# LINOLEUM MAINTENANCE

## Marmoleum Cleaning & Maintenance

as simple and efficient as you expect it to be

Marmoleum with Topshield2 is an extremely flexible floor when it comes to cleaning and maintenance. There is no requirement for a specific method or cleaning machines, and in fact any type of method that is currently used can also be used on Forbo Marmoleum. The Forbo floor care scheme is a simple to use method that can be executed through simple daily dry cleaning and periodic maintenance delivering optimal result.

### 1. Cleaning after installation

After installation the floor only requires cleaning - the application polish is not necessary. Sweep, dust mop or vacuum floor to remove loose soil

- Clean the floor with cleaner and a mop
- Pick up dirty water with a wiper and mop or a water vac
- Rinse with clean water and a mop
- Allow the floor to dry

If required, dry or spray buff the floor with a rotary machine and a suitable pad

### 2. Regular cleaning

• Wipe with dust mop and dust cloth, or vacuum the floor

• Remove spots with a damp mop

When required – spray clean the floor with a rotary machine and a red pad

Use spray where necessary

### 3. Occasional maintenance

• Scrub with cleaner, rotary machine and scrub pad

• Pick up dirty water with wiper and mop or water vac

• Rinse with clean water and mop

• Allow the floor to dry

Dry or spray buff the floor with a rotary machine and a red pad
