living in poverty, or in foster care.
 - Extended ADMw – Greater of the current year or prior year ADMw, used to calculate State School Fund grant payments.
- District enrollment, excluding charter schools, is projected to fluctuate throughout the forecast. Projected enrollment for 2017-18 is 16,679 students. Enrollment will grow by 147 student to 16,826 in 2018-19 and increase through the forecast with an additional 120 students in 2019-20 (16,946), 217 students in 2020-21 (17,163), 111 students in 2021-22 (17,274), and 153 students in 2022-23 (17,427).

Financial Forecast

Expenditure Assumptions

1. Employee Compensation

- Salaries and related costs and benefits for licensed staff have been calculated based on the 2017-2020 Collective Bargaining Agreement between the EEA and 4J. Starting in 2020-21, the forecast projection is limited to costs for a full contract year (no furlough days) and an annual step movement for all eligible employees effective July 1st.
- Licensed employee changes (i) track enrollment changes, (ii) represent terms agreed to in the 2017-20 contract between the EEA and the District, and (iii) reflect staffing changes approved by the Superintendent.
 - 2018-19 15.95 FTE increase (enrollment, added grade to Chinese Immersion, and increase in Elementary teachers preparation time)
 - 2019-20 5.70 FTE increase (enrollment and added grade to Chinese Immersion)
 - 2020-21 8.80 FTE increase (enrollment and added grade to Chinese Immersion)
 - 2021-22 5.20 FTE increase (enrollment and added grade to Chinese Immersion)
 - 2022-23 6.45 FTE increase (enrollment and added grade to Chinese Immersion)
- Projected salaries for classified staff members for 2018-19 and beyond reflect a full contract year (no furlough days) and an annual step movement for all eligible employees effective July 1st. The forecast will be updated to reflect new contract terms following the ratification of a tentative agreement between OSEA and the District.
- Classified employee staffing within the General Fund is expected to increase in 2018-19 with the addition of funding for Education Assistants (19.9 FTE) associated with the new Behavior Framework. Other smaller increases will support services provided by the Student Services Department (2.36 FTE).
- COLAs for 2017-20 have been approved by the Board for managers, administrators, professionals, supervisors and directors, and reflect the same percentage increases as those approved for the same period for licensed staff. Starting in 2020-21, the forecast projection is limited to costs for a full contract year (no furlough days) and an annual step movement for all eligible employees effective July 1st.

2018-19: administrative staffing has increased by 2.0 FTE with the addition of the Assistant Superintendent for Administrative Services and the Safety Officer. An additional 0.13 FTE was moved to the General Fund from bond funding at the end of 2017-18 to reflect the completion of several technology bond projects.

Financial Forecast

Payroll Costs and Benefits

- Payroll costs are calculated as a percentage of salary, while health insurance and other benefits are driven by staffing levels.
 - Insurance contributions are subject to negotiation with employee groups. This forecast does not include any change to the contributions currently made by the District.
- The District's PERS rates for the 2019-21 biennium are estimated to increase by 6.38 percentage points and an additional increase of 6.3 percentage points is forecast for the 2021-23 biennium.
- Annual required support for district early retirement benefits is estimated at \$1.4 million for 2018-19. Beginning in 2020-21 support costs will decrease to \$1.35 million with a further decrease in 2021-22 to \$1.3 million per year.

2. Other Operating Expenditures

- Purchased Services costs increase at the rate of CPI throughout the forecast period (1.7% to 2.9%).
- Charter school payments represent the pass-through of state funding (80% or 95% of state funding received, dependent on the grade levels served by the charter school) and local option revenue on a per pupil basis.

3. Transfers

- Ongoing transfers to accumulate funds for capital projects, curriculum, technology and bus fleet purchases are not included in the forecast. Purchases in recent years have been funded by the May 2013 bond measure, and the District is currently evaluating funding options for future requirements once bond funds have been fully expended.
- Insurance and risk reserve transfers:
 - Beginning in 2017-18 staff associated with Risk and Benefits are now funded through the General Fund. As a result and to offset remaining costs, the annual transfer to Risk and Benefits was reduced from the 2016-17 amount of \$875,000 to \$340,000 for 2017-18 and beyond.
 - \$250,000 in social security cost savings from pre-tax flexible spending accounts to insurance reserve accounts, as negotiated with employee groups.
 - \$300,000 to support Nutrition Services operations in all years of the forecast.

4. Contingency

- The General Fund contingency is equal to 2.5% of operating expenditures (excluding transfers), which is 0.5% greater than the minimum set by Board policy.

Board Policy DI, Accounting and Financial Practices Policy 4: *"The targeted contingency for the general fund is two percent of the operating budget."*

- The forecast assumes a 5.0% General Fund ending fund balance (\$9.2 million in 2018-19 to \$10.8 million by 2022-23) throughout the forecast period. This complies with Board Policy DI, Accounting and Financial Practices Policies item 5 which states *"The district will maintain a minimum General Fund ending fund balance of five percent of current year annual operating revenues excluding transfers between funds."*

Staffing Information

Staff Conversion and Costing Table

The Staff Conversion and Costing Table reflects the full budget cost of an average licensed and/or classified full time equivalent (FTE) employee. This version of the Staff Conversion and Costing Table was used in the development of the 2018-19 budget.

Below are average staff salary, payroll and benefits costs to use for calculating additional staffing from grants, donated funds, or conversions of materials and supplies budgets to FTE, and for converting licensed FTE and classified hours. Amounts can be used for both conversion purposes and costing additional staffing. **Classified conversions are stated in terms of hours and not FTE.**

Remember that there is a 10% equity surcharge on donated funds earmarked for staffing.*

These rates may be used for all staffing conversions.

AVERAGE STAFFING COSTS

Licensed Staff (191 days)

Regular Staff				.10 FTE =	\$10,548
	Salary Account	111	\$6,470		
	Fixed Costs	200s	\$2,488		
	Fringe Benefits	240s	\$1,590		

Extended Contract				1 day =	\$469
	Salary Account	131	\$339		
	Fixed / Fringe Costs	200s	\$130		

Substitute Teacher				1 day =	\$240
	Salary Account	121	\$183		
	Fixed / Fringe Costs	200s	\$57		

<u>Classified - Grade 10 and lower (average of 208 days)</u>				1 Hour =	\$6,921
	Salary Account	112	\$3,673		
	Fixed Costs	200s	\$1,412		
	Fringe Benefits	240s	\$1,836		

<u>Classified - Grade 11 and higher (average of 226 days)</u>				1 Hour =	\$8,479
	Salary Account	112	\$4,798		
	Fixed Costs	200s	\$1,845		
	Fringe Benefits	240s	\$1,836		

* Please contact a member of the Budget team (budget@4j.lane.edu) for help in costing additional staffing or converting one type of staffing to another, e.g., licensed to classified. Financial Services will work with you to determine the amount that needs to be billed to your school for staffing purchased with outside funds.

According to Board policy, staff positions funded through donations will be created only after the funds have been received by the district.

For staffing funded through Eugene Education Fund (EEF) grants, please notify the Grants Coordinator (grants@4j.lane.edu) of your budget decisions, in addition to your Human Resources representative.

General Salary Schedule:

This salary schedule has been increased over the 2016-17 salary schedule by 2.2%. The Longevity step represents 3% over Step 9. An employee on Step 5 of the 1997-98 salary schedule who received an additional 3% shall continue to receive the value of the 3%. Whenever the state minimum wage exceeds a pay rate established in this schedule, the employee will receive the state minimum wage.

The 2018-19 adopted budget reflects classified staffing budgets based on the 2017-18 salary schedule. These budgets will be updated when an agreement is reached between the Oregon School Employees Association (OSEA) and the District and ratified by the members of the OSEA.

Appendices

Functions in Major Program Areas

The major program areas and functions associated with these major program areas in the General Fund are presented below. Specific costs associated with each function can be found in the Program Budget Detail Section.

Direct Classroom Services

Direct classroom services is dedicated to school district activities that are involved in direct instructional services to students. The fundamental purpose of the District is to provide the very best education we can for every student, from kindergarten through high school graduation, in a safe environment that is demanding but nurturing and rigorous but compassionate, fosters independence and collaboration, and respectfully demands accountability as well as excellence from students and staff.

Regular Programs

Kindergarten through grade twelve instruction programs are designed to prepare students to graduate from high school, prepared to be successful in college, careers, and as citizens. These programs provide learning experiences to develop the knowledge, skills, appreciation, attitudes, and behavioral characteristics needed by all students. They also include special learning experiences designed to meet physical, mental, social and emotional disabilities or gifts.

- 1111 Elementary School Programs
- 1121 Middle School Programs
- 1131 High School Programs

Special Programs

Special programs provide a wide range of instructional and related services for traditional and non-traditional students including programs for those with disabilities, alternative education, Talented and Gifted, and English Language Learners, as well as learners attending summer school, charter schools, and other programs.

- 1210 Programs for the Talented and Gifted
- 1220 Restrictive Programs for Students with Disabilities
- 1229 Other Restrictive Programs
- 1250 Less Restrictive Programs for Students with Disabilities
- 1260 Treatment and Habilitation
- 1271 Remediation
- 1280 Alternative Education
- 1288 Charter School Flow-Through
- 1291 English Language Learner Program
- 1292 Teen Parent Programs
- 1293 Migrant Education
- 1294 Youth Corrections Education
- 1410 Special Programs – Elementary Summer School

Appendices

Classroom Support Services

Classroom Support Services include direct services to the staff that provide student instruction; activities designed to support instruction include providing materials, services, and professional growth opportunities; extra-curricular activities for students; functions that directly support the non-instructional needs of students; and the administration of the schools that our students attend.

Extracurricular Activities

Extracurricular activities are designed to support and enrich successful student participation in regular and special instructional programs. Support is provided by various specialists through direct service to students and consultation services with school personnel, parents, students and other agencies.

- 1113 Elementary School Student Activities
- 1122 Middle School Student Activities
- 1132 High School Student Activities

Student Support

These activities are designed to support successful student participation in regular and special instructional programs. Support is provided by various specialists through direct service to students and consultation services with school personnel, parents, students and other agencies. *Some of these functions are funded by Federal, State and Local grants.*

6110 Operating Contingency

6114 Board Priorities Reserve

6115 Operations Reserve

7000 Reserves and Fund Balances

Appendices

Function Descriptions

1111 *Elementary School Programs*

The elementary instructional program for children in grades kindergarten through five provides learning experiences focused on key essential skills, particularly those necessary to receive an Oregon high school diploma: read and comprehend a variety of texts; write clearly and accurately; apply mathematics in a variety of settings; listen actively and speak clearly and coherently; think critically and analytically; use technology to learn, live and work; demonstrate civic and community engagement; demonstrate global literacy; and demonstrate personal management and teamwork skills.

Instruction is delivered using strategies that encourage students to make connections across subject areas, think critically and apply their learning to experiences in their own lives.

1113 *Elementary Student Activities*

Expenditures for elementary school extra-curricular activities.

1121 *Middle School Programs*

This level of instruction blends a strong academic program with a gradual transition from the elementary school to the high school. The middle school climate and program are designed to assist students to progress intellectually, physically, and socially by involving them in continued development of basic skills and exploratory activities. The middle school course profile that identifies course work and career exploration activities to be completed during the middle and high school years. Students are encouraged to take increasing responsibility for their own behavior and learning. All students are expected to meet benchmarks including completing algebra by the 8th grade.

1122 *Middle School Student Activities*

Expenditures for middle school extra-curricular activities.

1131 *High School Programs*

The high school instructional programs focus on learning experiences and activities which emphasize knowledge, skills, appreciation, attitudes, and behavioral characteristics needed by all students in order to graduate prepared to be successful in college and careers. Special efforts are made to help students understand themselves, their relationship with society, and the preparation necessary for their successful entry into the world of work and/or advanced academic and career training.

Increased graduation requirements and the need to prepare graduates for the 21st century have guided high schools to invest in the four dimensions of college readiness: key cognitive strategies; key content knowledge; academic behaviors; and contextual skills and awareness.

1132 *High School Student Activities*

This portion of the budget includes expenditures for student activities and athletics. These co-curricular programs supplement the basic instructional offerings by providing additional interests and experiences for student learning to take place.

Appendices

1210 Programs for the Talented and Gifted (TAG)

Instruction provided for intellectually gifted and academically talented students addressing their assessed levels and rate of learning.

1220-1224 Restrictive Programs for Students with Disabilities

Special learning experiences for students with disabilities who spend one-half or more of their time in a restricted setting. These learning experiences include but are not limited to such areas as Comprehensive Learning Centers, Developmental Kindergarten, Community Transition Centers, Life Skills with Nursing, Out of District programs, Home Instruction, Extended School Year programs, Diagnostic Classrooms and Functional Living Skills.

1229 Other Restrictive Programs

Services and activities designed to support students with Autism or behavior needs.

1250-1254 Less Restrictive Programs for Students with Disabilities

Special learning experiences for students with disabilities outside the regular classroom. These learning experiences include but are not limited to such areas as Learning Centers where students with disabilities go during certain periods of the school day to receive targeted instruction in specific subject or skill areas. All special education expenditures, including 1250, need to be reported to the state at the district level rather than the school level.

1260 Treatment and Habilitation

Services designed to evaluate children with developmental deficits in sensory, motor, communication, self-help, and socialization areas. It includes transition services to school-age programs.

1271 Remediation

Instructional activities designed to improve achievement of regular education students who are not meeting state performance standards. Activities take place outside regular class time; e.g., after school, Saturday School and Summer School.

1280 Alternative Education

Learning experiences for students who are not succeeding in a regular classroom setting; who are at-risk of dropping out of school; who may be more successful in a nontraditional environment; or who need a special education placement outside of District programs.

1288 Charter School Flow-Through

Expenditures related to District sponsored charter schools.

1291 English Language Learner (ELL) Program

Instructional activities designed to improve English skills of students who do not speak English as their native language.

1294 Youth Corrections Education

Instructional programs delivered to youth in detention.

Appendices

1460 Special Programs –Summer School

Instructional activities provided in accordance with summer school.

2110 Attendance and Social Work Services

Those activities which are designed to improve student performance at school and which attempt to prevent or solve student problems involving the home, the school, and the community.

2115 Student Safety

Activities associated with campus monitors, school police, crossing guards, and other direct expenses associated with services intended to enhance student campus and vicinity safety.

2122 Counseling Services

This program provides activities concerned with the relationship between students and others, including other students, staff, and parents. The major purpose of this effort is to assist pupils to understand their educational, personal and occupational strengths and limitations; to relate their abilities, emotions, and aptitudes to educational career opportunities; to form realistic plans and to achieve satisfying personal and social development.

2129 Other Guidance Services

Other guidance services not classified above.

2131 Health Services

Activities associated with directing and managing health services, which are not instruction, such as health inspection, treatment of minor injuries, and referrals for other health services.

2132 Medical Services

Activities concerned with the physical and mental health of students, such as health appraisal, screening for psychiatric services, periodic health examinations, emergency injury and illness care and communications with parents and medical officials.

2139 Other Medical Services

Other health services not classified above.

2142 Psychological Testing Services

Activities concerned with administering psychological tests, standardized tests and inventory assessment of ability, aptitude, achievement, interests and personality and the interpretation of these measures for students, school personnel and parents.

2143 Psychological Counseling Services

Activities concerned with administering psychological tests and interpreting the results, gathering and interpreting information about student behavior, working with other staff members in planning school programs to meet the special needs of students, conducting behavioral evaluations and interventions, and managing a program of psychological services.

2152 Speech Pathology Services

Speech/language services and support to students with disabilities.

Appendices

- 2169 *Miscellaneous Support of Educational Services*
Activities supporting District special educational programs.
- 2190 *Service Direction, Student Support Services*
Activities associated with directing and managing student support services.
- 2210 *Improvement of Instructional Services*
Activities designed primarily for assisting instructional staff in planning, developing and evaluating the process of providing learning experiences for students.
- 2211 *Service Area Direction*
Activities associated with directing and managing the improvement of instruction services.
- 2212 *Site-Based Improvement of Instruction*
Site-based activities associated with directing and managing the improvement of instructional services.
- 2213 *Curriculum Development Services*
Activities designed to aid teachers in developing, preparing and using curriculum materials.
- 2214 *Multicultural Education*
Activities associated with managing and directing the multicultural program.
- 2215 *Reimbursable Leave*
Licensed president leave, reimbursed by Eugene Education Association (EEA) as provided in the EEA/District Collective Bargaining Agreement.
- 2219 *Other Improvement of Instruction Services*
Activities for improving instruction other than those contained in the other 2210 functions. Staff including District coordinators of activities and athletics, music, technology, and language. Funds to support the student work study program.
- 2221 *Instructional Materials Center*
Activities associated with previewing publications.
- 2222 *Library/Media Center*
Activities such as selecting, acquiring, preparing, cataloging, and circulating print and non-print materials, and networking with other entities to offer a wide array of these materials to students and staff. Also included are services to instructional staff related to the use of the media center, media materials, and instruction of students in the use of media center materials and equipment.
- 2223 *MultiMedia Services*
Activities such as selecting, preparing, caring for, and making available to members of the instructional staff all multimedia equipment and materials.
- 2230 *Assessment and Testing*
Activities to measure individual student achievement. Information obtained is generally used to monitor individual and group progress in reaching District and state learning goals and requirements.

Appendices

2240 *Instructional Staff Development*

Activities specifically designed for instructional staff to assist them in preparing and using special/new curriculum materials, understanding and using best teaching practices, and any other activity designed to improve teacher performance.

2311 *Board of Directors Expenses*

Expenses incurred by Board members while directing and managing the general operation of the Eugene School District.

2321 *Office of the Superintendent Services*

Activities performed by the Superintendent and his/her assistants in the general direction and management of all affairs of the Eugene School District. This function includes all personnel and materials in the office of the Superintendent.

2411 *Principals Services*

Expenses connected with activities performed by principals in the general supervision of all operations of the school, evaluation of the staff members of the school, assignment of duties to staff members, supervision and maintenance of school records, and coordination of school instructional activities with instructional activities of the District. Clerical staff for these activities is included.

2521 *Financial Services*

Activities concerned with carrying out the functions of the financial services and accounting offices.

2541 *Operation and Maintenance of Plan Service Area Direction*

Activities to direct and manage the operation and maintenance of school plant facilities.

2542 *Maintenance Division Services*

This division includes both general maintenance of buildings and ground as well as painting and finishing, repair of floors, lockers, roofing and fencing, concrete work, glass work, plastering, pest control, etc.

2543 *Grounds Division Services*

Activities concerned with maintaining land and its improvements (other than buildings) in good condition.

2544 *Building Repair and Maintenance*

Expenditures for activities concerned with maintenance of the district's physical plant, including repair and replacement of facilities and equipment.

2546 *Security Services*

Activities concerned with maintaining security and safety of school property.

2548 *Care of Buildings Services*

Activities concerned with keeping the physical plant clean and ready for daily use. This includes services such as telephone, electricity, fuel, water, sewage, garbage, and custodial. Premiums for insurance coverage for property damage are recorded here.

Appendices

- 2549 *Fleet Maintenance Services*
Operation of the District's motor pool services.
- 2551 *Transportation Service Area Direction*
Activities pertaining to directing and managing pupil transportation services.
- 2552 *Vehicle Operation Services*
Activities concerned with operating vehicles for pupil transportation from the time the vehicles leave the point of storage until they return to that point. Driving buses or other pupil transportation vehicles is included. Liability insurance of pupil transportation vehicles is recorded here.
- 2554 *Vehicle Purchasing, Servicing, and Maintenance Services*
Activities concerned with maintaining pupil transportation vehicles in good operating condition.
- 2555 *Student Transportation*
Other than to and from school (District Expenses).
- 2556 *Student Transportation*
Other than to and from school (Refundable).
- 2559 *Other Pupil Transportation Services*
Pupil transportation services which cannot be classified under the preceding functions. Included are the costs for contracted transportation services, transportation permits, transportation safety, and out of District transportation.
- 2575 *Purchasing and Warehouse Services*
The operating of the district-wide activities of purchasing, receiving, storing and distributing supplies, furniture, equipment and materials for the Eugene School District.
- 2576 *Mail Distribution Services*
The collection and distribution of United States and district mail.
- 2630 *Public Information Services*
Activities concerned with writing, editing and other preparation necessary to disseminate educational and administrative information to pupils, staff, managers, and to the general public through direct mailing, the various news media, or personal contact.
- 2641 *Human Resources Service Area Direction*
Activities of directing and managing staff services including employment and assigning personnel and recording information relating to staff members.
- 2660 *Technology*
Activities concerned with all aspects of technology, which includes computing and data processing services such as networking and telecommunications costs.
- 2665 *Site-based Technology Services*
Activities to support instructional staff in the integration of technology into curriculum.

Appendices

- 2669 *Other Technology Services*
Activities concerned with data processing which are not described above.
- 2690 *Other Support Services – Central*
Used only in Fund 600 for claims paid.
- 2700 *District Retirement Program*
Costs associated with a supplemental retirement program provided to eligible employees by the District.
- 2710 *Retirement Pay Plan (Licensed)*
Used in Fund 790 only.
- 2720 *Retirement Pay Plan (Administrators, Supervisors, Confidentials)*
Used in Fund 790 only.
- 2730 *Other Personnel Services – Retirement (Classified)*
Activities concerned with the retirement pay plan for classified employees of the Eugene School District.
Used only with Fund 790.
- 3100 *Food Services*
Activities concerned with providing food to students and staff in a school or district. This service area includes the preparation and serving of regular and incidental meals, lunches, or snacks in connection with school activities, and the delivery of food.
- 3190 *Food Services - Summer:* Activities concerned with the preparation and serving of Nutrition Services summer meal program.
- 3320 *Community School Services*
Activities which are not directly related to the provision of education for students in the Eugene School District. These include services such as community recreation programs, civic activities, and community school programs provided by the Eugene School District for the community as a whole or in part.
- 3390 *Radio KRVM Services*
Activities related to KRVM Radio broadcasting.
- 3510 *Custody and Care of Children Services*
Activities pertaining to the provisions of programs for the custodial care of children in residential day schools, or child care centers which are not a part of, or directly related to, the instructional program, and where the attendance of the children is not included in the attendance figures for the Eugene School District.
- 4111 *Service Area Direction*
Activities concerned with direction and management of facilities acquisition and construction.
- 4120 *Site Acquisition and Development Services*
Activities pertaining to the initial acquisition of sites and improvements thereon.

Appendices

4150 Building Acquisition, Construction, and Improvement Services

Activities concerned with building acquisition through purchase or construction and building improvements. Initial installation or extension of service systems, other built-in equipment and building additions are included.

5110 Long-Term Debt Service

Expenditures for debt retirement exceeding 12 months.

5120 Short-Term Debt Retirement

Expenditures for debt retirement paid in full within the fiscal year.

5200 Transfers of Funds

All transfers from one fund to another.

6110 Operating Contingency

Amounts budgeted to allow for unforeseen expenditures and unusual increases in necessary requirements. Any expenditure is approved by the Board of Directors and the funds are transferred to the correct appropriation to cover the costs.

6111 Contingency – Special Education

Amounts budgeted to allow for unforeseen expenditures and unusual increases in necessary requirements. Any expenditure is approved by the Board of Directors and the funds are transferred to the correct appropriation to cover the costs.

6115 Operations Reserve

Amounts budgeted to address District operational needs. Expenditures are approved by the Board of Directors and the funds are transferred to the correct appropriation to cover the costs.

7000 Reserves and Fund Balances

Carry-over to the next year's budget for stability in volatile economic times and cash flow until other resources are received. It cannot be accessed by resolution or supplemental budget during the fiscal year in which it is budgeted. It is described under Board policy.

Appendices

Glossary

A

ACCOUNTING SYSTEM

The total structure of records and procedures which discover, record, classify, summarize, and report information on the financial position and results of operations of a government of any of its funds, fund types, balanced account groups, or organizational components.

ACCRUAL BASIS

The basis of accounting under which transactions are recognized when they occur regardless of the timing of related cash flows.

ACTIVITY

A specific and distinguished line of work performed by one or more organizational components of a government for the purpose of accomplishing a function for which the government is responsible. For example, food inspection is an activity performed in the discharge of the health function.

ACHIEVEMENT GAP

A persistent and significant disparity in educational achievement and attainment among groups of students as determined by a standardized measure.

ADM

Average daily membership is a student count used for state funding purposes. It is calculated as the total days' membership during a specific reporting period, divided by the number of days school was in session during that reporting period.

ADM_r

Resident average daily membership of the students who live within District boundaries, with kindergarten students included as half students.

ADM_w

Average daily membership of daily student enrollment increased by a variety of weighting factors. For example, each student qualifying for special education services is given one additional weight and counted as 2.0 full-time equivalents (FTE) for funding purposes.

ADOPTED BUDGET

The financial plan adopted by the school board which forms a basis for expenditure appropriations.

APPROPRIATION

A legal authorization to make expenditures and incur obligations for specific purposes. Total appropriations include the adopted budget and any supplemental budget(s). The legal appropriation is the amount authorized by the Board.

Appendices

ASSESSED VALUE (AV)

The portion of value of real or personal property that is taxable; the lesser of the property's real market value or the constitutional value limit. The value limit may increase 3% annually unless qualifying improvements or changes are made to the property. See "Measure 50."

ASSESSMENT

A method to measure what students are learning (i.e., testing).

ASSETS

Resources owned or held by a government, which have monetary value.

ADVANCEMENT VIA INDIVIDUAL DETERMINATION (AVID)

A college readiness system for elementary through higher education that is designed to increase school-wide learning and performance.

B

BALANCED BUDGET

Projected resources equal projected requirements within each fund.

BEGINNING FUND BALANCE

Funds carried forward from the current fiscal year into the next budgeted fiscal year that become a resource to support the appropriations for the next budgeted fiscal year.

BOND or BOND ISSUE

A certificate of debt guaranteeing payment of the original investment plus interest on specific dates. Bonds are typically used by governments to pay for large public projects like new schools.

BUDGET

A plan of financial operation embodying an estimate of proposed means of financing them for a single fiscal year. A proposed budget is presented to the budget committee for approval. An approved budget is subsequently adopted as approved or modified by the School Board.

BUDGET COMMITTEE

Fiscal planning board of a local government or district, consisting of the governing body (school board) plus an equal number of legal voters from the district, who are appointed by the governing body (*Oregon Revised Statutes, 294.336*).

BUDGET DOCUMENT

The instrument used by the budget-making authority to present a comprehensive financial plan to the School Board, which is the appropriating body. The budget document contains a message from the Superintendent, together with a summary of the proposed expenditures, means of financing them, and the schedules supporting the summary. These schedules show in detail the information as to past years' actual revenues, expenditures, and other data used in making the estimates.

Appendices

BUDGETARY CONTROL

The management of the district, in accordance with an approved budget, for the purpose of keeping expenditures within the limitations of available appropriations and available revenues.

C

CAPITAL ASSETS

Assets with an initial individual cost of more than \$5,000 and an estimated useful life in excess of one year. Capital assets include grounds and improvements, buildings, construction in progress, intangibles, equipment and vehicles.

CAPITAL BUDGET

A plan of proposed capital projects for the coming year and the means for financing them.

CAPITAL EXPENDITURES

Expenditures that result in the acquisition of or addition to capital assets.

CASH BASIS

The basis of accounting under which transactions are recognized only when cash changes hands.

CLASSIFIED EMPLOYEES

Support staff, including instructional assistants, clerical staff, bus drivers, custodians, maintenance and food service staff.

CONTINGENCY

An amount budgeted each year for unforeseen expenditures. Board policy recommends a General Fund operating contingency of 2% of expenditures. Transfer of general operating contingency funds to cover unanticipated expenditures requires Board approval.

CURRENT RESOURCES

Resources available to meet current obligations and expenditures. Examples are current assets, estimated revenues of a particular period not yet realized, transfers from other funds authorized but not received, and in the case of certain funds, bonds authorized and un-issued.

D

DEBT SERVICE

The amount of money needed to make periodic payments on the principal and interest on an outstanding debt. Debt service is usually expressed as an annual amount.

DEFICIT

The excess of the liabilities of a fund over its assets. Oregon school districts may not carry deficits in any fund.

Appendices

E

EARLY COLLEGE AND CAREER OPTIONS (ECCO)

A comprehensive 4J high school offering a state-accredited diploma. Class sizes are small and credit is accelerated, helping students who have dropped out or who have not experienced success in traditional programs. ECCO offers opportunities for independent study and nontraditional methods for completing graduation requirements.

EDUCATION STABILITY FUND

Established in 2002 by constitutional amendment and funded with 15% of lottery earnings. Has similar triggers to access as Rainy Day Fund but no two thirds cap on withdrawals. Limited to 5% of state General Fund revenues collected in the prior biennium. Tapped for K-12 support in 2001-03, 2003-05, 2007-09 and 2011-13.

ELEMENTARY AND SECONDARY EDUCATION ACT (ESEA)

Federal statute originated in 1965 and is currently authorized under the Every Student Succeeds Act (ESSA). The Every Student Succeeds Act represents the largest source of federal support for K-12 education and focuses resources on the neediest students and schools. Includes Title 1 funding for economically disadvantaged students at risk of falling behind.

EVERY STUDENT SUCCEEDS ACT (ESSA)

The Every Student Succeeds Act (ESSA) replaces No Child Left Behind (NCLB) and is the most recent authorization of the Elementary and Secondary Education Act (ESEA), the principal federal law affecting K–12 education. A number of federal entitlement programs (Title I–V) are grouped together under this program name.

ENDING FUND BALANCE

The difference between a fund’s resources and requirements at year end.

ENGLISH LANGUAGE LEARNER (ELL)

The English Language Learner program provides educational support to students who do not meet a minimal English language proficiency standard.

EQUALIZATION

A method for allocating local and state funds for schools adopted by the 1991 Oregon Legislature and modified slightly since then. The purpose of equalization is to ensure that students in all of Oregon’s districts are treated more or less equally in terms of how state and local resources are allocated. Equalization is implemented through the State School Fund formula which allocates local and state funds on a weighted per student basis.

ESSENTIAL BUDGET LEVEL (EBL)

Amount calculated by the Legislative Revenue Office prior to each biennial legislative session to project the state budget level required to continue current service levels.

EUGENE EDUCATION ASSOCIATION (EEA)

The employee group representing licensed employees.

Appendices

EUGENE EDUCATION OPTIONS (EEO)

A consolidation and enhancement of existing alternative education services offered to traditional and non-traditional school populations such as at-risk students in Options High Schools, students attending Early College & Career Options, traditional and non-traditional students accessing online instruction, and other student populations who need personalized programs and services.

EXPENDITURES

Decreases in net financial resources. Expenditures include current operating expenses which require the current or future use of net current assets, debt service, and capital outlays.

F

FREE APPLICATION FOR FEDERAL STUDENT AID (FAFSA)

Form which must be completed by all students interested in financial aid for college.

FISCAL YEAR

A 12-month period that determines the time frame for financial reporting, budgeting and accounting. For Eugene School District 4J, the fiscal year is July 1 through June 30.

FIXED COST

A cost such as rent that does not change with increases or decreases in the amount of services provided.

FTE

Full-time equivalent staff. One FTE is defined as a regular position scheduled to work eight hours per day.

FUNCTION

Expenditure classification identifying the activity or principal purpose for which an expenditure is made.

FUND

A fiscal and accounting entity with a self-balancing set of accounts recording cash and other financial resources together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations.

FUND STRUCTURE

The District budgets its resources in eight funds—four major governmental funds, two non-major governmental funds, and two proprietary—or internal service—funds. The funds are:

Major Governmental Funds

- General
- Federal, State and Local Programs
- Capital Projects
- Debt Service

Non-major Governmental Funds

- Nutrition Services

Appendices

- School Resources

Proprietary (Internal Service)

- Insurance Reserve
- Postemployment Benefits

G

GENERAL FUND

The fund used to account for District operations except those required to be accounted for in another fund.

GENERAL OBLIGATION (G.O.) BOND

A bond that is secured by the pledge of a government's "full faith and credit." General obligation bonds issued by a jurisdiction are secured by the jurisdiction's ad valorem taxing power which is typically not subject to a constitutional limitation on the tax rate.

H

HEALTHY, HUNGER-FREE KIDS ACT OF 2010 (HHFKA)

Legislation which authorizes funding and sets policy for the United States Department of Agriculture's (USDA) core child nutrition programs (National School Lunch Program, School Breakfast Program, Special Supplemental Nutrition Program for Women, Infants, and Children, the Summer Food Service Program, and the Child and Adult Care Food Program).

HIGH COST DISABILITY GRANT

State School Fund allocation to reimburse school districts for expenditures above \$30,000 per student for high cost special education students.

I

IDEA

The Individuals with Disabilities Education Act is federal legislation which requires local districts to provide free and appropriate education in the least restrictive environment to students with disabilities.

IEP (INDIVIDUALIZED EDUCATION PROGRAM)

A written statement of an educational program for a student receiving special education services. An IEP is required for each student receiving such services.

INDIRECT COST

A cost necessary for the functioning of the organization as a whole, but which cannot be directly assigned to one service.

INTERNAL SERVICE FUND

A fund used to account for the financing of goods or services provided by one department or agency to other departments or agencies of a government, or to other governments, on a cost-reimbursement basis.

Appendices

K

KRVM

District 4J's radio station which provides career education in communications media and broadcasts school district activities.

L

LIABILITIES

Debt or other legal obligations arising out of transactions in the past which must be liquidated, renewed, or refunded at some future date. This term does not include encumbrances.

LICENSED EMPLOYEES

Includes teachers, counselors, media specialists, psychologists, social workers, nurses, athletic trainers, and occupational, speech, and physical therapists.

LOCAL OPTION

A tax levy approved by the 1999 Legislature to allow school districts to raise additional funds for operations or capital needs. Funds are excluded from the State School Fund formula.

M

MANAGERS, ADMINISTRATORS, PROFESSIONALS, AND SUPERVISORS (MAPS)

The employee association representing managers, administrators, professionals, and supervisors.

MEASURE 5

Property tax limitation passed by Oregon's voters in November 1990, limiting local property taxes for schools to \$5 per \$1,000 of assessed value.

MEASURE 47

Property tax limit passed by Oregon voters in November 1996, rolling taxes back to 1995–96 levels less 10% and capping future increases by 3% annually.

MEASURE 50

Initiative referred by legislature and approved by voters to clarify and implement Measure 47. Measure 50 set the assessed value for each property and limited future annual growth to 3%, with exceptions. Under Measure 50, assessed value cannot exceed real market value. Prior to Measure 50, property was assessed at real market value. Also imposed "double majority" requirement of 50% voter turnout and majority affirmative vote at all elections except November general elections (even-numbered years). ("Double majority" requirement overturned by Measure 56 in 2009. See below.)

MEASURE 56

State ballot measure referred by the Legislature to remove the "double majority" requirement for approval of local property tax measures from all May and November elections. Approved by voters in November 2008.

Appendices

MEASURES 66 and 67

Citizen tax referenda for voters to affirm two tax increases approved by the 2009 legislature. Measure 66 increased personal income tax rates for high-income individuals, and Measure 67 increased corporate taxes by raising the \$10 corporate minimum tax to \$150, raising the corporate profits tax, and increasing certain business filing fees. Approved January 2010.

MEASURE 98

The High School Graduation and College and Career Readiness Act of 2016 (Measure 98) provides direct funding to school districts to increase high school graduation rates. Measure 98 identifies three specific areas: 1) Establish or expand career and technical education programs in high schools, 2) Establish or expand college-level educational opportunities for students in high schools, and 3) Establish or expand dropout-prevention strategies in high schools. A school district will receive funds under Measure 98 if the school district submits a biennial plan for increasing high school graduation rates using the three identified strategies. A district's biennial plan must be approved by the ODE. Approved November 2016.

MODIFIED ACCRUAL BASIS

Basis of accounting used for all governmental funds. Revenues are recognized when they become both "measurable" and "available to finance expenditures of the current period." Expenditures are recognized when the related fund liability is incurred.

N

NO CHILD LEFT BEHIND ACT (NCLB)

The former authorization of the Elementary and Secondary Education Act (ESEA), the principal federal law affecting K–12 education.

O

OREGON ASSESSMENT OF KNOWLEDGE AND SKILLS (OAKS)

State assessment testing of student achievement in the areas of reading, math, writing and science for students in grades 3 through 12.

OBJECT

As used in expenditure classification, this term applies to the article purchased or the service obtained (as distinguished from the results obtained from expenditures). Examples are salaries, employee benefits, personal services, materials, and supplies.

OPERATING BUDGET

Plans of current expenditures and the proposed means of financing them. The annual operating budget is the primary means by which most of the financing acquisition, spending, and service delivery activities of a government are controlled. The use of an annual operating budget is required by state law.

Appendices

OREGON EDUCATIONAL ACT FOR THE 21ST CENTURY

A sweeping school improvement effort initiated in 1991, calling for increased academic standards, student achievement and accountability through benchmark testing and public/parent involvement and reporting of progress.

OREGON PUBLIC EMPLOYEES RETIREMENT FUND (OPERF)

A cost sharing multiple-employer defined benefit pension plan administered by the Oregon Public Employees Retirement System; this plan is for qualifying employees who were hired before August 29, 2003. Members in this plan are either Tier One (hired on or before December 31, 1995) or Tier Two (hired on or after January 1, 1996 and before August 29, 2003).

OREGON PUBLIC SERVICE RETIREMENT PLAN (OPSRP)

A hybrid successor plan to the OPERF; OPSRP consists of two programs. The Pension Program is the defined benefit portion of the plan and applies to qualifying employees hired after August 29, 2003. Beginning January 1, 2004, all PERS member contributions go into the Individual Account Program (IAP), the defined contribution portion of the plan. PERS members retain their existing PERS accounts, but any future member contributions are deposited into the member's IAP.

OREGON SCHOOL EMPLOYEES ASSOCIATION (OSEA)

The employee group representing classified staff.

P

PAYROLL COSTS

Amounts paid by the District on behalf of employees, in addition to gross salary. Examples are group health insurance; contributions to public employees retirement system (PERS); social security (FICA); workers' compensation; and unemployment insurance.

PUBLIC EMPLOYEES RETIREMENT SYSTEM (PERS)

System that administers public employee benefits in Oregon. The District contributes to two pension plans administered by PERS: the Oregon Public Employees Retirement Fund (OPERF) and the Oregon Public Service Retirement Plan (OPSRP).

Q

QUALITY EDUCATION MODEL (QEM)

A model, developed by the legislative Council on the Quality Education Model and refined by the Oregon Quality Education Commission, specifies what constitutes adequate funding and services for elementary, middle and high school students.

R

RAINY DAY FUND

Established by the 2007 legislature and built by moving funds from the state ending fund balance at the end of each biennium. Withdrawals require one of three conditions to be met plus three fifths vote of legislature.

Appendices

Conditions are decline in employment, projected budgetary shortfall, and declaration of state of emergency. Withdrawals are limited to two thirds of balance at beginning of biennium.

REAL MARKET VALUE (RMV)

Defined under Measure 50 to be the amount of cash that could reasonably be expected to be paid by an informed buyer to an informed seller as of the assessment date for the tax year.

REQUIREMENT

An expenditure or net decrease to a fund's resources.

RESERVE FUND

Established to accumulate money from one fiscal year to another for a specific purpose.

RESOURCES

Estimated beginning fund balances on hand at the beginning of the fiscal year, plus all anticipated revenues.

REVENUES

Monies received or anticipated by a local government from either tax or non-tax sources.

S

SCHOOL YEAR SUBACCOUNT

Funds allocated in 2011-12 to K-12 school districts by the State Legislature for the purpose of reducing class size and enhancing student learning opportunities in such ways as increasing the number of school days.

SEQUESTER / SEQUESTRATION

Across-the-board budget reductions in specific categories of federal spending resulting from a policy of fiscal austerity. Funding cuts negatively impacted District grants and subsidies beginning in the 2013-14 fiscal year.

STAFFING RATIO

The licensed staffing ratio is the ratio of students to licensed staff. Class size is higher than the staffing ratio because counselors and specialists in areas such as Music, Media, P.E., are funded through the staffing ratio.

STATE SCHOOL FUND

A long-standing state fund within the budget of the Oregon Department of Education which holds the major appropriation of state support for public schools. Annual grants are distributed to school districts on a per-student basis in eleven payments per year, according to a legislatively adopted formula. This formula incorporates monies held in the State School Fund plus local property taxes and other local revenues such as Federal Forest Fees, Common School Funds and County School Funds.

STEM

Science, Technology, Engineering, and Mathematics curriculum.

STRUCTURALLY BALANCED BUDGET

A budget that supports financial sustainability for multiple years into the future.

Appendices

SUPPLEMENTAL BUDGET

Prepared to meet unexpected needs or to spend revenues not anticipated at the time the regular budget was adopted. A supplemental budget cannot be used to increase a tax levy.

T

TAG

The Talented and Gifted (TAG) State legislation requires local districts to provide programs and services to academically talented and cognitively gifted students at their assessed level and rate of learning.

TITLE I

Title 1 of the Elementary and Secondary Education Act is federal funding aimed at students who are behind academically or at risk of falling behind. Funding provides assistance to students who are economically disadvantaged.

TOSA

Teacher on special assignment, usually performing project work such as curriculum development or program coordination.

TRANSFERS

Amounts distributed from one fund to finance activities in another fund. Shown as an expenditure in the originating fund and revenue in the receiving fund.

TRANSITION EDUCATION NETWORK (TEN)

A creative 21st century program that provides appropriate instruction and opportunities to students with developmental disabilities, ages 14–21. The program maximizes students' potential in educational, social, vocational, recreational and residential areas.

TSPC

The Teacher Standards and Practices Commission is an organization separate from the Oregon Department of Education which provides licenses to teachers and administrators.

U

UNAPPROPRIATED ENDING FUND BALANCE (UEFB)

Amount budgeted to carry over to the next year's budget to provide the District with needed cash flow until other money is received and to provide financial stability. This amount cannot be transferred by resolution or used through a supplemental budget during the fiscal year.

W

WORKING CAPITAL

Financial term for the liquidity of an organization's financial condition. Sometimes refers to beginning or ending fund balances.

Notice of Budget Committee Meeting: 2018–19 Proposed Budget Presentation & Public Comment

Published: APRIL 20, 2018

LEGAL NOTICE:

Eugene School District 4J
School District No. 4J, Lane County, Oregon
Notice of Budget Committee Meeting

A public meeting of the Budget Committee of Lane County School District 4J (Eugene Public Schools), Lane County, State of Oregon, to discuss the budget for the fiscal year July 1, 2018 to June 30, 2019, will be held at the Education Center Auditorium located at 200 N. Monroe Street, Eugene, Oregon.

The meeting will take place on May 7, 2018, at 6:00 p.m. The purpose of the meeting is to receive the budget message and to receive comment from the public on the budget.

This is a public meeting where deliberation of the Budget Committee will take place. Any person may appear at the meeting to ask questions about and comment on the budget document.

An additional meeting will be held on May 21, 2018, at 6:00 p.m. at the Education Center Auditorium.

A copy of the budget document may be inspected or obtained on or after April 19, 2018, at the Financial Services office in the Education Center at 200 N. Monroe Street between the hours of 8:00 a.m. and 5:00 p.m.

Andrea Belz
Deputy Clerk

FORM ED-1 NOTICE OF BUDGET HEARING
A public meeting of the Board of Directors of Lane County School District 4J will be held on June 6, 2018 at 7:00 p.m. at 200 North Monroe Street, Eugene, Oregon. The purpose of this meeting is to discuss the budget for the fiscal year beginning July 1, 2018 as approved by the Lane County School District 4J Budget Committee and to take public testimony. Action on the budget is scheduled for June 20, 2018. A summary of the budget is presented below. A copy of the budget may be inspected or obtained at the Financial Services office, 200 North Monroe Street, Eugene, Oregon, between the hours of 8:00 a.m. and 5:00 p.m., or online at <http://www.4j.lane.edu/finance>. This budget is for an annual budget period. This budget was prepared on a basis of accounting that is the same as the basis of accounting used during the preceding year.

* not included in total 5000 Other Uses. To be appropriated separately from other 5000 expenditures.

STATEMENT OF CHANGES IN ACTIVITIES AND SOURCES OF FINANCING

Resources: The District's declining Beginning Fund Balance reflects the continued expenditure of bond funds as capital projects and planned purchases are completed. All bond issuances under Measure 2011 and Measure 2013 authorizations have been completed and the Debt Service Tax Levy reflects all 2018-19 principal and interest requirements for these measures. Increased 2018-19 property taxes and local option tax collections are a result of continued growth in assessed property values. The General Fund portion of the increased property tax collections is offset by a corresponding decrease in the State School Funding formula allocation. In 2018-19 other funds resources reflects a reduction in federal funding for Title funds, and also includes Measure 98 funding of \$2.5 million estimated to be allocated in 2018-19 and approximately \$0.8 million in carryover funding from 2017-18.

Requirements: The 2018-19 approved budget includes \$5.9 million in General Fund spending growth related to an increase in behavioral and special education supports, increased elementary physical education teachers, negotiated compensation increases for licensed and administrative staff, as well as support for ongoing operations and 4J Vision 20/20 investments. Capital outlay spending increased in 2018-19 which is primarily due to the projected completion of remaining bond funded projects. To support operating stability, the 2018-19 Contingency includes a \$4.6 million General Fund contingency and a \$17.6 million General Fund Operations Reserve established to address projected future increases in pension costs and to offset estimated future operating deficits. The General Fund Unappropriated Ending Fund Balance (UEFB) is set at the Board policy minimum of 5.0% of General Fund revenues, the Capital Projects Fund ending balance reflects a reduction due to the planned spending for bond projects, and other fund ending balances reflect amounts set aside for future spending for student body, insurance reserves, and post-employment benefits.

PROPERTY TAX LEVIES

	Rate or Amount Imposed	Rate or Amount Approved	Rate or Amount Approved
Permanent Rate Levy (Rate Limit 4.7485 per \$1,000)	4.7485	4.7485	4.7485
Local Option Levy	1.5000	1.5000	1.5000
Levy For General Obligation Bonds	\$24,489,261	\$23,824,301	\$24,786,898

STATEMENT OF INDEBTEDNESS

	Estimated Debt Outstanding July 1	Estimated Debt Authorized, But Not Incurred on July 1

ITEM FOR ACTION (Second Read)

Date of Meeting

June 20, 2018

Title

APPROVE A RESOLUTION ADOPTING THE 2018-19 BUDGET, MAKING APPROPRIATIONS, IMPOSING AND CATEGORIZING TAXES

Presenters

Andrea Belz

Background

In compliance with Oregon Revised Statute (ORS) Chapter 294.453, on June 6, 2018 the Board conducted a public hearing on the budget document as approved by the Budget Committee on May 21, 2018.

In accordance with ORS Chapter 294.456(1)(a), prior to July 1, 2018, the Board must adopt the 2018-19 budget, make appropriations, declare and categorize property tax amount or rate to be certified to the assessor for the ensuing year and to itemize and categorize the ad valorem property tax amount or rate as required under ORS 310.060. The Board may make limited amendments to budget estimates, appropriations and tax amounts.

Approved Budget

For fiscal year 2018-19, General Fund resources are projected to increase by \$10.9 million to \$213.8 million from \$202.9 million in the prior year. The primary sources of change in resources are a \$2.9 million increase in property tax receipts, and a \$9.4 million increased beginning fund balance. State School Fund revenues are decreasing by \$2.8 million due to a combination of higher local revenues, reduction of the poverty weighting in the District and enrollment numbers in relation to overall state figures. Projections from the State School Fund assume a K-12 statewide budget appropriation of \$8.2 billion split 50%/50% over 2017-18 and 2018-19 respectively, and property valuation growth of 3.0% a year.

District operating requirements are also projected to rise by \$10.8 million to \$207.1 million, excluding an unexpended ending fund balance of \$6.7 million. While this increase reflects a wide variety of adjustments to the 2018-19 operating budget, \$5.5 million of the increase are investments to continue to align the budget to the 4J Vision 20/20 Strategic Plan through targeted investments and other instructional supports including \$1.2 million in behavioral supports, \$1.2 million for elementary prep time and counselors, \$1.3 million for staffing due to enrollment growth and staffing pool. The remaining increase to the General Fund requirements comes primarily from a \$5.0 million increase to the operating reserve and contingency.

Changes to other funds include a decrease in spending of \$14.00 million in Capital Projects as the construction on the Arts & Technology Academy and River Road El Camino del Rio projects end. This reduction is partially offset by an increase in Federal, State and Local Programs of \$1.2 million which includes the High School Graduation and College and Career Readiness ACT

(Measure 98) and a small increase in Nutrition Services of \$0.5 million to address greater staffing needs resulting, in part, from free breakfasts to all elementary students.

Options and Alternatives

The ORS does not provide for any alternatives to this process. The Board may request limited adjustments in the budget for adoption at the June 20 meeting.

Budget/Resource Implications

The budget must be adopted by June 30, 2018 to provide spending authority and certify to the tax assessor an ad valorem tax rate and debt service levy for the fiscal year beginning July 1, 2018.

Board/Superintendent Goals

This item is related to the Board goal to provide prudent stewardship of District resources to best support student success, educational equity and choice.

Recommendation

The Superintendent recommends approval of a resolution adopting the 2018-19 budget, making appropriations, and imposing and categorizing taxes. A copy of the resolution is included in your agenda packet.

RESOLUTION No. 2019-01

ADOPTING THE BUDGET

BE IT RESOLVED that the Board of Directors of the Lane County School District No. 4J hereby adopts the budget for fiscal year 2018-2019 in the total amount of \$389,215,524. This budget is now on file at the Superintendent’s Office, 200 North Monroe Street, Eugene, OR.

MAKING APPROPRIATIONS

BE IT RESOLVED that the amounts for the fiscal year beginning July 1, 2018 and for the purposes shown below are hereby appropriated as follows:

General Fund	
Instruction	\$ 113,178,324
Support Services	70,260,252
Enterprise & Community Services:	486,706

Instruction	\$ 200,000
Total	\$ 200,000

Total Appropriations, All Funds	\$ 372,649,496
Total Unappropriated and Reserve Amounts, All Funds	16,566,028
TOTAL ADOPTED BUDGET	\$ 389,215,524

IMPOSING THE TAX

BE IT RESOLVED that the following ad valorem property taxes are hereby imposed upon the assessed value of all taxable property within the district for tax year 2018-2019:

- (1) At the rate of \$4.7485 per \$1,000 of assessed value for permanent rate tax;
- (2) At the rate of \$1.5000 per \$1,000 of assessed value for local option tax; and
- (3) In the amount of \$24,786,898 for debt service on general obligation bonds.

CATEGORIZING THE TAX

BE IT RESOLVED that the taxes imposed are hereby categorized for purposes of Article XI section 11b as:

Education Limitation

Permanent Tax\$4.7485 / \$1,000
Local Option Tax.....\$1.50 / \$1,000

Excluded from Limitation

General Obligation Bond Debt Service\$24,786,898

The above resolution statements were approved and declared adopted on June 20, 2018.

Clerk

Chair of the Board

Notice of Property Tax and Certification of Intent to Impose a Tax on Property for Education Districts

FORM ED-50 2018-2019

To assessor of Lane and Linn County

- File no later than JULY 15.
- Be sure to read instructions in the current Notice of Property Tax Forms and Instruction booklet.

Check here if this is an amended form.

The Lane County School District 4j has the responsibility and authority to place the following property tax, fee, charge or assessment

District Name

on the tax roll of Lane and Linn County. The property tax, fee, charge or assessment is categorized as stated by this form.
